(Amendment Bar Code: 032973)

**Amendment 19**—On page 43, line 24 through page 46, line 4, remove from the bill: all of said lines

and insert in lieu thereof:

440.34 Attorney’s fees; costs.—

A fee, gratuity, or other consideration may not be paid for services rendered for a claimant in connection with any proceedings arising under this chapter, unless approved as reasonable by the judge of compensation claims or court having jurisdiction over such proceedings. Except as provided by this subsection, any attorney’s fee approved by a judge of compensation claims for services rendered to a claimant must equal to 25 ~~20~~ percent of the first \$5,000 of the amount of the benefits secured, 20 ~~15~~ percent of the next \$5,000 of the amount of the benefits secured, 15 ~~10~~ percent of the remaining amount of the benefits secured to be provided during the first 10 years after the date the claim is filed, and 10 ~~5~~ percent of the benefits secured after 10 years.

(a) However, the judge of compensation claims ~~shall consider the following factors in each case and may approve an increase or decrease the attorney’s fee of up to \$2,500, based on a reasonable hourly rate, if, in her or his judgement, the judge of compensation claims expressly finds that the attorney’s fee based on benefits secured fails to finally compensate the attorney and that the circumstances of the particular case warrant such action. This monetary limitation to hourly rate fees does not apply to attorney’s fees paid under s.440.34(3)(c). Such fees shall be allowed for any petition for benefits that was ripe, due, and owing and~~

*should have been raised in such petition under this paragraph. Any fees are waived on any other benefits which were not raised and which were ripe, due, and owing at the time the issues are resolved.*

(b) *The judge of compensation claims shall not approve a compensation order, a joint stipulation for lump-sum settlement, a stipulation or agreement between a claimant and his or her attorney, or any other agreement related to benefits under this chapter which provides for an attorney’s fee in excess of the amount permitted by this section.*

~~(a) The time and labor required, the novelty and difficulty of the questions involved, and the skill requisite to perform the legal service properly.~~

~~(b) The fee customarily charged in the locality for similar legal services.~~

~~(c) The amount involved in the controversy and the benefits resulting to the claimant.~~

~~(d) The time limitation imposed by the claimant or the circumstances.~~

~~(e) The experience, reputation, and ability of the lawyer or lawyers performing services.~~

~~(f) The contingency or certainty of a fee.~~

(3) If the claimant should prevail in any proceedings before a judge of compensation claims or court, there shall be taxed against the employer the reasonable costs of such proceedings, not to include the attorney’s fees of the claimant. A claimant shall be responsible for the payment of her or his own attorney’s fees, except that a claimant shall be entitled to recover a reasonable attorney’s fee from a carrier or employer:

(a) Against whom she or he successfully asserts a *petition claim* for medical benefits only, if the claimant has not filed or is not entitled to file at such time a claim for disability, permanent impairment, wage-loss, or death benefits, arising out of the same accident; or

(b) In any case in which the employer or carrier files a *response to petition notice of denial* with the *Office of the Judges of Compensation Claims division* and the injured person has employed an attorney in the successful prosecution of the *petition claim*; or

(c) In a proceeding in which a carrier or employer denies that an injury occurred for which compensation benefits are payable, and the claimant prevails on the issue of compensability; or

(d) In cases where the claimant successfully prevails in proceedings filed under s. 440.24 or s.440.28.

*Regardless of the date benefits were initially requested, attorney’s fees shall not attach under this subsection until 30 days from the date the carrier or employer, if self-insured, receives the petition. In applying the factors set forth in subsection (1) to cases arising under paragraphs (a), (b), (c), and (d), the Judge of Compensation Claims must only consider only such benefits and the time reasonably spent in obtaining them as were secured for the claimant within the scope of paragraphs (a), (b), (c), and (d).*

You may attend the hearing with or without an attorney. If the plaintiff fails to file an objection, no hearing is required, the writ of garnishment will be dissolved and your wages, money, or property will be released.

YOU SHOULD FILE THE FORM FOR CLAIM OF EXEMPTION IMMEDIATELY TO KEEP YOUR WAGES, MONEY, OR PROPERTY FROM BEING APPLIED TO THE COURT JUDGMENT. THE CLERK CANNOT GIVE YOU LEGAL ADVICE. IF YOU NEED LEGAL ASSISTANCE YOU SHOULD SEE A LAWYER. IF YOU CANNOT AFFORD A PRIVATE LAWYER, LEGAL SERVICES MAY BE AVAILABLE. The plaintiff must file any objection within 2 business days if you hand delivered to the plaintiff a copy of the form for Claim of Exemption and Request for Hearing or, alternatively, 7 days if you mailed a copy of the form for claim and request to the plaintiff. If the plaintiff files an objection to your Claim of Exemption and Request for Hearing, the clerk will notify you and the other parties of the time and date of the hearing. You may attend the hearing with or without an attorney. If the plaintiff fails to file an objection, no hearing is required, the writ of garnishment will be dissolved and your wages, money, or property will be released.

YOU SHOULD FILE THE FORM FOR CLAIM OF EXEMPTION IMMEDIATELY TO KEEP YOUR WAGES, MONEY, OR PROPERTY FROM BEING APPLIED TO THE COURT JUDGMENT. THE CLERK CANNOT GIVE YOU LEGAL ADVICE. **HB 1565**—A bill to be entitled An act relating to public records; providing an exemption from public records requirements for information identifying the location of specified archaeological and cultural sites; providing an expiration date; providing a finding of public necessity; providing an effective date.

However, section 304 of the National Historic Preservation Act of 1966, as amended, protects specific information concerning the location and character of cultural resources, which includes archaeological sites, when sharing that information could place them in jeopardy.*

(3) *The Legislature further finds that this exemption is required by the development of Geographic Information System databases listing sites located in the Florida Master Site File at the Florida Department of State. The Geographic Information System is a valuable tool for recording site-location and survey data for participating in research, land-use planning, and site stewardship by land managers and law enforcement officers. However, while this data can be quickly disseminated to the public via the Internet, protective measures must be placed on the sharing and use of this data for sensitive archaeological locations.*

And the title is amended as follows:

On page 1, line 5,  
remove from the title of the bill: all of said lines

and insert in lieu thereof: specified archaeological sites;

Rep. Trovillion moved the adoption of the amendment, which failed of adoption.

The Committee on State Administration offered the following:

(Amendment Bar Code: 803387)

**Amendment 2 (with title amendment)—**

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. Any information identifying the location of archaeological sites contained in site files or other records maintained by the Division of Historical Resources of the Department of State is exempt from the provisions of section 119.07(1), Florida Statutes, and Section 24(a) of Article I of the State Constitution, if the Division of Historical Resources finds that disclosure of such information will create a substantial risk of harm, theft, or destruction at such sites. This section is subject to the Open Government Sunset Review Act in accordance with section 119.15, Florida Statutes, and expires on October 2, 2006, unless reviewed and reenacted by the Legislature.

Section 2. (1) The Legislature finds that it is a public necessity that information identifying the location of archaeological sites be exempt from public records requirements because the state has a serious problem with archaeological looting. The exact location of an archaeological site should be exempt from disclosure if the Division of Historical Resources determines that disclosure of the site location will create a substantial risk of harm, theft, or destruction at the site.

(2) The Legislature also finds that the lack of protection for sensitive sites puts the federal government in a difficult position. The Federal Government is mandated to share site-specific information with the Florida State Historic Preservation Officer to comply with section 106 of the National Historic Preservation Act of 1966, as amended. However, section 304 of the National Historic Preservation Act of 1966, as amended, protects specific information concerning the location and character of cultural resources, which includes archaeological sites, when sharing that information could place them in jeopardy.

(3) The Legislature also finds that new implementation guidelines for the National Historic Preservation Act of 1966, as amended, require increased consultation with federally recognized tribes. The Legislature finds that managing information concerning Native American sacred sites and sites of cultural patrimony requires this exemption, because credible stewardship in this area necessitates the ability to protect sensitive information from public dissemination.

Section 3. This act shall take effect upon becoming law.

And the title is amended as follows:

On page 1, line 5,  
remove from the title of the bill: all of said line

and insert in lieu thereof: specified archaeological sites;

Rep. Brummer moved the adoption of the amendment, which was adopted.

On motion by Rep. Hogan, the rules were waived and HB 1565, as amended, was read the third time by title. On passage, the vote was:

All such taxes shall be paid, or the payment thereof shall be guaranteed, to the *Florida Citrus Authority Department of Citrus* by the person first handling the fruit in the primary channel of trade, except that payment of taxes on fruit delivered or sold for processing in this state shall be paid, or payment thereof shall be guaranteed in accordance with *Florida Citrus Authority Department of Citrus* rules, by the person processing such fruit.

(b) Periodic payment of excise taxes upon citrus fruit by the person liable for such payment shall be permitted only in accordance with *Florida Citrus Authority Department of Citrus* rules; and the payment thereof shall be guaranteed by the posting of a good and sufficient cash bond, an appropriate certificate of deposit, or an approved surety bond in an amount and manner as prescribed by *Florida Citrus Authority Department of Citrus* rule. Evidence of such guarantee of payment of excise taxes shall be made on the grade certificate in such manner and form as may be prescribed by *Florida Citrus Authority Department of Citrus* rule.

(c) All taxes collected by the *Florida Citrus Authority Department of Citrus* shall be delivered *directly* to the *Florida Citrus Authority State Treasury* for payment into the proper *operating account advertising fund*.

(6)(7) All excise taxes levied and collected under the provisions of this chapter shall be paid to the *Florida Citrus Authority into the State Treasury* on or before the 15th day of each month; such moneys shall be accounted for in the *operating accounts of a special fund to be designated as the Florida Citrus Authority Florida Citrus Advertising Trust Fund*, and all moneys in such *accounts fund* are to be hereby appropriated to the *Florida Citrus Authority Department of Citrus* for the following purposes:

~~(a) Three percent of all income of a revenue nature deposited in this fund, including transfers from any subsidiary accounts thereof and any interest income, shall be deposited in the General Revenue Fund pursuant to chapter 215.~~

~~(a)(b)~~ Not more than 24 percent of such *operating accounts trust fund* shall be expended for the activities authorized by s. 601.13 and for the cost of those general overhead, research and development, maintenance, salaries, professional fees, enforcement costs, and other such expenses which are not related to advertising, merchandising, public relations, trade luncheons, publicity, and other associated activities. The cost of general overhead, maintenance, salaries, professional fees, enforcement costs, and other such expenses which are related to advertising, merchandising, public relations, trade luncheons, publicity, and associated activities shall be paid from the balance of the *operating accounts Citrus Advertising Trust Fund* and shall not be included in the 24-percent limitation.

~~(b)(e)~~ The balance of the moneys in the *Florida Citrus Authority operating accounts Florida Citrus Advertising Trust Fund* shall be used by the *Florida Citrus Authority Department of Citrus* for defraying those expenses not included within the 24-percent limitation established by paragraph (b). After payment of such expenses, the money levied and collected under the provisions of subsection (3) shall be used exclusively for commodity and noncommodity advertising, merchandising, publicity, or sales promotion of citrus products in both fresh form and processed form, including citrus cattle feed and all other products of citrus fruits, produced in the state, in such equitable manner and proration as the *Florida Citrus Authority Department of Citrus* may determine, but funds expended for commodity advertising thereunder shall be expended through an established advertising agency. A proration of moneys between commodity programs and noncommodity programs, and among types of citrus products, shall be made on or before November 1 of each shipping season and may not thereafter be modified for that shipping season unless the department finds such action necessary to preserve the economic welfare of the citrus industry.

~~(c)(d)~~ The pro rata portion of moneys allocated to each type of citrus product in noncommodity programs shall be used by the department to encourage substantial increases in the effectiveness, frequency, and volume of noncommodity advertising, merchandising, publicity, and sales promotion of such citrus products through rebates and incentive payments to handlers and trade customers for these activities. The *Florida Citrus Authority Department of Citrus* is authorized and directed to adopt rules providing for the use of such moneys. The rules shall establish alternate incentive programs, including at least one incentive program for product sold under advertised brands, one incentive program for product sold under private label brands, and one incentive program for product sold in bulk. For each incentive program, the rules shall establish eligibility and performance requirements and shall provide appropriate limitations on amounts payable to a handler or trade customer for a particular season. Such limitations may relate to the amount of citrus excise taxes levied and collected on the citrus product handled by such handler or trade customer during a 12-month representative period. The department may require from participants in noncommodity advertising and promotional programs commercial information necessary to determine eligibility for and performance in such programs. Any information so required which constitutes a "trade secret" as defined in s. 812.081 is confidential and exempt from the provisions of s. 119.07(1).

~~(7)(8)(a)~~ On certification by any employee of the *Florida Citrus Authority Department of Citrus* that her or his actual and necessary expenses on any particular day while traveling outside the state exceeded the per diem provided by law, such employee shall show such excess on her or his regular expense voucher and support the same by the proof required pursuant to rules and regulations to be promulgated by the *Florida Citrus Authority Department of Citrus*.

(b) The *Florida Citrus Authority Department of Citrus* is authorized to spend such amount as it deems advisable for guests involved in promotional activities in the sale of Florida citrus fruits and products.

(c) All obligations, expenses, and costs incurred under the provisions of this section *and other applicable sections of this chapter* shall be paid *in the method and manner established by the Florida Citrus Authority out of the Citrus Advertising Fund upon warrant of the Comptroller when vouchers thereof, approved by the Department of Citrus, are exhibited.*

~~(8)(9)(a)~~ Any handler who fails to file a return or to pay any tax within the time required shall thereby forfeit to the *Florida Citrus Authority Department of Citrus* a penalty of 5 percent of the amount of tax determined to be due; but the *Florida Citrus Authority Department of Citrus*, if satisfied that the delay was excusable, may remit all or any part of such penalty. Such penalty shall be paid to the *Florida Citrus Authority Department of Citrus* and disposed of as provided with respect to moneys derived from the taxes levied and imposed by subsection (3).

(b) The *Florida Citrus Authority Department of Citrus* may collect any taxes levied and assessed by this chapter in any or all of the following methods:

2. By a suit at law. *All actions filed by or against the Florida Citrus Authority shall be initiated in the courts located in Polk County, Florida.*
3. By a suit in equity to enjoin and restrain any handler, citrus fruit dealer, or other person owing such taxes from operating her or his business or engaging in business as a citrus fruit dealer until the delinquent taxes are paid. Such action may include an accounting to determine the amount of taxes plus delinquencies due. In any such proceeding, it is not necessary to allege or prove that an adequate remedy at law does not exist.

Section 57. Section 601.152, Florida Statutes, is reenacted and amended to read:

601.152 Special marketing orders.—

(1)(a) Whenever, upon its own motion or upon petition of any handler or producer or group or association of handlers or producers of citrus fruit, the commission, upon affirmative vote of nine of its members, determines:

1. That the conduct of a special advertising and promotional marketing campaign or the conduct of market and product research and development, in addition to the advertising campaign being conducted pursuant to s. 601.15 and the research being conducted pursuant to the other provisions of the Florida Citrus Code, may substantially further increase the consumer acceptance and consumption of, and strengthen the market for, any type, variety, or form of citrus fruit or processed citrus product by further increasing the number of families buying such citrus fruit or such processed citrus product or by further increasing the quantity of such citrus fruit or processed citrus product purchased by buying families; and

2. That such substantial further increase and strengthening may be of substantial benefit to handlers thereof, producers thereof, and to the economy and well-being of the state

the commission shall direct that a proposed marketing order be formulated for a special marketing campaign of advertising and sales promotion, including, but not limited to, brand advertising rebate promotions or the conduct of market and product research and development for such type, variety, or form of citrus fruit or processed citrus product, and shall designate a public hearing to consider adoption and implementation of such proposed marketing order.

(b) Notice of the time, place, and purpose of such public hearing shall be:

1. Mailed, not less than 10 days prior to such hearing, to each handler who, during the 12 months immediately preceding such mailing, has first handled in the primary channel of trade in Florida the type, variety, and form of citrus fruit or citrus product specified in the proposed marketing order, and to each handler who the *Florida Citrus Authority* ~~Department of Citrus~~ has good cause to believe will, during the period of time covered by the proposed marketing order, first handle in the primary channel of trade in Florida the type, variety, and form of citrus fruit or processed citrus product specified in such proposed marketing order.

2. Published in the Florida Administrative Weekly not less than 10 days prior to such hearing.

(c) A full and complete record of all proceedings at such public hearing shall be made and filed by the department at its offices, which record, when signed by the chair of the commission and authenticated by the seal of the department, shall constitute prima facie evidence of such proceedings in all courts of this state.

(d) Copies of the proposed marketing order shall be made available to the public at the offices of the *Florida Citrus Authority* ~~Department of Citrus~~ at Lakeland at least 5 days prior to such hearing and shall be in sufficient detail to apprise all persons having an interest therein of the approximate amount of moneys proposed to be expended; the assessments to be levied thereunder; and the general details of the proposed marketing order for a special marketing campaign of advertising or sales promotion or market or product research and development. Among the details so specified shall be the period of time during which the assessment imposed pursuant to subsection (8) will be levied upon the privilege so assessed, which period may not be greater than 2 years. The order may, however, provide that the expenditure of the funds received from the imposition of such assessments shall not be so confined, but may be expended during such time or times as shall be specified in the proposed marketing order, which may be either during the shipping season immediately preceding the shipping seasons during which such assessments are imposed or during, or at any time subsequent to, the shipping seasons during which such assessments are imposed. Nothing herein shall be construed to prevent the imposition of a subsequent marketing order either before, during, or after the expenditure of funds collected pursuant to a previously imposed marketing order, provided the aggregate of the assessments imposed may not exceed the maximum permitted under subsection (8).

(e) A proposed marketing order shall specify the type, variety, and form of citrus fruit or processed citrus product to be covered by the order and whether it applies:

1. To such citrus fruit or processed citrus product if it was so packed or processed from fruit first placed in the primary channel of trade in Florida during the period of time specified in the marketing order for the imposition of such assessments, or

2. To such citrus fruit or processed citrus product if it was so packed, processed, or shipped in such type, variety, and form during the period of time specified in the marketing order for the imposition of such assessments.

(f) If a marketing order provides for a brand advertising rebate promotion, the details specified shall include the requirements which must be met by the handler, broker, distributor, or grower in order to be eligible for rebate of advertising or promotional expenditures; the amount, or a method for computing the amount, rebatable; and the procedure for making rebates.

(g) Any marketing order may provide that policy decisions with respect to details not specifically set forth in such marketing order may be made either by the commission upon its own motion or by the commission upon the recommendation of any handlers' committee that may be established by the order. Otherwise such policy decisions shall be made by the commission.

(2) After such notice and hearing, the commission shall determine whether or not implementation of the new special marketing order, as originally proposed or as amended at the public hearing, will substantially further increase the consumer acceptance and consumption of the citrus fruit or processed citrus product specified in such marketing order and that such substantial further increase in the consumer acceptance and consumption thereof will be of substantial benefit to the handlers and producers thereof and to the economy and well-being of the state. If the commission so determines and if it adopts a marketing order, the commission shall direct that such marketing order be subjected to a referendum of the handlers who have, during a representative period to be selected by the commission, handled in the primary channel of trade in Florida the type, variety, and form of citrus fruit or processed citrus product specified in such marketing order.

(3) No marketing order adopted pursuant to this section shall be effective unless and until the commission, at a public meeting, determines such marketing order to have been assented to by referendum by at least 67 percent of the handlers covered by the marketing order who, during the representative period determined by the commission, first handled in the primary channel of trade in Florida not less than 51 percent of the total volume of the type, variety, and form of citrus fruit or processed citrus product specified in the marketing order.

(4) The *Florida Citrus Authority* ~~Department of Citrus~~ is authorized to prescribe such procedures as it deems necessary properly to conduct a referendum among handlers covered by the marketing order to determine whether such marketing order has been so assented to.

(5)(a) Any marketing order adopted pursuant to this section and subsequently approved by referendum as provided herein shall become effective 15 days after referendum approval is officially determined by the commission. Chapter 120 does not apply to this section. Any such marketing order shall be reviewable by any person adversely affected, by certiorari to the district courts of appeal in the manner prescribed by the Florida Rules of Appellate Procedure. The venue of the proceeding for such review shall be the appellate district which includes the county in which the hearings were conducted or, if the venue cannot be thus determined, the appellate district wherein the *Florida Citrus Authority* ~~Department of Citrus~~ executive offices are located.

(b) In cases in which certiorari is granted pursuant to this section, the court may issue its mandate or order with directions to the agency to enter in the proceedings as is appropriate on the record, or the court may remand the cause for such further proceedings, including the taking of testimony, as may to the court seem necessary or proper:

1. To accord the parties due process of law;
2. To establish a sufficient record for review;

3. To accord the parties their constitutional, statutory, or procedural rights; or

4. To accomplish the purposes and objectives of the law pursuant to which the administrative proceeding was initiated.

(6) Any marketing order so implemented under this section may be amended subsequent to its implementation, provided such amendment has been formulated, published, subjected to public hearing, determined by the commission to meet the requirements set forth in the other subsections hereof, and assented to in the same manner and in accordance with all of the procedures and requirements set forth in this section for implementation of the original marketing order. Any such amendment may:

(a) Terminate, extend, accelerate, or defer the conduct of the campaign.

(b) Defer for one or more shipping seasons the imposition of assessments thereunder.

(c) Extend by not more than 2 additional years the period of time during which the assessments imposed pursuant to subsection (8) may be levied upon the privilege so assessed.

(d) Increase (subject to the maximum limitations imposed herein) or reduce the assessments or the amount of moneys to be expended.

(e) Alter the general details of the campaign.

(f) Otherwise amend the originally implemented marketing order.

(7) For the purpose of carrying out any and all provisions of this section, the department, or its duly authorized or designated representative or representatives, may hold hearings, take testimony, and administer oaths. Copies of the proceedings, records, and acts of the department and the handlers' committee, if any, established by the marketing order and certificates purporting to relate the facts concerning such proceedings, records, and acts signed by the chair of the commission and authenticated by the seal of the department shall be prima facie evidence thereof in all the courts of the state.

(8)(a) Each person who, during the period of time specified in any marketing order implemented pursuant to this section, first handles in the primary channel of trade in Florida any citrus fruit or processed citrus product of the type, variety, and form specified in such marketing order shall, for the privilege of so handling such citrus fruit or such citrus product, pay to the *Florida Citrus Authority Department of Citrus* such assessments as are levied and imposed thereon by such marketing order, which funds shall be used by the *Florida Citrus Authority Department of Citrus* to defray the necessary expenses incurred in the formation, issuance, administration, and enforcement of such marketing order and in the conduct of the special marketing campaign or market and product research and development provided for in such marketing order. However, such assessments levied and imposed pursuant hereto shall be at a rate not to exceed 8 cents per standard-packed box on citrus fruits in fresh form, 1.3 cents per gallon on single strength citrus juices or sections, or 1.3 cents per pound of soluble citrus solids on concentrated citrus juices.

(b) The *Florida Citrus Authority Department of Citrus* shall prescribe procedures for the assessment and collection of such funds to defray the necessary expenses incurred, or expected to be incurred, by the *Florida Citrus Authority Department of Citrus* in the formation, issuance, administration, and enforcement of any marketing order implemented pursuant to the provisions of this section.

(c) Every handler shall, at such times as the department may require, file with the *Florida Citrus Authority Department of Citrus* a return, not under oath, on forms to be prescribed and furnished by the *Florida Citrus Authority Department of Citrus*, certified as true and correct, stating the quantity of the type, variety, and form of citrus fruit or citrus product specified in the marketing order first handled in the primary channels of trade in Florida by such handler during the period of time specified in the marketing order. Such returns shall contain any further information deemed by the *Florida Citrus Authority*

*Department of Citrus* to be reasonably necessary to properly administer or enforce the provisions of this section or any marketing order implemented hereunder. Information that, if disclosed, would reveal a trade secret, as defined in s. 812.081, of any person subject to a marketing order is confidential and exempt from the provisions of s. 119.07(1).

(d) All assessments imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid by such handlers at such times and in such installments as the commission shall prescribe in such marketing order, or the amount thereof shall be provided for and guaranteed by giving a surety bond or cash deposit or as the *Florida Citrus Authority Department of Citrus* may otherwise prescribe.

(9)(a) All moneys collected by the *Florida Citrus Authority Department of Citrus* under this section shall be set aside in the operating accounts of the *Florida Citrus Authority Florida Citrus Advertising Trust Fund* as a special fund to be known as the "Citrus Special Marketing Order Fund." All moneys in such accounts fund, after deducting the service charge provided in s. 601.15(7), are hereby appropriated to the *Florida Citrus Authority Department of Citrus* for the actual expenses incurred by the *Florida Citrus Authority Department of Citrus* with respect to the formulation, issuance, administration, and enforcement of any marketing order so implemented and in the conduct of the special marketing campaign or market and product research and development to be carried out pursuant to any such marketing order so implemented. Upon the completion of the special marketing campaign or market and product research and development provided for pursuant to any marketing order so implemented hereunder, any and all moneys remaining and not required by the *Florida Citrus Authority Department of Citrus* to defray the expenses of such marketing order shall be deposited to and made a part of the general operating accounts of the *Florida Citrus Authority Florida Citrus Advertising Trust Fund* created by s. 601.15.

(b) If the *Florida Citrus Authority Department of Citrus* finds it necessary to do so, it may transfer to the Citrus Special Marketing Order Fund from any other portion of the *Florida Citrus Authority operating accounts Florida Citrus Advertising Trust Fund*, including the emergency reserves Reserve Fund and any other special or reserve fund, such sum of money as the *Florida Citrus Authority Department of Citrus* determines is initially required to formulate, issue, administer, and enforce any such marketing order and conduct the special marketing campaign or market and product research and development to be carried out pursuant to such marketing order until moneys in the Citrus Special Marketing Order Fund derived from assessments imposed and collected pursuant to this section are sufficient for such purposes, and thereafter repay such advance out of the Citrus Special Marketing Order Fund.

(10)(a) Any handler who fails to file a return or to pay any assessment within the time required shall thereby forfeit to the *Florida Citrus Authority Department of Citrus* a penalty of 5 percent of the amount of assessment then due; but the *Florida Citrus Authority Department of Citrus*, upon good cause shown, may waive all or any part of such penalty. Such penalty shall be paid to the *Florida Citrus Authority Department of Citrus* and disposed of as provided with respect to moneys derived from the assessments imposed pursuant to this section.

(b) The *Florida Citrus Authority Department of Citrus* may collect the assessments imposed pursuant to this section in either or all of the following methods:

1. The voluntary payment by the handler liable therefor.;

2. By a suit at law. Any suit initiated by or filed against the *Florida Citrus Authority*, must be filed in the courts located in Polk County, Florida.;

3. By a suit in equity to enjoin and restrain any handler owing such assessments from operating his or her business or engaging in business as a citrus fruit dealer until the delinquent assessments are paid. Such

action may include an accounting to determine the amount of assessments plus delinquencies due. In any such proceeding, it shall not be necessary to allege or prove that an adequate remedy at law does not exist.

(11) This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the *Florida Citrus Authority* ~~Department of Citrus~~ under the police power of this state.

The marketing order must also be consented to in writing by producers voting in the referendum who, during a preceding representative shipping season determined by the *Florida Citrus Authority* ~~Department of Citrus~~, produced and delivered or caused to be delivered into the primary channel of trade not less than 65 percent of the total number of standard-packed boxes of oranges, grapefruit, tangerines, or citrus hybrids, or the equivalent thereof which were found by the *Florida Citrus Authority* ~~Department of Citrus~~ to have been produced and delivered by such voting producers into the primary channel of trade during such representative period.

(b) No marketing order or amendment thereto issued pursuant to this section which contains provisions authorized by paragraph (5)(c) or paragraph (5)(e) pertaining to processed citrus products shall become effective unless and until such order has also been submitted to processors who, during a preceding representative shipping season determined by the *Florida Citrus Authority* ~~Department of Citrus~~, handled in the primary channel of trade the type or types of processed orange, grapefruit, tangerine, or citrus hybrid products specified for purchase or marketing by the provisions of such marketing order, and the *Florida Citrus Authority* ~~Department of Citrus~~ finds that such order has been assented to in writing by at least 51 percent of such processors voting in such referendum who processed, from oranges, grapefruit, tangerines, or citrus hybrids delivered into the primary channels of trade during such representative period, not less than 65 percent of the

(c) No marketing order or amendment thereto issued pursuant to this section which contains provisions authorized by paragraph (5)(b) or paragraph (5)(e) pertaining to fresh citrus fruit shall become effective unless and until such order has also been submitted to shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids who, during a preceding representative shipping season determined by the *Florida Citrus Authority Department of Citrus*, handled oranges, grapefruit, tangerines, or citrus hybrids in the primary channel of trade, and the *Florida Citrus Authority Department of Citrus* finds that such order has been assented to in writing by at least 51 percent of such shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids voting in such referendum who, during such representative period, handled in the primary channel of trade not less than 65 percent of the number of standard-packed boxes of such oranges, grapefruit, tangerines, or citrus hybrids handled by such voting shippers of fresh oranges, grapefruit, tangerines, or citrus hybrids in the primary channel of trade during such representative period.

(7) The *Florida Citrus Authority Department of Citrus* is authorized to prescribe by rule or regulation such procedures as it deems necessary or required to properly conduct a referendum hereunder.

(8) Every marketing order and amendment thereto issued by the *Florida Citrus Authority Department of Citrus*, under the provisions of this section, shall be published one time, within 10 days after the same is adopted, in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state, to be selected by the *Florida Citrus Authority Department of Citrus*. All such orders shall become effective 5 days after the orders are found by the *Florida Citrus Authority Department of Citrus* to be so assented to, unless the *Florida Citrus Authority Department of Citrus* orders a later date. In case written protest by any affected person shall be made to any such order within 15 days after the *Florida Citrus Authority Department of Citrus* has found it so assented to, a hearing shall be conducted at a place and time determined by the *Florida Citrus Authority Department of Citrus* or its authorized agent or representative; all interested persons shall have an opportunity to be heard. The *Florida Citrus Authority Department of Citrus* may, on application of the protestant and for good cause shown, stay the effective date of the order for such time as the *Florida Citrus Authority Department of Citrus* may direct. Any action of the *Florida Citrus Authority Department of Citrus* refusing to modify the order protested or refusing to stay the effective date of such order shall be subject to review by any court of competent jurisdiction.

(9) For the purpose of carrying out any and all provisions of this section, the commission, or its duly authorized or designated representative or representatives, may hold hearings, take testimony, and administer oaths and may, after any marketing order has become final, subpoena witnesses and issue subpoenas for the production of books, records, or documents relevant and material to the marketing order. Copies of the proceedings, records, and acts of the commission and certificates purporting to relate the facts concerning such proceedings, records, and acts, signed by the chair of the commission and authenticated by the seal of the commission, shall be prima facie evidence thereof in all the courts of the state.

(10)(a) The *Florida Citrus Authority Department of Citrus* shall suspend or terminate any marketing order, or any provision thereof, whenever it finds such order or provision does not tend to effectuate the declared purposes of this section within the standards and subject to the limitations and restrictions herein imposed. Such suspension or

termination shall not be effective until the expiration of the then-current marketing, shipping, or harvesting season, unless otherwise provided in any such marketing order.

(b) If the *Florida Citrus Authority Department of Citrus* finds that the termination or suspension of any marketing order is requested in writing by producers who produced for market during the last preceding shipping season more than 51 percent of the total standard-packed boxes of the variety of citrus fruit covered by the marketing order, the *Florida Citrus Authority Department of Citrus* shall terminate or suspend for a specified period such marketing order or provision thereof.

(11) Upon the issuance of any order of suspension or termination of any marketing order, a notice thereof shall be published one time in at least one daily newspaper of general circulation in each of two cities within the citrus-producing area of the state to be selected by the *Florida Citrus Authority Department of Citrus*. No order of suspension or termination shall become effective until the expiration of a period of 5 days from the date of such publication.

(12) For the privilege of delivering the variety of citrus fruit covered by a marketing order into the primary channel of trade, every person so engaged shall pay to the *Florida Citrus Authority Department of Citrus* an assessment specified in the marketing order. However, the aggregate of all assessments levied against any variety of citrus fruit with respect to one or more marketing orders shall not exceed 10 cents per standard-packed box or the equivalent thereof with respect to any shipping season in which such marketing order or orders are in effect. The *Florida Citrus Authority Department of Citrus* shall prescribe rules and regulations with respect to the assessment and collection of such funds.

(13)(a) Every handler, producer, or other person delivering oranges, grapefruit, tangerines, or citrus hybrids to any handler or other person shall keep a complete and accurate record of all oranges, grapefruit, tangerines, or citrus hybrids handled by her or him. Such record shall be in such form and contain such information as the *Florida Citrus Authority Department of Citrus* shall by rule or regulation prescribe. Such records shall be preserved by all such persons for a period of at least 1 year after the termination of the marketing order to which such records relate and shall be offered for inspection at any time upon oral or written demand by the *Florida Citrus Authority Department of Citrus* or its duly authorized agent or representative.

(b) Every handler shall, at such times as the *Florida Citrus Authority Department of Citrus* may by rule or regulation require, file with the *Florida Citrus Authority Department of Citrus* a return on forms to be prescribed and furnished by the *Florida Citrus Authority Department of Citrus* certifying the number of standard-packed boxes of the variety of citrus fruit covered by a marketing order handled by her or him in the primary channel of trade during the period of time prescribed by the *Florida Citrus Authority Department of Citrus*.

(c) All assessments levied and imposed under and pursuant to the provisions of this section shall be due and payable and shall be paid, or the amount thereof provided for and guaranteed as hereinafter provided, at such times and in such installments as the *Florida Citrus Authority Department of Citrus* shall by regulation prescribe. All such assessments shall be paid by the producer or other person delivering the oranges, grapefruit, tangerines, or citrus hybrids into the primary channel of trade. However, the handler who receives the citrus fruit in the primary channel of trade shall not be construed to be the person delivering the citrus fruit into the primary channel of trade, except when such handler and the producer are one and the same person. Such assessments shall be collected from the producer or other person delivering the oranges, grapefruit, tangerines, or citrus hybrids into the primary channel of trade by the handler first handling the citrus fruit in the primary channel of trade and shall be guaranteed and transmitted to the *Florida Citrus Authority Department of Citrus* by the handler so shipping or processing such citrus fruit by the giving of a security bond or cash deposit under rules and regulations promulgated by the *Florida Citrus Authority Department of Citrus*. Such assessments shall not be absorbed by the handler, unless the handler is one and the same person as the producer, but shall be deducted by the handler from the price paid or to be paid by the handler to the producer

or other person who delivered the citrus fruit into the primary channel of trade.

(14)(a) All money so collected by the *Florida Citrus Authority Department of Citrus* under this section, including the net proceeds received by the *Florida Citrus Authority Department of Citrus* from the sale of any processed orange product pursuant to paragraph (5)(c), shall be set aside in *Florida Citrus Authority operating accounts*. ~~the Florida Citrus Advertising Trust Fund as a special fund to be known as the "Citrus Stabilization Fund."~~ All moneys in such *operating accounts fund*, after deducting the service charge provided in s. 601.15(7), are hereby appropriated to the *Florida Citrus Authority Department of Citrus* for the payment of the actual expenses incurred by the *Florida Citrus Authority Department of Citrus* in the formulation, issuance, administration, enforcement, and operation of the marketing order pursuant to which such funds are so collected, except as hereinafter provided. The marketing order may provide that any moneys remaining in such fund upon the termination of a marketing order shall be refunded on a pro rata basis to all persons assessed pursuant to such marketing order; may provide that such moneys may be used to pay expenses incurred by the *Florida Citrus Authority Department of Citrus* in the formulation, issuance, administration, enforcement, and operation of any other marketing order issued pursuant to this chapter; or may provide that such moneys may be deposited to and made a part of *Florida Citrus Authority operating accounts which are funded the Citrus Advertising Trust Fund* created by s. 601.15. During the administration, enforcement, and operation of any marketing order adopted hereunder, if the commission determines that funds derived pursuant to that marketing order exceed the requirements for the desired operation of that marketing order, it may transfer such funds as it determines by its vote are excess to *operating accounts which are funded by the Florida Citrus Advertising Trust Fund* established by s. 601.15. Such transfer shall be for the purposes of advertising and promoting, including brand advertising rebate promotions, merchandising and research in regard to the particular form of citrus fruit or processed citrus product for which the funds were collected pursuant to the marketing order. The commission may also transfer any excess for the purpose of the formulation, issuance, administrative enforcement, or operation of any other marketing order adopted hereunder that is directed to the same form of citrus fruit or processed citrus product. No such transfer shall be accomplished without a public hearing and a subsequent referendum being conducted to approve such a transfer. If, after any such transfer of excess funds, it is subsequently determined that additional funds are needed for the administration, enforcement, and operation of the marketing order from which funds were transferred, and there are sufficient funds available in the fund which was the recipient of the funds transferred, the commission, upon an affirmative vote of nine of its members, may retransfer, from the recipient fund to the original fund, an amount not to exceed that originally transferred.

(b) If the commission finds it necessary to do so, it may transfer to the Citrus Stabilization Fund from the *Florida Citrus Authority operating accounts Florida Citrus Advertising Trust Fund* created in this chapter only such sum of money as the commission determines is required to formulate and issue any such marketing order until moneys in the Citrus Stabilization Fund derived from assessments imposed and collected pursuant to this section are sufficient to finance the administration, enforcement, and operation of such marketing order and to replace such transferred funds.

(15)(a) Any marketing order which contains provisions authorized by paragraph (5)(c) shall include provisions specifying:

1. The type and form of processed orange or grapefruit product proposed to be purchased, stored, and sold.
2. The maximum price at which the processed orange or grapefruit product to be pooled may be purchased or the criteria to be used in computing such maximum price.
3. The criteria to be used in determining whether a freeze, hurricane, or other catastrophe which results in a shortage of oranges or grapefruit or processed orange or grapefruit products is sufficiently

serious to justify the sale of all or part of the processed orange or grapefruit products then held in the reserve pool.

4. The minimum price at which the pooled processed orange or grapefruit product will be sold after a determination pursuant to subparagraph 3., or the criteria to be used in computing such minimum price.
5. The criteria to be used in determining upon what basis or allocation, or both, and upon what time schedule the pooled processed orange or grapefruit product may be sold to Florida processors of processed orange or grapefruit products after a determination pursuant to subparagraph 3.
6. The quality standards to which the processed orange or grapefruit product to be pooled will be required to conform.
7. The criteria for determining at what level the quantity of processed orange or grapefruit products in the reserve pool will be sufficient to accomplish the purposes intended.
8. The criteria to be used in determining to what limited extent processed orange or grapefruit products held in such reserve pool may be sold to defray costs of storage at such times when no other funds are available for such purpose.

(b) Notwithstanding any other provision of this section, the provisions of any marketing order authorized by paragraph (5)(c) may not, under any circumstances, be suspended, terminated, or amended within 12 months following a catastrophe which, under the criteria established pursuant to subparagraph (a)3., is sufficiently serious to justify the sale of all or part of the processed citrus products then held in the reserve pool.

(16) Any person who violates any provision of this section, any provision of any marketing order, or any rule or regulation of the *Florida Citrus Authority Department of Citrus* relating thereto is guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

The A circuit court may issue a temporary restraining order and preliminary injunction, as in other actions for injunctive relief, and, upon final hearing, if the final decree is in favor of the *Florida Citrus Authority Department of Citrus*, the court shall permanently enjoin the defendant or defendants from further violations, and any such final decree in favor of the *Florida Citrus Authority Department of Citrus* shall provide that the defendant or defendants pay it reasonable costs of such suit, including reasonable attorney's fees. Any such action may be commenced either in the county where the defendant resides, or in the county where any other defendant resides, if more than one defendant, or in the county where any act or omission, or part thereof, complained of occurred.

(18) This section shall be liberally construed to effectuate the purposes set forth and as additional and supplemental powers vested in the *Florida Citrus Authority Department of Citrus* under the police power of this state.

(19) Nothing herein shall be construed to authorize the *Florida Citrus Authority Department of Citrus* in any manner to fix prices of citrus.

(c) In fixing the foregoing fees, the Department of Agriculture *and Consumer Services* shall provide for adequate reserves to pay costs expected to be incurred during those periods when costs are expected to exceed income.

(d) The computations of the fees provided for herein and information as to the data upon which they are based shall be furnished by the Department of Agriculture *and Consumer Services* upon request to any person liable for fees hereunder.

(3)(a) All fees levied by this section shall be applicable retroactively to a date to be fixed by the Department of Agriculture *and Consumer Services*. Such fees shall be paid to the Department of Agriculture *and Consumer Services* or the payment thereof guaranteed by the person who is the owner or operator of the facility at which the citrus fruit or processed citrus products so certified are handled under the provisions of this chapter. (5) The Department of Agriculture *and Consumer Services* shall have the power to adopt rules providing for the imposition of special fees for inspections conducted during hours not contemplated by regular state work hours. Such rules shall prescribe circumstances under which the fees levied pursuant to paragraphs (1)(a) and (b) would not apply and the fees imposed pursuant to such rules would apply. The rules shall provide that said fees shall be levied when specifically actuated by contract between the department and persons liable for the fees created by this subsection. The rules shall not allow fees to be charged which are in excess of the department's actual cost of the inspection to be made, nor shall such fees be less than those imposed by paragraphs (1)(a) and (b).

(6) When any portion of the revenues deposited to the Citrus Inspection Trust Fund is not immediately needed for the purpose for which such funds are appropriated, the Treasurer shall invest and reinvest such funds, and the earnings thereon shall be deposited to and made a part of the Citrus Inspection Trust Fund.

(a) A “repeat application” is defined as an application filed by a dealer who held a valid license during the season immediately preceding

that for which application is made; and, if the application is approved on or before August 1, such license shall be in effect for the period August 1 through July 31 of the shipping season applied for. Any license issued upon approval of such application, if approval is granted after August 1, shall be effective from the date of license issuance through July 31 of the shipping season applied for.

(b) Any application filed by an applicant who was not licensed during the immediately preceding shipping season for which the license application is made shall be considered a "new application." Any license subsequently issued upon approval of such application shall be effective from the date of license issuance through July 31 of the shipping season applied for.

The termination dates of citrus fruit dealers' licenses as set forth above shall not apply to a temporary license approved and issued in accordance with s. 601.57(3).

(d) A statement of delinquent accounts growing out of the ordinary course of business with producers, if any there be;

(e) A financial statement of the applicant, if required by the *Florida Citrus Authority Department of Citrus*, showing such information as the *Florida Citrus Authority Department of Citrus* may prescribe regarding the financial conditions of the applicant;

(g) The number of boxes of citrus fruit, measured in terms of standard-packed boxes, which the applicant intends to deal with during the current or ensuing shipping season.

(2) If the applicant is an individual and is shown to be a nonresident of the state, or is a copartnership and each member is shown to be a nonresident of the state, in either event, the said applicant shall designate some bona fide resident of the state as such applicant's resident agent upon whom process may be served. The service of process of any of the courts of this state upon such resident agent shall be as effectual and binding upon said applicant as if personally served upon said applicant.

(3) If the applicant is a corporation, then such corporation must be one organized and existing under the laws of this state or having an unrevoked permit authorizing it to transact business in this state.

(4) When a license application is submitted for a person or business entity which has an unpaid balance due and owing the *Florida Citrus Authority Department of Citrus* for any citrus excise taxes or delinquency fees levied and imposed under the authority of this chapter, the applicant shall be notified immediately by the department; and such application shall not be further processed or presented to the commission for action until such taxes and fees are paid in full. However, any applicant whose taxes are under review by the *Florida Citrus Authority Department of Citrus* or are contested in the appropriate administrative agency or court shall not have its application denied solely on the basis of owed taxes or fees, until the matter is determined by the department, agency, or court.

Section 102. Section 601.57, Florida Statutes, is reenacted and amended to read:

601.57 Examination of application; approval of dealers' licenses.—

(1) The *Florida Citrus Authority Department of Citrus* shall, within a reasonable time, examine the application and consider the information submitted therewith, including the applicant's financial statement and the reputation of the applicant as shown by applicant's past and current history and activities, including applicant's method and manner of doing business. The *Florida Citrus Authority Department of Citrus* shall also consider the past history of any applicant, either individually or in connection with any individual, copartnership, corporation, association, or other business unit with whom any applicant shall have been connected in any capacity, and may in proper cases impute to any individual, corporation, copartnership, association, or other business unit liability for any wrong or unlawful act previously done or performed by such individual, corporation, copartnership, association, or other business unit.

(2) If the Florida Citrus Commission shall, by a majority vote, be of the opinion that the applicant is qualified and entitled to a license as a citrus fruit dealer, the commission shall approve the application; otherwise the application shall be disapproved. However, commission approval of any application may be contingent upon such reasonable conditions as may be endorsed thereon by the commission, or commission action on an application may, by majority vote, be deferred to a subsequent date.

(3) In cases of deferred action, as set forth in subsection (2), if the applicant so requests and the factual circumstances are deemed by the commission so to justify, the commission may approve the granting of a temporary license to be valid for a period to be set by the commission, not to exceed 60 days. No more than one temporary license shall be approved for any applicant during a shipping season. No temporary license may be approved unless all requirements relating to bonds or fees required to be posted or paid by the applicant have been met the same as though the approval were not of a temporary nature.

(4) Grounds for the disapproval of the application include, but are not limited to:

(a) Any previous conduct of the applicant which would have been grounds for revocation or suspension of a license as hereinafter provided if the applicant had been licensed.

(b) Delinquent accounts of the applicant owing to and growing out of the ordinary course of business with producers and other persons or firms.

(c) Delinquent accounts of the applicant with any person or persons with whom applicant has dealt in its operations under a previous license.

(d) Failure of the applicant or its owners, partners, officers, or agents to comply with any valid order of the Department of Agriculture and Consumer Services or the *Florida Citrus Authority Department of Citrus* relating to citrus fruit laws or rules.

(e) Applicant's violation, or aiding or abetting in the violation, of any federal or Florida law or governmental agency rule or regulation governing or applicable to citrus fruit dealers.

(5) When the applicant is a corporate or other business entity, the term "applicant" as used in this section shall be deemed to include within its meaning those individuals who have been, or can reasonably be expected to be, actively engaged in the managerial affairs of the corporate or other business entity applicant.

(6) The *Florida Citrus Authority* ~~Department of Citrus~~ shall designate not more than three employees directly involved in the processing of citrus fruit dealer license applications, who shall be a part of, and shall have access to, the criminal justice information system described in chapter 943, for purposes of investigating license applicants.

(7) The *Florida Citrus Authority* ~~Department of Citrus~~ is authorized to establish by rule the procedure and guidelines for granting interim conditional staff approval for issuance of a conditional citrus fruit dealer's license, which license shall at all times be subject to final approval or other action by the commission at its next regular meeting. Any license so issued shall clearly and conspicuously indicate thereon the conditional nature of the approval and pendency of final action.

Section 103. Section 601.58, Florida Statutes, is reenacted to read:

601.58 Application approval or disapproval.—

(1) Each citrus fruit dealer's license application which is approved, or approved subject to conditions, shall be forwarded immediately to the Department of Agriculture and Consumer Services, which shall, upon satisfaction of the stated conditions, if any are endorsed thereon, issue to the applicant an appropriate license as prescribed in s. 601.60.

(2) Each temporary license granted under s. 601.57(3), license with conditions approved by the commission under s. 601.57(2), or conditional license issued upon interim staff approval under s. 601.57(7) shall clearly and conspicuously show thereon the specific conditions, or the temporary or conditional nature, thereof.

(3) No license shall be issued to any applicant whose application has been finally disapproved by the commission. Once an application has been finally disapproved by the commission, the application shall remain disapproved for the remainder of the subject shipping season.

Section 104. Section 601.59, Florida Statutes, is reenacted and amended to read:

601.59 Dealer's license fee; agent's registration fee.—

(1) Each applicant who qualifies for a citrus fruit dealer's license shall pay to the Department of Agriculture and Consumer Services, prior to issuance of such license, a license fee of \$25 per shipping season or portion thereof covered by the license.

(2) A registration fee of \$10 per shipping season or portion thereof covered by the dealer's license shall be paid to the Department of Agriculture and Consumer Services for the registration of each agent of a licensed citrus fruit dealer.

(3) All license and registration fees imposed and collected under the provisions of this section shall be paid to the State Treasury on or before the 15th day of each month. Such moneys shall be deposited in the Citrus Inspection Trust Fund and are hereby appropriated in the manner provided by s. 601.28(3)(b).

Section 105. Section 601.60, Florida Statutes, is reenacted and amended to read:

601.60 Issuance of dealers' licenses.—

(1) Whenever an application bears the approved endorsement of the *Florida Citrus Authority* ~~Department of Citrus~~ and satisfactions of conditions of approval, if any, and the applicant has paid the prescribed fee, the Department of Agriculture and Consumer Services shall issue to such applicant a license, as approved by the *Florida Citrus Authority* ~~Department of Citrus~~, which shall entitle the licensee to do business as a citrus fruit dealer during the effective term of such license in accordance with s. 601.55 or until such license may be suspended or revoked by the Department of Agriculture and Consumer Services in

accordance with the provisions of law. The Department of Agriculture and Consumer Services may issue a provisional license for a period of no longer than 1 year to an applicant who is under investigation for an action that would constitute a violation of this chapter or has pending against such applicant an administrative or civil proceeding which alleges an action that would constitute a violation of this chapter. The department shall establish by rule requirements for renewal of a provisional license. When the investigation is complete or the pending proceeding has been disposed of, the department may issue a regular license under this section.

(2) If, during the effective term of such license, there is any change in the ownership, officers, managership, or stockholders of any copartnership, association, corporation, or other business unit to which a license has been issued, the licensee shall immediately notify the *Florida Citrus Authority* ~~Department of Citrus~~ in writing specifying the change in detail. The *Florida Citrus Authority* ~~Department of Citrus~~ shall be entitled to receive, and the licensee shall be required to promptly furnish, such additional information as if the licensee were applying for a new license. If, after investigating the facts and applying the standards prescribed for the issuance of new licenses, the commission finds that the licensee is not entitled to a citrus fruit dealer's license, the commission shall recommend to the Department of Agriculture and Consumer Services that such existing license be suspended or revoked and, upon such recommendation, the Department of Agriculture and Consumer Services shall immediately take necessary steps to suspend or revoke such existing license.

Section 106. Section 601.601, Florida Statutes, is reenacted and amended to read:

601.601 Registration of dealers' agents.—Every licensed citrus fruit dealer shall:

(1) Register with the Department of Agriculture and Consumer Services each and every agent, as defined in s. 601.03(2), authorized to represent such dealer; make application for registration of such agent or agents on a form approved by the Department of Agriculture and Consumer Services and filed with the Department of Agriculture and Consumer Services not less than 5 days prior to the active participation of the agent or agents on behalf of such dealer in any transaction described in s. 601.03(2); and be held fully liable for and legally bound by all contracts and agreements, verbal or written, involving the consignment, purchase, or sale of citrus fruit executed by a duly registered agent on the dealer's behalf during the entire period of valid registration of such agent the same as though such contracts or agreements were executed by the dealer. Registration of each agent shall be for the entire shipping season for which the applying dealer's license is issued; however, a licensed dealer may cancel the registration of any agent registered by her or him by returning the agent's identification card to the Department of Agriculture and Consumer Services and giving formal written notice to the Department of Agriculture and Consumer Services of not less than 10 days. In addition, such dealer shall make every effort to alert the public to the fact that the agent is no longer authorized to represent her or him. An agent may be registered by more than one licensed dealer for the same shipping season, provided that each licensed dealer shall apply individually for registration of the agent and further provided that written consent is given by each and every dealer under whose license the agent has valid prior registration.

(2) When the above requirements and such additional requirements as may be set forth by regulations adopted by the *Florida Citrus Authority* ~~Department of Citrus~~ for registration of an agent have been met and the fee required by s. 601.59(2) has been paid, the Department of Agriculture and Consumer Services shall duly register the agent and issue an identification card certifying such registration. The identification card, among other things, shall show in a prominent manner:

- (a) The name and address of the agent;
- (b) The authorizing dealer's name, address, and license number;

- (c) The effective date and season for which registration is made;
- (d)1. A space for signature of the agent;
- 2. A space to be countersigned by the licensed dealer;
- 3. A statement providing that the card is not valid unless so signed and countersigned.

The *Florida Citrus Authority* ~~Department of Citrus~~ may, from time to time, adopt additional requirements or conditions relating to the registration of agents as may be necessary.

Section 107. Section 601.61, Florida Statutes, is reenacted and amended to read:

601.61 Bond requirements of citrus fruit dealers.—

(1) Except as hereinafter provided, prior to the approval of a citrus fruit dealer's license, the applicant therefor must deliver to the Department of Agriculture and Consumer Services a good and sufficient cash bond, appropriate certificate of deposit, or a surety bond executed by the applicant as principal and by a surety company qualified to do business in this state as surety, in an amount as determined by the *Florida Citrus Authority* ~~Department of Citrus~~. The amount of such bond or certificate of deposit shall be determined by taking into consideration any one or more of the following: The number of standard packed boxes of citrus fruit, or the equivalent thereof, which the applicant intends to handle during the term of the license as set forth in the application; the total volume of fruit handled by the dealer the previous season; the highest month's volume handled the previous season; the anticipated increase in the total citrus crop during the season for which the application for license is made; and other relevant factors based on the following schedule:

- (a) \$1,000 up to 2,000 boxes;
- (b) \$2,000 up to 5,000 boxes;
- (c) \$3,750 up to 7,500 boxes;
- (d) \$5,000 up to 10,000 boxes;
- (e) \$10,000 up to 20,000 boxes;
- (f) \$1,000 for each additional 20,000 boxes or fraction thereof in excess of 20,000 boxes, with a maximum bond of \$100,000.

If a citrus fruit dealer during the term of her or his license finds that she or he has handled, or can reasonably expect to handle a volume of fruit greater than that covered by a posted bond or certificate of deposit, the dealer shall have the affirmative duty of immediately notifying the Department of Agriculture and Consumer Services and initiating an increase in such bond or certificate of deposit to an amount that will meet the requirements set forth above.

(2) Said bond shall be in the form approved by the Department of Agriculture and Consumer Services and shall be conditioned as provided in s. 601.66(9), and also to fully comply with the terms and conditions of all contracts, verbal or written, made by the citrus fruit dealer with producers or with other citrus fruit dealers, relative to the purchasing, handling, sale, and accounting of purchases and sales of citrus fruit, and upon the dealer accounting for the proceeds from, and paying for, any citrus fruit purchased or contracted for, in accordance with the terms of the contracts with producers, and upon the dealer accounting for any advance payments or deposits made, and delivering all citrus fruit contracted for, in accordance with the terms of the contracts with other citrus fruit dealers. The commission may prescribe by rule that such a producer contract contain information that it considers necessary to protect the producer from deceptive practices. For purposes of this chapter, every such contract shall be conclusively deemed to have been made and entered into during the shipping season in which the delivery of fruit into the primary channel of trade is made.

(3) Said bond shall be to the Department of Agriculture *and Consumer Services*, for the use and benefit of every producer and of every citrus fruit dealer with whom the dealer deals in the purchase,

handling, sale, and accounting of purchases and sales of citrus fruit. The aggregate accumulative liability under any bond shall not exceed the amount named therein. Said bond shall provide that the surety company thereon shall not be liable to any citrus fruit dealer claiming to be injured or damaged by the said dealer if the aggregate of the amounts found to be due to producers pursuant to the provisions of this chapter equals or exceeds the amount of the bond, unless such citrus fruit dealer is also a producer and is acting in the capacity of a producer and not in the capacity of a citrus fruit dealer in the transaction wherein she or he claims to have been injured or damaged by applicant; but if the aggregate of such amounts is less than the amount of the bond, then the surety may be held liable to such citrus fruit dealers, but not in excess of the sum by which the amount of the bond exceeds the aggregate of the amounts found to be due to producers pursuant to the provisions of this chapter.

(4) The *Florida Citrus Authority* ~~Department of Citrus~~ or the Department of Agriculture *and Consumer Services*, or any officer or employee designated by the *Florida Citrus Authority* ~~Department of Citrus~~ or the Department of Agriculture *and Consumer Services*, shall have the right to inspect such accounts and records of any citrus fruit dealer as may be deemed necessary to determine whether a bond which has been delivered to the Department of Agriculture *and Consumer Services* is in the amount required by this section or whether a previously licensed nonbonded dealer should be required to furnish bond. If any such citrus fruit dealer refuses to permit such inspection, the Department of Agriculture *and Consumer Services* may publish the facts and circumstances and by order suspend the license of the offender until permission to make such inspection is given. Upon a finding by the Department of Agriculture *and Consumer Services* that any citrus fruit dealer has dealt or probably will deal with more fruit during the season than shown by the application, the Department of Agriculture *and Consumer Services* may order such bond increased to such an amount as will meet the requirements as set forth in the bond schedule of subsection (1). Upon failure to file such increased bond within the time fixed by the Department of Agriculture *and Consumer Services*, the Department of Agriculture *and Consumer Services* may publish the facts and circumstances and by order suspend the license of such citrus fruit dealer until the said bond is increased as ordered.

(5)(a) The following citrus fruit, subject to such rules as may be prescribed by the *Florida Citrus Authority* ~~Department of Citrus~~, shall not be considered as fruit with which the applicant intends to deal for the purpose of determining the amount of the bond required under subsection (1);

1. Citrus fruit which the applicant produces.
2. Citrus fruit which is handled for its members by a cooperative marketing association organized and existing under the provisions of either chapter 618 or chapter 619.
3. Fresh citrus fruit handled by the applicant, which has been prepared and packaged by a registered packinghouse other than the applicant and has been inspected and certified for shipment.
4. Citrus fruit handled by the applicant from citrus groves for which applicant provides complete grove management services under direct contract with the owner or producer.
5. Citrus fruit handled by a corporate or partnership applicant that is from citrus groves owned by officers or stockholders of the corporation or from citrus groves owned by the partnership, the parent corporation, or a wholly owned subsidiary corporation or its corporate officers or stockholders, or any partner of a partnership; provided that appropriate waivers of right to any claim against the bond required to be posted by this section be attached to and made a part of the application for license.
6. Processed citrus fruit handled by the applicant which has been processed and packaged by a registered citrus processing plant other than the applicant and has been inspected and certified for shipment.

(b) If the applicant does not intend to deal with any citrus fruit other than that which comes within the foregoing classifications, the Department of Agriculture and Consumer Services shall issue a license

without the posting of a bond. Such a license shall bear a descriptive statement to the effect that the licensee is not a bonded citrus fruit dealer.

(c) A claim against any citrus fruit dealer's bond required to be posted by this section shall not be accepted with respect to any damages in connection with fruit handled under the provisions of subparagraphs 1.-6. of paragraph (a) if such claim is filed against the bond of the dealer who was granted bond exempt status for said fruit.

(6) If any of the provisions of this act shall be held to be unconstitutional or invalid for any reason by any court of competent jurisdiction or if such court shall find or declare that no applicant shall be required to furnish the bond required by this act, then and in that event this entire act shall be ineffective for any and all purposes and the laws in effect on July 31, 1965, which are amended by this act, shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect it being the intention of the Legislature that in such event this entire act shall be ineffective for any and all purposes and the laws in effect on July 31, 1965, which are amended or repealed by this act shall instead not be deemed to be amended or repealed by this act but shall remain in full force and effect.

Section 108. Section 601.611, Florida Statutes, is reenacted to read:

601.611 Applicable law in event ch. 61-389 held invalid.—If any of the provisions of s. 601.61 be held unconstitutional or invalid for any reason by any court of competent jurisdiction, or if any such court shall find or declare that no applicant shall be required to furnish the bond required by this act, then and in that event this entire act, including s. 5 thereof, shall be ineffective for any and all purposes, and the Laws of Florida in effect on August 1, 1961, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect, it being the intention of the Legislature that in that event this entire act shall be ineffective for any and all purposes and the Laws of Florida in effect on August 1, 1961, including chapter 61-45, which are amended or repealed by this act shall not be deemed to be amended or repealed by this act but shall instead remain in full force and effect.

Section 109. Section 601.64, Florida Statutes, is reenacted and amended to read:

601.64 Citrus fruit dealers; unlawful acts.—It is unlawful in, or in connection with, any transaction relative to the purchase, handling, sale, and accounting of sales of citrus fruit:

Such criminal penalties shall be in addition to any other penalties provided by law. If the violator be a licensed citrus fruit dealer, then such license may be revoked or suspended in the manner provided by s. 601.67.

Section 111. Section 601.65, Florida Statutes, is reenacted and amended to read:

601.65 Liability of citrus fruit dealers.—If any licensed citrus fruit dealer violates any provision of this chapter, such dealer shall be liable to the person allegedly injured thereby for the full amount of damages sustained in consequence of such violation. Such liability may be enforced either by proceeding in an administrative action to and before the Department of Agriculture *and Consumer Services* and pursuing such action to its ultimate termination if desired or by filing of a judicial suit at law in a court of competent jurisdiction; however, in such court suit the bond of such citrus fruit dealer theretofore posted with the Department of Agriculture *and Consumer Services* pursuant to s. 601.61 shall not be amenable or subject to any judgment or other legal process issuing out of or from such court in connection with such law suit, whether cash bond or surety company bond, but such bonds shall be amenable to and enforceable only by and through administrative proceedings before the Department of Agriculture *and Consumer Services*, it being the intent and purpose of the Legislature that such citrus dealer's bond so posted with the Department of Agriculture *and Consumer Services* shall be applicable and liable only for the payment of claims duly adjudicated by order of the Department of Agriculture *and Consumer Services* and the determination of such adjudicated claim if and in the event such order is appealed by any aggrieved party to the administrative proceeding.

Section 112. Section 601.66, Florida Statutes, is reenacted and amended to read:

601.66 Complaints of violations by citrus fruit dealers; procedure; bond distribution; court action on bond.—

(1) Any person may complain of any violation of any of the provisions of this chapter by any citrus fruit dealer during any shipping season, by filing of a written complaint with the Department of Agriculture and Consumer Services at any time prior to May 1 of the year immediately following the end of such shipping season. Said complaint shall briefly state the facts, and the Department of Agriculture and Consumer Services shall thereupon, if the facts alleged prima facie warrant such action, forward true copies of said complaint to the dealer in question and also to the surety company on the dealer's bond. The dealer at such time shall be called upon, within a reasonable time to be prescribed by the Department of Agriculture and Consumer Services, either to satisfy the complaint or to answer the complaint in writing, either admitting or denying the liability.

(2) If the dealer admits the violation but fails to satisfy the complaint within the time fixed by the Department of Agriculture and Consumer Services, the Department of Agriculture and Consumer Services shall thereupon order payment by the dealer of the damages sustained.

(3) If the dealer, in her or his answer to the original complaint, denies the violation alleged, the Department of Agriculture and Consumer Services shall thereupon determine whether the facts and circumstances set forth in the complaint have been established by competent substantial evidence.

(4) If the Department of Agriculture and Consumer Services determines that the complaint has not been so established as aforesaid, the order shall, among other things, dismiss the proceeding.

(5) If the Department of Agriculture and Consumer Services determines that the allegations of the complaint have been established as aforesaid, it shall make its findings of fact accordingly and thereupon adjudicate the amount of indebtedness or damages due to be paid by the dealer to the complainant. The administrative order shall fix a reasonable time within which said indebtedness shall be paid by the dealer.

(6) Upon failure by a dealer to comply with an order of the Department of Agriculture and Consumer Services directing payment, the Department of Agriculture and Consumer Services shall call upon the surety company to pay over to the Department of Agriculture and Consumer Services, out of the bond theretofore posted by the surety for such dealer, the amount of damages sustained but not exceeding the amount of the bond. The proceeds to the Department of Agriculture and Consumer Services by the surety company shall, in the discretion of the Department of Agriculture and Consumer Services, be either paid to the original complainant or held by the Department of Agriculture and Consumer Services for later disbursement, depending upon the time during the shipping season when the complaint was made, when liability was admitted by the dealer, when the proceeds were so paid by the surety company to the Department of Agriculture and Consumer Services, the amount of other claims then pending against the same dealer, the amount of other claims already adjudicated against the dealer, and such other pertinent facts as the Department of Agriculture and Consumer Services in its discretion may consider material. The Department of Agriculture and Consumer Services, if it decides to pay the proceeds to the original complainant, has authority to order an increase in the original bond of the dealer to such higher sum as to the Department of Agriculture and Consumer Services would be justified under all the circumstances so as to protect other possible claimants and to exercise all powers otherwise confided to it under this chapter to enforce the posting of such increased bond. The Department of Agriculture and Consumer Services also, in its discretion as the facts and circumstances might appear to it, may hold the amount of such proceeds until such later time, up to the time when all claims have been filed during the allotted period after the closing of the shipping season and such claims adjudicated, and may then disburse the total proceeds in its possession paid over to it by the surety company on the dealer's bond as such claims were adjudicated to the various claimants, paying first to the producers the amount of their claims in full, if such proceeds are sufficient for such purpose, and if not, then in pro rata shares to such producer claimants; and if there then exist additional proceeds in the

hands of the Department of Agriculture and Consumer Services, after all claims of producers have been paid in full, the balance of such proceeds shall be paid to claimants who are citrus fruit dealers, either in whole or in pro rata portion, as the aggregate of their claims may bear to the amount of such additional proceeds.

(7) Upon failure of a surety company to comply with a demand for payment of the proceeds of a citrus fruit dealer's bond pursuant to administrative orders entered by the Department of Agriculture and Consumer Services fixing amounts due claimants, the department shall within a reasonable time file in the Circuit Court in and for Polk County, an original petition or complaint setting forth the administrative proceedings before the Department of Agriculture and Consumer Services and ask for final order of the court directing the surety company to pay the proceeds of the said bond to the Department of Agriculture and Consumer Services for distribution to the claimants.

(8) In any court proceeding filed under subsection (7), the findings of facts and orders of the Department of Agriculture and Consumer Services shall be prima facie evidence of the facts therein stated, and if in such suit the Department of Agriculture and Consumer Services is successful and the court affirms the department's demand for payment from the surety company, the Department of Agriculture and Consumer Services shall be allowed all court costs incurred therein and also a reasonable attorney's fee to be fixed and collected as a part of the costs of the suit.

(9) The bond required to be posted by citrus fruit dealers under s. 601.61 shall be subject, and so conditioned therein, only to payment of claims duly adjudicated by the Department of Agriculture and Consumer Services. All proceeds from such bonds shall be paid over by the surety company directly to the Department of Agriculture and Consumer Services, to be disbursed by it to successful claimants in whose favor the Department of Agriculture and Consumer Services has entered administrative order or orders. Such funds shall be considered trust funds in the hands of the Department of Agriculture and Consumer Services for the exclusive purpose of satisfying orders of indebtedness duly adjudicated. Cash bonds which may be posted by citrus fruit dealers in lieu of surety company bonds shall occupy the same legal status as funds paid over by the surety company to the Department of Agriculture and Consumer Services for payment of claims.

Section 113. Section 601.67, Florida Statutes, is reenacted and amended to read:

601.67 Disciplinary action by Department of Agriculture and Consumer Services against citrus fruit dealers.—

(1) The Department of Agriculture and Consumer Services may impose a fine not exceeding \$50,000 per violation against any licensed citrus fruit dealer for violation of any provision of this chapter and, in lieu of, or in addition to, such fine, may revoke or suspend the license of any such dealer when it has been satisfactorily shown that such dealer, in her or his activities as a citrus fruit dealer, has:

(a) Obtained a license by means of fraud, misrepresentation, or concealment;

(b) Violated or aided or abetted in the violation of any law of this state governing or applicable to citrus fruit dealers or any lawful rules of the *Florida Citrus Authority* ~~Department of Citrus~~;

(c) Been guilty of a crime against the laws of this or any other state or government involving moral turpitude or dishonest dealing, or has become legally incompetent to contract or be contracted with;

(d) Made, printed, published, distributed, or caused, authorized, or knowingly permitted the making, printing, publication, or distribution of false statements, descriptions, or promises of such a character as to reasonably induce any person to act to her or his damage or injury, if such citrus fruit dealer then knew, or, by the exercise of reasonable care and inquiry, could have known of the falsity of such statements, descriptions, or promises;

(e) Knowingly committed or been a party to any material fraud, misrepresentation, concealment, conspiracy, collusion, trick, scheme, or device whereby any other person lawfully relying upon the word, representation, or conduct of the citrus fruit dealer has acted to her or his injury or damage;

(f) Committed any act or conduct of the same or different character of that hereinabove enumerated which constitutes fraudulent or dishonest dealing; or

(g) Violated any of the provisions of ss. 506.19-506.28, both sections inclusive.

(2) The department may impose a fine not exceeding \$100,000 per violation against any person who operates as a citrus fruit dealer without a current citrus fruit dealer license issued by the department pursuant to s. 601.60. In addition, the department may order such person to cease and desist operating as a citrus fruit dealer without a license. An administrative order entered by the department under this subsection may be enforced pursuant to s. 601.73.

(3) The department shall impose a fine of not less than \$10,000 nor more than \$100,000 per violation against any licensed citrus fruit dealer and shall suspend, for 60 days during the first available period between September 1 and May 31, the license of any citrus fruit dealer who:

(a) Falsely labels or otherwise misrepresents that a fresh citrus fruit was grown in a specific production area specified in s. 601.091; or

(b) Knowingly, falsely labels or otherwise misrepresents that a processed citrus fruit product was prepared solely with citrus fruit grown in a specific production area specified in s. 601.091.

(4) Any fine imposed pursuant to subsection (1), subsection (2), or subsection (3), when paid, shall be deposited by the Department of Agriculture and Consumer Services into its General Inspection Trust Fund.

(5) Whenever any administrative order has been made and entered by the Department of Agriculture and Consumer Services which imposes a fine pursuant to this section, such order shall specify a time limit for payment of the fine, not exceeding 15 days. The failure of the dealer involved to pay the fine within that time shall result in the immediate suspension of such citrus fruit dealer's current license, or any subsequently issued license, until such time as the order has been fully satisfied. Any order suspending a citrus fruit dealer's license shall include a provision that such suspension shall be for a specified period of time not to exceed 60 days, and such period of suspension may commence at any designated date within the current license period or subsequent license period. Whenever an order has been entered which suspends a citrus fruit dealer's license for a definite period of time and that license, by law, expires during the period of suspension, the suspension order shall continue automatically and shall be effective against any subsequent citrus fruit dealer's license issued to such dealer until such time as the entire period of suspension has elapsed. Whenever any such administrative order of the Department of Agriculture and Consumer Services is sought to be reviewed by the offending dealer involved in a court of competent jurisdiction, if such court proceedings should finally terminate in such administrative order being upheld or not quashed, such order shall thereupon, upon the filing with the Department of Agriculture and Consumer Services of a certified copy of the mandate or other order of the last court having to do with the matter in the judicial process, become immediately effective and shall then be carried out and enforced notwithstanding such time will be during a new and subsequent shipping season from that during which the administrative order was first originally entered by the Department of Agriculture and Consumer Services.

Section 114. Section 601.671, Florida Statutes, is reenacted and amended to read:

601.671 Appropriation of fines collected.—All fines imposed and collected by the Department of Agriculture and Consumer Services under the provisions of this chapter are hereby appropriated in the manner provided by s. 601.28(3)(b).

Section 115. Section 601.68, Florida Statutes, is reenacted and amended to read:

601.68 Investigation of violations.—The Department of Agriculture and Consumer Services may instigate and make investigation of any citrus fruit dealer who it has reason to believe has violated any law of this state governing and applicable to citrus fruit dealers, and, whenever the Department of Agriculture and Consumer Services determines that any citrus fruit dealer has violated any law of the state governing and applicable to citrus fruit dealers, it may publish the facts and circumstances of such violation and suspend the license of such offender for a specific period or revoke the same or make such other appropriate order as it may deem just and proper, and any such order shall specify the effective date thereof and any order other than one suspending or revoking a license shall automatically suspend such license until said order is complied with. Any administrative order of the Department of Agriculture and Consumer Services issued under the provisions of ss. 601.66-601.68 or s. 601.70 shall be deemed to have been issued in the county wherein the licensee has her or his main office, as disclosed in the licensee's application for citrus dealer's license.

(2) The violation of any of the provisions of this act shall constitute a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Civil suits against a citrus fruit dealer only, without resort to such dealer's bond as provided in s. 601.65, and also criminal prosecutions arising by violation of any of the provisions of this chapter as herein provided, may be instituted or prosecuted in the county where the said citrus fruit was received by the dealer or in the county wherein the principal place of business of such dealer is located within the state, or within the county in which the alleged violation occurred; and if such violation occurs in more than one county, then within the county wherein such violation or any part thereof occurred.

(1)(a) It is unlawful to operate any truck, tractor, trailer, or other motor vehicle hauling citrus fruit in bulk or in unclosed containers for commercial purposes on the highways of this state unless such truck, tractor, trailer, or other motor vehicle is:

1. Designated by a number assigned or permitted for use in the way and manner and to the extent prescribed by regulation of the *Florida Citrus Authority* ~~Department of Citrus~~.

(2) If the commission, at such meeting, determines that serious damage, as defined in s. 601.89(1), has occurred to such citrus fruit, it may, upon majority vote, enter an emergency quality assurance order providing for one or more of the following:

601.901 Use of freeze-damaged fruit in frozen concentrated citrus products.—

(1) At any time subsequent to a commission determination, pursuant to s. 601.90, that serious damage has resulted to citrus fruit from freezing temperatures, the commission may, at a regular or special meeting, establish by order the maximum degree of freeze damage or freeze-related injury to be permitted in citrus fruit used in preparation of any frozen concentrated products, including concentrate for manufacturing purposes, for the purpose of protecting the quality of such processed products.

(2) Notwithstanding the provisions of chapter 120, any order adopted by the commission pursuant to this section shall become effective at a time fixed by the commission, but not less than 24 hours from the time of adoption, and shall expire at a time fixed by the commission, but in no instance later than the end of the current shipping season.

(3) This section shall not repeal any other authority now or hereafter delegated to the *Florida Citrus Authority* ~~Department of Citrus~~, but shall be deemed as additional and supplemental authority vested in the *Florida Citrus Authority* ~~Department of Citrus~~, and should any part of this section be held to be unconstitutional or unenforceable by any court of competent jurisdiction, the decision of such court shall not affect the remaining portions of this section. It is the intention of the Legislature that this section would have been adopted had such unconstitutional or such unenforceable provision not been included herein.

601.91 Unlawful to sell, transport, prepare, receive, or deliver freeze-damaged citrus.—

(1) It is unlawful at any time for any person to sell or offer for sale, to transport, or to prepare, receive, or deliver for transportation or market, except for canning, concentrating, or byproduct purposes within the state, any citrus fruit seriously damaged by freezing, as defined in s. 601.89. Not more than 15 percent by count of the citrus fruit in any one container or bulk lot may be seriously damaged by freezing injury; but not more than one-third of this tolerance shall be allowed for citrus fruit now or hereafter deemed adulterated by federal law or regulation.

(2) No lot of citrus fruit seriously damaged by freezing may be mixed with other lots of citrus fruit which are free from damage by freezing resulting in concealment of inferior fruit and thereby reducing the percentage of defective fruit in the seriously damaged lot to within the tolerance permitted for error in grading only.

(3) The manner and method of drawing samples and conducting tests under this section shall be prescribed by rules and regulations of the *Florida Citrus Authority* ~~Department of Citrus~~. The inspection in the state of all citrus fruits seriously damaged by freezing and the enforcement of this section and of rules, regulations, and orders made by the *Florida Citrus Authority* ~~Department of Citrus~~ pursuant to and under authority of this section shall be under the direction, supervision, and control of the Department of Agriculture *and Consumer Services* and its duly authorized agents and inspectors who are qualified under existing laws to inspect for grade and maturity; and all citrus fruits that may be found to be seriously damaged by freezing, as defined by s. 601.89, upon inspection and testing shall be seized and may be confiscated and destroyed under the supervision of the citrus fruit inspector at the expense of the owner unless previous disposition is made by the owner or other person who offered the same for inspection, all the provisions of this section being subject to such reasonable rules and regulations as may be promulgated by the *Florida Citrus Authority* ~~Department of Citrus~~.

601.95 Seizure of citrus fruit containing arsenic.—Whenever any citrus fruit inspector shall find citrus fruit, except grapefruit, at any packinghouse, canning plant, concentrating plant, or other place that the same is being received or prepared for sale or transportation which citrus fruit shall, when tested, show an abnormal and excessively high

ratio of total soluble solids of the juice thereof to the anhydrous citric acid thereof indicating the presence of arsenic therein, said inspector shall at once seize and take possession of said citrus fruit, except grapefruit, pending the procuring of the chemical analysis provided for in this chapter notifying the manager or other person in charge of said packinghouse, canning plant, concentrating plant, or other place where the said fruit is being received of such seizure. It is unlawful for the manager of said packinghouse, canning plant, concentrating plant, or other place where the fruit is being received, or the owner of said citrus fruit, or any person whomsoever to sell, transport, or in any way move or dispose of any of said fruit from the time of seizure thereof until after the making of said chemical analysis and the receipt of the chemist's report thereon; provided that no citrus fruit so seized may be held by any inspector more than 96 hours after the time of seizure thereof unless the same shall be shown by the chemist's analysis to contain arsenic.

601.96 Seized fruit; taking samples for analysis.—Upon the making of seizure of any citrus fruit as provided in s. 601.95, the inspector making said seizure shall immediately draw samples therefrom, as shall be provided for by regulations to be issued by the Department of Agriculture and Consumer Services, drawing said samples either from the packinghouse, canning plant, or concentrating plant bins, or elsewhere in the packinghouse, canning plant, or concentrating plant, or from field boxes or vehicles delivering said citrus fruit to said packinghouse. Such samples so drawn by said inspector shall be transported with all possible haste to such chemist as may be designated by the Department of Agriculture and Consumer Services for the making by such chemist of a chemical analysis thereof to determine whether or not the said citrus fruit contains arsenic. Said chemist shall make said analysis with all the proper haste and report by the quickest means available the result of said analysis as soon as the same is completed to the inspector making the seizure. If the said analysis shall show that the said citrus fruit contains no arsenic, the inspector shall release the fruit from seizure as soon as she or he receives the report of the chemist thereon.

Section 155. Section 601.9910, Florida Statutes, is reenacted and amended to read:

601.9910 Legislative findings of fact; strict enforcement of maturity standard in public interest.—

## (1) FINDINGS.—

(a) The Legislature finds and determines and so declares that, for many years past, the shipment of raw, immature citrus fruit, generally designated as “green fruit,” from the state to consuming markets has caused the loss of millions of dollars to the citrus growers of Florida; also has resulted in the lowering of the standard of living of many of its citizens; adversely affected the economic conditions of the entire state; reduced the receipts in the collection of ad valorem taxes, thereby reducing revenue needed by counties and cities; caused financial loss to the growers and shippers and processors who did not engage in the shipment of green fruit; and that such practice each year hurts the good name and reputation of all Florida citrus.

(b) The Legislature, after extensive hearings conducted annually, and after many hearings attended by its citrus committees at various citrus industry meetings throughout the citrus area; and after having had the advice and counsel of the best qualified and most expert technical advisers in the Florida citrus industry, and after having had the benefit of the advice of some of the most expert and best informed growers, shippers, and processors, and after having made a careful study of the reaction of all citrus fruits by reason of changes in climatic conditions, and having found that regardless of the color of an orange or the color of a grapefruit or regardless of the juice content of such fruit, finds such fruit may be immature and unfit for human consumption. It is also recognized by experts that there are certain factors entering into the maturity of fruit which are not now measurable by chemical tests. There is a change brought about by time and nature in the blending of solids and acids into juice which characterizes maturity but not in a manner susceptible to chemical determination. Because of this, it is scientifically sound that the minimum requirements for solids and the ratio of solids to anhydrous citric acid in determining maturity be relaxed as the season progresses and the raw, immature flavor characteristic of fruit early in the season has disappeared through the workings of time and nature. Therefore, the Legislature hereby finds and determines and so declares that, until nature has completed its process of removing the raw, immature flavor, such citrus fruit will still be immature and unfit for human consumption and, when marketed, will result in dissatisfied consumers who will cease purchasing Florida citrus for some time and will classify that fruit which they had purchased as “Florida green fruit.”

(c) The Legislature finds and determines and so declares that there is no better method of determining when such raw and immature flavor leaves Florida citrus than by the standards set forth in this chapter; and that experience has demonstrated over a period of many years, by the best available records and under various climatic conditions and various seasonal changes, that generally speaking prior to November 1 of each season oranges which do not have a total soluble solids of 9 percent with a minimum ratio of total soluble solids, as set forth in s. 601.20, still have a raw, immature flavor; and that, beginning on or about November 1 of each season, such raw, immature fruit flavor gradually disappears from the orange and by November 15 the same orange may have a still lower soluble solids percentage and not be immature; and after November 15 can still have a further lower soluble solids percentage without being immature; and by December 1 nature has completed its process of removing the raw, immature flavor which might have existed prior to that time, provided such fruit meets the other minimum maturity requirements set forth in this chapter. On December 1 oranges meeting the requirements of s. 601.19(4), while not being sufficiently mature to ship in fresh form, may be safely used in some processed products without the finished product having a raw, immature flavor. On December 1 grapefruit meeting the requirements of s. 601.16(4), while not being sufficiently mature to ship in fresh form, may be safely used in some processed products without the finished product having a raw, immature flavor.

(d) The Legislature finds and determines and so declares that the enforcement of the maturity standards, as set forth in this chapter, will not result in preventing any grower from marketing her or his fruit at some time during the marketing season, whenever nature has removed the raw, immature flavor; and, if there is a delay in such marketing, it will result in higher prices for the entire season, bringing additional

millions of dollars to the growers of Florida and resulting in benefit to all growers, including the grower or growers who were delayed a short time in the shipment of their fruit.

(2) DECLARATION.—Therefore, the Legislature declares that the strict enforcement of the maturity standards, as set forth in this chapter, is definitely in the public’s interest and for the public’s welfare, and that no citrus should be shipped from Florida and sold in the consuming markets which has a raw, immature flavor, and which could be classed by the consuming public as “Florida green fruit.”

(3) REGULATIONS REGARDING MATURITY STANDARDS FOR HYBRIDS.—The Legislature finds and determines that classifications of and maturity standards for citrus hybrids should be established by regulations promulgated by the *Florida Citrus Authority* ~~Department of Citrus~~ pursuant to this chapter.

Section 156. Section 601.9911, Florida Statutes, is reenacted and amended to read:

601.9911 Fruit may be sold or transported direct from producer.—Any citrus producer may transport her or his own citrus fruit or any citrus fruit may be sold or purchased and transported in interstate or intrastate commerce in truckload lots direct from a producer and any such fruit so sold, purchased, or transported need not be processed, handled by any packinghouse, washed, polished, graded, stamped, labeled, branded, placed in containers, or otherwise prepared for market as may be provided herein. Such fruit shall be certified at the time of inspection as tree run grade of fruit, but shall otherwise remain subject to the maturity standards and all other conditions, restrictions, emergency quality assurance orders, and other requirements of this chapter and shall be inspected for such compliance as all other fruit is inspected at such convenient locations as may be determined by the Department of Agriculture and Consumer Services. Any such fruit violating any of the provisions of this chapter, or any rule or regulation of the *Florida Citrus Authority* ~~Department of Citrus~~ made pursuant to this chapter, but not inconsistent with this section, may be seized, condemned, and destroyed as provided herein. At the time of such inspection, all fees, assessments, and excise taxes provided in this chapter shall be paid and collected at the same rate as paid by all other fresh fruit growers or shippers.

Section 157. Section 601.9912, Florida Statutes, is reenacted and amended to read:

601.9912 Penalties.—Any person violating any provisions of this chapter or of the rules or regulations of the *Florida Citrus Authority* ~~Department of Citrus~~ or the Department of Agriculture and Consumer Services shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(1) “High-density frozen concentrated orange juice” is frozen concentrated orange juice which has been concentrated to a density greater than 47 degrees Brix.

(2) All high-density frozen concentrated orange juice sold or shipped, or offered for sale or shipment, in retail or institutional size containers shall comply with all requirements applicable to frozen concentrated orange juice in retail or institutional size containers, except as to the density of the concentrated food. The percent by weight of orange juice soluble solids contained in the reconstituted food made from high-density frozen concentrated orange juice when the label directions for dilution are followed shall be the same as is prescribed by the *Florida Citrus Authority* ~~Department of Citrus~~ for frozen concentrated orange juice in retail or institutional size containers.

(3) The name of high-density frozen concentrated orange juice, when sold in retail or institutional size containers, is “frozen concentrated orange juice, . . . plus 1,” the blank being filled in with the whole

number showing the dilution ratio in conspicuous type consistent with the size of the container and in conjunction with the product name. Where the label bears directions for making one quart or multiples of a quart, the blank may be filled in with a number that includes a fraction. The term "dilution ratio" means the number of volumes of water per volume of high-density frozen concentrated orange juice prescribed by the label for reconstituting the food. The nomenclature requirements of this subsection shall not apply to containers for postmix dispenser use, or to retail containers designed solely for use in foreign countries, provided the labeling thereof contains mixing instructions adequate to inform the institution or the consumer of the correct dilution ratio.

(4) The name of high-density frozen concentrated orange juice, when sold in bulk size containers, is the name provided in subsection (3), or "frozen concentrated orange juice, . . . Brix," the blank being filled in with the number which expresses the percent by weight of orange juice soluble solids contained in the food, in conspicuous size and in conjunction with the product name.

(5) The compositional requirements applicable to high-density frozen concentrated orange juice sold in bulk size containers shall be prescribed by the *Florida Citrus Authority* ~~Department of Citrus~~ by rule.

(6) The definition of retail, institutional, and bulk size containers for high-density frozen concentrated orange juice shall be prescribed by the department by rule.

(7) All high-density frozen concentrated orange juice sold or shipped or offered for sale or shipment shall be inspected as provided by law or rule for the inspection of frozen concentrated orange juice, and all fees and taxes shall be paid in the manner and as provided by law or rule.

Section 159. Section 601.9914, Florida Statutes, is reenacted to read:

601.9914 Commission authorized to modify standards by rule.—

(1) The commission may modify by rule, within the limitations herein specified, the requirements of ss. 601.9905-601.9909 if the commission first, upon the affirmative vote of nine members, determines that the adoption of such rule is likely to further increase the acceptance and consumption by a substantial segment of the consuming public of the citrus product or products regulated by such proposed rule and that such increase in acceptance and consumption will be of substantial benefit to handlers and producers of citrus fruit.

(2) The requirements of ss. 601.9905-601.9909 may be modified by rule within the following limitations:

(a) The existing requirements with respect to minimum or maximum Brix or the existing requirements with respect to minimum percent of total soluble solids may be raised;

(b) The existing requirements with respect to minimum ratio of total soluble solids to anhydrous citric acid may be raised, and the requirements with respect to maximum ratio of total soluble solids to anhydrous citric acid may be raised or lowered;

(c) The existing requirements with respect to the minimum or maximum amount of percentage of recoverable oil may be raised or lowered; and

(d) The existing requirements with respect to the minimum or maximum percentage of anhydrous citric acid may be raised or lowered.

601.9916 Addition of optional nutritive sweetening ingredients to concentrated orange juice; rules.—

(1) The *Florida Citrus Authority* ~~Department of Citrus~~, upon the affirmative vote of not less than nine members of the commission, is authorized to issue permits for the processing, shipping, and sale of frozen concentrated orange juice or concentrated orange juice for manufacturing to which has been added any of the following optional

nutritive sweetening ingredients: sugar, sugar syrup, and invert sugar syrup.

(2) Each processor to whom a permit is issued pursuant to this section shall comply with rules established by the *Florida Citrus Authority* ~~Department of Citrus~~ which rules shall provide that:

(a) Such product shall be inspected immediately prior to the addition of the optional sweetening ingredient and shall be reinspected promptly after the addition of the optional sweetening ingredient.

(b) If such product is to be stored, sold, or shipped in retail or institutional size containers of less than 1 gallon, it shall, when reconstituted according to label directions, contain not less than 12.8 percent by weight of orange juice soluble solids, exclusive of the weight of any added optional nutritive sweetening ingredient, and shall, each time it is inspected, fully conform to the rules and standards of the *Florida Citrus Authority* ~~Department of Citrus~~ applicable to frozen concentrated orange juice in retail or institutional size containers.

(c) If such product is to be stored, sold, or shipped in bulk containers of 1 gallon or larger, it shall contain not less than 47 percent by weight of orange juice soluble solids, exclusive of the solids of any added optional sweetening ingredient, and shall, when reconstituted according to label directions, contain not less than 11.8 percent by weight of orange juice soluble solids, exclusive of any added optional nutritive sweetening ingredient, and shall, each time it is inspected, fully conform to the rules and standards of the *Florida Citrus Authority* ~~Department of Citrus~~ applicable to concentrated orange juice for manufacturing.

(d) If any such product has been filled into bulk containers of 1 gallon or larger, it shall not thereafter be filled into retail or institutional size containers unless it fully conforms to the requirements of paragraph (b).

(4) In addition to the disciplinary action that may be taken by the Department of Agriculture and Consumer Services against a citrus fruit dealer for violations of this chapter, the commission may temporarily suspend and may revoke any permit issued hereunder for any violation of the provisions of this section or of the rules promulgated hereunder.

Section 161. Section 601.9918, Florida Statutes, is reenacted and amended to read:

601.9918 Rules related to issuance and use of symbols.—In rules related to the issuance and voluntary use of symbols, certification marks, service marks, or trademarks, the commission may make general references to national or state requirements that the license applicant would be compelled to meet regardless of the *Florida Citrus Authority's* ~~department's~~ issuance of the license applied for.

Section 162. Paragraph (d) of subsection (2) of section 288.012, Florida Statutes, is amended to read:

288.012 State of Florida foreign offices.—The Legislature finds that the expansion of international trade and tourism is vital to the overall health and growth of the economy of this state. This expansion is hampered by the lack of technical and business assistance, financial assistance, and information services for businesses in this state. The Legislature finds that these businesses could be assisted by providing these services at State of Florida foreign offices. The Legislature further finds that the accessibility and provision of services at these offices can be enhanced through cooperative agreements or strategic alliances between state entities, local entities, foreign entities, and private businesses.

(2) Each foreign office shall have in place an operational plan approved by the participating boards or other governing authority, a

copy of which shall be provided to the Office of Tourism, Trade, and Economic Development. These operating plans shall be reviewed and updated each fiscal year and shall include, at a minimum, the following:

(d) Identification of new and emerging market opportunities for Florida businesses. Each foreign office shall provide the Florida Trade Data Center with a compilation of foreign buyers and importers in industry sector priority areas on an annual basis. 316.066 Written reports of crashes.—

(3)

(c) *Crash reports required by this section which reveal the identity, home or employment telephone number or home or employment address of, or other personal information concerning the parties involved in the crash and which are received or prepared by any agency that regularly receives or prepares information from or concerning the parties to motor vehicle crashes are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution for a period of 60 days after the date the report is filed. However, such reports may be made immediately*

*available to the parties involved in the crash, their legal representatives, their licensed insurance agents, their insurers or insurers to which they have applied for coverage, persons under contract with such insurers to provide claims or underwriting information, prosecutorial authorities, radio and television stations licensed by the Federal Communications Commission, newspapers qualified to publish legal notices under ss. 50.011 and 50.031, and free newspapers of general circulation, published once a week or more often, available and of interest to the public generally for the dissemination of news. For the purposes of this section, the following products or publications are not newspapers as referred to in this section: those intended primarily for members of a particular profession or occupational group; those with the primary purpose of distributing advertising; and those with the primary purpose of publishing names and other personally identifying information concerning parties to motor vehicle crashes. Any state or federal agency that is authorized to have access to such reports by any provision of law shall be granted such access in the furtherance of the agency's statutory duties notwithstanding the provisions of this paragraph. Any person attempting to access crash reports within 60 days after the date the report is filed must present legitimate credentials or identification that demonstrates his or her qualifications to access that information. This exemption is subject to the Open Government Sunset Review Act of 1995 in accordance with s. 119.15, and shall stand repealed on October 1, 2006, unless reviewed and saved from repeal through reenactment by the Legislature. ~~Crash reports made by law enforcement officers shall not be used for commercial solicitation purposes; however, the use of a crash report for purposes of publication in a newspaper or other news periodical or a radio or television broadcast shall not be construed as “commercial purpose.”~~*

(d) *Any employee of a state or local agency in possession of information made confidential by this section who knowingly discloses such confidential information to a person not entitled to access such information under this section is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

(e) *Any person, knowing that he or she is not entitled to obtain information made confidential by this section, who obtains or attempts to obtain such information is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

Section 2. *The Legislature finds that there is a public necessity that portions of crash reports which are mandated to be provided by law and which reveal personal information concerning parties to motor vehicle crashes be held confidential and exempt for 60 days after the date the report is filed to protect the privacy of persons that have been the subject of a motor vehicle crash. Further, the exemption is necessary to protect the public from unscrupulous individuals who promote the filing of fraudulent insurance claims by obtaining such information immediately after a crash and exploiting the individual at a time of emotional distress. The Second Interim Report of the Fifteenth Statewide Grand Jury on insurance fraud related to personal injury protection noted a “strong correlation between illegal solicitation and the commission of a variety of frauds.” The grand jury found “the wholesale availability of these reports is a major contributing factor to this illegal activity and likely the single biggest factor contributing to the high level of illegal solicitation.” Virtually anyone involved in a car accident in the state is fair game for “runners” who collect crash reports in bulk from law enforcement officials and then provide the information to solicit crash victims and defraud insurers. Continuing to make this information available, in the words of the grand jury, “can be emotionally, physically, and ultimately financially destructive.” Motor vehicle insurance fraud is estimated to add as much as \$246 to the average motor vehicle insurance policy premium. In the past 5 years, the Department of Insurance has received nearly 5,000 referrals of personal injury protection (PIP) insurance fraud and has made more than 500 arrests, resulting in an 80-percent conviction rate. Motor vehicle insurance fraud is fueled by early access to crash reports, which provides the opportunity for the filing of fraudulent insurance claims. Crash reports made by law enforcement officers should not be used for commercial solicitation purposes; however, the use of a crash report for purposes of publication in a newspaper or other news periodical or a radio or television broadcast may not be construed as a “commercial purpose.” The Legislature also finds that*

crash reports should be made available to certain parties, such as those persons involved in the motor vehicle crash and their legal representatives, their insurers or insurers to which they have applied for coverage, their licensed insurance agents, persons under contract with such insurers to provide claims or underwriting information, and representatives of law enforcement and other regulatory agencies, and prosecutorial authorities within 60 days after the crash report is filed.

Section 22. *Legislative intent.*—*The Legislature recognizes that many faith-based organizations have been successful at helping people to lead happier, more productive, and more successful lives, and that when this occurs the state, its communities, and its citizens receive important benefits. Further, the Legislature recognizes that faith-based organizations have been particularly important to and effective in the delivery of essential services to Florida's most vulnerable and needy citizens, both on a contract and voluntary basis, and that without such support many citizens would experience a much poorer quality of life. It is the Legislature's intent that neither state agencies nor political subdivisions of the state, either by action or inaction, impair such contributions to the common good, and that neither the state nor any of its agencies or political subdivisions be permitted to express hostility toward the free exercise of religious liberties by Floridians. Further, the Legislature intends that, whenever possible and reasonable, the agencies and political subdivisions of the state engage faith-based organizations to work collaboratively in the delivery of services to Florida's citizens, consistent with Florida and federal constitutional law.*

Section 23. (1) For purposes of this act, "program" means:

(a) Any state program funded under part A of Title IV of the Social Security Act, as amended by section 103(a) of Title I of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, Pub. L. No. 104-193.

(b) Any other program established or modified under Title I or Title II of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 that permits contracts with organizations or permits

*certificates, warrants, or other forms of disbursement to be provided to beneficiaries as a means of providing assistance.*

(c) Any other state program or policy initiative that provides direct assistance to individuals or families.

(2) Any agency or political subdivision of this state continues to have the authority to contract with faith-based organizations or to allow faith-based organizations to accept certificates, warrants, or other forms of disbursement under any program, on the same basis as any other nongovernmental provider, without impairing the religious character of such organizations. Any faith-based organization may act as a subcontractor in the delivery of services under any program, on the same basis as any other nongovernmental provider, without impairing the religious character of such organization. Each program to which this act is applicable shall be operated in compliance with federal requirements applicable to the particular program, and consistent with the Establishment Clause of the United States Constitution and s. 3, Art. I of the State Constitution.

(3) Any faith-based organization continues to be eligible as a contractor or subcontractor, on the same basis as any other nongovernmental organization, to provide assistance or to accept certificates, warrants, or other forms of disbursement under any program. Any agency of this state or any political subdivision of this state receiving funds under any program shall not discriminate against any organization which is or applies to be a contractor to provide assistance, or which accepts certificates, warrants, or other forms of disbursement, on the basis that the organization has a religious character.

(4)(a) A faith-based organization which has entered into a contract with an agency or political subdivision of this state, or which accepts certificates, warrants, or other forms of disbursement described in subsection (1), shall retain its independence from state and local governments, in regard to the organization's control over the definition, development, practice, and expression of its religious beliefs.

(b) An agency or any political subdivision of this state shall not require a faith-based organization to alter its form of internal governance or remove religious art, icons, scripture, or other symbols in order to be eligible to contract to provide assistance, or to accept certificates, warrants, or other forms of disbursement, funded under a program.

(5) Each agency which administers any program described in this section shall prepare a plan to implement this section and, no later than September 1, 2001, shall submit a copy of the plan to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(6) Any contractor or provider that has received a contract to provide services under any program may continue to employ faith-based organizations as subcontractors on the same basis as any other nongovernmental provider. Any agency that administers any program described in this section may include in any client services contract a requirement that contractors or providers prepare plans describing their implementation of this section. A failure to deliver such plans, if required, may be considered by the agency as a material breach of the contract that may result in cancellation of the contract.

(7) Task force; membership; duties.—

(a) The "Task Force on Florida Partnerships" is hereby created to serve through February 1, 2002. The task force shall consist of the following members:

1. Five members who are affiliated with a community-based or faith-based organization, to be appointed by the Governor.

2. Two members who are affiliated with a community-based or faith-based organization, to be appointed by the President of the Senate.

4. A representative from each of the Department of Children and Family Services, the Department of Juvenile Justice, the Department of Corrections, and the WAGES Board.

(b) *The appointments shall be made no later than September 1, 2001, and immediately reported to the Department of Management Services.*

(c) *Each appointed member of the task force shall serve at the pleasure of the appointing official. A vacancy on the task force shall be immediately filled in the same manner as the original appointment.*

(d) *The task force shall elect a chair from among its members. A vacancy in the chair of the task force must be filled for the remainder of the unexpired term by an election of the task force members.*

(e) *The Department of Management Services shall convene and facilitate the organizational meeting of the task force on or before October 1, 2001. Thereafter, the task force shall meet as necessary, at the call of the chair or at the call of a quorum of the task force, and at the time and place designated by the chair. Seven members of the task force shall constitute a quorum and a quorum is required to conduct official business of the task force. The task force shall use accepted rules of procedure to conduct its meetings and shall keep a complete record of each meeting.*

(f) *Members of the task force shall receive no compensation for their services but shall be entitled to receive from the Department of Management Services reimbursement of per diem and travel expenses as provided in s. 112.061, Florida Statutes.*

(g) *The Department of Management Services shall provide staff for the task force.*

(h) *The task force shall review, for compliance with the provisions of this act, the policies and procedures of each agency of this state or agency of a political subdivision of this state which administers any program. The task force shall identify any barriers in the state's law, rules, or policies that may prevent a faith-based organization from providing assistance under any program, and recommend solutions to those barriers. The task force shall act as an advisory body and shall make recommendations to the Governor and the Legislature on a coordinated plan to carry out the legislative intent of this act.*

(i) *The task force shall also evaluate the potential usefulness of a statewide clearinghouse, district or regional liaisons, or other mechanism that would provide information to assist faith-based and other community-based organizations in navigating the state procurement process.*

(j) *The task force shall issue a report to the Legislature no later than February 1, 2002, summarizing its findings, stating its conclusions, and proposing its recommendations.*

Section 24. This act shall take effect July 1, 2001.

On page 3, line 23,  
remove from the title of the bill: providing an effective date.

and insert in lieu thereof: providing intent; providing a definition; reaffirming certain agencies' authority to contract or subcontract with faith-based organizations or allow faith-based organizations to accept certificates, warrants, or other forms of disbursement; specifying eligibility of faith-based organizations; providing certain protections for faith-based organizations; requiring certain agencies to prepare implementation plans and submit the plans to the Governor and the Legislature; creating the Task Force on Florida Partnerships; providing membership; providing duties; providing for per diem and travel; providing for a report; providing an effective date.

WHEREAS, the Task Force on Victims of Self-Inflicted Crimes, as created by chapter 2000-366, Laws of Florida, identified in its report issued January 18, 2001, a wide variety of potential legislative solutions for reducing the repetitious self-injurious behavior of prostitution and substance abuse, and

WHEREAS, those recommendations stemmed from the testimony from numerous individuals, substance abuse experts, governmental officials, and private organizations throughout Florida, and

WHEREAS, a significant recommendation made by the task force was recognition that state government should not and cannot bear the sole burden of treating and helping those suffering from addictions and self-injurious behaviors, and

WHEREAS, the task force concluded that faith-based organizations are "armies of compassion" devoted to changing individuals' hearts and lives and can offer cost-effective substance abuse treatment through the use of volunteers and other cost-saving measures, and

WHEREAS, the task force concluded that inmates with histories of substance abuse will most likely return to prison without transition assistance and postrelease supervision, coupled with treatment and job placement, and

WHEREAS, research has proven that "one-on-one" private and faith-based programming is often more effective than government programs in shaping and reclaiming lives because they are free to assert the essential connection between responsibility and human dignity; their approach is personal, not bureaucratic; their service is not primarily a function of professional background, but of individual commitment; and they inject an element of moral challenge and spiritual renewal that government cannot duplicate, and

WHEREAS, a study required by chapter 97-78, Laws of Florida, to measure the effectiveness of faith-based programs in Florida's correctional facilities found a strong and beneficial correlation between faith-based programming and remaining crime free and drug free upon release, and

WHEREAS, the Department of Corrections employs 105 prison chaplains who are responsible for addressing the religious and spiritual needs of over 71,000 inmates; for developing community linkages with churches, synagogues, mosques, and other faith-based institutions; and for recruiting and supervising volunteers who come into Florida's prisons to provide spiritual programs, mentoring activities, and other transitional skills, and

WHEREAS, the continued investment in the work of prison chaplains and their clerical staff is a critical factor for strengthening volunteer participation and support of faith-based programs in the prisons, as recognized by an academic study in 1997 entitled "The Report of Faith-Based Programs in Correctional Facilities," and

WHEREAS, the task force recommended that the Legislature fund faith-based substance abuse recovery programs and transitional assistance for the secular purpose of reducing recidivism, and

WHEREAS, in an effort to transform lives and break the personally destructive and expensive recidivism cycle, Florida should increase the number of chaplains who strengthen volunteer participation; expand the pilot dormitory program started in November 1999; and implement a strong transitional assistance residential program that includes a voluntary faith component that supports inmates as they reenter communities, and

WHEREAS, state government should engage Florida's faith-based organizations to enhance care for the needy and fill hollow hearts, and

WHEREAS, government must have qualities of the spirit, and

(Amendment Bar Code: 724771)

**Amendment 1 (with title amendment)**—

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. Section 153.11, Florida Statutes, is amended to read:

153.11 Water service charges and sewer service charges; revenues.—

(1)(a) The county commission shall in the resolution providing for the issuance of either water revenue bonds or sewer revenue bonds, or both, fix the initial schedule of rates, *rate structures*, fees, and other charges for the use of and for the services furnished or to be furnished by the facilities, to be paid by the owner, tenant or occupant of each lot or parcel of land which may be connected with and use any such facility by or through any part of the water system of the county.

(b) After the system or systems shall have been in operation the county commission may revise ~~the such~~ schedule of rates, *rate structures*, fees, and charges from time to time. Such rates, *rate structures*, fees, and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times to pay the cost of maintaining, repairing and operating the system or systems including the reserves for such purposes and for replacements and depreciation and necessary extensions, to pay the principal of and the interest on the water revenue bonds and/or sewer revenue bonds as the same shall become due and the reserves therefor, and to provide a margin of safety for making such payments. *The county commission may establish rates or rate structures in such a manner as to encourage and promote water conservation and the use of reclaimed water for nonpotable uses.* The county commission shall charge and collect the rates, fees, and charges so fixed or revised, and ~~the such~~ rates, *rate structures*, fees, and charges shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the county or of the state or of any sanitary district or other political subdivision of the state.

(c) Such rates, *rate structures*, fees, and charges shall be just and equitable and may be based or computed upon the quantity of water consumed and/or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises connected with the sewer system or upon the number or average number of persons residing or working in or otherwise connected with such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors.

(d) In cases where the amount of water furnished to any building or premises is such that it imposes an unreasonable burden upon the water supply system an additional charge may be made therefor or the county commission may if it deems advisable compel the owners or occupants of such building or premises to reduce the amount of water consumed

thereon in a manner to be specified by the county commission or the county commission may refuse to furnish water to such building or premises.

(e) In cases where the character of the sewage from any manufacturing or industrial plant or any building or premises is such that it imposes an unreasonable burden upon any sewage disposal system, an additional charge may be made therefor, or the county commission may, if it deems it advisable, compel such manufacturing or industrial plant or such building or premises to treat such sewage in such manner as shall be specified by the county commission before discharging such sewage into any sewer lines owned or maintained by the county.

(2) The county commission may charge any owner or occupant of any building or premise receiving the services of the facilities herein provided such initial installation or connection charge or fee as the commission may determine to be just and reasonable.

(3)(a) No rates, *rate structures*, fees, or charges shall be fixed under the foregoing provisions of this section until after a public hearing at which all of the users of the facilities provided by this chapter and owners, tenants and occupants of property served or to be served thereby and all others interested shall have an opportunity to be heard concerning the proposed rates, *rate structures*, fees, and charges. After the adoption by the county commission of a resolution setting forth the preliminary schedule or schedules fixing and classifying such rates, *rate structures*, fees, and charges, notice of such public hearing setting forth the schedule or schedules of rates, *rate structures*, fees, and charges shall be given by one publication in a newspaper published in the county at least 10 days before the date fixed in said notice for the hearing, which said hearing may be adjourned from time to time. After such hearing such preliminary schedule or schedules, either as originally adopted or as modified or amended, shall be adopted and put into effect and thereupon the resolution providing for the issuance of water revenue bonds and/or sewer revenue bonds may be finally adopted.

(b) A copy of the schedule or schedules of such rates, *rate structures*, fees, and charges finally fixed in such resolution shall be kept on file in the office of the clerk of the circuit court in the county and shall be open to inspection by all parties interested. The rates, *rate structures*, fees, or charges so fixed for any class of users or property served shall be extended to cover any additional property thereafter served which fall within the same class without the necessity of any hearing or notice.

(c) Any change or revision of any rates, *rate structures*, fees, or charges may be made in the same manner as such rates, *rate structures*, fees, or charges were originally established as hereinabove provided, but if such change or revision be made substantially pro rata as to all classes of service no notice or hearing shall be required.

Section 2. Subsection (13) is added to section 163.3167, Florida Statutes, to read:

163.3167 Scope of act.—

(13) *Each local government shall address in its comprehensive plan the availability of water supplies necessary to meet the projected water use demands for the established planning period, compatible with any applicable plan developed pursuant to s. 373.036.*

Section 3. Paragraph (a) of subsection (3), paragraph (a) of subsection (4), and paragraph (c) of subsection (6) of section 163.3177, Florida Statutes, are amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(3)(a) The comprehensive plan shall contain a capital improvements element designed to consider the need for and the location of public facilities in order to encourage the efficient utilization of such facilities and set forth:

1. A component which outlines principles for construction, extension, or increase in capacity of public facilities, *including potable water facilities compatible with the applicable regional water supply*

*plan developed pursuant to s. 373.0361*, as well as a component which outlines principles for correcting existing public facility deficiencies, which are necessary to implement the comprehensive plan. The components shall cover at least a 5-year period.

2. Estimated public facility costs, including a delineation of when facilities will be needed, the general location of the facilities, and projected revenue sources to fund the facilities.

3. Standards to ensure the availability of public facilities and the adequacy of those facilities including acceptable levels of service.

4. Standards for the management of debt.

(4)(a) Coordination of the local comprehensive plan with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region; *with any applicable plan developed pursuant to s. 373.036*; with adopted rules pertaining to designated areas of critical state concern; and with the state comprehensive plan shall be a major objective of the local comprehensive planning process. To that end, in the preparation of a comprehensive plan or element thereof, and in the comprehensive plan or element as adopted, the governing body shall include a specific policy statement indicating the relationship of the proposed development of the area to the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region and to the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist.

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to principles and guidelines for future land use, indicating ways to provide for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The element shall also include a topographic map depicting any areas adopted by a regional water management district as prime groundwater recharge areas for the Floridan or Biscayne aquifers, pursuant to s. 373.0395. These areas shall be given special consideration when the local government is engaged in zoning or considering future land use for said designated areas. For areas served by septic tanks, soil surveys shall be provided which indicate the suitability of soils for septic tanks. *By October 1, 2002, the element shall also include data and analyses, based upon the appropriate plan developed pursuant to s. 373.036, that evaluate the availability of potable water compared to population growth projected by the future land use plan.*

Section 4. Paragraph (k) is added to subsection (2) of section 373.1961, Florida Statutes, to read:

373.1961 Water production.—

(2) The Legislature finds that, due to a combination of factors, vastly increased demands have been placed on natural supplies of fresh water, and that, absent increased development of alternative water supplies, such demands may increase in the future. The Legislature also finds that potential exists in the state for the production of significant quantities of alternative water supplies, including reclaimed water, and that water production includes the development of alternative water supplies, including reclaimed water, for appropriate uses. It is the intent of the Legislature that utilities develop reclaimed water systems, where reclaimed water is the most appropriate alternative water supply option, to deliver reclaimed water to as many users as possible through the most cost-effective means, and to construct reclaimed water system infrastructure to their owned or operated properties and facilities where they have reclamation capability. It is also the intent of the Legislature that the water management districts which levy ad valorem taxes for water management purposes should share a percentage of those tax revenues with water providers and users, including local governments, water, wastewater, and reuse utilities, municipal, industrial, and

agricultural water users, and other public and private water users, to be used to supplement other funding sources in the development of alternative water supplies. The Legislature finds that public moneys or services provided to private entities for such uses constitute public purposes which are in the public interest. In order to further the development and use of alternative water supply systems, including reclaimed water systems, the Legislature provides the following:

(k) Pursuant to chapter 367, the Florida Public Service Commission shall allow entities under its jurisdiction constructing alternative water supply facilities, including but not limited to aquifer storage and recovery wells, to recover the full, prudently incurred cost of such facilities through their rate structure. Every component of an alternative water supply facility constructed by an investor-owned utility shall be recovered in current rates.

Section 5. Subsection (2) of section 373.217, Florida Statutes, is amended to read:

373.217 Superseded laws and regulations.—

(2) It is the further intent of the Legislature that Part II of the Florida Water Resources Act of 1972, as amended, as set forth in ss. 373.203-373.249, shall provide the exclusive authority for requiring permits for the consumptive use of water and for authorizing transportation thereof pursuant to s. 373.223(2). *Notwithstanding the provisions of Chapter 163, the issuance of a permit under this part shall be a conclusive determination of the availability of water supplies, including ground and surface water resources and alternative water supplies, for the use authorized by such permit.*

Section 6. Section 373.621, Florida Statutes, is created to read:

373.621 *Water conservation.—The Legislature recognizes the significant value of water conservation in the protection and efficient use of water resources. Accordingly, additional consideration in the administration of ss. 373.223, 373.233, and 373.236 shall be given to applicants who implement water conservation practices pursuant to s. 570.080 or other applicable water conservation measures as determined by the department or water management district.*

Section 7. Section 403.064, Florida Statutes, is amended to read:

403.064 Reuse of reclaimed water.—

(1) The encouragement and promotion of water conservation, and reuse of reclaimed water, as defined by the department, are state objectives and are considered to be in the public interest. *The Legislature finds that the reuse of reclaimed water is a critical component of meeting the state's existing and future water supply needs while sustaining natural systems.* The Legislature further finds that for those wastewater treatment plants permitted and operated under an approved reuse program by the department, the reclaimed water shall be considered environmentally acceptable and not a threat to public health and safety.

(2) All applicants for permits to construct or operate a domestic wastewater treatment facility located within, serving a population located within, or discharging within a water resource caution area shall prepare a reuse feasibility study as part of their application for the permit. Reuse feasibility studies shall be prepared in accordance with department guidelines adopted by rule and shall include, but are not limited to:

- (a) Evaluation of monetary costs and benefits for several levels and types of reuse.
- (b) Evaluation of water savings if reuse is implemented.
- (c) Evaluation of rates and fees necessary to implement reuse.
- (d) Evaluation of environmental and water resource benefits associated with reuse.
- (e) Evaluation of economic, environmental, and technical constraints.

(f) A schedule for implementation of reuse. The schedule shall consider phased implementation.

(3) *The permit applicant shall prepare a plan of study for the reuse feasibility study consistent with the reuse feasibility study guidelines adopted by department rule. The plan of study shall include detailed descriptions of applicable treatment and water supply alternatives to be evaluated and the methods of analysis to be used. The plan of study shall be submitted to the department for review and approval.*

(4)(3) The study required under subsection (2) shall be performed by the applicant, and the applicant shall determine the feasibility of reuse based upon the results of the study, ~~is determination of feasibility is final~~ if the study complies with the requirements of subsections (2) and (3).

(5)(4) A reuse feasibility study is not required if:

(a) The domestic wastewater treatment facility has an existing or proposed permitted or design capacity less than 0.1 million gallons per day; or

(b) The permitted reuse capacity equals or exceeds the total permitted capacity of the domestic wastewater treatment facility.

(6)(5) A reuse feasibility study prepared under subsection (2) satisfies a water management district requirement to conduct a reuse feasibility study imposed on a local government or utility that has responsibility for wastewater management.

(7)(6) Local governments may allow the use of reclaimed water for inside activities, including, but not limited to, toilet flushing, fire protection, and decorative water features, as well as for outdoor uses, provided the reclaimed water is from domestic wastewater treatment facilities which are permitted, constructed, and operated in accordance with department rules.

(8)(7) Permits issued by the department for domestic wastewater treatment facilities shall be consistent with requirements for reuse included in applicable consumptive use permits issued by the water management district, if such requirements are consistent with department rules governing reuse of reclaimed water. This subsection applies only to domestic wastewater treatment facilities which are located within, or serve a population located within, or discharge within water resource caution areas and are owned, operated, or controlled by a local government or utility which has responsibility for water supply and wastewater management.

(9)(8) Local governments may and are encouraged to implement programs for the reuse of reclaimed water. Nothing in this chapter shall be construed to prohibit or preempt such local reuse programs.

(10)(9) A local government that implements a reuse program under this section shall be allowed to allocate the costs in a reasonable manner.

(11)(10) Pursuant to chapter 367, the Florida Public Service Commission shall allow entities under its jurisdiction which conduct studies or implement reuse projects, including, but not limited to, any study required by subsection (2) or facilities used for reliability purposes for a reclaimed water reuse system, to recover the full, prudently incurred cost of such studies and facilities through their rate structure.

(12)(11) In issuing consumptive use permits, the permitting agency shall consider the local reuse program.

(13)(12) A local government shall require a developer, as a condition for obtaining a development order, to comply with the local reuse program.

(14)(13) ~~If, After conducting a feasibility study under subsection (2), an applicant determines that reuse of reclaimed water is feasible,~~ domestic wastewater treatment facilities that dispose of effluent by Class I deep well injection, as defined in 40 C.F.R. part 144.6(a), must implement reuse according to the schedule for implementation contained in the study conducted under subsection (2), to the degree that reuse is determined feasible, based upon the applicant's reuse feasibility

study. Applicable permits issued by the department shall be consistent with the requirements of this subsection.

(a) This subsection does not limit the use of a Class I deep well injection facility as backup for a reclaimed water reuse system.

(b) This subsection applies only to domestic wastewater treatment facilities located within, serving a population located within, or discharging within a water resource caution area.

~~(15)(14) If, After conducting a feasibility study under subsection (2), an applicant determines that reuse of reclaimed water is feasible, domestic wastewater treatment facilities that dispose of effluent by surface water discharges or by land application methods must implement reuse according to the schedule for implementation contained in the study conducted under subsection (2), to the degree that reuse is determined feasible, based upon the applicant's reuse feasibility study.. This subsection does not apply to surface water discharges or land application systems which are currently categorized as reuse under department rules. Applicable permits issued by the department shall be consistent with the requirements of this subsection.~~

(a) This subsection does not limit the use of a surface water discharge or land application facility as backup for a reclaimed water reuse system.

(b) This subsection applies only to domestic wastewater treatment facilities located within, serving a population located within, or discharging within a water resource caution area.

Section 8. Section 570.080, Florida Statutes, is created to read:

*570.080 Agricultural water conservation program.—The department shall establish an agricultural water conservation program which includes the following:*

*(1) A cost share program, coordinated where appropriate with United States Department of Agriculture and other federal, state, regional, and local agencies, for irrigation system retrofit and application of mobile irrigation laboratory evaluations for water conservation as provided in this section, and where applicable, for water quality improvement pursuant to s. 403.067(7)(d).*

*(2) The development and implementation of voluntary interim measures or best management practices, adopted by rule, which provide for increased efficiencies in the utilization and management of water for agricultural production. In the process of developing and adopting rules for interim measures or best management practices, the department shall consult with the Department of Environmental Protection and the water management districts. Such rules may also include a system to ensure the implementation of the interim measures or best management practices, including record keeping requirements. As new information regarding efficient agricultural water use and management becomes available the department shall reevaluate, and revise as needed, the interim measures or best management practices. The interim measures or best management practices may include irrigation retrofit, implementation of mobile irrigation laboratory evaluations and recommendations, water resource augmentation, and integrated water management systems for drought management and flood control and should, to the maximum extend practicable, be designed to qualify for regulatory and other incentives, as determined by the agency having applicable statutory authority.*

*(3) Provision of assistance to the water management districts in the development and implementation of a consistent, to the extent practicable, methodology for the efficient allocation of water for agricultural irrigation.*

Section 9. *The South Florida, St. Johns River, and Southwest Florida Water Management Districts shall each develop and participate in financing at least one public-private alternative water project that expands the current availability of alternative water supplies. Funding for the selected project shall commence no later than fiscal year 2001-2002. The selected project shall meet the criteria in s. 373.0831(4)(a). Projects that create new sources in order to help implement a prevention*

*or recovery strategy for a minimum flow or level shall be given priority consideration for funding.*

Section 10. *As a result of ongoing drought conditions throughout the state and in order to aid in the development of a better understanding of Florida's unique surface and ground water sources, it is the intent of the Legislature that the water management districts undertake a coordinated effort to develop an illustrative public service program that depicts the current status of major surface and ground water sources. This program shall be designed to provide information that shows the water levels of aquifers and water bodies that are critical to water supplies within each water management district. It is the intent of the Legislature that the districts develop partnerships with the local media to assist in the dissemination of this information. Further, it is the intent of the Legislature that this program be developed and made available no later than December 31, 2001. Beginning January 1, 2002, and every six months thereafter, the information developed pursuant to this section shall be submitted to the appropriate legislative committees with substantive jurisdiction over the water management districts.*

Section 11. This act shall take effect upon becoming a law.

320.64 Denial, suspension, or revocation of license; grounds.—A license of a licensee under s. 320.61 may be denied, suspended, or revoked within the entire state or at any specific location or locations within the state at which the applicant or licensee engages or proposes to engage in business, upon a proof that the section was violated with sufficient frequency to establish a pattern of wrongdoing and a licensee or applicant shall be liable for claims and remedies provided in s. 320.695 and s. 320.697 for any violation of any of the following provisions. A licensee is prohibited from committing the following acts: ~~upon proof that an applicant or licensee has failed to comply with any of the following provisions with sufficient frequency so as to establish a pattern of wrongdoing on the part of the applicant:~~

(18)(20) The applicant or licensee has established a system of motor vehicle allocation or distribution or has implemented a system of allocation or distribution of motor vehicles to one or more of its franchised motor vehicle dealers which is unfair, inequitable, unreasonably discriminatory, or not supportable by reason and good cause after considering the equities of the affected motor vehicles dealer or dealers. An applicant or licensee shall maintain for 3 years records that describe its methods or formula of allocation and distribution of its motor vehicles and records of its actual allocation and distribution of motor vehicles to its motor vehicle dealers in this state.

(22) The applicant or licensee has refused to deliver, in reasonable quantities and within a reasonable time, to any duly licensed motor vehicle dealer who has an agreement with such applicant or licensee for the retail sale of new motor vehicles and parts for motor vehicles sold or distributed by the applicant or licensee, any such motor vehicles or parts as are covered by such agreement. Such refusal includes the failure to offer to its same line-make franchised motor vehicle dealers all models manufactured for that line-make, or requiring a dealer to pay any extra fee, require a dealer to execute a separate franchise agreement, purchase unreasonable advertising displays or other materials, or remodel, renovate, or recondition the dealer's existing facilities, or provide exclusive facilities as a prerequisite to receiving a model or series of vehicles. However, the failure to deliver any motor vehicle or part will not be considered a violation of this section if the failure is due to an act of God, work stoppage, or delay due to a strike or labor difficulty, a freight embargo, product shortage, or other cause over which the applicant or licensee has no control. An applicant or licensee may impose reasonable requirements on the motor vehicle dealer, other than the items listed above, including, but not limited to, the purchase of special tools required to properly service a motor vehicle, the undertaking of sales person or service person training related to the motor vehicle.

(23) The applicant or licensee has competed or is competing with respect to any activity covered by the franchise agreement with a motor vehicle dealer of the same line-make located in this state with whom the applicant or licensee has entered into a franchise agreement, except as permitted in s. 320.645.

(24) The applicant or licensee has sold a motor vehicle to any retail consumer in the state except through a motor vehicle dealer holding a franchise agreement for the line-make that includes the motor vehicle. This section does not apply to sales by the applicant or licensee of motor vehicles to its current employees, employees of companies affiliated by common ownership, charitable not-for-profit organizations, and the federal government.

(25) The applicant or licensee has undertaken an audit of warranty payments or incentive payment previously paid to a motor vehicle dealer

in violation of this section or has failed to comply with s. 320.696. An applicant or licensee may reasonably and periodically audit a motor vehicle dealer to determine the validity of paid claims. Audit of warranty payments shall only be for the 1-year period immediately following the date the claim was paid. Audit of incentive payments shall only be for an 18-month period immediately following the date the incentive was paid. An applicant or licensee shall not deny a claim or charge a motor vehicle dealer back subsequent to the payment of the claim unless the applicant or licensee can show that the claim was false or fraudulent or that the motor vehicle dealer failed to substantially comply with the reasonable written and uniformly applied procedures of the applicant or licensee for such repairs or incentives.

(26) Notwithstanding the terms of any franchise agreement, the applicant or licensee has refused to allocate, sell, or deliver motor vehicles, charged back or withheld payments or other things of value for which the dealer is otherwise eligible under a sales promotion, program, or contest, or prevented the motor vehicle dealer from participating in any promotion, program, or contest for selling a motor vehicle to a customer who was present at the dealership and the motor vehicle dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country. There will be a rebuttable presumption that the dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country if the vehicle is titled in one of the fifty United States.

(27) Notwithstanding the terms of any franchise agreement, the applicant or licensee has failed or refused to indemnify and hold harmless any motor vehicle dealer against any judgment for damages, or settlements agreed to by the applicant or licensee, including, without limitation, court costs and reasonable attorneys fees, arising out of complaints, claims, or lawsuits, including, without limitation, strict liability, negligence, misrepresentation, express or implied warranty, or revocation or rescission of acceptance of the sale of a motor vehicle, to the extent the judgment or settlement relates to the alleged negligent manufacture, design, or assembly of motor vehicles, parts, or accessories. Nothing herein shall obviate the licensee's obligations pursuant to chapter 681.

(28) The applicant or licensee has published, disclosed, or otherwise made available in any form information provided by a motor vehicle dealer with respect to sales prices of motor vehicles or profit per motor vehicle sold. Other confidential financial information provided by motor vehicle dealers shall not be published, disclosed, or otherwise made publicly available except in composite form. However, this information may be disclosed with the written consent of the dealer or in response to a subpoena or order of the Department, a court or a lawful tribunal, or introduced into evidence in such a proceeding, after timely notice to an affected dealer.

(29) The applicant or licensee has failed to reimburse a motor vehicle dealer in full for the reasonable cost of providing a loaner vehicle to any customer who is having a vehicle serviced at the motor vehicle dealer, if a loaner is required by the applicant or licensee, or a loaner is expressly part of an applicant or licensee's customer satisfaction index or computation.

(30) The applicant or licensee has conducted or threatened to conduct any audit of a motor vehicle dealer in order to coerce or attempt to coerce the dealer to forego any rights granted to the dealer under ss. 320.60-320.70 or under the agreement between the licensee and the motor vehicle dealer. Nothing in this section shall prohibit an applicant or licensee from reasonably and periodically auditing a dealer to determine the validity of paid claims.

(31) From and after the effective date of enactment of this provision, the applicant or licensee has offered to any motor vehicle dealer a franchise agreement that:

(a) Requires that a motor vehicle dealer bring an administrative or legal action in a venue outside of this state, or

(b) Requires that any arbitration, mediation, or other legal proceeding be conducted outside of this state, or

(c) *Requires that a law of a state other than Florida be applied to any legal proceeding between a motor vehicle dealer and a licensee.*

(32) *Notwithstanding the terms of any franchise agreement, the applicant or licensee has rejected or withheld approval of any proposed transfer in violation of s. 320.643 or a proposed change of executive management in violation of s. 320.644.*

Section 51. Section 320.641, Florida Statutes, is amended and a new subsection (8) is added to read:

320.641 *Discontinuations, cancellations, nonrenewals, modifications, and replacement* ~~Unfair cancellation~~ of franchise agreements.—

(1)(a) An applicant or licensee shall give written notice to the motor vehicle dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew a franchise agreement or of the licensee's intention to modify a franchise or replace a franchise with a succeeding franchise, which modification or replacement will adversely alter the rights or obligations of a motor vehicle dealer under an existing franchise agreement or will substantially impair the sales, service obligations, or investment of the motor vehicle dealer, at least 90 days before the effective date thereof, together with the specific grounds for such action.

(b) The failure by the licensee to comply with the 90-day notice period and procedure prescribed herein shall render voidable, at the option of the motor vehicle dealer, any discontinuation, cancellation, nonrenewal, modification, or replacement of any franchise agreement. Designation of a franchise agreement at a specific location as a "nondesignated point" shall be deemed an evasion of this section and constitutes an unfair cancellation.

(2) Franchise agreements are deemed to be continuing unless the applicant or licensee has notified the department of the discontinuation of, cancellation of, failure to renew, modification of, or replacement of the agreement of any of its motor vehicle dealers; and annual renewal of the license provided for under ss. 320.60-320.70 is not necessary for any cause of action against the licensee.

(3) Any motor vehicle dealer *who receives a notice of intent to discontinue, cancel, not renew, modify, or replace whose franchise agreement is discontinued, canceled, not renewed, modified, or replaced* may, within the 90-day notice period, file a petition or complaint for a determination of whether such action is an unfair or prohibited discontinuation, cancellation, nonrenewal, modification, or replacement. Agreements and certificates of appointment shall continue in effect until final determination of the issues raised in such petition or complaint by the motor vehicle dealer. A discontinuation, cancellation, or nonrenewal of a franchise agreement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; is not undertaken for good cause; or is based on an alleged breach of the franchise agreement which is not in fact a material and substantial breach; or, if the grounds relied upon for termination, cancellation, or nonrenewal have not been applied in a uniform and consistent manner by the licensee. A modification or replacement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; or is not undertaken for good cause. The applicant or licensee shall have burden of proof that such action is fair and not prohibited.

(4) Notwithstanding any other provision of this section, the failure of a motor vehicle dealer to be engaged in business with the public for 10 consecutive business days constitutes abandonment by the dealer of his or her franchise agreement. If any motor vehicle dealer abandons his or her franchise agreement, he or she has no cause of action under this section. For the purpose of this section, a dealer shall be considered to be engaged in business with the public if a sales and service facility is open and is performing such services 8 hours a day, 5 days a week, excluding holidays. However, it will not be considered abandonment if such failure to engage in business is due to an act of God, a work stoppage, or a delay due to a strike or labor difficulty, a freight embargo, or other cause over which the motor vehicle dealer has no control, including any violation of ss. 320.60-320.70.

(5) Notwithstanding any other provision of this section, if a motor vehicle dealer has abandoned his or her franchise agreement as provided in subsection (4), the licensee may give written notice to the dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew the franchise agreement with the dealer at least 15 days before the effective date thereof, specifying the grounds for such action. A motor vehicle dealer receiving such notice may file a petition or complaint for determination of whether in fact there has been an abandonment of the franchise.

(6) If the complainant motor vehicle dealer prevails, he or she shall have a cause of action against the licensee for reasonable attorneys' fees and costs incurred by him or her in such proceeding, and he or she shall have a cause of action under s. 320.697.

(7) Except as provided in s. 320.643, no replacement motor vehicle dealer shall be named for this point or location to engage in business and *the franchise agreement shall remain in effect until a final judgment is entered after all appeals are exhausted, provided that, when a motor vehicle dealer appeals a decision upholding a discontinuation, cancellation, or nonrenewal based upon abandonment or revocation of the dealer's license pursuant to s. 320.27, as lawful reasons for such discontinuation, cancellation, or nonrenewal, the franchise agreement shall remain in effect pending exhaustion of all appeals only if the motor vehicle dealer establishes a likelihood of success on appeal and that the public interest will not be harmed by keeping the franchise agreement in effect pending entry of final judgment after such appeal.* ~~prior to the final adjudication by the department on the petition or complaint and the exhaustion of all appellate remedies by the canceled or discontinued dealer, if a stay is issued by either the department or an appellate court.~~

(8) *If a transfer is proposed pursuant to s. 320.643(1) or (2) after a notice of intent to discontinue, cancel, or not renew a franchise agreement is received but, prior to the final determination, including exhaustion of all appellate remedies of a motor vehicle dealer's complaint or petition contesting such action, the termination proceedings shall be stayed, without bond, during the period that the transfer is being reviewed by the licensee pursuant to s. 320.643.; During the period that the transfer is being reviewed by the licensee, pursuant to s. 320.643, the franchise agreement shall remain in full force and effect, and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer until such time as the licensee has accepted or rejected the proposed transfer. If the proposed transfer is rejected, the motor vehicle dealer shall retain all of its rights pursuant to s. 320.643 to an administrative determination as to whether the licensee's rejection is in compliance with the provisions of s. 320.643, and during the pendency of any such administrative proceeding, and any related appellate proceedings, the termination proceedings shall remain stayed without bond, the franchise agreement shall remain in full force and effect and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer. If a transfer is approved by the licensee or mandated by law, the termination proceedings shall be dismissed with prejudice as moot. The subsection (8) applies only to the first two proposed transfers pursuant to s. 320.643(1) or (2) after notice of intent to discontinue, cancel, or not renew is received.*

Section 52. Section 320.643, Florida Statutes, is amended to read:

320.643 *Transfer, assignment, or sale of franchise agreements.—*

(1) A motor vehicle dealer shall not transfer, assign, or sell a franchise agreement to another person unless the dealer first notifies the licensee of the dealer's decision to make such transfer, by written notice setting forth the prospective transferee's name, address, financial qualification, and business experience during the previous 5 years. The licensee shall, in writing, within 60 days after receipt of such notice, inform the dealer either of the licensee's approval of the transfer, assignment, or sale or of the unacceptability of the proposed transferee, setting forth the material reasons for the rejection. If the licensee does not so inform the dealer within the 60-day period, its approval of the proposed transfer is deemed granted. No such transfer, assignment, or sale will be valid unless the transferee agrees in writing to comply with

all requirements of the franchise then in effect. ~~Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld.~~ For the purposes of this section, the refusal by the licensee to accept a proposed transferee who is of good moral character and who otherwise meets the written, reasonable, and uniformly applied standards or qualifications, if any, of the licensee relating to *financial qualifications of the transferee* and the business experience of the transferee or the transferee's executive management ~~required by the licensee of its motor vehicle dealers~~ is presumed to be unreasonable. A motor vehicle dealer whose proposed sale is rejected ~~licensee who receives such notice~~ may, within 60 days following such receipt of such rejection, file with the department a verified complaint for a determination that the proposed transferee ~~has been rejected in violation of~~ is not a person qualified to be a transferee under this section. The licensee has the burden of proof with respect to all issues raised by such verified complaint. The department shall determine, and enter an order providing, that the proposed transferee is either qualified or is not and cannot be qualified for specified reasons, or the order may provide the conditions under which a proposed transferee would be qualified. If the licensee fails to file such a response to the motor vehicle dealer's verified complaint within ~~30 such 60 days after receipt of the complaint, unless the parties agree in writing to an extension, period~~ or if the department, after a hearing, ~~dismisses the complaint or~~ renders a decision other than one disqualifying the proposed transferee, the franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such transfer or amended in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.

(2)(a) Notwithstanding the terms of any franchise agreement, a licensee shall not, by contract or otherwise, fail or refuse to give effect to, prevent, prohibit, or penalize, or attempt to refuse to give effect to, prevent, prohibit, or penalize, any motor vehicle dealer or any proprietor, partner, stockholder, owner, or other person who holds or otherwise owns an interest therein from selling, assigning, transferring, alienating, or otherwise disposing of, in whole or in part, the equity interest of any of them in such motor vehicle dealer to any other person or persons, including a corporation established or existing for the purpose of owning or holding the stock or ownership interests of other entities, unless the licensee proves at a hearing pursuant to this section that such sale, transfer, alienation, or other disposition is to a person who is not, or whose controlling executive management is not, of good moral character. A motor vehicle dealer, or any proprietor, partner, stockholder, owner, or other person who holds or otherwise owns an interest in the motor vehicle dealer, who desires to sell, assign, transfer, alienate, or otherwise dispose of any interest in such motor vehicle dealer shall notify, or cause the proposed transferee to so notify, the licensee, in writing, of the identity and address of the proposed transferee. A licensee who receives such notice may, within 60 days following such receipt, ~~notify the motor vehicle dealer in writing file with the department a verified complaint for a determination~~ that the proposed transferee is not a person qualified to be a transferee under this section and setting forth the material reasons for such rejection. ~~Failure of the licensee to notify the motor vehicle dealer within the 60-day period of such rejection shall be deemed an approval of the transfer. Any person whose proposed sale of stock is rejected may file within 60 days of receipt of such rejection a complaint with the Department alleging that the rejection was in violation of the law or the franchise agreement.~~ The licensee has the burden of proof with respect to all issues raised by such verified complaint. The department shall determine, and enter an order providing, that the proposed transferee either is qualified or is not and cannot be qualified for specified reasons; or the order may provide the conditions under which a proposed transferee would be qualified. ~~If the licensee fails to file a response to the motor vehicle dealer's complaint within 30 days of receipt of the complaint, unless the parties agree in writing to an extension, or if the licensee fails to file such verified complaint within such 60-day period or if the department, after a hearing, dismisses the complaint or renders a decision on the complaint other than one disqualifying the proposed transferee, the transfer shall be deemed approved franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such~~

~~transfer or amended~~ in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.

(b) During the pendency of any such hearing, the franchise agreement of the motor vehicle dealer shall continue in effect in accordance with its terms. The department shall expedite any determination requested under this section.

(3) ~~Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld. For the purposes of this section, the refusal by the licensee to accept a proposed transferee who satisfies the criteria set forth in subsection (1) or (2) is presumed to be unreasonable.~~

Section 53. Section 320.645, Florida Statutes, is amended to read:

320.645 Restriction upon ownership of dealership by licensee.—

(1) No licensee, including a manufacturer or agent of a manufacturer, or any parent, subsidiary, common entity, or officer or representative of the licensee shall own or operate, either directly or indirectly, a motor vehicle dealership in this state for the sale or service of motor vehicles which have been or are offered for sale under a franchise agreement with a motor vehicle dealer in this state. ~~A licensee may not be issued a motor vehicle dealer license pursuant to s. 320.27. However, no such licensee will be deemed to be in violation of this section:~~

(a) When operating a motor vehicle dealership for a temporary period, not to exceed 1 year, during the transition from one owner of the motor vehicle dealership to another;

(b) When operating a motor vehicle dealership temporarily for a reasonable period for the exclusive purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group that has historically been underrepresented in its dealer body, or for other qualified persons who the licensee deems lack the resources to purchase or capitalize the dealership outright, ~~not to exceed 1 year, or~~ in a bona fide relationship with an independent person, other than a licensee or its agent or affiliate, who has made a significant investment that is subject to loss in the dealership *within the dealership's first year of operation* and who can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions; or

(c) If the department determines, after a hearing on the matter, pursuant to chapter 120, at the request of any person, that there is no independent person available in the community or territory to own and operate the motor vehicle dealership in a manner consistent with the public interest.

In any such case, the licensee must continue to make the motor vehicle dealership available for sale to an independent person at a fair and reasonable price. Approval of the sale of such a motor vehicle dealership to a proposed motor vehicle dealer shall not be unreasonably withheld.

(2) As used in this section, the term:

(a) "Independent person" is a person who is not an officer, director, or employee of the licensee.

(b) "Reasonable terms and conditions" requires that profits from the dealership are reasonably expected to be sufficient to allow full ownership of the dealership by the independent person within a reasonable time period not to exceed 10 years, which time period may be extended if there is a reasonable basis to do so and is not being sought to evade the purpose of this section; that the independent person has sufficient control to permit acquisition of ownership; and that the relationship cannot be terminated solely to avoid full ownership. The terms and conditions are not reasonable if they preclude the independent person from an expedited purchase of the dealership using a monetary source other than profits from the dealership's operation; provided, however, that the independent person must pay or make an agreement to pay to the licensee any and all reasonable prepayment charges and costs, including all unrecouped restored losses, associated with the expedited

*purchase of the dealership. For the purpose of this section, unrecovered restored losses are monies that the manufacturer has provided to the dealership to restore losses of the dealership that the manufacturer has not been paid back through profits of the dealership.*

(c) *“Significant investment” means a reasonable amount, considering the reasonable capital requirements of the dealership, acquired and obtained from sources other than the licensee or any of its affiliates and not encumbered by the person’s interest in the dealership.*

(3) *Nothing in this section shall prohibit, limit, restrict, or impose conditions on:*

(a) *The business activities, including, without limitation, the dealings with motor vehicle manufacturers and their representatives and affiliates, of any person that is primarily engaged in the business of short term not to exceed 12 months rental of motor vehicles and industrial and construction equipment and activities incidental to that business, provided that:*

1. *Any motor vehicles sold by such person are limited to used motor vehicles that have been previously used exclusively and regularly by such person in the conduct of its rental business and used motor vehicles traded in on motor vehicles sold by such person;*

2. *Warranty repairs performed under any manufacturer’s new vehicle warranty by such person on motor vehicles are limited to those motor vehicles that it owns. As to previously owned vehicles, warranty repairs can be performed only if pursuant to a motor vehicle service agreement as defined in chapter 634, part I, issued by such person or an express warranty issued by such person on the retail sale of those vehicles previously owned; and*

3. *Motor vehicle financing provided by such person to retail consumers for motor vehicles is limited to used motor vehicles sold by such person in the conduct of its business; or*

(b) *The direct or indirect ownership, affiliation or control of a person described in paragraph (a) of this subsection.*

(4) *This section does not apply to any dealership that is owned, controlled, or operated by a licensee on July 1, 2000.*

~~(2) This section shall not be construed to prohibit any licensee from owning or operating a motor vehicle dealership in this state if such dealership was owned or operated by the licensee on May 31, 1984.~~

Section 54. Subsection (2) of section 320.699, Florida Statutes, is amended to read:

320.699 Administrative hearings and adjudications; procedure.—

(2) *If a written objection or notice of protest is filed with the department under paragraph (1)(b), a hearing shall be held not sooner than 180 days nor later than 240 days from within 180 days of the date of filing of the first objection or notice of protest, unless the time is extended by the Administrative Law Judge for good cause shown. This subsection shall govern the schedule of hearings in lieu of any other provision of law with respect to administrative hearings conducted by the Department of Highway Safety and Motor Vehicles or the Division of Administrative Hearings, including performance standards of state agencies, which may be included in current and future appropriations acts. hearing officer for good cause shown. If a hearing is not scheduled within said time, any party may request such hearing which shall be held forthwith by the hearing officer.*

Section 55. Section 320.6991, Florida Statutes, is created to read:

*Section 320.6991 Severability.—If a provision of ss. 320.60-320.70 or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of ss. 320.60-320.70 that can be given effect without the invalid provision or application, and to this end the provisions of 320.60-320.70 are severable.*

And the title is amended as follows:

(Amendment Bar Code: 571015)

**Amendment 1 (with title amendment)**—

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. Section 768.1325, Florida Statutes, is created to read:

768.1325 *Cardiac Arrest Survival Act; immunity from civil liability.*—

(1) *This section may be cited as the “Cardiac Arrest Survival Act.”*

(2) *As used in this section:*

(a) *“Perceived medical emergency” means circumstances in which the behavior of an individual leads a reasonable person to believe that the individual is experiencing a life-threatening medical condition that requires an immediate medical response regarding the heart or other cardiopulmonary functioning of the individual.*

(b) *“Automated external defibrillator device” means a defibrillator device that:*

1. *Is commercially distributed in accordance with the Federal Food, Drug, and Cosmetic Act.*

2. *Is capable of recognizing the presence or absence of ventricular fibrillation, and is capable of determining without intervention by the user of the device whether defibrillation should be performed.*

3. *Upon determining that defibrillation should be performed, is able to deliver an electrical shock to an individual.*

4. *In the case of a defibrillator device that may be operated in either an automatic or a manual mode, is set to operate in the automatic mode.*

(c) *“Harm” means damage or loss of any and all types, including, but not limited to, physical, nonphysical, economic, noneconomic, actual, compensatory, consequential, incidental, and punitive damages or losses.*

(3) *Notwithstanding any other provision of law to the contrary, and except as provided in subsection (4), any person who uses or attempts to use an automated external defibrillator device on a victim of a perceived medical emergency is immune from civil liability for any harm resulting from the use or attempted use of such device, or any act or failure to act in providing or arranging further medical treatment. In addition, any person who acquired the device is immune from such liability, if the harm was not due to the failure of such acquirer of the device to:*

(a) *Notify the local emergency medical services medical director of the most recent placement of the device within a reasonable period of time after the device was placed;*

(b) *Properly maintain and test the device; or*

(c) *Provide appropriate training in the use of the device to an employee or agent of the acquirer when the employee or agent was the person who used the device on the victim, except that such requirement of training does not apply if:*

1. *The employee or agent was not an employee or agent who would have been reasonably expected to use the device; or*

2. *The period of time elapsing between the engagement of the person as an employee or agent and the occurrence of the harm, or between the acquisition of the device and the occurrence of the harm in any case in which the device was acquired after engagement of the employee or agent, was not a reasonably sufficient period in which to provide the training.*

(4) *Immunity under subsection (3) does not apply to a person if:*

(a) *The harm involved was caused by that person’s willful or criminal misconduct, gross negligence, reckless misconduct, or a conscious, flagrant indifference to the rights or safety of the victim who was harmed;*

(b) *The person is a hospital, clinic, or other entity whose primary purpose is providing health care directly to patients, and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent;*

(c) *The person is an acquirer of the device who leased the device to a health care entity, or who otherwise provided the device to such entity for compensation without selling the device to the entity, and the harm was caused by an employee or agent of the entity who used the device while acting within the scope of the employment or agency of the employee or agent; or*

(d) *The person is the manufacturer of the device.*

(5) *This section does not establish any cause of action. This section does not require that an automated external defibrillator device be placed at any building or other location or require an acquirer to make available on its premises one or more employees or agents trained in the use of the device.*

Section 2. *Subsection (4) of section 768.13, Florida Statutes, is repealed.*

Section 3. Section 401.2915, Florida Statutes, is amended to read:

401.2915 *Automated external defibrillators.*—It is the intent of the Legislature that an automated external defibrillator may be used by any person for the purpose of saving the life of another person in cardiac arrest. In order to ensure public health and safety:

(1) *All persons who have access to or use an automated external defibrillator must obtain appropriate training, to include completion of a course in cardiopulmonary resuscitation or successful completion of a basic first aid course that includes cardiopulmonary resuscitation training, and demonstrated proficiency in the use of an automated external defibrillator;*

(2) *Any person or entity in possession of an automated external defibrillator is encouraged to register with the local emergency medical services medical director the existence and location of the automated external defibrillator; and*

(3) *Any person who uses an automated external defibrillator is required to activate the emergency medical services system as soon as possible upon use of the automated external defibrillator.*

Section 4. *No later than January 1, 2003, the Secretary of the Department of Health shall adopt rules to establish guidelines on the appropriate placement of automated external defibrillator devices in buildings or portions of buildings owned or leased by the state, and shall establish, by rule, recommendations on procedures for the deployment of automated external defibrillator devices in such buildings in accordance with the guidelines. The Secretary of the Department of Management Services shall assist the Secretary of the Department of Health in the development of the guidelines. The guidelines for the placement of the automated external defibrillators shall take into account the typical number of employees and visitors in the buildings, the extent of the need for security measures regarding the buildings, special circumstances in buildings or portions of buildings such as high electrical voltages or extreme heat or cold, and such other factors as the Secretaries determine to be appropriate. The Secretary of the Department of Health’s recommendations for deployment of automated external defibrillators in buildings or portions of buildings owned or leased by the state shall include:*

(a) *A reference list of appropriate training courses in the use of such devices, including the role of cardiopulmonary resuscitation;*

(b) *The extent to which such devices may be used by laypersons;*

(c) *Manufacturer recommended maintenance and testing of the devices; and*

(d) *Coordination with local emergency medical services systems regarding the incidents of use of the devices.*

*In formulating these guidelines and recommendations, the Secretary may consult with all appropriate public and private entities, including national and local public health organizations that seek to improve the survival rates of individuals who experience cardiac arrest.*

Section 5. This act shall take effect October 1, 2001.

And the title is amended as follows:

remove from the title of the bill: the entire title

and insert in lieu thereof: An act relating to automated external defibrillators; creating s. 768.1325, F.S.; creating the Cardiac Arrest Survival Act; providing definitions; providing immunity from liability for certain persons who use automated external defibrillators under certain circumstances; providing exceptions; repealing s. 768.13(4), F.S., relating to the Good Samaritan Act, to delete reference to the use of an automatic external defibrillator in certain emergency situations; amending s. 401.2915, F.S.; revising a provision of law relating to automatic external defibrillators to conform to the act; directing the Department of Health, with assistance from the Department of Management Services, to adopt rules to establish guidelines on the appropriate placement and deployment of automated external defibrillator devices in certain buildings owned or leased by the state; specifying factors to be considered in device placement and deployment; providing an effective date.

WHEREAS, over 700 lives are lost every day to sudden cardiac arrest in the United States alone, and

WHEREAS, two out of every three sudden cardiac deaths occur before a victim can reach a hospital, and

WHEREAS, more than 95 percent of these cardiac arrest victims will die, many because of lack of readily available lifesaving medical equipment, and

WHEREAS, with current medical technology, up to 30 percent of cardiac arrest victims could be saved if victims had access to immediate medical response, including defibrillation and cardiopulmonary resuscitation, and

WHEREAS, once a victim has suffered a cardiac arrest, every minute that passes before returning the heart to a normal rhythm decreases the chances of survival by 10 percent, and

WHEREAS, most cardiac arrests are caused by an abnormal heart rhythm called ventricular fibrillation, which occurs when the heart's electrical system malfunctions, causing a chaotic rhythm that prevents the heart from pumping oxygen to the victim's brain and body, and

WHEREAS, communities that have implemented programs ensuring widespread access to defibrillators, combined with appropriate training, maintenance, and coordination with local emergency medical systems have dramatically improved the survival rates from cardiac arrest, and

WHEREAS, automated external defibrillator devices have been demonstrated to be safe and effective, even when used by laypersons, since the devices are designed not to allow a user to administer a shock until after the device has analyzed a victim's heart rhythm and determined that an electric shock is required, and

WHEREAS, increased public awareness regarding automated external defibrillator devices will greatly facilitate their adoption, and

WHEREAS, limiting the liability of users and acquirers of automated external defibrillator devices in emergency situations may encourage the use of the devices, and result in saved lives, NOW, THEREFORE,

The department shall adopt the uniform wetland mitigation assessment method by rule no later than January 31, 2002. *Rules promulgated pursuant to this subsection shall be submitted to the President of the Senate and the Speaker of the House of Representatives for review by the Legislature no later than 30 days prior to the 2002 regular session, and shall become effective only after legislative review. In its review, the Legislature may reject, modify, or take no action relative to such rules.* Once the department adopts the uniform wetland mitigation assessment method by rule, the uniform wetland mitigation assessment method shall be binding on the department, the water management districts, local governments, and any other governmental agencies and shall be the sole means to determine mitigation needed to offset adverse impacts and to award and deduct mitigation bank credits. A water management district and any other governmental agency subject to chapter 120 may apply the uniform wetland mitigation assessment method without the need to adopt it pursuant to s. 120.54. It shall be a goal of the department and water management districts that the uniform wetland mitigation assessment method developed be practicable for use within the timeframes provided in the permitting process and result in a consistent process for determining mitigation requirements. It shall be recognized that any such method shall require the application of reasonable scientific judgment. The uniform wetland mitigation assessment method must determine the value of functions provided by wetlands and other surface waters considering the current conditions of these areas, utilization by fish and wildlife, location, uniqueness, and hydrologic connection, in addition to the factors listed in s. 373.4136(4). The uniform wetland mitigation assessment method shall also account for the expected time-lag associated with offsetting impacts and the degree of risk associated with the proposed mitigation. The uniform wetland mitigation assessment method shall account for different ecological communities in different areas of the state. In developing the uniform wetland mitigation assessment method, the department and water management districts shall consult with approved local programs under s. 403.182 which have an established wetland mitigation program. The department and water management districts shall consider the recommendations submitted by such approved local programs, including any recommendations relating to the adoption by the department and water management districts of any uniform wetland mitigation methodology that has been adopted and used by an approved local program in its established wetland mitigation program. Environmental resource permitting rules may establish categories of permits or thresholds for minor impacts under which the use of the uniform wetland mitigation assessment method will not be required. The application of the uniform wetland mitigation assessment method is not subject to s. 70.001. In the event the rule establishing the uniform wetland mitigation assessment method is deemed to be invalid, the applicable rules related to establishing needed mitigation in existence

prior to the adoption of the uniform wetland mitigation assessment method, including those adopted by a county which is an approved local program under s. 403.182, and the method described in paragraph (b) for existing mitigation banks, shall be authorized for use by the department, water management districts, local governments, and other state agencies.

(a) In developing the uniform wetland mitigation assessment method, the department shall seek input from the United States Army Corps of Engineers in order to promote consistency in the mitigation assessment methods used by the state and federal permitting programs.

(b) An entity which has received a mitigation bank permit prior to the adoption of the uniform wetland mitigation assessment method shall have impact sites assessed, for the purpose of deducting bank credits, using the credit assessment method, including any functional assessment methodology, which was in place when the bank was permitted; unless the entity elects to have its credits redetermined, and thereafter have its credits deducted, using the uniform wetland mitigation assessment method.

154.306 Financial responsibility for certified residents who are qualified indigent patients treated at an out-of-county participating hospital or regional referral hospital.—Ultimate financial responsibility for treatment received at a participating hospital or a regional referral hospital by a qualified indigent patient who is a certified resident of a county in the State of Florida, but is not a resident of the county in which the participating hospital or regional referral hospital is located, is the obligation of the county of which the qualified indigent patient is a resident. Each county shall reimburse participating hospitals or regional referral hospitals as provided for in this part, and shall provide or arrange for indigent eligibility determination procedures and resident certification determination procedures as provided for in rules developed to implement this part. The agency, or any county determining eligibility of a qualified indigent, shall provide to the county of residence, upon request, a copy of any documents, forms, or other information, as determined by rule, which may be used in making an eligibility determination.

(3) For the purpose of computing the maximum amount that a county having a population of 100,000 or less may be required to pay, the agency must reduce the official state population estimates by the number of inmates and patients residing in the county in institutions operated by the Federal Government, the Department of Corrections, the Department of Health, or the Department of Children and Family Services, and by the number of active-duty military personnel residing in the county, none of whom shall be considered residents of the county. However, a county is entitled to receive the benefit of such a reduction in estimated population figures only if the county accepts as valid and true, and does not require any reverification of, the documentation of financial eligibility and county residency which is provided to it by the participating hospital or regional referral hospital. The participating hospital or regional referral hospital must provide documentation that is complete and in the form required by s. 154.3105.

Section 6. *The Legislature finds that personal identifying information, name, age, diagnosis, address, bank account numbers, and debit and credit card numbers contained in the records relating to an individual's personal health or eligibility for health-related services made or received by the individual's physician, pharmacist, and public or private health facility should be held confidential. Furthermore, the Legislature finds that every person has an expectation of and a right to privacy in all matters concerning her or his personal health when medical services are provided. Matters of personal health are traditionally private and confidential concerns between the patient and the health care provider. The private and confidential nature of personal health matters pervades both the public and private sectors. For these reasons, it is the express intent of the Legislature to protect confidential information and the individual's expectations of the right to privacy in all matters regarding her or his personal health and not to have such information exploited for purposes of solicitation or marketing the sale of goods and services.*

Section 7. Subsection (5) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished.—

(5)(a) Except as otherwise provided in this section and in s. 440.13(4)(c), such records may not be furnished to, and the medical condition of a patient may not be discussed with, any person other than the patient or the patient's legal representative or other health care practitioners and providers involved in the care or treatment of the patient, except upon written authorization of the patient. However, such records may be furnished without written authorization under the following circumstances:

1.(a) To any person, firm, or corporation that has procured or furnished such examination or treatment with the patient's consent.

2.(b) When compulsory physical examination is made pursuant to Rule 1.360, Florida Rules of Civil Procedure, in which case copies of the medical records shall be furnished to both the defendant and the plaintiff.

3.(e) In any civil or criminal action, unless otherwise prohibited by law, upon the issuance of a subpoena from a court of competent jurisdiction and proper notice to the patient or the patient's legal representative by the party seeking such records.

4.(d) For statistical and scientific research, provided the information is abstracted in such a way as to protect the identity of the patient or provided written permission is received from the patient or the patient's legal representative.

*(b) Absent a specific written release or authorization permitting utilization of patient information for solicitation or marketing the sale of goods or services, any use of that information for those purposes is prohibited.*

(14) Licensees in violation of the provisions of this section shall be disciplined by the appropriate licensing authority.

(15) The Attorney General is authorized to enforce the provisions of this section for records owners not otherwise licensed by the state, through injunctive relief and fines not to exceed \$5,000 per violation.

A general authorization for the release of medical information is not sufficient for this purpose. The content of such patient treatment record is confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

*(b) Absent a specific written release or authorization permitting utilization of patient information for solicitation or marketing the sale of goods or services, any use of that information for those purposes is prohibited.*

Section 9. Subsection (1) of section 400.1415, Florida Statutes, is amended to read:

(1) Any person who fraudulently alters, defaces, or falsifies any medical record or releases medical records for the purposes of solicitation or marketing the sale of goods or services absent a specific written release or authorization permitting utilization of patient information, or other nursing home record, or causes or procures any of these offenses to be committed, commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

Section 10. Section 626.9651, Florida Statutes, is created to read:

*626.9651 Privacy.—The department shall adopt rules consistent with other provisions of the Florida Insurance Code to govern the use of a consumer's nonpublic personal financial and health information. These rules must be based on, consistent with, and not more restrictive than the Privacy of Consumer Financial and Health Information Regulation, adopted September 26, 2000, by the National Association of Insurance Commissioners; however, the rules must permit the use and disclosure of nonpublic personal health information for scientific, medical, or public policy research, in accordance with federal law. In addition, these rules must be consistent with, and not more restrictive than, the standards contained in Title V of the Gramm-Leach-Bliley Act of 1999, Pub. L. No. 106-102. Section 3. (1) *All information contained in the Paternity Registry created by section 63.165, Florida Statutes, is exempt from public disclosure pursuant to section 119.07(1), Florida Statutes, and Section 24(a) of Article I of the State Constitution, except that certificates attesting to the results of a search of the Paternity Registry pursuant to section 63.165(8), Florida Statutes, may be disclosed as provided in section 63.165(8), Florida Statutes. This section is subject to the Open Government Sunset Review Act of 1995 in accordance with section 119.15, Florida Statutes, and shall stand repealed on October 2, 2006, unless reviewed and saved from repeal through reenactment by the Legislature.*

(2) This section shall take effect on the same date that Committee Substitute for House Bill 415 or similar legislation takes effect if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

Section 4. (1) *The Legislature finds that it is a public necessity to exempt from disclosure pursuant to section 119.07(1), Florida Statutes, and Section 24 of Article I of the State Constitution all information contained in the Paternity Registry created by section 63.165, Florida Statutes. The Legislature finds that it is good public policy to encourage putative fathers to grasp both the responsibility and the opportunity to be made legally aware of petitions and hearings to terminate their parental rights pending an adoption. The Legislature also finds that by providing legal notice to putative fathers, adoptions will be less likely to be legally disrupted. The Legislature further finds that the information required by the Paternity Registry reveals the existence of intimate sexual relations. Disclosure of this information would likely have a chilling effect on the likelihood that putative fathers will register. Therefore, the Legislature finds that any benefit that could occur from public disclosure of the information in the Paternity Registry is outweighed by the necessity to ensure the due process rights of putative fathers.*

(2) This section shall take effect on the same date that Committee Substitute for House Bill 415 or similar legislation takes effect if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

Section 5. Except as otherwise provided herein, this act shall take effect on the same date

*394.741 Accreditation requirements for providers of behavioral health care services.—*

(1) *As used in this section, the term "behavioral health care services" means mental health and substance abuse treatment services.*

(2) *Notwithstanding any provision of law to the contrary, accreditation shall be accepted by the agency and department in lieu of the agency's and department's facility licensure on-site review requirements and shall be accepted as a substitute for the department's administrative and program monitoring requirements, except as required by subsections (3) and (4):*

(a) *Any organization from which the department purchases behavioral health care services that is accredited by the Joint Commission on Accreditation of Healthcare Organizations or the Council on Accreditation for Children and Family Services, or have those services that are being purchased by the department accredited by CARF—the Rehabilitation Accreditation Commission.*

(b) *Any mental health facility licensed by the agency or any substance abuse component licensed by the department that is accredited by the Joint Commission on Accreditation of Healthcare Organizations, CARF—the Rehabilitation Accreditation Commission or the Council on Accreditation of Children and Family Services.*

(c) *Any network of providers from which the department or the agency purchase behavioral health care services accredited by the Joint Commission on Accreditation of Healthcare Organizations, CARF—the Rehabilitation Accreditation Commission, the Council on Accreditation of Children and Family Services, or the National Committee for Quality Assurance. A provider organization, which is part of an accredited network, is afforded the same rights under this part.*

(3) *For mental health services, the department and the agency may adopt rules that establish:*

(a) *Additional standards for monitoring and licensing accredited programs and facilities that the department and the agency have determined are not specifically and distinctly covered by the accreditation standards and processes. These standards and the associated monitoring must not duplicate the standards and processes already covered by the accrediting bodies.*

(b) *An on-site monitoring process between 24 months and 36 months after accreditation for non-residential facilities to assure that accredited organizations exempt from licensing and monitoring activities under this part continue to comply with critical standards.*

(c) *An on-site monitoring process between 12 months and 24 months after accreditation for residential facilities to assure that accredited organizations exempt from licensing and monitoring activities under this part continue to comply with critical standards.*

(4) *For substance abuse services, the department shall conduct full licensure inspections every three years and shall develop in rule criteria which would justify more frequent inspections.*

(5) *The department and the agency shall be given access to all accreditation reports, corrective action plans, and performance data submitted to the accrediting organizations. When major deficiencies, as defined by the accrediting organization, are identified through the accreditation process, the department and the agency may perform followup monitoring to assure that such deficiencies are corrected and that the corrections are sustained over time. Proof of compliance with fire and health safety standards will be submitted as required by rule.*

(6) *The department or agency, by accepting the survey or inspection of an accrediting organization, does not forfeit its rights to perform inspections at any time, including contract monitoring to ensure that deliverables are provided in accordance with the contract.*

(7) *The department and the agency shall report to the Legislature by January 1, 2003 on the viability of mandating all organizations under contract with the department for the provision of behavioral healthcare services, or licensed by the agency or department to be accredited. The department and the agency shall also report to the Legislature by January 1, 2003 on the viability of privatizing all licensure and monitoring functions through an accrediting organization.*

(8) *The accreditation requirements of this section shall apply to contracted organizations that are already accredited immediately upon becoming law.*

Section 1. Paragraph (c) of subsection (7) of section 20.19, Florida Statutes, is amended to read:

20.19 Department of Children and Family Services.—There is created a Department of Children and Family Services.

(7) PROTOTYPE REGION.—

(c) The department is authorized to contract for children’s services with a lead agency in each county of the prototype area, except that the lead agency contract may cover more than one county when it is determined that such coverage will provide more effective or efficient services. The duties of the lead agency shall include, but not necessarily be limited to:

1. Directing and coordinating the program and children’s services within the scope of its contract.

2. *Providing or* contracting for the provision of core services, including intake and eligibility, assessment, service planning, and case management. ~~However, a lead agency may obtain approval from the department to provide core services, including intake and eligibility, assessment, service planning, and case management, upon a finding by the department that such lead agency is the only appropriate organization within the service district capable of providing such service or services within the department’s quality assurance and performance standards.~~

3. Creating a service provider network capable of delivering the services contained in client service plans, which shall include identifying the necessary services, the necessary volume of services, and possible utilization patterns and negotiating rates and expectations with providers.

4. Managing and monitoring of provider contracts and subcontracts.

5. Developing and implementing an effective bill payment mechanism to ensure all providers are paid in a timely fashion.

6. Providing or arranging for administrative services necessary to support service delivery.

7. Utilizing departmentally approved training and meeting departmentally defined credentials and standards.

8. Providing for performance measurement in accordance with the department’s quality assurance program and providing for quality improvement and performance measurement.

9. Developing and maintaining effective interagency collaboration to optimize service delivery.

10. Ensuring that all federal and state reporting requirements are met.

11. Operating a consumer complaint and grievance process.

12. Ensuring that services are coordinated and not duplicated with other major payors, such as the local schools and Medicaid.

13. Any other duties or responsibilities defined in s. 409.1671 related to community-based care.

Section 2. Present subsection (15) of section 39.402, Florida Statutes, is redesignated as subsection (16), subsection (9) is amended and a new subsection (15) is added to that section, to read:

(9) At any shelter hearing, *the department shall provide to the court a recommendation for scheduled contact between the child and parents, if appropriate. T*he court shall determine visitation rights absent a clear and convincing showing that visitation is not in the best interest of the child. *If visitation is ordered but will not commence within 72 hours of the shelter hearing, the department shall provide justification to the court.*

(10) The shelter hearing order shall contain a written determination as to whether the department has made a reasonable effort to prevent or eliminate the need for removal or continued removal of the child from the home. If the department has not made such an effort, the court shall order the department to provide appropriate and available services to ensure the protection of the child in the home when such services are necessary for the child’s health and safety.

(11) If a child is placed in a shelter pursuant to a court order following a shelter hearing, the court shall require in the shelter hearing

order that the parents of the child, or the guardian of the child's estate, if possessed of assets which under law may be disbursed for the care, support, and maintenance of the child, to pay, to the department or institution having custody of the child, fees as established by the department. When the order affects the guardianship estate, a certified copy of the order shall be delivered to the judge having jurisdiction of the guardianship estate. The shelter order shall also require the parents to provide to the department and any other state agency or party designated by the court, within 28 days after entry of the shelter order, the financial information necessary to accurately calculate child support pursuant to s. 61.30.

(12) In the event the shelter hearing is conducted by a judge other than the juvenile court judge, the juvenile court judge shall hold a shelter review on the status of the child within 2 working days after the shelter hearing.

(13) A child may not be held in a shelter under an order so directing for more than 60 days without an adjudication of dependency. A child may not be held in a shelter for more than 30 days after the entry of an order of adjudication unless an order of disposition has been entered by the court.

(14) The time limitations in this section do not include:

(a) Periods of delay resulting from a continuance granted at the request or with the consent of the child's counsel or the child's guardian ad litem, if one has been appointed by the court, or, if the child is of sufficient capacity to express reasonable consent, at the request or with the consent of the child's attorney or the child's guardian ad litem, if one has been appointed by the court, and the child.

(b) Periods of delay resulting from a continuance granted at the request of the attorney for the department, if the continuance is granted:

1. Because of an unavailability of evidence material to the case when the attorney for the department has exercised due diligence to obtain such evidence and there are substantial grounds to believe that such evidence will be available within 30 days. However, if the department is not prepared to present its case within 30 days, the parent or legal custodian may move for issuance of an order to show cause or the court on its own motion may impose appropriate sanctions, which may include dismissal of the petition.

2. To allow the attorney for the department additional time to prepare the case and additional time is justified because of an exceptional circumstance.

(c) Reasonable periods of delay necessary to accomplish notice of the hearing to the child's parents or legal custodians; however, the petitioner shall continue regular efforts to provide notice to the parents or legal custodians during such periods of delay.

(d) Reasonable periods of delay resulting from a continuance granted at the request of the parent or legal custodian of a subject child.

(15) *The department at the conclusion of the shelter hearing, shall make available to parents or legal custodians seeking voluntary services, any referral information necessary for participation in such identified services. The parents' or legal custodians' participation in the services shall not be considered an admission or other acknowledgement of the allegations in the shelter petition.*

(16)(15) At the conclusion of a shelter hearing, the court shall notify all parties in writing of the next scheduled hearing to review the shelter placement. Such hearing shall be held no later than 30 days after placement of the child in shelter status, in conjunction with the arraignment hearing, and every 15 days thereafter until the child is released from shelter status.

Section 3. Present subsections (5), (6), and (7) of section 39.521, Florida Statutes are redesignated as subsections (6), (7), and (8), respectively, and a new subsection (5) is added to that section, to read:

39.521 Disposition hearings; powers of disposition.—

(5)(a) *In districts 4, 11, and 12 and in the Suncoast Region of the department and, except as provided in s. 39.407, any child 11 years of age or older who has been in licensed family foster care for 6 months or longer and who is then moved more than once must be assessed for placement in licensed residential group care. The assessment procedures shall be conducted by the department or its agent and shall incorporate and address current and historical information from any psychological testing or evaluation that has occurred; current and historical information from the guardian ad litem, if one has been assigned; current and historical information from any current therapist, teacher, or other professional who has knowledge of the child and has worked with the child; information regarding the placement of any siblings of the child and the impact of the child's placement in residential group care on the child's siblings; the circumstances necessitating the moves of the child while in family foster care and the recommendations of the former foster families, if available; the status of the child's case plan and a determination as to the impact of placing the child in residential group care on the goals of the case plan; the age, maturity, and desires of the child concerning placement; the availability of any less restrictive, more family-like setting for the child in which the foster parents have the necessary training and skills for providing a suitable placement for the child; and any other information concerning the availability of suitable residential group care. If such placement is determined to be appropriate as a result of this procedure, the child must be placed in residential group care, if available.*

(b) *The results of the assessment described in paragraph (a) and the actions taken as a result of the assessment must be included in the next judicial review of the child. At each subsequent judicial review, the court must be advised in writing of the status of the child's placement, with special reference regarding the stability of the placement and the permanency planning for the child.*

(c) *Any residential group care facility that receives children under the provisions of this subsection shall establish special permanency teams dedicated to overcoming the special permanency challenges presented by this population of children. Each facility shall report to the department its success in achieving permanency for children placed by the department in its care at intervals that allow the current information to be provided to the court at each judicial review for the child.*

(d) *This subsection does not prohibit the department from assessing and placing children who do not meet the criteria in paragraph (a) in residential group care if such placement is the most appropriate placement for such children.*

(e) *By December 1 of each year beginning in 2001, the department shall report to the Legislature on the placement of children in licensed residential group care during the year, including the criteria used to determine the placement of children, the number of children who were evaluated for placement, the number of children who were placed based upon the evaluation, and the number of children who were not placed. The department shall maintain data specifying the number of children who were referred to licensed residential child care for whom placement was unavailable and the counties in which such placement was unavailable. The department shall include this data in its report to the Legislature due on December 1, so that the Legislature may consider this information in developing the General Appropriations Act.*

(f) *The provisions of this subsection shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.*

Section 4. Subsection (1) of section 409.1671, Florida Statutes, is amended to read:

409.1671 Foster care and related services; privatization.—

(1)(a) It is the intent of the Legislature that the Department of Children and Family Services shall privatize the provision of foster care and related services statewide. It is further the Legislature's intent to encourage communities and other stakeholders in the well-being of children to participate in assuring that children are safe and well-nurtured. However, while recognizing that some local governments are

presently funding portions of certain foster care and related services programs and may choose to expand such funding in the future, the Legislature does not intend by its privatization of foster care and related services that any county, municipality, or special district be required to assist in funding programs that previously have been funded by the state. Nothing in this paragraph prohibits any county, municipality, or special district from future voluntary funding participation in foster care and related services. As used in this section, the term "privatize" means to contract with competent, community-based agencies. The department shall submit a plan to accomplish privatization statewide, through a competitive process, phased in over a 3-year period beginning January 1, 2000. This plan must be developed with local community participation, including, but not limited to, input from community-based providers that are currently under contract with the department to furnish community-based foster care and related services, and must include a methodology for determining and transferring all available funds, including federal funds that the provider is eligible for and agrees to earn and that portion of general revenue funds which is currently associated with the services that are being furnished under contract. The methodology must provide for the transfer of funds appropriated and budgeted for all services and programs that have been incorporated into the project, including all management, capital (including current furniture and equipment), and administrative funds to accomplish the transfer of these programs. This methodology must address expected workload and at least the 3 previous years' experience in expenses and workload. With respect to any district or portion of a district in which privatization cannot be accomplished within the 3-year timeframe, the department must clearly state in its plan the reasons the timeframe cannot be met and the efforts that should be made to remediate the obstacles, which may include alternatives to total privatization, such as public-private partnerships. As used in this section, the term "related services" includes, but is not limited to, means family preservation, independent living, emergency shelter, residential group care, foster care, therapeutic foster care, intensive residential treatment, foster care supervision, case management, postplacement supervision, permanent foster care, and family reunification. Unless otherwise provided for, beginning in fiscal year 1999-2000, either the state attorney or the Office of the Attorney General shall provide child welfare legal services, pursuant to chapter 39 and other relevant provisions, in Sarasota, Pinellas, Pasco, Broward, and Manatee Counties. Such legal services shall commence and be effective, as soon as determined reasonably feasible by the respective state attorney or the Office of the Attorney General, after the privatization of associated programs and child protective investigations has occurred. When a private nonprofit agency has received case management responsibilities, transferred from the state under this section, for a child who is sheltered or found to be dependent and who is assigned to the care of the privatization project, the agency may act as the child's guardian for the purpose of registering the child in school if a parent or guardian of the child is unavailable and his or her whereabouts cannot reasonably be ascertained. The private nonprofit agency may also seek emergency medical attention for such a child, but only if a parent or guardian of the child is unavailable, his or her whereabouts cannot reasonably be ascertained, and a court order for such emergency medical services cannot be obtained because of the severity of the emergency or because it is after normal working hours. However, the provider may not consent to sterilization, abortion, or termination of life support. If a child's parents' rights have been terminated, the nonprofit agency shall act as guardian of the child in all circumstances.

(b) As used in this section, the term "eligible lead community-based provider" means a single agency with which the department shall contract for the provision of child protective services in a community that is no smaller than a county. The secretary of the department may authorize more than one eligible lead community-based provider within a single county when to do so will result in more effective delivery of foster care and related services. To compete for a privatization project, such agency must have:

1. The ability to coordinate, integrate, and manage all child protective services in the designated community in cooperation with child protective investigations.

2. The ability to ensure continuity of care from entry to exit for all children referred from the protective investigation and court systems.

3. The ability to provide directly, or contract for through a local network of providers, all necessary child protective services.

4. The willingness to accept accountability for meeting the outcomes and performance standards related to child protective services established by the Legislature and the Federal Government.

5. The capability and the willingness to serve all children referred to it from the protective investigation and court systems, regardless of the level of funding allocated to the community by the state, provided all related funding is transferred.

6. The willingness to ensure that each individual who provides child protective services completes the training required of child protective service workers by the Department of Children and Family Services.

7. *The ability to maintain eligibility to receive all federal child welfare funds, including Title IV-E and IV-A funds, currently being used by the Department of Children and Family Services.*

(c)1. *If attempts to competitively procure services through an eligible lead community-based provider as defined in paragraph (b) do not produce a capable and willing agency, the department shall develop a plan in collaboration with the local community alliance. The plan must detail how the community will continue to implement privatization through competitively procuring either the specific components of foster care and related services or comprehensive services for defined eligible populations of children and families from qualified licensed agencies as part of its efforts to develop the local capacity for a community-based system of coordinated care. The plan must ensure local control over the management and administration of the service provision in accordance with the intent of this section and may include recognized best business practices, including some form of public or private partnerships. In the absence of a community alliance, the plan must be submitted to the President of the Senate and the Speaker of the House of Representatives for their comments.*

2.1- The Legislature finds that the state has traditionally provided foster care services to children who have been the responsibility of the state. As such, foster children have not had the right to recover for injuries beyond the limitations specified in s. 768.28. The Legislature has determined that foster care and related services need to be privatized pursuant to this section and that the provision of such services is of paramount importance to the state. The purpose for such privatization is to increase the level of safety, security, and stability of children who are or become the responsibility of the state. One of the components necessary to secure a safe and stable environment for such children is that private providers maintain liability insurance. As such, insurance needs to be available and remain available to nongovernmental foster care and related services providers without the resources of such providers being significantly reduced by the cost of maintaining such insurance.

3.2- The Legislature further finds that, by requiring the following minimum levels of insurance, children in privatized foster care and related services will gain increased protection and rights of recovery in the event of injury than provided for in s. 768.28.

(d) Other than an entity to which s. 768.28 applies, any eligible lead community-based provider, as defined in paragraph (b), or its employees or officers, except as otherwise provided in paragraph (e), must, as a part of its contract, obtain a minimum of \$1 million per claim/\$3 million per incident in general liability insurance coverage. In any tort action brought against such an eligible lead community-based provider, net economic damages shall be limited to \$1 million per claim, including, but not limited to, past and future medical expenses, wage loss, and loss of earning capacity, offset by any collateral source payment paid or payable. In any tort action brought against such an eligible lead community-based provider, noneconomic damages shall be limited to \$200,000 per claim. A claims bill may be brought on behalf of a claimant pursuant to s. 768.28 for any amount exceeding the limits specified in this paragraph. Any offset of collateral source payments made as of the

date of the settlement or judgment shall be in accordance with s. 768.76. The lead community-based provider shall not be liable in tort for the acts or omissions of its subcontractors or the officers, agents, or employees of its subcontractors.

(e) The liability of an eligible lead community-based provider described in this section shall be exclusive and in place of all other liability of such provider. The same immunities from liability enjoyed by such providers shall extend as well to each employee of the provider when such employee is acting in furtherance of the provider's business. Such immunities shall not be applicable to a provider or an employee who acts in a culpably negligent manner or with willful and wanton disregard or unprovoked physical aggression when such acts result in injury or death or such acts proximately cause such injury or death; nor shall such immunities be applicable to employees of the same provider when each is operating in the furtherance of the provider's business, but they are assigned primarily to unrelated works within private or public employment. The same immunity provisions enjoyed by a provider shall also apply to any sole proprietor, partner, corporate officer or director, supervisor, or other person who in the course and scope of his or her duties acts in a managerial or policymaking capacity and the conduct that caused the alleged injury arose within the course and scope of those managerial or policymaking duties. Culpable negligence is defined as reckless indifference or grossly careless disregard of human life.

(f) Any subcontractor of an eligible lead community-based provider, as defined in paragraph (b), which is a direct provider of foster care and related services to children and families, and its employees or officers, except as otherwise provided in paragraph (e), must, as a part of its contract, obtain a minimum of \$1 million per claim \$3 million per incident in general liability insurance coverage. In any tort action brought against such subcontractor, net economic damages shall be limited to \$1 million per claim, including, but not limited to, past and future medical expenses, wage loss, and loss of earning capacity, offset by any collateral source payment paid or payable. In any tort action brought against such subcontractor, noneconomic damages shall be limited to \$200,000 per claim. A claims bill may be brought on behalf of a claimant pursuant to s. 768.28 for any amount exceeding the limits specified in this paragraph. Any offset of collateral source payments made as of the date of the settlement or judgment shall be in accordance with s. 768.76.

(g) The liability of a subcontractor of an eligible lead community-based provider that is a direct provider of foster care and related services as described in this section shall be exclusive and in place of all other liability of such provider. The same immunities from liability enjoyed by such subcontractor provider shall extend as well to each employee of the subcontractor when such employee is acting in furtherance of the subcontractor's business. Such immunities shall not be applicable to a subcontractor or an employee who acts in a culpably negligent manner or with willful and wanton disregard or unprovoked physical aggression when such acts result in injury or death or such acts proximately cause such injury or death; nor shall such immunities be applicable to employees of the same subcontractor when each is operating in the furtherance of the subcontractor's business, but they are assigned primarily to unrelated works within private or public employment. The same immunity provisions enjoyed by a subcontractor shall also apply to any sole proprietor, partner, corporate officer or director, supervisor, or other person who in the course and scope of his or her duties acts in a managerial or policymaking capacity and the conduct that caused the alleged injury arose within the course and scope of those managerial or policymaking duties. Culpable negligence is defined as reckless indifference or grossly careless disregard of human life.

(h) The Legislature is cognizant of the increasing costs of goods and services each year and recognizes that fixing a set amount of compensation actually has the effect of a reduction in compensation each year. Accordingly, the conditional limitations on damages in this section shall be increased at the rate of 5 percent each year, prorated from the effective date of this paragraph to the date at which damages subject to such limitations are awarded by final judgment or settlement.

Section 5. Section 409.1676, Florida Statutes, is created to read:

*409.1676 Comprehensive residential services to children who have extraordinary needs.—*

*(1) It is the intent of the Legislature to provide comprehensive residential services, including residential care, case management, and other services, to children in the child protection system who have extraordinary needs, such as serious behavioral problems or having been determined to be without the options of either reunification with family or adoption. These services are to be provided in a residential group care setting by a not-for-profit corporation or a local government entity under a contract with the Department of Children and Family Services or by a lead agency as described in s. 409.1671. These contracts should be designed to provide an identified number of children with access to a full array of services for a fixed price.*

*(2) As used in this section, the term:*

*(a) "Residential group care" means a living environment for children who have been adjudicated dependent and are expected to be in foster care for at least 6 months with 24-hour-awake staff or live-in group home parents or staff. Beginning July 1, 2001, all facilities must be appropriately licensed in this state, and they must be accredited by July 1, 2005.*

*(b) "Serious behavioral problems" means behaviors of children who have been assessed by a licensed master's-level human-services professional to need at a minimum intensive services but who do not meet the criteria of s. 394.492(6) or s. 394.492(7). A child with an emotional disturbance as defined in s. 394.492(5) may be served in residential group care unless a determination is made by a mental health professional that such a setting is inappropriate.*

*(3) The department, in accordance with a specific appropriation for this program, shall contract with a not-for-profit corporation, a local government entity, or the lead agency that has been established in accordance with s. 409.1671 for the performance of residential group care services described in this section in, at a minimum, districts 4, 11, 12, and the Suncoast Region of the Department of Children and Family Services and with a not-for-profit entity serving children from multiple districts. A lead agency that is currently providing residential care may provide this service directly with the approval of the local community alliance. The department or a lead agency may contract for more than one site in a county if that is determined to be the most effective way to achieve the goals set forth in this section.*

*(4) The lead agency, the contracted not-for-profit corporation, or the local government entity is responsible for a comprehensive assessment, residential care, transportation, behavioral health services, recreational activities, clothing, supplies and miscellaneous expenses associated with caring for these children, for necessary arrangement for or provision of educational services, and for assuring necessary and appropriate health and dental care.*

*(5) The department may transfer all casework responsibilities for children served under this program to the entity that provides this service, including case management and development and implementation of a case plan in accordance with current standards for child protection services. When the department establishes this program in a community that has a lead agency as described in s. 409.1671, the casework responsibilities must be transferred to the lead agency.*

*(6) This section does not prohibit any provider of these services from appropriately billing Medicaid for services rendered, from contracting with a local school district for educational services, or from earning federal or local funding for services provided, as long as two or more funding sources do not pay for the same specific service that has been provided to a child.*

*(7) The lead agency, not-for-profit corporation, or local government entity has the legal authority for children served under this program, as provided in chapter 39 or this chapter, as appropriate, to enroll the child in school, to sign for a driver's license for the child, to co-sign loans and insurance for the child, to sign for medical treatment, and to authorize other such activities.*

(8) *The department shall provide technical assistance as requested and contract-management services.*

(9) *The provisions of this section shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.*

Section 6. Section 409.1677, Florida Statutes, is created to read:

409.1677 *Model comprehensive residential services programs.—*

(1) *As used in this section, the term:*

(a) *“Residential group care” means a living environment for children who have been adjudicated dependent and are expected to be in foster care for a minimum of 6 months with 24-hour-awake staff or live-in group home parents or staff. Beginning July 1, 2001, all facilities must be appropriately licensed in this state, and they must be accredited by July 1, 2005.*

(b) *“Serious behavioral problems” means behaviors of children who have been assessed by a licensed master’s-level human services professional to need at a minimum intensive services but who do not meet the criteria of s. 394.492(6) or s. 394.492(7). A child with an emotional disturbance as defined in s. 394.492(5) may be served in residential group care unless a determination is made by a mental health professional that such a setting is inappropriate.*

(2) *The department shall establish a model comprehensive residential services program in Dade and Manatee Counties through a contract with the designated lead agency established in accordance with s. 409.1671 or with a private entity capable of providing residential group care and home-based care and experienced in the delivery of a range of services to foster children, if no lead agency exists. These model programs are to serve that portion of eligible children within each county which is specified in the contract, based on funds appropriated, to include a full array of services for a fixed price. The private entity or lead agency is responsible for all programmatic functions necessary to carry out the intent of this section.*

(3) *Each model must include:*

(a) *A focus on serving the full range of children in foster care, including those who have specialized needs, such as children who are unlikely to be reunited with their families or placed in adoptive homes; sibling groups; children who have serious behavioral problems; and children who are victims of sexual abuse.*

(b) *For each child who is in care, the provision of or arrangements for a comprehensive assessment; residential care; transportation; behavioral health services; recreational activities; clothing, supplies, and miscellaneous expenses associated with caring for these children; educational services; necessary and appropriate health and dental care; legal services; and aftercare services.*

(c) *A commitment and ability to find and use innovative approaches to address the problems in the traditional foster care system, such as high caregiver turnover, disrupted and multiple placements, runaway behavior, and abusive or nontherapeutic care.*

(d) *The provision of a full range of residential services tailored to the individual needs of each child in care, including group homes for initial assessment and for stabilization; professional and traditional foster homes; residential group care provided in a setting that is homelike and provides care in residences housing no more than 12 children and staffed with full-time, appropriately trained house parents; and independent living apartments. The programs are designed for children who must enter the foster care system, but the use of placement with relatives as part of a child’s care is encouraged.*

(e) *The provision of the full range of administrative services necessary to operate the program.*

(f) *Specific eligibility criteria established in the contract, including a “no-reject-no-eject” commitment with the described eligible children, unless the court determines that the placement is not in a child’s best interest.*

(g) *An ability, through its trained, multidisciplinary staff, to facilitate the achievement of the permanency goals of the children who are in care.*

(h) *The design and utilization of a retired-volunteer mentor program that would make use of the skills of retired individuals in helping to meet the needs of both the children in care and their caregivers.*

(i) *The willingness and ability to assume financial risk for the care of children referred to the program under the contract.*

(j) *The willingness and ability to serve as a research and teaching laboratory for departmental and community-based care programs throughout the state in an effort to improve the quality of foster care.*

(4) *This section does not prohibit any provider of these services from appropriately billing Medicaid for services rendered, from contracting with a local school district for educational services, or from earning federal or local funding for services provided, as long as two or more funding sources do not pay for the same specific service that has been provided to a child.*

(5) *The lead agency, not-for-profit corporation, or local government entity has the legal authority for children served under this program, as provided in chapter 39 or this chapter, as appropriate, to enroll the child in school, to sign for a driver’s license for the child, to co-sign loans and insurance for the child, to sign for medical treatment, and to authorize other such activities.*

(6) *The department shall provide technical assistance as requested and contract-management services.*

(7) *The provisions of this section shall be implemented to the extent of available appropriations contained in the annual General Appropriations Act for such purpose.*

Section 7. Section 409.1679, Florida Statutes, is created to read:

409.1679 *Additional requirements, effective date, reimbursement methodology, and evaluation.—*

(1) *The programs established under ss. 409.1676 and 409.1677 are to be operational within 6 months after those sections take effect, and, beginning 1 month after this section takes effect and continuing until full operation of those programs is realized, the department shall provide to the Legislature monthly written status reports on the progress toward implementing those programs.*

(2) *The programs established under ss. 409.1676 and 409.1677 must be included as part of the annual evaluation currently required under s. 409.1671. With respect to these specific programs and models, the annual evaluation must be conducted by an independent third party and must include, by specific site, the level of attainment of the targeted outcomes listed in subsection (3). The evaluation of the model programs must include, at a minimum, an assessment of their cost-effectiveness, of their ability to successfully implement the assigned program elements, and of their attainment of performance standards that include legislatively established standards for similar programs and other standards determined jointly by the department and the providers and stated in a contract.*

(3) *Each program established under ss. 409.1676 and 409.1677 must meet the following expectations, which must be included in its contracts with the department or lead agency:*

(a) *No more than 10 percent of the children served may move from one living environment to another, unless the child is returned to family members or is moved, in accordance with the treatment plan, to a less-restrictive setting. Each child must have a comprehensive transitional plan that identifies the child’s living arrangement upon leaving the program and specific steps and services that are being provided to prepare for that arrangement. Specific expectations as to the time period necessary for the achievement of these permanency goals must be included in the contract.*

(b) *Each child must receive a full academic year of appropriate educational instruction. No more than 10 percent of the children may be*

in more than one academic setting in an academic year, unless the child is being moved, in accordance with an educational plan, to a less-restrictive setting. Each child must demonstrate academic progress and must be performing at grade level or at a level commensurate with a valid academic assessment.

(c) Siblings must be kept together in the same living environment 100 percent of the time, unless that is determined by the provider not to be in the children's best interest. When siblings are separated in placement, the decision must be reviewed and approved by the court within 30 days.

(d) The program must experience a caregiver turnover rate and an incidence of child runaway episodes which are at least 50 percent below the rates experienced in the rest of the state.

(e) In addition to providing a comprehensive assessment, the program must provide, 100 percent of the time, any or all of the following services that are indicated through the assessment: residential care; transportation; behavioral health services; recreational activities; clothing, supplies, and miscellaneous expenses associated with caring for these children; necessary arrangements for or provision of educational services; and necessary and appropriate health and dental care.

(f) The children who are served in this program must be satisfied with the services and living environment.

(g) The caregivers must be satisfied with the program.

(4) Notwithstanding the provisions of s. 409.141, the Department of Children and Family Services shall fairly and reasonably reimburse the programs established under ss. 409.1676 and 409.1677 based on a prospective per-diem rate, which must be specified annually in the General Appropriations Act. Funding for these programs shall be made available from resources appropriated and identified in the General Appropriations Act.

Section 8. Present paragraph (j) of subsection (5) of section 409.175, Florida Statutes, is redesignated as paragraph (k), paragraphs (h) and (i) of that subsection are amended, and a new paragraph (j) is added to that subsection, to read:

409.175 Licensure of family foster homes, residential child-caring agencies, and child-placing agencies.—

(5)

(h) Upon determination that the applicant meets the state minimum licensing requirements, the department shall issue a license without charge to a specific person or agency at a specific location. A license may be issued if all the screening materials have been timely submitted; however, a license may not be issued or renewed if any person at the home or agency has failed the required screening. The license is nontransferable. A copy of the license shall be displayed in a conspicuous place. *Except as provided in paragraph (j)*, the license is valid for 1 year from the date of issuance, unless the license is suspended or revoked by the department or is voluntarily surrendered by the licensee. The license is the property of the department.

(i) A license issued for the operation of a family foster home or agency, unless sooner suspended, revoked, or voluntarily returned, will expire automatically 1 year from the date of issuance *except as provided in paragraph (j)*. Ninety days prior to the expiration date, an application for renewal shall be submitted to the department by a licensee who wishes to have the license renewed. A license shall be renewed upon the filing of an application on forms furnished by the department if the applicant has first met the requirements established under this section and the rules promulgated hereunder.

(j) The department may issue a license that is valid for longer than 1 year but no longer than 3 years to a family foster home that:

1. Has maintained a license with the department as a family foster home for at least the 3 previous consecutive years;
2. Remains in good standing with the department; and

3. Has not been the subject of a report of child abuse or neglect with any findings of maltreatment.

A family foster home that has been issued a license valid for longer than 1 year must be monitored and visited as frequently as one that has been issued a 1-year license. The department reserves the right to reduce a licensure period to 1 year at any time.

(k)⊕ The department may not license summer day camps or summer 24-hour camps. However, the department shall have access to the personnel records of such facilities to ensure compliance with the screening requirements.

Section 9. Paragraph (a) of subsection (2) of section 409.176, Florida Statutes, amended to read:

409.176 Registration of residential child-caring agencies and family foster homes.—

(1)(a) A residential child-caring agency or family foster home may not receive a child for continuing full-time care or custody, and a residential child-caring agency may not place a child for full-time continuing care or custody in a family foster home, unless it has first registered with an association that is certified by a Florida statewide child care organization which was in existence on January 1, 1984, and which publishes, and requires compliance with, its standards and files copies thereof with the department as provided in paragraph (5)(b). For purposes of this section, such an association shall be referred to as the "qualified association."

(b) For the purposes of this section, the terms "child," "family foster home," "screening," and "residential child-caring agency" are defined as provided in s. 409.175(2), and the terms "personnel," "operator," and "owner" as they pertain to "residential child-caring agency" are defined as provided in s. 409.175.

(c) As used in this section, the term "facility" means a residential child-caring agency or a family foster home.

(2)(a) Registration shall consist of annually filing with the qualified association, on forms provided by the qualified association, the name and address of the facility; the capacity of, and the number of children being cared for in, the facility; the names and addresses of the officers and the board of directors or other governing body of the organization, if applicable; the name of the officer or person in charge of the facility; and proof that the facility is in compliance with the minimum fire, health, sanitary, and safety standards required by applicable state law or local ordinance, and the uniform fire safety standards required by chapter 633, and in compliance with the requirements for screening of personnel in s. 409.175 and chapter 435. A separate registration form shall be filed for each such facility.

(b) As part of the registration application, each child-caring agency and each family foster home shall annually provide to the qualified association the names and ages of children being cared for in the facility; the names of children who have been received from out of state or who have been sent out of state during the past calendar year; the names of children who have left the facility during the past year, the lengths of their stays, and the nature of the placements; the names of all personnel; and proof that the facility is in compliance with published minimum standards that are filed with the department under the provisions of paragraph (5)(b). The agency shall also attest to the good moral character of the personnel of the facility by providing proof of compliance with the screening requirements of s. 409.175 and chapter 435 and provide the name of any member of the staff having a prior felony conviction.

(c) Upon verification that all requirements for registration have been met, the qualified association shall issue without charge a certificate of registration valid for 1 year.

Section 10. Section 435.045, Florida Statutes, is amended to read:

Approval shall not be granted:~~

1. In any case in which a record check reveals a felony conviction for child abuse, abandonment, or neglect; for spousal abuse; for a crime against children, including child pornography, or for a crime involving violence, including rape, sexual assault, or homicide but not including other physical assault or battery, if the department finds that a court of competent jurisdiction has determined that the felony was committed at any time; and

2. In any case in which a record check reveals a felony conviction for physical assault, battery, or a drug-related offense, if the department finds that a court of competent jurisdiction has determined that the felony was committed within the past 5 years.

(b) Notwithstanding paragraph (a), the department may place a child in a foster home which otherwise meets licensing requirements if state and local criminal records checks do not disqualify the applicant and the department has submitted fingerprint information to the Florida Department of Law Enforcement for forwarding to the Federal Bureau of Investigation and is awaiting the results of the federal criminal records check.

(c) Prospective and approved foster parents must disclose to the department any prior or pending local, state, or federal criminal proceedings in which they are or have been involved.

(2) For purposes of this section, and ss. 39.401(3) and 39.521(1)(d), the department and its authorized agents or contract providers are hereby designated a criminal justice agency for the purposes of accessing criminal justice information, including National Crime Information Center information, to be used for enforcing Florida's laws concerning the crimes of child abuse, abandonment, and neglect. This information shall be used solely for purposes supporting the detection, apprehension, prosecution, pretrial release, posttrial release, or rehabilitation of criminal offenders or persons accused of the crimes of child abuse, abandonment, or neglect and shall not be further disseminated or used for any other purposes.

(3) Subsection (2) shall not apply if the Governor has notified the Secretary of the United States Department of Health and Human Services in writing that the state has elected to make subsection (2) inapplicable to the state, or if the Legislature, by law, has elected to make subsection (2) inapplicable to the state.

**Amendment 1 (with title amendment)**—

Remove from the bill: Everything after the enacting clause and insert in lieu thereof:

Section 1. Section 394.499, Florida Statutes, is created to read:

*394.499 Integrated children's crisis stabilization unit/juvenile addictions receiving facility services.—*

*(1) Beginning July 1, 2001, the Department of Children and Family Services, in consultation with the Agency for Health Care Administration, is authorized to establish children's behavioral crisis unit demonstration models in Collier, Lee, and Sarasota Counties. By December 31, 2003, the department shall submit to the President of the Senate, the Speaker of the House of Representatives, and the chairs of the Senate and House committees that oversee departmental activities a report that evaluates the number of clients served, quality of services, performance outcomes, and feasibility of continuing or expanding the demonstration models. Beginning July 1, 2004, subject to approval by the Legislature, the department, in cooperation with the agency, may expand the demonstration models to other areas in the state. The children's behavioral crisis unit demonstration models will integrate children's mental health crisis stabilization units with substance abuse juvenile addictions receiving facility services, to provide emergency mental health and substance abuse services that are integrated within facilities licensed and designated by the agency for children under 18 years of age who meet criteria for admission or examination under this section. The services shall be designated as "integrated children's crisis stabilization unit/juvenile addictions receiving facility services," shall be licensed by the agency as children's crisis stabilization units, and shall meet all licensure requirements for crisis stabilization units. The department, in cooperation with the agency, shall develop standards that address eligibility criteria, clinical procedures, staffing requirements, operational, administrative, and financing requirements, and investigation of complaints for such integrated facility services. Standards that are implemented specific to substance abuse services shall meet or exceed existing standards for addictions receiving facilities.*

*(2) Children eligible to receive integrated children's crisis stabilization unit/juvenile addictions receiving facility services include:*

*(a) A person under 18 years of age for whom voluntary application is made by his or her guardian, if such person is found to show evidence of mental illness and to be suitable for treatment pursuant to s. 394.4625. A person under 18 years of age may be admitted for integrated facility services only after a hearing to verify that the consent to admission is voluntary.*

*(b) A person under 18 years of age who may be taken to a receiving facility for involuntary examination, if there is reason to believe that he or she is mentally ill and because of his or her mental illness, pursuant to s. 394.463:*

*1. Has refused voluntary examination after conscientious explanation and disclosure of the purpose of the examination; or*

*2. Is unable to determine for himself or herself whether examination is necessary; and*

*a. Without care or treatment is likely to suffer from neglect or refuse to care for himself or herself; such neglect or refusal poses a real and present threat of substantial harm to his or her well-being; and it is not apparent that such harm may be avoided through the help of willing family members or friends or the provision of other services; or*

*b. There is a substantial likelihood that without care or treatment he or she will cause serious bodily harm to himself or herself or others in the near future, as evidenced by recent behavior.*

(c) A person under 18 years of age who wishes to enter treatment for substance abuse and applies to a service provider for voluntary admission, pursuant to s. 397.601.

(d) A person under 18 years of age who meets the criteria for involuntary admission because there is good faith reason to believe the person is substance abuse impaired pursuant to s. 397.675 and, because of such impairment:

1. Has lost the power of self-control with respect to substance use; and

2.a. Has inflicted, or threatened or attempted to inflict, or unless admitted is likely to inflict, physical harm on himself or herself or another; or

b. Is in need of substance abuse services and, by reason of substance abuse impairment, his or her judgment has been so impaired that the person is incapable of appreciating his or her need for such services and of making a rational decision in regard thereto; however, mere refusal to receive such services does not constitute evidence of lack of judgment with respect to his or her need for such services.

(e) A person under 18 years of age who meets the criteria for examination or admission under paragraph (b) or paragraph (d) and has a coexisting mental health and substance abuse disorder.

(3) The department shall contract for an independent evaluation of the children's behavioral crisis unit demonstration models to identify the most effective ways to provide integrated crisis stabilization unit/juvenile addiction receiving facility services to children. The evaluation shall be reported to the Legislature by December 31, 2003.

(4) The department, in cooperation with the agency, is authorized to adopt rules regarding standards and procedures for integrated children's crisis stabilization unit/juvenile addictions receiving facility services.

Section 2. Nothing in s. 394.499, Florida Statutes, shall be construed to require an existing crisis stabilization unit or juvenile addictions receiving facility to convert to a children's behavioral crisis unit.

Section 3. Subsections (13) and (14) are added to section 394.66, Florida Statutes, to read:

394.66 Legislative intent with respect to substance abuse and mental health services.—It is the intent of the Legislature to:

(13) Promote best practices and the highest quality of care in contracted alcohol, drug abuse, and mental health services through achievement of national accreditation.

(14) Ensure that the state agencies licensing and monitoring contracted providers perform in the most cost-efficient and effective manner with limited duplication and disruption to organizations providing services.

Section 4. Section 394.741, Florida Statutes, is created to read:

394.741 Accreditation requirements for providers of behavioral health care services.—

(1) As used in this section, the term "behavioral health care services" means mental health and substance abuse treatment services.

(2) Notwithstanding any provision of law to the contrary, accreditation shall be accepted by the agency and department in lieu of the agency's and department's facility licensure on-site review requirements and shall be accepted as a substitute for the department's administrative and program monitoring requirements, except as required by subsections (3) and (4):

(a) Any organization from which the department purchases behavioral health care services that is accredited by the Joint Commission on Accreditation of Healthcare Organizations or the Council on Accreditation for Children and Family Services, or have those services that are being purchased by the department accredited by CARF—the Rehabilitation Accreditation Commission.

(b) Any mental health facility licensed by the agency or any substance abuse component licensed by the department that is accredited by the Joint Commission on Accreditation of Healthcare Organizations, CARF—the Rehabilitation Accreditation Commission, or the Council on Accreditation of Children and Family Services.

(c) Any network of providers from which the department or the agency purchase behavioral health care services accredited by the Joint Commission on Accreditation of Healthcare Organizations, CARF—the Rehabilitation Accreditation Commission, the Council on Accreditation of Children and Family Services, or the National Committee for Quality Assurance. A provider organization, which is part of an accredited network, is afforded the same rights under this part.

(3) For mental health services, the department and the agency may adopt rules that establish:

(a) Additional standards for monitoring and licensing accredited programs and facilities that the department and the agency have determined are not specifically and distinctly covered by the accreditation standards and processes. These standards and the associated monitoring must not duplicate the standards and processes already covered by the accrediting bodies.

(b) An on-site monitoring process between 24 months and 36 months after accreditation for nonresidential facilities to assure that accredited organizations exempt from licensing and monitoring activities under this part continue to comply with critical standards.

(c) An on-site monitoring process between 12 months and 24 months after accreditation for residential facilities to assure that accredited organizations exempt from licensing and monitoring activities under this part continue to comply with critical standards.

(4) For substance abuse services, the department shall conduct full licensure inspections every 3 years and shall develop in rule criteria which would justify more frequent inspections.

(5) The department and the agency shall be given access to all accreditation reports, corrective action plans, and performance data submitted to the accrediting organizations. When major deficiencies, as defined by the accrediting organization, are identified through the accreditation process, the department and the agency may perform followup monitoring to assure that such deficiencies are corrected and that the corrections are sustained over time. Proof of compliance with fire and health safety standards will be submitted as required by rule.

(6) The department or agency, by accepting the survey or inspection of an accrediting organization, does not forfeit its rights to perform inspections at any time, including contract monitoring to ensure that deliverables are provided in accordance with the contract.

(7) The department and the agency shall report to the Legislature by January 1, 2003, on the viability of mandating all organizations under contract with the department for the provision of behavioral health care services, or licensed by the agency or department to be accredited. The department and the agency shall also report to the Legislature by January 1, 2003, on the viability of privatizing all licensure and monitoring functions through an accrediting organization.

(8) The accreditation requirements of this section shall apply to contracted organizations that are already accredited immediately upon becoming law.

Section 5. Subsection (5) of section 394.90, Florida Statutes, is amended to read:

394.90 Inspection; right of entry; records.—

(5)(a) The agency shall ~~may~~ accept, in lieu of its own inspections for licensure, the survey or inspection of an accrediting organization, if the provider is accredited according to the provisions of s. 394.741 and the agency receives the report of the accrediting organization. ~~The department, in consultation with the agency, shall develop, and adopt by rule, specific criteria for assuring that the accrediting organization has specific standards and experience related to the program area being~~

~~licensed, specific criteria for accepting the standards and survey methodologies of an accrediting organization, delineations of the obligations of accrediting organizations to assure adherence to those standards, criteria for receiving, accepting and maintaining the confidentiality of the survey and corrective action reports, and allowance for the agency's participation in surveys.~~

~~(b) The agency shall conduct compliance investigations and sample validation inspections to evaluate the inspection process of accrediting organizations to ensure minimum standards are maintained as provided in Florida statute and rule. The agency may conduct a lifesafety inspection in calendar years in which an accrediting organization survey is not conducted and shall conduct a full state inspection, including a lifesafety inspection, if an accrediting organization survey has not been conducted within the previous 36 months. The agency, by accepting the survey or inspection of an accrediting organization, does not forfeit its right to perform inspections.~~

Section 6. Subsection (3) of section 397.403, Florida Statutes, is amended to read:

397.403 License application.—

(3) The department shall accept proof of accreditation by *CARF*--the *Rehabilitation Accreditation Commission on Accreditation of Rehabilitation Facilities (CARF)* or the Joint Commission on Accreditation of Health Care Organizations (JCAHCO), or through any other nationally recognized certification process that is acceptable to the department and meets the minimum licensure requirements under this chapter, in lieu of requiring the applicant to submit the information required by paragraphs (1)(a)-(c).

Section 7. Subsection (2) of section 397.411, Florida Statutes, is amended to read:

397.411 Inspection; right of entry; records.—

(2)(a) The department ~~shall may~~ accept, in lieu of its own inspections for licensure, the survey or inspection of an accrediting organization, if the provider is accredited *according to the provisions of s. 394.741* and the department receives the report of the accrediting organization. ~~The department shall develop, and adopt by rule, specific criteria for assuring that the accrediting organization has specific standards and experience related to the program area being licensed; specific criteria for accepting the standards and survey methodologies of an accrediting organization; delineations of the obligations of accrediting organizations to assure adherence to those standards; criteria for receiving, accepting, and maintaining the confidentiality of the survey and corrective action reports; and allowance for the department's participation in surveys.~~

~~(b) The department shall conduct compliance investigations and sample validation inspections to evaluate the inspection process of accrediting organizations to ensure minimum standards are maintained as provided in Florida statute and rule. The department may conduct a fire, safety, and health inspection in calendar years in which an accrediting organization survey is not conducted and shall conduct a full state inspection, including a lifesafety inspection, if an accrediting organization survey has not been conducted within the previous 36 months. The department, by accepting the survey or inspection of an accrediting organization, does not forfeit its right to perform inspections.~~

Section 8. Paragraph (a) of subsection (4) of section 409.1671, Florida Statutes, is amended to read:

409.1671 Foster care and related services; privatization.—

(4)(a) The department shall establish a quality assurance program for privatized services. The quality assurance program shall be based on standards established by a national accrediting organization such as the Council on Accreditation of Services for Families and Children, Inc. (COA) or *CARF--the Rehabilitation Accreditation Commission the Council on Accreditation of Rehabilitation Facilities (CARF)*. The

department may develop a request for proposal for such oversight. This program must be developed and administered at a statewide level. The Legislature intends that the department be permitted to have limited flexibility to use funds for improving quality assurance. To this end, effective January 1, 2000, the department may transfer up to 0.125 percent of the total funds from categories used to pay for these contractually provided services, but the total amount of such transferred funds may not exceed \$300,000 in any fiscal year. When necessary, the department may establish, in accordance with s. 216.177, additional positions that will be exclusively devoted to these functions. Any positions required under this paragraph may be established, notwithstanding ss. 216.262(1)(a) and 216.351. The department, in consultation with the community-based agencies that are undertaking the privatized projects, shall establish minimum thresholds for each component of service, consistent with standards established by the Legislature. Each program operated under contract with a community-based agency must be evaluated annually by the department. The department shall submit an annual report regarding quality performance, outcome measure attainment, and cost efficiency to the President of the Senate, the Speaker of the House of Representatives, the minority leader of each house of the Legislature, and the Governor no later than January 31 of each year for each project in operation during the preceding fiscal year.

Section 9. *Behavioral Health Service Delivery Strategies.*—

(1) *LEGISLATIVE FINDINGS AND INTENT.*—*The Legislature finds that a management structure that places the responsibility for mental health and substance abuse treatment services within a single entity and that contains a flexible funding arrangement will allow for customized services to meet individual client needs and will provide incentives for provider agencies to serve persons in the target population who have the most complex treatment and support needs. The Legislature recognizes that in order for the state's publicly funded mental health and substance abuse treatment systems to evolve into a single well-integrated behavioral health system, a transition period is needed and demonstration sites must be established where new ideas and technologies can be tested and critically reviewed.*

(2) *DEFINITIONS.*—*As used in this section, the term:*

(a) *"Behavioral health services" means mental health services and substance abuse treatment services that are provided with state and federal funds.*

(b) *"Managing entity" means an entity that manages the delivery of behavioral health services.*

(3) *SERVICE DELIVERY STRATEGIES.*—*The Department of Children and Family Services and the Agency for Health Care Administration shall develop service delivery strategies that will improve the coordination, integration, and management of the delivery of mental health and substance abuse treatment services to persons with emotional, mental, or addictive disorders. It is the intent of the Legislature that a well-managed service delivery system will increase access for those in need of care, improve the coordination and continuity of care for vulnerable and high-risk populations, redirect service dollars from restrictive care settings and out-of-date service models to community-based psychiatric rehabilitation services, and reward cost-effective and appropriate care patterns. The Legislature recognizes that the Medicaid, mental health, and substance abuse treatment programs are three separate systems and that each has unique characteristics, including unique requirements for eligibility. To move toward a well-integrated system of behavioral health care services will require careful planning and implementation. It is the intent of the Legislature that the service delivery strategies will be the first phase of transferring the provision and management of mental health and substance abuse treatment services provided by the Department of Children and Family Services and the Medicaid program from traditional fee-for-service and unit-cost contracting methods to risk-sharing arrangements. As used in this section, the term "behavioral health care services" means mental health services and substance abuse treatment services that are provided with state and federal funds.*

## (4) CONTRACT FOR SERVICES.—

(a) The Department of Children and Family Services and the Agency for Health Care Administration may contract for the provision or management of behavioral health services with a managing entity in at least two geographic areas. Both the Department of Children and Family Services and the Agency for Health Care Administration must contract with the same managing entity in any distinct geographic area where the strategy operates. This managing entity shall be accountable for the delivery of behavioral health services specified by the department and the agency for children, adolescents, and adults. The geographic area must be of sufficient size in population and have enough public funds for behavioral health services to allow for flexibility and maximum efficiency. Notwithstanding the provisions of s. 409.912(3)(b) 1. and 2., Florida Statutes, at least one service delivery strategy must be in one of the service districts in the catchment area of G. Pierce Wood Memorial Hospital.

(b) Under one of the service delivery strategies, the Department of Children and Family Services may contract with a prepaid mental health plan that operates under s. 409.912, Florida Statutes, to be the managing entity. Under this strategy, the Department of Children and Family Services is not required to competitively procure those services and, notwithstanding other provisions of law, may employ prospective payment methodologies that the department finds are necessary to improve client care or institute more efficient practices. The Department of Children and Family Services may employ in its contract any provision of the current prepaid behavioral health care plan authorized under s. 409.912(3)(a) and (b), Florida Statutes, or any other provision necessary to improve quality, access, continuity, and price. Any contracts under this strategy in Area 6 of the Agency for Health Care Administration or in the prototype region under s. 20.19(7), Florida Statutes, of the Department of Children and Family Services may be entered with the existing substance abuse treatment provider network if an administrative services organization is part of its network. In Area 6 of the Agency for Health Care Administration or in the prototype region of the Department of Children and Family Services, the Department of Children and Family Services and the Agency for Health Care Administration may employ alternative service delivery and financing methodologies, which may include prospective payment for certain population groups. The population groups that are to be provided these substance abuse services would include at a minimum: individuals and families receiving family safety services; Medicaid-eligible children, adolescents, and adults who are substance-abuse-impaired; or current recipients and persons at risk of needing cash assistance under Florida's welfare reform initiatives.

(c) Under the second service delivery strategy, the Department of Children and Family Services and the Agency for Health Care Administration shall competitively procure a contract for the management of behavioral health services with a managing entity. The Department of Children and Family Services and the Agency for Health Care Administration may purchase from the managing entity the management services necessary to improve continuity of care and access to care, contain costs, and improve quality of care. The managing entity shall manage and coordinate all publicly funded diagnostic or assessment services, acute care services, rehabilitative services, support services, and continuing care services for persons who meet the financial criteria specified in part IV of chapter 394, Florida Statutes, for publicly funded mental health and substance abuse treatment services or for persons who are Medicaid eligible. The managing entity shall be solely accountable for a geographic area and shall coordinate the emergency care system. The managing entity may be a network of existing providers with an administrative services organization that can function independently, may be an administrative services organization that is independent of local provider agencies, or may be an entity of state or local government.

(d) Under both strategies, the Department of Children and Family Services and the Agency for Health Care Administration may:

1. Establish benefit packages based on the level of severity of illness and level of client functioning;

2. Align and integrate procedure codes, standards, or other requirements if it is jointly determined that these actions will simplify or improve client services and efficiencies in service delivery;

3. Use prepaid per capita and prepaid aggregate fixed-sum payment methodologies; and

4. Modify their current procedure codes to increase clinical flexibility, encourage the use of the most effective interventions, and support rehabilitative activities.

(e) The cost of the managing entity contract shall be funded through a combination of funds from the Department of Children and Family Services and the Agency for Health Care Administration. To operate the managing entity, the Department of Children and Family Services and the Agency for Health Care Administration may not expend more than 10 percent of the annual appropriations for mental health and substance abuse treatment services prorated to the geographic areas and must include all behavioral health Medicaid funds, including psychiatric inpatient funds. This restriction does not apply to a prepaid behavioral health plan that is authorized under s. 409.912(3)(a) and (b), Florida Statutes.

(f) Contracting and payment mechanisms for services should promote flexibility and responsiveness and should allow different categorical funds to be combined. The service array should be determined by using needs assessment and best practice models.

(5) STATEWIDE ACTIONS.—If Medicaid appropriations for Community Mental Health Services or Mental Health Targeted Case Management are reduced in Fiscal Year 2001-02, the agency and the department shall jointly develop and implement strategies that reduce service costs in a manner that mitigates the impact on persons in need of those services. The agency and department may employ any methodologies on a regional or statewide basis necessary to achieve the reduction, including but not limited to use of case rates, prepaid per capita contracts, utilization management, expanded use of care management, use of waivers from the Health Care Financing Administration to maximize federal matching of current local and state funding, modification or creation of additional procedure codes, and certification of match or other management techniques.

(6) GOALS.—The goal of the service delivery strategies is to provide a design for an effective coordination, integration, and management approach for delivering effective behavioral health services to persons who are experiencing a mental health or substance abuse crisis, who have a disabling mental illness or substance abuse disorder and will require extended services in order to recover from their illness, or who need brief treatment or supportive interventions to avoid a crisis or disability. Other goals of the models include the following:

(a) Improve accountability for a local system of behavioral health care services to meet performance outcomes and standards.

(b) Assure continuity of care for all children, adolescents, and adults who enter the publicly funded behavioral health service system.

(c) Provide early diagnosis and treatment interventions to enhance recovery and prevent hospitalization.

(d) Improve assessment of local needs for behavioral health services.

(e) Improve the overall quality of behavioral health services through the use of best practice models.

(f) Demonstrate improved service integration between behavioral health programs and other programs, such as vocational rehabilitation, education, child welfare, primary health care, emergency services, and criminal justice.

(g) Provide for additional testing of creative and flexible strategies for financing behavioral health services to enhance individualized treatment and support services.

(h) Control the costs of services without sacrificing quality of care.

(i) Coordinate the admissions and discharges from state mental health hospitals and residential treatment centers.

(j) Improve the integration, accessibility, and dissemination of behavioral health data for planning and monitoring purposes.

(k) Promote specialized behavioral health services to residents of assisted living facilities.

(l) Reduce the admissions and the length of stay for dependent children in residential treatment centers.

(m) Provide services to abused and neglected children and their families as indicated in court-ordered case plans.

(7) **ESSENTIAL ELEMENTS.—**

(a) The managing entity must demonstrate the ability of its network of providers to comply with the pertinent provisions of chapters 394 and 397, Florida Statutes, and to assure the provision of comprehensive behavioral health services. The network of providers shall include, but is not limited to, mental health centers, substance abuse treatment providers, hospitals, licensed psychiatrists, licensed psychiatric nurses, and mental health professionals licensed under chapter 490 or chapter 491, Florida Statutes. A behavioral health client served by the network under the service delivery strategies may reside in his or her own home or in settings including, but not limited to, assisted living facilities, skilled nursing facilities, foster homes, or group homes.

(b) The target population to be served in the service delivery strategies must include children, adolescents, and adults who fall into the following categories:

1. Adults in mental health crisis;
2. Older adults in crisis;
3. Adults with serious and persistent mental illness;
4. Adults with substance abuse problems;
5. Adults with forensic involvement;
6. Older adults with severe and persistent mental illness;
7. Older adults with substance abuse problems;
8. Children and adolescents with serious emotional disturbances as defined in s. 394.492(6), Florida Statutes;
9. Children with substance abuse problems as defined in s. 397.93(2), Florida Statutes;
10. Children and adolescents in state custody pursuant to chapter 39, Florida Statutes; and
11. Children and adolescents in residential commitment programs of the Department of Juvenile Justice pursuant to chapter 985, Florida Statutes.

(c) The service delivery strategies must include a continuing care system for persons whose clinical and functional status indicates the need for these services. These persons will be eligible for a range of treatment, rehabilitative, and support services until they no longer need the services to maintain or improve their level of functioning. Given the long-term nature of some mental and addictive disorders, continuing care services should be sensitive to the variable needs of individuals across time and shall be designed to help assure easy access for persons with these long-term problems. The Department of Children and Family Services shall develop criteria for the continuing care program for behavioral health services.

(d) A local body or group must be identified by the district administrator of the Department of Children and Family Services to serve in an advisory capacity to the behavioral health service delivery strategy and must include representatives of the local school system, the judicial system, county government, public and private Baker Act receiving facilities, and law enforcement agencies; a consumer of the

public behavioral health system; and a family member of a consumer of the publicly funded system. This advisory body may be the community alliance established under section 20.19(6), Florida Statutes, or any other suitable established local group.

(e) The managing entity shall ensure that written cooperative agreements are developed among the judicial system, the criminal justice system, and the local behavioral health providers in the geographic area which define strategies and alternatives for diverting, from the criminal justice system to the civil system as provided under part I of chapter 394, Florida Statutes, or chapter 397, Florida Statutes, persons with behavioral health problems who are arrested for a misdemeanor. These agreements must also address the provision of appropriate services to persons with behavioral health problems who leave the criminal justice system.

(f) Managing entities must submit data to the Department of Children and Family Services and the Agency for Health Care Administration on the use of services and the outcomes for all enrolled clients. Managing entities must meet performance standards developed by the Agency for Health Care Administration and the Department of Children and Family Services related to:

1. The rate at which individuals in the community receive services, including persons who receive followup care after emergencies.
2. Clinical improvement of individuals served, clinically and functionally.
3. Reduction of jail admissions.
4. Consumer and family satisfaction.
5. Satisfaction of key community constituents such as law enforcement agencies, juvenile justice agencies, the courts, the schools, local government entities, and others as appropriate for the locality.

(g) The Agency for Health Care Administration may establish a certified match program, which must be voluntary. Under a certified match program, reimbursement is limited to the federal Medicaid share to Medicaid-enrolled strategy participants. The agency shall take no action to implement a certified match program without ensuring that the consultation provisions of chapter 216, Florida Statutes, have been met. The agency may seek federal waivers that are necessary to implement the behavioral health service delivery strategies.

(h)1. The Department of Children and Family Services, in consultation with the Agency for Health Care Administration, shall prepare an amendment by October 31, 2001, to the 2001 master state plan required under s. 394.75(1), Florida Statutes, which describes each service delivery strategy, including at least the following details:

- a. Operational design;
  - b. Counties or service districts included in each strategy;
  - c. Expected outcomes; and
  - d. Timeframes.
2. The amendment shall specifically address the application of each service delivery strategy to substance abuse services, including:
    - a. The development of substance abuse service protocols;
    - b. Credentialing requirements for substance abuse services; and
    - c. The development of new service models for individuals with co-occurring mental health and substance abuse disorders.
  3. The amendment must specifically address the application of each service delivery strategy to the child welfare system, including:
    - a. The development of service models that support working with both children and their families in a community-based care system and that are specific to the child welfare system.
    - b. A process for providing services to abused and neglected children and their families as indicated in court-ordered case plans.

(8) **MONITORING AND EVALUATION.**—*The Department of Children and Family Services and the Agency for Health Care Administration shall provide routine monitoring and oversight of and technical assistance to the managing entities. The Louis de la Parte Florida Mental Health Institute shall conduct an ongoing formative evaluation of each strategy to identify the most effective methods and techniques used to manage, integrate, and deliver behavioral health services. The entity conducting the evaluation shall report to the Department of Children and Family Services, the Agency for Health Care Administration, the Executive Office of the Governor, and the Legislature every 12 months regarding the status of the implementation of the service delivery strategies. The report must include a summary of activities that have occurred during the past 12 months of implementation and any problems or obstacles that prevented, or may prevent in the future, the managing entity from achieving performance goals and measures. The first status report is due January 1, 2002. After the service delivery strategies have been operational for 1 year, the status report must include an analysis of administrative costs and the status of the achievement of performance outcomes. Upon receiving the annual report from the evaluator, the Department of Children and Family Services and the Agency for Health Care Administration shall jointly make any recommendations to the Executive Office of the Governor regarding changes in the service delivery strategies or in the implementation of the strategies, including timeframes.*

**Section 10. Behavioral Health Services Integration Workgroup.—**

(1) *The Secretary of Children and Family Services shall establish the Behavioral Health Services Integration Workgroup, which, at a minimum, shall include representatives from the following: Department of Juvenile Justice, the Department of Corrections, and the Department of Education; the Office of Drug Control Policy; the Agency for Health Care Administration; and county jails, homeless coalitions, county government, providers of behavioral health services, public and private Baker Act receiving facilities, providers of child protection services, assisted living facilities serving behavioral health clients, and consumers of behavioral health services and their families. The Behavioral Health Services Integration Workgroup shall assess barriers to the effective and efficient integration of mental health and substance abuse treatment services across various systems, propose solutions to these barriers, and ensure that plans for mental health and substance abuse treatment services which are required by statute consider these solutions. Under chapter 216, Florida Statutes, the Department of Children and Family Services may transfer up to \$200,000 to support the Behavioral Health Services Integration Workgroup.*

(2) *The Behavioral Health Services Integration Workgroup shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2002, regarding the Workgroup's progress toward achieving the goals specified in subsection (1).*

**Section 11. This act shall take effect upon becoming a law.**

b. Electronic observation; or

c. Any other reasonable measure taken to ensure patient protection and privacy.

3. *A prohibition against an unlicensed person from assisting or participating in any surgical procedure unless the facility has authorized the person to do so following a competency assessment, and such assistance or participation is done under the direct and immediate supervision of a licensed physician and is not otherwise an activity that may only be performed by a licensed health care practitioner.*

4. *Development, implementation, and ongoing evaluation of procedures, protocols, and systems to accurately identify patients, planned procedures, and the correct site of the planned procedure so as to minimize the performance of a surgical procedure on the wrong patient, a wrong surgical procedure, a wrong-site surgical procedure, or a surgical procedure otherwise unrelated to the patient's diagnosis or medical condition.*

(c) The analysis of patient grievances that relate to patient care and the quality of medical services.

(d) The development and implementation of an incident reporting system based upon the affirmative duty of all health care providers and all agents and employees of the licensed health care facility to report adverse incidents to the risk manager, or to his or her designee, within 3 business days after their occurrence.

(2) The internal risk management program is the responsibility of the governing board of the health care facility. Each licensed facility shall hire a risk manager, licensed under s. 395.10974 ~~part IX of chapter 626~~, who is responsible for implementation and oversight of such facility's internal risk management program as required by this section. A risk manager must not be made responsible for more than four internal risk management programs in separate licensed facilities, unless the facilities are under one corporate ownership or the risk management programs are in rural hospitals.

(3) In addition to the programs mandated by this section, other innovative approaches intended to reduce the frequency and severity of medical malpractice and patient injury claims shall be encouraged and their implementation and operation facilitated. Such additional approaches may include extending internal risk management programs to health care providers' offices and the assuming of provider liability by

a licensed health care facility for acts or omissions occurring within the licensed facility.

(4) The agency shall, ~~after consulting with the Department of Insurance,~~ adopt rules governing the establishment of internal risk management programs to meet the needs of individual licensed facilities. Each internal risk management program shall include the use of incident reports to be filed with an individual of responsibility who is competent in risk management techniques in the employ of each licensed facility, such as an insurance coordinator, or who is retained by the licensed facility as a consultant. The individual responsible for the risk management program shall have free access to all medical records of the licensed facility. The incident reports are part of the workpapers of the attorney defending the licensed facility in litigation relating to the licensed facility and are subject to discovery, but are not admissible as evidence in court. A person filing an incident report is not subject to civil suit by virtue of such incident report. As a part of each internal risk management program, the incident reports shall be used to develop categories of incidents which identify problem areas. Once identified, procedures shall be adjusted to correct the problem areas.

(5) For purposes of reporting to the agency pursuant to this section, the term "adverse incident" means an event over which health care personnel could exercise control and which is associated in whole or in part with medical intervention, rather than the condition for which such intervention occurred, and which:

(a) Results in one of the following injuries:

1. Death;

2. Brain or spinal damage;

3. Permanent disfigurement;

4. Fracture or dislocation of bones or joints;

5. A resulting limitation of neurological, physical, or sensory function which continues after discharge from the facility;

6. Any condition that required specialized medical attention or surgical intervention resulting from nonemergency medical intervention, other than an emergency medical condition, to which the patient has not given his or her informed consent; or

7. Any condition that required the transfer of the patient, within or outside the facility, to a unit providing a more acute level of care due to the adverse incident, rather than the patient's condition prior to the adverse incident;

(b) Was the performance of a surgical procedure on the wrong patient, a wrong surgical procedure, a wrong-site surgical procedure, or a surgical procedure otherwise unrelated to the patient's diagnosis or medical condition;

(c) Required the surgical repair of damage resulting to a patient from a planned surgical procedure, where the damage was not a recognized specific risk, as disclosed to the patient and documented through the informed-consent process; or

(d) Was a procedure to remove unplanned foreign objects remaining from a surgical procedure.

(6)(a) Each licensed facility subject to this section shall submit an annual report to the agency summarizing the incident reports that have been filed in the facility for that year. The report shall include:

1. The total number of adverse incidents.

2. A listing, by category, of the types of operations, diagnostic or treatment procedures, or other actions causing the injuries, and the number of incidents occurring within each category.

3. A listing, by category, of the types of injuries caused and the number of incidents occurring within each category.

4. A code number using the health care professional's licensure number and a separate code number identifying all other individuals

directly involved in adverse incidents to patients, the relationship of the individual to the licensed facility, and the number of incidents in which each individual has been directly involved. Each licensed facility shall maintain names of the health care professionals and individuals identified by code numbers for purposes of this section.

5. A description of all malpractice claims filed against the licensed facility, including the total number of pending and closed claims and the nature of the incident which led to, the persons involved in, and the status and disposition of each claim. Each report shall update status and disposition for all prior reports.

(b) The information reported to the agency pursuant to paragraph (a) which relates to persons licensed under chapter 458, chapter 459, chapter 461, or chapter 466 shall be reviewed by the agency. The agency shall determine whether any of the incidents potentially involved conduct by a health care professional who is subject to disciplinary action, in which case the provisions of s. 456.073 shall apply.

(c) The report submitted to the agency shall also contain the name and license number of the risk manager of the licensed facility, a copy of its policy and procedures which govern the measures taken by the facility and its risk manager to reduce the risk of injuries and adverse incidents, and the results of such measures. The annual report is confidential and is not available to the public pursuant to s. 119.07(1) or any other law providing access to public records. The annual report is not discoverable or admissible in any civil or administrative action, except in disciplinary proceedings by the agency or the appropriate regulatory board. The annual report is not available to the public as part of the record of investigation for and prosecution in disciplinary proceedings made available to the public by the agency or the appropriate regulatory board. However, the agency or the appropriate regulatory board shall make available, upon written request by a health care professional against whom probable cause has been found, any such records which form the basis of the determination of probable cause.

(7) The licensed facility shall notify the agency no later than 1 business day after the risk manager or his or her designee has received a report pursuant to paragraph (1)(d) and can determine within 1 business day that any of the following adverse incidents has occurred, whether occurring in the licensed facility or arising from health care prior to admission in the licensed facility:

- (a) The death of a patient;
- (b) Brain or spinal damage to a patient;
- (c) The performance of a surgical procedure on the wrong patient;
- (d) The performance of a wrong-site surgical procedure; or
- (e) The performance of a wrong surgical procedure.

The notification must be made in writing and be provided by facsimile device or overnight mail delivery. The notification must include information regarding the identity of the affected patient, the type of adverse incident, the initiation of an investigation by the facility, and whether the events causing or resulting in the adverse incident represent a potential risk to other patients.

(8) Any of the following adverse incidents, whether occurring in the licensed facility or arising from health care prior to admission in the licensed facility, shall be reported by the facility to the agency within 15 calendar days after its occurrence:

- (a) The death of a patient;
- (b) Brain or spinal damage to a patient;
- (c) The performance of a surgical procedure on the wrong patient;
- (d) The performance of a wrong-site surgical procedure;
- (e) The performance of a wrong surgical procedure;

(f) The performance of a surgical procedure that is medically unnecessary or otherwise unrelated to the patient's diagnosis or medical condition;

(g) The surgical repair of damage resulting to a patient from a planned surgical procedure, where the damage is not a recognized specific risk, as disclosed to the patient and documented through the informed-consent process; or

(h) The performance of procedures to remove unplanned foreign objects remaining from a surgical procedure.

The agency may grant extensions to this reporting requirement for more than 15 days upon justification submitted in writing by the facility administrator to the agency. The agency may require an additional, final report. These reports shall not be available to the public pursuant to s. 119.07(1) or any other law providing access to public records, nor be discoverable or admissible in any civil or administrative action, except in disciplinary proceedings by the agency or the appropriate regulatory board, nor shall they be available to the public as part of the record of investigation for and prosecution in disciplinary proceedings made available to the public by the agency or the appropriate regulatory board. However, the agency or the appropriate regulatory board shall make available, upon written request by a health care professional against whom probable cause has been found, any such records which form the basis of the determination of probable cause. The agency may investigate, as it deems appropriate, any such incident and prescribe measures that must or may be taken in response to the incident. The agency shall review each incident and determine whether it potentially involved conduct by the health care professional who is subject to disciplinary action, in which case the provisions of s. 456.073 shall apply.

*(9) The agency shall publish on the agency's website, no less than quarterly, a summary and trend analysis of adverse incident reports received pursuant to this section, which shall not include information that would identify the patient, the reporting facility, or the health care practitioners involved. The agency shall publish on the agency's website an annual summary and trend analysis of all adverse incident reports and malpractice claims information provided by facilities in their annual reports, which shall not include information that would identify the patient, the reporting facility, or the practitioners involved. The purpose of the publication of the summary and trend analysis is to promote the rapid dissemination of information relating to adverse incidents and malpractice claims to assist in avoidance of similar incidents and reduce morbidity and mortality.*

~~(10)~~ (9) The internal risk manager of each licensed facility shall:

(a) Investigate every allegation of sexual misconduct which is made against a member of the facility's personnel who has direct patient contact, when the allegation is that the sexual misconduct occurred at the facility or on the grounds of the facility; ~~and~~

(b) Report every allegation of sexual misconduct to the administrator of the licensed facility.

(c) Notify the family or guardian of the victim, if a minor, that an allegation of sexual misconduct has been made and that an investigation is being conducted;

*(d) Report to the Department of Health every allegation of sexual misconduct, as defined in chapter 456 and the respective practice act, by a licensed health care practitioner that involves a patient.*

~~(11)~~ (10) Any witness who witnessed or who possesses actual knowledge of the act that is the basis of an allegation of sexual abuse shall:

- (a) Notify the local police; and
- (b) Notify the hospital risk manager and the administrator.

For purposes of this subsection, "sexual abuse" means acts of a sexual nature committed for the sexual gratification of anyone upon, or in the presence of, a vulnerable adult, without the vulnerable adult's informed consent, or a minor. "Sexual abuse" includes, but is not limited to, the acts defined in s. 794.011(1)(h), fondling, exposure of a vulnerable adult's or minor's sexual organs, or the use of the vulnerable adult or minor to solicit for or engage in prostitution or sexual performance.

"Sexual abuse" does not include any act intended for a valid medical purpose or any act which may reasonably be construed to be a normal caregiving action.

(12)(11) A person who, with malice or with intent to discredit or harm a licensed facility or any person, makes a false allegation of sexual misconduct against a member of a licensed facility's personnel is guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(13)(12) In addition to any penalty imposed pursuant to this section, the agency shall require a written plan of correction from the facility. For a single incident or series of isolated incidents that are nonwillful violations of the reporting requirements of this section, the agency shall first seek to obtain corrective action by the facility. If the correction is not demonstrated within the timeframe established by the agency or if there is a pattern of nonwillful violations of this section, the agency may impose an administrative fine, not to exceed \$5,000 for any violation of the reporting requirements of this section. The administrative fine for repeated nonwillful violations shall not exceed \$10,000 for any violation. The administrative fine for each intentional and willful violation may not exceed \$25,000 per violation, per day. The fine for an intentional and willful violation of this section may not exceed \$250,000. In determining the amount of fine to be levied, the agency shall be guided by s. 395.1065(2)(b). This subsection does not apply to the notice requirements under subsection (7).

(14)(13) The agency shall have access to all licensed facility records necessary to carry out the provisions of this section. The records obtained by the agency under subsection (6), subsection (8), or subsection (10) (9) are not available to the public under s. 119.07(1), nor shall they be discoverable or admissible in any civil or administrative action, except in disciplinary proceedings by the agency or the appropriate regulatory board, nor shall records obtained pursuant to s. 456.071 be available to the public as part of the record of investigation for and prosecution in disciplinary proceedings made available to the public by the agency or the appropriate regulatory board. However, the agency or the appropriate regulatory board shall make available, upon written request by a health care professional against whom probable cause has been found, any such records which form the basis of the determination of probable cause, except that, with respect to medical review committee records, s. 766.101 controls.

(15)(14) The meetings of the committees and governing board of a licensed facility held solely for the purpose of achieving the objectives of risk management as provided by this section shall not be open to the public under the provisions of chapter 286. The records of such meetings are confidential and exempt from s. 119.07(1), except as provided in subsection (14) (13).

(16)(15) The agency shall review, as part of its licensure inspection process, the internal risk management program at each licensed facility regulated by this section to determine whether the program meets standards established in statutes and rules, whether the program is being conducted in a manner designed to reduce adverse incidents, and whether the program is appropriately reporting incidents under *this section* subsections (5), (6), (7), and (8).

(17)(16) There shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any risk manager, licensed under s. 395.10974 ~~part IX of chapter 626~~, for the implementation and oversight of the internal risk management program in a facility licensed under this chapter or chapter 390 as required by this section, for any act or proceeding undertaken or performed within the scope of the functions of such internal risk management program if the risk manager acts without intentional fraud.

(18) A privilege against civil liability is hereby granted to any licensed risk manager or licensed facility with regard to information furnished pursuant to this chapter, unless the licensed risk manager or facility acted in bad faith or with malice in providing such information.

(19)(17) If the agency, through its receipt of any reports required under this section ~~the annual reports prescribed in subsection (6) or~~

through any investigation, has a reasonable belief that conduct by a staff member or employee of a licensed facility is grounds for disciplinary action by the appropriate regulatory board, the agency shall report this fact to such regulatory board.

~~(18) The agency shall annually publish a report summarizing the information contained in the annual incident reports submitted by licensed facilities pursuant to subsection (6) and disciplinary actions reported to the agency pursuant to s. 395.0193. The report must, at a minimum, summarize:~~

~~(a) Adverse incidents, by category of reported incident, and by type of professional involved.~~

~~(b) Types of malpractice claims filed, by type of professional involved.~~

~~(c) Disciplinary actions taken against professionals, by type of professional involved.~~

(20) *It shall be unlawful for any person to coerce, intimidate, or preclude a risk manager from lawfully executing his or her reporting obligations pursuant to this chapter. Such unlawful action shall be subject to civil monetary penalties not to exceed \$10,000 per violation.*

Section 6. Section 395.10972, Florida Statutes, is amended to read:

395.10972 Health Care Risk Manager Advisory Council.—The Secretary of Health Care Administration may appoint a *seven-member* ~~five-member~~ advisory council to advise the agency on matters pertaining to health care risk managers. The members of the council shall serve at the pleasure of the secretary. The council shall designate a chair. The council shall meet at the call of the secretary or at those times as may be required by rule of the agency. The members of the advisory council shall receive no compensation for their services, but shall be reimbursed for travel expenses as provided in s. 112.061. The council shall consist of individuals representing the following areas:

Section 7. Paragraph (b) of subsection (2) of section 395.701, Florida Statutes, is amended to read:

395.701 Annual assessments on net operating revenues for inpatient *and outpatient* services to fund public medical assistance; administrative fines for failure to pay assessments when due; exemption.—

(2)

(b) There is imposed upon each hospital an assessment in an amount equal to 1 percent of the annual net operating revenue for outpatient services for each hospital, such revenue to be determined by the agency, based on the actual experience of the hospital as reported to the agency. *While prior year report worksheets may be reconciled to the hospital's audited financial statements, no additional audited financial components may be required for the purposes of determining the amount of the assessment imposed pursuant to this section other than those in effect on July 1, 2000.* Within 6 months after the end of each hospital fiscal year, the agency shall certify the amount of the assessment for each hospital. The assessment shall be payable to and collected by the agency in equal quarterly amounts, on or before the first day of each calendar quarter, beginning with the first full calendar quarter that occurs after the agency certifies the amount of the assessment for each

hospital. All moneys collected pursuant to this subsection shall be deposited into the Public Medical Assistance Trust Fund.

Section 8. Section 409.905, Florida Statutes, is amended to read:

409.905 **Mandatory Medicaid services.**—The agency may make payments for the following services, which are required of the state by Title XIX of the Social Security Act, furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. *Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency.* Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(1) **ADVANCED REGISTERED NURSE PRACTITIONER SERVICES.**—The agency shall pay for services provided to a recipient by a licensed advanced registered nurse practitioner who has a valid collaboration agreement with a licensed physician on file with the Department of Health or who provides anesthesia services in accordance with established protocol required by state law and approved by the medical staff of the facility in which the anesthetic service is performed. Reimbursement for such services must be provided in an amount that equals not less than 80 percent of the reimbursement to a physician who provides the same services, unless otherwise provided for in the General Appropriations Act.

(2) **EARLY AND PERIODIC SCREENING, DIAGNOSIS, AND TREATMENT SERVICES.**—The agency shall pay for early and periodic screening and diagnosis of a recipient under age 21 to ascertain physical and mental problems and conditions and provide treatment to correct or ameliorate these problems and conditions. These services include all services determined by the agency to be medically necessary for the treatment, correction, or amelioration of these problems, including personal care, private duty nursing, durable medical equipment, physical therapy, occupational therapy, speech therapy, respiratory therapy, and immunizations.

(3) **FAMILY PLANNING SERVICES.**—The agency shall pay for services necessary to enable a recipient voluntarily to plan family size or to space children. These services include information; education; counseling regarding the availability, benefits, and risks of each method of pregnancy prevention; drugs and supplies; and necessary medical care and followup. Each recipient participating in the family planning portion of the Medicaid program must be provided freedom to choose any alternative method of family planning, as required by federal law.

(4) **HOME HEALTH CARE SERVICES.**—The agency shall pay for nursing and home health aide services, supplies, appliances, and durable medical equipment, necessary to assist a recipient living at home. An entity that provides services pursuant to this subsection shall be licensed under part IV of chapter 400 or part II of chapter 499, if appropriate. These services, equipment, and supplies, or reimbursement therefor, may be limited as provided in the General Appropriations Act and do not include services, equipment, or supplies provided to a person residing in a hospital or nursing facility. In providing home health care services, the agency may require prior authorization of care based on diagnosis.

(5) **HOSPITAL INPATIENT SERVICES.**—The agency shall pay for all covered services provided for the medical care and treatment of a recipient who is admitted as an inpatient by a licensed physician or dentist to a hospital licensed under part I of chapter 395. However, the agency shall limit the payment for inpatient hospital services for a Medicaid recipient 21 years of age or older to 45 days or the number of days necessary to comply with the General Appropriations Act.

(a) The agency is authorized to implement reimbursement and utilization management reforms in order to comply with any limitations or directions in the General Appropriations Act, which may include, but

are not limited to: prior authorization for inpatient psychiatric days; enhanced utilization and concurrent review programs for highly utilized services; reduction or elimination of covered days of service; adjusting reimbursement ceilings for variable costs; adjusting reimbursement ceilings for fixed and property costs; and implementing target rates of increase.

(b) A licensed hospital maintained primarily for the care and treatment of patients having mental disorders or mental diseases is not eligible to participate in the hospital inpatient portion of the Medicaid program except as provided in federal law. However, the department shall apply for a waiver, within 9 months after June 5, 1991, designed to provide hospitalization services for mental health reasons to children and adults in the most cost-effective and lowest cost setting possible. Such waiver shall include a request for the opportunity to pay for care in hospitals known under federal law as “institutions for mental disease” or “IMD’s.” The waiver proposal shall propose no additional aggregate cost to the state or Federal Government, and shall be conducted in Hillsborough County, Highlands County, Hardee County, Manatee County, and Polk County. The waiver proposal may incorporate competitive bidding for hospital services, comprehensive brokering, prepaid capitated arrangements, or other mechanisms deemed by the department to show promise in reducing the cost of acute care and increasing the effectiveness of preventive care. When developing the waiver proposal, the department shall take into account price, quality, accessibility, linkages of the hospital to community services and family support programs, plans of the hospital to ensure the earliest discharge possible, and the comprehensiveness of the mental health and other health care services offered by participating providers.

(c) Agency for Health Care Administration shall adjust a hospital’s current inpatient per diem rate to reflect the cost of serving the Medicaid population at that institution if:

1. The hospital experiences an increase in Medicaid caseload by more than 25 percent in any year, primarily resulting from the closure of a hospital in the same service area occurring after July 1, 1995; or

2. The hospital’s Medicaid per diem rate is at least 25 percent below the Medicaid per patient cost for that year.

No later than November 1, 2000, the agency must provide estimated costs for any adjustment in a hospital inpatient per diem pursuant to this paragraph to the Executive Office of the Governor, the House of Representatives General Appropriations Committee, and the Senate Budget Committee. Before the agency implements a change in a hospital’s inpatient per diem rate pursuant to this paragraph, the Legislature must have specifically appropriated sufficient funds in the 2001-2002 General Appropriations Act to support the increase in cost as estimated by the agency. This paragraph is repealed on July 1, 2001.

(6) **HOSPITAL OUTPATIENT SERVICES.**—The agency shall pay for preventive, diagnostic, therapeutic, or palliative care and other services provided to a recipient in the outpatient portion of a hospital licensed under part I of chapter 395, and provided under the direction of a licensed physician or licensed dentist, except that payment for such care and services is limited to \$1,500 per state fiscal year per recipient, unless an exception has been made by the agency, and with the exception of a Medicaid recipient under age 21, in which case the only limitation is medical necessity.

(7) **INDEPENDENT LABORATORY SERVICES.**—The agency shall pay for medically necessary diagnostic laboratory procedures ordered by a licensed physician or other licensed practitioner of the healing arts which are provided for a recipient in a laboratory that meets the requirements for Medicare participation and is licensed under chapter 483, if required.

(8) **NURSING FACILITY SERVICES.**—The agency shall pay for 24-hour-a-day nursing and rehabilitative services for a recipient in a nursing facility licensed under part II of chapter 400 or in a rural hospital, as defined in s. 395.602, or in a Medicare certified skilled nursing facility operated by a hospital, as defined by s. 395.002(11), that

is licensed under part I of chapter 395, and in accordance with provisions set forth in s. 409.908(2)(a), which services are ordered by and provided under the direction of a licensed physician. However, if a nursing facility has been destroyed or otherwise made uninhabitable by natural disaster or other emergency and another nursing facility is not available, the agency must pay for similar services temporarily in a hospital licensed under part I of chapter 395 provided federal funding is approved and available.

(9) **PHYSICIAN SERVICES.**—The agency shall pay for covered services and procedures rendered to a recipient by, or under the personal supervision of, a person licensed under state law to practice medicine or osteopathic medicine. These services may be furnished in the physician's office, the Medicaid recipient's home, a hospital, a nursing facility, or elsewhere, but shall be medically necessary for the treatment of an injury, illness, or disease within the scope of the practice of medicine or osteopathic medicine as defined by state law. The agency shall not pay for services that are clinically unproven, experimental, or for purely cosmetic purposes.

(10) **PORTABLE X-RAY SERVICES.**—The agency shall pay for professional and technical portable radiological services ordered by a licensed physician or other licensed practitioner of the healing arts which are provided by a licensed professional in a setting other than a hospital, clinic, or office of a physician or practitioner of the healing arts, on behalf of a recipient.

(11) **RURAL HEALTH CLINIC SERVICES.**—The agency shall pay for outpatient primary health care services for a recipient provided by a clinic certified by and participating in the Medicare program which is located in a federally designated, rural, medically underserved area and has on its staff one or more licensed primary care nurse practitioners or physician assistants, and a licensed staff supervising physician or a consulting supervising physician.

(12) **TRANSPORTATION SERVICES.**—The agency shall ensure that appropriate transportation services are available for a Medicaid recipient in need of transport to a qualified Medicaid provider for medically necessary and Medicaid-compensable services, provided a client's ability to choose a specific transportation provider shall be limited to those options resulting from policies established by the agency to meet the fiscal limitations of the General Appropriations Act. The agency may pay for transportation and other related travel expenses as necessary only if these services are not otherwise available.

Section 9. Section 409.906, Florida Statutes, is amended to read:

409.906 **Optional Medicaid services.**—Subject to specific appropriations, the agency may make payments for services which are optional to the state under Title XIX of the Social Security Act and are furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any optional service that is provided shall be provided only when medically necessary and in accordance with state and federal law. *Optional services rendered by providers in mobile units to Medicaid recipients may be restricted or prohibited by the agency.* Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. If necessary to safeguard the state's systems of providing services to elderly and disabled persons and subject to the notice and review provisions of s. 216.177, the Governor may direct the Agency for Health Care Administration to amend the Medicaid state plan to delete the optional Medicaid service known as "Intermediate Care Facilities for the Developmentally Disabled." Optional services may include:

(1) **ADULT DENTURE SERVICES.**—The agency may pay for dentures, the procedures required to seat dentures, and the repair and relining of dentures, provided by or under the direction of a licensed dentist, for a recipient who is age 21 or older. *However, Medicaid will not provide reimbursement for dental services provided in a mobile dental unit, except for a mobile dental unit:*

(a) *Owned by, operated by, or having a contractual agreement with the Department of Health and complying with Medicaid's county health department clinic services program specifications as a county health department clinic services provider.*

(b) *Owned by, operated by, or having a contractual arrangement with a federally qualified health center and complying with Medicaid's federally qualified health center specifications as a federally qualified health center provider.*

(c) *Rendering dental services to Medicaid recipients, 21 years of age and older, at nursing facilities.*

(d) *Owned by, operated by, or having a contractual agreement with a state-approved dental educational institution.*

(2) **ADULT HEALTH SCREENING SERVICES.**—The agency may pay for an annual routine physical examination, conducted by or under the direction of a licensed physician, for a recipient age 21 or older, without regard to medical necessity, in order to detect and prevent disease, disability, or other health condition or its progression.

(3) **AMBULATORY SURGICAL CENTER SERVICES.**—The agency may pay for services provided to a recipient in an ambulatory surgical center licensed under part I of chapter 395, by or under the direction of a licensed physician or dentist.

(4) **BIRTH CENTER SERVICES.**—The agency may pay for examinations and delivery, recovery, and newborn assessment, and related services, provided in a licensed birth center staffed with licensed physicians, certified nurse midwives, and midwives licensed in accordance with chapter 467, to a recipient expected to experience a low-risk pregnancy and delivery.

(5) **CASE MANAGEMENT SERVICES.**—The agency may pay for primary care case management services rendered to a recipient pursuant to a federally approved waiver, and targeted case management services for specific groups of targeted recipients, for which funding has been provided and which are rendered pursuant to federal guidelines. The agency is authorized to limit reimbursement for targeted case management services in order to comply with any limitations or directions provided for in the General Appropriations Act. Notwithstanding s. 216.292, the Department of Children and Family Services may transfer general funds to the Agency for Health Care Administration to fund state match requirements exceeding the amount specified in the General Appropriations Act for targeted case management services.

(6) **CHILDREN'S DENTAL SERVICES.**—The agency may pay for diagnostic, preventive, or corrective procedures, including orthodontia in severe cases, provided to a recipient under age 21, by or under the supervision of a licensed dentist. Services provided under this program include treatment of the teeth and associated structures of the oral cavity, as well as treatment of disease, injury, or impairment that may affect the oral or general health of the individual. *However, Medicaid will not provide reimbursement for dental services provided in a mobile dental unit, except for a mobile dental unit:*

(a) *Owned by, operated by, or having a contractual agreement with the Department of Health and complying with Medicaid's county health department clinic services program specifications as a county health department clinic services provider.*

(d) *Owned by, operated by, or having a contractual agreement with a state-approved dental educational institution.*

(7) **CHIROPRACTIC SERVICES.**—The agency may pay for manual manipulation of the spine and initial services, screening, and X rays provided to a recipient by a licensed chiropractic physician.

(8) **COMMUNITY MENTAL HEALTH SERVICES.**—The agency may pay for rehabilitative services provided to a recipient by a mental health or substance abuse provider licensed by the agency and under contract with the agency or the Department of Children and Family Services to provide such services. Those services which are psychiatric in nature shall be rendered or recommended by a psychiatrist, and those services which are medical in nature shall be rendered or recommended by a physician or psychiatrist. The agency must develop a provider enrollment process for community mental health providers which bases provider enrollment on an assessment of service need. The provider enrollment process shall be designed to control costs, prevent fraud and abuse, consider provider expertise and capacity, and assess provider success in managing utilization of care and measuring treatment outcomes. Providers will be selected through a competitive procurement or selective contracting process. In addition to other community mental health providers, the agency shall consider for enrollment mental health programs licensed under chapter 395 and group practices licensed under chapter 458, chapter 459, chapter 490, or chapter 491. The course shall be approved by the board or department, as appropriate, and shall include a study of root-cause analysis, error reduction and prevention, and patient safety. If the course is being offered by a facility licensed pursuant to chapter 395 for its employees, the board may approve up to 1 hour of the 2-hour course to be specifically related to error reduction and prevention methods used in that facility.*

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(aa) *Performing or attempting to perform health care services on the wrong patient, a wrong-site procedure, a wrong procedure, or an unauthorized procedure or a procedure that is medically unnecessary or otherwise unrelated to the patient's diagnosis or medical condition. For the purposes of this paragraph, performing or attempting to perform health care services includes the preparation of the patient.*

(bb) *Leaving a foreign body in a patient, such as a sponge, clamp, forceps, surgical needle, or other paraphernalia commonly used in surgical, examination, or other diagnostic procedures. For the purposes*

*of this paragraph, it shall be legally presumed that retention of a foreign body is not in the best interest of the patient and is not within the standard of care of the profession, regardless of the intent of the professional.*

(2) When the board, or the department when there is no board, finds any person guilty of the grounds set forth in subsection (1) or of any grounds set forth in the applicable practice act, including conduct constituting a substantial violation of subsection (1) or a violation of the applicable practice act which occurred prior to obtaining a license, it may enter an order imposing one or more of the following penalties:

In determining what action is appropriate, the board, or department when there is no board, must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the practitioner. All costs associated with compliance with orders issued under this subsection are the obligation of the practitioner.

(4) In addition to any other discipline imposed pursuant to this section or discipline imposed for a violation of any practice act, the board, or the department when there is no board, ~~shall~~ *may* assess costs related to the investigation and prosecution of the case. In no way does this require the department to procure an expert opinion or report if none was used. Additionally, the identity of the expert shall remain confidential.* In any administrative proceeding under s. 120.57, the person who filed the disciplinary complaint shall have the right to present oral or written communication relating to the alleged disciplinary violations or to the appropriate penalty.

(13) *Notwithstanding any provision of law to the contrary, an administrative complaint against a licensee shall be filed within 6 years after the time of the incident or occurrence giving rise to the complaint against the licensee. If such incident or occurrence involved criminal actions, diversion of controlled substances, sexual misconduct, or impairment by the licensee, this subsection does not apply to bar initiation of an investigation or filing of an administrative complaint beyond the 6-year timeframe. In those cases covered by this subsection in which it can be shown that fraud, concealment, or intentional misrepresentation of fact prevented the discovery of the violation of law, the period of limitations is extended forward, but in no event to exceed 12 years after the time of the incident or occurrence.*

*456.047 Standardized credentialing for health care practitioners.—*

Moreover, the resulting duplication of health care practitioner credentialing activities is unnecessarily costly and cumbersome for both the practitioner and the entity granting practice privileges. Therefore, it is the intent of this section that a credentials collection program be established which provides that, once a health care practitioner's core credentials data are collected, they need not be collected again, except for corrections, updates, and modifications thereto. Furthermore, it is the intent of the Legislature that the department and all entities and practitioners work cooperatively to ensure the integrity and accuracy of the program. Participation under this section shall include those individuals licensed under chapter 458, chapter 459, chapter 460, chapter 461, or s. 464.012. Section 79. Subsection (2) of section 765.1103, Florida Statutes, is amended to read:

765.1103 Pain management and palliative care.—

(2) *Health care providers and practitioners regulated under chapter 458, chapter 459, or chapter 464 must, as appropriate, comply with a request for pain management or palliative care from a patient under their care or, for an incapacitated patient under their care, from a surrogate, proxy, guardian, or other representative permitted to make health care decisions for the incapacitated patient. Facilities regulated under chapter 400 or chapter 395 must comply with the pain management or palliative care measures ordered by the patient's physician. When the patient is receiving care as an admitted patient of a facility or a provider or is a subscriber of a health care facility, health care provider, or health care practitioner regulated under chapter 395, chapter 400, chapter 458, chapter 459, chapter 464, or chapter 641, such facility, provider, or practitioner must, when appropriate, comply with a request for pain management or palliative care from a capacitated patient or an incapacitated patient's health care surrogate or proxy, court-appointed guardian as provided in chapter 744, or attorney in fact as provided in chapter 709. The court-appointed guardian or attorney in fact must have been delegated authority to make health care decisions on behalf of the patient.*

Section 80. Paragraph (b) of subsection (1) of section 765.205, Florida Statutes, is amended to read:

765.205 Responsibility of the surrogate.—

(1) The surrogate, in accordance with the principal's instructions, unless such authority has been expressly limited by the principal, shall:

(b) Consult expeditiously with appropriate health care providers to provide informed consent, and make only health care decisions for the principal which he or she believes the principal would have made under the circumstances if the principal were capable of making such decisions. *This substituted-judgment standard is the preferred standard of decisionmaking to be used by health care surrogates, persons who have durable powers of attorney for health care, and proxy decisionmakers. However, if there is no indication of what the principal would have chosen, the surrogate may consider the patient's best interest in deciding that proposed treatments are to be withheld or that treatments currently in effect are to be withdrawn.*

Section 81. Subsections (2) and (3) of section 765.401, Florida Statutes, are amended to read:

765.401 The proxy.—

(2) Any health care decision made under this part must be based on the proxy's informed consent and on the decision the proxy reasonably believes the patient would have made under the circumstances. *This substituted-judgment standard is the preferred standard of decisionmaking to be used by a proxy. However, if there is no indication of what the patient would have chosen, the proxy may consider the patient's best interest in deciding that proposed treatments are to be withheld or that treatments currently in effect are to be withdrawn.*

(3) Before exercising the incapacitated patient's rights to select or decline health care, the proxy must comply with the provisions of ss. 765.205 and 765.305, except that a proxy's decision to withhold or withdraw life-prolonging procedures must be supported by clear and convincing evidence that the decision would have been the one the patient would have chosen had the patient been competent or, if there is no indication of what the patient would have chosen, that the decision is in the patient's best interest.

Section 82. *The Legislature finds that the area of physician specialty training is of great importance to the citizens of this state and that specialty training and certification creates a higher level of proficiency for the physician and improves the delivery of health care to Floridians. Because much confusion exists among the patient population and physicians as to the requirements for board certification, the Legislature directs the Department of Health to conduct an interim study of the area*

*of specialty certification for the Board of Medicine and the Board of Osteopathic Medicine. The study should review current Florida Statutes and board rules to determine if any barriers exist in board recognition of certifying and physician-certifying organizations and if restrictions placed on a licensee's speech both target an identifiable harm and mitigate against such harm in a direct and effective manner. A final report shall be provided no later than January 1, 2002, to the President of the Senate and the Speaker of the House of Representatives for distribution to the chairs of the health-care-related committees.*

Section 83. Paragraph (d) of subsection (2) of section 499.012, Florida Statutes, is amended to read:

499.012 Wholesale distribution; definitions; permits; general requirements.—

(2) The following types of wholesaler permits are established:

(d) A retail pharmacy wholesaler's permit. A retail pharmacy wholesaler is a retail pharmacy engaged in wholesale distribution of prescription drugs within this state under the following conditions:

1. The pharmacy must obtain a retail pharmacy wholesaler's permit pursuant to ss. 499.001-499.081 and the rules adopted under those sections.

2. The wholesale distribution activity does not exceed 30 percent of the total annual purchases of prescription drugs. If the wholesale distribution activity exceeds the 30-percent maximum, the pharmacy must obtain a prescription drug wholesaler's permit.

3. The transfer of prescription drugs that appear in any schedule contained in chapter 893 is subject to chapter 893 and the federal Comprehensive Drug Abuse Prevention and Control Act of 1970.

4. The transfer is between a retail pharmacy and another retail pharmacy, a *Modified Class II institutional pharmacy*, or a health care practitioner licensed in this state and authorized by law to dispense or prescribe prescription drugs.

5. All records of sales of prescription drugs subject to this section must be maintained separate and distinct from other records and comply with the recordkeeping requirements of ss. 499.001-499.081.

Section 84. Section 627.613, Florida Statutes, is amended to read:

627.613 Time of payment of claims.—

(1) The contract shall include the following provision:

"Time of Payment of Claims: After receiving written proof of loss, the insurer will pay monthly all benefits then due for . . . (type of benefit). . . Benefits for any other loss covered by this policy will be paid as soon as the insurer receives proper written proof."

(2)(a) *As used in this section, the term "clean claim" for a noninstitutional provider means a claim submitted on a HCFA 1500 form which has no defect or impropriety, including lack of required substantiating documentation for noncontracted providers and suppliers, or particular circumstances requiring special treatment which prevent timely payment from being made on the claim. A claim may not be considered not clean solely because a health insurer refers the claim to a medical specialist within the insurer for examination. If additional substantiating documentation, such as the medical record or encounter data, is required from a source outside the insurer, the claim is considered not clean. This definition of "clean claim" is repealed on the effective date of rules adopted by the department which define the term "clean claim."*

(b) *Absent a written definition that is agreed upon through contract, the term "clean claim" for an institutional claim is a properly and accurately completed paper or electronic billing instrument that consists of the UB-92 data set or its successor with entries stated as mandatory by the National Uniform Billing Committee.*

(3)(a) *A health insurer shall pay any clean claim or any portion of a clean claim made by a contract provider for services or goods provided*

under a contract with the health insurer, or a clean claim made by a noncontracted provider which the insurer does not contest or deny, within 45 days after receipt of the claim by the health insurer which is mailed or electronically transferred by the provider.

(b) A health insurer that denies or contests a provider's claim or any portion of a claim must notify the provider, in writing, within 45 days after the health insurer receives the claim that the claim is contested or denied. The notice that the claim is denied or contested must identify the contested portion of the claim and the specific reason for contesting or denying the claim, and, if contested, must include a request for additional medical information. If the provider submits additional information, the provider must, within 30 days after receipt of the request, mail or electronically transfer the information to the health insurer. The health insurer shall pay or deny the claim or portion of the claim within 45 days after receipt of the information.

(4) Payment of a claim is considered made on the date the payment was received, electronically transferred, or otherwise delivered. An overdue payment of a claim bears simple interest at the rate of 10 percent per year. Interest on an overdue payment for a clean claim, or for any uncontested portion of a clean claim, begins to accrue on the 46th day after the date the claim is received. The interest is payable with the payment of the claim.

(5) A health insurer must pay or deny a claim not later than 120 days after receiving the claim. Failure to do so creates an uncontestable obligation for the health insurer to pay the claim to the provider.

(6) If the claim has been electronically transmitted to the health insurer, a provider's claim for payment shall be considered received by the health insurer on the date receipt is verified electronically or, if the claim is mailed to the address provided by the insurer, on the date indicated on the return receipt. A provider may not submit a duplicate claim until 45 days following submission of the original claim.

(7) A provider, or the provider's designee, who bills electronically must be provided with an electronic acknowledgment of the receipt of a claim within 72 hours.

(8) A health insurer may not retroactively deny a claim because of an insured's ineligibility more than 1 year after the date of payment of a clean claim.

(9) The department shall adopt rules to establish claim-filing standards that are consistent with federal claim-filing standards required by the United States Secretary of Health and Human Services. The department shall adopt rules to require the code sets that are consistent with those adopted by the United States Secretary of Health and Human Services. These code sets shall apply to both electronic and paper claims. A code set, as defined by the Secretary, includes both the codes and the descriptors of the codes.

(10) Contracted and noncontracted health care providers who have a claims dispute that is not resolved by the health insurer and provider may submit the claims dispute to statewide provider and managed care organization claim dispute resolution program created by s. 408.7057 to have the claims dispute reviewed and considered by the resolution organization.

~~(2) Health insurers shall reimburse all claims or any portion of any claim from an insured or an insured's assignees, for payment under a health insurance policy, within 45 days after receipt of the claim by the health insurer. If a claim or a portion of a claim is contested by the health insurer, the insured or the insured's assignees shall be notified, in writing, that the claim is contested or denied, within 45 days after receipt of the claim by the health insurer. The notice that a claim is contested shall identify the contested portion of the claim and the reasons for contesting the claim.~~

~~(3) A health insurer, upon receipt of the additional information requested from the insured or the insured's assignees shall pay or deny the contested claim or portion of the contested claim, within 60 days.~~

~~(4) An insurer shall pay or deny any claim no later than 120 days after receiving the claim.~~

~~(5) Payment shall be treated as being made on the date a draft or other valid instrument which is equivalent to payment was placed in the United States mail in a properly addressed, postpaid envelope or, if not so posted, on the date of delivery.~~

~~(6) All overdue payments shall bear simple interest at the rate of 10 percent per year.~~

~~(11)(7) Upon written notification by an insured, an insurer shall investigate any claim of improper billing by a physician, hospital, or other health care provider. The insurer shall determine if the insured was properly billed for only those procedures and services that the insured actually received. If the insurer determines that the insured has been improperly billed, the insurer shall notify the insured and the provider of its findings and shall reduce the amount of payment to the provider by the amount determined to be improperly billed. If a reduction is made due to such notification by the insured, the insurer shall pay to the insured 20 percent of the amount of the reduction up to \$500.~~

Section 85. Except as otherwise provided herein, this act shall take effect July 1, 2001.

Section 85. *The Legislature finds that personal identifying information, name, age, diagnosis, address, bank account numbers, and debit and credit card numbers contained in the records relating to an individual's personal health or eligibility for health-related services made or received by the individual's physician and public or private health facility should be held confidential. Furthermore, the Legislature finds that every person has an expectation of and a right to privacy in all matters concerning her or his personal health when medical services are provided. Matters of personal health are traditionally private and confidential concerns between the patient and the health care provider. The private and confidential nature of personal health matters pervades both the public and private sectors. For these reasons, it is the express intent of the Legislature to protect confidential information and the individual's expectations of the right to privacy in all matters regarding her or his personal health and not to have such information exploited for purposes of solicitation or marketing the sale of goods and services.*

Section 86. Subsection (5) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished.—

(Amendment Bar Code: 183531)

**Amendment 1 (with title amendment)—**

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. *It is the intent of the Legislature that the Medical Quality Assurance Trust Fund should be administered in a fiscally responsible manner. It is also the intent of the Legislature that the Department of Health reduce expenses wherever possible to ensure that the cost of*

*regulation is reasonable and fair and does not serve as a barrier to licensure in this state. The Legislature adopts findings 1, 2, 4, 5, and 8 and the recommendations of the Auditor General's Medical Quality Assurance Operational Audit Report Number 01-063. In addition, the Legislature adopts recommendations 1, 2, 4, 5, and 7 of the Florida Senate Committee on Fiscal Policy Interim Project Report 2001-016.*

Section 2. *The Auditor General shall conduct a followup audit to the Medical Quality Assurance Operational Audit Report Number 01-063 to determine if the Department of Health has implemented the recommendations of that report. The Auditor General shall complete the followup audit and issue a report to the President of the Senate and the Speaker of the House of Representatives no later than January 31, 2002.*

Section 3. *The Office of Program Policy Analysis and Government Accountability shall study the feasibility of maintaining the entire Medical Quality Assurance function, including enforcement, within a single department. The study shall be completed and a report issued to the President of the Senate and the Speaker of the House of Representatives no later than November 30, 2001.*

Section 4. Subsection (1) of section 456.004, Florida Statutes, is amended, and subsection (10) is added to that section, to read:

456.004 Department; powers and duties.—The department, for the professions under its jurisdiction, shall:

(1) Adopt rules establishing a procedure for the biennial renewal of licenses; however, the department may issue up to a 4-year license to selected licensees notwithstanding any other provisions of law to the contrary. *The rules shall specify the expiration dates of licenses and the process for tracking compliance with continuing education requirements, financial responsibility requirements, and any other conditions of renewal set forth in statute or rule.* Fees for such renewal shall not exceed the fee caps for individual professions on an annualized basis as authorized by law.

(10) *Set an examination fee that includes all costs to develop, purchase, validate, administer, and defend the examination and is an amount certain to cover all administrative costs plus the actual per-applicant cost of the examination.*

Section 5. Section 456.025, Florida Statutes, is amended to read:

456.025 Fees; receipts; disposition.—

(1) *It is the intent of the Legislature that all costs of regulating health care professions and practitioners shall be borne solely by licensees and licensure applicants. It is also the intent of the Legislature that fees should be reasonable and not serve as a barrier to licensure. Moreover, it is the intent of the Legislature that the department operate as efficiently as possible and regularly report to the Legislature additional methods to streamline operational costs. Therefore, the boards in consultation with the department, or the department if there is no board, shall, by rule, set renewal fees which:*

(a) *Shall be based on revenue projections prepared using generally accepted accounting procedures;*

(b) *Shall be adequate to cover all expenses relating to that board identified in the department's long-range policy plan, as required by s. 456.005;*

(c) *Shall be reasonable, fair, and not serve as a barrier to licensure;*

(d) *Shall be based on potential earnings from working under the scope of the license;*

(e) *Shall be similar to fees imposed on similar licensure types;*

(f) *Shall not be more than 10% greater than the fee imposed for the previous biennium;*

(g) *Shall not be more than 10% greater than the actual cost to regulate that profession for the previous biennium; and*

(h) *Shall be subject to challenge pursuant to chapter 120.*

(2) *The chairpersons of the boards and councils listed in s. 20.43(3)(g), shall meet annually at division headquarters to review the long-range policy plan required by s. 456.005 and current and proposed fee schedules. The chairpersons shall make recommendations for any necessary statutory changes relating to fees and fee caps. Such recommendations shall be compiled by the Department of Health and be included in the annual report to the Legislature required by s. 456.026 as well as be included in the long-range policy plan required by s. 456.005.*

(2)(4) Each board within the jurisdiction of the department, or the department when there is no board, shall determine by rule the amount of license fees for the profession it regulates, based upon long-range estimates prepared by the department of the revenue required to implement laws relating to the regulation of professions by the department and the board. Each board, or the department if there is no board, shall ensure that license fees are adequate to cover all anticipated costs and to maintain a reasonable cash balance, as determined by rule of the agency, with advice of the applicable board. If sufficient action is not taken by a board within 1 year after notification by the department that license fees are projected to be inadequate, the department shall set license fees on behalf of the applicable board to cover anticipated costs and to maintain the required cash balance. The department shall include recommended fee cap increases in its annual report to the Legislature. Further, it is the legislative intent that no regulated profession operate with a negative cash balance. The department may provide by rule for advancing sufficient funds to any profession operating with a negative cash balance. The advancement may be for a period not to exceed 2 consecutive years, and the regulated profession must pay interest. Interest shall be calculated at the current rate earned on investments of a trust fund used by the department to implement this chapter. Interest earned shall be allocated to the various funds in accordance with the allocation of investment earnings during the period of the advance.

(3)(2) Each board, or the department if there is no board, may charge a fee not to exceed \$25, as determined by rule, for the issuance of a wall certificate pursuant to s. 456.013(2) requested by a licensee who was licensed prior to July 1, 1998, or for the issuance of a duplicate wall certificate requested by any licensee.

(4)(3) Each board, or the department if there is no board, may, by rule, assess and collect a one-time fee from each active status licensee and each inactive status licensee in an amount necessary to eliminate a cash deficit or, if there is not a cash deficit, in an amount sufficient to maintain the financial integrity of the professions as required in this section. Not more than one such assessment may be made in any 4-year period without specific legislative authorization.

(5) *If the cash balance of the trust fund at the end of any fiscal year exceeds the total appropriation provided for the regulation of the health care professions in the prior fiscal year, the boards, in consultation with the department, may lower the license renewal fees.*

(6)(4) ~~Each board authorized to approve continuing education providers, or the department if there is no board, shall may establish, by rule, a fee not to exceed \$250 for anyone seeking approval to provide continuing education courses or programs and shall may establish by rule a biennial renewal fee not to exceed \$250 for the renewal of providership of such courses. The fees collected from continuing education providers shall be used for the purposes of reviewing course provider applications, monitoring the integrity of the courses provided, covering legal expenses incurred as a result of not granting or renewing a providership, and developing and maintaining an electronic continuing education tracking system. The department shall implement an electronic continuing education tracking system for each new biennial renewal cycle for which electronic renewals are implemented after the effective date of this act and shall integrate such system into the licensure and renewal system. All approved continuing education providers shall provide information on course attendance to the department necessary to implement the electronic tracking system. The department shall, by rule, specify the form and procedures by which the information is to be submitted. This subsection does not apply to continuing education courses or providers approved by the board under chapter 465.~~

(7)(5) All moneys collected by the department from fees or fines or from costs awarded to the agency by a court shall be paid into a trust fund used by the department to implement this chapter. The Legislature shall appropriate funds from this trust fund sufficient to carry out this chapter and the provisions of law with respect to professions regulated by the Division of Medical Quality Assurance within the department and the boards. The department may contract with public and private entities to receive and deposit revenue pursuant to this section. The department shall maintain separate accounts in the trust fund used by the department to implement this chapter for every profession within the department. To the maximum extent possible, the department shall directly charge all expenses to the account of each regulated profession. For the purpose of this subsection, direct charge expenses include, but are not limited to, costs for investigations, examinations, and legal services. For expenses that cannot be charged directly, the department shall provide for the proportionate allocation among the accounts of expenses incurred by the department in the performance of its duties with respect to each regulated profession. The regulation by the department of professions, as defined in this chapter, shall be financed solely from revenue collected by it from fees and other charges and deposited in the Medical Quality Assurance Trust Fund, and all such revenue is hereby appropriated to the department. However, it is legislative intent that each profession shall operate within its anticipated fees. The department may not expend funds from the account of a profession to pay for the expenses incurred on behalf of another profession, except that the Board of Nursing must pay for any costs incurred in the regulation of certified nursing assistants. The department shall maintain adequate records to support its allocation of agency expenses. The department shall provide any board with reasonable access to these records upon request. *On or before October 1 of each year, the department shall provide each board an annual report of revenue and direct and allocated expenses related to the operation of that profession. The board shall use these reports and the department's adopted long-range plan to determine the amount of license fees. A condensed version of this information, with the department's recommendations, shall be included in the annual report to the Legislature prepared under s. 456.026.*

(8)(6) The department shall provide a condensed management report of budgets, finances, performance statistics, and recommendations to each board at least once a quarter. The department shall identify and include in such presentations any changes, or projected changes, made to the board's budget since the last presentation.

(9)(7) If a duplicate license is required or requested by the licensee, the board or, if there is no board, the department may charge a fee as determined by rule not to exceed \$25 before issuance of the duplicate license.

(10)(8) The department or the appropriate board shall charge a fee not to exceed \$25 for the certification of a public record. The fee shall be determined by rule of the department. The department or the appropriate board shall assess a fee for duplicating a public record as provided in s. 119.07(1)(a) and (b).

Section 6. Subsections (1) of section 457.107, Florida Statutes, is amended to read:

457.107 Renewal of licenses; continuing education.—

(1) The department shall renew a license upon receipt of the renewal application and the *required* fee set by the board by rule, not to exceed \$500.

The board shall establish fees that are adequate to ensure the continued operation of the board and to fund the proportionate expenses incurred by the department in carrying out its licensure and other related responsibilities under this part. Fees shall be based on departmental estimates of the revenue required to implement this part and the provisions of law with respect to the regulation of clinical laboratory personnel.

Unless otherwise provided by law, 51 percent or more of the appointed members of the board or any committee, when applicable, shall constitute a quorum. The membership of committees of the board, except as otherwise authorized pursuant to this chapter or the applicable practice act, shall be composed of currently appointed members of the board. The vote of a majority of the members of the quorum shall be necessary for any official action by the board or committee. Three consecutive unexcused absences or absences constituting 50 percent or more of the board's meetings within any 12-month period shall cause the board membership of the member in question to become void, and the position shall be considered vacant. The board, or the department when there is no board, shall, by rule, define unexcused absences.

Section 11. Section 456.017, Florida Statutes, is amended to read:

456.017 Department of Health; examinations.—

(1)(a) The department shall provide, contract, or approve services for the development, preparation, administration, scoring, score reporting, and evaluation of all examinations, in consultation with the appropriate board. The department shall certify that examinations developed and approved by the department adequately and reliably measure an applicant's ability to practice the profession regulated by the department. After an examination developed or approved by the department has been administered, the board, or the department when there is no board, may reject any question which does not reliably measure the general areas of competency specified in the rules of the board. The department may contract for the preparation, administration, scoring, score reporting, and evaluation of examinations, when such services are available and approved by the board.

(b) For each examination developed by the department or contracted vendor, to the extent not otherwise specified by statute, the board, or the department when there is no board, shall by rule specify the general areas of competency to be covered by each examination, the relative weight to be assigned in grading each area tested, and the score necessary to achieve a passing grade. *The department shall assess, and fees, where applicable, to cover the actual cost for any purchase, development, validation, and administration, and defense of required examinations.* This subsection does not apply to national examinations approved and administered pursuant to paragraph (c). If a practical examination is deemed to be necessary, the rules shall specify the criteria by which examiners are to be selected, the grading criteria to be used by the examiner, the relative weight to be assigned in grading each criterion, and the score necessary to achieve a passing grade. When a mandatory standardization exercise for a practical examination is required by law, the board, or the department when there is no board, may conduct such exercise. Therefore, board members, or employees of the department when there is no board, may serve as examiners at a practical examination with the consent of the board or department, as appropriate.

(c)1. The board, or the department when there is no board, ~~shall~~ *may* approve by rule the use of *one or more any* national examinations ~~examination~~ which the department has certified as meeting requirements of national examinations and generally accepted testing standards pursuant to department rules. Providers of examinations seeking certification by the department shall pay the actual costs incurred by the department in making a determination regarding the certification. The name and number of a candidate may be provided to a national contractor for the limited purpose of preparing the grade tape and information to be returned to the board or department; or, to the extent otherwise specified by rule, the candidate may apply directly to the vendor of the national examination and supply test score information to the department. The department may delegate to the board the duty to provide and administer the examination. Any national examination approved by a board, or the department when there is no board, prior to October 1, 1997, is deemed certified under this paragraph.

2. *The board, or the department when there is no board, shall approve and begin administering a national examination no later than December 31, 2001. Neither the board nor the department may administer a state-developed written examination after December 31, 2001, notwithstanding any other provision of law. The examination may be administered electronically if adequate security measures are used, as determined by rule of the department.*

3. *The board, or the department when there is no board, may administer a state-developed practical or clinical examination, as required by the applicable practice act, if all costs of development, purchase, validation, administration, review, and defense are paid by the examination candidate prior to the administration of the examination. If a national practical or clinical examination is available and certified by the department pursuant to this section, the board, or the department when there is no board, may administer the national examination.*

4. *It is the intent of the Legislature to reduce the costs associated with state examinations and to encourage the use of national examinations whenever possible.*

(d) Each board, or the department when there is no board, shall adopt rules regarding the security and monitoring of examinations. The department shall implement those rules adopted by the respective boards. In order to maintain the security of examinations, the department may employ the procedures set forth in s. 456.065 to seek fines and injunctive relief against an examinee who violates the provisions of s. 456.018 or the rules adopted pursuant to this paragraph. The department, or any agent thereof, may, for the purposes of investigation, confiscate any written, photographic, or recording material or device in the possession of the examinee at the examination site which the department deems necessary to enforce such provisions or rules. *The scores of candidates who have taken state-developed examinations shall be provided to the candidates electronically using a candidate identification number, and the department shall post the aggregate scores on the department's website without identifying the names of the candidates.*

(e) If the professional board with jurisdiction over an examination concurs, the department may, for a fee, share with any other state's licensing authority or a national testing entity an examination or examination item bank developed by or for the department unless prohibited by a contract entered into by the department for development or purchase of the examination. The department, with the concurrence of the appropriate board, shall establish guidelines that ensure security of a shared exam and shall require that any other state's licensing authority comply with those guidelines. Those guidelines shall be approved by the appropriate professional board. All fees paid by the user shall be applied to the department's examination and development program for professions regulated by this chapter.

(f) The department may adopt rules necessary to administer this subsection.

(2) For each examination developed by the department or a contracted vendor, the board, or the department when there is no board, shall adopt rules providing for reexamination of any applicants who failed an examination developed by the department or a contracted vendor. If both a written and a practical examination are given, an applicant shall be required to retake only the portion of the examination on which the applicant failed to achieve a passing grade, if the applicant successfully passes that portion within a reasonable time, as determined by rule of the board, or the department when there is no board, of passing the other portion. Except for national examinations approved and administered pursuant to this section, the department shall provide procedures for applicants who fail an examination developed by the department or a contracted vendor to review their examination questions, answers, papers, grades, and grading key for the questions the candidate answered incorrectly or, if not feasible, the parts of the examination failed. Applicants shall bear the actual cost for the department to provide examination review pursuant to this subsection. An applicant may waive in writing the confidentiality of the applicant's examination grades. *Notwithstanding any other provisions, only candidates who fail an examination by less than ten percent shall be entitled to challenge the validity of the examination at hearing.*

(3) For each examination developed or administered by the department or a contracted vendor, an accurate record of each applicant's examination questions, answers, papers, grades, and grading key shall be kept for a period of not less than 2 years immediately following the examination, and such record shall thereafter be maintained or destroyed as provided in chapters 119 and 257. This subsection does not apply to national examinations approved and administered pursuant to this section.

(4) Meetings of any member of the department or of any board within the department held for the exclusive purpose of creating or reviewing licensure examination questions or proposed examination questions are exempt from the provisions of s. 286.011 and s. 24(b), Art. I of the State Constitution. Any public records, such as tape recordings, minutes, or notes, generated during or as a result of such meetings are

confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution. However, these exemptions shall not affect the right of any person to review an examination as provided in subsection (2).

(5) For examinations developed by the department or a contracted vendor, each board, or the department when there is no board, may provide licensure examinations in an applicant's native language. *Notwithstanding any other provision of law*, applicants for examination or reexamination pursuant to this subsection shall bear the full cost for the department's development, preparation, *validation*, administration, grading, and evaluation of any examination in a language other than English *prior to the examination being administered*. Requests for translated examinations must be on file in the board office at least 6 months prior to the scheduled examination. When determining whether it is in the public interest to allow the examination to be translated into a language other than English, the board shall consider the percentage of the population who speak the applicant's native language. Applicants must apply for translation to the applicable board at least 6 months prior to the scheduled examination.

(6) In addition to meeting any other requirements for licensure by examination or by endorsement, *and notwithstanding the provisions in paragraph (1)(c)*, an applicant may be required by a board, or the department when there is no board, to certify competency in state laws and rules relating to the applicable practice act. *Beginning October 1, 2001, all laws and rules examinations shall be administered electronically unless the laws and rules examination is administered concurrently with another written examination for that profession.*

Section 12. Subsection (1) of section 456.035, Florida Statutes, is amended to read:

456.035 Address of record.—

(1) Each licensee of the department is solely responsible for notifying the department in writing of the licensee's current mailing address and place of practice, as defined by rule of the board or the department if there is no board. *Electronic notification shall be allowed by the department; however, it shall be the responsibility of the licensee to ensure that the electronic notification was received by the department.* A licensee's failure to notify the department of a change of address constitutes a violation of this section, and the licensee may be disciplined by the board or the department if there is no board.

Section 13. Subsections (2), (4), and (10) of section 456.073, Florida Statutes, are amended to read:

456.073 Disciplinary proceedings.—Disciplinary proceedings for each board shall be within the jurisdiction of the department.

(2) The department shall allocate sufficient and adequately trained staff to expeditiously and thoroughly determine legal sufficiency and investigate all legally sufficient complaints. For purposes of this section, it is the intent of the Legislature that the term "expeditiously" means that the department complete the report of its initial investigative findings and recommendations concerning the existence of probable cause within 6 months after its receipt of the complaint. The failure of the department, for disciplinary cases under its jurisdiction, to comply with the time limits of this section while investigating a complaint against a licensee constitutes harmless error in any subsequent disciplinary action unless a court finds that either the fairness of the proceeding or the correctness of the action may have been impaired by a material error in procedure or a failure to follow prescribed procedure. When its investigation is complete and legally sufficient, the department shall prepare and submit to the probable cause panel of the appropriate regulatory board the investigative report of the department. The report shall contain the investigative findings and the recommendations of the department concerning the existence of probable cause. *The department shall not recommend a letter of guidance in lieu of finding probable cause if the subject has already been issued a letter of guidance for a related offense.* At any time after legal sufficiency is found, the department may dismiss any case, or any part thereof, if the department determines that there is insufficient evidence

to support the prosecution of allegations contained therein. The department shall provide a detailed report to the appropriate probable cause panel prior to dismissal of any case or part thereof, and to the subject of the complaint after dismissal of any case or part thereof, under this section. For cases dismissed prior to a finding of probable cause, such report is confidential and exempt from s. 119.07(1). The probable cause panel shall have access, upon request, to the investigative files pertaining to a case prior to dismissal of such case. If the department dismisses a case, the probable cause panel may retain independent legal counsel, employ investigators, and continue the investigation and prosecution of the case as it deems necessary.

(4) The determination as to whether probable cause exists shall be made by majority vote of a probable cause panel of the board, or by the department, as appropriate. Each regulatory board shall provide by rule that the determination of probable cause shall be made by a panel of its members or by the department. Each board may provide by rule for multiple probable cause panels composed of at least two members. Each board may provide by rule that one or more members of the panel or panels may be a former board member. The length of term or repetition of service of any such former board member on a probable cause panel may vary according to the direction of the board when authorized by board rule. Any probable cause panel must include one of the board's former or present consumer members, if one is available, is willing to serve, and is authorized to do so by the board chair. Any probable cause panel must include a present board member. Any probable cause panel must include a former or present professional board member. However, any former professional board member serving on the probable cause panel must hold an active valid license for that profession. All proceedings of the panel are exempt from s. 286.011 until 10 days after probable cause has been found to exist by the panel or until the subject of the investigation waives his or her privilege of confidentiality. The probable cause panel may make a reasonable request, and upon such request the department shall provide such additional investigative information as is necessary to the determination of probable cause. A request for additional investigative information shall be made within 15 days from the date of receipt by the probable cause panel of the investigative report of the department or the agency. The probable cause panel or the department, as may be appropriate, shall make its determination of probable cause within 30 days after receipt by it of the final investigative report of the department. The secretary may grant extensions of the 15-day and the 30-day time limits. In lieu of a finding of probable cause, the probable cause panel, or the department if there is no board, may issue a letter of guidance to the subject. If, within the 30-day time limit, as may be extended, the probable cause panel does not make a determination regarding the existence of probable cause or does not issue a letter of guidance in lieu of a finding of probable cause, the department must make a determination regarding the existence of probable cause within 10 days after the expiration of the time limit. If the probable cause panel finds that probable cause exists, it shall direct the department to file a formal complaint against the licensee. The department shall follow the directions of the probable cause panel regarding the filing of a formal complaint. If directed to do so, the department shall file a formal complaint against the subject of the investigation and prosecute that complaint pursuant to chapter 120. However, the department may decide not to prosecute the complaint if it finds that probable cause has been improvidently found by the panel. In such cases, the department shall refer the matter to the board. The board may then file a formal complaint and prosecute the complaint pursuant to chapter 120. The department shall also refer to the board any investigation or disciplinary proceeding not before the Division of Administrative Hearings pursuant to chapter 120 or otherwise completed by the department within 1 year after the filing of a complaint. The department, for disciplinary cases under its jurisdiction, must establish a uniform reporting system to quarterly refer to each board the status of any investigation or disciplinary proceeding that is not before the Division of Administrative Hearings or otherwise completed by the department within 1 year after the filing of the complaint. Annually, the department, *in consultation with the applicable probable cause panel, if there is no board, or each board* must establish a plan to expedite ~~reduce~~ or otherwise close any investigation or disciplinary proceeding that is not before the Division of

Administrative Hearings or otherwise completed by the department within 1 year after the filing of the complaint. A probable cause panel or a board may retain independent legal counsel, employ investigators, and continue the investigation as it deems necessary; all costs thereof shall be paid from a trust fund used by the department to implement this chapter. All proceedings of the probable cause panel are exempt from s. 120.525.

(10) The complaint and all information obtained pursuant to the investigation by the department are confidential and exempt from s. 119.07(1) until 10 days after probable cause has been found to exist by the probable cause panel or by the department, or until the regulated professional or subject of the investigation waives his or her privilege of confidentiality, whichever occurs first. Upon completion of the investigation *and a recommendation by the department to find probable cause*, and pursuant to a written request by the subject *or the subject's attorney*, the department shall provide the subject an opportunity to inspect the investigative file or, at the subject's expense, forward to the subject a copy of the investigative file. Notwithstanding s. 456.057, the subject may inspect or receive a copy of any expert witness report or patient record connected with the investigation if the subject agrees in writing to maintain the confidentiality of any information received under this subsection until 10 days after probable cause is found and to maintain the confidentiality of patient records pursuant to s. 456.057. The subject may file a written response to the information contained in the investigative file. Such response must be filed within 20 days *of mailing by the department*, unless an extension of time has been granted by the department. This subsection does not prohibit the department from providing such information to any law enforcement agency or to any other regulatory agency.

Section 14. Section 456.081, Florida Statutes, is amended to read:

456.081 Publication of information.—The department and the boards shall have the authority to advise licensees periodically, through the publication of a newsletter *on the department's website*, about information that the department or the board determines is of interest to the industry. Unless otherwise prohibited by law, the department and the boards shall publish a summary of final orders resulting in ~~disciplinary action fines, suspensions, or revocations~~, and any other information the department or the board determines is of interest to the public.

Section 15. Subsections (1), (2), and (4) of section 456.072, Florida Statutes, are amended to read:

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(f) Having a license or the authority to practice any regulated profession revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of any jurisdiction, including its agencies or subdivisions, for a violation that would constitute a violation under Florida law. The licensing authority's acceptance of a relinquishment of licensure, stipulation, consent order,

or other settlement, offered in response to or in anticipation of the filing of charges against the license, shall be construed as action against the license.

(g) Having been found liable in a civil proceeding for knowingly filing a false report or complaint with the department against another licensee.

(h) Attempting to obtain, obtaining, or renewing a license to practice a profession by bribery, by fraudulent misrepresentation, or through an error of the department or the board.

(r) Improperly interfering with an investigation or inspection authorized by statute, or with any disciplinary proceeding.

(s) Failing to comply with the educational course requirements for domestic violence.

(t) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(x) Using information about people involved in motor vehicle accidents which has been derived from accident reports made by law enforcement officers or persons involved in accidents pursuant to s. 316.066, or using information published in a newspaper or other news publication or through a radio or television broadcast that has used information gained from such reports, for the purposes of commercial or any other solicitation whatsoever of the people involved in such accidents.

(y) Being unable to practice with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon a finding of the secretary or the secretary's designee that probable cause exists to believe that the licensee is unable to practice because of the reasons stated in this paragraph, the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the department. If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or does business. The department shall be entitled to the summary procedure provided in s. 51.011. A licensee or certificateholder affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of his or her profession with reasonable skill and safety to patients.

(a) Refusal to certify, or to certify with restrictions, an application for a license.

(b) Suspension or permanent revocation of a license.

(c) Restriction of practice or license, *including, but not limited to, restricting the licensee from practicing in certain settings, restricting the licensee to work only under designated conditions or in certain settings, restricting the licensee from performing or providing designated clinical and administrative services, restricting the licensee from practicing more than a designated number of hours, or any other restriction found to be necessary for the protection of the public health, safety, and welfare.*

(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense. *If the violation is for fraud or making a false or fraudulent representation, the board, or department if there is no board, shall impose a fine of \$10,000 per count or offense.*

All costs associated with compliance with orders issued under this subsection are the obligation of the practitioner.

(4) In addition to any other discipline imposed pursuant to this section or discipline imposed for a violation of any practice act, the board, or the department when there is no board, ~~shall~~ *may* assess costs related to the investigation and prosecution of the case. 456.079 Disciplinary guidelines.—

(3) A specific finding *in the final order* of mitigating or aggravating circumstances shall allow the board to impose a penalty other than that provided for in such guidelines. If applicable, the board, or the department if there is no board, shall adopt by rule disciplinary guidelines to designate possible mitigating and aggravating circumstances and the variation and range of penalties permitted for such circumstances.

If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or serves as an acupuncturist. The licensee against whom the petition is filed shall not be named or identified by initials in any public court record or document, and the proceedings shall be closed to the public. The department shall be entitled to the summary procedure provided in s. 51.011. An acupuncturist affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of acupuncture with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the department shall be used against an acupuncturist in any other proceeding.

(p) Gross or repeated malpractice or the failure to practice acupuncture with that level of care, skill, and treatment which is recognized by a reasonably prudent similar acupuncturist as being acceptable under similar conditions and circumstances.

Section 19. Subsections (1) and (2) of section 458.331, Florida Statutes, are amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

(1) The following acts ~~shall constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2) which the disciplinary actions specified in subsection (2) may be taken:~~

(a) Attempting to obtain, obtaining, or renewing a license to practice medicine by bribery, by fraudulent misrepresentations, or through an error of the department or the board.

(b) Having a license or the authority to practice medicine revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of any jurisdiction, including its agencies or subdivisions. The licensing authority's acceptance of a physician's relinquishment of a license, stipulation, consent order, or other settlement, offered in response to or in anticipation of the filing of administrative charges against the physician's license, shall be construed as action against the physician's license.

(c) Being convicted or found guilty of, or entering a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction which directly relates to the practice of medicine or to the ability to practice medicine.

(d) False, deceptive, or misleading advertising.

(e) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department or

the board. A treatment provider approved pursuant to s. 456.076 shall provide the department or consultant with information in accordance with the requirements of s. 456.076(3), (4), (5), and (6).

(f) Aiding, assisting, procuring, or advising any unlicensed person to practice medicine contrary to this chapter or to a rule of the department or the board.

(g) Failing to perform any statutory or legal obligation placed upon a licensed physician.

(h) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such reports or records shall include only those which are signed in the capacity as a licensed physician.

(i) Paying or receiving any commission, bonus, kickback, or rebate, or engaging in any split-fee arrangement in any form whatsoever with a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent a physician from receiving a fee for professional consultation services.

(j) Exercising influence within a patient-physician relationship for purposes of engaging a patient in sexual activity. A patient shall be presumed to be incapable of giving free, full, and informed consent to sexual activity with his or her physician.

(k) Making deceptive, untrue, or fraudulent representations in or related to the practice of medicine or employing a trick or scheme in the practice of medicine.

(l) Soliciting patients, either personally or through an agent, through the use of fraud, intimidation, undue influence, or a form of overreaching or vexatious conduct. A solicitation is any communication which directly or implicitly requests an immediate oral response from the recipient.

(m) Failing to keep legible, as defined by department rule in consultation with the board, medical records that identify the licensed physician or the physician extender and supervising physician by name and professional title who is or are responsible for rendering, ordering, supervising, or billing for each diagnostic or treatment procedure and that justify the course of treatment of the patient, including, but not limited to, patient histories; examination results; test results; records of drugs prescribed, dispensed, or administered; and reports of consultations and hospitalizations.

(n) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party, which shall include, but not be limited to, the promoting or selling of services, goods, appliances, or drugs.

(o) Promoting or advertising on any prescription form of a community pharmacy unless the form shall also state "This prescription may be filled at any pharmacy of your choice."

(p) Performing professional services which have not been duly authorized by the patient or client, or his or her legal representative, except as provided in s. 743.064, s. 766.103, or s. 768.13.

(q) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including any controlled substance, other than in the course of the physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the physician's professional practice, without regard to his or her intent.

(r) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the physician to

himself or herself, except one prescribed, dispensed, or administered to the physician by another practitioner authorized to prescribe, dispense, or administer medicinal drugs.

(s) Being unable to practice medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon a finding of the secretary or the secretary's designee that probable cause exists to believe that the licensee is unable to practice medicine because of the reasons stated in this paragraph, the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the department. If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or does business. The licensee against whom the petition is filed may not be named or identified by initials in any public court records or documents, and the proceedings shall be closed to the public. The department shall be entitled to the summary procedure provided in s. 51.011. A licensee or certificateholder affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of medicine with reasonable skill and safety to patients.

(t) Gross or repeated malpractice or the failure to practice medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances. The board shall give great weight to the provisions of s. 766.102 when enforcing this paragraph. As used in this paragraph, "repeated malpractice" includes, but is not limited to, three or more claims for medical malpractice within the previous 5-year period resulting in indemnities being paid in excess of \$25,000 each to the claimant in a judgment or settlement and which incidents involved negligent conduct by the physician. As used in this paragraph, "gross malpractice" or "the failure to practice medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances," shall not be construed so as to require more than one instance, event, or act. Nothing in this paragraph shall be construed to require that a physician be incompetent to practice medicine in order to be disciplined pursuant to this paragraph.

(u) Performing any procedure or prescribing any therapy which, by the prevailing standards of medical practice in the community, would constitute experimentation on a human subject, without first obtaining full, informed, and written consent.

(v) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that he or she is not competent to perform. The board may establish by rule standards of practice and standards of care for particular practice settings, including, but not limited to, education and training, equipment and supplies, medications including anesthetics, assistance of and delegation to other personnel, transfer agreements, sterilization, records, performance of complex or multiple procedures, informed consent, and policy and procedure manuals.

(w) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

(x) ~~Violating any provision of this chapter, a rule of the board or department, or a lawful order of the board or department previously entered in a disciplinary hearing or failing to comply with a lawfully issued subpoena of the department.~~

(y) Conspiring with another licensee or with any other person to commit an act, or committing an act, which would tend to coerce, intimidate, or preclude another licensee from lawfully advertising his or her services.

(z) Procuring, or aiding or abetting in the procuring of, an unlawful termination of pregnancy.

(aa) Presigning blank prescription forms.

(bb) Prescribing any medicinal drug appearing on Schedule II in chapter 893 by the physician for office use.

(cc) Prescribing, ordering, dispensing, administering, supplying, selling, or giving any drug which is a Schedule II amphetamine or a Schedule II sympathomimetic amine drug or any compound thereof, pursuant to chapter 893, to or for any person except for:

1. The treatment of narcolepsy; hyperkinesia; behavioral syndrome characterized by the developmentally inappropriate symptoms of moderate to severe distractibility, short attention span, hyperactivity, emotional lability, and impulsivity; or drug-induced brain dysfunction;

2. The differential diagnostic psychiatric evaluation of depression or the treatment of depression shown to be refractory to other therapeutic modalities; or

3. The clinical investigation of the effects of such drugs or compounds when an investigative protocol therefor is submitted to, reviewed, and approved by the board before such investigation is begun.

(dd) Failing to supervise adequately the activities of those physician assistants, paramedics, emergency medical technicians, or advanced registered nurse practitioners acting under the supervision of the physician.

(ee) Prescribing, ordering, dispensing, administering, supplying, selling, or giving growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), or other hormones for the purpose of muscle building or to enhance athletic performance. For the purposes of this subsection, the term "muscle building" does not include the treatment of injured muscle. A prescription written for the drug products listed above may be dispensed by the pharmacist with the presumption that the prescription is for legitimate medical use.

(ff) Prescribing, ordering, dispensing, administering, supplying, selling, or giving amygdalin (laetrile) to any person.

(gg) Misrepresenting or concealing a material fact at any time during any phase of a licensing or disciplinary process or procedure.

(hh) Improperly interfering with an investigation or with any disciplinary proceeding.

(ii) Failing to report to the department any licensee under this chapter or under chapter 459 who the physician or physician assistant knows has violated the grounds for disciplinary action set out in the law under which that person is licensed and who provides health care services in a facility licensed under chapter 395, or a health maintenance organization certificated under part I of chapter 641, in which the physician or physician assistant also provides services.

(jj) Being found by any court in this state to have provided corroborating written medical expert opinion attached to any statutorily required notice of claim or intent or to any statutorily required response rejecting a claim, without reasonable investigation.

(kk) Failing to report to the board, in writing, within 30 days if action as defined in paragraph (b) has been taken against one's license to practice medicine in another state, territory, or country.

(ll) Advertising or holding oneself out as a board-certified specialist, if not qualified under s. 458.3312, in violation of this chapter.

(mm) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(nn) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

(2) *The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s.*

~~456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), including conduct that would constitute a substantial violation of subsection (1) which occurred prior to licensure, it may enter an order imposing one or more of the following penalties:~~

- ~~(a) Refusal to certify, or certification with restrictions, to the department an application for licensure, certification, or registration.~~
- ~~(b) Revocation or suspension of a license.~~
- ~~(c) Restriction of practice.~~
- ~~(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.~~
- ~~(e) Issuance of a reprimand.~~
- ~~(f) Placement of the physician on probation for a period of time and subject to such conditions as the board may specify, including, but not limited to, requiring the physician to submit to treatment, to attend continuing education courses, to submit to reexamination, or to work under the supervision of another physician.~~
- ~~(g) Issuance of a letter of concern.~~
- ~~(h) Corrective action.~~
- ~~(i) Refund of fees billed to and collected from the patient.~~
- ~~(j) Imposition of an administrative fine in accordance with s. 381.0261 for violations regarding patient rights.~~

In determining what action is appropriate, the board must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the physician. All costs associated with compliance with orders issued under this subsection are the obligation of the physician.

Section 20. Subsection (2) of section 458.345, Florida Statutes, is amended to read:

458.345 Registration of resident physicians, interns, and fellows; list of hospital employees; prescribing of medicinal drugs; penalty.—

(2) The board shall not certify to the department for registration any applicant who is under investigation in any state or jurisdiction for an act which would constitute *grounds* the basis for imposing a disciplinary action under penalty specified in s. 458.331(2)(b) until such time as the investigation is completed, at which time the provisions of s. 458.331 shall apply.

Section 21. Subsection (7) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(7) PHYSICIAN ASSISTANT LICENSURE.—

459.0085 Financial responsibility.—

(6) Any deceptive, untrue, or fraudulent representation by the licensee with respect to any provision of this section shall result in permanent disqualification from any exemption to mandated financial responsibility as provided in this section and shall constitute grounds for disciplinary action under as specified in s. 459.015.

(p) Prescribing, dispensing, or administering any medicinal drug except as authorized by s. 460.403(9)(c)2., performing any surgery, or practicing obstetrics.

(q) Being unable to practice chiropractic medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, upon a finding by the secretary of the department, or his or her designee, or the probable cause panel of the board that probable cause exists to believe that the licensee is unable to practice the profession because of reasons stated in this paragraph, the department shall have the authority to compel a licensee to submit to a mental or physical examination by a physician designated by the department. If the licensee refuses to comply with the department's order, the department may file a petition for enforcement in the circuit court of the circuit in which the licensee resides or does business. The department shall be entitled to the summary procedure provided in s. 51.011. The record of proceedings to obtain a compelled mental or physical examination shall not be used against a licensee in any other proceedings. A chiropractic physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of chiropractic medicine with reasonable skill and safety to patients.

(r) Gross or repeated malpractice or the failure to practice chiropractic medicine at a level of care, skill, and treatment which is recognized by a reasonably prudent chiropractic physician as being acceptable under similar conditions and circumstances. The board shall give great weight to the standards for malpractice in s. 766.102 in interpreting this provision. A recommended order by an administrative law judge, or a final order of the board finding a violation under this section shall specify whether the licensee was found to have committed "gross malpractice," "repeated malpractice," or "failure to practice chiropractic medicine with that level of care, skill, and treatment which is recognized as being acceptable under similar conditions and circumstances" or any combination thereof, and any publication by the board shall so specify.

(s) Performing any procedure or prescribing any therapy which, by the prevailing standards of chiropractic medical practice in the

community, would constitute experimentation on human subjects, without first obtaining full, informed, and written consent.

(t) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform.

(u) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

(v) Violating ~~any provision of this chapter, any rule of the board or department, or a lawful order of the board or department previously entered in a disciplinary hearing or failing to comply with a lawfully issued subpoena of the department.~~

(w) Conspiring with another licensee or with any other person to commit an act, or committing an act, which would tend to coerce, intimidate, or preclude another licensee from lawfully advertising her or his services.

(x) Submitting to any third-party payor a claim for a service or treatment which was not actually provided to a patient.

(y) Failing to preserve identity of funds and property of a patient. As provided by rule of the board, money or other property entrusted to a chiropractic physician for a specific purpose, including advances for costs and expenses of examination or treatment, is to be held in trust and must be applied only to that purpose. Money and other property of patients coming into the hands of a chiropractic physician are not subject to counterclaim or setoff for chiropractic physician's fees, and a refusal to account for and deliver over such money and property upon demand shall be deemed a conversion. This is not to preclude the retention of money or other property upon which the chiropractic physician has a valid lien for services or to preclude the payment of agreed fees from the proceeds of transactions for examinations or treatments. Controversies as to the amount of the fees are not grounds for disciplinary proceedings unless the amount demanded is clearly excessive or extortionate, or the demand is fraudulent. All funds of patients paid to a chiropractic physician, other than advances for costs and expenses, shall be deposited in one or more identifiable bank accounts maintained in the state in which the chiropractic physician's office is situated, and no funds belonging to the chiropractic physician shall be deposited therein except as follows:

1. Funds reasonably sufficient to pay bank charges may be deposited therein.

2. Funds belonging in part to a patient and in part presently or potentially to the physician must be deposited therein, but the portion belonging to the physician may be withdrawn when due unless the right of the physician to receive it is disputed by the patient, in which event the disputed portion shall not be withdrawn until the dispute is finally resolved.

Every chiropractic physician shall maintain complete records of all funds, securities, and other properties of a patient coming into the possession of the physician and render appropriate accounts to the patient regarding them. In addition, every chiropractic physician shall promptly pay or deliver to the patient, as requested by the patient, the funds, securities, or other properties in the possession of the physician which the patient is entitled to receive.

(z) Offering to accept or accepting payment for services rendered by assignment from any third-party payor after offering to accept or accepting whatever the third-party payor covers as payment in full, if the effect of the offering or acceptance is to eliminate or give the impression of eliminating the need for payment by an insured of any required deductions applicable in the policy of the insured.

(aa) Failing to provide, upon request of the insured, a copy of a claim submitted to any third-party payor for service or treatment of the insured.

(bb) Advertising a fee or charge for a service or treatment which is different from the fee or charge the licensee submits to third-party payors for that service or treatment.

(cc) Advertising any reduced or discounted fees for services or treatments, or advertising any free services or treatments, without prominently stating in the advertisement the usual fee of the licensee for the service or treatment which is the subject of the discount, rebate, or free offering.

(dd) Using acupuncture without being certified pursuant to s. 460.403(9)(f).

(ee) Failing to report to the department any licensee under chapter 458 or under chapter 459 who the chiropractic physician or chiropractic physician's assistant knows has violated the grounds for disciplinary action set out in the law under which that person is licensed and who provides health care services in a facility licensed under chapter 395, or a health maintenance organization certificated under part I of chapter 641, in which the chiropractic physician or chiropractic physician's assistant also provides services.

(ff) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

(2) *The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), it may enter an order imposing one or more of the following penalties:*

- ~~(a) Refusal to certify to the department an application for licensure.~~
- ~~(b) Revocation or suspension of a license.~~
- ~~(c) Restriction of practice.~~
- ~~(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.~~
- ~~(e) Issuance of a reprimand.~~
- ~~(f) Placement of the chiropractic physician on probation for a period of time and subject to such conditions as the board may specify, including requiring the chiropractic physician to submit to treatment, to attend continuing education courses, to submit to reexamination, or to work under the supervision of another chiropractic physician.~~
- ~~(g) Imposition of costs of the investigation and prosecution.~~
- ~~(h) Requirement that the chiropractic physician undergo remedial education.~~
- ~~(i) Issuance of a letter of concern.~~
- ~~(j) Corrective action.~~
- ~~(k) Refund of fees billed to and collected from the patient or a third party.~~

In determining what action is appropriate, the board must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the chiropractic physician. All costs associated with compliance with orders issued under this subsection are the obligation of the chiropractic physician.

Section 26. Subsections (1) and (2) of section 461.013, Florida Statutes, are amended to read:

461.013 Grounds for disciplinary action; action by the board; investigations by department.—

(1) The following acts shall constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2) which the disciplinary actions specified in subsection (2) may be taken:

(a) Attempting to obtain, obtaining, or renewing a license to practice podiatric medicine by bribery, by fraudulent misrepresentations, or through an error of the department or the board.

(b) Having a license to practice podiatric medicine revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of podiatric medicine or to the ability to practice podiatric medicine. Any plea of nolo contendere shall be considered a conviction for purposes of this chapter.

(d) False, deceptive, or misleading advertising.

(e) Advertising, practicing, or attempting to practice under a name other than one's own.

(f) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department or the board.

(g) Aiding, assisting, procuring, permitting, or advising any unlicensed person to practice podiatric medicine contrary to this chapter or to rule of the department or the board.

(h) Failing to perform any statutory or legal obligation placed upon a licensed podiatric physician.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such report or records shall include only those which are signed in the capacity of a licensed podiatric physician.

(j) Making misleading, deceptive, untrue, or fraudulent representations in the practice of podiatric medicine or employing a trick or scheme in the practice of podiatric medicine when such scheme or trick fails to conform to the generally prevailing standards of treatment in the podiatric community.

(k) Soliciting patients either personally or through an agent, unless such solicitation falls into a category of solicitations approved by rule of the board.

(l) Failing to keep written medical records justifying the course of treatment of the patient, including, but not limited to, patient histories, examination results, and test results.

(m) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party which shall include, but not be limited to, the promotion or sale of services, goods, appliances, or drugs and the promoting or advertising on any prescription form of a community pharmacy unless the form shall also state "This prescription may be filled at any pharmacy of your choice."

(n) Performing professional services which have not been duly authorized by the patient or client or her or his legal representative except as provided in ss. 743.064, 766.103, and 768.13.

(o) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including all controlled substances, other than in the course of the podiatric physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the podiatric physician's professional practice, without regard to her or his intent.

(p) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the podiatric physician to herself or himself except those prescribed, dispensed, or

administered to the podiatric physician by another practitioner authorized to prescribe, dispense, or administer them.

(q) Prescribing, ordering, dispensing, administering, supplying, selling, or giving any amphetamine or sympathomimetic amine drug or compound designated as a Schedule II controlled substance pursuant to chapter 893.

(r) Being unable to practice podiatric medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph the department shall, upon probable cause, have authority to compel a podiatric physician to submit to a mental or physical examination by physicians designated by the department. Failure of a podiatric physician to submit to such examination when directed shall constitute an admission of the allegations against her or him, unless the failure was due to circumstances beyond her or his control, consequent upon which a default and final order may be entered without the taking of testimony or presentation of evidence. A podiatric physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of podiatric medicine with reasonable skill and safety to patients.

(s) Gross or repeated malpractice or the failure to practice podiatric medicine at a level of care, skill, and treatment which is recognized by a reasonably prudent podiatric physician as being acceptable under similar conditions and circumstances. The board shall give great weight to the standards for malpractice in s. 766.102 in interpreting this section. As used in this paragraph, "repeated malpractice" includes, but is not limited to, three or more claims for medical malpractice within the previous 5-year period resulting in indemnities being paid in excess of \$10,000 each to the claimant in a judgment or settlement and which incidents involved negligent conduct by the podiatric physicians. As used in this paragraph, "gross malpractice" or "the failure to practice podiatric medicine with the level of care, skill, and treatment which is recognized by a reasonably prudent podiatric physician as being acceptable under similar conditions and circumstances" shall not be construed so as to require more than one instance, event, or act.

(t) Performing any procedure or prescribing any therapy which, by the prevailing standards of podiatric medical practice in the community, would constitute experimentation on human subjects without first obtaining full, informed, and written consent.

(u) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform.

(v) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

(w) ~~Violating any provision of this chapter or chapter 456, any rule of the board or department, or a lawful order of the board or department previously entered in a disciplinary hearing or failing to comply with a lawfully issued subpoena of the board or department.~~

(y) Prescribing, ordering, dispensing, administering, supplying, selling, or giving growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), or other hormones for the purpose of muscle building or to enhance athletic performance. For the purposes of this subsection, the term "muscle building" does not include the treatment of injured muscle. A prescription written for any of the drug products listed above may be dispensed by the pharmacist with the presumption that the prescription is for legitimate medical use.

(z) Fraud, deceit, or misconduct in the practice of podiatric medicine.

(aa) Failing to report to the department any licensee under chapter 458 or chapter 459 who the podiatric physician knows has violated the grounds for disciplinary action set out in the law under which that person is licensed and who provides health care services in a facility licensed under chapter 395, or a health maintenance organization certificated under part I of chapter 641, in which the podiatric physician also provides services.

(bb) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(cc) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

~~(2) The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), it may enter an order imposing one or more of the following penalties:~~

~~(a) Refusal to certify to the department an application for licensure.~~

~~(b) Revocation or suspension of a license.~~

~~(c) Restriction of practice.~~

~~(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.~~

Section 27. Subsections (1) and (2) of section 462.14, Florida Statutes, are amended to read:

462.14 Grounds for disciplinary action; action by the department.—

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of naturopathic medicine or to the ability to practice naturopathic medicine. Any plea of nolo contendere shall be considered a conviction for purposes of this chapter.

(d) False, deceptive, or misleading advertising.

(e) Advertising, practicing, or attempting to practice under a name other than one's own.

(f) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department.

(g) Aiding, assisting, procuring, or advising any unlicensed person to practice naturopathic medicine contrary to this chapter or to a rule of the department.

(h) Failing to perform any statutory or legal obligation placed upon a licensed naturopathic physician.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such reports or records shall include only those which are signed in the capacity as a licensed naturopathic physician.

(j) Paying or receiving any commission, bonus, kickback, or rebate, or engaging in any split-fee arrangement in any form whatsoever with a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent a naturopathic physician from receiving a fee for professional consultation services.

(k) Exercising influence within a patient-physician relationship for purposes of engaging a patient in sexual activity. A patient shall be presumed to be incapable of giving free, full, and informed consent to sexual activity with her or his physician.

(q) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including any controlled substance, other than in the course of the naturopathic physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the naturopathic physician's professional practice, without regard to her or his intent.

(r) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the naturopathic physician to herself or himself, except one prescribed, dispensed, or administered to the naturopathic physician by another practitioner authorized to prescribe, dispense, or administer medicinal drugs.

(s) Being unable to practice naturopathic medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. A naturopathic physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of naturopathic medicine with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the department may be used against a naturopathic physician in any other proceeding.

(t) Gross or repeated malpractice or the failure to practice naturopathic medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances. The department shall give great weight to the provisions of s. 766.102 when enforcing this paragraph.

(u) Performing any procedure or prescribing any therapy which, by the prevailing standards of medical practice in the community, constitutes experimentation on a human subject, without first obtaining full, informed, and written consent.

(v) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform.

  - (c) Being convicted or found guilty of or entering a plea of nolo contendere to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of dentistry or dental hygiene. Such unprofessional conduct includes:*

(b) Having a license to practice occupational therapy revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of occupational therapy or to the ability to practice occupational therapy. A plea of nolo contendere shall be considered a conviction for the purposes of this part.

(d) False, deceptive, or misleading advertising.

(e) Advertising, practicing, or attempting to practice under a name other than one's own name.

(f) Failing to report to the department any person who the licensee knows is in violation of this part or of the rules of the department or of the board.

(h) Failing to perform any statutory or legal obligation placed upon a licensed occupational therapist or occupational therapy assistant.

Such reports or records include only those which are signed in the capacity as a licensed occupational therapist or occupational therapy assistant.

(j) Paying or receiving any commission, bonus, kickback, or rebate to or from, or engaging in any split-fee arrangement in any form whatsoever with, a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent an occupational therapist or occupational therapy assistant from receiving a fee for professional consultation services.

(k) Exercising influence within a patient-therapist relationship for purposes of engaging a patient in sexual activity. A patient is presumed to be incapable of giving free, full, and informed consent to sexual activity with the patient's occupational therapist or occupational therapy assistant.

In enforcing this paragraph, the department shall have, upon probable cause, authority to compel an occupational therapist or occupational therapy assistant to submit to a mental or physical examination by physicians designated by the department. The failure of an occupational therapist or occupational therapy assistant to submit to such examination when so directed constitutes an admission of the allegations against him or her, upon which a default and final order may be entered without the taking of testimony or presentation of evidence, unless the failure was due to circumstances beyond his or her control. An occupational therapist or occupational therapy assistant affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of occupational therapy with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the board shall be used against an occupational therapist or occupational therapy assistant in any other proceeding.

~~(3)(2) The board may not reinstate the license of an occupational therapist or occupational therapy assistant, or cause a license to be issued to a person it has deemed unqualified, until such time as the board is satisfied that such person has complied with all the terms and conditions set forth in the final order and is capable of safely engaging in the practice of occupational therapy.~~

Those programs are intended to improve the quality of instructional personnel however, the release of their personal identifying information may lower instead of increase their motivation towards excellence. The release of such information could also result in discriminatory practices against certain instructional personnel. (b) *When a claimant is not represented by counsel*, upon joint petition of all interested parties, a lump-sum payment in exchange for the employer's or carrier's release from liability for future medical expenses, as well as future payments of compensation and rehabilitation expenses, and any other benefits provided under this chapter, may be allowed at any time in any case after the injured employee has attained maximum medical improvement. An employer or carrier may not pay any attorney's fees on behalf of the claimant for any settlement, unless expressly authorized elsewhere in this chapter. A compensation order so entered upon joint petition of all interested parties shall not be subject to modification or review under s. 440.28. However, a judge of compensation claims is not required to approve any award for lump-sum

payment when it is determined by the judge of compensation claims that the payment being made is in excess of the value of benefits the claimant would be entitled to under this chapter. The judge of compensation claims shall make or cause to be made such investigations as she or he considers necessary, in each case in which the parties have stipulated that a proposed final settlement of liability of the employer for compensation shall not be subject to modification or review under s. 440.28, to determine whether such final disposition will definitely aid the rehabilitation of the injured worker or otherwise is clearly for the best interests of the person entitled to compensation and, in her or his discretion, may have an investigation made by the Rehabilitation Section of the Division of Workers' Compensation. The joint petition and the report of any investigation so made will be deemed a part of the proceeding. An employer shall have the right to appear at any hearing pursuant to this subsection which relates to the discharge of such employer's liability and to present testimony at such hearing. The carrier shall provide reasonable notice to the employer of the time and date of any such hearing and inform the employer of her or his rights to appear and testify. ~~When the claimant is represented by counsel or when the claimant and carrier or employer are represented by counsel, final approval of the lump-sum settlement agreement, as provided for in a joint petition and stipulation, shall be approved by entry of an order within 7 days after the filing of such joint petition and stipulation without a hearing, unless the judge of compensation claims determines, in her or his discretion, that additional testimony is needed before such settlement can be approved or disapproved and so notifies the parties.~~ The probability of the death of the injured employee or other person entitled to compensation before the expiration of the period during which such person is entitled to compensation shall, in the absence of special circumstances making such course improper, be determined in accordance with the most recent United States Life Tables published by the National Office of Vital Statistics of the United States Department of Health and Human Services. The probability of the happening of any other contingency affecting the amount or duration of the compensation, except the possibility of the remarriage of a surviving spouse, shall be disregarded. As a condition of approving a lump-sum payment to a surviving spouse, the judge of compensation claims, in the judge of compensation claims' discretion, may require security which will ensure that, in the event of the remarriage of such surviving spouse, any unaccrued future payments so paid may be recovered or recouped by the employer or carrier. Such applications shall be considered and determined in accordance with s. 440.25.

(c) *Notwithstanding s. 440.21(2), when a claimant is represented by counsel, the claimant may waive all rights to any and all benefits under this chapter by entering into a settlement agreement releasing the employer and the carrier from liability for workers' compensation benefits in exchange for a lump-sum payment to the claimant. The settlement agreement requires approval by the judge of compensation claims only as to the attorney's fees paid to the claimant's attorney by the claimant. The parties need not submit any information or documentation in support of the settlement, except as needed to justify the amount of the attorney's fees. Neither the employer nor the carrier is responsible for any attorney's fees relating to the settlement and release of claims under this section. Payment of the lump-sum settlement amount must be made within 14 days after the date the judge of compensation claims mails the order approving the attorney's fees. Any order entered by a judge of compensation claims approving the attorney's fees as set out in the settlement under this subsection is not considered to be an award and is not subject to modification or review. The judge of compensation claims shall report these settlements to the Deputy Chief Judge in accordance with the requirements set forth in paragraphs (a) and (b). Settlements entered into under this subsection are valid and apply to all dates of accident.*

(d) *With respect to any lump-sum settlement under this subsection, a judge of compensation claims must consider whether the settlement provides for appropriate recovery of any child support arrearage.*

(e)(e) This section applies to all claims that the parties have not previously settled, regardless of the date of accident.

Section 17. Section 440.22, Florida Statutes, is amended to read:

440.22 Assignment and exemption from claims of creditors.—No assignment, release, or commutation of compensation or benefits due or payable under this chapter except as provided by this chapter shall be valid, and such compensation and benefits shall be exempt from all claims of creditors, and from levy, execution and attachments or other remedy for recovery or collection of a debt, which exemption may not be waived. *However, the exemption of workers' compensation claims from creditors does not extend to claims based on an award of child support or alimony.*

Any research or evaluation effort directed at assessing the mediation program activities or performance must protect the confidentiality of such information. Each party to a mediation conference has a privilege during and after the conference to refuse to disclose and to prevent another from disclosing communications made during the conference whether or not the contested issues are successfully resolved. Therefore it is the intent of the Legislature to expand the availability of health care options for lower income uninsured state residents by encouraging health insurers, health maintenance organizations, health care provider-sponsored organizations, local governments, health care districts, or other public or private community-based organizations to develop alternative approaches to traditional health insurance which emphasize coverage for basic and preventive health care services. The agency and the Department of Insurance shall not approve or shall withdraw approval of a plan which:*

(a) *Contains any ambiguous, inconsistent, or misleading provisions, or exceptions or conditions that deceptively affect or limit the benefits purported to be assumed in the general coverage provided by the plan;*

(4) *LICENSE NOT REQUIRED.*—*A health flex plan approved under this section shall not be subject to the licensing requirements of the*

Notice of nonrenewal or cancellation shall be provided at least 45 days in advance of such nonrenewal or cancellation except that 10 days' written notice shall be given for cancellation due to nonpayment of premiums. If the health plan entity fails to give the required notice, the plan shall remain in effect until notice is appropriately given.*

(8) *NONENTITLEMENT.—Coverage under an approved health flex plan is not an entitlement and no cause of action shall arise against the state, local governmental entity, or other political subdivision of this state or the agency for failure to make coverage available to eligible persons under this section.*
