Education Choice & Innovation Committee

Meeting Packet
January 10, 2006

The Florida House of Representatives

Education Council

Choice & Innovation Committee

Allan G. Bense
Speaker

John Stargel
Chair

MEETING AGENDA

January 10, 2006
214 Capitol, 1:15-3:15 PM

I. **Call to Order**

II. **Chairman's Remarks**

III. **Teacher Recruitment and Retention Presentation**
- **Dr. Cheri Pierson Yecke, Chancellor K-12 Education**

IV. **SUCCEED, FL and Educator Preparation Institutes**
- **Ian Neuhard, Director, Academic Programs and Teacher Preparation**

V. **School Districts' Compliance with Class Size Reduction Requirements**
- **Jeanine Blomberg, Chief of Staff, DOE**

VI. **Closing Comments**

VII. **Adjournment**

209 House Office Building, 402 South Monroe Street, Tallahassee, Florida 32399-1300
(850) 410-4925

Teacher Recruitment and Retention

Teacher Recruitment and Retention

House Choice and Innovation Committee

January 10, 2006

Our Challenge:

- Maintaining the *quality* of Florida's teaching force while increasing the *quantity* of our teaching force.

Action Plan:

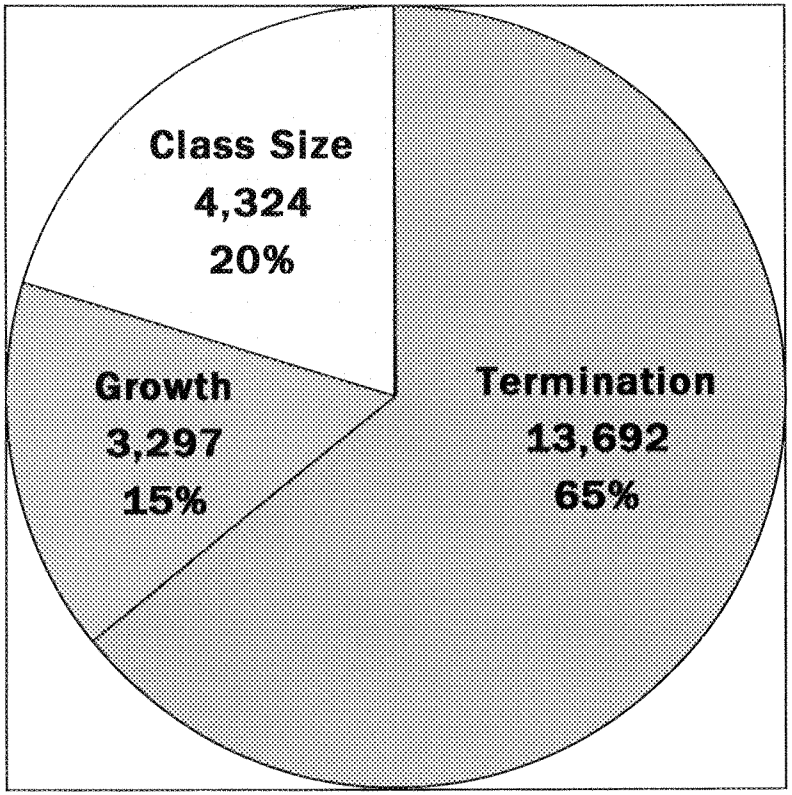
- Aggressively pursue highly effective teachers through strategic recruitment and retention.

Our Challenge:
Maintaining Teacher Quality

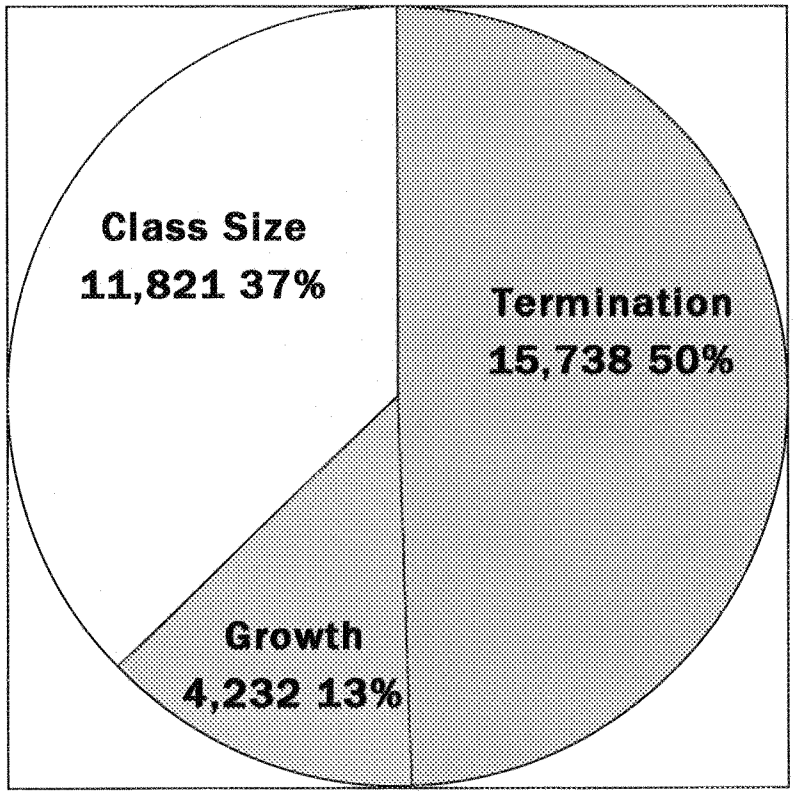
- **"...more can be done to improve education by improving the effectiveness of teachers than by any other single factor – *Sanders, Wright, et al, 1997***
- **A Sanders and Rivers study from 1996 showed that children assigned to three** *effective teachers* **in a row scored at the 83rd percentile in math at the end of 5th grade, while children assigned to three** *ineffective teachers* **in a row scored at the 29th percentile.**
- **The residual effects of both very effective and ineffective teachers were measurable two years later – *Sanders and Horn, 1998***

Projected Needs

2004-05: 21,313 teachers needed



2006-07: 31,791 teachers needed



Projected Needs 2006-07

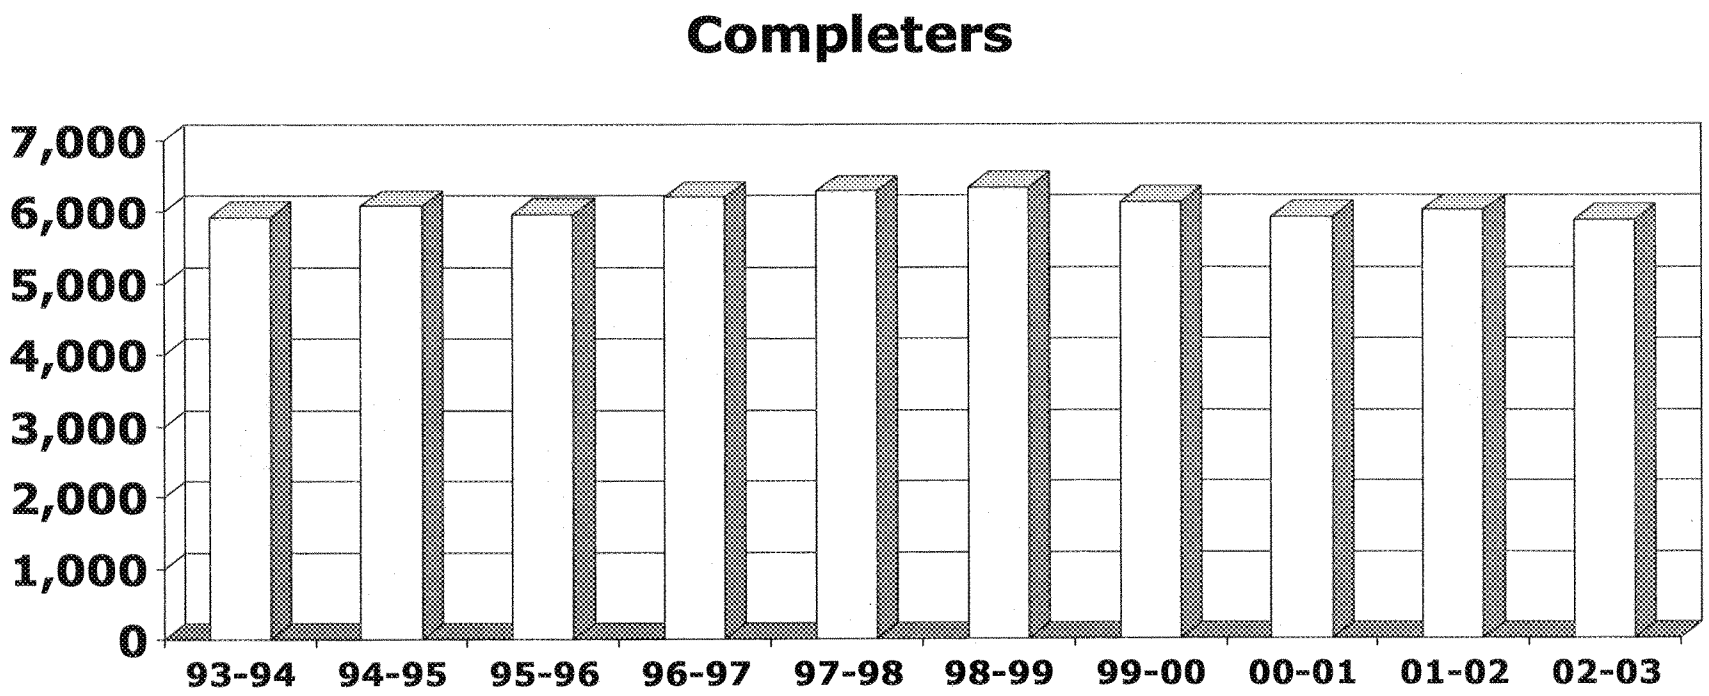
Growth	4,232
Class Size	11,821
Est. Retirements	2,990
+Involuntary Terminations	2,518
Recruitment Vacancies	**21,561**

Voluntary Terminations	10,230
Retention Vacancies	**10,230**

High Need Subjects for 06-07

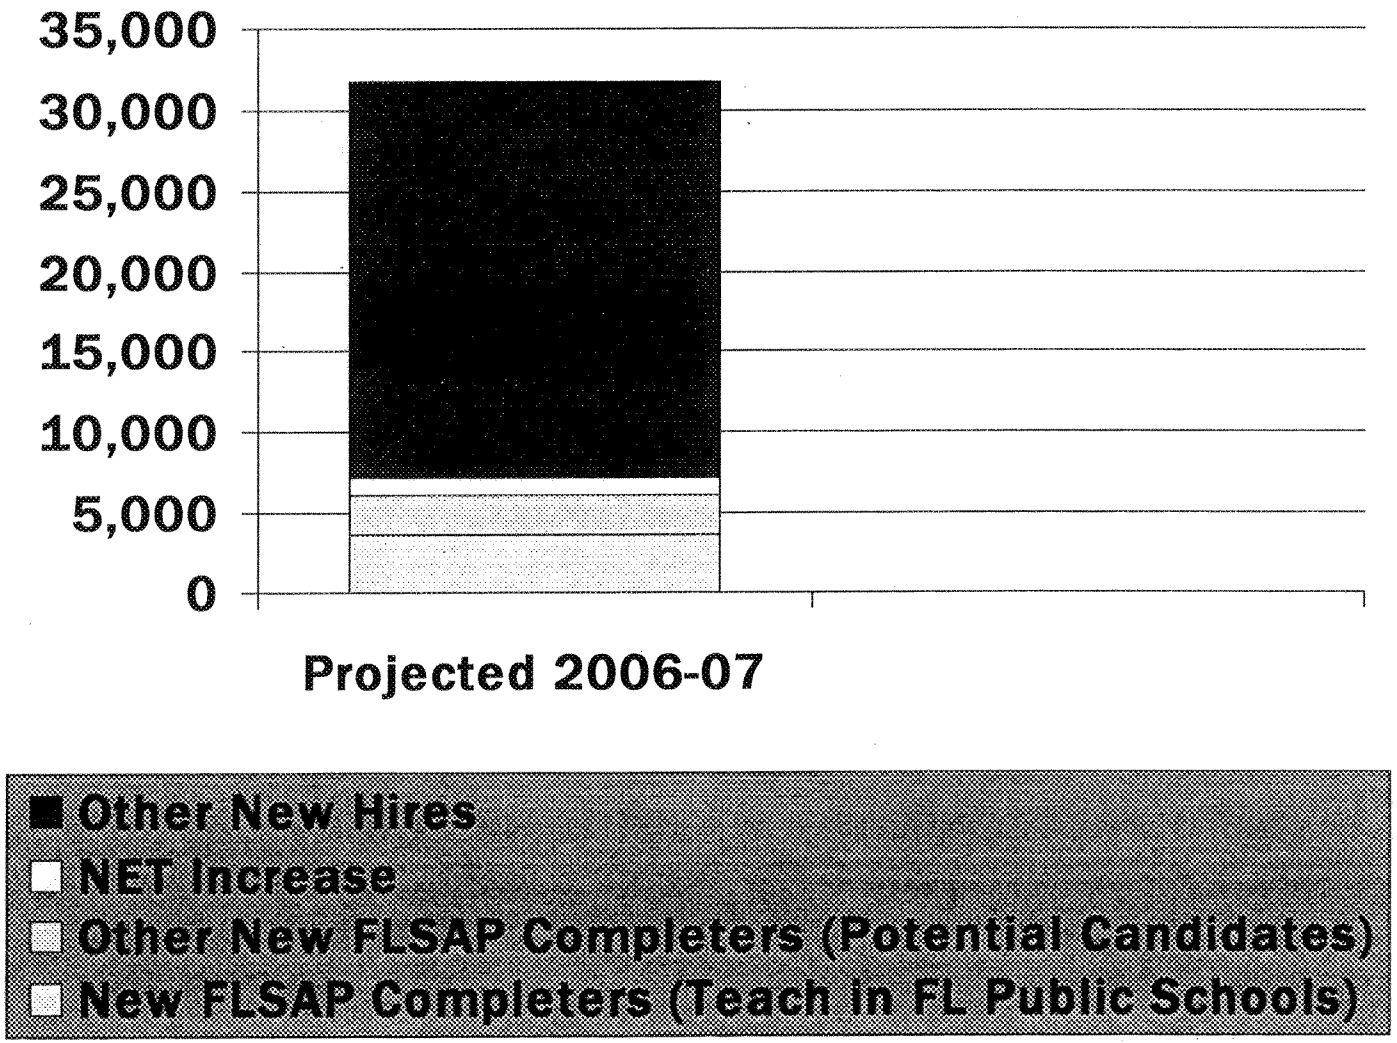
Subject	Positions	% 05-06 Workforce
Elementary Ed	13,370	23.2
ESE	3,394	12.9
Eng/Lang Arts	3,057	23.4
Math	2,443	22.4
Science	2,432	23.4
Social Studies	1,963	21.9
ESOL	1,468	25.1
Reading	1,052	20.1

SUS State-Approved Initial Educator Preparation Programs

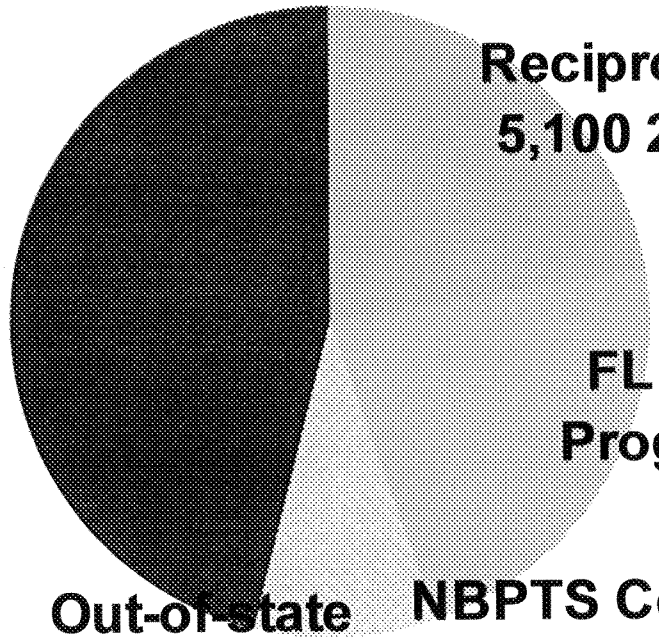


- Retention is good, once candidates are in the programs.
- Programs have been able to maintain enrollments.

Graph of Resulting NET Gain



2004-05 Initial Certificate Routes



22,617 "First time" Certificates Issued

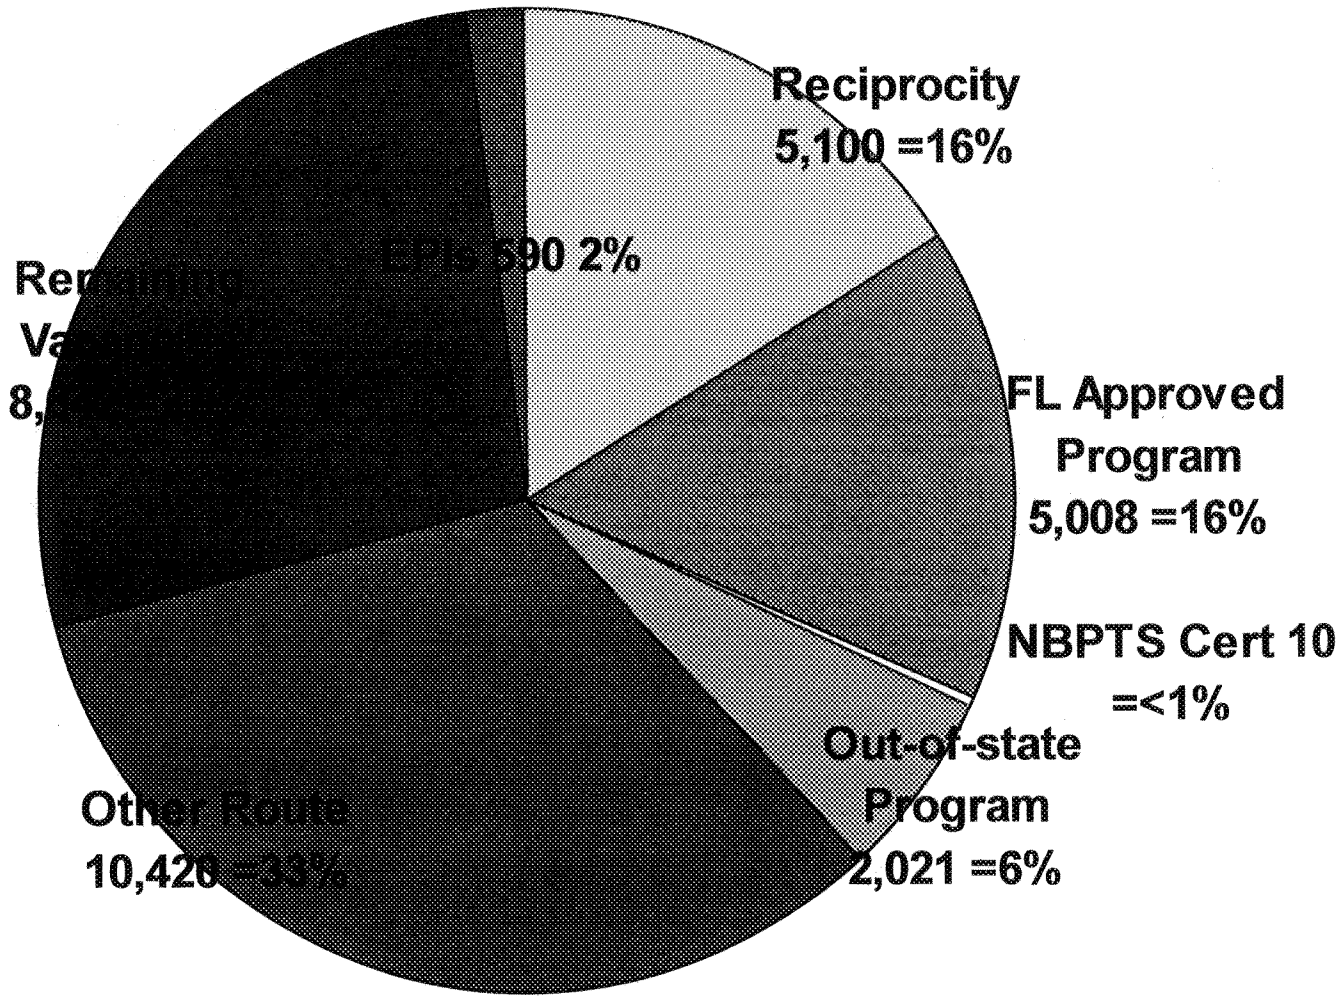
District Alternative Certification Programs

- Available through all local districts
- Over 90% of survey respondents reported that they plan to continue teaching next year.
- Only 3% stated that they were leaving teaching.
- Over 95% of responding principals reported that AC teachers met their criteria for rehiring.

Educator Preparation Institutes

- 25 institutions approved to offer non-credit model program
- St. Pete College approved to offer "for credit" competency-based Alt. Cert. program
- FAU approved to offer professional development
- UWF approved to offer "online" model for competency-based Alt. Cert.
- Approximately 590 participants enrolled last semester in Community College joint model programs; 25 at UWF

31,791 2006-07 Teacher Vacancies



8,642 Vacancies Still to Be Addressed

Strategic Imperative #1: Increase the Supply of Highly Effective Teachers

1. Acquire, retain and develop qualified, effective teachers

   1.1.a. Adopt and implement a comprehensive strategic action plan for meeting and/or exceeding capacity requirements for qualified, effective classroom teachers pursuant to class size demands for the 2006-07 school year.

Department Initiatives Summary

- Performance-based pay
  - Critical need subject areas, high-need classrooms
  - High performers
- Providing more flexibility and performance accountability in teacher preparation programs
- Promoting a variety of paths to certification
- Stepping up recruitment and targeting support
- Building partnerships to improve retention
- Supporting research-based teacher support programs

To Teach or Not to Teach… What Matters

- Input collected last spring from colleges of education, teachers, principals, district staff and teacher educators
- Input collected recently from Teachers of the Year, Principals and Assistant Principals of the Year at Roundtables

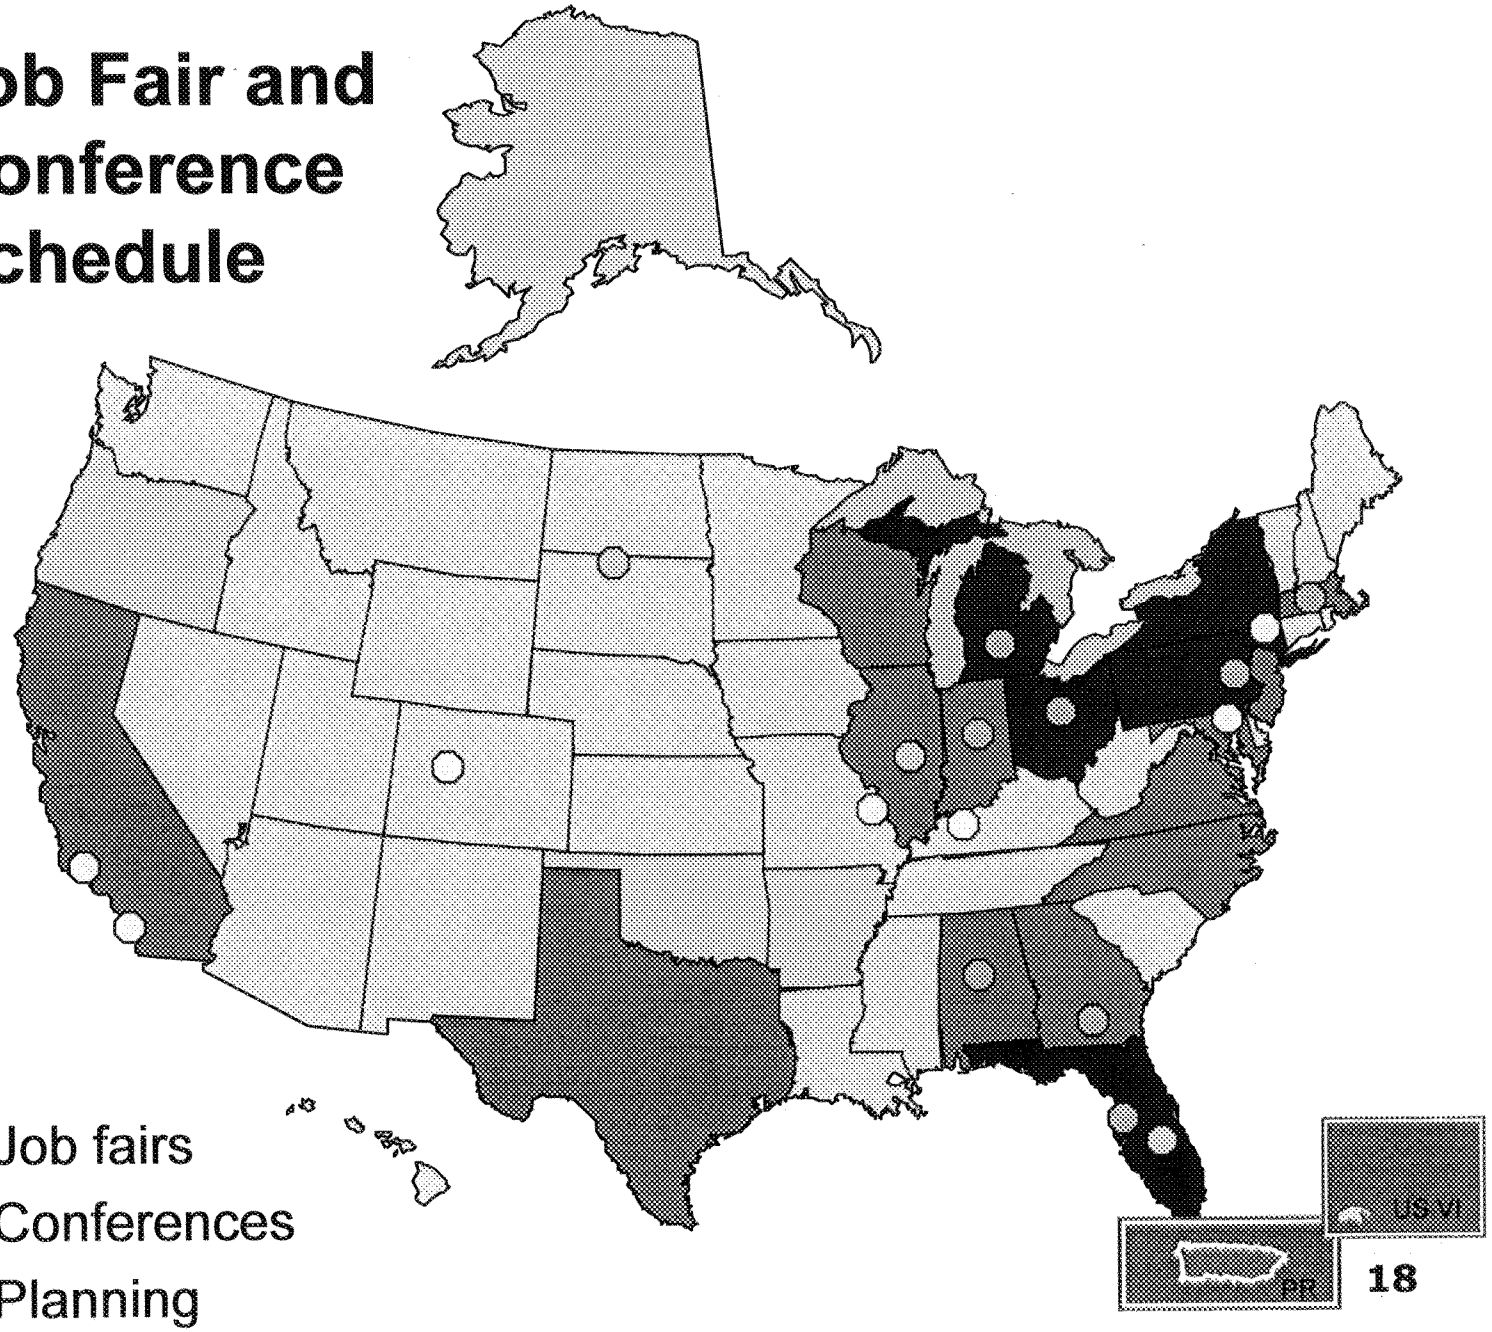
To Teach or Not to Teach… What Matters

- The opportunity to make a difference
- "Affordable" compensation and recognition for success
- Empowerment to succeed
  - The quality and support of the administrator
  - Preparedness to teach in today's schools
  - Professional environment, development, and support
  - Parental support

Recruitment Strategies and Activities

- Public Awareness Campaign
  - Partnership with Florida Education Foundation
  - Cooper DDB is providing market research, design of campaign, and production/execution
  - To increase awareness of the need for effective teaching and recruit high caliber people into teaching positions in Florida
  - Campaign will include methods of data collection for tracking recruits into teaching

Job Fair and Conference Schedule



- Job fairs
- Conferences
- Planning

Recruitment Strategies and Activities

- Great Florida Teach-In
  - 2004: 775/1769 hires/registrants = 43% hired
  - 2005: 3031 registrants = projected 1303 hired
  - 2006: change marketing and registration processes to attract candidates in high-need subjects

    Goals: exceed 1837 hires with increased percentages of candidates hired in high-need subjects
- Increase Florida's presence in venues for math, science, other high-need area teachers

Recruitment Strategies and Activities

- Improving Teacher Prep Program Approval Rule to add flexibility and accountability
  - Standards will address competency demonstration in essential teaching skills, rather than number of semester-hour credits
  - Target: January 2006 for presentation to SBOE
  - 2003-04 graduates:
    - 84% were FL public school teachers in 2004-05
    - Less than half of the 84% were "first year" teachers

Retention Strategies

- RFP released to districts for providing support programs for teachers newly assigned to high-need schools, classes, and/or subjects
- Mentoring study results (ESC) released soon
- Miami-Dade Partnership to support Urban Leadership Development Programs

Retention Strategies and Activities

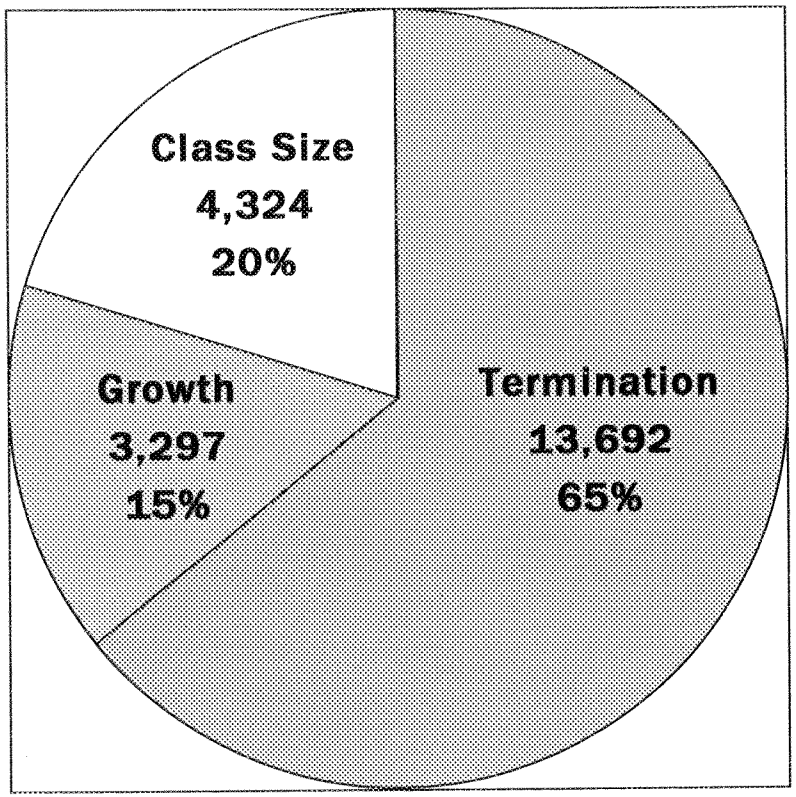
- DELTA
  - Providing professional development to increase the principal's ability to lead and support teachers and provide a strong instructional environment
  - 91% of teachers indicate the principal's level of support as a significant influence in their staying in a teaching position
- Florida Teacher Advancement Program
  - Implementing the Milken Career Ladder and Professional Development System in selected schools
  - Data provide insight into effects of performance pay, career ladder, and professional environment
  - 2005-06: Gadsden and Lake Counties

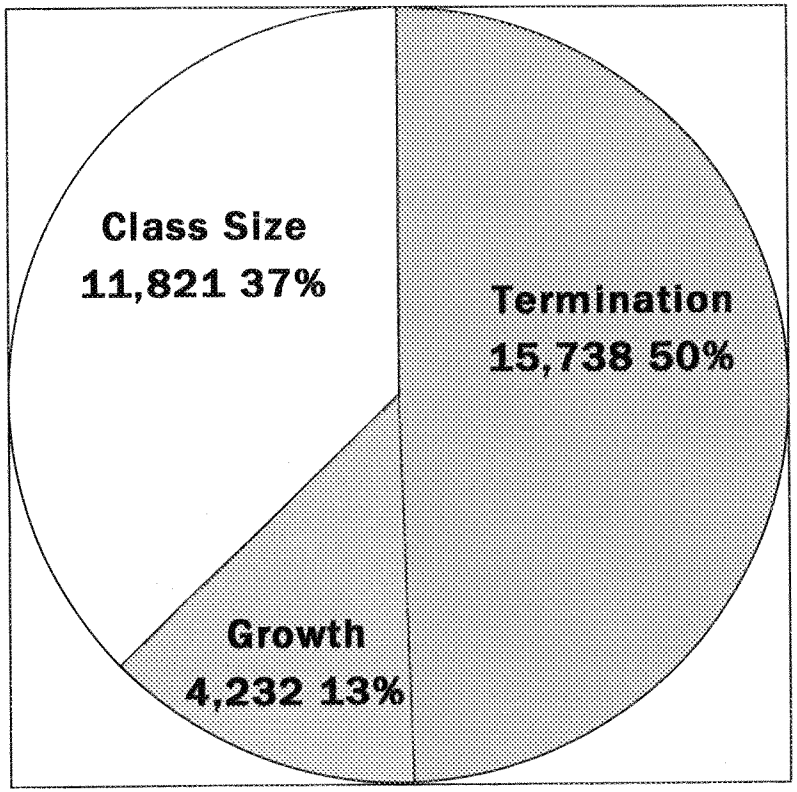
Legislative Agenda for Teachers

- Performance and Differentiated Pay
- LBR for Strategic Imperatives #1 and #4
- Mentoring and Coaching changes for NBCT's and Teacher Support Programs

Projected Needs

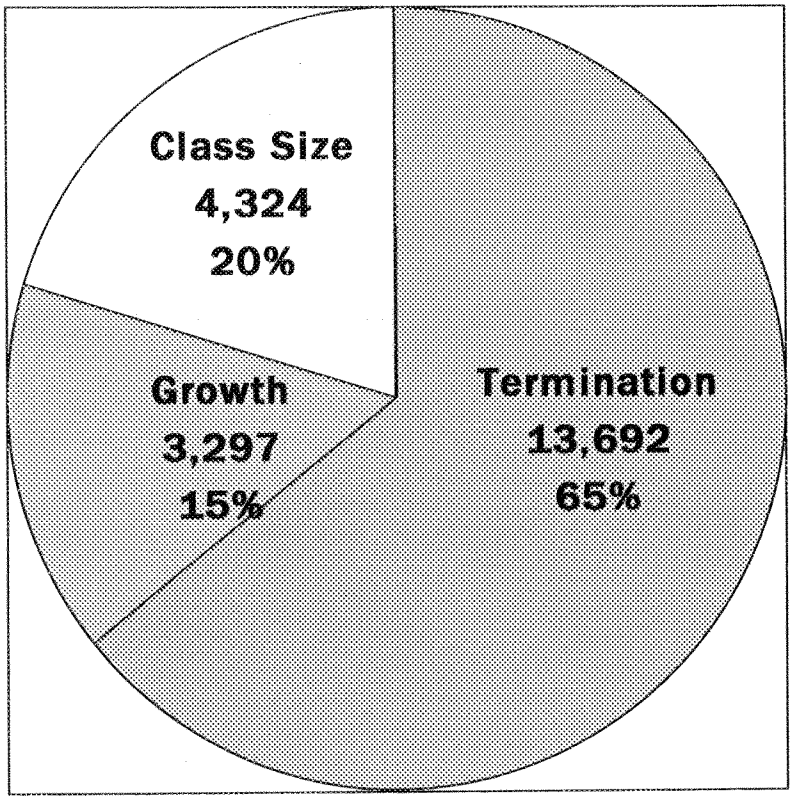
2004-05: **21,313** teachers needed	2006-07: **31,791** teachers needed



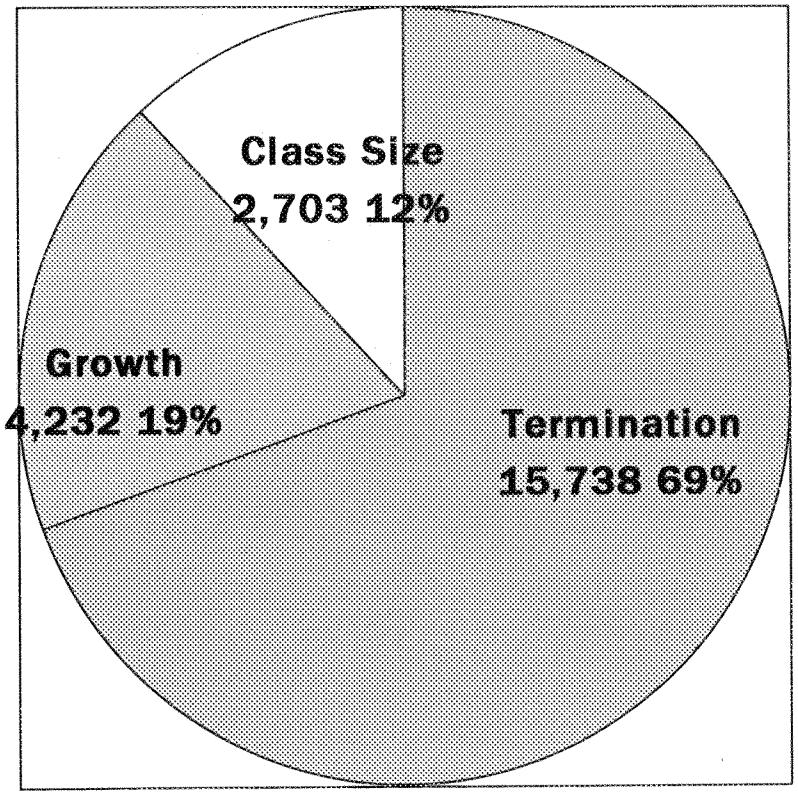


Change with District Average Class Size

2004-05: 21,313 teachers needed

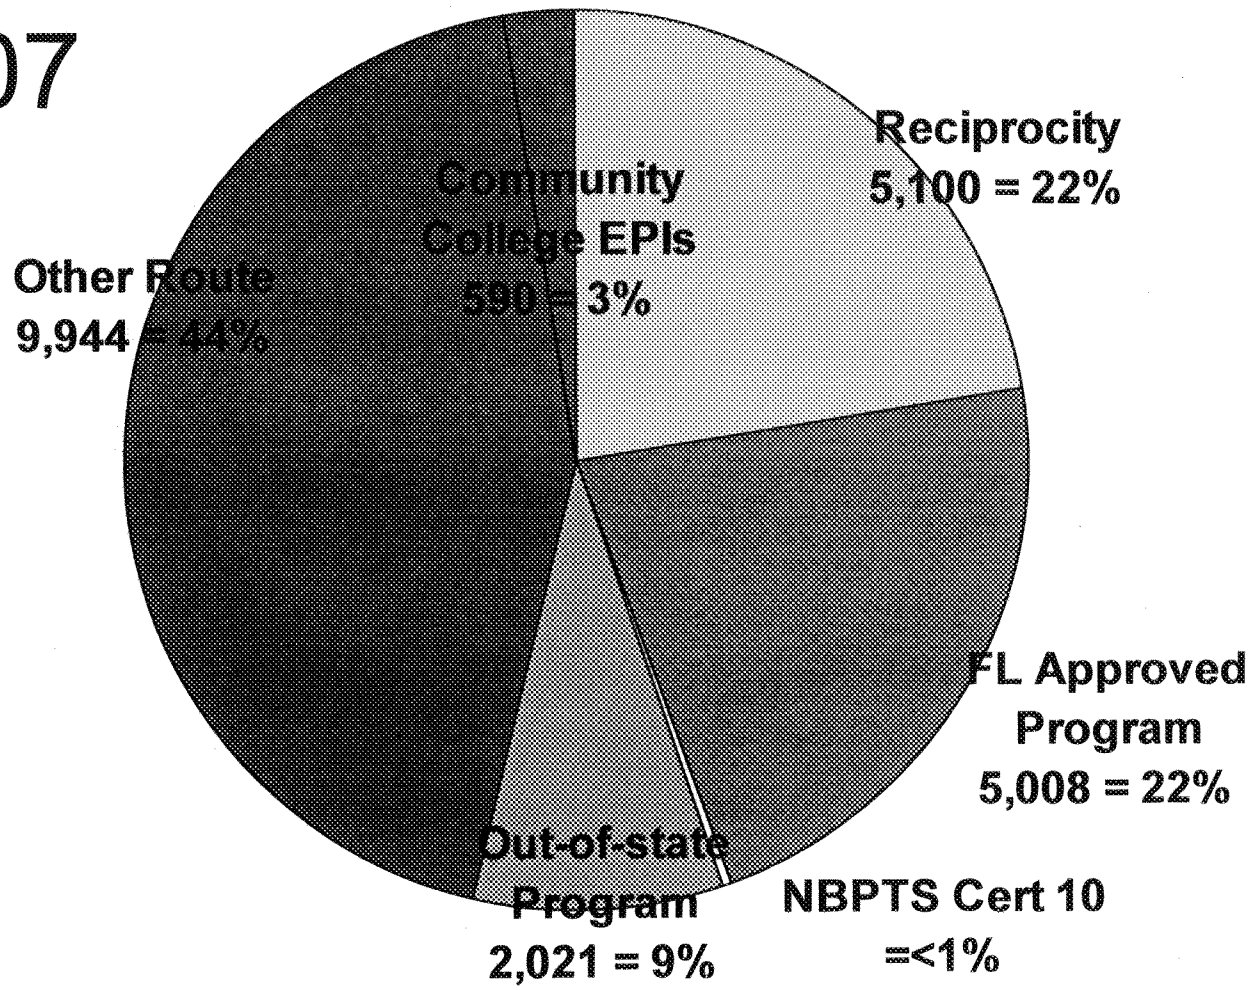


2006-07: 22,673 teachers needed

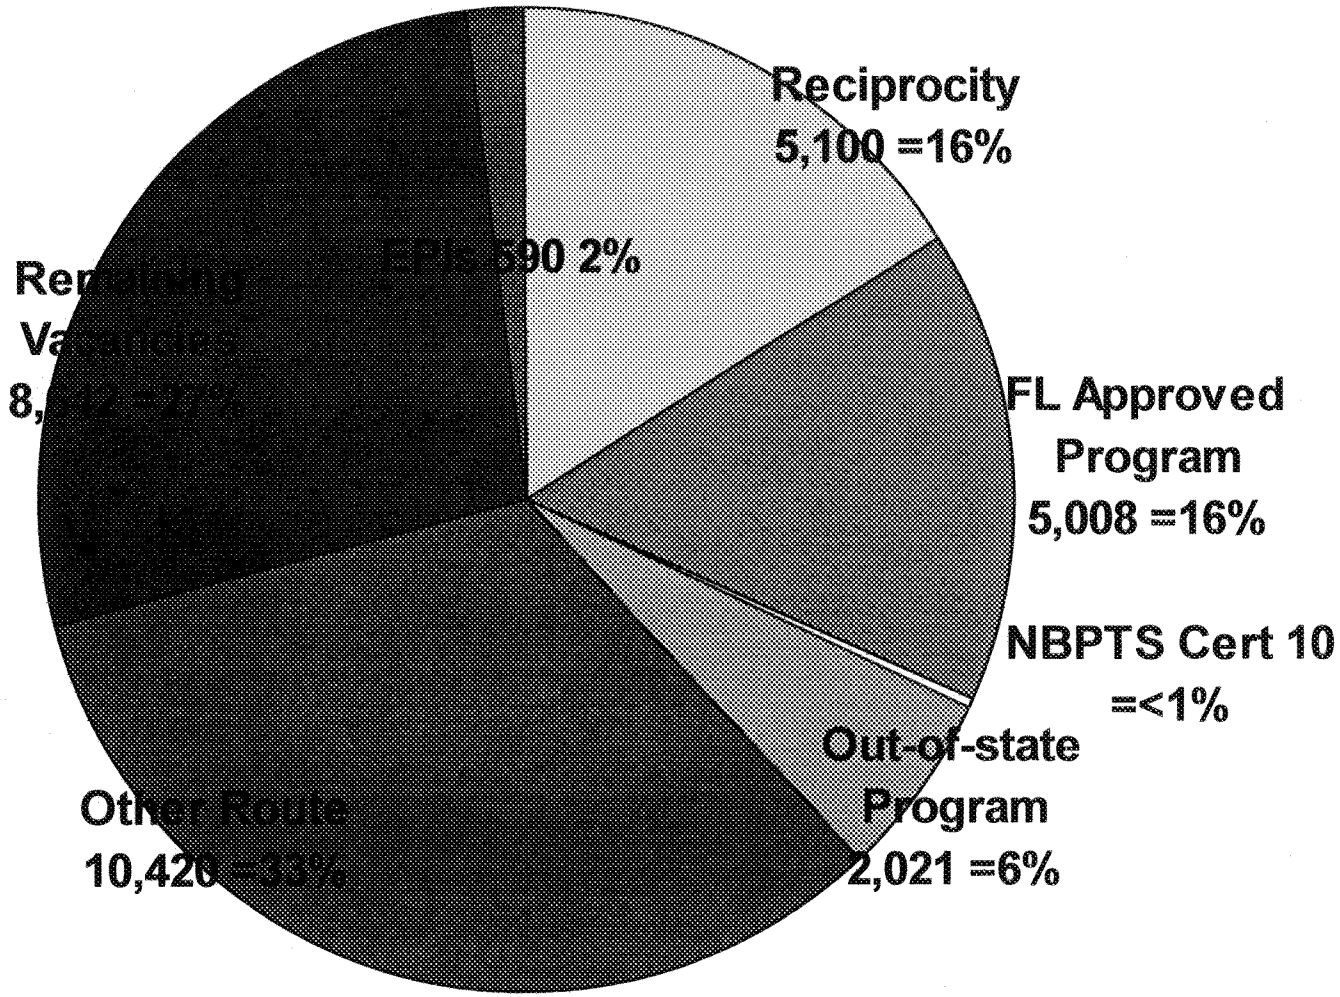


Results from District Average Class Size: 22,673 Vacancies for 2006-07

- Class Size vacancies decrease to 2,703
- Vacancies unaccounted for with current efforts are eliminated

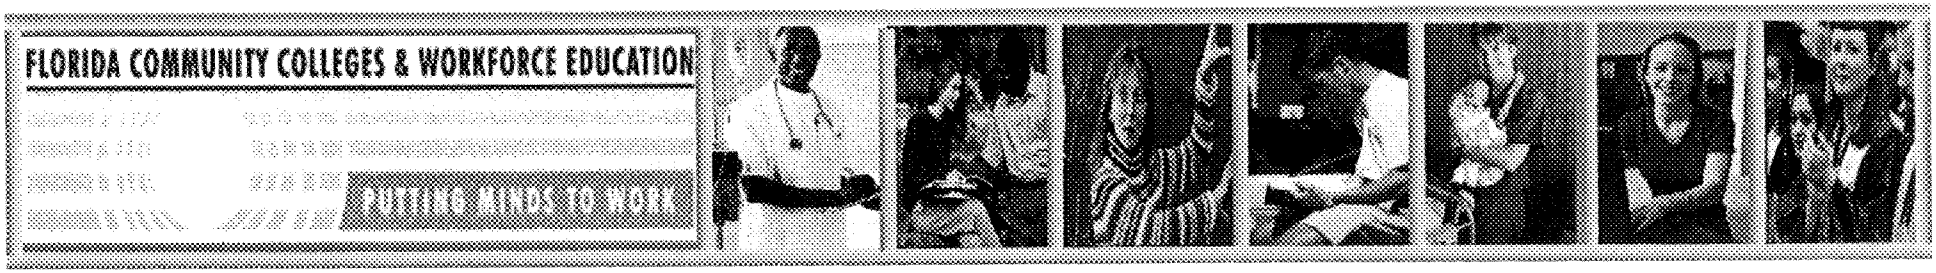


31,791 2006-07 Teacher Vacancies



8,642 Vacancies Still to Be Addressed

SUCCEED, FL and Educator
Preparation Institutes



The Community College Role in Addressing Teacher Supply and Demand

Educator Preparation Institutes
SUCCEED, Florida Grants

House Choice and Innovation Committee
January 10, 2005

Educator Preparation Institutes (EPIs)

The 2004 Florida Legislature passed Senate Bill 2986, authorizing Educator Preparation Institutes to provide:

- Professional development for teachers
- Training for substitute teachers
- Training for paraprofessionals
- Competency-based teacher preparation

EPI Status Overview

- 24 Community Colleges Fully Approved
- 1 Institution Provisionally Approved
- 1 Institution in the Review Process
- 2 Institutions Have Not Yet Applied
- 19 Community Colleges Received SUCCEED, Florida Funding

EPI Competency-Based Teacher Preparation Student Enrollment

- Fall Semester 2005 – Over 600 students enrolled at 14 institutions
- Spring Semester 2006 – 1,100 additional students projected to enroll at 26 institutions

EPI Accountability Measures

For continued approval, EPIs must submit annual performance evaluations to DOE that measure effectiveness based upon:

- Pass rates of participants on Florida Teacher Certification Exams (General Knowledge, Subject Area, and Professional Knowledge)
- Employment rates
- Longitudinal retention rates
- Employer satisfaction surveys

SUCCEED, Florida Grants

The 2005 Florida Legislature appropriated $21 million in funding for SUCCEED, Florida Grants to increase capacity in programs that train for nursing and teaching, and to increase the number of career academies.

- *Career Academies - $6,000,000*
- *Nursing - $10,000,000*
- *Teaching - $5,000,000*

SUCCEED, Florida
RFP Process

- RFP developed by teams representing ***all aspects of K-20, public and private education.***
- Reviewers included industry specific representatives from ***all aspects of K-20, public and private education,*** and industry partners.
- Consensus review process produced, and grants were funded according to, ***independent score and rank***.

SUCCEED, Florida Teaching Proposals

40 Teaching proposals *received*, totaling $8,767,200 from:

25 Community Colleges

11 Universities

4 Independent Colleges and Universities

27 Teaching proposals *funded*, totaling $5,000,000 in:

19 Community Colleges

7 Universities

1 Independent College/University

SUCCEED, Florida
Teacher Certification Key Criteria

Priorities

- Bonus points given for focusing on the following high-need subject areas and specializations:
  - Math (middle and high school)
  - Science (middle and high school)
  - Reading (all levels)
  - ESE (all levels)
  - ESOL (all levels)
- 2 points for each high-need subject area

SUCCEED, Florida Accountability

- Quarterly progress reports
- Interim financial report (DOE 399)
- Interim projected performances, expenditures and revenues charts
- Reporting that shows progress toward program goals, planning and implementation activities, and timelines to date
- Final Report

SUCCEED, Florida
Expected Outcomes

- ***75% increase*** in new teacher certification students.

- From 2,796 existing students at Succeed-funded institutions to **4,890** total students at Succeed-funded institutions.

School Districts' Compliance with Class Size Reduction Requirements

DEPARTMENT OF EDUCATION ANNOUNCES SCHOOL DISTRICT CLASS SIZE COMPLIANCE NUMBERS

TALLAHASSEE – Education Commissioner John L. Winn today announced the 2006 school district class size compliance numbers. In a memo to superintendents, the Florida Department of Education (DOE) provided information on districts' class size averages and the proposed transfer amount for those districts. A total of six districts were found to be out of compliance – Charlotte, Franklin, Gulf, Manatee, Marion and St. Lucie. Using more than $3.7 billion appropriated by the Florida Legislature, the DOE and school districts have been faithfully implementing the class size amendment, resulting in a significant reduction to statewide class size averages.

STATEWIDE DISTRICT CLASS-SIZE AVERAGES			
	Grades PreK – 3	Grades 4 – 8	Grades 9 – 12
Year 2002-03	23.07	24.16	24.10
Year 2003-04	20.54	22.43	24.06
Year 2004-05	18.98	21.32	23.73
Year 2005-06	18.16	20.48	22.96
Change from 2002-03	(4.91)	(3.68)	(1.14)

"In the years since the class size amendment was implemented, districts have made real progress in lowering class sizes. Their efforts are commendable and have resulted in extraordinary reductions, particularly at the prekindergarten through third grade level where we have an average of five less students per classroom," said Commissioner Winn. "Next year, districts are facing an even greater challenge as we transition to class size requirements calculated at the school-level as prescribed by Florida Statutes. This is why the State Board of Education and I have recommended $1.9 billion in facilities funding to help districts meet class size obligations, which should go a long way in eliminating the need for temporary measures, such as co-teaching."

While the State Board of Education (SBOE) recognizes co-teaching as a viable instructional strategy, it determined in June that co-teaching could not be used as a means to comply with the requirements of the class size amendment as outlined in Florida's State Constitution. The SBOE further determined that co-teaching would be included in this year's class size transfer calculation, but would not be included in the following year's calculation. Data on districts' use of co-teaching has not been finalized, but preliminary numbers suggest there will not be any school districts out of compliance due to co-teaching.

According to Florida Statute, for those districts not in compliance, a transfer of a portion of their

operating budget to their fixed capital outlay budget will be made. These reallocated funds can be used by districts for the construction of new or expanded facilities in order to meet class-size requirements. The law directs the DOE to calculate for each district not in compliance a transfer amount proportionate to the amount of class size reduction not accomplished. This year, the initial calculation resulted in a total proposed transfer amount of $5.2 million. That figure was then adjusted for unexpected student growth, including the influx of students displaced by this season's hurricanes. This resulted in a reduction of nearly half a million dollars so that the adjusted total proposed transfer amount is $4.7 million and impacts six districts prior to the submission of appeals. Last year, a final transfer of just under $1.1 million affected nine districts. The DOE expects the 2006 final transfer amount to drop following the appeals process.

Impacted districts have a right to appeal the DOE's transfer calculation due to extenuating circumstances that prevented the district from meeting class size requirements despite good faith efforts to do so. The appeal is based on the submission of supporting documentation. The DOE has initiated the appeals process and is working to assist districts with this process. Following a review of districts' appeals, the SBOE and Legislative Budget Commission will meet for final approval of all transfer calculations. The DOE's transfer calculation already factors in districts' unexpected student growth.

"Although I am pleased with the progress we have made, Florida is still facing a shortage of more than 30,000 teachers," said Commissioner Winn. "My foremost concern is ensuring we have enough highly-qualified teachers in Florida classrooms next year. The beneficial effects of the class size amendment, if there are any, may be negated by the all too likely scenario that our schools are lacking thousands of qualified teachers."

In November 2002, Florida voters chose to amend the State Constitution to limit the maximum number of students in core-curricula courses assigned to one teacher. By the beginning of the 2010-2011 school year, prekindergarten through third grade classes are required to have a maximum of 18 students, fourth through eighth grade classes must not exceed 22 students and ninth through twelfth grade classes must have no more than 25 students. In order to meet these requirements, the Legislature enacted a bill reducing the number of students in each classroom beginning in fiscal year 2003-2004, by two students per year until the maximum number of students does not exceed the limits defined in the amendment. Districts were required to reduce in each of the three grade groupings at the district level for the 2003-2004 through 2005-2006 school years, at the school level for the 2006-2007 and 2007-2008 school years and at the classroom level beginning with the 2008-2009 school year.

Memo to superintendents, statewide summary of district-level class size averages and proposed transfer calculations by district are attached.

MEMORANDUM

DATE: December 27, 2005

TO: District School Superintendents

FROM: John L. Winn

SUBJECT: 2006 District Class Size Averages, Transfer Calculations, and Process and Timelines for District Appeals

Through faithful implementation of the class size constitutional amendment by school districts, significant progress has been made in reducing class sizes in Florida. The attached statewide summary of district-level class size averages is based upon class size information updated through November 29, 2005 (Attachment I). It reflects that, since 2002-2003, district class size averages have declined from 23.07 to 18.16 students in prekindergarten through third grades, 24.16 to 20.48 students in fourth through eighth grades and 24.10 to 22.96 students in ninth through twelfth grades. Six districts did not meet class size reduction requirements and this occurred in the prekindergarten through third grade grouping. The proposed transfer calculation for those districts is provided in Attachment II.

Transfer Calculation

Section 1003.03(4)(a), F.S., requires a budget modification for any district that did not reduce district-level class size averages as required by law. The law directs the Department to calculate, for each district that is not in compliance, an amount which is proportionate to the amount of class size reduction not accomplished. The calculation is the amount that will be transferred from a district's class size reduction operating categorical to a fixed capital outlay account for class size reduction in the affected district.

Last year's transfer calculation following appeals totaled $1,076,719 and affected nine districts; this year's proposed transfer calculation prior to appeals is $4,767,202 and affects six districts. Two districts were removed from noncompliance by an adjustment for unexpected student growth. An adjustment for unexpected student growth is applied to all districts in the proposed transfer calculation.

Preliminary calculations indicate that school districts have complied with the State Board of Education's co-teaching policy. It appears that no district failed to comply with the class size reduction requirements due to an increase in the percentage of co-taught classroom periods in 2005-06 over the percentage of co-taught classroom periods reported during the 2004-2005 school year. A final calculation will be made during the appeals process.

Appeal Process for the Transfer Calculation

Section 1003.03(4)(a), F.S., allows a district to submit evidence documenting why the district did not meet the class size reduction requirements. The appeal should be based on extenuating circumstances that prevented the district from complying despite appropriate efforts to do so. The submission of appeals by those districts that are not in compliance with the class size reduction requirements is currently in process. As previously stated, unexpected student growth has already been factored into the transfer calculation and, therefore, an appeal for unexpected growth is not required. Documentation of each district's extenuating circumstances will be reviewed by the State Board of Education. Based upon these reviews, alternative transfer assessments may be recommended to the Legislative Budget Commission.

Process and Timelines for Appeals

December 13 - Appeals process began for those districts that are not in compliance with class size reduction requirements.
December 27 - Memorandum from the Commissioner provided to school districts.
January 6 - Deadline for district submission of appeal and supporting documentation.
January 9-11 - Review of districts' appeals.
January 17 - State Board of Education meeting for final determination of transfer calculations.
February 16 - Legislative Budget Commission meeting for final approval of transfer calculations.

Format for Appeals

All appeals with supporting documentation should be submitted by the superintendent and addressed as follows:

Linda Champion
Deputy Commissioner, Finance and Operations
Florida Department of Education
325 West Gaines Street, Suite 1214
Tallahassee, Florida 32399-0400

Appeals may be emailed to tara.jackson@fldoe.org, or faxed to (850)245-9378.

If you have additional questions regarding the implementation of class size reduction requirements, please contact Linda Champion at (850)245-0406, or linda.champion@fldoe.org.
