

The Journal OF THE House of Representatives

Number 8

Friday, March 30, 2001

The House was called to order by the Speaker at 10:00 a.m.

Prayer

The following prayer was offered by the Reverend A. Randolph Jerald, Sr. of Mount Zion AME Church of Havana, upon invitation of Rep. Richardson:

Almighty and eternal God, we humbly thank You now for the opportunity, O God, to see a new day and a new session. Lord God, we recognize You as being the creator of all things. We recognize You, O God, as being the regulator of all things. We ask now, O God a special blessing from You, God, that You would send Your Divine Holy Spirit to come and lead and guide us as we be about Your business.

For God, You said in Your word that we are to be good stewards in charge of those things that You've left down here on earth. God, as the Psalm is said, come in and order our steps that as we walk and as we talk and as we conduct to the affairs of this state, O God, that You would guide us in everything that we do. We know, O God, that You are an enabling God and You have the ability to unify in the midst of anything.

Make us one people, one thought, God, with You as our leader. We ask now, O God, and pray a special blessing upon this Legislature, O God, that You will continue to help them to grow in wisdom and in grace, that they will forever take care of those affairs that You've put before them. We ask all these blessings in Your darling son, Jesus's name, Amen.

Rep. Wiles moved the adoption of the amendment.

Point of Order

Rep. Lacasa raised a point of order, under Rule 12.5(a) that the amendment failed to reduce a corresponding line item in the budget in order to accommodate the expenditure.

Rep. Goodlette, Chair of the Committee on Rules, Ethics & Elections, in speaking to the point, stated that Profile Amendment 78 by Rep. Wiles and others appeared to increase the budget by 300 million dollars from the Working Capital Fund and provide funding to three program areas. The amendment did not provide funding through a corresponding decrease in other line items and attempted to take funding from the Working Capital Fund that is not included in the General Appropriations Act. Rep. Goodlette recommended that the amendment be ruled out of order pursuant to House Rule 12.5(a).

The Chair [Rep. Ball] ruled the point well taken and the amendment out of order.

THE SPEAKER IN THE CHAIR

Motion

Rep. Wiles moved to waive the rules to admit Profile Amendment 78, the Chair's ruling notwithstanding, which was not agreed to by the required two-thirds vote. The vote was:

The Office of Program Policy Analysis and Government Accountability (OPPAGA), in consultation with the Department of Education, shall conduct a national search and request for proposals to identify suitable independent, research organization, or organizations, to conduct the review. The office shall provide the Florida House of Representatives and the Florida Senate with quarterly updates of their progress.

Amendment 1 (with title amendment)—On page 9, between lines 26 and 27 of the bill

insert:

Section 7. In order to implement Specific Appropriation 118 of of the 2001-2002 General Appropriations Act, subsection (8) of section 229.57, Florida Statutes, is amended to read:

229.57 Student assessment program.—

(8) DESIGNATION OF SCHOOL PERFORMANCE GRADE CATEGORIES.—*For purposes of determining school performance, student performance should be based on a student's annual learning gains when the gain can be measured with an accurate and consistent assessment system. Currently, the statewide assessment system cannot measure a year's worth of knowledge because not all grades are tested and there is not sufficient data to create a baseline to measure improvement. Therefore, it is the intent of the Legislature that an alternative system should be created until 2 years of assessment data are available to start measuring actual student learning gains.* School performance grade category designations itemized in subsection (7) shall be based on the following:

(a) Timeframes.—

1. School performance grade category designations shall be based on one school year of performance.

2. In school years 1998-1999 and 1999-2000, a school's performance grade category designation shall be determined by the student achievement levels on the FCAT, and on other appropriate performance data, including, but not limited to, attendance, dropout rate, school discipline data, and student readiness for college, in accordance with state board rule.

3. In the 2000-2001 school year, a school's performance grade category designation shall be *determined as follows: based on a combination of student achievement scores as measured by the FCAT, on the degree of measured learning gains of the students, and on other appropriate performance data, including, but not limited to, dropout rate and student readiness for college.*

a. *Elementary schools.—*

(I) *Sixty percent of the performance grade shall be derived from a composite of the FCAT scores for grades 4 and 5, and the percentage of kindergarten through grade 2 classes for which there is a ratio of one teacher to twenty students.*

(II) *Twenty percent of the performance grade shall be derived from an assessment by the school advisory committee of the progress toward the goals of the school improvement plan.*

(III) *Twenty percent of the performance grade shall be derived from an assessment of parental involvement and school safety programs and initiatives, to be weighted at ten percent each.*

b. *Middle schools.—*

(I) *Sixty percent of the performance grade shall be derived from the grade 8 FCAT scores.*

(II) *Twenty percent of the performance grade shall be derived from an assessment by the school advisory committee of the progress toward the goals of the school improvement plan.*

(III) *Twenty percent of the performance grade shall be derived from an assessment of parental involvement and school safety programs and initiatives, to be weighted at ten percent each.*

c. *High schools.—*

(I) *Sixty percent of the performance grade shall be derived from a composite of the grade 10 FCAT scores, and the school's overall dropout and graduation rate, which shall be weighted at thirty percent each.*

(II) *Twenty percent of the performance grade shall be derived from an assessment by the school advisory committee of the progress toward the goals of the school improvement plan.*

(III) *Twenty percent of the performance grade shall be derived from an assessment of parental involvement and school safety programs and initiatives, to be weighted at ten percent each.*

In order to implement subparagraph 3., the Department of Education shall determine and disseminate the standardized method by which school advisory committees shall make their assessments pursuant to this subparagraph and the department shall determine a process for submission of documentation and standards for assessment of parental involvement, school safety, and bonus point factors.

4. Beginning with the 2001-2002 school year and thereafter, a school's performance grade category designation shall be based on student learning gains as measured by annual FCAT assessments in grades 3 through 10, and on other appropriate performance data, including, but not limited to, dropout rate, cohort graduation rate, and student readiness for college.

(b) Student assessment data.—Student assessment data used in determining school performance grade categories shall include:

1. The median scores of all eligible students enrolled in the school who have been assessed on the FCAT.

2. The median scores of all eligible students enrolled in the school who have been assessed on the FCAT and who have scored at or in the lowest 25th percentile of the state in the previous school year.

The Department of Education shall study the effects of mobility on the performance of highly mobile students and recommend programs to improve the performance of such students. The state board shall adopt appropriate criteria for each school performance grade category. The criteria must also give added weight to student achievement in reading.

Schools designated as performance grade category "C," making satisfactory progress, shall be required to demonstrate that adequate progress has been made by students who have scored among the lowest 25 percent of students in the state as well as by the overall population of students in the school.

Section 8. *The amendment of subsection (8) of section 229.57, Florida Statutes, by this act shall expire on July 1, 2002, and the text of said subsection shall revert to that in existence on June 30, 2001, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of said text which expire pursuant to the provisions of this act.*

And the title is amended as follows:

On page 1, line 20, after the semicolon,

insert: *modifying the method of determining school performance grade category designations in the 2000-2001 school year; providing for future reversion to current text;*

Rep. Wiles moved the adoption of the amendment.

Point of Order

Rep. Lynn raised a point of order, under Rule 12.9, that the amendment was not germane.

Further consideration of the amendment, with pending point of order, was temporarily postponed.

Amendment 2 was withdrawn.

Representative(s) Gottlieb and Bucher offered the following:

(Amendment Bar Code: 262081)

Amendment 3—On page 29, line 1 through page 30, line 26 remove from the bill: all of said lines

insert:

(3) *Any agency or political subdivision of this state continues to have the authority to contract with faith-based organizations or to allow faith-based organizations to accept certificates, warrants, or other forms of disbursement under any program, on the same basis as any other nongovernmental provider, without impairing the religious character of such organizations. Any faith-based organization may act as a subcontractor in the delivery of services under any program, on the same basis as any other nongovernmental provider, without impairing the religious character of such organization.*

(4) *Each program to which this act is applicable shall be operated in compliance with federal requirements applicable to the particular program, and consistent with the Establishment and Free Exercise Clauses of the United States Constitution and s. 3, Art. I of the State Constitution.*

(5) *As a requirement for eligibility as a contractor, subcontractor or provider, any faith-based organization shall provide services through a non-profit corporate which is "not pervasively sectarian."*

(6) *Any faith-based organization continues to be eligible as a contractor or subcontractor, on the same basis as any other nongovernmental organization, to provide assistance or to accept certificates, warrants, or other forms of disbursement under any program. Any agency of this state or any political subdivision of this state receiving funds under any program shall not discriminate against any organization which is or applies to be a contractor to provide assistance, or which accepts certificates, warrants, or other forms of disbursement, on the basis that the organization has a religious character.*

(7)(a) *A faith-based organization which has entered into a contract with an agency or political subdivision of this state, or which accepts certificates, warrants, or other forms of disbursement described in subsection (1), shall retain its independence from state and local governments, in regard to the organization's control over the definition,*

development, practice, and expression of its religious beliefs. However, nothing in this act shall be construed to create an exemption from the provisions of s.24, Article I of the State Constitution with respect to any faith-based organization that contracts with the state to provide services or that accepts certificates, warrants or other forms of disbursement under any program, and the provisions of chapter 119 and chapter 286 shall apply as appropriate.

(b) An agency or any political subdivision of this state shall not require a faith-based organization to alter its form of internal governance or remove religious art, icons, scripture, or other symbols in order to be eligible to contract to provide assistance, or to accept certificates, warrants, or other forms of disbursement, funded under a program.

(8) Each agency which administers any program described in this section shall prepare a plan to implement this section and, no later than September 1, 2001, shall submit a copy of the plan to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(9) Any contractor or provider that has received a contract to provide services under any program may continue to employ faith-based organizations as subcontractors on the same basis as any other nongovernmental provider.

(10) Any agency that contracts with a faith-based or community organization shall establish and include in the contract, performance standards and other accountability measures for all services delivered as part of the program. The performance standards shall be established on the same basis as those required of any other contractor, subcontractor, provider, or the state. If the agency determines that it is reasonable, the standards shall include, but are not limited to, standards regarding service quality, client satisfaction, cost efficiency, and fiscal accountability. Faith-based and community organizations must be given the same reasonable opportunity to achieve the established standards as any other contractor, subcontractor, provider, or the state. If a faith-based or community organization fails to meet the appropriate performance standards, the agency awarding the contract shall take any appropriate action necessary to protect the interests of the state on the same basis as it would for any other contractor, subcontractor, provider, or the state. Such actions may include, but are not limited to, imposition of a requirement for corrective action, imposition of financial sanctions, notifications sent to the board of directors or other governing body, or termination of the contract. Except when an agency determines it is not reasonable, any agency that administers any program described in this section shall include in any client services contract a requirement that contractors or providers prepare plans describing their implementation of this section. Such plan shall include a disclosure of the administrative costs associated with the program or service to be provided. A failure to deliver such plans, if required, may be considered by the agency as a material breach of the contract that may result in cancellation of the contract.

(11) Any contractor or provider receiving state funds shall have established a separate 501(c)(3) organization for the purposes of receiving such funds and for administration, record keeping, accounting and other necessary functions relating to the usage of such funds.

(12) This section is repealed on July 1, 2002.

(c) ~~The agency for Health Care Administration shall adjust a hospital's current inpatient per diem rate to reflect the cost of serving the Medicaid population at that institution if:~~

~~No later than November 1, 2000, the agency must provide estimated costs for any adjustment in a hospital inpatient per diem pursuant to this paragraph to the Executive Office of the Governor, the House of Representatives General Appropriations Committee, and the Senate Budget Committee.
