4		1100000	LEGISLATIVE START-UP BUDGET (RECURRING CONTINUATION OF CURRENT LAW AND POLICY)		440.00	17,884,715	0	208,691,666	208,691,666	440.00	17,884,715	0	208,691,666	208,691,666	440.00	17,884,715	0	208,691,666	208,691,666
5		160E010	BACK OUT CONTRACTUAL SERVICES BUDGET FROM EXPENSE	Section 216.011(1)(n), FS, defines the appropriation category "Expense" and has historically include contractual services. Contractual services are defined in section 287.012, Florida Statutes, as the "rendering by contractor of its time and effort rather than the furnishing of specific commodities." Based on statutory changes effective July 1, 2006, the Expense category can no longer include contractual services. This issue represents the transfer of contractual services budget from the Expense category to an alternate, more appropriate appropriation category.	0.00	0	0	(2,000,000)	(2,000,000)	0.00	0	0	(2,000,000)	(2,000,000)

7		2306000	FUNDING FOR INCREASED COST OF FUEL AND UTILITIES	The Governor's Recommended Budget provides state-wide funding for increased cost of fuel and utilities, based upon the actual expenditures for such commodities and services in FY 2004-05, adjusted for growth pursuant to applicable consumer price indices.	0.00	0	0	0	0	0.00	0	0	61,522	61,522					
8		24010C0	INFORMATION TECHNOLOGY INFRASTRUCTURE REPLACEMENT	Provides for the replacement of servers. Four servers are no longer supported and the remaining servers being replaced have outlasted their useful lives. Request includes four Lintel servers for the firewall; ten Intel servers which are 5 to 7 years old; two Enterprise class Wintel servers with peripherals.	0.00	0	0	147,700	147,700	0.00	0	0	147,700	147,700					
9		3000100	ONLINE GAMES CONTRACT	The on-line games vendor is paid 1.149% of sales, plus the continuation of various on-line-system features. This increased need is based on the most recent sales forecast of the Lottery Revenue Estimating Conference. A new forecast will be established at the February 27, 2006, Revenue Estimating Conference; thereby requiring the House recommendation to be based on yet another sales estimate.	0.00	0	0	4,808,974	4,808,974	0.00	0	0	2,127,407	2,127,407					
10		3000200	SCRATCH-OFF TICKET COOPERATIVE SERVICE CONTRACT	The instant-ticket vendor is paid 2.3% of sales. This increase need is based on most recent sales forecast of the Lottery Revenue Estimating Conference. A new forecast will be established at the February 27, 2006, Revenue Estimating Conference; thereby requiring the House recommendation to be based on yet another sales estimate.	0.00	0	0	567,500	567,500	0.00	0	0	3,379,788	3,379,788					
11		33V0210	EXPENSE AND OTHER PERSONAL SERVICES BASED ON REVERSIONS	The Governor's Recommended Budget includes a reduction of $1.9 million based on historical expenditures and budget reversions.	0.00	0	0	0	0	0.00	0	0	(1,900,000)	(1,900,000)

12		36225C0	TECHNICAL INFRASTRUCTURE ENHANCEMENTS	To provide funding to upgrade the Lottery's existing infrastructure to provide necessary test, quality assurance, and production environments to support enhanced and expanded business intelligence and intranet/extranet/internet functionality. Total project costs (by major components, if applicable) for all years include: $470,691 for two p570 16-way Servers; $465,041 for two DS4800 SANs; $84,492 for ten p510 Servers; $56,320 for thirty-two (32) GB Memory; $50,400 for 24 Fiber Channel Adapters; $5,133 for two CPUs; and $11,700 for Server Peripheral Equipment. The Legislature's Technology Review Workgroup is analyzing this request and should provide recommendation to the Committee.	0.00	0	0	1,143,777	1,143,777	0.00	0	0	1,143,777	1,143,777					
13		36301C0	LIVE SCAN FINGERPRINT SYSTEM	Funding is requested to provide a live scan fingerprint system that would allow the department to digitally fingerprint employees, vendors, and retailers and electronically submit the fingerprints to the Florida Department of Law Enforcement for processing as part of the background investigation process. This would expedite the background investigations that are required by chapter 24, F.S.	0.00	0	0	21,500	21,500	0.00	0	0	21,500	21,500					
14		5000300	ADJUSTMENT TO RECURRING SPECIAL CATEGORY APPROPRIATION - TRANSFER TO EDUCATIONAL ENHANCEMENT TRUST FUND	The base budget includes $60 million to transfer unencumbered year-end cash to the Educational Enhancement Trust Fund, as mandated by s. 24.121(4), F.S. This amount is based on the recent history of the fund. The department has reformulated the calculation of the monthly transfers to the Education, which could result in more funds being transferred each month and a much lower unencumbered balance at the year end. As request by the agency, the Governor recommends elimination of the appropriation and future transfers through a non-operating category.	0.00	0	0	(60,000,000)	(60,000,000)	0.00	0	0	(60,000,000)	(60,000,000)					
15		7N01000	ADJUST FUNDING TO NONRECURRING - DEDUCT	The Governor's Recommended Budget includes an adjustment from recurring funding to nonrecurring for Acquisition of Motor Vehicles that was funded in prior fiscal years and subsequently incorporated into the agency's base funding. This shift will allow for greater opportunity to evaluate funding needs on an annual basis.	0.00	0	0	0	0	0.00	0	0	(200,000)	(200,000)

5		1601500	ELIMINATE FUNDING IN APPROPRIATION CATEGORY NO LONGER BEING USED	This is a technical issue that eliminates funding in the base budget for the Data Processing Services - State Technology Office category, as that category is no longer being used by the department.	0.00	0	0	0	0	0.00	0	0	(7,783)	(7,783)					
6		160E500	TRANSFER BUDGET FROM EXPENSE CATEGORY TO CONTRACTED SERVICES CATEGORY - DEDUCT	Section 216.011(1)(n), Florida Statutes, defines the appropriation category "Expense" and has historically included contractual services. Contractual services are defined in section 287.012, Florida Statutes, as the "rendering by a contractor of its time and effort rather than the furnishing of specific commodities." Based on statutory changes effective July 1, 2006, the Expense category can no longer include contractual services. This issue represents the transfer of contractual services budget from the Expense category to an alternate, more appropriate appropriation category.	0.00	0	0	0	0	0.00	0	0	(1,652,006)	(1,652,006)					
7		160E600	TRANSFER BUDGET FROM EXPENSE CATEGORY TO CONTRACTED SERVICES CATEGORY - ADD BACK	Section 216.011(1)(n), Florida Statutes, defines the appropriation category "Expense" and has historically included contractual services. Contractual services are defined in section 287.012, Florida Statutes, as the "rendering by a contractor of its time and effort rather than the furnishing of specific commodities." Based on statutory changes effective July 1, 2006, the Expense category can no longer include contractual services. This issue represents the transfer of contractual services budget from the Expense category to an alternate, more appropriate appropriation category.	0.00	0	0	0	0	0.00	0	0	1,652,006	1,652,006					
8		2306000	FUNDING FOR INCREASED COST OF FUEL AND UTILITIES	The Governor's Recommended Budget provides funding for the increased cost of fuel and utilities. The increase in cost of fuel and utilities is based upon the actual expenditures for such commodities and services in Fiscal Year 2004-05, adjusted for growth pursuant to applicable consumer price indices. Costs for fuel and utilities have significantly increased in recent years and there has not been any recent statewide price level increase to accommodate these changes.	0.00	0	0	0	0	0.00	0	302	71,018	71,320					
9		2401500	REPLACEMENT OF MOTOR VEHICLES	Fire Marshal and Insurance Fraud request replacement of high-mileage vehicles. Department personnel cover a large geographic area. The high-mileage vehicles in our current fleet are unreliable and incur high maintenance costs during day-to-day or periodic use. Currently, 49% (230 of 472) of these vehicles exceed replacement standard of 60,000 miles, set by the Department of Management Services and 22% (105 of 472) of the Department's vehicles are in excess of 100,000 miles. The Department of Financial Services has a comprehensive routine maintenance program for its fleet, allowing cost effective operation of vehicles well past the standards set by DMS. Significant increases in repair and maintenance costs have been experienced for vehicles exceeding 100,000 miles. $591,000 recurring funding from the Insurance Regulatory Trust Fund. Agency base of $546,734 for special category "replacement of motor vehicles." NOTE: Governor's Recommended Budget provides non-recurring funding.	0.00	0	0	591,000	591,000	0.00	0	0	591,000	591,000					
10		2503080	DIRECT BILLING FOR ADMINISTRATIVE HEARINGS	The Governor's Recommended Budget includes funding for services provided by the Division of Administrative Hearings (DOAH). DOAH provides a uniform, impartial and affordable forum for resolving conflicts between private citizens and organizations and agencies of the state. The total budget amount is based on the actual number of hearing hours reported for the previous fiscal year. This issue represents any adjustment necessary to reflect that amount.	0.00	0	0	0	0	0.00	0	0	278,463	278,463

2					REVISED AGENCY REQUEST FY 2006-07					GOVERNOR'S RECOMMENDATION FY 2006-07					HOUSE PROPOSED FUNDING FY 2006-07				
3		D3A ISSUE	D3A ISSUE TITLE	NARRATIVE/DESCRIPTION	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS
11		3000150	STAFF TO PERFORM ADDITIONAL DUTIES TRANSFERRED TO THE PROGRAM WITHOUT RESOURCES	In recent years, three very important duties have been transferred to this Program without a transfer of resources to carry them out. These duties are required by the federal government and if not properly completed may result in the loss of federal revenue to the State of Florida. These duties are the Schedule of Expenditures of Federal Awards (SEFA); the Statewide Cost Allocation Plan (SWCAP), and the Florida Single Audit Act (FSAA). Each of these responsibilities requires a professional level employee. We are requesting a Professional Accountant Specialist position for each of these responsibilities. $199,332 recurring and 15,729 non-recurring GR. NOTE: The Governor's Recommended Budget includes $215,061 for three professional accountant positions for the Comptroller's Office to complete additional duties involved with the Schedule of Expenditures of Federal Awards (SEFA), the Statewide Cost Allocation Plan (SWCAP) and the Florida Single Audit Act (FSAA). An additional $300,000 Salaries and Benefits is provided to assist the Division of Accounting and Auditing with the retention of professional staff.	3.00	120,438	215,061	0	215,061	3.00	379,757	515,061	0	515,061					
12		3000200	UTILIZATION OF CLASS ACTION SETTLEMENTS TO EXPAND CONSUMER OUTREACH PROGRAM	The Department of Financial Services seeks to inform and protect consumers of insurance and financial products. The department is requesting additional spending authority to assist with consumer outreach by means of consumer education, call center improvement, and web site enhancement. The department will use settlement funds that have been received and deposited into the Insurance Regulatory Trust Fund and reserved for consumer outreach to fund these initiatives. $619,000 recurring, $290,970 NR. Funding is from the Insurance Regulatory Trust Fund.	0.00	0	0	909,970	909,970	0.00	0	0	909,970	909,970					
13		3000310	ADDITIONAL RESOURCES - INSPECTOR GENERAL	Similar agency IG Offices have the following staffing levels: Department of Military Affairs (315 positions) - IG plus 1 staff, Department of Community Affairs (357 positions) - IG plus 6 staff, while the Office of Insurance Regulation has 305 positions with only the IG. If funding is approved for a Management Review Specialist, a significant number of internal audits, management reviews, business and technical consulting engagements, special projects, and, as required, investigations can be completed each year. Funding is from Insurance Regulatory Trust Fund.	1.00	40,146	0	66,354	66,354	0.00	0	0	0	0					
14		3000320	ADDITIONAL RESOURCES-LEGAL SERVICES	Retention of OIR experienced staff is necessary due to the complexity of the Florida Insurance Code and the increasing complexity of Federal law governing health insurance. The LSO is submitting this request for approval of 2 Senior Attorney positions, funding for travel expenses and funding of digital recording equipment. The LSO caseload in legal is increasing, for example, in Fiscal-Year 2003-2004 the total number of Legal assignments were 1321 and in Fiscal-Year 2004-2005 that number increased to at total number of 1642. NOTE: The Governor's Recommended Budget includes $182,691 (with $133,699 for OPS) to provide resources to meet increases in legal workload for the Office of Insurance Regulation. Attorney caseload has increased for the Office in the areas of Market Investigations, Prosecution of Unauthorized Insurers, and Public Rate Hearings. Section 5 of Chapter 2005-11, Laws of Florida, requires, effective June 1, 2005, a public hearing for all residential property insurance rate filings greater than 15% (previous threshold was 25%). With multiple hurricanes striking Florida in 2004 and 2005, there will be many rate filings exceeding the public hearing threshold and requiring legal expertise and travel. Funding is from Insurance Regulatory Trust Fund.	2.00	101,230	0	182,691	182,691	0.00	0	0	182,691	182,691					

HOUSE COMMITTEE ON STATE ADMINISTRATION APPROPRIATIONS - FISCAL YEAR 2006-07 BUDGET ISSUES

	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U
1		DEPARTMENT OF FINANCIAL SERVICES																	
2					REVISED AGENCY REQUEST FY 2006-07					GOVERNOR'S RECOMMENDATION FY 2006-07					HOUSE PROPOSED FUNDING FY 2006-07				
3		D3A ISSUE	D3A ISSUE TITLE	NARRATIVE/DESCRIPTION	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS	FTE	RATE	GEN REV	TRUST FUNDS	ALL FUNDS
15		3000340	ADDITIONAL RESOURCES - PROPERTY AND CASUALTY	The additional positions are required due to the enactment of the Annuity Suitability and Discount Medical Plan laws. In addition, due to the 2004 hurricane season, we learned of industry wide deficiencies in the statutorily required reporting of the P&C industry to the OIR. Finally, due to the on-going and increasing litigious environment of the professional liability marketplace, Market Investigations will be conducting targeted examinations. Funding is from Insurance Regulatory Trust Fund.	4.00	168,111	0	274,145	274,145	4.00	168,111	0	274,145	274,145					
16		3000350	ADDITIONAL RESOURCES FOR MARKET INVESTIGATIONS	The increase in caseload between fiscal years '03/04 to '04/05 was due to the 2004 hurricane season and issuance of OIR Emergency Rules and reporting requirements. The continued increase in this fiscal year is due to the enactment of the Annuity Investments by Seniors and Discount Medical Plan Organization statutes, QUASR and Professional Liability reporting compliance, Hurricane Model Investigations as well as our day-to-day investigations/examinations of alleged violations of the Florida Insurance Code. Funding is from Insurance Regulatory Trust Fund.	2.00	85,619	0	138,888	138,888	2.00	85,619	0	138,888	138,888					
17		3000360	ADDITIONAL RESOURCES - OFFICE OF FINANCIAL REGULATION INSPECTOR GENERAL	OFR has six primary functional areas, consisting of Financial Institutions, Securities, Finance, Money Transmitters, Financial Investigations and Legal. There are at least 25 specialized and general areas of potential risk to the agency that require periodic audits. Many of these audits and management reviews will not be completed once; rather, they will be completed periodically, once every three years, per statutes. This is necessary to establish initial audit and review related baselines and then periodically follow up on audits and reviews for purposes of assessing improvements with regard to internal controls and management of risks associated with OFR's programs, functions, sub-functions, processes, operations and administration. A staff of one individual is not sufficient to meet the demands of the OIG. At current staffing levels, the OIG has only been able to address high priority items, such as investigations of consumer complaints, personnel issues and other investigative matters. $67,291 recurring and $5,243 NR funding from Regulatory Trust Fund.	1.00	45,473	0	72,534	72,534	0.00	0	0	0	0					
18		3000420	PROFESSIONAL RESOURCES REQUIRED FOR LITIGATION	Currently, there is only one Senior Attorney in the In-House Counsel section of the Legal Division, who possesses the professional experience to litigate complex, high visibility cases. The Department's goal is to employ an attorney with these credentials to fill this position. The candidate selected must have extensive litigation experience in both circuit court trials and in proceedings before Division of Administrative Hearings. Funding this position above the minimum will enable the department to employ a person with these skills. Funding is from Insurance Regulatory Trust Fund.	1.00	63,015	0	92,878	92,878	0.00	0	0	0	0

19		3000640	PUBLIC HURRICANE MODEL TO EVALUATE HOMEOWNER'S INSURANCE RATES - MAINTENANCE	The Hurricane Loss Model has three essential stages: (1) model development, (2) interactive testing and (3) external validation. The development of the model entailed effort by a group of university system based experts and graduate students in a number of areas, including: meteorology, structural engineering, spatial systems, computer modeling, actuarial science, and finance. The model, to the extent possible, uses existing databases and is modular in design. The model's elements and interactions were designed through interaction that brought together experts from public and private institutions across the country. The model is complete and has been accepted by the OIR. This issue requests additional funding for maintenance and support of the model and funding for expansion of the model to include commercial residential structures such as condominiums and apartment buildings. $323,512 recurring and $554,360 NR funding from Insurance Regulatory Trust Fund.	0.00	0	0	877,872	877,872	0.00	0	0	877,872	877,872					
20		3000700	CONVERT INFORMATION TECHNOLOGY CONSULTING SERVICES TO FULL TIME POSITIONS	The DIS is responsible for ensuring integration and efficient operation of diverse mission critical systems across several information technology platforms i.e. mainframe, network and web. In certain support areas within DIS the mergers that resulted in the Department of Financial Services have placed DIS into a position of dependency on information technology consultants who were in place in the three (3) agencies. Presently DFS is spending approximately $3,200,000 annually on contractor support. In order to effectively leverage its human resources, provide quality customer support, retain valuable institutional knowledge and decrease the funds required for contractor support DIS would like to reduce its reliance on contractor support staff by increasing full-time FTEs to take on the work being performed by these contractors. In order to implement the first phase of this plan, DIS is requesting three (3) full-time employees to support legacy systems currently contracted out to two (2) contractors. DIS is currently paying $70/hr. for two Developers to provide support for DFS' business systems that utilize that system and $86/hr for one (1) Data Base Administrator to support the systems in use by the Division of Workers Compensation. DIS is requesting the positions be funded at mid-range in order to attract and retain qualified individuals to fill the positions. Funding is from Insurance Regulatory Trust Fund.	3.00	179,957	0	28,001	28,001	0.00	0	0	0	0					
21		3000710	MORTGAGE BROKER EXAMINATIONS	OFR is requesting 8 FTEs to examine an increasing number of regulated entities and protect consumers from fraudulent or abusive activity in the mortgage industry. There has been an overall increase of 84% (from 5,983 to 11,028) in the number of mortgage business licensees (i.e., mortgage brokerage businesses, correspondent lenders, and mortgage lenders) from FY 00/01 to FY 04/05. There has also been a 112% increase (from 28,140 to 59,896) in the number of individual mortgage brokers licensed from FY 00/01 to FY 04/05. A recent report by the FBI listed the State of Florida as one of the major areas where significant mortgage fraud has been occurring, and will continue to occur. The requested positions and funding will allow the Office to better safeguard the private financial interests of the public by examining and regulating more licensed mortgage entities. $530,909 recurring and $46,744 NR funding from Regulatory Trust Fund. NOTE: The Governor's Recommended Budget includes $577,653 (with $447,685 OPS) to provide for examinations of an increasing number of regulated entities in the mortgage industry. These examinations are targeted to protect consumers from fraudulent or abusive activity. These additional resources will allow the Office of Financial Regulation to meet the increase in workload and assist in the fight against mortgage fraud.	8.00	340,190	0	577,653	577,653	0.00	0	0	577,653	577,653

22		3000730	MONEY TRANSMITTER EXAMINATIONS	The Money Transmitter industry currently consists of 950 registered companies operating at more than 31,000 retail outlets throughout the state. OFR has determined that there are currently 66 companies with more than 20,000 retail locations in Florida, who maintain their headquarters in other states. The majority of the firms in question are large operations with sophisticated computer and recordkeeping systems. OFR has determined these firms keep the majority of the business records required to conduct an adequate examination at their out of state headquarters. Furthermore it has been determined the majority of these businesses have centralized compliance departments at their headquarters locations making the company's headquarters the most efficient location to conduct an examination. MTRU's goals include the examination of these 66 large money transmitters on a 4-year examination cycle or approximately 16.5 examinations per year. The examinations conducted on these types of transmitters are complex safety and soundness reviews covering such areas as financial condition, recordkeeping, and the implementation and execution of federally required Anti Money Laundering internal controls, policies, and procedures. Funding from Regulatory Trust Fund.	0.00	0	0	53,625	53,625	0.00	0	0	53,625	53,625					
23		3000740	ADDITIONAL RESOURCES FOR APPLICATION PROCESSING	Based on operations for FY 04/05, the finance licensing process required a total of 33,480 hours based on the 29,368 applications actually received and an internal standard processing time of 1.14 hours per application. At current staffing levels, the Bureau will be able to adequately handle 24,393 applications (15 FTEs x 1854 average annual hours divided by 1.14 hours), resulting in a shortfall of 4975 applications. In order to fulfill this need, the Bureau anticipates it will need approximately 3 new positions (4975 x 1.14 hours = 5670 hours divided by 1854 hours = 3 FTEs) to process applications. Additionally, the Bureau requests authority to replace its OPS phone staff with 3 FTEs, offsetting $68,640 of the cost by reducing OPS funding by that amount ($11/hour x 40 hours x 52 weeks x 3). The Bureau requests authority to add 6 FTEs funded from the Regulatory Trust Fund to allow it to continue to meet its statutory duties to process applications within the requirements of Chapter 120, Florida Statutes, the Administrative Procedures Act, and to provide customer service to the industry and public. NOTE: The Governor's Recommended Budget includes $272,600 (with $204,284 OPS) to meet the increased workload of the Bureau of Regulatory Review within the Office of Financial Regulation. This bureau is charged with licensing industries that provide non-depository financial services. From FY 2000-01 to FY 2004-05, the bureau has experienced an overall increase in finance applications of approximately 170% (from 10,947 to 29,368). The bureau is required to notify applicants of any deficiencies in their application within 30 days. Funding from Regulatory Trust Fund.	6.00	200,824	0	272,600	272,600	0.00	0	0	272,600	272,600

24		3000760	REDUCE FULL TIME POSITIONS APPROVED IN SB 1486 - CONSUMER ADVOCATE OFFICE	Section 27 of CS/CS/SB 1488 in the 2005 Legislative Session allows the Consumer Advocate Office to be more active in filings made by insurance carriers. The Office of Insurance Regulation receives several hundred property and casualty filings and several hundred life and health filings annually. The filings cover rate changes, form changes and other purposes. Because the subject matter of these filings is so varied, flexibility to address the appropriate cases is a major consideration. The prominent cases seem to be homeowner's rates, but that could change with any significant market shift. The goal of the Office of the Consumer Advocate is to use the appropriation most efficiently while maintaining some flexibility to address issues in all areas of concern. Accordingly, the office is planning to hire one property and casualty Actuary who will be able to analyze and even testify in a range of cases and issues. The Office is requesting the balance of the salary and benefits appropriation not required for the Actuary position be moved to Other Personal Services, where it would various specific areas, as needed. Funding is from Insurance Regulatory Trust Fund.	(3.00)	(107,262)	0	(148,446)	(148,446)	(2.00)	(71,508)	0	(99,224)	(99,224)					
25		3000770	CONVERT FULL TIME POSITIONS TO OTHER PERSONAL SERVICES - CONSUMER ADVOCATE OFFICE	See issue 3000760 narrative. NOTE: The Governor's Recommended Budget includes the reduction of two full-time positions and transfer of appropriation from Salaries and Benefits to Other Personal Services within the Office of Consumer Advocate. The Other Personal Services appropriation will provide the Office with the flexibility to hire specialized personnel when needed to address the various insurance rate filings and other issues that arise as a great concern to Florida's insurance policyholders. Issues #3000760 and #3000770 net to a zero increase in funding. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	148,446	148,446	0.00	0	0	99,224	99,224					
26		3000800	ADDITIONAL RESOURCES TO ASSIST WITH EXAMINATIONS	OFR is requesting 3 FTEs to examine an increasing number of regulated securities entities and to investigate claims of fraudulent or abusive activity in the securities industry. These positions are targeted for the Palm Beach and Ft Lauderdale areas that have historically had the highest concentration of fraudulent activity. The National Association of Securities Dealers (NASD) recently opened a new regional office in Boca Raton to be closer to the growth in the industry. The NASD and other federal regulators focus on national market issues and net capital issues of firms, while the State provides the front line of defense for individual investors. There has been an overall increase of 47% (from 10,272 to 15,195) statewide in the number of securities licensed entities (i.e., broker dealers, investment advisors, issuer dealers and their respective branch offices) from FY 00/01 to FY 04/05. During this time there has been no increase in securities staff. $234,799 recurring and $17,529 NR funding from GR. NOTE: The Governor's Recommended Budget includes $252,328 (with $215,590 OPS) to provide for examinations of an increasing number of regulated securities entities and to investigate claims of fraudulent or abusive activity in the securities industry.	3.00	168,810	252,328	0	252,328	0.00	0	252,328	0	252,328

27	3000810	BUSINESS DEVELOPMENT AND MARKET RESEARCH	During 2005, the OIR created a new unit "Business Development and Market Research" (BDMR). The new unit is responsible for the expansion and retention of companies in the Florida market place and serves as the information clearinghouse for the collection and dissemination of public data for the Office. The Market Research Section was formed to house all data collection in one unit and ensure complete and accurate information as well as to provide complex research analysis on insurance related issues for the benefit of Florida consumers, policy makers, and all other interested parties. The Business Development and Market Research Unit (BDMR) is requesting additional positions to recruit qualified staff to collect and conduct statutorily required research and reports and to promote the Florida Insurance Marketplace. Additional funds are being requested to prepare marketing materials and cover costs associated with attending trade association conventions and regulatory conferences to promote the Florida Insurance Marketplace. Additional funds are being requested to prepare marketing materials and cover costs. $202,998 funding from Insurance Regulatory Trust Fund. NOTE: The Governor's Recommended Budget includes $202,998 (with $118,506 OPS) for the new BDMR Unit.	2.00	88,128	0	202,998	202,998	0.00	0	0	202,998	202,998					
28	3009A10	OVERTIME FOR LAW ENFORCEMENT PERSONNEL	The Division of Insurance Fraud currently lacks overtime budget to absorb workload increases brought on by major loss events such as hurricanes and other catastrophes. With appropriate funding, this Division will be able to respond to emergencies declared by the Governor without significantly disrupting ongoing criminal investigations. Furthermore, there are instances during non-emergency situations when overtime may be required of Division law enforcement personnel due to the intensification of investigations or criminal trials. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	267,918	267,918	0.00	0	0	0	0					
29	33V0400	ELIMINATE CHECK CASHING SERVICE AT THE CAPITOL	The Governor's Recommended Budget includes a reduction of two positions and $81,665 from the elimination of the check cashing service at the Capitol. There is no longer the need to provide this service for employees at the Capitol as 93% of all state employees receive their paychecks electronically. The check cashing service is not an essential function for the Department to meet its goals.	0.00	0	0	0	0	(2.00)	(46,113)	0	(81,665)	(81,665)					
30	36101C0	FLAIR/CASH MANAGEMENT REPLACEMENT CONTRACTED SERVICES	This is the fourth year of funding for the Aspire project. The requested $25,000,000 is the final portion of the $102,175,000 to be borrowed for the implementation of Project Aspire ($27,645000 in FY 2003-2004, $32,433,380 in FY 2005-2006, $17,096,620 in FY 2005-2006, and $25,000,000 in FY 2006-2007. The $25,000,000 assumes there will need to be $10,000,000 re-appropriation for the deliverables shifted from FY 2005-2006 to FY 2006-2007 and it includes funds ($600,000) for travel costs for providing training to Aspire users. The budget includes $25 million from the Administrative Trust Fund to expend funds drawn down from a credit line with Wachovia Bank for the development of the new Aspire state accounting and cash management system.	0.00	0	0	25,000,000	25,000,000	0.00	0	0	25,000,000	25,000,000

31		36102C0	PROJECT ASPIRE SOFTWARE AND HARDWARE MAINTENANCE	During the development of the FLAIR and CMS Replacement System (Project Aspire), the funding for software and hardware maintenance was provided on a yearly basis through the established project funding allocation. In July 2006, the new accounting system will be put in production with limited agencies and others coming on-board in the following months. By June 2007, it is projected that all state agencies will be dependent on the new system to conduct the State's financial business and will expect the reliability currently provided under the FLAIR & CMS statewide accounting system. Funding the Aspire software and hardware maintenance is necessary to keep the new system functioning property and provide state agencies with the technology they need to process the State's financial operations. $2,777,156 is needed for the total software and hardware maintenance. Funding is from the Insurance Regulatory Trust Fund.	0.00	0	0	2,777,156	2,777,156	0.00	0	0	2,777,156	2,777,156					
32		36207C0	NETWORK MANAGEMENT AND MONITORING SOFTWARE	The purchase of these tools will provide management solutions that will enable DFS to simplify IT operations, control costs, reduce risk and provide effective capacity management. The Department continues to be responsible for supporting Statewide systems, used by all State Agencies, such as the FLAIR system, LAS/PBS, Aspire and other peripheral accounting systems that currently make up the 'FLAIR' environment. Critical applications such as Insurance, Fire Marshal, Treasury, Workers' Compensation, OIR and OFR, among others, require highly skilled staff using the latest technology tools to support and maintain a highly responsive and available IT infrastructure. $100,000 recurring and $688,175 NR from Insurance Regulatory Trust Fund.	0.00	0	0	788,175	788,175	0.00	0	0	788,175	788,175					
33		36208C0	SOFTWARE AND HARDWARE MAINTENANCE CONTRACTS FUNDING INCREASE	This request is for additional funding of $400,000 to be added to the Division of Information Systems base budget to cover the yearly increases in software and hardware maintenance costs. The Department of Financial Services' software and hardware maintenance contracts have experienced a steady increase in costs over the years. The increases reflected in changing costs between fiscal years 2003-04/2004-05 and 2004-05/2005-06 have ranged from $480,275 to $271,756, respectively, for a total of $752,031. The yearly increases continue at an average of 4% to 8% per year. However, the Department has not received additional funding to cover increasing maintenance costs. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	400,000	400,000	0.00	0	0	400,000	400,000					
34		36209C0	DATA CENTER MECHANICAL AND ELECTRICAL DISTRIBUTION SYSTEMS UPGRADE	DFS has an existing data center in Tallahassee sized at approximately 5700 square feet. At a minimum the Department has a need to upgrade the data center's mechanical and electrical distribution systems to accommodate growing business needs. The Firm RTKL, Mechanical, Electrical and Telecom Engineers, was hired to conduct an assessment of the DFS Data Center's current capacity and to document the estimated needs and costs to increase current capacity to accommodate growth. RTKL proposes the installation of new Power Distribution Units in the data center with dual source distribution from existing UPS module, which will take the existing facility to approximately year 2009 electrical capacity. The mechanical equipment in the data center needs to be reoriented to accommodate the additional equipment cooling based on day-one requirements. $400,000 NR funding from the Insurance Regulatory Trust Fund. Statewide service provided.	0.00	0	0	400,000	400,000	0.00	0	0	400,000	400,000

35		36306C0	SYSTEM SERVICE, SUPPORT, ENHANCEMENTS AND MODIFICATIONS	New functionality has been added to the Division of Consumer Safety and Protection business computer application to add work units and processes into the application. Assisting consumers with financial issues, disaster response and mediations have more than doubled the functionality and complexity of the division's computer application, greatly increasing maintenance efforts. Additional licenses to accommodate the new functional units have been purchased since the original implementation, adding increased license renewal costs. Funding for these costs is requested. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	177,000	177,000	0.00	0	0	0	0					
36		36308C0	WEB-ENABLING COMPANY ADMISSION APPLICATIONS	As part of a technology plan that optimizes technology resources and provides a sustainable framework for integration and growth for insurance regulatory functions; the OIR has identified a need to web-enable Company Admission Applications. This project is the final phase of a plan which includes financial analysis and workflow (funded in 03/04 and 05/06), integration of national systems such as the National Association of Insurance Commissioner's (NAIC) "Uniform Certificate of Authority Application" (UCAA) and "Accelerated License Evaluation Review Techniques" (ALERT), internet submission of company applications and other manual data submissions. The foundational system for the plan is the Company and Other Regulated Entities (CORE) Navigator. The number of applications for licensure received increased from 268 in 2003 to 304 in 2004 and 624 (annualized) for 2005. By moving to an electronic workflow for company admission applications processing, we have decreased the number of days to process an application from 141 days in 2002 to 54 days in 2004. This number will be further reduced by allowing internet submission of admission applications and a seamless integration with the UCAA electronic system. Further, the efficiency of electronic filing will be a greater incentive for insurance related carriers to enter the Florida market, thereby increasing availability of insurance products to Florida consumers and increasing the tax base for the budget of our state on an expedited basis. Funding is from the Insurance Regulatory Trust Fund.	0.00	0	0	490,000	490,000	0.00	0	0	490,000	490,000					
37		36315C0	DEVELOPMENT OF INTERNET BASED OUTREACH TOOLS FOR MEDIGAP INSURANCE BUYERS	To provide full accessibility to the consumer, the OIR needs a rate data collection application to gather and store the data necessary to allow rate comparisons and provider availability via the Internet for the vast array of Medigap Plans, licensed carriers, pricing features and underwriting characteristics. The Office intends to publish this data in a format that will be readily available to everyone-including the Department of Financial Services' Consumer Services group who provide one-to-one consumer counseling and the Agency of Health Care Administration (AHCA) for its various reporting needs. The user interface needed to accomplish this has not yet been developed. Develop and provide a positive, interactive internet-based outreach by enhancing the usability of an existing data collection application and creating new web-based interfaces for Florida's Medigap consumer. The system will integrate with the P&C rate data CORE system. $100,000 recurring and $355,000 NR funding is from the Insurance Regulatory Trust Fund.	0.00	0	0	455,000	455,000	0.00	0	0	455,000	455,000

38		36316C0	PROPERTY AND CASUALTY RATE DATA COLLECTION AND MANAGEMENT SYSTEM	This is phase V of the Company and Related Entities' (CORE) Systems Design Project for the Office of Insurance Regulation. Enhancing the I-File system to include commercial insurance rate filings will empower insurance consumers to access comparison insurance rate information when shopping for insurance coverage such as: a business owner's policy, a general liability policy or commercial automobile insurance. Commercial policies are purchased by almost every single business in Florida will allow business owners to independently find information needed to make informed decisions. The system was a recommendation to the Joint Select Committee on Hurricane Insurance as a tool that will have a direct effect on the availability of insurance information. Funding is from the Insurance Regulatory Trust Fund.	0.00	0	0	1,850,000	1,850,000	0.00	0	0	1,850,000	1,850,000					
39		36318C0	LICENSING ENFORCEMENT SYSTEM	The Office of Financial Regulation (OFR) is responsible for licensing and registration of entities and individuals seeking authority to provide financial services to Florida consumers. Current systems do not interact or exchange information, and the Department Licensing System relies on detail that may not be available in Aspire. The proposed integrated system will allow shared licensing/regulatory information. The system will allow applicants to apply and pay for a license via the OFR web site. The goal of the system will be to allow the interface of OFR information with the Department of Financial Services. Planned start date of July 2006 with a completion date of June 2009. Updated numbers from OFR for request FY- 2006-07 is $5,009,600. Estimated total project cost $11,453,000. Funding is from the Regulatory Trust Fund. Governor's Recommendation moves the OPS $3,503,907 to Contracted Services special category.	0.00	0	0	6,029,851	6,029,851	0.00	0	0	6,029,851	6,029,851					
40		36319C0	CONSOLIDATION OF TECHNOLOGY FUNERAL AND CEMETERY SERVICES	Legislation took effect on October 1, 2005, which consolidated all death care industry functions in The Department of Financial Services (DFS) - Division of Funeral, Cemetery and Consumer Services. Approximately 4000 licensees from DBPR and 3500 licensees from DFS are consolidated in the new Division of Funeral, Cemetery and Consumer Services at DFS. These systems support the licensing, educational, complaint, inspection, examination and investigative functions for all of the industries' licensees. The consolidation of the death care system will take advantage of the existing and highly integrated ALIS, AALF, DICE, eAppoint and ServicePoint systems now in use at DFS. Because the requirements of the new Division of Funeral, Cemeteries and Consumer Services are very similar to those of the existing Division of Agent and Agency Services, these new and stable systems can be modified and enhanced as a cost effective alternative to building a new system. $1,377,430 NR funding from the Insurance Regulatory Trust Fund. Monies from the Menorah Gardens settlement agreement were, per the agreement, deposited in the Insurance Regulatory TF. This issue is funded from those settlement funds. NOTE: The Governor's Recommended Budget includes $1.7 million to expand the Department of Financial Services existing licensing system to provide for the licensing of all death care industry providers and professionals.	0.00	0	0	1,377,430	1,377,430	0.00	0	0	1,683,917	1,683,917

41		36355C0	LAW ENFORCEMENT COMMUNICATIONS AND ANALYSIS ENHANCEMENT	Information analysis and case management are key elements in a successful long-term major economic crime investigation involving an offense such as insurance fraud. Organizing, querying and researching data are primary duties associated with the Crime Intelligence Analysis function. Software is available that will provide the Division of Insurance Fraud's crime analysts with the capability of link-charting and analysis involving long term, major investigations. Link charting allows business associations to be determined, allows for the tracking of financial transactions and places activities on a timeline for case preparation and prosecution. The purchase of this standardized software will allow uniformity and transferability of data and intelligence during insurance fraud task force responses and major investigations. The Division analysts will require a stand-alone license based on the fact that the analysts assist on most major insurance fraud cases with Division investigation teams, as well as other state, federal and local task forces. 17 Software license @ $3,850 for $ 65,450 plus training. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	254,031	254,031	0.00	0	0	254,031	254,031					
42		36399C0	EIGHT HUNDRED MEGAHERTZ RADIOS AND MAINTENANCE OF COMMUNICATIONS NETWORK	This issue involves the State of Florida purchasing and maintaining a maintenance agreement for recently acquired M/A-Com radio equipment as part of the State of Florida 800 MHz State Law Enforcement Radio System (SLERS). This issue includes portable and mobile M/A-Com equipment purchased by the Fraud Division for phases 1 - 5. M/A-Com warranties for phase 3,4 and 5 mobiles are only good through April 2005. Warranties for phases 3, 4 and 5 portable transceivers and replacement portable transceivers are good through December 2006. Warranties for phases 1 and 2 mobile and portables are good through December 2006. There are currently have 50 mobiles (phases 3,4 and 5) that will need maintenance contract coverage in the 2006 - 2007 budget year. This figure is approximately $6,250 (50 x $150). There are another 66 portables for phases 3, 4, and 5 that have a warranty through December 2006. This means that 6 months of maintenance is needed for each unit and the approximate cost is $4,125 (66 x 62.50 = $4,125). Maintenance issues for fiscal year 2006 - 2007 will be approximately $19,187.50 for the entire division. In addition, user fees for all participating 800 MHz Joint Task Force (JTF) agencies are an additional recurring expense. At a recent JTF meeting, this user fee was determined to be $225 per year per user. This annual fee is approximately $28,800 using our present law enforcement FTEs. Additional statistics are available for the Fire and Arson for $32,720. Funding is from Insurance Regulatory Trust Fund.	0.00	0	0	81,188	81,188	0.00	0	0	81,188	81,188					
43		4002010	FLAIR/CASH MANAGEMENT REPLACEMENT DEBT SERVICE	$17,139,722 appropriation is recurring. This issue requests a $3,869,273 increase to allow the Department to borrow an additional $25,000,000 in Fiscal Year 2006-2007. The borrowed amount will be repaid over a 5-year period. Additional debt service funding will be required to accommodate the payback of the total borrowed funds that are now estimated to be $102,175,000 (FY 2003-2004 $27,645,000 + FY 2004-2005 $32,433,380 + FY 2005-2006 $17,096,620 + FY 2006-2007 $25,000,000 = $102,175,000). Please note the $25,000,000 includes an estimated reappropriation of $10,000,000 from FY 2005-2006 funds. Debt service payments are made from the Insurance Regulatory Trust Fund.	0.00	0	0	3,869,273	3,869,273	0.00	0	0	3,869,273	3,869,273					
44		5A00000	TRANSITION ASSISTANCE FOR THE EXECUTIVE BRANCH	The Governor's Recommended Budget includes $500,000 in nonrecurring General Revenue to assist with any costs associated with the transition activities of the Executive Branch, for a new Chief Financial Officer taking office January 2007.	0.00	0	0	0	0	0.00	0	500,000	0	500,000

7		160E100	REALIGNMENT OF CONTRACTED SERVICES ADD	Section 216.011(1)(n), FS, defines the appropriation category "Expense" and has historically include contractual services. Contractual services are defined in section 287.012, Florida Statutes, as the "rendering by contractor of its time and effort rather than the furnishing of specific commodities." Based on statutory changes effective July 1, 2006, the Expense category can no longer include contractual services. This issue represents the transfer of contractual services budget from the Expense category to an alternate, more appropriate appropriation category.	0.00	0	7,714,662	9,472,039	17,186,701	0.00	0	6,876,842	8,847,703	15,724,545

17		2306000	FUNDING FOR INCREASED COST OF FUEL AND UTILITIES	The Governor's Recommended Budget provides funding for the increased cost of fuel and utilities. The increase in cost of fuel and utilities is based upon the actual expenditures for such commodities and services in Fiscal Year 2004-05, adjusted for growth pursuant to applicable consumer price indices. There has not been any recent statewide price level increase to this cost.	0.00	0	0	0	0	0.00	0	27,059	20,865	47,924					
18		2503080	DIRECT BILLING FOR ADMINISTRATIVE HEARINGS	The Governor's Recommended Budget includes funding for services provided by the Division of Administrative Hearings (DOAH). DOAH provides a uniform, impartial and affordable forum for resolving conflicts between private citizens and organizations and agencies of the state. The total budget amount is based on the actual number of hearing hours reported for the previous fiscal year. This issue represents any adjustments necessary to reflect that amount.	0.00	0	0	0	0	0.00	0	175,334	125,684	301,018					
19		33V0020	CHILD SUPPORT ENFORCEMENT FLORIDA SYSTEM CONTRACT REDUCTION	The Department of Children and Families (DCF) provide data center services to the Child Support Enforcement Program at DOR. Due to the expiration of a contract between DCF and Unisys and a newly executed contract, charges to DOR will reduce; therefore, DOR requests and the Governor recommends a reduction in DOR's budget authority previously used to pay DCF for data center services.	0.00	0	0	(2,358,846)	(2,358,846)	0.00	0	0	(2,358,846)	(2,358,846)					
20		33V0100	CUSTOMER CALL CENTER	The Governor's Recommended Budget includes a reduction associated with the customer call center. The Child Support Enforcement Program is centralizing this function which will result in the savings.	0.00	0	0	0	0	0.00	0	0	(254,113)	(254,113)					
21		33V0400	TRAVEL BY FIVE PERCENT	The Governor's Recommended Budget includes an agency-wide reduction of $165,585 in travel expenses.	0.00	0	0	0	0	0.00	0	(134,465)	(31,120)	(165,585)					
22		33V0700	GENERAL TAX PROGRAM DUE TO EFFICIENCIES	The Governor's Recommended Budget includes a reduction of 35 positions in the General Tax Administration Program, Compliance Determination budget entity. The reductions are based on savings within the program relating to the full implementation of SUNTAX and the positions are vacant.	0.00	0	0	0	0	(35.00)	(1,124,534)	(1,098,652)	(425,348)	(1,524,000)					
23		33V1100	PROPERTY TAX COUNTY MAPPING	The Governor's Recommended Budget includes a reduction to provide county property appraisers aerial photographs every four years instead of the current three year cycle.	0.00	0	0	0	0	0.00	0	(95,869)	0	(95,869)					
24		33V1400	COUNTY FORMS IN PROPERTY TAX	The Governor's Recommended Budget includes a reduction in funding to provide counties with property tax forms. The reduction is based on past expenditures within the program. The agency agrees with the reduced level of funding.	0.00	0	0	0	0	0.00	0	(125,000)	0	(125,000)					
25		3400040	DECREASE GENERAL REVENUE AND INCREASE THE CHILD SUPPORT INCENTIVE TRUST FUND - DEDUCT	The Governor's Recommended Budget includes a fund shift from General Revenue to the Child Support Enforcement Incentive Trust Fund. The Child Support Incentive Trust Fund has a balance that can be used in place of General Revenue for FY 2006-07. Committee staff comments: This may have an adverse impact on state-funding match to draw federal funds for Child Support Enforcement.	0.00	0	0	0	0	0.00	0	(3,050,000)	0	(3,050,000)

27		3400090	INCREASE IN FUND BASED ON CHILD SUPPORT ENFORCEMENT COST ALLOCATION PLAN	Federal funds for Child Support Enforcement is covering a disproportionate share of departmental overhead assessed to the Child Support Enforcement program. This has accumulated over recent years due to the use of funding-split tables and availability of unencumbered cash balances in program trust funds. This shift is necessary to comply with federal requirements for overhead [indirect] funding allowed in the Cost Allocation Plan submitted to the federal agency. In addition, due to a cap (10%) on overhead assessments charged to the unemployment tax for administration, the agency has requested a portion of the cost be shifted to the General Revenue Fund.	0.00	0	1,631,550	0	1,631,550	0.00	0	1,631,550	0	1,631,550

29		36319C0	CHILD SUPPORT AUTOMATED MANAGEMENT SYSTEM (CAMS)	The department requests and the Governor recommends $22 million in the Child Support Enforcement Program for continued development, implementation, operations, and maintenance of the Child Support Automated Management System (CAMS). Phase I of CAMS will be completed in FY 2006-07 which necessitates recurring funding for operations and maintenance. This funding is also for the initial deliverables of Phase II of the system. **The Legislature's Technology Review Workgroup is analyzing this request and should provide recommendation to the Committee.**	0.00	0	0	22,243,704	22,243,704	0.00	0	0	22,243,704	22,243,704					
30		4200500	LEGAL SERVICES CONTRACT - ATTORNEY GENERAL'S OFFICE	DOR contracts with the Attorney General's office for legal services related to the general tax administration functions. A portion of the increased budget need covers an accumulated funding deficit related to state pay increases at the AG's Office. The services contract covers specific positions at the AG's office that support the general tax enforcement functions. This deficit is currently at $114,228. Secondly, DOR is currently working the AG's office to initiate an aggressive program using business license revocation as an enforcement tool. The cost is estimated at $253,989.	0.00	0	257,752	110,465	368,217	0.00	0	257,752	110,465	368,217					
31		4300010	TRANSFER OTHER PERSONAL SERVICES TO CONTRACTED SERVICES - DEDUCT	This is a technical issue that aligns the department's budget to better account for expenditures made on contractual services as defined in section 287.012, Florida Statutes.	0.00	0	0	0	0	0.00	0	(837,820)	(624,336)	(1,462,156)

34		4400200	SPECIAL IMPROVEMENT GRANT	The agency has applied for a Federal Special Improvement Project Grant. If approved the grant will allow the Orlando Child Support Service Center to form a partnership with multiple area organizations to identify currently incarcerated or recently released inmates who have not voluntarily met their child support obligations and assist them in meeting their obligations.	0.00	0	0	123,865	123,865	0.00	0	0	123,865	123,865					
35		4400210	HEALTHY MARRIAGE GRANT	This funding request by the agency and recommendation by the Governor is for the second year of a three-year initiative. The department received the federal grant on behalf of the City of Jacksonville to test new strategies to strengthen child support enforcement by enhancing the city's ability to promote the well-being of children and to make the program more effective by increasing paternity establishment and fostering relationships in which parents will comply with existing or potential orders.	0.00	0	0	333,333	333,333	0.00	0	0	333,333	333,333					
36		4400220	DADE COUNTY DEMONSTRATION PROJECT	The Child Support Enforcement program requests that additional funding be provided for the annualized increase in rent associated with the lease expansion in Dade county. This issue is intended as a cost effective solution to create a more effective and productive environment ultimately resulting in increased collections for children.	0.00	0	20,160	39,135	59,295	0.00	0	0	0	0					
37		4400240	MANATEE DEMONSTRATION PROJECT - SALARY AND RENT INCREASES	This issue requests on behalf of the Manatee County Child Support Enforcement Demonstration Project for pay and benefit increases, the addition of two OPS employees, increases in office expenses, replacement of equipment, increase in professional services, and office rental increase.	0.00	0	103,326	200,578	303,904	0.00	0	0	0	0					
38		4400320	STATE DISBURSEMENT UNIT - AFFILIATED COMPUTER SERVICES CONTRACT ADJUSTMENT	As required by s. 61.1826, F.S., DOR has contracted with the Florida Association of Court Clerks, Inc. (FACC) for the operation of the State Disbursement Unit (SDU). On 2/11/99, FACC entered into a contract with Affiliated Computer Services (ACS) for the development and operation of the SDU facility. This issue requests $869,000 for the annual contract increase for FY 2006-07 in accordance with the best and final offer (BAFO), dated 2/12/99 from ACS in the original procurement RFP#E04-048-981123-01. The BAFO was incorporated in the original contract between FACC and ACS and is carried forward in the new contract between DOR and ACS. The BAFO provides for a base contract amount of $18,395,667 for state fiscal year 2005-06, increasing to $19,264,667 in state fiscal year 2006-07, for an annual increase of $869,000. The BAFO provides a fixed fee contract cost each year which increases annually for operating the SDU. The basis of each year's pricing accommodates anticipated workload increases in payment processing and disbursements, as well as equipment maintenance and software and hardware upgrades.	0.00	0	295,460	573,540	869,000	0.00	0	0	0	0

39		4400330	FLORIDA ASSOCIATION OF COURT CLERKS - ADJUSTMENT FOR INCREASED COURT COSTS	The Florida Association of County Clerks request, through DOR, a contract adjustment of state Fiscal Year 2006-07 based on full implementation and operation of the CLERC Accounting Reconciliation system, increases in operating costs resulting from the increase in the State Disbursement Units payment volume and corresponding workload. In addition, the program has experienced overall cost increases resulting from the change in the nation Consumer Price Index. The CLERC system is highly complex requiring expertise in accounting, cost accounting, auditing management of large volume processing operations, child support laws, rules and procedures, and technology including wide area network, data bases and child support application.	0.00	0	0	178,494	178,494	0.00	0	0	0	0					
40		4400480	CENTRALIZE PRIVATE SERVICE OF PROCESS	This issue is for funding to expand the usage of special process servers for difficult to serve cases by fifty percent. The expansion will enable the Child Support Enforcement program to continue to be proactive in reducing timeframes for successful service of process and thus reduce the time to establish paternity and establish or modify support orders. Although private service of process is more expensive, under the right circumstances it provides an efficient alternative to standard service of process for the cases the program defines as difficult to serve.	0.00	0	0	493,550	493,550	0.00	0	0	0	0					
41		4400490	DADE COUNTY DEMONSTRATION PROJECT - CALL CENTER UPGRADE	The State Attorney (SAO) for the Eleventh Judicial Circuit administers the Miami-Dade county child support enforcement program under contract with DOR. The SAO provides the same general child support enforcement services that DOR provides in the other counties. DOR reimburses the SAO costs associated with providing child support services. Miami-Dade operates a call center, independent of the DOR central contact center. A key component of CAMS Phase 1 customer service will be the computer telephony integration (CTI) between the CAMS system and the centralized CSE call center. This integration will allow inbound calls to the program's 1-800 customer service number to be routed through the Department's Interactive Voice Response (IVR) Command and Control (ICC) platform and Cisco Intelligent Contact Manager (ICM) system.	0.00	0	0	441,499	441,499	0.00	0	0	441,499	441,499					
42		4400A10	PAY ISSUES FOR STATE ATTORNEY, ATTORNEY GENERAL, AND HEARING OFFICER STAFF FOR CHILD SUPPORT ENFORCEMENT FOR GENERAL TAX ADMINISTRATION	DOR contracts with the Attorney General's office for legal services related to the general tax administration functions. A portion of the increased budget need covers an accumulated funding deficit related to state pay increases at the AG's Office. The services contract covers specific positions at the AG's office that support the general tax enforcement functions. This deficit is currently at $114,228. Secondly, DOR is currently working the AG's office to initiate an aggressive program using business license revocation as an enforcement tool. The cost is estimated at $253,989.	0.00	0	154,103	82,841	236,944	0.00	0	154,103	82,841	236,944

43		4500030	PURCHASE OF THIRD PARTY BUSINESS DATABASE	The department requests and the Governor recommends $250,000 to purchase industry-specific third-parry databases to interface with the department SUNTAX databases. These are used to identify taxpayers that are either not registered for appropriate taxes and / or identify those registered filers not paying their full liabilities. The department intents to focus on transient rentals, industries related to the healing arts, jewelry stores, auto body shops, and others.	0.00	0	176,222	73,778	250,000	0.00	0	176,222	73,778	250,000					
44		4500040	REPLACE SUNTAX NON RECURRING APPROPRIATION	SUNTAX has provided an integrated approach to tax collection for the State since 1998-99. Each year, additional taxes are migrated from legacy systems to the SUNTAX environment. The migration of all taxes administered by the department is projected for FY 2008-09. In 2005-06, the department anticipates the migration of insurance premium tax into the SUNTAX environment. If full funding is provided, the department anticipates migrating unemployment compensation tax during FY 2006-07. This non-recurring funding provides $1,308,097 for system development.	0.00	0	1,308,097	0	1,308,097	0.00	0	1,308,097	0	1,308,097					
45		4500050	MAIL SERVICE INSOURCING GENERAL TAX ADMINISTRATION AND CHILD SUPPORT ENFORCEMENT PROGRAM	As requested by the Department and recommended by the Governor, this issue would allow the General Tax Administration Program to expand their mail processing & imaging capability to the Child Support Enforcement Program. The two programs would negotiate an internal service level agreement to specific service and cost.	0.00	0	0	448,560	448,560	0.00	0	0	448,560	448,560					
46		4600070	CONTRACTED PROCEDURAL AUDITS - PROPERTY TAX ADMINISTRATION	Funding requested by the department and recommend by the Governor is to comply with the Auditor General's recommendations and to help ensure more accurate and equitable assessment levels for county tax rolls. Contract property appraisers would conduct physical inspection audits. In addition, funds would address large-value parcels throughout the state that are not studied within the framework of the in-depth study. Provides the department the opportunity to contract procedural audits externally to half of the 67 counties each year, which matches and would be done in conjunction with the 2-year cycle of completing the in-depth review.	0.00	0	447,600	0	447,600	0.00	0	447,600	0	447,600					
47		5006080	CONTINUATION OF EMERGENCY DISTRIBUTION TO COUNTIES	The department is required by 218.65, Florida Statutes, to distribute a portion of the funds deposited into the Local Government Half-Cent Sales Tax Clearing Trust Fund to certain counties based upon participation criteria. Based upon current estimates by DOR staff, a budget increase is requested; thereby providing funding for a total estimated distribution of $16,907,042. This issue should be revised based upon the most current revenue estimates.	0.00	0	0	500,000	500,000	0.00	0	0	500,000	500,000

22		33G1400	POSITIONS IN RESERVE	The FY 2004-05 GAA provided ten new positions to the Division of Land Sales, Condominiums and Mobile Homes. However, proviso placed the ten new positions and associated budget of$558,152 in reserve pending workload justification by the department that the positions were needed. In February 2005, two positions and associated budget were released from reserve to staff the Office of the Condominium Ombudsman. The FY 2005-06 GAA released six positions and related budget to the department effective July 1, 2005, leaving 2.00 positions and $49,497 in reserve. The department at this time requests the reduction of the remaining 2.00 positions and associated budget in reserve. Technical Note: Compliance and Enforcement currently has a total OCO appropriation of $12,167. Issue #2103017, a system generated reduction issue, reduced OCO by $8,100 leaving a balance of only $4,067. In order to avoid a negative balance the OCO reduction in this issue was limited to $4,067. Funding from the Florida Land Sales, Condominium, Mobile Homes Trust Fund.	(2.00)	0	0	(49,007)	(49,007)	(2.00)	0	0	(49,007)	(49,007)					
23		33G1410	REDUCE BENEFIT SHARE	The department presently has $5,107,608 in budget authority for the Benefit Share payment in the Technology Solutions for DBPR category #106150. The final estimated Benefit Share payment will be made in FY 2005-06, but the true-up (adjust for actual) will not be completed until FY 2006-07. In case additional funds are due to the vendor as a result of the true-up, $907,608 will be retained allowing a reduction of $4,200,000 in the Technology Solutions for DBPR category. Funding from Administrative Trust Fund.	0.00	0	0	(4,200,000)	(4,200,000)	0.00	0	0	(4,200,000)	(4,200,000)					
24		36240C0	DOCUMENT MANAGEMENT	The Governor's Recommended Budget includes $2.5 million in the Office of the Secretary/Administration - Information Technology budget entity to fund the second year of the department's enterprise content management system project. Funding from Administrative Trust Fund.	0.00	0	0	0	0	0.00	0	0	2,500,000	2,500,000					
25		4200110	BACK OUT OTHER PERSONAL SERVICES, CONTRACTUAL SERVICES	The Governor's Recommended Budget includes a realignment of department resources in the Pari-Mutuel Wagering - Standards and Licensure budget entity in the amount of $300,000. The amount was redirected from Other Personal Services to Contractual Services and represents the contract between the department and the University of Florida for the drug testing of racing animals. Issue #4200120 shows the off-setting increase. See Agency's issue 160E010 for the $300,000 OPS amount.	0.00	0	0	0	0	0.00	0	0	(300,000)	(300,000)					
26		4200120	ADD BACK OTHER PERSONAL SERVICES TO CONTRACTUAL SERVICES	The Governor's Recommended Budget includes a realignment of department resources in the Pari-Mutuel Wagering - Standards and Licensure budget entity in the amount of $300,000. The amount was redirected from Other Personal Services to Contractual Services and represents the contract between the department and the University of Florida for the drug testing of racing animals. Issue #4200110 shows the off-setting decrease.	0.00	0	0	0	0	0.00	0	0	300,000	300,000

27		4300A10	EQUALIZATION OF SALARIES & BENEFITS NEEDS	The final Benefit Share Payment will be made during the current fiscal year and budget authority of $4.2M will be eliminated from the budget for Fiscal Year 2006-2007 (Issue Code 33G1410). To support a full workforce and allow the flexibility to accommodate occasional necessary increases in pay grade and salary (to prevent staff from working out of class and eliminate inequities), the department is requesting the retention of 10% ($420,000) of the appropriation being eliminated to balance the current salaries and benefits budget needs.	0.00	0	0	420,000	420,000	0.00	0	0	420,000	420,000					
28		4300A20	ALIGNMENT OF SALARIES & BENEFITS	After previous realignment of salary and benefit appropriation, there are still some budget entities with excess appropriation and those with a shortage as a result of too much budget having been transferred when the vacancy rates were high. Further realignment has been computed and applied prior to alignment of the requested increase for areas most impacted by the reorganization. The department requested, and approval was given, for large realignments of Salaries and Benefits budget authority in FY 2004-05 and FY 2005-06 General Appropriations Acts. In many instances, budget entities have sufficient Salaries & Benefits budget authority; however some do not. NOTE: The Governor's Recommended Budget includes the realignment of Salaries and Benefits between budget entities in several programs. This is a net zero issue.	0.00	0	0	(463,000)	(463,000)	0.00	0	0	(463,000)	(463,000)					
29		4300A20	ALIGNMENT OF SALARIES & BENEFITS		0.00	0	0	463,000	463,000	0.00	0	0	463,000	463,000					
30		5100010	CIGARETTE TAX STAMPS	The department contracts with an outside vendor to print the cigarette tax stamps for the state in amounts representative of the tax amount for individual packages of cigarettes. Once the stamps are printed, they are forwarded to the Division Alcoholic Beverages and Tobacco field offices for distribution to the stamping agents. The wholesale dealers that are approved as stamping agents order the stamps based on cigarette purchases. As the stamps are disbursed to the stamping agents, the excise tax is charged for the cigarettes. In FY 06-07, $432,600,000 of excise taxes for cigarettes are projected to be collected. For FY 2006-07, the department projects that 1,162,946,429 cigarette stamps will be printed. Based on the contracted printing rates, the department expects to spend $651,250 in FY 06-07, which represents a $91,650 deficiency compared to the recurring appropriation amount of $559,600. The department requests that the recurring appropriation amount of $559,600 Cigarette Tax Stamps be increased to $651,250 for the Alcoholic Beverages & Tobacco Trust Fund.	0.00	0	0	91,650	91,650	0.00	0	0	91,650	91,650					
31		51R1000	ALIGNMENT OF DEPARTMENT SALARY RATE	Chapter 2005-152, Laws of Florida, amended section 216.181, Florida Statutes, to provide that the annual salary rate for each department be determined in the General Appropriations Act. The Department of Business and Professional Regulation requests a realignment of salary rate among the budget entities to reflect more accurately current rate usage by each budget entity. In addition, the department requests a reduction of $300,000 in salary rate to ensure that the appropriate amount of salary rate is closely aligned to the Salaries and Benefits appropriation in each budget entity.	0.00	(300,000)	0	0	0	0.00	(300,000)	0	0	0

32		6N00030	OPERATING BUDGET REDUCTION TRANSFER PAYMENT OF CARD ROOM TAX TO LOCAL GOVERNMENTS TO NON-OPERATING	Due to the increasing distribution, the department has found it necessary to process budget amendments in FY 2004-05 and FY 2005-06 to have sufficient budget authority to process the payment to the local governments. If the distribution to local governments were transferred to nonoperating, the department will have the opportunity to estimate the actual distribution near the end of each fiscal year when requesting nonoperating budget authority for following fiscal year. By having a later date to request nonoperating budget authority, it is likely that the distribution amount will be more accurate and eliminate the need to process budget amendments requesting additional authority to make the payments to local governments. If the Pari-Mutuel Wagering Cardroom Tax Distribution to Local Governments remains in the operating budget, the department estimates that the budget authority required in FY 2006-07 to make all distributions will need to be increased by $535,000, requiring a total appropriation of $766,231. The Cardroom Tax Distribution for FY 2005-06 was completed only after the submission of a bud (EOG #B2006-0169) increasing budget authority for the current year from $231,231 to $476,123. Funding from the Pari-Mutuel Wagering Trust Fund.	0.00	0	0	(231,231)	(231,231)	0.00	0	0	(231,231)	(231,231)
