The Journal OF THE House of Representatives

Number 23

Thursday, May 3, 2001

The House was called to order by the Speaker at 10:00 a.m.

Prayer

The following prayer was offered by Pastor James H. Brown of Miracle Prayer Temple Inc. of Fort Pierce, upon invitation of Rep. Machek:

Almighty God, the Creator of all heaven and earth, Thou, O Lord, full of grace and compassion, humbly we enter Your presence with thanksgiving, honor and glory. We bless Your name for Your goodness toward all mankind. We give You thanks for this day, for in Your word You have encouraged us to rejoice and be glad in it. We thank You for Your tender kindness, Your grace and mercy that's new to each of us daily. Father, we thank You for Your promise to hear and answer the prayers of Your children. Let health and peace be our portion. Let righteousness and holiness dwell forever in our hearts and be expressed in our actions that we may delight in the service where we've been called. It is our earnest plea today that You would draw all men unto Thyself and to one another by Thy great love. That You would bless our country that it may be ever a stronghold of peace, that You would bless our state that it will be united, and that You would grant wisdom to her governing body that the decisions made would be for the betterment of all mankind. Endow our lawgivers with a right understanding and a pure purpose; enable them to focus on what is good for all the people they represent. You, Lord, are our refuge and strength, a very present help in trouble. May Your blessings, Lord, rest upon all people, for it is to Thee that we lift up our eyes, in Thee, my God, the Father of mercies, do we put all our trust. Be merciful unto us and bless us and cause Your face to shine upon us. In His name we pray, Amen.

Motion

On motion by Rep. Goodlette, Chair of the Committee on Rules, Ethics & Elections, the rules were waived and the Clerk was given discretion to determine the most appropriate time and date for spreading the following remarks upon the *Journal*.

Statement of Legislative Intent on CS/HB 277

Rep. Wilson: Representative Atwater, what is the liability of a school district that cannot find a direct match in their student database for a student deemed to be a Learnfare participant, according to the Department of Children and Families?

Rep. Atwater: Representative Wilson, there is no liability to the school. The school's only role is to participate in providing its absentee rolls to the Department of Children and Family Services. DCF's responsibility is for the match.

Rep. Wilson: You spoke of required conferences. Can parental conferences held for purposes other than Learnfare be counted against that requirement or for the requirement?

Rep. Atwater: Again, very, very good question. The answer to that would be, yes. We just want parental involvement; and if parental involvement was coming to school for another purpose in finding out how the student is doing, that's what we're looking for.

Rep. Wilson: It has been my experience that many guardians wait until the end of the semester to schedule the conference. Is there a penalty for that, Representative Atwater?

Rep. Atwater: The answer to that would be that I don't think it would be our place to try to come up with a remedy from the state level; but I do think it would certainly be our intent that this conference can be by phone or in person. And we would want the school to be extraordinarily flexible in working with the guardian that may be having difficulty making the conference. But I really see that as the responsibility of the guardian or the parent to be sure that the conference takes place. Now I hate to say this, but I do think it would

take missing one conference and going into a suspension of cash assistance. And I don't think that delay would happen a second time.

Rep. Wilson: I'm concerned because there are parents participating in this project and their children have become ungovernable or uncontrollable. And I'm concerned that a mother or a single parent or a grandmother, even, will lose their cash assistance because that child will not go to school, even though the parent tries as hard as they can.

Rep. Atwater: Thank you, Representative Wilson. We have chatted about this and I don't think there's probably anyone in this Chamber more keenly aware of that sense from your experiences and for your sharing it with me. The answer to your concern would be this: If that situation does arise—and I think we all in this room know that it does exist today—that there exists the very first exemption, good cause exemption in the bill that if there were not an alternative program in the systems available today, in the public school system, for that child that was that unruly, then the exemption would apply and there would be no penalty to the family to continue doing their best by that child.

Statement of Legislative Intent on CS/CS/HB 1533

Rep. Atwater: Thank you, Mr. Speaker. With the pleasure of Representative Melvin and the Speaker, I'll help to move through four questions. But I'll take those as I can. Let me first say before this first question, thank you for recognizing the good work of Palm Beach County. We do consider it wonderful to be in the lead. First question, Representative Lynn, does this bill change the original intent and purpose of the school readiness act as it was passed by the Legislature in 1999?

The Chair [Rep. Maygarden]: Representative Lynn, you're recognized to respond.

Rep. Lynn: Thank you for that question. No it does not and it was a bipartisan bill, Democrat and Republican and we are still continuing with the same intent.

The Chair: Representative Atwater, you have a follow-up?

Rep. Atwater: Thank you, Mr. Speaker.

The Chair: You're recognized.

Rep. Atwater: Representative Lynn, what is the purpose of the school readiness section of this bill?

The Chair: Representative Lynn, to respond.

Rep. Lynn: Thank you, Mr. Speaker. The purpose of the school readiness section of the bill is to transfer the Florida partnership for school readiness from the Governor's office to the Agency for Workforce Innovation. And also to transfer to the Agency for Workforce Innovation the associated school readiness programs from the Department of Children & Families Services and the Department of Education. All to a type two transfer.

The Chair: Representative Atwater, you have another follow-up?

Rep. Atwater: Thank you, Mr. Speaker.

The Chair: You're welcome.

Rep. Atwater: Representative Lynn, a number of statutes as has already been mentioned are being repealed related to programs for children. Why is this being done?

The Chair: Representative Lynn, you're recognized.

Rep. Lynn: Thank you, Mr. Speaker. It's not the intent to repeal any existing program. These statutes are being repealed to eliminate the confusion that exists out there. We have people in our counties locally who are providing misinformation to parents. We have parents who need these services and they cannot get into programs because of that misinformation. We are going to only make sure that we keep our standards and set parameters so that there's no misunderstanding of what the eligibility is. There is no misunderstanding with multiple conflicting laws.

The Chair: Representative Atwater, one more question.

Rep. Atwater: Thank you, Mr. Speaker. There's about one more question and a statement. Representative Lynn, the 1999 school readiness legislation had a voucher component to it. Does this bill expand or limit the 1999 legislation as it relates to the use of vouchers?

The Chair: Representative Lynn.

Rep. Lynn: Thank you, Mr. Speaker. The voucher is a federal voucher that came down to us and we do nothing but accept that as the Federal Government has required.

On motion by Rep. Goodlette, the House moved to the consideration of CS for SB 466 on Bills and Joint Resolutions on Third Reading.

—was read the second time by title.

Representative(s) Baxley and Diaz-Balart offered the following:

(Amendment Bar Code: 720813)

Amendment 1 (with title amendment)—

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. Paragraph (c) of subsection (2) of section 231.621, Florida Statutes, is amended to read:

231.621 Critical Teacher Shortage Student Loan Forgiveness Program.—

(2) From the funds available, the Department of Education may make loan principal repayments as follows:

(c) All repayments shall be contingent on continued proof of employment in the designated subject areas in this state and shall be made directly to the holder of the loan or, in case of a loan being paid

in full, directly to the teacher. The state shall not bear responsibility for the collection of any interest charges or other remaining balance. In the event that designated critical teacher shortage subject areas are changed by the State Board of Education, a teacher shall continue to be eligible for loan forgiveness as long as he or she continues to teach in the subject area for which the original loan repayment was made and otherwise meets all conditions of eligibility.

Section 2. Effective July 1, 2002, paragraph (e) of subsection (3) of section 240.209, Florida Statutes, is amended to read:

240.209 Board of Regents; powers and duties.—

(3) The board shall:

(e) Establish student fees.

1. By no later than December 1 of each year, the board shall raise the systemwide standard for resident undergraduate matriculation and financial aid fees for the subsequent fall term, up to but no more than 25 percent of the prior year's cost of undergraduate programs. In implementing this paragraph, fees charged for graduate, medical, veterinary, and dental programs may be increased by the Board of Regents in the same percentage as the increase in fees for resident undergraduates. However, in the absence of legislative action to the contrary in an appropriations act, the board may not approve annual fee increases for resident students in excess of 10 percent. The sum of nonresident student matriculation and tuition fees must be sufficient to defray the full cost of undergraduate education. Graduate, medical, veterinary, and dental fees charged to nonresidents may be increased by the board in the same percentage as the increase in fees for nonresident undergraduates. However, in implementing this policy and in the absence of legislative action to the contrary in an appropriations act, annual fee increases for nonresident students may not exceed 25 percent. In the absence of legislative action to the contrary in the General Appropriations Act, the fees shall go into effect for the following fall term.

2. When the appropriations act requires a new fee schedule, the board shall establish a systemwide standard fee schedule required to produce the total fee revenue established in the appropriations act based on the product of the assigned enrollment and the fee schedule. The board may approve the expenditure of any fee revenues resulting from the product of the fee schedule adopted pursuant to this section and the assigned enrollment.

3. Upon provision of authority in a General Appropriations Act to spend revenue raised pursuant to this section, the board shall approve a university request to implement a matriculation and out-of-state tuition fee schedule which is calculated to generate revenue which varies no more than 10 percent from the standard fee revenues authorized through an appropriations act. In implementing an alternative fee schedule, the increase in cost to a student taking 15 hours in one term shall be limited to 5 percent. Matriculation and out-of-state tuition fee revenues generated as a result of this provision are to be expended for implementing a plan for achieving accountability goals adopted pursuant to s. 240.214 and for implementing a Board of Regents-approved plan to contain student costs by reducing the time necessary for graduation without reducing the quality of instruction. The plans shall be recommended by a universitywide committee, at least one-half of whom are students appointed by the student body president. A chairperson, appointed jointly by the university president and the student body president, shall vote only in the case of a tie.

4. The board may implement individual university plans for a differential out-of-state tuition fee for universities that have a service area that borders another state.

5. The board is authorized to collect for financial aid purposes an amount not to exceed 5 percent of the student tuition and matriculation fee per credit hour. The revenues from fees are to remain at each campus and replace existing financial aid fees. Such funds shall be disbursed to students as quickly as possible. *These funds may not be used for direct or indirect administrative purposes or salaries.* The board shall specify specific limits on the percent of the fees collected in a fiscal year which

may be carried forward unexpended to the following fiscal year. A minimum of 75 percent of funds from the student financial aid fee for new financial aid awards shall be used to provide financial aid based on absolute need. A student who has received an award prior to July 1, 1984, shall have his or her eligibility assessed on the same criteria that was used at the time of his or her original award. *The Board of Regents shall develop criteria for making financial aid awards. Each university shall report annually to the Department of Education on the revenue collected pursuant to this subparagraph, the amount carried forward, the criteria used to make awards, the amount and number of awards for each criterion, and a delineation of the distribution of such awards. The report shall include an assessment by category of the financial need of every student who receives an award, regardless of the purpose for which the award is received. Awards which are based on financial need shall be distributed in accordance with a nationally recognized system of need analysis approved by the Board of Regents. An award for academic merit shall require a minimum overall grade point average of 3.0 on a 4.0 scale or the equivalent for both initial receipt of the award and renewal of the award.*

6. The board may recommend to the Legislature an appropriate systemwide standard matriculation and tuition fee schedule.

7. The Education and General Student and Other Fees Trust Fund is hereby created, to be administered by the Department of Education. Funds shall be credited to the trust fund from student fee collections and other miscellaneous fees and receipts. The purpose of the trust fund is to support the instruction and research missions of the State University System. Notwithstanding the provisions of s. 216.301, and pursuant to s. 216.351, any balance in the trust fund at the end of any fiscal year shall remain in the trust fund and shall be available for carrying out the purposes of the trust fund.

8. The board is further authorized to establish the following fees:

- a. A nonrefundable application fee in an amount not to exceed \$30.
- b. An admissions deposit fee for the University of Florida College of Dentistry in an amount not to exceed \$200.
- c. An orientation fee in an amount not to exceed \$35.
- d. A fee for security, access, or identification cards. The annual fee for such a card may not exceed \$10 per card. The maximum amount charged for a replacement card may not exceed \$15.
- e. Registration fees for audit and zero-hours registration; a service charge, which may not exceed \$15, for the payment of tuition in installments; and a late-registration fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to initiate registration during the regular registration period.
- f. A late-payment fee in an amount not less than \$50 nor more than \$100 to be imposed on students who fail to pay or fail to make appropriate arrangements to pay (by means of installment payment, deferment, or third-party billing) tuition by the deadline set by each university. Each university may adopt specific procedures or policies for waiving the late-payment fee for minor underpayments.
- g. A fee for miscellaneous health-related charges for services provided at cost by the university health center which are not covered by the health fee set under s. 240.235(1).
- h. Materials and supplies fees to offset the cost of materials or supplies that are consumed in the course of the student's instructional activities, excluding the cost of equipment replacement, repairs, and maintenance.
- i. Housing rental rates and miscellaneous housing charges for services provided by the university at the request of the student.
- j. A charge representing the reasonable cost of efforts to collect payment of overdue accounts.
- k. A service charge on university loans in lieu of interest and administrative handling charges.

1. A fee for off-campus course offerings when the location results in specific, identifiable increased costs to the university.

m. Library fees and fines, including charges for damaged and lost library materials, overdue reserve library books, interlibrary loans, and literature searches.

n. Fees relating to duplicating, photocopying, binding, and microfilming; copyright services; and standardized testing. These fees may be charged only to those who receive the services.

o. Fees and fines relating to the use, late return, and loss and damage of facilities and equipment.

p. A returned-check fee as authorized by s. 832.07(1) for unpaid checks returned to the university.

q. Traffic and parking fines, charges for parking decals, and transportation access fees.

r. An Educational Research Center for Child Development fee for child care and services offered by the center.

s. Fees for transcripts and diploma replacement, not to exceed \$10 per item.

Section 3. Effective July 1, 2002, subsection (7) is added to section 240.271, Florida Statutes, to read:

240.271 State University System; funding.—

(7) *A minimum of 55 percent of the new awards from funds provided in the General Appropriations Act for fellowships and fee waivers shall be used only to support:*

1. *Computer and information sciences.*
2. *Engineering.*

4. *Biological sciences/life sciences.*
5. *Mathematics.*
6. *Physical sciences.*
7. *Health professions and related sciences.*

(b) *Upper-division students or master's level students formally admitted to a state-approved teacher preparation program.*

The State University System shall report annually to the Legislature the distribution of fellowships and fee waivers provided, including, but not limited to, the number of awards, the dollar value of the awards, student level, student discipline, and the number and percent of award recipients remaining in the state following graduation who are employed in the field directly related to the discipline for which the award was received.

Section 4. Effective July 1, 2002, subsection (11) of section 240.35, Florida Statutes, is amended to read:

240.35 Student fees.—Unless otherwise provided, the provisions of this section apply only to fees charged for college credit instruction leading to an associate in arts degree, an associate in applied science degree, or an associate in science degree and noncollege credit college-preparatory courses defined in s. 239.105.

(11)(a) Each community college is authorized to establish a separate fee for financial aid purposes in an additional amount up to, but not to exceed, 5 percent of the total student tuition or matriculation fees collected. Each community college may collect up to an additional 2 percent if the amount generated by the total financial aid fee is less than \$250,000. If the amount generated is less than \$250,000, a community college that charges tuition and matriculation fees at least equal to the average fees established by rule may transfer from the general current

The board shall inform purchasers of changes to the tax or securities status of contracts purchased through the program.

(9) **PREPAID COLLEGE PLANS.**—At a minimum, the board shall make advance payment contracts available for two independent plans to be known as the community college plan and the university plan. The board may also make advance payment contracts available for a dormitory residence plan.

(a)1. Through the community college plan, the advance payment contract shall provide prepaid registration fees for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of an associate degree. The cost of participation in the community college plan shall be based primarily on the average current and projected registration fees within the Florida Community College System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall bear the cost of any laboratory fees associated with enrollment in specific courses. Each qualified beneficiary shall be classified as a resident for tuition purposes, pursuant to s. 240.1201, regardless of his or her actual legal residence.

2. Effective July 1, 1998, the board may provide advance payment contracts for additional fees delineated in s. 240.35, not to exceed the average number of hours required for the conference of an associate degree, in conjunction with advance payment contracts for registration fees. The cost of purchasing such fees shall be based primarily on the average current and projected fees within the Florida Community College System and the number of years expected to elapse between the purchase of the plan on behalf of the beneficiary and the exercise of benefits provided in the plan by such beneficiary. Community college plan contracts purchased prior to July 1, 1998, shall be limited to the payment of registration fees as defined in subsection (2).

(b)1. Through the university plan, the advance payment contract shall provide prepaid registration fees for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of a baccalaureate degree. The cost of participation in the university plan shall be based primarily on the current and projected registration fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall bear the cost of any laboratory fees associated with enrollment in specific courses. Each qualified beneficiary shall be classified as a resident for tuition purposes pursuant to s. 240.1201, regardless of his or her actual legal residence.

2. Effective July 1, 1998, the board may provide advance payment contracts for additional fees delineated in s. 240.235(1), for a specified number of undergraduate semester credit hours not to exceed the average number of hours required for the conference of a baccalaureate degree, in conjunction with advance payment contracts for registration fees. Such contracts shall provide prepaid coverage for the sum of such fees, to a maximum of 45 percent of the cost of registration fees. The

costs of purchasing such fees shall be based primarily on the average current and projected cost of these fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of the qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. University plan contracts purchased prior to July 1, 1998, shall be limited to the payment of registration fees as defined in subsection (2).

Dormitory residence plans shall be purchased in increments of 2 semesters. The cost of participation in the dormitory residence plan shall be based primarily on the average current and projected housing fees within the State University System and the number of years expected to elapse between the purchase of the plan on behalf of a qualified beneficiary and the exercise of the benefits provided in the plan by such beneficiary. Qualified beneficiaries shall have the highest priority in the assignment of housing within university residence halls. Qualified beneficiaries shall bear the cost of any additional elective charges such as laundry service or long-distance telephone service. Each state university may specify the residence halls or other university-held residences eligible for inclusion in the plan. In addition, any state university may request immediate termination of a dormitory residence contract based on a violation or multiple violations of rules of the residence hall or other university-held residences. In the event that sufficient housing is not available for all qualified beneficiaries, the board shall refund the purchaser or qualified beneficiary an amount equal to the fees charged for dormitory residence during that semester. If a qualified beneficiary fails to be admitted to a state university or chooses to attend a community college that operates one or more dormitories or residency opportunities, or has one or more dormitories or residency opportunities operated by the community college direct-support organization, the qualified beneficiary may transfer or cause to have transferred to the community college, or community college direct-support organization, the fees associated with dormitory residence. Dormitory fees transferred to the community college or community college direct-support organization may not exceed the maximum fees charged for state university dormitory residence for the purposes of this section, or the fees charged for community college or community college direct-support organization dormitories or residency opportunities, whichever is less.

If the cost of registration or housing fees at the independent college or university is less than the corresponding fees at a state postsecondary institution, the amount transferred shall not exceed the actual cost of registration or housing fees. A transfer authorized under this paragraph may not exceed the number of semester credit hours or semesters of dormitory residence contracted on behalf of a qualified beneficiary.

(b) An eligible out-of-state college or university. An out-of-state college or university that is not for profit and is accredited by a regional accrediting association, and that confers degrees, is eligible for such application. The board shall transfer, or cause to have transferred, an amount not to exceed the redemption value of the advance payment contract ~~at a state postsecondary institution or the original purchase price plus 5 percent compounded interest, whichever is less, after~~

~~assessment of a reasonable transfer fee.~~ If the cost of registration or housing fees charged the qualified beneficiary at the eligible out-of-state college or university is less than this calculated amount, the amount transferred shall not exceed the actual cost of registration or housing fees. Any remaining amount shall be transferred in subsequent semesters until the transfer value is depleted. A transfer authorized under this paragraph may not exceed the number of semester credit hours or semesters of dormitory residence contracted on behalf of a qualified beneficiary.

(c) An applied technology diploma program or vocational certificate program conducted by a community college listed in s. 240.3031 or an area technical center operated by a district school board. The board shall transfer or cause to be transferred to the community college or area technical center designated by the qualified beneficiary an amount not to exceed the redemption value of the advance payment contract ~~at~~ ~~within~~ a state postsecondary institution. If the cost of the fees charged by the college or center, as authorized in s. 239.117, is less than the corresponding fees at a state postsecondary institution, the amount transferred may not exceed the actual cost of the fees. A transfer authorized under this paragraph may not exceed the number of semester credit hours contracted on behalf of a qualified beneficiary.

Notwithstanding any other provision in this section, an institution must be an "eligible educational institution" under s. 529 of the Internal Revenue Code to be eligible for the transfer of advance payment contract benefits.

(11) ADVANCE PAYMENT CONTRACTS; CONTENTS.—The board shall construct advance payment contracts for registration and may construct advance payment contracts for dormitory residence as provided in this section. Advance payment contracts constructed for the purposes of this section shall be exempt from chapter 517 and the Florida Insurance Code. (i) The state postsecondary system toward which the contracted credit hours or semesters of dormitory residence will be applied.

(j) The assumption of a contractual obligation by the board to the qualified beneficiary to provide for a specified number of semester credit hours of undergraduate instruction at a state postsecondary institution, not to exceed the average number of credit hours required for the conference of the degree that corresponds to the plan purchased on behalf of the qualified beneficiary or to provide for a specified number

of semesters of dormitory residence, not to exceed the number of semesters of full-time enrollment required for the conference of a baccalaureate degree.

(k) Other terms and conditions deemed by the board to be necessary or proper.

Time expended by a qualified beneficiary as an active duty member of any of the armed services of the United States shall be added to the period of time specified pursuant to this subsection. No purchaser or qualified beneficiary whose advance payment contract is terminated pursuant to this subsection shall be entitled to a refund. The board shall retain any moneys paid by the purchaser for an advance payment contract that has been terminated in accordance with this subsection. Such moneys retained by the board are exempt from chapter 717, and such retained moneys must be used by the board to further the purposes of this section.

(d) If an advance payment contract is converted from one registration plan to a plan of lesser value, the amount refunded shall not exceed the difference between the amount paid for the original contract and the amount that would have been paid for the contract to which the plan is converted had the converted plan been purchased under the same payment plan at the time the original advance payment contract was executed.

(e) No refund shall be authorized through an advance payment contract for any school year partially attended but not completed. For purposes of this section, a school year partially attended but not completed shall mean any one semester whereby the student is still enrolled at the conclusion of the official drop-add period, but withdraws before the end of such semester. If a beneficiary does not complete a community college plan or university plan for reasons other than specified in paragraph (c), the purchaser shall receive a refund of the amount paid into the fund for the remaining unattended years of the advance payment contract pursuant to rules promulgated by the board.

(f) Benefits purchased under the Florida Prepaid College Program shall be permitted to roll over to a college savings program, as defined under s. 529 of the United States Internal Revenue Code, relating to qualified state tuition programs. (20) PROGRAM TERMINATION.—In the event that the state determines the program to be financially infeasible, the state may discontinue the provision of the program. Any qualified beneficiary who has been accepted by and is enrolled or is within 5 years of enrollment in an eligible independent college or university or state postsecondary institution shall be entitled to exercise the complete benefits for which he or she has contracted. All other contract holders shall receive a refund of the amount paid in and an additional amount in the nature of interest at a rate that corresponds, at a minimum, to the prevailing interest rates for savings accounts provided by banks and savings and loan associations.

(21) ANNUAL REPORT.—The board shall annually prepare or cause to be prepared a report setting forth in appropriate detail an accounting of the fund and a description of the financial condition of the program at the close of each fiscal year. Such report shall be submitted to the President of the Senate, the Speaker of the House of Representatives, and members of the State Board of Education on or before March 31 each year. In addition, the board shall make the report available to purchasers of advance payment contracts. The board shall

Representative(s) Diaz-Balart offered the following:

(Amendment Bar Code: 802491)

Amendment 2 to Amendment 1 (with title amendment)—On page 1, between lines 17 and 18, of the amendment

insert:

Section 1. Paragraph (a) of subsection (3) of section 231.40, Florida Statutes, is amended to read:

231.40 Sick leave.—

(3) PROVISIONS GOVERNING SICK LEAVE.—The following provisions shall govern sick leave:

(a) Extent of leave.—

1. Each member of the instructional staff employed on a full-time basis ~~is shall be~~ entitled to 4 days of sick leave as of the first day of employment of each contract year and shall thereafter earn 1 day of sick leave for each month of employment, which shall be credited to the member at the end of that month and which ~~may shall~~ not be used ~~before prior to the time~~ it is earned and credited to the member. Each other employee shall be credited with 4 days of sick leave at the end of the first month of employment of each contract year and shall thereafter be credited for 1 day of sick leave for each month of employment, which shall be credited to the employee at the end of the month and which ~~may shall~~ not be used ~~before prior to the time~~ it is earned and credited to the employee. However, each member of the instructional staff and each other employee ~~is shall be~~ entitled to earn no more than 1 day of sick leave times the number of months of employment during the year of employment. If the employee terminates his or her employment and has not accrued the 4 ~~sick~~ days of sick leave available to him or her, the district school board may withhold the average daily amount for the ~~days of sick leave used~~ ~~days utilized~~ but unearned by the employee. Such leave ~~may shall~~ be taken only when necessary because of sickness as ~~herein~~ prescribed in this section. The sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave which a member of the instructional staff or an educational support employee may accrue, except that at least one-half of this cumulative leave must be established within the district granting such leave.

2. A district school board may establish policies and prescribe standards to permit an employee to be absent 6 days each school year for personal reasons. However, such absences for personal reasons ~~shall~~ be charged only to accrued sick leave, and leave for personal reasons ~~is shall be~~ noncumulative.

3. District school boards may adopt rules permitting the annual payment for accumulated sick leave that is earned for that year and that is unused at the end of the school year, based on the daily rate of pay of the employee multiplied by up to 80 percent. Days for which such payment is received shall be deducted from the accumulated leave balance. Such annual payment may apply only to instructional staff and educational support employees.

4. A district school board may establish policies to provide terminal pay for accumulated sick leave to instructional staff and educational support employees of the district school board. If termination of employment is by death of the employee, any terminal pay to which the employee may have been entitled may be made to his or her beneficiary. However, such terminal pay ~~may shall~~ not exceed an amount determined as follows:

a. During the first 3 years of service, the daily rate of pay multiplied by 35 percent times the number of days of accumulated sick leave.

b. During the next 3 years of service, the daily rate of pay multiplied by 40 percent times the number of days of accumulated sick leave.

c. During the next 3 years of service, the daily rate of pay multiplied by 45 percent times the number of days of accumulated sick leave.

d. During the next 3 years of service, the daily rate of pay multiplied by 50 percent times the number of days of accumulated sick leave.

e. During and after the 13th year of service, the daily rate of pay multiplied by 100 percent times the number of days of accumulated sick leave.

5. A district school board may establish policies to provide terminal pay for accumulated sick leave to any full-time employee of the district school board other than instructional staff or educational support employees as defined in this section. If termination of the employee is by death of the employee, any terminal pay to which the employee may have been entitled may be made to the employee's beneficiary. ~~However, for such employees hired on or after July 1, 1995,~~

a. Terminal pay ~~may shall~~ not exceed ~~an amount determined as follows:~~

~~a. one-fourth of all unused sick leave accumulated on or after July 1, 2001, and may 1995; however, terminal pay allowable for such accumulated sick leave shall not exceed a maximum of 60 days of actual payment. This limit does not impair any contractual agreement established before July 1, 2001; however, a previously established contract renewed on or after July 1, 2001, constitutes a new contract.~~

b. For unused sick leave accumulated ~~before prior to~~ July 1, 2001 ~~1995~~, terminal payment shall be made pursuant to a district school board's policies, contracts, or rules that ~~which~~ are in effect on June 30, 2001 ~~July 1, 1995~~.

c. *If an employee has an accumulated sick leave balance of 60 days of actual payment or more prior to July 1, 2001, sick leave earned after that date may not be accumulated for terminal-pay purposes until the accumulated leave balance for leave earned before July 1, 2001, is less than 60 days.*

And the title is amended as follows:

On page 80, lines 11 and 12, of the amendment remove: all of said lines

and insert in lieu thereof: An act relating to education; amending s. 231.40, F.S.; limiting the amount of pay certain employees of district school systems may receive for unused sick leave upon termination of employment; providing conditions on the use of sick leave; amending s. 231.621, F.S.;

Representative(s) Miller offered the following:

(Amendment Bar Code: 255577)

Amendment 1 (with title amendment)—
Remove from the bill: Everything after the enacting clause and insert in lieu thereof:

Section 1. Subsections (18) through (27) of section 482.021, Florida Statutes, are redesignated as subsections (19) through (28), respectively, and a new subsection (18) is added to that section, to read:

482.021 Definitions.—For the purposes of this chapter, and unless otherwise required by the context, the term:

(18) “New construction” means the erection of a new building or the construction of an addition to an existing building, which encloses a space and requires a building permit under applicable building codes.

Section 2. Subsection (6) is added to section 482.051, Florida Statutes, to read:

482.051 Rules.—The department has authority to adopt rules pursuant to ss. 120.536(1) and 120.54 to implement the provisions of this chapter. Prior to proposing the adoption of a rule, the department shall counsel with members of the pest control industry concerning the proposed rule. The department shall adopt rules for the protection of the health, safety, and welfare of pest control employees and the general public which require:

(6) That the department may issue an immediate stop-use or stop-work order for fumigation performed in violation of fumigant label requirements or department rules, or in a manner that presents an immediate serious danger to the health, safety, or welfare of the public, including, but not limited to, failure to use required personal protective equipment, failure to use a required warning agent, failure to post required warning signs, failure to secure a structure’s usual entrances as required, or using a fumigant in a manner that will likely result in hazardous exposure to humans, animals, or the environment.

Section 3. Section 482.0815, Florida Statutes, is created to read:

482.0815 Permit to perform preventive termite treatment services for new construction only.—

(1) A licensee must have a permit to perform preventive termite treatments for new construction, except for preventive termite treatments on additions to existing structures for which the licensee has a current termite treatment contract.

(2) A permit shall be automatically renewed upon renewal of the license held by the licensee, unless the permit has been suspended, revoked, or otherwise denied.

(3) A permit shall be probationary for 120 days after a licensee is found to be in violation of s. 482.051(5) or a rule relating to the application of specific amounts, concentrations, and treatment areas, except for provisions governing recordkeeping. A licensee whose permit is on probationary status must provide advance notice to the department of any preventive treatment planned for new construction.

(4) A licensee's permit shall be suspended for a 30-day to 90-day period if:

(a) The licensee whose permit is on probationary status violates s. 482.051(5) or a rule relating to the application of specific amounts, concentrations, or treatment areas, except for provisions governing recordkeeping, at three or more sites on three or more separate dates;

(b) The licensee violates s. 482.051(3) or a rule with respect to three contracts within 2 years and the violation is failure to comply with contractual obligations to re-treat a wood-destroying-organism infestation or to repair damage caused by wood-destroying organisms when required by the contract. If a licensee makes a good-faith offer to repair damage covered by a valid contract, the licensee must be considered to be in compliance with the contractual obligation;

(c) The licensee violates subsection (9); or

(d) The licensee violates the recordkeeping requirements of s. 482.051(5) three or more times within 2 years.

(5) A suspended permit may be reinstated after the period of the suspension if the licensee's license is in good standing.

(6) The permit of a licensee whose permit has been suspended within the previous 3 years shall be revoked if the licensee subsequently meets any of the conditions of subsection (4).

(7) The department may not issue a permit or renew the permit to perform preventive termite treatments if the applicant or licensee or any of its directors, officers, owners, or general partners are or were directors, officers, owners, or general partners of a pest control business that went out of business or sold the business within 5 years immediately preceding the date of application or renewal and failed to reimburse the prorated renewal fee of any customer's remaining wood-destroying-organism contract periods or failed to provide for another licensed pest control operator to assume its existing wood-destroying-organism contract responsibility.

(8) A licensee must conspicuously display its current permit at all business locations, each of which must have a separate permit.

(9) A licensee holding a permit must maintain accurate records of all pesticides purchased, obtained, or available for its use; the total amount of the area treated using soil applied termiticides; and the total number of sites treated using this and any other method of treatment. These records must be made available to the department upon request. The amount of pesticides purchased, obtained, or otherwise available must at least equal the amount required by the pesticide label to treat the area or number of sites treated.

(10) The department shall suspend the license of any licensee who performs preventive termite treatments for new construction while its permit is suspended or revoked.

(11) The department shall adopt rules necessary to administer this section.

Section 4. Subsection (10) is added to section 482.091, Florida Statutes, to read:

482.091 Employee identification cards.—

(10) In addition to the training required by s. 482.091(3), each identification cardholder must receive 4 hours of classroom training in pesticide safety, integrated pest management, and applicable federal and state laws and rules within 6 months after issuance of the card or must have received such training within 2 years before issuance of the card. Each cardholder must receive at least 2 hours of continuing training in pesticide safety, integrated pest management, and applicable federal and state laws and rules by the renewal date of the card. Certified operators who maintain their certificates in good standing are exempt from this subsection. The department shall adopt rules regarding verification of such training.

Section 5. Paragraph (b) of subsection (2) of section 482.132, Florida Statutes, is amended to read:

482.132 Qualifications for examination and certification.—

(2) Each applicant for examination for a pest control operator's certificate must possess the minimum qualifications specified in one of the following paragraphs:

(b) A degree with advanced training or a major in entomology, botany, agronomy, or horticulture from a recognized college or university, which training or major included the completion of at least 20 semester hours or 30 quarter hours of college credits in those subjects, plus 1 year's employment as a service employee of a licensee that performs pest control in the category or categories in which the applicant seeks certification or the successful completion of a 1-year entomology program at a public university in this state which specializes in urban pest management and includes practical pest management experience. Section 1. Subsection (1) of section 163.3174, Florida Statutes, is amended to read:

163.3174 Local planning agency.—

(1) The governing body of each local government, individually or in combination as provided in s. 163.3171, shall designate and by ordinance establish a “local planning agency,” unless the agency is otherwise established by law. *Notwithstanding any special act to the contrary, no later than January 1, 2002, each local planning agency shall include a representative of the district school board as a member.* The governing body may designate itself as the local planning agency pursuant to this subsection, *with the addition of a representative of the school board.* The governing body shall notify the state land planning agency of the establishment of its local planning agency. All local planning agencies shall provide opportunities for involvement by ~~district school boards and~~ applicable community college boards, which may be accomplished by formal representation, membership on technical advisory committees, or other appropriate means. The local planning agency shall prepare the comprehensive plan or plan amendment after hearings to be held after public notice and shall make recommendations to the governing body regarding the adoption or amendment of the plan. The agency may be a local planning commission, the planning department of the local government, or other instrumentality, including a countywide planning entity established by special act or a council of local government officials created pursuant to s. 163.02, provided the composition of the council is fairly representative of all the governing bodies in the county or planning area; however:

(a) If a joint planning entity is in existence on the effective date of this act which authorizes the governing bodies to adopt and enforce a land use plan effective throughout the joint planning area, that entity shall be the agency for those local governments until such time as the authority of the joint planning entity is modified by law.

(b) In the case of chartered counties, the planning responsibility between the county and the several municipalities therein shall be as stipulated in the charter.

Section 2. Subsection (12) of section 163.3177, Florida Statutes, is repealed, and paragraphs (a) and (h) of subsection (6) and subsection (11) of said section are amended to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for

residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. The future land use plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives. Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community’s economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October 1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government’s ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. ~~Amendments An amendment~~ proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use *or for adopting or amending the school siting maps pursuant to s. 163.3177(6) are is* exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria which encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools, *and shall include criteria which encourage using elementary schools as focal points for neighborhoods to the extent possible. For schools serving predominantly rural counties, defined as a county with a population of less than 75,000, an agricultural land use category shall be eligible for the location of public school facilities if the local comprehensive plan contains school siting criteria and the location is consistent with such criteria.*

(h)1. An intergovernmental coordination element showing relationships and stating principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing services but not having regulatory authority over the use of land, with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region, and with the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist. This element of the local comprehensive plan

shall demonstrate consideration of the particular effects of the local plan, when adopted, upon the development of adjacent municipalities, the county, adjacent counties, or the region, or upon the state comprehensive plan, as the case may require.

a. The intergovernmental coordination element shall provide for procedures to identify and implement joint planning areas, especially for the purpose of annexation, municipal incorporation, and joint infrastructure service areas.

b. The intergovernmental coordination element shall provide for recognition of campus master plans prepared pursuant to s. 240.155.

c. The intergovernmental coordination element may provide for a voluntary dispute resolution process as established pursuant to s. 186.509 for bringing to closure in a timely manner intergovernmental disputes. A local government may develop and use an alternative local dispute resolution process for this purpose.

2. The intergovernmental coordination element shall further state principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing facilities and services but not having regulatory authority over the use of land. In addition, the intergovernmental coordination element shall describe joint processes for collaborative planning and decisionmaking on population projections and public school siting, the location and extension of public facilities subject to concurrency, and siting facilities with countywide significance, including locally unwanted land uses whose nature and identity are established in an agreement. Within 1 year of adopting their intergovernmental coordination elements, each county, all the municipalities within that county, the district school board, and any unit of local government service providers in that county shall establish by interlocal or other formal agreement executed by all affected entities, the joint processes described in this subparagraph consistent with their adopted intergovernmental coordination elements.

3. To foster coordination between special districts and local general-purpose governments as local general-purpose governments implement local comprehensive plans, each independent special district must submit a public facilities report to the appropriate local government as required by s. 189.415.

4. The state land planning agency shall establish a schedule for phased completion and transmittal of plan amendments to implement subparagraphs 1., 2., and 3. from all jurisdictions so as to accomplish their adoption by December 31, 1999. A local government may complete and transmit its plan amendments to carry out these provisions prior to the scheduled date established by the state land planning agency. The plan amendments are exempt from the provisions of s. 163.3187(1).

5. *Intergovernmental coordination between local governments and the district school board shall be governed by s. 163.31776 for local governments subject to the requirements of said section, and compliance with said section with respect to intergovernmental coordination is encouraged for local governments exempt from such requirements.*

(11)(a) The Legislature recognizes the need for innovative planning and development strategies which will address the anticipated demands of continued urbanization of Florida's coastal and other environmentally sensitive areas, and which will accommodate the development of less populated regions of the state which seek economic development and which have suitable land and water resources to accommodate growth in an environmentally acceptable manner. The Legislature further recognizes the substantial advantages of innovative approaches to development which may better serve to protect environmentally sensitive areas, maintain the economic viability of agricultural and other predominantly rural land uses, and provide for the cost-efficient delivery of public facilities and services.

(b) It is the intent of the Legislature that the local government comprehensive plans and plan amendments adopted pursuant to the provisions of this part provide for a planning process which allows for land use efficiencies within existing urban areas and which also allows for the conversion of rural lands to other uses, where appropriate and

consistent with the other provisions of this part and the affected local comprehensive plans, through the application of innovative and flexible planning and development strategies and creative land use planning techniques, which may include, but not be limited to, urban villages, new towns, satellite communities, area-based allocations, clustering and open space provisions, mixed-use development, and sector planning.

(c) It is the further intent of the Legislature that local government comprehensive plans and implementing land development regulations shall provide strategies which maximize the use of existing facilities and services through redevelopment, urban infill development, and other strategies for urban revitalization.

(d)1. The department, in cooperation with the Department of Agriculture and Consumer Services, shall provide assistance to local governments in the implementation of this paragraph and rule 9J-5.006(5)(l), Florida Administrative Code. Implementation of those provisions shall include a process by which the department may authorize up to five local governments to designate all or portions of lands classified in the future land use element as predominantly agricultural, rural, open, open-rural, or a substantively equivalent land use, as a rural land stewardship area within which planning and economic incentives are applied to encourage the implementation of innovative and flexible planning and development strategies and creative land use planning techniques, including those contained in rule 9J-5.006(5)(l), Florida Administrative Code.

2. *The department shall encourage participation by local governments of different sizes and rural characteristics. It is the intent of the Legislature that rural land stewardship areas be used to further the following broad principles of rural sustainability: restoration and maintenance of the economic value of rural land; control of urban sprawl; identification and protection of ecosystems, habitats, and natural resources; promotion of rural economic activity; maintenance of the viability of Florida's agricultural economy; and protection of the character of rural areas of Florida.*

3. *A local government may apply to the department in writing requesting consideration for authorization to designate a rural land stewardship area and shall describe its reasons for applying for the authorization with supporting documentation regarding its compliance with criteria set forth in this section.*

4. *In selecting a local government, the department shall, by written agreement:*

a. *Ensure that the local government has expressed its intent to designate a rural land stewardship area pursuant to the provisions of this subsection.*

b. *Ensure that the local government has the financial and administrative capabilities to implement a rural land stewardship area.*

5. *The written agreement shall include the basis for the authorization and provide criteria for evaluating the success of the authorization, including the extent to which the rural land stewardship area enhances rural land values; controls urban sprawl; provides necessary open space for agriculture and protection of the natural environment; promotes rural economic activity; and maintains rural character and the economic viability of agriculture. The department may terminate the agreement at any time if it determines that the local government is not meeting the terms of the agreement.*

6. *A rural land stewardship area shall be not less than 50,000 acres and shall not exceed 250,000 acres in size, shall be located outside of municipalities and established urban growth boundaries, and shall be designated by plan amendment. The plan amendment designating a rural land stewardship area shall be subject to review by the Department of Community Affairs pursuant to s. 163.3184 and shall provide for the following:*

a. *Criteria for the designation of receiving areas within rural land stewardship areas in which innovative planning and development strategies may be applied. Criteria shall at a minimum provide for the following: adequacy of suitable land to accommodate development so as to avoid conflict with environmentally sensitive areas, resources, and*

habitats; compatibility between and transition from higher density uses to lower intensity rural uses; the establishment of receiving area service boundaries which provide for a separation between receiving areas and other land uses within the rural land stewardship area through limitations on the extension of services; and connection of receiving areas with the rest of the rural land stewardship area using rural design and rural road corridors.

b. Goals, objectives, and policies setting forth the innovative planning and development strategies to be applied within rural land stewardship areas pursuant to the provisions of this section.

c. A process for the implementation of innovative planning and development strategies within the rural land stewardship area, including those described in this subsection and rule 9J-5.006(5)(l), Florida Administrative Code, which provide for a functional mix of land uses and which are applied through the adoption by the local government of zoning and land development regulations applicable to the rural land stewardship area.

d. A process which encourages visioning pursuant to s. 163.3167(11) to ensure that innovative planning and development strategies comply with the provisions of this section.

e. The control of sprawl through the use of innovative strategies and creative land use techniques consistent with the provisions of this subsection and rule 9J-5.006(5)(l), Florida Administrative Code.

7. A receiving area shall be designated by the adoption of a land development regulation. Prior to the designation of a receiving area, the local government shall provide the Department of Community Affairs a period of 30 days in which to review a proposed receiving area for consistency with the rural land stewardship area plan amendment and to provide comments to the local government.

8. Upon the adoption of a plan amendment creating a rural land stewardship area, the local government shall, by ordinance, assign to the area a certain number of credits, to be known as "transferable rural land use credits," which shall not constitute a right to develop land, nor increase density of land, except as provided by this section. The total amount of transferable rural land use credits assigned to the rural land stewardship area must correspond to the 25-year or greater projected population of the rural land stewardship area. Transferable rural land use credits are subject to the following limitations:

a. Transferable rural land use credits may only exist within a rural land stewardship area.

b. Transferable rural land use credits may only be used on lands designated as receiving areas and then solely for the purpose of implementing innovative planning and development strategies and creative land use planning techniques adopted by the local government pursuant to this section.

c. Transferable rural land use credits assigned to a parcel of land within a rural land stewardship area shall cease to exist if the parcel of land is removed from the rural land stewardship area by plan amendment.

d. Neither the creation of the rural land stewardship area by plan amendment nor the assignment of transferable rural land use credits by the local government shall operate to displace the underlying density of land uses assigned to a parcel of land within the rural land stewardship area; however, if transferable rural land use credits are transferred from a parcel for use within a designated receiving area, the underlying density assigned to the parcel of land shall cease to exist.

e. The underlying density on each parcel of land located within a rural land stewardship area shall not be increased or decreased by the local government, except as a result of the conveyance or use of transferable rural land use credits, as long as the parcel remains within the rural land stewardship area.

f. Transferable rural land use credits shall cease to exist on a parcel of land where the underlying density assigned to the parcel of land is utilized.

g. An increase in the density of use on a parcel of land located within a designated receiving area may occur only through the assignment or use of transferable rural land use credits and shall not require a plan amendment.

h. A change in the density of land use on parcels located within receiving areas shall be specified in a development order which reflects the total number of transferable rural land use credits assigned to the parcel of land and the infrastructure and support services necessary to provide for a functional mix of land uses corresponding to the plan of development.

i. Land within a rural land stewardship area may be removed from the rural land stewardship area through a plan amendment.

j. Transferable rural land use credits may be assigned at different ratios of credits per acre according to the land use remaining following the transfer of credits, with the highest number of credits per acre assigned to preserve environmentally valuable land and a lesser number of credits to be assigned to open space and agricultural land.

k. The use or conveyance of transferable rural land use credits must be recorded in the public records of the county in which the property is located as a covenant or restrictive easement running with the land in favor of the county and either the Department of Environmental Protection, the Department of Agriculture and Consumer Services, a water management district, or a recognized statewide land trust.

9. Owners of land within rural land stewardship areas should be provided incentives to enter into rural land stewardship agreements, pursuant to existing law and rules adopted thereto, with state agencies, water management districts, and local governments to achieve mutually agreed upon conservation objectives. Such incentives may include, but not be limited to, the following:

a. Opportunity to accumulate transferable mitigation credits.

b. Extended permit agreements.

c. Opportunities for recreational leases and ecotourism.

d. Payment for specified land management services on publicly owned land, or property under covenant or restricted easement in favor of a public entity.

e. Option agreements for sale to government, in either fee or easement, upon achievement of conservation objectives.

10. The department shall report to the Legislature on an annual basis on the results of implementation of rural land stewardship areas authorized by the department, including successes and failures in achieving the intent of the Legislature as expressed in this paragraph. It is further the intent of the Legislature that the success of authorized rural land stewardship areas be substantiated before implementation occurs on a statewide basis.

(e)(d) The implementation of this subsection shall be subject to the provisions of this chapter, chapters 186 and 187, and applicable agency rules.

(f)(e) The department may adopt rules necessary to shall implement the provisions of this subsection by rule.

Section 3. Section 163.31776, Florida Statutes, is created to read:

163.31776 Public educational facilities element.—

(1) The intent of the Legislature is:

(a) To establish a systematic process of sharing information between school boards and local governments on the growth and development trends in their communities in order to forecast future enrollment and school needs.

(b) To establish a systematic process for school boards and local governments to cooperatively plan for the provision of educational facilities to meet the current and projected needs of the public education system population, including the needs placed on the public education

system as a result of growth and development decisions by local government.

(c) To establish a systematic process for local governments and school boards to cooperatively identify and meet the infrastructure needs of public schools to assure healthy school environments and safe school access.

(2) The Legislature finds that:

(a) Public schools are a linchpin to the vitality of our communities and play a significant role in thousands of individual housing decisions which result in community growth trends.

(b) Growth and development issues transcend the boundaries and responsibilities of individual units of government, and often no single unit of government can plan or implement policies to deal with these issues without affecting other units of government.

(3) A public educational facilities element shall be adopted in cooperation with the applicable school district by all local governments meeting the criteria identified in paragraph (a). All local governments are encouraged to adopt a public educational facilities element regardless of whether they meet the criteria of paragraph (a) or are exempted by paragraph (c). The public educational facilities elements shall be transmitted no later than January 1, 2003, for those local governments initially meeting the criteria in paragraph (a).

(a) A local government must adopt a public educational facilities element if the local government is located in a county where:

1. The number of districtwide capital outlay full-time equivalent students is equal to 80 percent or more of the most current year's school capacity and the projected 5-year student growth is 1,000 students or greater; or

2. The projected 5-year student growth rate is 10 percent or greater.

(b) The Department of Education shall issue a report notifying the state land planning agency and each county and school district that meets the criteria specified in paragraph (a) on June 1 of each year. Local governments and school boards shall have 18 months following notification to comply with the requirements of this section.

(c) Each municipality within a county described in paragraph (a) shall adopt its own element or adopt a plan amendment accepting the public educational facilities element adopted by the county which includes the municipality's area of authority as defined by s. 163.3171. However, a municipality is exempt from this requirement if it does not contain a public school within its jurisdiction and none is scheduled in the 5-year district facilities work program of the school board's education facilities plan adopted pursuant to s. 235.185, and if the residents of the municipality have generated less than 50 additional public school students during the last 5 years. Any municipality exempt under this paragraph shall notify the county and the school board of any planned annexations into residential or proposed residential areas or other change in conditions which would render the municipality no longer eligible for exemption and shall comply with the provisions of this subsection no later than 1 year following a change in conditions which renders the municipality no longer eligible for exemption or no later than 1 year following the identification of a proposed public school in the school board's 5-year district facilities work program in the municipality's jurisdiction.

(d) The Department of Education and the Department of Community Affairs shall submit a report to the Governor, the President of the Senate, and Speaker of the House of Representatives by January 2003 that evaluates the criteria in paragraph (a) and makes any recommendations for changes to the criteria as needed to meet the intent of this part.

(4) No later than 6 months prior to the deadline for transmittal of a public educational facilities element, the county, the nonexempt municipalities, and the school board shall enter into an interlocal agreement which establishes a process to develop coordinated and consistent local government public educational facilities elements and district educational facilities plans, including a process:

(a) By which each local government and the school district agree and base the local government comprehensive plan and educational facilities plan on uniform projections of the amount, type, and distribution of population growth and student enrollment.

(b) To coordinate and share information relating to existing and planned public school facilities and local government plans for development and redevelopment.

(c) To ensure that school siting decisions by the school board are consistent with the local comprehensive plan, including appropriate circumstances and criteria under which a school district may request an amendment to the comprehensive plan for school siting, and to provide for early involvement by the local government as the school board identifies potential school sites.

(d) To coordinate and provide timely formal comments during the development, adoption, and amendment of each local government's public educational facilities element and the educational facilities plan of the school district to ensure a uniform countywide school facility planning system.

(e) For school district participation in the review of land use decisions which increase residential density and which are reasonably expected to have an impact on public school facility demand.

(f) For the resolution of disputes between the school district and local governments.

(5) The public educational facilities element shall be based on data and analysis, including the interlocal agreement required by subsection (4) and the educational facilities plan required by s. 235.185. All local government public educational facilities elements within a county shall be consistent with each other and shall address the following:

(a) The need for and strategies and commitments to address improvements to infrastructure, safety, and community conditions in areas proximate to existing public schools.

(b) The need for and strategies for the provision of adequate infrastructure necessary to support proposed schools, including potable water, wastewater, drainage, and transportation, and the need for other actions to ensure safe access to schools, including provision of sidewalks, bicycle paths, turn lanes, and signalization.

(c) Collocation of other public facilities such as parks, libraries, and community centers with public schools.

(d) Location of schools proximate to residential areas and use of public schools to complement patterns of development, including using elementary schools as focal points for neighborhoods.

(e) Use of public schools as emergency shelters.

(f) Consideration of the existing and planned capacity of public schools when reviewing land use decisions.

(6) The future land use map series shall either incorporate maps which are the result of a collaborative process for identifying school sites and are adopted in the educational facilities plan promulgated by the school board pursuant to s. 235.185 showing the locations of existing public schools and the general locations of improvements to existing schools or construction of new schools anticipated over the 5-year, 10-year, and 20-year time periods, or such maps shall be data and analysis in support of the future land use map series. Maps indicating general locations of future schools or school improvements shall not be deemed to prescribe a land use on a particular parcel of land.

(7) The process for adoption of a public educational facilities element shall be as provided in s. 163.3184. The state land planning agency shall submit a copy of the proposed public school facilities element pursuant to the procedures outlined in s. 163.3184(4) to the Office of Educational Facilities of the Commissioner of Education for review and comment.

(8) The interlocal agreement must be entered into by the county, the school board, and the nonexempt municipalities within the county. If such parties cannot reach agreement, the matter shall be resolved by

binding arbitration through the regional planning council. The failure of such parties to enter into an interlocal agreement within 60 days after referral to binding arbitration shall result in the prohibition of the local governments' ability to amend the local comprehensive plan until the dispute is resolved. The failure of a school board to provide the required plans or information or to enter into the interlocal agreement under this subsection shall subject the school board to sanctions pursuant to s. 235.193(3). Any local government that has executed an interlocal agreement to implement school concurrency pursuant to the requirements of s. 163.3180 prior to the effective date of this section shall not be required to amend the public school element or any interlocal agreement to conform with the provisions of this section, if such amendment is ultimately determined to be in compliance.

(9) Nothing in this section prohibits a local government from using its home rule powers to deny a comprehensive plan amendment or rezoning.

Section 4. Subsection (13) of section 163.3180, Florida Statutes, is amended to read:

163.3180 Concurrency.—

(13) School concurrency, if imposed by local option, shall be established on a districtwide basis and shall include all public schools in the district and all portions of the district, whether located in a municipality or an unincorporated area. The application of school concurrency to development shall be based upon the adopted comprehensive plan, as amended. All local governments within a county, except as provided in s. 163.31776(3)(c) ~~paragraph (f)~~, shall adopt and transmit to the state land planning agency the necessary plan amendments, along with the interlocal agreement, for a compliance review pursuant to s. 163.3184(7) and (8). School concurrency shall not become effective in a county until all local governments, except as provided in s. 163.31776(3)(c) ~~paragraph (f)~~, have adopted the necessary plan amendments, which together with the interlocal agreement, are determined to be in compliance with the requirements of this part. The minimum requirements for school concurrency are the following:

(a) ~~Public educational school facilities element.~~—A local government that elects to adopt public school concurrency shall adopt ~~and transmit to the state land planning agency~~ a plan or plan amendment which includes a public educational school facilities element which is consistent with the requirements of s. 163.31776(5) ~~163.3177(12)~~ and which is consistent with the following:

1. *The element shall be based on data and analyses that address how uniform, districtwide level-of-service standards for all schools of the same type will be achieved and maintained.*

2. *The element shall establish specific, measurable, intermediate ends that are achievable and mark progress toward the goal of school concurrency.*

3. *The element shall establish the way in which programs and activities will be conducted to achieve an identified goal.*

4. *The element shall address the procedure for an annual update process.*

5. *All local government public educational facilities elements which adopt public school concurrency within a county must be consistent with each other as well as the requirements of this part. Any local government that has executed an interlocal agreement for the purpose of implementing public school concurrency prior to the effective date of this section shall not be required to amend the public school facilities element or any interlocal agreement to conform with the provisions of s. 163.31776 if such element is ultimately determined to be in compliance as defined in s. 163.3184(1)(b). All local government public school facilities plan elements within a county must be consistent with each other as well as the requirements of this part.*

(b) Level-of-service standards.—The Legislature recognizes that an essential requirement for a concurrency management system is the level of service at which a public facility is expected to operate.

1. Local governments and school boards imposing school concurrency shall exercise authority in conjunction with each other to establish jointly adequate level-of-service standards, as defined in chapter 9J-5, Florida Administrative Code, necessary to implement the adopted local government comprehensive plan, based on data and analysis.

2. Public school level-of-service standards shall be included and adopted into the capital improvements element of the local comprehensive plan and shall apply districtwide to all schools of the same type. Types of schools may include elementary, middle, and high schools as well as special purpose facilities such as magnet schools.

3. Local governments and school boards shall have the option to utilize tiered level-of-service standards to allow time to achieve an adequate and desirable level of service as circumstances warrant.

(c) Service areas.—The Legislature recognizes that an essential requirement for a concurrency system is a designation of the area within which the level of service will be measured when an application for a residential development permit is reviewed for school concurrency purposes. This delineation is also important for purposes of determining whether the local government has a financially feasible public school capital facilities program that will provide schools which will achieve and maintain the adopted level-of-service standards.

1. In order to balance competing interests, preserve the constitutional concept of uniformity, and avoid disruption of existing educational and growth management processes, local governments are encouraged to apply school concurrency to development on a districtwide basis so that a concurrency determination for a specific development will be based upon the availability of school capacity districtwide.

2. For local governments applying school concurrency on a less than districtwide basis, such as utilizing school attendance zones or larger school concurrency service areas, local governments and school boards shall have the burden to demonstrate that the utilization of school capacity is maximized to the greatest extent possible in the comprehensive plan and amendment, taking into account transportation costs and court-approved desegregation plans, as well as other factors. In addition, in order to achieve concurrency within the service area boundaries selected by local governments and school boards, the service area boundaries, together with the standards for establishing those boundaries, shall be identified, included, and adopted as part of the comprehensive plan. Any subsequent change to the service area boundaries for purposes of a school concurrency system shall be by plan amendment and shall be exempt from the limitation on the frequency of plan amendments in s. 163.3187(1).

3. Where school capacity is available on a districtwide basis but school concurrency is applied on a less than districtwide basis in the form of concurrency service areas, if the adopted level-of-service standard cannot be met in a particular service area as applied to an application for a development permit and if the needed capacity for the particular service area is available in one or more contiguous service areas, as adopted by the local government, then the development order shall be issued and mitigation measures shall not be exacted.

(d) Financial feasibility.—The Legislature recognizes that financial feasibility is an important issue because the premise of concurrency is that the public facilities will be provided in order to achieve and maintain the adopted level-of-service standard. This part and chapter 9J-5, Florida Administrative Code, contain specific standards to determine the financial feasibility of capital programs. These standards were adopted to make concurrency more predictable and local governments more accountable.

1. A comprehensive plan amendment seeking to impose school concurrency shall contain appropriate amendments to the capital improvements element of the comprehensive plan, consistent with the requirements of s. 163.3177(3) and rule 9J-5.016, Florida Administrative Code. The capital improvements element shall set forth a financially feasible public school capital facilities program, established

in conjunction with the school board, that demonstrates that the adopted level-of-service standards will be achieved and maintained.

2. Such amendments shall demonstrate that the public school capital facilities program meets all of the financial feasibility standards of this part and chapter 9J-5, Florida Administrative Code, that apply to capital programs which provide the basis for mandatory concurrency on other public facilities and services.

3. When the financial feasibility of a public school capital facilities program is evaluated by the state land planning agency for purposes of a compliance determination, the evaluation shall be based upon the service areas selected by the local governments and school board.

(e) Availability standard.—Consistent with the public welfare, a local government may not deny a development permit authorizing residential development for failure to achieve and maintain the level-of-service standard for public school capacity in a local option school concurrency system where adequate school facilities will be in place or under actual construction within 3 years after permit issuance.

~~(f) Intergovernmental coordination.—~~

~~1. When establishing concurrency requirements for public schools, a local government shall satisfy the requirements for intergovernmental coordination set forth in s. 163.3177(6)(h)1. and 2., except that a municipality is not required to be a signatory to the interlocal agreement required by s. 163.3177(6)(h)2. as a prerequisite for imposition of school concurrency, and as a nonsignatory, shall not participate in the adopted local school concurrency system, if the municipality meets all of the following criteria for having no significant impact on school attendance:~~

~~a. The municipality has issued development orders for fewer than 50 residential dwelling units during the preceding 5 years, or the municipality has generated fewer than 25 additional public school students during the preceding 5 years.~~

~~b. The municipality has not annexed new land during the preceding 5 years in land use categories which permit residential uses that will affect school attendance rates.~~

~~c. The municipality has no public schools located within its boundaries.~~

~~d. At least 80 percent of the developable land within the boundaries of the municipality has been built upon.~~

~~2. A municipality which qualifies as having no significant impact on school attendance pursuant to the criteria of subparagraph 1. must review and determine at the time of its evaluation and appraisal report pursuant to s. 163.3191 whether it continues to meet the criteria. If the municipality determines that it no longer meets the criteria, it must adopt appropriate school concurrency goals, objectives, and policies in its plan amendments based on the evaluation and appraisal report, and enter into the existing interlocal agreement required by s. 163.3177(6)(h)2., in order to fully participate in the school concurrency system. If such a municipality fails to do so, it will be subject to the enforcement provisions of s. 163.3191.~~

~~(f)(g) Interlocal agreement for school concurrency.—When establishing concurrency requirements for public schools, a local government must enter into an interlocal agreement which satisfies the requirements in s. 163.3177(4) 163.3177(6)(h)1. and 2. and the requirements of this subsection. The interlocal agreement shall acknowledge both the school board's constitutional and statutory obligations to provide a uniform system of free public schools on a countywide basis, and the land use authority of local governments, including their authority to approve or deny comprehensive plan amendments and development orders. The interlocal agreement shall be submitted to the state land planning agency by the local government as a part of the compliance review, along with the other necessary amendments to the comprehensive plan required by this part. In addition to the requirements of s. 163.3177(4) 163.3177(6)(h), the interlocal agreement shall meet the following requirements:~~

1. Establish the mechanisms for coordinating the development, adoption, and amendment of each local government's public school facilities element with each other and the plans of the school board to ensure a uniform districtwide school concurrency system.

~~2. Establish a process by which each local government and the school board shall agree and base their plans on consistent projections of the amount, type, and distribution of population growth and coordinate and share information relating to existing and planned public school facilities projections and proposals for development and redevelopment, and infrastructure required to support public school facilities.~~

~~3. Establish a process for the development of siting criteria which encourages the location of public schools proximate to urban residential areas to the extent possible and seeks to collocate schools with other public facilities such as parks, libraries, and community centers to the extent possible.~~

2.4. Specify uniform, districtwide level-of-service standards for public schools of the same type and the process for modifying the adopted levels-of-service standards.

3.5. Establish a process for the preparation, amendment, and joint approval by each local government and the school board of a public school capital facilities program which is financially feasible, and a process and schedule for incorporation of the public school capital facilities program into the local government comprehensive plans on an annual basis.

4.6. Define the geographic application of school concurrency. If school concurrency is to be applied on a less than districtwide basis in the form of concurrency service areas, the agreement shall establish criteria and standards for the establishment and modification of school concurrency service areas. The agreement shall also establish a process and schedule for the mandatory incorporation of the school concurrency service areas and the criteria and standards for establishment of the service areas into the local government comprehensive plans. The agreement shall ensure maximum utilization of school capacity, taking into account transportation costs and court-approved desegregation plans, as well as other factors. The agreement shall also ensure the achievement and maintenance of the adopted level-of-service standards for the geographic area of application throughout the 5 years covered by the public school capital facilities plan and thereafter by adding a new fifth year during the annual update.

5.7. Establish a uniform districtwide procedure for implementing school concurrency which provides for:

a. The evaluation of development applications for compliance with school concurrency requirements;

b. An opportunity for the school board to review and comment on the effect of comprehensive plan amendments and rezonings on the public school facilities plan; and

c. The monitoring and evaluation of the school concurrency system.

6.8. Include provisions relating to termination, suspension, and amendment of the agreement. The agreement shall provide that if the agreement is terminated or suspended, the application of school concurrency shall be terminated or suspended.

Section 5. Paragraph (b) of subsection (1) of section 163.3184, Florida Statutes, is amended, and, effective October 1, 2001, subsections (3), (4), (6), (7), (8), and (15) and paragraph (d) of subsection (16) of said section are amended, to read:

163.3184 Process for adoption of comprehensive plan or plan amendment.—

(1) DEFINITIONS.—As used in this section:

(b) "In compliance" means consistent with the requirements of ss. 163.3177, 163.31776, 163.3178, 163.3180, 163.3191, and 163.3245, with the state comprehensive plan, with the appropriate strategic regional policy plan, and with chapter 9J-5, Florida Administrative Code, where

such rule is not inconsistent with this part and with the principles for guiding development in designated areas of critical state concern.

(3) LOCAL GOVERNMENT TRANSMITTAL OF PROPOSED PLAN OR AMENDMENT.—

(a) Each local governing body shall transmit the complete proposed comprehensive plan or plan amendment to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, *the Department of State*, and the Department of Transportation, *and, in the case of municipal plans, to the appropriate county, and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services*, immediately following a public hearing pursuant to subsection (15) as specified in the state land planning agency's procedural rules. *If the plan or plan amendment includes or relates to the public educational facilities element required by s. 163.31776, the state land planning agency shall submit a copy to the Office of Educational Facilities of the Commissioner of Education for review and comment.* The local governing body shall also transmit a copy of the complete proposed comprehensive plan or plan amendment to any other unit of local government or government agency in the state that has filed a written request with the governing body for the plan or plan amendment. *The local government may request a review by the state land planning agency pursuant to subsection (6) at the time of transmittal of an amendment.*

(b) A local governing body shall not transmit portions of a plan or plan amendment unless it has previously provided to all state agencies designated by the state land planning agency a complete copy of its adopted comprehensive plan pursuant to subsection (7) and as specified in the agency's procedural rules. In the case of comprehensive plan amendments, the local governing body shall transmit to the state land planning agency, the appropriate regional planning council and water management district, the Department of Environmental Protection, *the Department of State*, and the Department of Transportation, *and, in the case of municipal plans, to the appropriate county, and, in the case of county plans, to the Fish and Wildlife Conservation Commission and the Department of Agriculture and Consumer Services*, the materials specified in the state land planning agency's procedural rules and, in cases in which the plan amendment is a result of an evaluation and appraisal report adopted pursuant to s. 163.3191, a copy of the evaluation and appraisal report. Local governing bodies shall consolidate all proposed plan amendments into a single submission for each of the two plan amendment adoption dates during the calendar year pursuant to s. 163.3187.

(c) A local government may adopt a proposed plan amendment previously transmitted pursuant to this subsection, unless review is requested or otherwise initiated pursuant to subsection (6).

(d) In cases in which a local government transmits multiple individual amendments that can be clearly and legally separated and distinguished for the purpose of determining whether to review the proposed amendment, and the state land planning agency elects to review several or a portion of the amendments and the local government chooses to immediately adopt the remaining amendments not reviewed, the amendments immediately adopted and any reviewed amendments that the local government subsequently adopts together constitute one amendment cycle in accordance with s. 163.3187(1).

(4) INTERGOVERNMENTAL REVIEW.—~~If review of a proposed comprehensive plan amendment is requested or otherwise initiated pursuant to subsection (6), the state land planning agency within 5 working days of determining that such a review will be conducted shall transmit a copy of the proposed plan amendment to various government agencies, as appropriate, for response or comment, including, but not limited to, the Department of Environmental Protection, the Department of Transportation, the water management district, and the regional planning council, and, in the case of municipal plans, to the county land planning agency. The~~ These governmental agencies specified in paragraph (3)(a) shall provide comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment. The appropriate

regional planning council shall also provide its written comments to the state land planning agency within 30 days after receipt by the state land planning agency of the complete proposed plan amendment and shall specify any objections, recommendations for modifications, and comments of any other regional agencies to which the regional planning council may have referred the proposed plan amendment. Written comments submitted by the public within 30 days after notice of transmittal by the local government of the proposed plan amendment will be considered as if submitted by governmental agencies. All written agency and public comments must be made part of the file maintained under subsection (2).

(6) STATE LAND PLANNING AGENCY REVIEW.—

(a) The state land planning agency shall review a proposed plan amendment upon request of a regional planning council, affected person, or local government transmitting the plan amendment. *The request from the regional planning council or affected person must be if the request is received within 30 days after transmittal of the proposed plan amendment pursuant to subsection (3). The agency shall issue a report of its objections, recommendations, and comments regarding the proposed plan amendment.* A regional planning council or affected person requesting a review shall do so by submitting a written request to the agency with a notice of the request to the local government and any other person who has requested notice.

(b) The state land planning agency may review any proposed plan amendment regardless of whether a request for review has been made, if the agency gives notice to the local government, and any other person who has requested notice, of its intention to conduct such a review within ~~35~~ 30 days after receipt by the state land planning agency of transmittal of the complete proposed plan amendment pursuant to subsection (3).

(c) The state land planning agency shall establish by rule a schedule for receipt of comments from the various government agencies, as well as written public comments, pursuant to subsection (4). *If the state land planning agency elects to review the amendment or the agency is required to review the amendment as specified in paragraph (a), the agency shall issue a report of its objections, recommendations, and comments regarding the proposed amendment within 60 days after receipt of the complete proposed amendment by the state land planning agency. Proposed comprehensive plan amendments from small counties or rural communities for the purpose of job creation, economic development, or strengthening and diversifying the economy shall receive priority review by the state land planning agency. The state land planning agency shall have 30 days to review comments from the various government agencies along with a local government's comprehensive plan or plan amendment. During that period, the state land planning agency shall transmit in writing its comments to the local government along with any objections and any recommendations for modifications.* When a federal, state, or regional agency has implemented a permitting program, the state land planning agency shall not require a local government to duplicate or exceed that permitting program in its comprehensive plan or to implement such a permitting program in its land development regulations. Nothing contained herein shall prohibit the state land planning agency in conducting its review of local plans or plan amendments from making objections, recommendations, and comments or making compliance determinations regarding densities and intensities consistent with the provisions of this part. In preparing its comments, the state land planning agency shall only base its considerations on written, and not oral, comments, from any source.

(d) The state land planning agency review shall identify all written communications with the agency regarding the proposed plan amendment. If the state land planning agency does not issue such a review, it shall identify in writing to the local government all written communications received 30 days after transmittal. The written identification must include a list of all documents received or generated by the agency, which list must be of sufficient specificity to enable the documents to be identified and copies requested, if desired, and the name of the person to be contacted to request copies of any identified document. The list of documents must be made a part of the public records of the state land planning agency.

(7) LOCAL GOVERNMENT REVIEW OF COMMENTS; ADOPTION OF PLAN OR AMENDMENTS AND TRANSMITTAL.—

(a) The local government shall review the written comments submitted to it by the state land planning agency, and any other person, agency, or government. Any comments, recommendations, or objections and any reply to them shall be public documents, a part of the permanent record in the matter, and admissible in any proceeding in which the comprehensive plan or plan amendment may be at issue. The local government, upon receipt of written comments from the state land planning agency, shall have 120 days to adopt or adopt with changes the proposed comprehensive plan or s. 163.3191 plan amendments. In the case of comprehensive plan amendments other than those proposed pursuant to s. 163.3191, the local government shall have 60 days to adopt the amendment, adopt the amendment with changes, or determine that it will not adopt the amendment. The adoption of the proposed plan or plan amendment or the determination not to adopt a plan amendment, other than a plan amendment proposed pursuant to s. 163.3191, shall be made in the course of a public hearing pursuant to subsection (15). The local government shall transmit the complete adopted comprehensive plan or ~~adopted~~ plan amendment to the state land planning agency as specified in the agency's procedural rules within 10 working days after adoption, including the names and addresses of persons compiled pursuant to paragraph (15)(c). The local governing body shall also transmit a copy of the adopted comprehensive plan or plan amendment to the regional planning agency and to any other unit of local government or governmental agency in the state that has filed a written request with the governing body for a copy of the plan or plan amendment.

(b) A local government that has adopted a comprehensive plan amendment to which no timely written objection from the state land planning agency, any agency, any government, or any person has been received may submit the comprehensive plan amendment and a certification to the state land planning agency within 10 days after adoption of the comprehensive plan amendment. This certification must certify that the adopted comprehensive plan amendment did not differ from the proposed comprehensive plan amendment submitted pursuant to subsection (3), and that no timely objections were received.

(8) NOTICE OF INTENT.—

(a) Except as provided in s. 163.3187(3), the state land planning agency, upon receipt of a local government's complete adopted comprehensive plan or plan amendment, shall have 45 days for review and to determine if the plan or plan amendment is in compliance with this act, unless the amendment is the result of a compliance agreement entered into under subsection (16), in which case the time period for review and determination shall be 30 days. If review was not conducted under subsection (6), the agency's determination must be based upon the plan amendment as adopted. If review was conducted under subsection (6), the agency's determination of compliance must be based only upon one or both of the following:

1. The state land planning agency's written comments to the local government pursuant to subsection (6); or
2. Any changes made by the local government to the comprehensive plan or plan amendment as adopted.

(b) During the time period provided for in this subsection, the state land planning agency shall issue, through a senior administrator or the secretary, as specified in the agency's procedural rules, a notice of intent to find that the plan or plan amendment is in compliance or not in compliance. A notice of intent shall be issued by publication in the manner provided by this paragraph and by mailing a copy to the local government and to persons who request notice. ~~The required advertisement shall be no less than 2 columns wide by 10 inches long, and the headline in the advertisement shall be in a type no smaller than 12 point. The advertisement shall not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The advertisement shall be published in a newspaper which meets the size and circulation requirements set forth in paragraph (15)(e)(e) and which has been designated in writing by the affected local government at the time of transmittal of the amendment. Publication by the state~~

land planning agency of a notice of intent in the newspaper designated by the local government shall be prima facie evidence of compliance with the publication requirements of this section.

(c) *Notwithstanding the provisions of this subsection, within 20 days after receipt of an accurate certification submitted pursuant to paragraph (7)(b), the state land planning agency shall issue a notice of intent to find the plan amendment in compliance without further review.*

(d) *The state land planning agency shall post a copy of the notice of intent on the agency's Internet site. The agency shall, no later than the date the notice of intent is transmitted to the newspaper, mail a courtesy informational statement to the persons whose names and mailing addresses were compiled pursuant to paragraph (15)(c). The informational statement shall include the identity of the newspaper in which the notice of intent will appear, the approximate date of publication of the notice of intent, the ordinance number of the plan or plan amendment, and a statement that the informational statement is provided as a courtesy to the person and that affected persons have 21 days after the actual date of publication of the notice to file a petition. The informational statement shall be sent by regular mail and shall not affect the timeframes in subsections (9) and (10).*

(e) *A local government that has an Internet site shall post a copy of the state land planning agency's notice of intent on its Internet site within 5 days after receipt of the mailed copy of the agency's notice of intent.*

(15) PUBLIC HEARINGS.—

(a) The procedure for transmittal of a complete proposed comprehensive plan or plan amendment pursuant to subsection (3) and for adoption of a comprehensive plan or plan amendment pursuant to subsection (7) shall be by affirmative vote of not less than a majority of the members of the governing body present at the hearing. The adoption of a comprehensive plan or plan amendment shall be by ordinance. For the purposes of transmitting or adopting a comprehensive plan or plan amendment, the notice requirements in chapters 125 and 166 are superseded by this subsection, except as provided in this part.

(b) The local governing body shall hold at least two advertised public hearings on the proposed comprehensive plan or plan amendment as follows:

(c) *The local government shall provide a sign-in form at the transmittal hearing and at the adoption hearing for persons to provide their names and mailing addresses. The sign-in form shall state that any person providing the requested information will receive a courtesy informational statement concerning publication of the state land planning agency's notice of intent. The local government shall add to the sign-in form the name and address of any person who submits written comments concerning the proposed plan or plan amendment during the time period between the commencement of the transmittal hearing and the end of the adoption hearing. It shall be the responsibility of the person completing the form or providing written comments to accurately, completely, and legibly provide all information required to receive the courtesy informational statement.*

(d) *The agency shall provide a model sign-in form and the format for providing the list to the agency which may be used by the local government to satisfy the requirements of this subsection by August 1, 2001.*

(e)(e) If the proposed comprehensive plan or plan amendment changes the actual list of permitted, conditional, or prohibited uses within a future land use category or changes the actual future land use map designation of a parcel or parcels of land, the required advertisements shall be in the format prescribed by s. 125.66(4)(b)2. for a county or by s. 166.041(3)(c)2.b. for a municipality.

(16) COMPLIANCE AGREEMENTS.—

(d) A local government may adopt a plan amendment pursuant to a compliance agreement in accordance with the requirements of paragraph (15)(a). The plan amendment shall be exempt from the requirements of subsections (2) through (7). The local government shall hold a single adoption public hearing pursuant to the requirements of subparagraph (15)(b)2. and paragraph (15)(e)/(e). Within 10 working days after adoption of a plan amendment, the local government shall transmit the amendment to the state land planning agency as specified in the agency's procedural rules, and shall submit one copy to the regional planning agency and to any other unit of local government or government agency in the state that has filed a written request with the governing body for a copy of the plan amendment, and one copy to any party to the proceeding under ss. 120.569 and 120.57 granted intervenor status.

Section 6. Paragraph (j) of subsection (1) of section 163.3187, Florida Statutes, is amended, and paragraph (k) is added to said subsection, to read:

163.3187 Amendment of adopted comprehensive plan.—

(1) Amendments to comprehensive plans adopted pursuant to this part may be made not more than two times during any calendar year, except:

(j) Any comprehensive plan amendment to establish public school concurrency pursuant to s. 163.3180(13), including, but not limited to, adoption of a public *educational school* facilities element and adoption of amendments to the capital improvements element and intergovernmental coordination element. In order to ensure the consistency of local government public *educational school* facilities elements within a county, such elements shall be prepared and adopted on a similar time schedule.

(k) *A comprehensive plan amendment to adopt a public educational facilities element pursuant to s. 163.31776, and future land use map amendments for school siting, may be approved without regard to statutory limits on the frequency of adoption of plan amendments.*

Section 7. Paragraph (k) of subsection (2) of section 163.3191, Florida Statutes, is amended to read:

163.3191 Evaluation and appraisal of comprehensive plan.—

(2) The report shall present an evaluation and assessment of the comprehensive plan and shall contain appropriate statements to update the comprehensive plan, including, but not limited to, words, maps, illustrations, or other media, related to:

(k) The coordination of the comprehensive plan with existing public schools and those identified in the applicable *educational 5-year school district* facilities *plan work program* adopted pursuant to s. 235.185. The assessment shall address, where relevant, the success or failure of the coordination of the future land use map and associated planned residential development with public schools and their capacities, as well as the joint decisionmaking processes engaged in by the local government and the school board in regard to establishing appropriate population projections and the planning and siting of public school facilities. If the issues are not relevant, the local government shall demonstrate that they are not relevant.

Section 8. Subsection (6) is added to section 163.3202, Florida Statutes, to read:

163.3202 Land development regulations.—

(6)(a) *The Legislature finds that electric utilities have a statutory duty pursuant to this chapter to provide reasonably sufficient, adequate, and efficient service. The Legislature further finds that electric substations are an indispensable component of the grid system by which electric utilities deliver reliable electric service to all public and private persons as required by law. The Legislature further finds that electric utility substations are essential services for the public health, safety, and welfare and therefore are in the public interest.*

(b) *Nothing in this part shall prohibit a local government from adopting land development regulations which establish reasonable standards for setbacks, buffering, landscaping, and other such site conditions which ensure consistency with the local comprehensive plan for a substation that will be operated by an electric utility. Compliance with any such adopted standards creates a presumption that a substation is compatible with adjacent land uses and is consistent with the local comprehensive plan.*

(c) *If an electric utility demonstrates by competent substantial evidence that it meets all criteria for approval of an application for a development permit for the location, construction, and operation of a substation, the local government may not deny the application unless the preponderance of the evidence, applying a strict scrutiny standard of review, demonstrates that the application does not meet the requirements of the local comprehensive plan or applicable land development regulations.*

Section 9. Subsection (9) of section 163.3244, Florida Statutes, is amended to read:

163.3244 Sustainable communities demonstration project.—

(9) This section shall stand repealed on June 30, 2002 ~~2001~~, and shall be reviewed by the Legislature prior to that date.

Section 10. *Development of a uniform fiscal impact analysis model for evaluating the cost of infrastructure to support development.—*

(1) *The Legislature finds that the quality of growth in Florida could benefit greatly by the adoption of a uniform fiscal impact analysis tool that could be used by local governments to determine the costs and benefits of new development. To facilitate informed decisionmaking and accountability by local governments, the analysis model would itemize and calculate the costs and fiscal impacts of infrastructure needs created by proposed development, as well as the anticipated revenues utilized for infrastructure associated with the project. It is intended that the model be a minimum base model for implementation by all local governments. Local governments shall not be required to implement the model until the Legislature approves such implementation, nor shall local governments be prevented from utilizing other fiscal or economic analysis tools before or after adoption of the uniform fiscal analysis model. The Legislature intends that the analysis will provide local government decisionmakers with a clearer understanding of the fiscal impact of the new development on the community and its resources.*

(2)(a) *To oversee the development of a fiscal analysis model by the state land planning agency, there is created a commission consisting of nine members. The Governor, the President of the Senate, and the Speaker of the House of Representatives shall each appoint three members to the commission, and the Governor shall designate one of his appointees as chair. Appointments must be made by July 1, 2001, and each appointing authority shall consider ethnic and gender balance when making appointments. The members of the commission must have technical or practical expertise to bring to bear on the design or implementation of the model. The commission shall include representatives of municipalities, counties, school boards, the development community, and public interest groups.*

(b) *The commission shall have the responsibility to:*

1. *Direct the state land planning agency, and others, in developing a fiscal analysis model.*

2. *Select one or more models to test through six pilot projects conducted in six regionally diverse local government jurisdictions selected by the commission.*

3. *Make changes to the models during the testing period as needed.*

4. *Report to the Governor and the Legislature with implementation recommendations.*

(c) *Each member may receive per diem and expenses for travel, as provided in s. 112.061, Florida Statutes, while carrying out the official business of the commission.*

(d) The commission is assigned, for administrative purposes, to the Department of Community Affairs.

(e) The commission shall meet at the call of the chair and shall be dissolved upon the submittal of the report and recommendations required by subsection (6).

(3)(a) The state land planning agency, as directed by the commission, shall develop one or more fiscal analysis models for determining the estimated costs and revenues of proposed development. The analysis provided by the model shall be a tool for government decisionmaking, shall not constitute an automatic approval or disapproval of new development, and shall apply to all public and private projects and all land use categories. The model or models selected for field testing shall be approved by the commission.

(b) The model shall be capable of estimating the capital, operating, and maintenance expenses and revenues for infrastructure needs created by new development based on the type, scale, and location of various land uses. For the purposes of developing the model, estimated costs shall include those associated with provision of school facilities, transportation facilities, water supply, sewer, stormwater, public safety, and solid waste services, and publicly provided telecommunications services. Estimated revenues shall include all revenues attributable to the proposed development which are utilized to construct, operate, or maintain such facilities and services. The model may be developed with capabilities of estimating other costs and benefits directly related to new development, including economic costs and benefits. The Legislature recognizes the potential limitations of such models in fairly quantifying important quality of life issues such as the intangible benefits and costs associated with development, including, but not limited to, overall impact on community character, housing costs, compatibility, and impacts on natural and historic resources, and therefore affirms its intention that the model not be used as the only determinate of the acceptability of new development. In order to develop a model for testing through pilot projects, the Legislature directs the commission to focus on the infrastructure costs expressly identified in this paragraph. The commission may authorize a local government selected to conduct a pilot project to apply the fiscal analysis model being tested to a public facility or service other than those identified in this paragraph; however, appropriately related revenues and benefits must also be considered.

(c) The model shall be capable of identifying infrastructure deficits or backlogs, and costs associated with addressing such needs.

(d) As part of its development of a fiscal analysis model, and as directed by the commission, the state land planning agency shall develop a format by which the local government shall report to its citizens, at least annually, the cumulative fiscal impact of its local planning decisions.

(4) One or more fiscal analysis models shall be tested in the field to evaluate their technical validity and practical usefulness and the financial feasibility of local government implementation. The field tests shall be conducted as demonstration projects in six regionally diverse local government jurisdictions.

(5) Data, findings, and feedback from the field tests shall be presented to the commission at least every 3 months following the initiation of each demonstration project. Based on the feedback provided by the state land planning agency and the local government partner of a demonstration project, the commission may require the state land planning agency to adjust or modify one or more models, including consideration of appropriate thresholds and exemptions, and conduct additional field testing if necessary.

(6) No later than February 1, 2003, the commission shall transmit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report detailing the results of the demonstration projects. The commission shall report its recommendations for statewide implementation of a uniform fiscal analysis model. Any recommendation to implement the model must be based on the commission's determination that the model is technically valid, financially feasible for local government implementation, and practically useful for implementation as a uniform fiscal analysis model. Should the

commission determine that a uniform fiscal analysis model is not technically valid, financially feasible for local government implementation, and practically useful for implementation as a uniform fiscal analysis model, it shall recommend that the model or its application be modified or not implemented. The report shall also include recommendations for changes to any existing growth management laws and policies necessary to implement the model; recommendations for repealing existing growth management laws, such as concurrency, that may no longer be relevant or effective once the model is implemented; recommendations for state technical and financial assistance to help local governments in the implementation of the uniform fiscal analysis model; recommendations addressing state and local sources of additional infrastructure funding; and recommendations for incentives to local governments to encourage identification of areas in which infrastructure development will be encouraged.

Section 11. There is appropriated to the Department of Community Affairs from the General Revenue Fund \$500,000 to implement the requirements of this act relating to development of a uniform fiscal impact analysis model.

Section 12. Section 235.002, Florida Statutes, is amended to read:

235.002 Intent.—

(1) The intent of the Legislature is:

~~(a) To provide each student in the public education system the availability of an educational environment appropriate to his or her educational needs which is substantially equal to that available to any similar student, notwithstanding geographic differences and varying local economic factors, and to provide facilities for the Florida School for the Deaf and the Blind and other educational institutions and agencies as may be defined by law.~~

(a)(b) To encourage the use of innovative designs, construction techniques, and financing mechanisms in building educational facilities for the purpose of reducing costs to the taxpayer, creating a more satisfactory educational environment, and reducing the amount of time necessary for design, permitting of on-site and off-site improvements required by law, and construction to fill unmet needs.

(b)(e) To provide a systematic mechanism whereby educational facilities construction plans can meet the current and projected needs of the public education system population as quickly as possible by building uniform, sound educational environments and to provide a sound base for planning for educational facilities needs.

~~(c)(d) To provide proper legislative support for as wide a range of fiscally sound financing methodologies for as possible for the delivery of educational facilities and, where appropriate, for their construction, operation, and maintenance.~~

(d) To establish a systematic process of sharing information between school boards and local governments on the growth and development trends in their communities in order to forecast future enrollment and school needs.

(e) To establish a systematic process for school boards and local governments to cooperatively plan for the provision of educational facilities to meet the current and projected needs of the public education system population, including the needs placed on the public education system as a result of growth and development decisions by local government.

(f) To establish a systematic process for local governments and school boards to cooperatively identify and meet the infrastructure needs of public schools.

(2) The Legislature finds and declares that:

(a) Public schools are a linchpin to the vitality of our communities and play a significant role in the thousands of individual housing decisions that result in community growth trends.

(b)(e) Growth and development issues transcend the boundaries and responsibilities of individual units of government, and often no single

unit of government can plan or implement policies to deal with these issues without affecting other units of government.

(c)(b) The effective and efficient provision of public educational facilities and services ~~enhances is essential to preserving and enhancing~~ the quality of life of the people of this state.

(d)(e) The provision of educational facilities often impacts community infrastructure and services. Assuring coordinated and cooperative provision of such facilities and associated infrastructure and services is in the best interest of the state.

Section 13. Subsection (1) of section 235.061, Florida Statutes, is amended to read:

235.061 Standards for relocatables used as classroom space; inspections.—

(1) The Commissioner of Education shall adopt rules establishing standards for relocatables intended for long-term use as classroom space at a public elementary school, middle school, or high school. "Long-term use" means the use of relocatables at the same educational plant for a period of 4 years or more. These rules must be implemented by July 1, 1998, and each relocatable acquired by a district school board after the effective date of the rules and intended for long-term use must comply with the standards. The rules shall require that, by July 1, 2002 2001, relocatables that fail to meet the standards may not be used as classrooms. The standards shall protect the health, safety, and welfare of occupants by requiring compliance with the Uniform Building Code for Public Educational Facilities or other locally adopted state minimum building codes to ensure the safety and stability of construction and onsite installation; fire and moisture protection; air quality and ventilation; appropriate wind resistance; and compliance with the requirements of the Americans with Disabilities Act of 1990. If appropriate, the standards must also require relocatables to provide access to the same technologies available to similar classrooms within the main school facility and, if appropriate, to be accessible by adequate covered walkways. By July 1, 2000, the commissioner shall adopt standards for all relocatables intended for long-term use as classrooms. A relocatable that is subject to this section and does not meet the standards shall not be reported as providing satisfactory student stations in the Florida Inventory of School Houses.

Section 14. Section 235.15, Florida Statutes, is amended to read:

235.15 Educational plant survey; localized need assessment; PECO project funding.—

(1) At least every 5 years, each board, including the Board of Regents, shall arrange for an educational plant survey, to aid in formulating plans for housing the educational program and student population, faculty, administrators, staff, and auxiliary and ancillary services of the district or campus, including consideration of the local comprehensive plan. The Division of Workforce Development shall document the need for additional career and adult education programs and the continuation of existing programs before facility construction or renovation related to career or adult education may be included in the educational plant survey of a school district or community college that delivers career or adult education programs. Information used by the Division of Workforce Development to establish facility needs must include, but need not be limited to, labor market data, needs analysis, and information submitted by the school district or community college.

(a) Survey preparation and required data.—Each survey shall be conducted by the board or an agency employed by the board. Surveys shall be reviewed and approved by the board, and a file copy shall be submitted to the *Office of Educational Facilities of the Commissioner of Education*. The survey report shall include at least an inventory of existing educational and ancillary plants; recommendations for existing educational and ancillary plants; recommendations for new educational or ancillary plants, including the general location of each in coordination with the land use plan; campus master plan update and detail for community colleges; the utilization of school plants based on an extended school day or year-round operation; and such other information as may be required by the rules of the State Board of

Education. This report may be amended, if conditions warrant, at the request of the board or commissioner.

(b) Required need assessment criteria for district, community college, and state university plant surveys.—Each Educational plant surveys survey completed after December 31, 1997, must use uniform data sources and criteria specified in this paragraph. Each educational plant survey completed after June 30, 1995, and before January 1, 1998, must be revised, if necessary, to comply with this paragraph. Each revised educational plant survey and each new educational plant survey supersedes previous surveys.

1. ~~The school district's survey shall be a part of the district's educational facilities plan under s. 235.185. Each school district's educational plant survey must reflect the capacity of existing satisfactory facilities as reported in the Florida Inventory of School Houses. Projections of facility space needs may not exceed the norm space and occupant design criteria established by the State Requirements for Educational Facilities. Existing and projected capital outlay full-time equivalent student enrollment must be consistent with data prepared by the department and must include all enrollment used in the calculation of the distribution formula in s. 235.435(3). All satisfactory relocatable classrooms, including those owned, lease-purchased, or leased by the school district, shall be included in the school district inventory of gross capacity of facilities and must be counted at actual student capacity for purposes of the inventory. For future needs determination, student capacity shall not be assigned to any relocatable classroom that is scheduled for elimination or replacement with a permanent educational facility in the adopted 5-year educational plant survey and in the district facilities work program adopted under s. 235.185. Those relocatables clearly identified and scheduled for replacement in a school board adopted financially feasible 5-year district facilities work program shall be counted at zero capacity at the time the work program is adopted and approved by the school board. However, if the district facilities work program is changed or altered and the relocatables are not replaced as scheduled in the work program, they must then be reentered into the system for counting at actual capacity. Relocatables may not be perpetually added to the work program and continually extended for purposes of circumventing the intent of this section. All remaining relocatable classrooms, including those owned, lease-purchased, or leased by the school district, shall be counted at actual student capacity. The educational plant survey shall identify the number of relocatable student stations scheduled for replacement during the 5-year survey period and the total dollar amount needed for that replacement. All district educational plant surveys revised after July 1, 1998, shall include information on leased space used for conducting the district's instructional program, in accordance with the recommendations of the department's report authorized in s. 235.056. A definition of satisfactory relocatable classrooms shall be established by rule of the department.~~

2. Each survey of a special facility, joint-use facility, or cooperative vocational education facility must be based on capital outlay full-time equivalent student enrollment data prepared by the department for school districts, by the Division of Community Colleges for community colleges, and by the Board of Regents for state universities. A survey of space needs of a joint-use facility shall be based upon the respective space needs of the school districts, community colleges, and universities, as appropriate. Projections of a school district's facility space needs may not exceed the norm space and occupant design criteria established by the State Requirements for Educational Facilities.

3. Each community college's survey must reflect the capacity of existing facilities as specified in the inventory maintained by the Division of Community Colleges. Projections of facility space needs must comply with standards for determining space needs as specified by rule of the State Board of Education. The 5-year projection of capital outlay student enrollment must be consistent with the annual report of capital outlay full-time student enrollment prepared by the Division of Community Colleges.

4. Each state university's survey must reflect the capacity of existing facilities as specified in the inventory maintained and validated by the Board of Regents. Projections of facility space needs must be consistent

with standards for determining space needs approved by the Board of Regents. The projected capital outlay full-time equivalent student enrollment must be consistent with the 5-year planned enrollment cycle for the State University System approved by the Board of Regents.

5. The *district educational facilities plan* ~~plant survey~~ of a school district and the *educational plant survey* of a community college, or state university may include space needs that deviate from approved standards for determining space needs if the deviation is justified by the district or institution and approved by the department or the Board of Regents, as appropriate, as necessary for the delivery of an approved educational program.

(c) Review and validation.—The *Office of Educational Facilities of the Commissioner of Education* ~~department~~ shall review and validate the *educational facilities plans of school districts and the surveys of school districts and community colleges* and any amendments thereto for compliance with the requirements of this chapter and, ~~when required by the State Constitution,~~ shall recommend those in compliance for approval by the State Board of Education.

(2) Only the superintendent or the college president shall certify to the *Office of Educational Facilities of the Commissioner of Education* ~~department~~ a project's compliance with the requirements for expenditure of PECO funds prior to release of funds.

(a) Upon request for release of PECO funds for planning purposes, certification must be made to the *Office of Educational Facilities of the Commissioner of Education* ~~department~~ that the need and location of the facility are in compliance with the board-approved *educational facilities plan* or survey recommendations, and that the project meets the definition of a PECO project and the limiting criteria for expenditures of PECO funding, and that the plan is consistent with the local government comprehensive plan.

(b) Upon request for release of construction funds, certification must be made to the *Office of Educational Facilities of the Commissioner of Education* ~~department~~ that the need and location of the facility are in compliance with the board-approved *educational facilities plan* or survey recommendations, that the project meets the definition of a PECO project and the limiting criteria for expenditures of PECO funding, and that the construction documents meet the requirements of the State Uniform Building Code for Educational Facilities Construction or other applicable codes as authorized in this chapter, and that the site is consistent with the local government comprehensive plan.

Section 15. Subsection (3) of section 235.175, Florida Statutes, is amended to read:

235.175 SMART schools; Classrooms First; legislative purpose.—

(3) SCHOOL DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAMS.—It is the purpose of the Legislature to create s. 235.185, requiring each school district annually to adopt an *educational district facilities plan that provides an integrated long-range facilities plan, including the survey of projected needs and the 5-year work program*. The purpose of the *educational district facilities plan work program* is to keep the school board, local governments, and the public fully informed as to whether the district is using sound policies and practices that meet the essential needs of students and that warrant public confidence in district operations. The *educational district facilities plan work program* will be monitored by the SMART Schools Clearinghouse, which will also apply performance standards pursuant to s. 235.218.

Section 16. Section 235.18, Florida Statutes, is amended to read:

235.18 Annual capital outlay budget.—Each board, including the Board of Regents, shall, each year, adopt a capital outlay budget for the ensuing year in order that the capital outlay needs of the board for the entire year may be well understood by the public. This capital outlay budget shall be a part of the annual budget and shall be based upon and in harmony with the educational plant and ancillary facilities plan. This budget shall designate the proposed capital outlay expenditures by project for the year from all fund sources. The board may not expend any

funds on any project not included in the budget, as amended. Each district school board must prepare its tentative district *educational facilities plan work program* as required by s. 235.185 before adopting the capital outlay budget.

Section 17. Section 235.185, Florida Statutes, is amended to read:

235.185 School district *educational facilities plan work program*; definitions; preparation, adoption, and amendment; long-term work programs.—

(1) DEFINITIONS.—As used in this section, ~~the term:~~

(a) “Adopted *educational district facilities plan work program*” means the *comprehensive planning document 5-year work program* adopted annually by the district school board as provided in subsection (4) which contains the *educational plant survey* (3).

(b) “Tentative District facilities work program” means the 5-year listing of capital outlay projects *adopted by the district school board as provided in paragraph (2)(b) as part of the district educational facilities plan* which are required:

1. To properly *repair and* maintain the educational plant and ancillary facilities of the district.

2. To provide an adequate number of satisfactory student stations for the projected student enrollment of the district in K-12 programs in accordance with the goal in s. 235.062.

(c) “Tentative *educational facilities plan*” means the *comprehensive planning document prepared annually by the district school board and submitted to the Office of Educational Facilities of the Commissioner of Education and the affected general purpose local governments*.

(2) PREPARATION OF TENTATIVE DISTRICT EDUCATIONAL FACILITIES PLAN; WORK PROGRAM.—

(a) Annually, prior to the adoption of the district school budget, each school board shall prepare a tentative district *educational facilities plan work program* that includes *long-range planning for facilities needs over 5-year, 10-year, and 20-year periods*. The plan shall be developed in coordination with the general purpose local governments and be consistent with the local government comprehensive plans. The school board's plan for provision of new schools shall meet the needs of all growing communities in the district, ranging from small rural communities to large urban cities. The plan shall:

1. Consider projected student populations for the 5-year, 10-year, and 20-year planning periods apportioned geographically at the local level. The projections shall be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136, where available, as modified by the school district based on development data and agreement with the local governments and the Office of Educational Facilities of the Commissioner of Education. The projections shall be apportioned geographically with assistance from the local governments, using local development trend data, the comprehensive plan, and the school district student enrollment data.

2. Provide an inventory of existing school facilities. Any anticipated expansions or closures of existing school sites over the 5-year, 10-year, and 20-year periods shall be identified. The inventory shall include an assessment of areas proximate to existing schools and identification of the need for improvements to infrastructure, safety, and conditions in the community. The plan shall also provide a listing of major repairs and renovation projects anticipated over the period of the plan.

3. Include projections of facilities space needs, which may not exceed the norm space and occupant design criteria established in the State Requirements for Educational Facilities.

4. Include information on leased, loaned, and donated space and relocatables used for conducting the district's instructional programs.

5. Describe the general location of public schools proposed to be constructed over the 5-year, 10-year, and 20-year time periods, including a listing of the proposed schools' site acreage needs and anticipated

capacity and including maps showing general locations. The school board's identification of general locations of future school sites shall be based on the school siting requirements of s. 163.3177(6)(a) and policies in the comprehensive plan which provide guidance for appropriate locations for school sites.

(b) The educational facilities plan shall also include a financially feasible district facilities work program for a 5-year period. The work program shall include:

1. A schedule of major repair and renovation projects necessary to maintain the educational facilities ~~plan~~ and ancillary facilities of the district.

2. A schedule of capital outlay projects necessary to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs. This schedule shall consider:

a. The locations, capacities, and planned utilization rates of current educational facilities of the district. The capacity of existing satisfactory facilities, as reported in the Florida Inventory of School Houses, shall be compared to the capital outlay full-time equivalent student enrollment as determined by the department, including all enrollment used in the calculation of the distribution formula under s. 235.435(3).

b. The proposed locations of planned facilities, whether those locations are consistent with the comprehensive plans of all affected local governments, and recommendations for infrastructure and other improvements to land adjacent to existing facilities. The provisions of ss. 235.19 and 235.193(5), (6), and (7) shall be addressed for new facilities planned within the first 3 years of the work plan, as appropriate.

c. Plans for the use and location of relocatable facilities, leased facilities, and charter school facilities.

d. Plans for multitrack scheduling, grade level organization, block scheduling, or other alternatives that reduce the need for additional permanent student stations.

e. Information concerning average class size and utilization rate by grade level within the district that will result if the tentative district facilities work program is fully implemented. ~~The average shall not include exceptional student education classes or prekindergarten classes.~~

f. The number and percentage of district students planned to be educated in relocatable facilities during each year of the tentative district facilities work program. For future needs determination, student capacity shall not be assigned to any relocatable classroom that is scheduled for elimination or replacement with a permanent educational facility in the current year of the adopted district educational facilities plan and in the district facilities work program adopted under this section. Those relocatables clearly identified and scheduled for replacement in a school board adopted, financially feasible, 5-year district facilities work program shall be counted at zero capacity at the time the work program is adopted and approved by the school board. However, if the district facilities work program is changed or altered and the relocatables are not replaced as scheduled in the work program, they must then be reentered into the system for counting at actual capacity. Relocatables may not be perpetually added to the work program and continually extended for purposes of circumventing the intent of this section. All relocatable classrooms not identified and scheduled for replacement, including those owned, lease-purchased, or leased by the school district, shall be counted at actual student capacity. The district educational facilities plan shall identify the number of relocatable student stations scheduled for replacement during the 5-year survey period and the total dollar amount needed for that replacement.

g. Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

h. Projects for which capital outlay and debt service funds accruing under s. 9(d), Art. XII of the State Constitution are to be used shall be identified separately in priority order as a project priority list within the district facilities work program.

3. The projected cost for each project identified in the ~~tentative~~ district facilities work program. For proposed projects for new student stations, a schedule shall be prepared comparing the planned cost and square footage for each new student station, by elementary, middle, and high school levels, to the low, average, and high cost of facilities constructed throughout the state during the most recent fiscal year for which data is available from the Department of Education.

4. A schedule of ~~projected estimated~~ capital outlay revenues from all sources ~~each currently approved source which is~~ estimated to be available to fully fund for expenditure on the projects included in the ~~tentative~~ district facilities 5-year work program. Revenue sources may include, but are not limited to, projections of:

a. Ad valorem tax base, assessment ratio, and millage rate.

b. State revenue distributions.

c. Revenue and debt service obligations from current and proposed bond issues.

d. Any other revenue sources available to fund facility needs of the district, including effort index grants, SIT Program awards, and Classrooms First funds.

e. The 0.5-cent sales surtax and the local government infrastructure sales surtax, if levied.

~~5. A schedule indicating which projects included in the tentative district facilities work program will be funded from current revenues projected in subparagraph 4.~~

~~6. A schedule of options for the generation of additional revenues by the district for expenditure on projects identified in the tentative district facilities work program which are not funded under subparagraph 5. Additional anticipated revenues may include effort index grants, SIT Program awards, and Classrooms First funds.~~

~~(c)(b) To the extent available, The tentative district educational facilities plan work program shall be based on information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136 to the extent available, and based on agreement pursuant to subparagraph (a)1.~~

~~(d)(e) Provision shall be made for public comment concerning the tentative district educational facilities plan work program.~~

~~(e) The district school board shall coordinate with each affected local government to ensure consistency between the tentative district educational facilities plan and the local government comprehensive plans of the affected local governments during the development of the tentative district educational facilities plan.~~

(3) **SUBMITTAL OF TENTATIVE DISTRICT EDUCATIONAL FACILITIES PLAN TO THE LOCAL GOVERNMENT.**—The district school board shall submit a copy of its tentative district educational facilities plan to all affected local governments prior to adoption by the board. The affected local governments shall review the tentative district educational facilities plan and comment to the district school board on the consistency of the plan with the local comprehensive plan, whether a comprehensive plan amendment will be necessary for any proposed educational facility, and whether the local government supports a necessary comprehensive plan amendment. If the local government does not support a comprehensive plan amendment for a proposed educational facility, the matter shall be resolved pursuant to the interlocal agreement required by ss. 163.3177(4) and 235.193(2). The process for the submittal and review shall be detailed in the interlocal agreement required pursuant to ss. 163.3177(4) and 235.193(2). Where the school board and the local government have not entered into an interlocal agreement pursuant to ss. 163.3177(4) and 235.193(2), the school board and the local government must determine a mutually acceptable process for submittal and review of the tentative district educational facilities plan. Disputes between the school board and the local government, in instances where the school board and the local government have not entered into an interlocal agreement pursuant to ss. 163.3177(4) and 235.193(2), shall be addressed pursuant to s. 163.3181.

~~(4)(3)~~ **ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.**—Annually, the district school board shall consider and adopt the tentative district *educational facilities plan work program* completed pursuant to subsection (2). Upon giving proper public notice to the public and local governments and opportunity for public comment, the district school board may amend the *plan program* to revise the priority of projects, to add or delete projects, to reflect the impact of change orders, or to reflect the approval of new revenue sources which may become available. The adopted district *educational facilities plan work program* shall include a 5-year facilities work program which shall:

(a) Be a complete, balanced, and financially feasible capital outlay financial plan for the district.

(b) Set forth the proposed commitments and planned expenditures of the district to address the educational facilities needs of its students and to adequately provide for the maintenance of the educational plant and ancillary facilities.

~~(5)(4)~~ **EXECUTION OF ADOPTED DISTRICT EDUCATIONAL FACILITIES PLAN WORK PROGRAM.**—The first year of the adopted district *educational facilities plan work program* shall constitute the capital outlay budget required in s. 235.18. The adopted district facilities work program shall include the information required in paragraph (2)(b) ~~subparagraphs (2)(a)1., 2., and 3.~~, based upon projects actually funded in the program.

~~(5)~~ **10 YEAR AND 20 YEAR WORK PROGRAMS.**—~~In addition to the adopted district facilities work program covering the 5-year work program, the district school board shall adopt annually a 10-year and a 20-year work program which include the information set forth in subsection (2), but based upon enrollment projections and facility needs for the 10-year and 20-year periods. It is recognized that the projections in the 10-year and 20-year timeframes are tentative and should be used only for general planning purposes.~~

Section 18. Section 235.188, Florida Statutes, is amended to read:

235.188 Full bonding required to participate in programs.—Any district with unused bonding capacity in its Capital Outlay and Debt Service Trust Fund allocation that certifies in its district *educational facilities plan work program* that it will not be able to meet all of its need for new student stations within existing revenues must fully bond its Capital Outlay and Debt Service Trust Fund allocation before it may participate in Classrooms First, the School Infrastructure Thrift (SIT) Program, or the Effort Index Grants Program.

Section 19. Section 235.19, Florida Statutes, is amended to read:

235.19 Site planning and selection.—

(1) *If the school board and local government have entered into an interlocal agreement pursuant to ss. 163.31776(4) and 235.193(2) and have developed a process to ensure consistency between the local government comprehensive plan and the school district educational facilities plan and a method to coordinate decisionmaking and approval activities relating to school planning and site selection, the provisions of this section are superseded by the interlocal agreement and the plans of the local government and the school board.*

(2)(4) Before acquiring property for sites, each board shall determine the location of proposed educational centers or campuses ~~for the board~~. In making this determination, the board shall consider existing and anticipated site needs and the most economical and practicable locations of sites. The board shall coordinate with the long-range or comprehensive plans of local, regional, and state governmental agencies to assure the *consistency compatibility* of such plans with site planning. Boards are encouraged to locate schools proximate to urban residential areas to the extent possible, and shall seek to collocate schools with other public facilities, such as parks, libraries, and community centers, to the extent possible, and to encourage using elementary schools as focal points for neighborhoods.

(3)(2) Each new site selected must be adequate in size to meet the educational needs of the students to be served on that site by the original educational facility or future expansions of the facility through

renovation or the addition of relocatables. ~~The Commissioner of Education shall prescribe by rule recommended sizes for new sites according to categories of students to be housed and other appropriate factors determined by the commissioner. Less than recommended site sizes are allowed if the board, by a two-thirds majority, recommends such a site and finds that it can provide an appropriate and equitable educational program on the site.~~

(4)(3) Sites recommended for purchase, or purchased, in accordance with chapter 230 or chapter 240 must meet standards prescribed therein and such supplementary standards as the *school board commissioner* prescribes to promote the educational interests of the students. Each site must be well drained and *either* suitable for outdoor educational purposes as appropriate for the educational program *or collocated with facilities to serve this purpose*. As provided in s. 333.03, the site must not be located within any path of flight approach of any airport. Insofar as is practicable, the site must not adjoin a right-of-way of any railroad or through highway and must not be adjacent to any factory or other property from which noise, odors, or other disturbances, or at which conditions, would be likely to interfere with the educational program.

(5)(4) It shall be the responsibility of the board to provide adequate notice to appropriate municipal, county, regional, and state governmental agencies for requested traffic control and safety devices so they can be installed and operating prior to the first day of classes or to satisfy itself that every reasonable effort has been made in sufficient time to secure the installation and operation of such necessary devices prior to the first day of classes. It shall also be the responsibility of the board to review annually traffic control and safety device needs and to request all necessary changes indicated by such review.

(6)(5) Each board may request county and municipal governments to construct and maintain sidewalks and bicycle trails within a 2-mile radius of each educational facility within the jurisdiction of the local government. When a board discovers or is aware of an existing hazard on or near a public sidewalk, street, or highway within a 2-mile radius of a school site and the hazard endangers the life or threatens the health or safety of students who walk, ride bicycles, or are transported regularly between their homes and the school in which they are enrolled, the board shall, within 24 hours after discovering or becoming aware of the hazard, excluding Saturdays, Sundays, and legal holidays, report such hazard to the governmental entity within the jurisdiction of which the hazard is located. Within 5 days after receiving notification by the board, excluding Saturdays, Sundays, and legal holidays, the governmental entity shall investigate the hazardous condition and either correct it or provide such precautions as are practicable to safeguard students until the hazard can be permanently corrected. However, if the governmental entity that has jurisdiction determines upon investigation that it is impracticable to correct the hazard, or if the entity determines that the reported condition does not endanger the life or threaten the health or safety of students, the entity shall, within 5 days after notification by the board, excluding Saturdays, Sundays, and legal holidays, inform the board in writing of its reasons for not correcting the condition. The governmental entity, to the extent allowed by law, shall indemnify the board from any liability with respect to accidents or injuries, if any, arising out of the hazardous condition.

Section 20. Section 235.193, Florida Statutes, is amended to read:

235.193 Coordination of planning with local governing bodies.—

(1) It is the policy of this state to require the coordination of planning between boards and local governing bodies to ensure that plans for the construction and opening of public educational facilities are facilitated and coordinated in time and place with plans for residential development, concurrently with other necessary services. Such planning shall include the integration of the *educational facilities plan plant survey* and applicable policies and procedures of a board with the local comprehensive plan and land development regulations of local ~~governments governing bodies~~. The planning must include the consideration of allowing students to attend the school located nearest their homes when a new housing development is constructed near a county boundary and it is more feasible to transport the students a short

distance to an existing facility in an adjacent county than to construct a new facility or transport students longer distances in their county of residence. The planning must also consider the effects of the location of public education facilities, including the feasibility of keeping central city facilities viable, in order to encourage central city redevelopment and the efficient use of infrastructure and to discourage uncontrolled urban sprawl.

(2) *No later than 6 months prior to the transmittal of a public educational facilities element by general purpose local governments meeting the criteria of s. 163.31776(3), the school district, the county, and the nonexempt municipalities shall enter into an interlocal agreement which establishes a process to develop coordinated and consistent local government public educational facilities elements and district educational facilities plans, including a process:*

(a) *By which each local government and the school district agree and base the local government comprehensive plan and educational facilities plan on uniform projections of the amount, type, and distribution of population growth and student enrollment.*

(b) *To coordinate and share information relating to existing and planned public school facilities and local government plans for development and redevelopment.*

(c) *To ensure that school siting decisions by the school board are consistent with the local comprehensive plan, including appropriate circumstances and criteria under which a school district may request an amendment to the comprehensive plan for school siting, and for early involvement by the local government as the school board identifies potential school sites.*

(d) *To coordinate and provide formal timely comments during the development, adoption, and amendment of each local government's public educational facilities element and the educational facilities plan of the school district to ensure a uniform countywide school facility planning system.*

(e) *For school district participation in the review of land use decisions which increase residential density and which are reasonably expected to have an impact on public school facility demand.*

(f) *For the resolution of disputes between the school district and local governments.*

Any school board that has entered into an interlocal agreement for the purpose of adopting public school concurrency prior to the effective date of this act is not required to amend the interlocal agreement to conform to this subsection if the comprehensive plan amendment adopting public school concurrency is ultimately determined to be in compliance.

(3) *Failure to enter into an interlocal agreement as required by subsection (2) shall result in the withholding of funds for school construction available pursuant to ss. 235.187, 235.216, 235.2195, and 235.42, and the school district shall be prohibited from siting schools. Before the Office of Educational Facilities of the Commissioner of Education withholds any funds, the office shall provide the school board with a notice of intent to withhold funds, which the school board may dispute pursuant to chapter 120. The office shall withhold funds when a final order is issued finding that the school board has failed to enter into an interlocal agreement which meets the requirements of subsection (2).*

(4)(2) *A school board and the local governing body must share and coordinate information related to existing and planned public school facilities; proposals for development, redevelopment, or additional development; and infrastructure required to support the public school facilities, concurrent with proposed development. A school board shall use information produced by the demographic, revenue, and education estimating conferences pursuant to s. 216.136 Department of Education enrollment projections when preparing the 5-year district educational facilities plan work program pursuant to s. 235.185 in, and a school board shall affirmatively demonstrate in the educational facilities report consideration of local governments' population projections to ensure that the educational facilities plan 5-year work program not only reflects enrollment projections but also considers applicable municipal*

and county growth and development projections. The school board may modify the information produced by the estimating conferences, with the approval of the local governments and the Office of Educational Facilities of the Commissioner of Education. The projections shall be apportioned geographically with assistance from the local governments using local development trend data and the school district student enrollment data. A school board is precluded from siting a new school in a jurisdiction where the school board has failed to provide the annual educational facilities plan report for the prior year required pursuant to s. 235.185 ~~235.194~~ unless the failure is corrected.

(5)(3) *The location of public educational facilities shall be consistent with the comprehensive plan of the appropriate local governing body developed under part II of chapter 163 and consistent with the plan's implementing land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed by the local government and the board.*

(6)(4) *To improve coordination relative to potential educational facility sites, a board shall provide written notice to the local government that has regulatory authority over the use of the land at least 120 ~~60~~ days prior to acquiring or leasing property that may be used for a new public educational facility. The local government, upon receipt of this notice, shall notify the board within 45 days if the site proposed for acquisition or lease is consistent with the land use categories and policies of the local government's comprehensive plan. This preliminary notice does not constitute the local government's determination of consistency pursuant to subsection (7) (5).*

(7)(5) *As early in the design phase as feasible, but at least before commencing construction of a new public educational facility, the local governing body that regulates the use of land shall determine, in writing within 90 days after receiving the necessary information and a school board's request for a determination, whether a proposed public educational facility is consistent with the local comprehensive plan and consistent with local land development regulations, to the extent that the regulations are not in conflict with or the subject regulated is not specifically addressed by this chapter or the State Uniform Building Code, unless mutually agreed. If the determination is affirmative, school construction may proceed and further local government approvals are not required, except as provided in this section. Failure of the local governing body to make a determination in writing within 90 days after a school board's request for a determination of consistency shall be considered an approval of the school board's application.*

(8)(6) *A local governing body may not deny the site applicant based on adequacy of the site plan as it relates solely to the needs of the school. If the site is consistent with the comprehensive plan ~~plan's future land use policies and categories in which public schools are identified as allowable uses~~, the local government may not deny the application but it may impose reasonable development standards and conditions in accordance with s. 235.34(1) and consider the site plan and its adequacy as it relates to environmental concerns, health, safety and welfare, and effects on adjacent property. Standards and conditions may not be imposed which conflict with those established in this chapter or the State Uniform Building Code, unless mutually agreed.*

(9)(7) *This section does not prohibit a local governing body and district school board from agreeing and establishing an alternative process for reviewing a proposed educational facility and site plan, and offsite impacts pursuant to an interlocal agreement adopted in accordance with this section.*

(10)(8) *Existing schools shall be considered consistent with the applicable local government comprehensive plan adopted under part II of chapter 163. ~~The collocation of a new proposed public educational facility with an existing public educational facility, or the expansion of an existing public educational facility is not inconsistent with the local comprehensive plan, if the site is consistent with the comprehensive plan's future land use policies and categories in which public schools are identified as allowable uses, and levels of service adopted by the local government for any facilities affected by the proposed location for the new facility are maintained.~~ If a board submits an application to expand*

an existing school site, the local governing body may impose reasonable development standards and conditions on the expansion only, and in a manner consistent with s. 235.34(1). Standards and conditions may not be imposed which conflict with those established in this chapter or the State Uniform Building Code, unless mutually agreed. Local government review or approval is not required for:

- (a) The placement of temporary or portable classroom facilities; or
- (b) Proposed renovation or construction on existing school sites, with the exception of construction that changes the primary use of a facility, includes stadiums, or results in a greater than 5 percent increase in student capacity, or as mutually agreed.

Section 21. *Section 235.194, Florida Statutes, is repealed.*

Section 22. Section 235.218, Florida Statutes, is amended to read:

235.218 School district *educational facilities plan* ~~work-program~~ performance and productivity standards; development; measurement; application.—

(1) The SMART Schools Clearinghouse shall develop and adopt measures for evaluating the performance and productivity of school district *educational facilities plans* ~~work-programs~~. The measures may be both quantitative and qualitative and must, to the maximum extent practical, assess those factors that are within the districts' control. The measures must, at a minimum, assess performance in the following areas:

- (a) Frugal production of high-quality projects.
- (b) Efficient finance and administration.
- (c) Optimal school and classroom size and utilization rate.
- (d) Safety.
- (e) Core facility space needs and cost-effective capacity improvements that consider demographic projections, *land use patterns, and collocation and shared use with other public facilities*.
- (f) Level of district local effort.

(2) The clearinghouse shall establish annual performance objectives and standards that can be used to evaluate district performance and productivity.

(3) The clearinghouse shall conduct ongoing evaluations of district *educational facilities plan* ~~program~~ performance and productivity, using the measures adopted under this section. If, using these measures, the clearinghouse finds that a district failed to perform satisfactorily, the clearinghouse must recommend to the district school board actions to be taken to improve the district's performance.

Section 23. Section 235.321, Florida Statutes, is amended to read:

235.321 Changes in construction requirements after award of contract.—The board may, at its option and by written policy duly adopted and entered in its official minutes, authorize the superintendent or president or other designated individual to approve change orders in the name of the board for preestablished amounts. Approvals shall be for the purpose of expediting the work in progress and shall be reported to the board and entered in its official minutes. For accountability, the school district shall monitor and report the impact of change orders on its district *educational facilities plan* ~~work-program~~ pursuant to s. 235.185.

Section 24. Paragraph (d) of subsection (5) of section 236.25, Florida Statutes, is amended to read:

236.25 District school tax.—

(5)

(d) Notwithstanding any other provision of this subsection, if through its adopted *educational facilities plan* ~~work-program~~ a district has clearly identified the need for an ancillary plant, has provided opportunity for public input as to the relative value of the ancillary plant

versus an educational plant, and has obtained public approval, the district may use revenue generated by the millage levy authorized by subsection (2) for the construction, renovation, remodeling, maintenance, or repair of an ancillary plant.

A district that violates these expenditure restrictions shall have an equal dollar reduction in funds appropriated to the district under s. 236.081 in the fiscal year following the audit citation. The expenditure restrictions do not apply to any school district that certifies to the Commissioner of Education that all of the district's instructional space needs for the next 5 years can be met from capital outlay sources that the district reasonably expects to receive during the next 5 years or from alternative scheduling or construction, leasing, rezoning, or technological methodologies that exhibit sound management.

Section 25. Section 380.04, Florida Statutes, is amended to read:

380.04 Definition of development.—

(1) The term "development" means the carrying out of any building activity or mining operation, the making of any material change in the use or appearance of any structure or land, or the dividing of land into three or more parcels.

(2) The following activities or uses shall be taken for the purposes of this chapter to involve "development," as defined in this section:

- (a) A reconstruction, alteration of the size, or material change in the external appearance of a structure on land.

(c) Alteration of a shore or bank of a seacoast, river, stream, lake, pond, or canal, including any "coastal construction" as defined in s. 161.021.

(e) Demolition of a structure.

(f) Clearing of land as an adjunct of construction.

(3) The following operations or uses shall not be taken for the purpose of this chapter to involve "development" as defined in this section:

(a) Work by a highway or road agency or railroad company for the maintenance or improvement of a road or railroad track, if the work is carried out on land within the boundaries of the right-of-way.

(b) Work by any utility and other persons engaged in the distribution or transmission of gas, *electricity*, or water, for the purpose of inspecting, repairing, renewing, or constructing on established rights-of-way any sewers, mains, pipes, cables, utility tunnels, power lines, towers, poles, tracks, or the like.

(c) Work for the maintenance, renewal, improvement, or alteration of any structure, if the work affects only the interior or the color of the structure or the decoration of the exterior of the structure.

Reference to any specific operation is not intended to mean that the operation or activity, when part of other operations or activities, is not development. Reference to particular operations is not intended to limit the generality of subsection (1).

Section 26. Paragraph (e) of subsection (2) of section 380.06, Florida Statutes, is amended to read:

380.06 Developments of regional impact.—

(2) STATEWIDE GUIDELINES AND STANDARDS.—

(e) With respect to residential, hotel, motel, office, and retail developments, the applicable guidelines and standards shall be increased by 50 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163. With respect to multiuse developments, the applicable guidelines and standards shall be increased by 100 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163, if one land use of the multiuse development is residential and amounts to not less than 35 percent of the jurisdiction's applicable residential threshold. With respect to resort or convention hotel developments, the applicable guidelines and standards shall be increased by 150 percent in urban central business districts and regional activity centers of jurisdictions whose local comprehensive plans are in compliance with part II of chapter 163 and where the increase is specifically for a proposed resort or convention hotel located in a county with a population greater than 500,000 and the local government specifically designates that the proposed resort or convention hotel development will serve an existing convention center of more than 250,000 gross square feet built prior to July 1, 1992. *The applicable guidelines and standards shall be increased by 200 percent for development in any area designated by the Governor as a rural area of critical economic concern pursuant to s. 288.0656 during the effectiveness of the designation. The Administration Commission, upon the recommendation of the state land planning agency, shall implement this paragraph by rule no later than December 1, 1993. The increased guidelines and standards authorized by this paragraph shall not be implemented until the effectiveness of the rule which, among other things, shall set forth the pertinent characteristics of urban central business districts and regional activity centers.*

Section 27. Short title.—Sections 570.70 and 570.71, Florida Statutes, may be cited as the "Rural and Family Lands Protection Act."

Section 28. Section 570.70, Florida Statutes, is created to read:

570.70 Legislative findings.—*The Legislature finds and declares that:*

(1) *A thriving rural economy with a strong agricultural base, healthy natural environment, and viable rural communities is an essential part of Florida. Rural areas also include the largest remaining intact ecosystems and best examples of remaining wildlife habitats as well as a majority of privately owned land targeted by local, state, and federal agencies for natural resource protection.*

(2) *The growth of Florida's population can result in agricultural and rural lands being converted into residential or commercial development.*

(3) *The agricultural, rural, natural resource, and commodity values of rural lands are vital to the state's economy, productivity, rural heritage, and quality of life.*

(4) *The Legislature further recognizes the need for enhancing the ability of rural landowners to obtain economic value from their property, protecting rural character, controlling urban sprawl, and providing*

necessary open space for agriculture and the natural environment, and the importance of maintaining and protecting Florida's rural economy through innovative planning and development strategies in rural areas and the use of incentives that reward landowners for good stewardship of land and natural resources.

(5) *The purpose of this act is to bring under public protection lands that serve to limit subdivision and conversion of agricultural and natural areas that provide economic, open space, water, and wildlife benefits by acquiring land or related interests in land such as perpetual, less-than-fee acquisitions, agricultural protection agreements, and resource conservation agreements and innovative planning and development strategies in rural areas.*

Section 29. Section 570.71, Florida Statutes, is created to read:

570.71 Conservation easements and agreements.—

(1)(a) *As used in this section, "department" means the Department of Agriculture and Consumer Services.*

(b) *The department, on behalf of the Board of Trustees of the Internal Improvement Trust Fund, may allocate moneys to acquire perpetual, less-than-fee interest in land, to enter into agricultural protection agreements, and to enter into resource conservation agreements for the following public purposes:*

1. *Promotion and improvement of wildlife habitat;*
2. *Protection and enhancement of water bodies, aquifer recharge areas, wetlands, and watersheds;*
3. *Perpetuation of open space on lands with significant natural areas; or*
4. *Protection of agricultural lands threatened by conversion to other uses.*

(2) *To achieve the purposes of this act, beginning no sooner than July 1, 2002, and every year thereafter, the department may accept applications for project proposals that:*

- (a) *Purchase conservation easements, as defined in s. 704.06.*
- (b) *Purchase rural lands protection easements pursuant to this act.*
- (c) *Fund resource conservation agreements pursuant to this act.*
- (d) *Fund agricultural protection agreements pursuant to this act.*

No funds may be expended to implement this subsection prior to July 1, 2002.

(3) *Rural lands protection easements shall be a perpetual right or interest in agricultural land which is appropriate to retain such land in predominantly its current state and to prevent the subdivision and conversion of such land into other uses. This right or interest in property shall prohibit only the following:*

- (a) *Construction or placing of buildings, roads, billboards or other advertising, utilities, or structures, except those structures and unpaved roads necessary for the agricultural operations on the land or structures necessary for other activities allowed under the easement, and except for linear facilities described in s. 704.06(11).*
- (b) *Subdivision of the property.*
- (c) *Dumping or placing of trash, waste, or offensive materials.*
- (d) *Activities that affect the natural hydrology of the land or that detrimentally affect water conservation, erosion control, soil conservation, or fish or wildlife habitat, except those required for environmental restoration; federal, state, or local government regulatory programs; or best management practices.*

(4) *Resource conservation agreements will be contracts for services which provide annual payments to landowners for services that actively improve habitat and water restoration or conservation on their lands over and above that which is already required by law or which provide*

recreational opportunities. They will be for a term of not less than 5 years and not more than 10 years. Property owners will become eligible to enter into a resource conservation agreement only upon entering into a conservation easement or rural lands protection easement.

(5) Agricultural protection agreements shall be for terms of 30 years and will provide payments to landowners having significant natural areas on their land. Public access and public recreational opportunities may be negotiated at the request of the landowner.

(a) For the length of the agreement, the landowner shall agree to prohibit:

1. Construction or placing of buildings, roads, billboards or other advertising, utilities, or structures, except those structures and unpaved roads necessary for the agricultural operations on the land or structures necessary for other activities allowed under the easement, and except for linear facilities described in s. 704.06(11).

2. Subdivision of the property.

3. Dumping or placing of trash, waste, or offensive materials.

4. Activities that affect the natural hydrology of the land, or that detrimentally affect water conservation, erosion control, soil conservation, or fish or wildlife habitat.

(b) As part of the agricultural protection agreement, the parties shall agree that the state shall have a right to buy a conservation easement or rural land protection easement at the end of the 30-year term or prior to the landowner transferring or selling the property, whichever occurs later. If the landowner tenders the easement for the purchase and the state does not timely exercise its right to buy the easement, the landowner shall be released from the agricultural agreement. The purchase price of the easement shall be established in the agreement and shall be based on the value of the easement at the time the agreement is entered into, plus a reasonable escalator multiplied by the number of full calendar years following the date of the commencement of the agreement. The landowner may transfer or sell the property before the expiration of the 30-year term, but only if the property is sold subject to the agreement and the buyer becomes the successor in interest to the agricultural protection agreement. Upon mutual consent of the parties, a landowner may enter into a perpetual easement at any time during the term of an agricultural protection agreement.

(6) Payment for conservation easements and rural land protection easements shall be a lump-sum payment at the time the easement is entered into.

(7) Landowners entering into an agricultural protection agreement may receive up to 50 percent of the purchase price at the time the agreement is entered into and remaining payments on the balance shall be equal annual payments over the term of the agreement.

(8) Payments for the resource conservation agreements shall be equal annual payments over the term of the agreement.

(9) Easements purchased pursuant to this act may not prevent landowners from transferring the remaining fee value with the easement.

(10) The department, in consultation with the Department of Environmental Protection, the water management districts, the Department of Community Affairs, and the Florida Fish and Wildlife Conservation Commission, shall adopt rules that establish an application process, a process and criteria for setting priorities for use of funds consistent with the purposes specified in subsection (1) and giving preference to ranch and timber lands managed using sustainable practices, an appraisal process, and a process for title review and compliance and approval of the rules by the Board of Trustees of the Internal Improvement Trust Fund.

(11) If a landowner objects to having his or her property included in any lists or maps developed to implement this act, the department shall remove the property from any such lists or maps upon receipt of the landowner's written request to do so.

(12) The department is authorized to use funds from the following sources to implement this act:

(a) State funds;

(b) Federal funds;

(c) Other governmental entities;

(d) Nongovernmental organizations; or

(e) Private individuals.

Any such funds provided shall be deposited into the Conservation and Recreation Lands Program Trust Fund within the Department of Agriculture and Consumer Services and used for the purposes of this act.

(13) No more than 10 percent of any funds made available to implement this act shall be expended for resource conservation agreements and agricultural protection agreements.

(14) The department, in consultation with the Department of Environmental Protection, the Fish and Wildlife Conservation Commission, and the water management districts shall conduct a study to determine and prioritize needs for implementing the act.

(a) The department may contract with the Florida Natural Areas Inventory for an analysis of the geographic distribution of certain types of natural resources, or resource based land uses that have been identified for acquisition by previous conservation and recreation land acquisition programs.

(b) The needs assessment shall locate areas of the state where existing privately owned ranch and timber lands containing resources of the type identified in paragraph (a) can be preserved or protected through implementation of the Rural and Family Lands Protection Act.

(c) The department shall report its findings to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 31, 2001. At a minimum, the report must include a prioritization of the types of resources to be preserved or protected, the location of privately owned ranch and timber lands containing such resources that could be preserved or protected by easements or agreements pursuant to this act, and the funding needs for the program.

Section 30. Except as otherwise provided herein, this act shall take effect upon becoming a law.

Representative(s) Wallace offered the following:

(Amendment Bar Code: 234569)

Amendment 1 (with title amendment)—On page 3, remove from the bill: everything after the enacting clause

and insert in lieu thereof:

Section 1. Section 193.155, Florida Statutes, is amended to read:

193.155 Homestead assessments.—Homestead property shall be assessed at just value as of January 1, 1994. Property receiving the homestead exemption after January 1, 1994, shall be assessed at just value as of January 1 of the year in which the property receives the exemption. ~~Thereafter, determination of the assessed value of the property is subject to the following provisions:~~

(1) Beginning in 1995, or the year following the year the property receives homestead exemption, whichever is later, the property shall be reassessed annually on January 1. Any change resulting from such reassessment shall not exceed the lower of the following:

(a) Three percent of the assessed value of the property for the prior year; or

(b) The percentage change in the Consumer Price Index for All Urban Consumers, U.S. City Average, all items 1967=100, or successor reports for the preceding calendar year as initially reported by the United States Department of Labor, Bureau of Labor Statistics.

(2) If the assessed value of the property as calculated under subsection (1) exceeds the just value, the assessed value of the property shall be lowered to the just value of the property.

(3) Except as provided in this subsection, property assessed under this section shall be assessed at just value as of January 1 of the year following a change of ownership. Thereafter, the annual changes in the

assessed value of the property are subject to the limitations in subsections (1) and (2). For the purpose of this section, a change in ownership means any sale, foreclosure, or transfer of legal title or beneficial title in equity to any person, except as provided in this subsection. There is no change of ownership if:

(a) Subsequent to the change or transfer, the same person is entitled to the homestead exemption as was previously entitled and:

1. The transfer of title is to correct an error; or
2. The transfer is between legal and equitable title;

(b) The transfer is between husband and wife, including a transfer to a surviving spouse or a transfer due to a dissolution of marriage;

(c) The transfer occurs by operation of law under s. 732.4015; or

(d) Upon the death of the owner, the transfer is between the owner and another who is a permanent resident and is legally or naturally dependent upon the owner.

(4)(a) Changes, additions, or improvements to homestead property shall be assessed at just value as of the first January 1 after the changes, additions, or improvements are substantially completed.

(b) Changes, additions, or improvements do not include replacement of a portion of real property damaged or destroyed by misfortune or calamity when the just value of the damaged or destroyed portion as replaced is not more than 125 percent of the just value of the damaged or destroyed portion. The value of any replaced real property, or portion thereof, which is in excess of 125 percent of the just value of the damaged or destroyed property shall be deemed to be a change, addition, or improvement. Replaced real property with a just value of less than 100 percent of the original property's just value shall be assessed pursuant to subsection (5).

(c) Changes, additions, or improvements include improvements made to common areas or other improvements made to property other than to the homestead property by the owner or by an owner association, which improvements directly benefit the homestead property. Such changes, additions, or improvements shall be assessed at just value, and the just value shall be apportioned among the parcels benefiting from the improvement.

(5) When property is destroyed or removed and not replaced, the assessed value of the parcel shall be reduced by the assessed value attributable to the destroyed or removed property.

(6) Only property that receives a homestead exemption is subject to this section. No portion of property that is assessed solely on the basis of character or use pursuant to s. 193.461 or s. 193.501, or assessed pursuant to s. 193.505, is subject to this section. When property is assessed under s. 193.461, s. 193.501, or s. 193.505 and contains a residence under the same ownership, the portion of the property consisting of the residence and curtilage must be assessed separately, pursuant to s. 193.011, for the assessment to be subject to the limitation in this section.

(7) If a person received a homestead exemption limited to that person's proportionate interest in real property, the provisions of this section apply only to that interest.

(8) Erroneous assessments of homestead property assessed under this section may be corrected in the following manner:

(a) If errors are made in arriving at any ~~annual~~ assessment under this section due to a material mistake of fact concerning an essential characteristic of the property, the *just value and assessed value assessment* must be recalculated for every such year, *including the year in which the mistake occurred*.

(b) If changes, additions, or improvements are not assessed at just value as of the first January 1 after they were substantially completed, the property appraiser shall determine the just value for such changes, additions, or improvements for the year they were substantially completed. Assessments for subsequent years shall be corrected, applying this section if applicable.

(c) If back taxes are due pursuant to s. 193.092, the corrections made pursuant to this subsection shall be used to calculate such back taxes.

(9) If the property appraiser determines that for any year or years within the prior 10 years a person who was not entitled to the homestead property assessment limitation granted under this section was granted the homestead property assessment limitation, the property appraiser making such determination shall record in the public records of the county a notice of tax lien against any property owned by that person in the county, and such property must be identified in the notice of tax lien. Such property that is situated in this state is subject to the unpaid taxes, plus a penalty of 50 percent of the unpaid taxes for each year and 15 percent interest per annum. However, when a person entitled to exemption pursuant to s. 196.031 inadvertently receives the limitation pursuant to this section following a change of ownership, the assessment of such property must be corrected as provided in paragraph (8)(a), and the person need not pay the unpaid taxes, penalties, or interest.

Section 2. Effective January 1, 2003, paragraph (c) of subsection (2) of section 195.096, Florida Statutes, as amended by this act, is amended to read:

195.096 Review of assessment rolls.—

(2) The department shall conduct, no less frequently than once every 2 years, an in-depth review of the assessment rolls of each county. The department need not individually study every use-class of property set forth in s. 195.073, but shall at a minimum study the level of assessment in relation to just value of each classification specified in subsection (3). Such in-depth review may include proceedings of the value adjustment board and the audit or review of procedures used by the counties to appraise property.

(c) In conducting assessment ratio studies, the department must use a representative or statistically reliable sample of properties in tests of each classification, stratum, or roll made the subject of a ratio study published by it. *The department shall document and retain records of the measures of representativeness of the properties studied in compliance with this section. Such documentation must include a record of findings used as the basis for the approval or disapproval of the tax roll in each county pursuant to s. 193.1142. In addition, to the greatest extent practicable, the department shall study assessment roll strata by value groups or market areas for each classification, subclassification, or stratum to be studied to ensure the representativeness of ratio study samples.* For purposes of this section, the department shall rely primarily on an assessment-to-sales-ratio study in conducting assessment ratio studies in those classifications of property specified in subsection (3) for which there are adequate market sales. The department shall compute the median and the value-weighted mean for each classification or subclassification studied and for the roll as a whole.

Section 3. Effective upon this act becoming a law and applicable to the tax year 2001 and thereafter, section 196.1975, Florida Statutes, is amended to read:

(1) The applicant must be a corporation not for profit *pursuant to chapter 617* or a Florida limited partnership, the sole general partner of which is a corporation not for profit *pursuant to chapter 617*, and the corporation not for profit must have been exempt as of January 1 of the year for which exemption from ad valorem property taxes is requested from federal income taxation by having qualified as an exempt charitable organization under the provisions of s. 501(c)(3) of the Internal Revenue Code of 1954 or of the corresponding section of a subsequently enacted federal revenue act.

(2) A facility will not qualify as a "home for the aged" unless at least 75 percent of the occupants are over the age of 62 years or totally and permanently disabled. For homes for the aged which are exempt from paying income taxes to the United States as specified in subsection (1),

(a) Furnishes medical facilities or nursing services to its residents, or

(b) Qualifies as an assisted living facility under part III of chapter 400.

(3) Those portions of the home for the aged which are devoted exclusively to the conduct of religious services or the rendering of nursing or medical services are exempt from ad valorem taxation.

(4)(a) After removing the assessed value exempted in subsection (3), *units or apartments* in homes for the aged shall be exempt only to the extent that residency in *the existing unit or apartment* of the applicant home is *reserved for or* restricted to or *the unit or apartment is* occupied by persons who have resided in the applicant home and in good faith made this state their permanent residence as of January 1 of the year in which exemption is claimed and who also meet the requirements set forth in one of the following subparagraphs:

1. Persons who have gross incomes of not more than \$7,200 per year and who are 62 years of age or older.

2. Couples, one of whom must be 62 years of age or older, having a combined gross income of not more than \$8,000 per year, or the surviving spouse thereof, who lived with the deceased at the time of the deceased's death in a home for the aged.

3. Persons who are totally and permanently disabled and who have gross incomes of not more than \$7,200 per year.

4. Couples, one or both of whom are totally and permanently disabled, having a combined gross income of not more than \$8,000 per year, or the surviving spouse thereof, who lived with the deceased at the time of the deceased's death in a home for the aged.

However, the income limitations do not apply to totally and permanently disabled veterans, provided they meet the requirements of s. 196.081.

(b) The maximum income limitations permitted in this subsection shall be adjusted, effective January 1, 1977, and on each succeeding year, by the percentage change in the average cost-of-living index in the period January 1 through December 31 of the immediate prior year compared with the same period for the year prior to that. The index is the average of the monthly consumer price index figures for the stated 12-month period, relative to the United States as a whole, issued by the United States Department of Labor.

(5) Nonprofit housing projects ~~that which~~ are financed by a mortgage loan made or insured by the United States Department of Housing and Urban Development under s. 202, s. 202 with a s. 8 subsidy, s. 221(d)(3) or (4), or s. 236 of the National Housing Act, as amended, and ~~that which~~ are subject to the income limitations established by that department ~~are shall be~~ exempt from ad valorem taxation.

(6) For the purposes of this section, gross income includes social security benefits payable to the person or couple or assigned to an organization designated specifically for the support or benefit of that person or couple.

(7) It is hereby declared to be the intent of the Legislature that subsection (3) implements the ad valorem tax exemption authorized in the third sentence of s. 3(a), Art. VII, State Constitution, and the remaining subsections implement s. 6(e), Art. VII, State Constitution, for purposes of granting such exemption to homes for the aged.

(8) Physical occupancy on January 1 is not required in those instances in which a home restricts occupancy to persons meeting the income requirements specified in this section. Those portions of a ~~such~~ property failing to meet those requirements shall qualify for an alternative exemption as provided in subsection (9). In a home in which at least 25 percent of the units or apartments of the home are restricted to or occupied by persons meeting the income requirements specified in this section, the common areas of that home are exempt from taxation.

(9)(a) Each unit or apartment of a home for the aged not exempted in subsection (3) or subsection (4), which is operated by a not for profit corporation and is owned by such corporation or leased by such corporation from a health facilities authority pursuant to part III of chapter 154 or an industrial development authority pursuant to part III of chapter 159, and which property is used by such home for the aged for the purposes for which it was organized, is exempt from all ad valorem taxation, except for assessments for special benefits, to the extent of \$25,000 of assessed valuation of such property for each apartment or unit:

1. Which is used by such home for the aged for the purposes for which it was organized; and

EXPLANATION

***COLUMN 1—"YOUR PROPERTY TAXES LAST YEAR"**

This column shows the taxes that applied last year to your property. These amounts were based on budgets adopted last year and your property's previous taxable value.

***COLUMN 2—"YOUR TAXES IF PROPOSED BUDGET CHANGE IS MADE"**

This column shows what your taxes will be this year under the BUDGET ACTUALLY PROPOSED by each local taxing authority. The proposal is NOT final and may be amended at the public hearings shown on the front side of this notice.

***COLUMN 3—"YOUR TAXES IF NO BUDGET CHANGE IS MADE"**

This column shows what your taxes will be this year IF EACH TAXING AUTHORITY DOES NOT INCREASE ITS PROPERTY TAX LEVY. These amounts are based on last year's budgets and your current assessment. The difference between columns 2 and 3 is the tax change proposed by each local taxing authority and is NOT the result of higher assessments.

ASSESSED VALUE means:

For homestead property: value as limited by the State Constitution;

For agricultural and similarly assessed property: classified use value;

For all other property: market value.

*Note: Amounts shown on this form do NOT reflect early payment discounts you may have received or may be eligible to receive. (Discounts are a maximum of 4 percent of the amounts shown on this form.)

The form used for this purpose shall be identical to that supplied by the department and shall be delivered to the property appraiser not later than July 31, except that a larger space shall be provided for listing the columnar information specified in subsections (2), (3), (4), and (5). If the executive director of the department grants written permission, the form may be printed only on one side. The governing body of the county shall bear the expense of procuring such form.~~

~~(11)(12)~~ The bottom portion of the notice shall further read in bold, conspicuous print:

"Your final tax bill may contain non-ad valorem assessments which may not be reflected on this notice such as assessments for roads, fire, garbage, lighting, drainage, water, sewer, or other governmental services and facilities which may be levied by your county, city, or any special district."

~~(12)(13)(a)~~ If requested by the local governing board levying non-ad valorem assessments and agreed to by the property appraiser, the notice specified in this section may contain a notice of proposed or adopted non-ad valorem assessments. If so agreed, the notice shall be titled:

**NOTICE OF PROPOSED PROPERTY TAXES
AND PROPOSED OR ADOPTED

5. A brief statement outlining the responsibility of the tax collector and each levying local governing board as to any non-ad valorem assessment must be provided on the form, accompanied by directions as to which office to contact for particular questions or problems.

(b) If the notice includes all adopted non-ad valorem assessments, the provisions contained in subsection (11) ~~(12)~~ shall not be placed on the notice.

The amount of the monthly sales tax reimbursement distribution shall be adjusted beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development that the applicant is to receive a reduced or increased sales tax reimbursement payment.*

8. All other proceeds shall remain with the General Revenue Fund.

Section 2. If section 35 of chapter 2000-260, Laws of Florida, is not repealed by section 58 of said chapter, paragraph (e) of subsection (6) of section 212.20, Florida Statutes, is amended to read:

212.20 Funds collected, disposition; additional powers of department; operational expense; refund of taxes adjudicated unconstitutionally collected.—

(6) Distribution of all proceeds under this chapter and s. 202.18(1)(b) and (2)(b) shall be as follows:

(e) The proceeds of all other taxes and fees imposed pursuant to this chapter or remitted pursuant to s. 202.18(1)(b) and (2)(b) shall be distributed as follows:

1. In any fiscal year, the greater of \$500 million, minus an amount equal to 4.6 percent of the proceeds of the taxes collected pursuant to chapter 201, or 5 percent of all other taxes and fees imposed pursuant to this chapter or remitted pursuant to s. 202.18(1)(b) and (2)(b) shall be deposited in monthly installments into the General Revenue Fund.

2. Two-tenths of one percent shall be transferred to the Solid Waste Management Trust Fund.

3. After the distribution under subparagraphs 1. and 2., 9.653 percent of the amount remitted by a sales tax dealer located within a participating county pursuant to s. 218.61 shall be transferred into the Local Government Half-cent Sales Tax Clearing Trust Fund.

4. After the distribution under subparagraphs 1., 2., and 3., 0.065 percent shall be transferred to the Local Government Half-cent Sales Tax Clearing Trust Fund and distributed pursuant to s. 218.65.

5. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 2.25 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Counties pursuant to s. 218.215.

6. For proceeds received after July 1, 2000, and after the distributions under subparagraphs 1., 2., 3., and 4., 1.0715 percent of the available proceeds pursuant to this paragraph shall be transferred monthly to the Revenue Sharing Trust Fund for Municipalities pursuant to s. 218.215. If the total revenue to be distributed pursuant to this subparagraph is at least as great as the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, no municipality shall receive less than the amount due from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000. If the total proceeds to be distributed are less than the amount received in combination from the Revenue Sharing Trust Fund for Municipalities and the Municipal Financial Assistance Trust Fund in state fiscal year 1999-2000, each municipality shall receive an amount proportionate to the amount it was due in state fiscal year 1999-2000.

7. Of the remaining proceeds:

a. Beginning July 1, 2000, and in each fiscal year thereafter, the sum of \$29,915,500 shall be divided into as many equal parts as there are counties in the state, and one part shall be distributed to each county. The distribution among the several counties shall begin each fiscal year on or before January 5th and shall continue monthly for a total of 4 months. If a local or special law required that any moneys accruing to a county in fiscal year 1999-2000 under the then-existing provisions of s. 550.135 be paid directly to the district school board, special district, or a municipal government, such payment shall continue until such time that the local or special law is amended or repealed. The state covenants with holders of bonds or other instruments of indebtedness issued by local governments, special districts, or district school boards prior to July 1, 2000, that it is not the intent of this subparagraph to adversely affect the rights of those holders or relieve local governments, special districts, or district school boards of the duty to meet their obligations as a result of previous pledges or assignments or trusts entered into which obligated funds received from the distribution to county governments under then-existing s. 550.135. This distribution specifically is in lieu of funds distributed under s. 550.135 prior to July 1, 2000.

b. The department shall distribute \$166,667 monthly pursuant to s. 288.1162 to each applicant that has been certified as a “facility for a new professional sports franchise” or a “facility for a retained professional sports franchise” pursuant to s. 288.1162. Up to \$41,667 shall be distributed monthly by the department to each applicant that has been certified as a “facility for a retained spring training franchise” pursuant to s. 288.1162; however, not more than \$208,335 may be distributed monthly in the aggregate to all certified facilities for a retained spring training franchise. Distributions shall begin 60 days following such certification and shall continue for not more than 30 years. Nothing contained in this paragraph shall be construed to allow an applicant certified pursuant to s. 288.1162 to receive more in distributions than actually expended by the applicant for the public purposes provided for in s. 288.1162(6). However, a certified applicant is entitled to receive distributions up to the maximum amount allowable and undistributed under this section for additional renovations and improvements to the facility for the franchise without additional certification.

c. Beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development to the Department of Revenue that an applicant has been certified as the professional golf hall of fame pursuant to s. 288.1168 and is open to the public, \$166,667 shall be distributed monthly, for up to 300 months, to the applicant.

d. Beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development to the Department of Revenue that the applicant has been certified as the International Game Fish Association World Center facility pursuant to s. 288.1169, and the facility is open to the public, \$83,333 shall be distributed monthly, for up to 168 months, to the applicant. This distribution is subject to reduction pursuant to s. 288.1169. A lump sum payment of \$999,996 shall be made, after certification and before July 1, 2000.

e. *Beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development to the Department of Revenue that an applicant has been certified as a certified sports industry economic development project pursuant to s. 288.113, and has generated new sales tax revenues that have been remitted to the state during the prior twelve months, a monthly sales tax reimbursement payment in the amount set forth in the notice by the Office of Tourism, Trade and Economic Development, based on actual sales tax generated over a 12-month period, shall be distributed to the applicant until the certification expires or notice is received by the department from the Office of Tourism, Trade, and Economic Development of a change in the applicant's certification status or in the certified monthly payment amount. The amount of the monthly sales tax reimbursement distribution shall be adjusted beginning 30 days after notice by the Office of Tourism, Trade, and Economic Development that the applicant is to receive a reduced or increased sales tax reimbursement payment.*

8. All other proceeds shall remain with the General Revenue Fund.

Section 4. Section 288.113, Florida Statutes, is created to read:

288.113 *Tax reimbursement program for certified sports industry economic development projects.—*

(1) **LEGISLATIVE FINDINGS AND DECLARATIONS.**—*The Legislature finds that attracting, retaining, and providing favorable conditions for the growth of certified sports industry economic*

development projects provides high-quality employment opportunities for residents of the state, increases tourism, and enhances the economic foundations of the state. It is the policy of the state to encourage the growth of high-value-added employment to the economic base by providing a sales tax reimbursement to certified sports industry economic development projects that create new employment opportunities and generate new sales tax dollars by expanding businesses within the state or by bringing new businesses to the state.

(2) **DEFINITIONS.**—As used in this section:

(a) “Certified sports industry economic development project” or “project” means any amateur sports business that develops, operates, attracts, and retains multiyear amateur sporting events that generate new sales taxes for the state, has submitted a properly completed application to the Office of Tourism, Trade, and Economic Development, and has subsequently been certified by that office as a certified sports industry economic development project.

(b) “Sales tax reimbursement” means the monthly amount to be distributed through a reimbursement to a certified sports industry economic development project pursuant to s. 212.20. Such amount shall be determined by the Office of Tourism, Trade, and Economic Development as provided in this section.

(3) **AMATEUR SPORTS BUSINESS ELIGIBLE TO APPLY.**—

(a) Any amateur sports business that develops, operates, attracts, and retains multiyear amateur sporting events that generate new sales taxes for the state may submit to the Office of Tourism, Trade, and Economic Development an application for approval as a certified sports industry economic development project for the purpose of receiving a sales tax reimbursement on new sales taxes generated by increased new business and tourism activity directly attributable to the proposed amateur sports industry economic development project.

(b) The number of certified sports industry economic development projects shall not exceed three until June 30, 2006, and thereafter only one new certified sports industry economic development project may be certified by the Office of Tourism, Trade, and Economic Development each year.

(4) **SALES TAX REIMBURSEMENT AND AUTHORIZED AMOUNT.**—Pursuant to s. 212.20, each certified sports industry economic development project shall be eligible for a monthly distribution of its sales tax reimbursement in the amount determined by its sales tax reimbursement agreement with the Office of Tourism, Trade, and Economic Development. The amount shall be based on new sales tax revenues generated under chapter 212 by increased new business and tourism activity directly attributable to the project as determined using the sports economic impact model and, subject to other restrictions, returns 50 percent of that amount to the project. The total amount of sales tax reimbursement for all fiscal years estimated for each project shall not exceed 50 percent of the cost of the project as determined by the Office of Tourism, Trade, and Economic Development in the certification process set forth in subsection (6). The annualized amount of the monthly distribution shall be calculated by the Office of Tourism, Trade, and Economic Development and specified in the applicant’s sales tax reimbursement agreement. Annual payment amounts shall be no less than \$500,000 and no more than \$2 million, unless the Office of Tourism, Trade, and Economic Development reduces payments below \$500,000 under its authority to decertify a project as discussed in subsection (6).

(5) **AUTHORIZED USE OF SALES TAX REIMBURSEMENT PAYMENTS.**—After entering into a sales tax reimbursement agreement under subsection (7), a certified sports industry economic development project may receive a sales tax reimbursement for:

(a) Developing and implementing any component of the project’s sports events and activities;

(b) Constructing, reconstructing, renovating, furnishing, equipping, or operating the project’s facilities or events;

(c) Pledging payments or debt service on or funding debt service reserve funds, arbitrage rebate obligations, or other amounts payable with respect to bonds for the project’s activities and facilities; or

(d) Paying the cost of relocating the project’s corporate headquarters into the state.

(6) **CERTIFICATION, RECERTIFICATION, AND DECERTIFICATION PROCEDURE.**—

(a) The Office of Tourism, Trade, and Economic Development shall establish a certification process by which a proposed amateur sports industry economic development project may be approved by the office as a certified sports industry economic development project that is eligible to receive economic development incentives in the form of a sales tax reimbursement of a percentage of new sales taxes that have been generated and remitted to the state as a result of the certified sports industry economic development project.

(b) Before certifying an applicant under this subsection, the Office of Tourism, Trade, and Economic Development shall determine that the applicant has:

1. Completed an independent analysis or study, verified by the Office of Tourism, Trade, and Economic Development, which demonstrates that the proposed amateur sports industry economic development project will generate a minimum of \$1 million annually in new sales tax revenues over a multiyear period.

2. Received commitments for amateur sports activities which demonstrate that the proposed amateur sports economic development project will bring to this state on a multiyear basis new proposed amateur sports economic development project activities that will generate a minimum of \$1 million in new sales tax revenues annually, as verified by the Office of Tourism, Trade, and Economic Development.

3. Demonstrated that the applicant has provided, is capable of providing, or has financial or other commitments to provide more than one-half of the costs incurred in or related to the development of the proposed amateur sports industry economic development project.

(c) An amateur sports business that has previously been certified under this section and has received a sales tax reimbursement under that certification is ineligible for additional certification.

(d) Upon determining that a proposed amateur sports industry economic development project meets the established criteria for approval as a certified sports industry economic development project and qualifies for a sales tax reimbursement, the Office of Tourism, Trade, and Economic Development shall issue to the applicant a letter of certification that stipulates the terms of the sales tax reimbursement agreement and the penalties for failing to comply with those terms.

(e) The Office of Tourism, Trade, and Economic Development shall deny the application of an amateur sports business to be a certified sports industry economic development project if the office determines that the proposed project does not meet the established criteria for approval.

(f) The Office of Tourism, Trade, and Economic Development shall develop a standardized form for an amateur sports business to complete in applying for certification as a certified sports industry economic development project. The application shall include, but shall not be limited to, relevant information on employment and job creation, proposed budgets, contracts for multiyear events and projects, project financing, and other information requested by the office. The application may be distributed to applicants by the Office of Tourism, Trade, and Economic Development, and all completed applications shall be processed by the office.

(g) Initial certification for a sales tax reimbursement under this section is valid for 120 months. Subsequent to the initial certification period, the certified sports industry economic development project is eligible for two periods of recertification, each of which is valid for 60 months. A project shall request recertification 12 months before the expiration of the certificate.

(h) A certified sports industry economic development project may request recertification after the initial certification period to be qualified for certification as a certified sports industry economic development project for a period not to exceed 240 months.

(i) *The Office of Tourism, Trade, and Economic Development shall recertify, before the end of the first 10-year period, that the certified sports industry economic development project is operational and that the project is meeting the minimum projections for sales tax revenues as required at the time of original certification. If the project is not recertified during this 10-year review period as meeting the minimum projections, funding shall be adjusted until certification criteria are met. If the project fails to generate annual sales tax revenues pursuant to its sales tax reimbursement agreement with the Office of Tourism, Trade, and Economic Development, the amount of revenues distributed to the project under s. 212.20(6)(e)7.e. shall be reduced to the amount of the taxes collected times 50 percent. If, for 2 consecutive years, the amount of tax revenues collected falls below a minimum of \$1 million per year, the project may be decertified at the discretion of the Office of Tourism, Trade, and Economic Development. Such a reduction shall remain in effect until the sales tax revenues generated by the project in a 12-month period equal or exceed \$1 million.*

(j) *A project may be decertified if the Office of Tourism, Trade, and Economic Development determines that the amateur sports business can no longer maintain its economic development activities in this state. If the project is no longer in existence, or is no longer viable, as determined by the project's sales tax reimbursement agreement with the Office of Tourism, Trade, and Economic Development, or if the project has the certificate for purposes other than those authorized by this section and chapter 212, the Office of Tourism, Trade, and Economic Development shall notify the Department of Revenue to suspend payment for a period of 6 months until the project is either in compliance with the sales tax reimbursement agreement or is determined to be in default. In addition to other penalties imposed by law, any person who knowingly and willfully falsifies an application for purposes other than those authorized by this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

(k) *The Office of Tourism, Trade, and Economic Development shall provide written notification to the Department of Revenue of all certifications, recertifications, and decertifications of projects and of the sales tax reimbursement distribution amount each project is entitled to receive.*

(l) *The Office of Tourism, Trade, and Economic Development shall develop rules for the receipt and processing of applications for funding pursuant to s. 212.20.*

(7) SALES TAX REIMBURSEMENT AGREEMENT TERMS.—

(a) *In order to qualify for sales tax reimbursement from the state, each certified sports industry economic development project shall enter into a written agreement with the Office of Tourism, Trade, and Economic Development which specifies, at a minimum:*

1. *The total number of full-time-equivalent jobs created in or transferred to this state as a direct result of the project, the average wage paid for those jobs, the criteria that will apply to measuring the achievement of these terms during the effective period of the agreement, and a time schedule or plan for when such jobs will be in place and operative in the state.*

2. *The maximum amount of new sales taxes estimated to be generated as a result of the project, the maximum amount of sales tax reimbursement that the project is eligible to receive, and the maximum amount of sales tax reimbursement that the project is requesting.*

3. *The budgets, financing, projections, and cost estimates for the sports activities and projects for which reimbursement is sought.*

(b) *Compliance with the terms and conditions of the sales tax reimbursement agreement is a condition precedent for receiving a sales tax reimbursement each year. The terms and timeframe of the agreement shall be commensurate with the duration of the certification period. Failure to comply with the terms and conditions of the sales tax reimbursement agreement shall result in an immediate review by the Office of Tourism, Trade, and Economic Development of the activities of the project.*

(c) *The sales tax reimbursement shall not exceed 50 percent of the total project costs, amortized over a period not to exceed 20 years.*

(d) *Sales tax reimbursement may be provided through direct payment or other means of payment to the certified sports industry economic development project, as determined in the sales tax reimbursement agreement with the approval of the Department of Revenue.*

(8) ADMINISTRATION.—

(a) *The Office of Tourism, Trade, and Economic Development may verify information provided in any claim for sales tax reimbursement under this section, including information regarding employment and wage levels or the payment of taxes under chapter 212 to the appropriate agency, including the Department of Revenue, the Agency for Workforce Innovation, or the appropriate local government or authority.*

(b) *To facilitate the process of monitoring and auditing applications made under this program, the Office of Tourism, Trade, and Economic Development may request information necessary for determining a project's compliance with this section from the Department of Revenue, the Agency for Workforce Innovation, or any local government or authority. These governmental entities shall provide assistance in the areas within their scope of responsibilities.*

(c) *The Department of Revenue may audit as provided in s. 213.34 to verify that the distributions pursuant to this section have been expended as required in this section.*

(9) RELATIONSHIP OF SALES TAX REIMBURSEMENTS TO SPORTS INDUSTRY GROWTH; REPORT TO THE LEGISLATURE.—*Beginning January 1, 2003, the Office of Tourism, Trade, and Economic Development shall maintain records based on information provided on taxpayer applications for certified sports industry economic development projects that receive sales tax reimbursements. These records shall include a statement of the percentage of the overall new economic impact generated by certified sports industry economic development projects and the amount of funds annually reimbursed to such projects. In addition, the Office of Tourism, Trade, and Economic Development shall maintain data showing the annual growth in Florida-based amateur sports industry businesses and the number of persons employed and wages paid by such businesses. The Office of Tourism, Trade, and Economic Development shall report this information to the Legislature annually, no later than December 1.*

Section 5. Subsection (1) of section 288.1229, Florida Statutes, is amended to read:

I am directed to inform the House of Representatives that the Senate has passed HB 405, with one amendment, and requests the concurrence of the House.

Faye W. Blanton, Secretary

HB 405—A bill to be entitled An act relating to public records exemptions for certain surplus lines insurance records; amending s. 626.921, F.S., which provides an exemption from public records requirements for certain surplus lines insurance information submitted to the Department of Insurance or available for inspection by the department; reenacting such exemption and removing the October 2, 2001, repeal thereof scheduled under the Open Government Sunset Review Act of 1995; narrowing the exemption to apply to information specific to a particular policy or policyholder; providing an exemption from public records requirements for certain surplus lines insurance information submitted to the Florida Surplus Lines Service Office; providing for future review and repeal; providing a finding of public necessity; providing an effective date.

Senate Amendment 1—On page 2, line 11, through page 3, line 2, delete those lines

and insert:

(b) Information furnished to the Florida Surplus Lines Service Office under the Surplus Lines Law is confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution if the disclosure of the information would reveal information specific to a particular policy or policyholder. This exemption does not prevent the disclosure of any information by the Florida Surplus Lines Service Office to the department, but the exemption applies to records obtained by the department from the Florida Surplus Lines Service Office. The exemption does not apply to any proceeding instituted by the department against an agent or insurer. This paragraph is subject to the Open Government Sunset Review Act of 1995 in accordance with s. 119.15, and shall stand repealed on October 2, 2006, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. *The Legislature finds that it is a public necessity that certain records of the Department of Insurance and the Florida Surplus Lines Service Office be held confidential and exempt. The disclosure of surplus lines policy information submitted to the Department of Insurance or to the Florida Surplus Lines Service Office, to the extent that such information reveals information specific to a particular policy or policyholder, would be harmful to insurers or agents due to the economic value of such information if revealed to competitors. Such information may also reveal economic information about the policyholder that would be harmful as an invasion of privacy of the policyholder. Accordingly, it is a public necessity that such information be held confidential and exempt.*

insert:

(a) Extent of leave.—

1. Each member of the instructional staff employed on a full-time basis ~~is shall be~~ entitled to 4 days of sick leave as of the first day of employment of each contract year and shall thereafter earn 1 day of sick leave for each month of employment, which shall be credited to the member at the end of that month and which ~~may shall~~ not be used ~~before prior to the time~~ it is earned and credited to the member. Each other employee shall be credited with 4 days of sick leave at the end of the first month of employment of each contract year and shall thereafter be credited for 1 day of sick leave for each month of employment, which shall be credited to the employee at the end of the month and which ~~may shall~~ not be used ~~before prior to the time~~ it is earned and credited to the employee. However, each member of the instructional staff and each other employee ~~is shall be~~ entitled to earn no more than 1 day of sick leave times the number of months of employment during the year of employment. If the employee terminates his or her employment and has not accrued the 4 ~~sick~~ days of sick leave available to him or her, the district school board may withhold the average daily amount for the ~~days of sick leave used~~ ~~days utilized~~ but unearned by the employee. Such leave ~~may shall~~ be taken only when necessary because of sickness as ~~herein~~ prescribed in this section. The sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave which a member of the instructional staff or an educational support employee may accrue, except that at least one-half of this cumulative leave must be established within the district granting such leave.

2. A district school board may establish policies and prescribe standards to permit an employee to be absent 6 days each school year for personal reasons. However, such absences for personal reasons ~~shall~~ be charged only to accrued sick leave, and leave for personal reasons ~~is shall be~~ noncumulative.

3. District school boards may adopt rules permitting the annual payment for accumulated sick leave that is earned for that year and that is unused at the end of the school year, based on the daily rate of pay of the employee multiplied by up to 80 percent. Days for which such payment is received shall be deducted from the accumulated leave balance. Such annual payment may apply only to instructional staff and educational support employees.

4. A district school board may establish policies to provide terminal pay for accumulated sick leave to instructional staff and educational support employees of the district school board. If termination of employment is by death of the employee, any terminal pay to which the employee may have been entitled may be made to his or her beneficiary. However, such terminal pay ~~may shall~~ not exceed an amount determined as follows:

a. During the first 3 years of service, the daily rate of pay multiplied by 35 percent times the number of days of accumulated sick leave.

b. During the next 3 years of service, the daily rate of pay multiplied by 40 percent times the number of days of accumulated sick leave.

c. During the next 3 years of service, the daily rate of pay multiplied by 45 percent times the number of days of accumulated sick leave.

d. During the next 3 years of service, the daily rate of pay multiplied by 50 percent times the number of days of accumulated sick leave.

e. During and after the 13th year of service, the daily rate of pay multiplied by 100 percent times the number of days of accumulated sick leave.

5. A district school board may establish policies to provide terminal pay for accumulated sick leave to any full-time employee of the district school board other than instructional staff or educational support employees as defined in this section. If termination of the employee is by death of the employee, any terminal pay to which the employee may have been entitled may be made to the employee's beneficiary. ~~However, for such employees hired on or after July 1, 1995,~~

a. Terminal pay ~~may shall~~ not exceed ~~an amount determined as follows:~~

~~a-~~ one-fourth of all unused sick leave accumulated on or after July 1, 2001, ~~and may 1995; however, terminal pay allowable for such accumulated sick leave shall~~ not exceed a maximum of 60 days of actual payment. *This limit does not impair any contractual agreement established before July 1, 2001; however, a previously established contract renewed on or after July 1, 2001, constitutes a new contract.*

b. For unused sick leave accumulated ~~before~~ ~~prior to~~ July 1, 2001 ~~1995~~, terminal payment shall be made pursuant to a district school board's policies, contracts, or rules that ~~which~~ are in effect on June 30, 2001 ~~July 1, 1995~~.

c. *If an employee has an accumulated sick leave balance of 60 days of actual payment or more prior to July 1, 2001, sick leave earned after that date may not be accumulated for terminal pay purposes until the accumulated leave balance for leave earned before July 1, 2001, is less than 60 days.*

3. Who is engaged wholly or in part in the business of selling motor vehicles, whether or not such motor vehicles are owned by such person, firm, company, or corporation.

(15) "Sell," "selling," "sold," "exchange," "retail sales," and "leases" includes any transaction where the title of motor vehicle or used motor vehicle is transferred to a retail consumer, and also any retail lease transaction where a retail customer leases a vehicle for a period of at least 12 months. Establishing a price for sale pursuant to s. 320.64(24) does not constitute a sale or lease.

Section 20. Subsection (4) of section 320.61, Florida Statutes, is amended to read:

320.61 Licenses required of motor vehicle manufacturers, distributors, importers, etc.—

(4) When a complaint of unfair or prohibited cancellation or nonrenewal of a dealer agreement is made by a motor vehicle dealer

Section 21. Subsections (13) and (16) are repealed, subsections (14), (15), and (17)-(23) are renumbered, subsection (20) is amended and renumbered as (18), and subsections (22)-(33) are added to section 320.64, Florida Statutes, to read:

320.64 Denial, suspension, or revocation of license; grounds.—A license of a licensee under s. 320.61 may be denied, suspended, or revoked within the entire state or at any specific location or locations within the state at which the applicant or licensee engages or proposes to engage in business, upon a proof that the section was violated with sufficient frequency to establish a pattern of wrongdoing and a licensee or applicant shall be liable for claims and remedies provided in s. 320.695 and s. 320.697 for any violation of any of the following provisions. A licensee is prohibited from committing the following acts: upon proof that an applicant or licensee has failed to comply with any of the following provisions with sufficient frequency so as to establish a pattern of wrongdoing on the part of the applicant:

(13) ~~The applicant or licensee has refused to deliver, in reasonable quantities and within a reasonable time, to any duly licensed motor vehicle dealer who has an agreement with such applicant or licensee for the retail sale of new motor vehicles and parts for motor vehicles sold or distributed by the applicant or licensee, any such motor vehicles or parts as are covered by such agreement specifically publicly advertised by such applicant or licensee to be available for immediate delivery. However, the failure to deliver any motor vehicle or part will not be considered a violation of this section if the failure is due to act of God, work stoppage, or delay due to a strike or labor difficulty, a freight embargo, product shortage, or other cause over which the applicant or licensee has no control. The failure to deliver parts or components for the current and 5 preceding years' models within 60 days from date of order shall be deemed prima facie unreasonable.~~

(16) ~~Notwithstanding the terms of any franchise agreement, and unless it can be shown that the licensee's franchised dealer is actively negligent, the applicant or licensee has failed to indemnify and hold harmless its franchised motor vehicle dealer against any judgment for damages or settlement agreed to in writing by the applicant or licensee, including, but not limited to, court costs and reasonable attorney's fees of the motor vehicle dealer, which judgment or settlement arose out of complaints, claims, or lawsuits based upon such grounds as strict liability; negligence; misrepresentation; warranty, express or implied; or rescission of the sale as described in s. 672.608, less any offset for use recovered by the licensee's franchised motor vehicle dealer, and only to the extent that the judgment or settlement relates to the alleged defective or negligent manufacture, assembly, or design of new motor vehicles, parts, or accessories or other functions of the manufacturer.~~

(18)(20) The applicant or licensee has established a system of motor vehicle allocation or distribution or has implemented a system of allocation or distribution of motor vehicles to one or more of its franchised motor vehicle dealers which is unfair, inequitable, unreasonably discriminatory, or not supportable by reason and good cause after considering the equities of the affected motor vehicles dealer or dealers. An applicant or licensee shall maintain for 3 years records that describe its methods or formula of allocation and distribution of its motor vehicles and records of its actual allocation and distribution of motor vehicles to its motor vehicle dealers in this state.

(22) The applicant or licensee has refused to deliver, in reasonable quantities and within a reasonable time, to any duly licensed motor vehicle dealer who has an agreement with such applicant or licensee for the retail sale of new motor vehicles and parts for motor vehicles sold or distributed by the applicant or licensee, any such motor vehicles or parts as are covered by such agreement. Such refusal includes the failure to offer to its same line-make franchised motor vehicle dealers all models

manufactured for that line-make, or requiring a dealer to pay any extra fee, require a dealer to execute a separate franchise agreement, purchase unreasonable advertising displays or other materials, or remodel, renovate, or recondition the dealer's existing facilities, or provide exclusive facilities as a prerequisite to receiving a model or series of vehicles. However, the failure to deliver any motor vehicle or part will not be considered a violation of this section if the failure is due to an act of God, work stoppage, or delay due to a strike or labor difficulty, a freight embargo, product shortage, or other cause over which the applicant or licensee has no control. An applicant or licensee may impose reasonable requirements on the motor vehicle dealer, other than the items listed above, including, but not limited to, the purchase of special tools required to properly service a motor vehicle, the undertaking of sales person or service person training related to the motor vehicle.

(23) The applicant or licensee has competed or is competing with respect to any activity covered by the franchise agreement with a motor vehicle dealer of the same line-make located in this state with whom the applicant or licensee has entered into a franchise agreement, except as permitted in s. 320.645.

(24) The applicant or licensee has sold a motor vehicle to any retail consumer in the state except through a motor vehicle dealer holding a franchise agreement for the line-make that includes the motor vehicle. This section does not apply to sales by the applicant or licensee of motor vehicles to its current employees, employees of companies affiliated by common ownership, charitable not-for-profit organizations, and the federal government.

(25) The applicant or licensee has undertaken an audit of warranty payments or incentive payment previously paid to a motor vehicle dealer in violation of this section or has failed to comply with s. 320.696. An applicant or licensee may reasonably and periodically audit a motor vehicle dealer to determine the validity of paid claims. Audit of warranty payments shall only be for the 1-year period immediately following the date the claim was paid. Audit of incentive payments shall only be for an 18-month period immediately following the date the incentive was paid. An applicant or licensee shall not deny a claim or charge a motor vehicle dealer back subsequent to the payment of the claim unless the applicant or licensee can show that the claim was false or fraudulent or that the motor vehicle dealer failed to substantially comply with the reasonable written and uniformly applied procedures of the applicant or licensee for such repairs or incentives.

(26) Notwithstanding the terms of any franchise agreement, the applicant or licensee has refused to allocate, sell, or deliver motor vehicles, charged back or withheld payments or other things of value for which the dealer is otherwise eligible under a sales promotion, program, or contest, or prevented the motor vehicle dealer from participating in any promotion, program, or contest for selling a motor vehicle to a customer who was present at the dealership and the motor vehicle dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country. There will be a rebuttable presumption that the dealer did not know or should not have reasonably known that the vehicle would be shipped to a foreign country if the vehicle is titled in one of the fifty United States.

(27) Notwithstanding the terms of any franchise agreement, the applicant or licensee has failed or refused to indemnify and hold harmless any motor vehicle dealer against any judgment for damages, or settlements agreed to by the applicant or licensee, including, without limitation, court costs and reasonable attorneys fees, arising out of complaints, claims, or lawsuits, including, without limitation, strict liability, negligence, misrepresentation, express or implied warranty, or revocation or rescission of acceptance of the sale of a motor vehicle, to the extent the judgment or settlement relates to the alleged negligent manufacture, design, or assembly of motor vehicles, parts, or accessories. Nothing herein shall obviate the licensee's obligations pursuant to chapter 681.

(28) The applicant or licensee has published, disclosed, or otherwise made available in any form information provided by a motor vehicle dealer with respect to sales prices of motor vehicles or profit per motor vehicle sold. Other confidential financial information provided by motor

vehicle dealers shall not be published, disclosed, or otherwise made publicly available except in composite form. However, this information may be disclosed with the written consent of the dealer or in response to a subpoena or order of the Department, a court or a lawful tribunal, or introduced into evidence in such a proceeding, after timely notice to an affected dealer.

(29) *The applicant or licensee has failed to reimburse a motor vehicle dealer in full for the reasonable cost of providing a loaner vehicle to any customer who is having a vehicle serviced at the motor vehicle dealer, if a loaner is required by the applicant or licensee, or a loaner is expressly part of an applicant or licensee's customer satisfaction index or computation.*

(30) *The applicant or licensee has conducted or threatened to conduct any audit of a motor vehicle dealer in order to coerce or attempt to coerce the dealer to forego any rights granted to the dealer under ss. 320.60-320.70 or under the agreement between the licensee and the motor vehicle dealer. Nothing in this section shall prohibit an applicant or licensee from reasonably and periodically auditing a dealer to determine the validity of paid claims.*

(31) *From and after the effective date of enactment of this provision, the applicant or licensee has offered to any motor vehicle dealer a franchise agreement that:*

(a) *Requires that a motor vehicle dealer bring an administrative or legal action in a venue outside of this state, or*

(b) *Requires that any arbitration, mediation, or other legal proceeding be conducted outside of this state, or*

(c) *Requires that a law of a state other than Florida be applied to any legal proceeding between a motor vehicle dealer and a licensee.*

(32) *Notwithstanding the terms of any franchise agreement, the applicant or licensee has rejected or withheld approval of any proposed transfer in violation of s. 320.643 or a proposed change of executive management in violation of s. 320.644.*

Section 22. Section 320.641, Florida Statutes, is amended and a new subsection (8) is added to read:

320.641 *Discontinuations, cancellations, nonrenewals, modifications, and replacement* ~~Unfair cancellation~~ of franchise agreements.—

(1)(a) An applicant or licensee shall give written notice to the motor vehicle dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew a franchise agreement or of the licensee's intention to modify a franchise or replace a franchise with a succeeding franchise, which modification or replacement will adversely alter the rights or obligations of a motor vehicle dealer under an existing franchise agreement or will substantially impair the sales, service obligations, or investment of the motor vehicle dealer, at least 90 days before the effective date thereof, together with the specific grounds for such action.

(b) The failure by the licensee to comply with the 90-day notice period and procedure prescribed herein shall render voidable, at the option of the motor vehicle dealer, any discontinuation, cancellation, nonrenewal, modification, or replacement of any franchise agreement. Designation of a franchise agreement at a specific location as a "nondesignated point" shall be deemed an evasion of this section and constitutes an unfair cancellation.

(2) Franchise agreements are deemed to be continuing unless the applicant or licensee has notified the department of the discontinuation of, cancellation of, failure to renew, modification of, or replacement of the agreement of any of its motor vehicle dealers; and annual renewal of the license provided for under ss. 320.60-320.70 is not necessary for any cause of action against the licensee.

(3) Any motor vehicle dealer who receives a notice of intent to discontinue, cancel, not renew, modify, or replace ~~whose franchise agreement is discontinued, canceled, not renewed, modified, or replaced~~ may, within the 90-day notice period, file a petition or complaint for a

determination of whether such action is an unfair or prohibited discontinuation, cancellation, nonrenewal, modification, or replacement. Agreements and certificates of appointment shall continue in effect until final determination of the issues raised in such petition or complaint by the motor vehicle dealer. A discontinuation, cancellation, or nonrenewal of a franchise agreement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; is not undertaken for good cause; or is based on an alleged breach of the franchise agreement which is not in fact a material and substantial breach; or, if the grounds relied upon for termination, cancellation, or nonrenewal have not been applied in a uniform and consistent manner by the licensee. A modification or replacement is unfair if it is not clearly permitted by the franchise agreement; is not undertaken in good faith; or is not undertaken for good cause. The applicant or licensee shall have burden of proof that such action is fair and not prohibited.

(4) Notwithstanding any other provision of this section, the failure of a motor vehicle dealer to be engaged in business with the public for 10 consecutive business days constitutes abandonment by the dealer of his or her franchise agreement. If any motor vehicle dealer abandons his or her franchise agreement, he or she has no cause of action under this section. For the purpose of this section, a dealer shall be considered to be engaged in business with the public if a sales and service facility is open and is performing such services 8 hours a day, 5 days a week, excluding holidays. However, it will not be considered abandonment if such failure to engage in business is due to an act of God, a work stoppage, or a delay due to a strike or labor difficulty, a freight embargo, or other cause over which the motor vehicle dealer has no control, including any violation of ss. 320.60-320.70.

(5) Notwithstanding any other provision of this section, if a motor vehicle dealer has abandoned his or her franchise agreement as provided in subsection (4), the licensee may give written notice to the dealer and the department of the licensee's intention to discontinue, cancel, or fail to renew the franchise agreement with the dealer at least 15 days before the effective date thereof, specifying the grounds for such action. A motor vehicle dealer receiving such notice may file a petition or complaint for determination of whether in fact there has been an abandonment of the franchise.

(6) If the complainant motor vehicle dealer prevails, he or she shall have a cause of action against the licensee for reasonable attorneys' fees and costs incurred by him or her in such proceeding, and he or she shall have a cause of action under s. 320.697.

(7) Except as provided in s. 320.643, no replacement motor vehicle dealer shall be named for this point or location to engage in business *and the franchise agreement shall remain in effect until a final judgment is entered after all appeals are exhausted, provided that, when a motor vehicle dealer appeals a decision upholding a discontinuation, cancellation, or nonrenewal based upon abandonment or revocation of the dealer's license pursuant to s. 320.27, as lawful reasons for such discontinuation, cancellation, or nonrenewal, the franchise agreement shall remain in effect pending exhaustion of all appeals only if the motor vehicle dealer establishes a likelihood of success on appeal and that the public interest will not be harmed by keeping the franchise agreement in effect pending entry of final judgment after such appeal.* ~~prior to the final adjudication by the department on the petition or complaint and the exhaustion of all appellate remedies by the canceled or discontinued dealer, if a stay is issued by either the department or an appellate court.~~

(8) *If a transfer is proposed pursuant to s. 320.643(1) or (2) after a notice of intent to discontinue, cancel, or not renew a franchise agreement is received but, prior to the final determination, including exhaustion of all appellate remedies of a motor vehicle dealer's complaint or petition contesting such action, the termination proceedings shall be stayed, without bond, during the period that the transfer is being reviewed by the licensee pursuant to s. 320.643.; During the period that the transfer is being reviewed by the licensee, pursuant to s. 320.643, the franchise agreement shall remain in full force and effect, and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer until such time as the licensee has accepted or rejected the proposed transfer. If the proposed transfer is rejected, the motor*

vehicle dealer shall retain all of its rights pursuant to s. 320.643 to an administrative determination as to whether the licensee's rejection is in compliance with the provisions of s. 320.643, and during the pendency of any such administrative proceedings, and any related appellate proceedings, the termination proceedings shall remain stayed without bond, the franchise agreement shall remain in full force and effect and the motor vehicle dealer shall retain all rights and remedies pursuant to the terms and conditions of the franchise agreement and applicable law, including all rights of transfer. If a transfer is approved by the licensee or mandated by law, the termination proceedings shall be dismissed with prejudice as moot. The subsection (8) applies only to the first two proposed transfers pursuant to s. 320.643(1) or (2) after notice of intent to discontinue, cancel, or not renew is received.

Section 23. Section 320.643, Florida Statutes, is amended to read:

320.643 Transfer, assignment, or sale of franchise agreements.—

(1) A motor vehicle dealer shall not transfer, assign, or sell a franchise agreement to another person unless the dealer first notifies the licensee of the dealer's decision to make such transfer, by written notice setting forth the prospective transferee's name, address, financial qualification, and business experience during the previous 5 years. The licensee shall, in writing, within 60 days after receipt of such notice, inform the dealer either of the licensee's approval of the transfer, assignment, or sale or of the unacceptability of the proposed transferee, setting forth the material reasons for the rejection. If the licensee does not so inform the dealer within the 60-day period, its approval of the proposed transfer is deemed granted. No such transfer, assignment, or sale will be valid unless the transferee agrees in writing to comply with all requirements of the franchise then in effect. ~~Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld.~~ For the purposes of this section, the refusal by the licensee to accept a proposed transferee who is of good moral character and who otherwise meets the written, reasonable, and uniformly applied standards or qualifications, if any, of the licensee relating to *financial qualifications of the transferee and the business experience of the transferee or the transferee's executive management required by the licensee of its motor vehicle dealers* is presumed to be unreasonable. A motor vehicle dealer whose proposed sale is rejected licensee who receives such notice may, within 60 days following such receipt of such rejection, file with the department a verified complaint for a determination that the proposed transferee has been rejected in violation of is not a person qualified to be a transferee under this section. The licensee has the burden of proof with respect to all issues raised by such verified complaint. The department shall determine, and enter an order providing, that the proposed transferee is either qualified or is not and cannot be qualified for specified reasons, or the order may provide the conditions under which a proposed transferee would be qualified. If the licensee fails to file such a response to the motor vehicle dealer's verified complaint within 30 such 60-days after receipt of the complaint, unless the parties agree in writing to an extension, period or if the department, after a hearing, dismisses the complaint or renders a decision other than one disqualifying the proposed transferee, the franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such transfer or amended in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.

(2)(a) Notwithstanding the terms of any franchise agreement, a licensee shall not, by contract or otherwise, fail or refuse to give effect to, prevent, prohibit, or penalize, or attempt to refuse to give effect to, prevent, prohibit, or penalize, any motor vehicle dealer or any proprietor, partner, stockholder, owner, or other person who holds or otherwise owns an interest therein from selling, assigning, transferring, alienating, or otherwise disposing of, in whole or in part, the equity interest of any of them in such motor vehicle dealer to any other person or persons, including a corporation established or existing for the purpose of owning or holding the stock or ownership interests of other entities, unless the licensee proves at a hearing pursuant to this section that such sale, transfer, alienation, or other disposition is to a person who is not, or whose controlling executive management is not, of good moral character. A motor vehicle dealer, or any proprietor, partner,

stockholder, owner, or other person who holds or otherwise owns an interest in the motor vehicle dealer, who desires to sell, assign, transfer, alienate, or otherwise dispose of any interest in such motor vehicle dealer shall notify, or cause the proposed transferee to so notify, the licensee, in writing, of the identity and address of the proposed transferee. A licensee who receives such notice may, within 60 days following such receipt, notify the motor vehicle dealer in writing file with the department a verified complaint for a determination that the proposed transferee is not a person qualified to be a transferee under this section and setting forth the material reasons for such rejection. Failure of the licensee to notify the motor vehicle dealer within the 60-day period of such rejection shall be deemed an approval of the transfer. Any person whose proposed sale of stock is rejected may file within 60 days of receipt of such rejection a complaint with the Department alleging that the rejection was in violation of the law or the franchise agreement. The licensee has the burden of proof with respect to all issues raised by such verified complaint. The department shall determine, and enter an order providing, that the proposed transferee either is qualified or is not and cannot be qualified for specified reasons; or the order may provide the conditions under which a proposed transferee would be qualified. If the licensee fails to file a response to the motor vehicle dealer's complaint within 30 days of receipt of the complaint, unless the parties agree in writing to an extension, or if the licensee fails to file such verified complaint within such 60 day period or if the department, after a hearing, dismisses the complaint or renders a decision on the complaint other than one disqualifying the proposed transferee, the transfer shall be deemed approved franchise agreement between the motor vehicle dealer and the licensee shall be deemed amended to incorporate such transfer or amended in accordance with the determination and order rendered, effective upon compliance by the proposed transferee with any conditions set forth in the determination or order.

(b) During the pendency of any such hearing, the franchise agreement of the motor vehicle dealer shall continue in effect in accordance with its terms. The department shall expedite any determination requested under this section.

(3) Notwithstanding the terms of any franchise agreement, the acceptance by the licensee of the proposed transferee shall not be unreasonably withheld. For the purposes of this section, the refusal by the licensee to accept a proposed transferee who satisfies the criteria set forth in subsection (1) or (2) is presumed to be unreasonable.

Section 24. Section 320.645, Florida Statutes, is amended to read:

320.645 Restriction upon ownership of dealership by licensee.—

(1) No licensee, including a distributor, manufacturer, or agent of a manufacturer or distributor, or any parent, subsidiary, common entity, or officer or representative of the licensee shall own or operate, either directly or indirectly, a motor vehicle dealership in this state for the sale or service of motor vehicles which have been or are offered for sale under a franchise agreement with a motor vehicle dealer in this state. A licensee may not be issued a motor vehicle dealer license pursuant to s. 320.27. However, no such licensee will be deemed to be in violation of this section:

(a) When operating a motor vehicle dealership for a temporary period, not to exceed 1 year, during the transition from one owner of the motor vehicle dealership to another;

(b) When operating a motor vehicle dealership temporarily for a reasonable period for the exclusive purpose of broadening the diversity of its dealer body and enhancing opportunities for qualified persons who are part of a group that has historically been underrepresented in its dealer body, or for other qualified persons who the licensee deems lack the resources to purchase or capitalize the dealership outright, not to exceed 1 year, or in a bona fide relationship with an independent person, other than a licensee or its agent or affiliate, who has made a significant investment that is subject to loss in the dealership within the dealership's first year of operation and who can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions; or

(c) If the department determines, after a hearing on the matter, pursuant to chapter 120, at the request of any person, that there is no

independent person available in the community or territory to own and operate the motor vehicle dealership in a manner consistent with the public interest.

In any such case, the licensee must continue to make the motor vehicle dealership available for sale to an independent person at a fair and reasonable price. Approval of the sale of such a motor vehicle dealership to a proposed motor vehicle dealer shall not be unreasonably withheld.

(2) *As used in this section, the term:*

(a) *“Independent person” is a person who is not an officer, director, or employee of the licensee.*

The terms and conditions are not reasonable if they preclude the independent person from an expedited purchase of the dealership using a monetary source other than profits from the dealership’s operation; provided, however, that the independent person must pay or make an agreement to pay to the licensee any and all reasonable prepayment charges and costs, including all unrecouped restored losses, associated with the expedited purchase of the dealership. For the purpose of this section, unrecouped restored losses are monies that the manufacturer has provided to the dealership to restore losses of the dealership that the manufacturer has not been paid back through profits of the dealership.*

(c) *“Significant investment” means a reasonable amount, considering the reasonable capital requirements of the dealership, acquired and obtained from sources other than the licensee or any of its affiliates and not encumbered by the person’s interest in the dealership.*

As to previously owned vehicles, warranty repairs can be performed only if pursuant to a motor vehicle service agreement as defined in chapter 634, part I, issued by such person or an express warranty issued by such person on the retail sale of those vehicles previously owned; and*

3. *Motor vehicle financing provided by such person to retail consumers for motor vehicles is limited to used motor vehicles sold by such person in the conduct of its business; or*

(4) *Nothing in this section shall prohibit a licensee-distributor as defined in section 320.60(5) that is not a manufacturer, a division of a manufacturer, an entity that is controlled by a manufacturer, or a common entity of a manufacturer, and that is not owned, in whole or in part, directly or indirectly, by a manufacturer, as defined in section 320.60(9), and that has owned and operated a motor vehicle dealer in this state on or before July 1, 1996, other than a motor vehicle dealer permitted by section 320.645(1)(b), from receiving a license as defined in*

section 320.27 while owning and operating a motor vehicle dealership that sells or services motor vehicles other than any line-make of motor vehicles distributed by the licensee-distributor.

~~(2) This section shall not be construed to prohibit any licensee from owning or operating a motor vehicle dealership in this state if such dealership was owned or operated by the licensee on May 31, 1984.~~

Section 34. Subsections (5) and (7) of section 681.1097, Florida Statutes, are amended to read:

681.1097 Pilot RV Mediation and Arbitration Program; dispute eligibility and program function.—

(5) If the mediation ends in an impasse, or if a manufacturer fails to comply with the settlement entered into between the parties, the program administrator shall schedule the dispute for an arbitration hearing. Arbitration proceedings shall be open to the public on reasonable and nondiscriminatory terms.

(a) The arbitration hearing shall be conducted by a single arbitrator assigned by the program administrator. The arbitrator shall not be the same person as the mediator who conducted the prior mediation conference in the dispute. The program administrator shall consider any such objection, determine its validity, and notify the parties of any determination. If the objection is determined valid, the program administrator shall assign another arbitrator to the case.

Subpoenas so issued shall be served and, upon application to the court by a party to the arbitration, enforced in the manner provided by law for the service and enforcement of subpoenas in civil actions. (e) Where the arbitration is the result of a manufacturer's failure to perform in accordance with a ~~settlement~~ ~~mediation~~ agreement, any relief to the consumer granted by the arbitration will be no less than the relief agreed to by the manufacturer in the settlement agreement.

(f) The arbitrator shall grant relief if a reasonable number of attempts have been undertaken to correct a nonconformity or nonconformities.

(g) The program arbitrator shall render a decision within 10 days of the closing of the hearing. The decision shall be in writing on a form prescribed or approved by the department. The program administrator shall send a copy of the decision to the consumer and each involved manufacturer by registered mail. The program administrator shall also send a copy of the decision to the department within 5 days of mailing to the parties.

(h) A manufacturer shall comply with an arbitration decision within 40 days of the date the manufacturer receives the written decision. Compliance occurs on the date the consumer receives delivery of an acceptable replacement motor vehicle or the refund specified in the arbitration award. If a manufacturer fails to comply within the time required, the consumer must notify the program administrator in writing within 10 days. The program administrator shall notify the department of a manufacturer's failure to comply. The department shall have the authority to enforce compliance with arbitration decisions under this section in the same manner as is provided for enforcement of compliance with board decisions under s. 681.1095(10). In any civil

action arising under this chapter and relating to a dispute arbitrated pursuant to this section, the decision of the arbitrator is admissible in evidence.

(i) *Either party may request that the program arbitrator make a technical correction to the decision by filing a written request with the program administrator within 10 days after receipt of the written decision. Technical corrections shall be limited to computational errors, correction of a party's name or information regarding the recreational vehicle, and typographical or spelling errors. Technical correction of a decision shall not toll the time for filing an appeal or for manufacturer compliance.*

~~(7) A decision of the arbitrator is binding unless appealed by either party by filing a petition with the circuit court within the time and in the manner prescribed by s. 681.1095(10) and (12). Section 681.1095(13) and (14) apply to appeals filed under this section. Either party may make application to the circuit court for the county in which one of the parties resides or has a place of business or, if neither party resides or has a place of business in this state, the county where the arbitration hearing was held, for an order confirming, vacating, modifying, or correcting any award, in accordance with the provisions of this section and ss. 682.12, 682.13, 682.14, 682.15, and 682.17. Such application must be filed within 30 days of the moving party's receipt of the written decision or the decision becomes final. Upon filing such application, the moving party shall mail a copy to the department and, upon entry of any judgment or decree, shall mail a copy of such judgment or decree to the department. A review of such application by the circuit court shall be confined to the record of the proceedings before the program arbitrator. The court shall conduct a de novo review of the questions of law raised in the application. In addition to the grounds set forth in ss. 682.13 and 682.14, the court shall consider questions of fact raised in the application. In reviewing questions of fact, the court shall uphold the award unless it determines that the factual findings of the arbitrator are not supported by substantial evidence in the record and that the substantial rights of the moving party have been prejudiced. If the arbitrator fails to state findings or reasons for the stated award, or the findings or reasons are inadequate, the court shall search the record to determine whether a basis exists to uphold the award. The court shall expedite consideration of any application filed under this section on the calendar.~~

~~(a) If a decision of a program arbitrator in favor of a consumer is confirmed by the court, recovery by the consumer shall include the pecuniary value of the award, attorney's fees incurred in obtaining confirmation of the award, and all costs and continuing damages in the amount of \$25 per day for each day beyond the 40-day period following a manufacturer's receipt of the arbitrator's decision. If a court determines the manufacturer acted in bad faith in bringing the appeal or brought the appeal solely for the purpose of harassment, or in complete absence of a justiciable issue of law or fact, the court shall double, and may triple, the amount of the total award.~~

~~(b) An appeal of a judgment or order by the court confirming, denying confirmation, modifying or correcting, or vacating the award may be taken in the manner and to the same extent as from orders or judgments in a civil action.~~

Section 35. Section 681.115, Florida Statutes, is amended to read:

681.115 Certain agreements void.—Any agreement entered into by a consumer that waives, limits, or disclaims the rights set forth in this chapter, or that requires a consumer not to disclose the terms of such agreement as a condition thereof, is void as contrary to public policy. The rights set forth in this chapter shall extend to a subsequent transferee of such motor vehicle.

Section 36. Subsections (4) and (6) of section 713.78, Florida Statutes, are amended to read:

713.78 Liens for recovering, towing, or storing vehicles and documented vessels.—

(4)(a) Any person regularly engaged in the business of recovering, towing, or storing vehicles or vessels who comes into possession of a

vehicle or vessel pursuant to subsection (2), and who claims a lien for recovery, towing, or storage services, shall give notice to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and to all persons claiming a lien thereon, as disclosed by the records in the Department of Highway Safety and Motor Vehicles or of a corresponding agency in any other state.

~~(b) Whenever any law enforcement agency authorizes the removal of a vehicle or whenever any towing service, garage, repair shop, or automotive service, storage, or parking place notifies the law enforcement agency of possession of a vehicle pursuant to s. 715.07(2)(a)2., the applicable law enforcement agency shall contact the Department of Highway Safety and Motor Vehicles, or the appropriate agency of the state of registration, if known, within 24 hours through the medium of electronic communications, giving the full description of the vehicle. Upon receipt of the full description of the vehicle, the department shall search its files to determine the owner's name, the insurance company insuring the vehicle, and whether any person has filed a lien upon the vehicle as provided in s. 319.27(2) and (3) and notify the applicable law enforcement agency within 72 hours. The person in charge of the towing service, garage, repair shop, or automotive service, storage, or parking place shall obtain such information from the applicable law enforcement agency within 5 days from the date of storage and shall give notice pursuant to paragraph (a). The department may release the insurance company information to the requestor notwithstanding the provisions of s. 627.736.~~

~~(c)(b) Notice by certified mail, return receipt requested, shall be sent within 7 business days after the date of storage of the vehicle or vessel to the registered owner, the insurance company insuring the vehicle notwithstanding the provisions of s. 627.736, and to all persons of record claiming a lien against the vehicle or vessel. It shall state the fact of possession of the vehicle or vessel, that a lien as provided in subsection (2) is claimed, that charges have accrued and the amount thereof, that the lien is subject to enforcement pursuant to law, and that the owner or lienholder, if any, has the right to a hearing as set forth in subsection (5), and that any vehicle or vessel which remains unclaimed, or for which the charges for recovery, towing, or storage services remain unpaid, may be sold after 35 days free of all prior liens after 35 days if the vehicle or vessel is more than 3 years of age and after 50 days if the vehicle or vessel is 3 years of age or less.~~

~~(d)(e) If attempts to locate the owner or lienholder prove unsuccessful, the towing-storage operator shall, after 7 working days, excluding Saturday and Sunday, of the initial tow or storage, notify the public agency of jurisdiction in writing by certified mail or acknowledged hand delivery that the towing-storage company has been unable to locate the owner or lienholder and a physical search of the vehicle or vessel has disclosed no ownership information and a good faith effort has been made. For purposes of this paragraph and, subsection (9), and s. 715.05, "good faith effort" means that the following checks have been performed by the company to establish prior state of registration and for title:~~

1. Check of vehicle or vessel for any type of tag, tag record, temporary tag, or regular tag.

2. Check of law enforcement report for tag number or other information identifying the vehicle or vessel, if the vehicle or vessel was towed at the request of a law enforcement officer.

3. Check of trip sheet or tow ticket of tow truck operator to see if a tag was on vehicle at beginning of tow, if private tow.

4. If there is no address of the owner on the impound report, check of law enforcement report to see if an out-of-state address is indicated from driver license information.

5. Check of vehicle or vessel for inspection sticker or other stickers and decals that may indicate a state of possible registration.

6. Check of the interior of the vehicle or vessel for any papers that may be in the glove box, trunk, or other areas for a state of registration.

7. Check of vehicle for vehicle identification number.

8. Check of vessel for vessel registration number.

9. Check of vessel hull for a hull identification number which should be carved, burned, stamped, embossed, or otherwise permanently affixed to the outboard side of the transom or, if there is no transom, to the outmost seaboard side at the end of the hull that bears the rudder or other steering mechanism.

(6) Any vehicle or vessel which is stored pursuant to subsection (2) and which remains unclaimed, or for which reasonable charges for recovery, towing, or storing remain unpaid or for which a lot rental amount is due and owing to the mobile home park owner, as evidenced by a judgment for unpaid rent, and any contents not released pursuant to subsection (10), may be sold by the owner or operator of the storage space for such towing or storage charge or unpaid lot rental amount after 35 days from the time the vehicle or vessel is stored therein *if the vehicle or vessel is more than 3 years of age and after 50 days from the time the vehicle or vessel is stored therein if the vehicle or vessel is 3 years of age or less*. The sale shall be at public auction for cash. If the date of the sale was not included in the notice required in subsection (4), notice of the sale shall be given to the person in whose name the vehicle, vessel, or mobile home is registered, to the mobile home park owner, and to all persons claiming a lien on the vehicle or vessel as shown on the records of the Department of Highway Safety and Motor Vehicles or of the corresponding agency in any other state. Notice shall be sent by certified mail, return receipt requested, to the owner of the vehicle or vessel and the person having the recorded lien on the vehicle or vessel at the address shown on the records of the registering agency and shall be mailed not less than 15 days before the date of the sale. After diligent search and inquiry, if the name and address of the registered owner or the owner of the recorded lien cannot be ascertained, the requirements of notice by mail may be dispensed with. In addition to the notice by mail, public notice of the time and place of sale shall be made by publishing a notice thereof one time, at least 10 days prior to the date of the sale, in a newspaper of general circulation in the county in which the sale is to be held. The proceeds of the sale, after payment of reasonable towing and storage charges, costs of the sale, and the unpaid lot rental amount, in that order of priority, shall be deposited with the clerk of the circuit court for the county if the owner is absent, and the clerk shall hold such proceeds subject to the claim of the person legally entitled thereto. The clerk shall be entitled to receive 5 percent of such proceeds for the care and disbursement thereof. The certificate of title issued under this law shall be discharged of all liens unless otherwise provided by court order.

Section 37. *Section 715.05, Florida Statutes, is repealed.*

Section 38. Subsection (10) of section 212.08, Florida Statutes, is amended to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(10) PARTIAL EXEMPTION; MOTOR VEHICLE SOLD TO RESIDENT OF ANOTHER STATE.—The tax collected on the sale of a new or used motor vehicle in this state to a resident of another state shall be an amount equal to the sales tax which would be imposed on such sale under the laws of the state of which the purchaser is a resident, except that such tax shall not exceed the tax that would otherwise be imposed under this chapter. At the time of the sale, the purchaser shall execute a notarized statement of his or her intent to license the vehicle in the state of which the purchaser is a resident within 45 days of the sale and of the fact of the payment to the State of Florida of a sales tax in an amount equivalent to the sales tax of his or her state of residence and shall submit the statement to the appropriate sales tax collection agency in his or her state of residence. Nothing in this subsection shall be construed to require the removal of the vehicle from this state following the filing of an intent to license the vehicle in the purchaser's home state if the purchaser licenses the vehicle in his or her home state within 45 days after the date of sale. *Nothing herein shall require the payment of tax to the State of Florida for assessments*

made prior to July 1, 2001, if the tax imposed by this section has been paid to the state in which the vehicle was licensed and the department has assessed a like amount of tax on the same transactions. This provision shall apply retroactively to assessments that have been protested prior to August 1, 1999, and have not been paid on the date this act takes effect.

Section 39. Subsection (1) of section 320.01, Florida Statutes, is amended to read:

320.01 Definitions, general.—As used in the Florida Statutes, except as otherwise provided, the term:

(1) "Motor vehicle" means:

(a) An automobile, motorcycle, truck, trailer, semitrailer, truck tractor and semitrailer combination, or any other vehicle operated on the roads of this state, used to transport persons or property, and propelled by power other than muscular power, but the term does not include traction engines, road rollers, such vehicles as run only upon a track, bicycles, or mopeds.

(b) A recreational vehicle-type unit primarily designed as temporary living quarters for recreational, camping, or travel use, which either has its own motive power or is mounted on or drawn by another vehicle. Recreational vehicle-type units, when traveling on the public roadways of this state, must comply with the length and width provisions of s. 316.515, as that section may hereafter be amended. As defined below, the basic entities are:

1. The "travel trailer," which is a vehicular portable unit, mounted on wheels, of such a size or weight as not to require special highway movement permits when drawn by a motorized vehicle. It is primarily designed and constructed to provide temporary living quarters for recreational, camping, or travel use. It has a body width of no more than 8½ feet and an overall body length of no more than 40 feet when factory-equipped for the road.

2. The "camping trailer," which is a vehicular portable unit mounted on wheels and constructed with collapsible partial sidewalls which fold for towing by another vehicle and unfold at the campsite to provide temporary living quarters for recreational, camping, or travel use.

3. The "truck camper," which is a truck equipped with a portable unit designed to be loaded onto, or affixed to, the bed or chassis of the truck and constructed to provide temporary living quarters for recreational, camping, or travel use.

4. The "motor home," which is a vehicular unit which does not exceed ~~the 40 feet in length, and the height, and the width~~ limitations provided in s. 316.515, is a self-propelled motor vehicle, and is primarily designed to provide temporary living quarters for recreational, camping, or travel use.

5. The "private motor coach," which is a vehicular unit which does not exceed the length, width, and height limitations provided in s. 316.515(9), is built on a self-propelled bus type chassis having no fewer than three load-bearing axles, and is primarily designed to provide temporary living quarters for recreational, camping, or travel use.

6. The "van conversion," which is a vehicular unit which does not exceed the length and width limitations provided in s. 316.515, is built on a self-propelled motor vehicle chassis, and is designed for recreation, camping, and travel use.

7. The "park trailer," which is a transportable unit which has a body width not exceeding 14 feet and which is built on a single chassis and is designed to provide seasonal or temporary living quarters when connected to utilities necessary for operation of installed fixtures and appliances. The total area of the unit in a setup mode, when measured from the exterior surface of the exterior stud walls at the level of maximum dimensions, not including any bay window, does not exceed 400 square feet when constructed to ANSI A-119.5 standards, and 500 square feet when constructed to United States Department of Housing and Urban Development Standards. The length of a park trailer means the distance from the exterior of the front of the body (nearest to the

drawbar and coupling mechanism) to the exterior of the rear of the body (at the opposite end of the body), including any protrusions.

8. The “fifth-wheel trailer,” which is a vehicular unit mounted on wheels, designed to provide temporary living quarters for recreational, camping, or travel use, of such size or weight as not to require a special highway movement permit, of gross trailer area not to exceed 400 square feet in the setup mode, and designed to be towed by a motorized vehicle that contains a towing mechanism that is mounted above or forward of the tow vehicle’s rear axle.

Section 40. Paragraph (c) of subsection (1) of section 320.27, Florida Statutes, is amended, paragraph (f) is added to said subsection, and subsections (7) and (9) of said section are amended, to read:

320.27 Motor vehicle dealers.—

(1) **DEFINITIONS.**—The following words, terms, and phrases when used in this section have the meanings respectively ascribed to them in this subsection, except where the context clearly indicates a different meaning:

(c) “Motor vehicle dealer” means any person engaged in the business of buying, selling, or dealing in motor vehicles or offering or displaying motor vehicles for sale at wholesale or retail, or who may service and repair motor vehicles pursuant to an agreement as defined in s. 320.60(1). Any person who buys, sells, or deals in three or more motor vehicles in any 12-month period or who offers or displays for sale three or more motor vehicles in any 12-month period shall be prima facie presumed to be engaged in such business. The terms “selling” and “sale” include lease-purchase transactions. A motor vehicle dealer may, at retail or wholesale, sell a recreational vehicle as described in s. 320.01(1)(b)1.-6. and 8., acquired in exchange for the sale of a motor vehicle, provided such acquisition is incidental to the principal business of being a motor vehicle dealer. However, a motor vehicle dealer may not buy a recreational vehicle for the purpose of resale unless licensed as a recreational vehicle dealer pursuant to s. 320.771. A motor vehicle dealer may apply for a certificate of title to a motor vehicle required to be registered under s. 320.08(2)(b), (c), and (d), using a manufacturer’s statement of origin as permitted by s. 319.23(1), only if such dealer is authorized by a franchised agreement as defined in s. 320.60(1), to buy, sell, or deal in such vehicle and is authorized by such agreement to perform delivery and preparation obligations and warranty defect adjustments on the motor vehicle; provided this limitation shall not apply to recreational vehicles, van conversions, or any other motor vehicle manufactured on a truck chassis. The transfer of a motor vehicle by a dealer not meeting these qualifications shall be titled as a used vehicle. The classifications of motor vehicle dealers are defined as follows:

1. “Franchised motor vehicle dealer” means any person who engages in the business of repairing, servicing, buying, selling, or dealing in motor vehicles pursuant to an agreement as defined in s. 320.60(1).

2. “Independent motor vehicle dealer” means any person other than a franchised or wholesale motor vehicle dealer who engages in the business of buying, selling, or dealing in motor vehicles, and who may service and repair motor vehicles.

3. “Wholesale motor vehicle dealer” means any person who engages exclusively in the business of buying, selling, or dealing in motor vehicles at wholesale or with motor vehicle auctions. Such person shall be licensed to do business in this state, shall not sell or auction a vehicle to any person who is not a licensed dealer, and shall not have the privilege of the use of dealer license plates. Any person who buys, sells, or deals in motor vehicles at wholesale or with motor vehicle auctions on behalf of a licensed motor vehicle dealer and as a bona fide employee of such licensed motor vehicle dealer is not required to be licensed as a wholesale motor vehicle dealer. In such cases it shall be prima facie presumed that a bona fide employer-employee relationship exists. A wholesale motor vehicle dealer shall be exempt from the display provisions of this section but shall maintain an office wherein records are kept in order that those records may be inspected.

4. “Motor vehicle auction” means any person offering motor vehicles or recreational vehicles for sale to the highest bidder where ~~both sellers~~

~~and~~ buyers are licensed motor vehicle dealers. Such person shall not sell a vehicle to anyone other than a licensed motor vehicle dealer.

5. “Salvage motor vehicle dealer” means any person who engages in the business of acquiring salvaged or wrecked motor vehicles for the purpose of reselling them and their parts.

The term “motor vehicle dealer” does not include persons not engaged in the purchase or sale of motor vehicles as a business who are disposing of vehicles acquired for their own use or for use in their business or acquired by foreclosure or by operation of law, provided such vehicles are acquired and sold in good faith and not for the purpose of avoiding the provisions of this law; persons engaged in the business of manufacturing, selling, or offering or displaying for sale at wholesale or retail no more than 25 trailers in a 12-month period; public officers while performing their official duties; receivers; trustees, administrators, executors, guardians, or other persons appointed by, or acting under the judgment or order of, any court; banks, finance companies, or other loan agencies that acquire motor vehicles as an incident to their regular business; motor vehicle brokers; and motor vehicle rental and leasing companies that sell motor vehicles to motor vehicle dealers licensed under this section. Vehicles owned under circumstances described in this paragraph may be disposed of at retail, wholesale, or auction, unless otherwise restricted. A manufacturer of fire trucks, ambulances, or school buses may sell such vehicles directly to governmental agencies or to persons who contract to perform or provide firefighting, ambulance, or school transportation services exclusively to governmental agencies without processing such sales through dealers if such fire trucks, ambulances, school buses, or similar vehicles are not presently available through motor vehicle dealers licensed by the department.

(f) “*Bona fide employee*” means a person who is employed by a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form W-2, or an independent contractor who has a written contract with a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form 1099, for the purpose of acting in the capacity of or conducting motor vehicle sales transactions as a motor vehicle dealer.

(7) **CERTIFICATE OF TITLE REQUIRED.**—For each used motor vehicle in the possession of a licensee and offered for sale by him or her, the licensee either shall have in his or her possession *or control* a duly assigned certificate of title from the owner in accordance with the provisions of chapter 319, from the time when the motor vehicle is delivered to the licensee and offered for sale by him or her until it has been disposed of by the licensee, or shall have reasonable indicia of ownership or right of possession, or shall have made proper application for a certificate of title or duplicate certificate of title in accordance with the provisions of chapter 319. A motor vehicle dealer may not sell or offer for sale a vehicle in his or her possession unless the dealer satisfies the requirements of this subsection. Reasonable indicia of ownership shall include a duly assigned certificate of title; in the case of a new motor vehicle, a manufacturer’s certificate of origin issued to or reassigned to the dealer; a consignment contract between the owner and the dealer along with a secure power of attorney from the owner to the dealer authorizing the dealer to apply for a duplicate certificate of title and assign the title on behalf of the owner; a court order awarding title to the vehicle to the dealer; a salvage certificate of title; a photocopy of a duly assigned certificate of title being held by a financial institution as collateral for a business loan of money to the dealer (“floor plan”); a copy of a canceled check or other documentation evidencing that an outstanding lien on a vehicle taken in trade by a licensed dealer has been satisfied and that the certificate of title will be, but has not yet been, received by the dealer; a vehicle purchase order or installment contract for a specific vehicle identifying that vehicle as a trade-in on a replacement vehicle; or a duly executed odometer disclosure statement as required by Title IV of the Motor Vehicle Information and Cost Savings Act of 1972 (Pub. L. No. 92-513, as amended by Pub. L. No. 94-364 and Pub. L. No. 100-561) and by 49 C.F.R. part 580 bearing the signatures of the titled owners of a traded-in vehicle.

Section 41. This act shall take effect upon becoming a law.

and insert in lieu thereof:

Section 3. (1) *All information contained in the Paternity Registry created by section 63.165, Florida Statutes, is exempt from public disclosure pursuant to section 119.07(1), Florida Statutes, and Section 24(a) of Article I of the State Constitution, except that certificates attesting to the results of a search of the Paternity Registry pursuant to section 63.165(8), Florida Statutes, may be disclosed as provided in section 63.165(8), Florida Statutes. This section is subject to the Open Government Sunset Review Act of 1995 in accordance with section 119.15, Florida Statutes, and shall stand repealed on October 2, 2006, unless reviewed and saved from repeal through reenactment by the Legislature.*

(2) This section shall take effect on the same date that Committee Substitute for House Bill 415 or similar legislation takes effect if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

Section 4. (1) *The Legislature finds that it is a public necessity to exempt from disclosure pursuant to section 119.07(1), Florida Statutes, and Section 24 of Article I of the State Constitution all information contained in the Paternity Registry created by section 63.165, Florida Statutes. The Legislature finds that it is good public policy to encourage putative fathers to grasp both the responsibility and the opportunity to be made legally aware of petitions and hearings to terminate their parental rights pending an adoption. The Legislature also finds that by providing legal notice to putative fathers, adoptions will be less likely to be legally disrupted. The Legislature further finds that the information required by the Paternity Registry reveals the existence of intimate sexual relations. Disclosure of this information would likely have a chilling effect on the likelihood that putative fathers will register. Therefore, the Legislature finds that any benefit that could occur from public disclosure of the information in the Paternity Registry is outweighed by the necessity to ensure the due process rights of putative fathers.*

(2) This section shall take effect on the same date that Committee Substitute for House Bill 415 or similar legislation takes effect if such legislation is adopted in the same legislative session or an extension thereof and becomes law.

Section 5. Except as otherwise provided herein, this act shall take effect July 1, 2001.

And the title is amended as follows:

On page 1, lines 10 & 11, remove from the title of the bill: all of said lines

and insert in lieu thereof: finding of public necessity; providing an exemption from public records requirements for information contained in the Paternity Registry; providing for future legislative review and repeal; providing findings of public necessity; providing for contingent effect of certain provisions; providing effective dates.

Rep. Lynn moved the adoption of the amendment.

Representative(s) Cantens offered the following:

(Amendment Bar Code: 880283)

Amendment 2 (with title amendment)—On page 1, line 13, insert:

Section 1. Paragraph (b) of subsection (1) of section 121.053, Florida Statutes, is amended to read:

121.053 Participation in the Elected Officers' Class for retired members.—

(1)

(b) Any retired member of the Florida Retirement System, or any existing system as defined in s. 121.021(2), who, on or after July 1, 1990, is serving in, or is elected or appointed to, an elective office covered by the Elected Officers' Class shall be enrolled in the appropriate subclass of the Elected Officers' Class of the Florida Retirement System, and applicable contributions shall be paid into the Florida Retirement System Trust Fund as provided in s. 121.052(7). Pursuant thereto:

1. Any such retired member shall be eligible to continue to receive retirement benefits as well as compensation for the elected officer service for as long as he or she remains in an elective office covered by the Elected Officers' Class.

2. If any such member serves in an elective office covered by the Elected Officers' Class and becomes vested under that class, he or she shall be entitled to receive an additional retirement benefit for such elected officer service.

3. Such member shall be entitled to purchase additional retirement credit in the Elected Officers' Class for any postretirement service performed in an elected position eligible for the Elected Officers' Class prior to July 1, 1990, or in the Regular Class for any postretirement service performed in any other regularly established position prior to July 1, 1991, by paying the applicable Elected Officers' Class or Regular Class employee and employer contributions for the period being claimed, plus 4 percent interest compounded annually from the first year of service claimed until July 1, 1975, and 6.5 percent interest compounded thereafter, until full payment is made to the Florida Retirement System Trust Fund. The contribution for postretirement Regular Class service between July 1, 1985, and July 1, 1991, for which the reemployed retiree contribution was paid, shall be the difference between such contribution and the total applicable contribution for the period being claimed, plus interest. The employer of such member may pay the applicable employer contribution in lieu of the member. If a member does not wish to claim credit for all of the postretirement service for which he or she is eligible, the service the member claims must be the most recent service.

4. Creditable service for which credit was received, or which remained unclaimed, at retirement may not be claimed or applied toward service credit earned following renewed membership. However,

service earned in accordance with the renewed membership provisions in s. 121.122 may be used in conjunction with creditable service earned under this paragraph, provided applicable vesting requirements and other existing statutory conditions required by this chapter are met.

5. Any elected officer who is a participating member of DROP may terminate participation at any time during the 60-month DROP participation period and elect to enroll in the appropriate subclass of the Elected Officers' Class, including participating in the Senior Management Service Class, effective the first day of the following month.

Section 2. Paragraph (b) of subsection (13) of section 121.091, Florida Statutes, is amended to read:

121.091 Benefits payable under the system.—Benefits may not be paid under this section unless the member has terminated employment as provided in s. 121.021(39)(a) or begun participation in the Deferred Retirement Option Program as provided in subsection (13), and a proper application has been filed in the manner prescribed by the department. The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(13) DEFERRED RETIREMENT OPTION PROGRAM.—In general, and subject to the provisions of this section, the Deferred Retirement Option Program, hereinafter referred to as the DROP, is a program under which an eligible member of the Florida Retirement System may elect to participate, deferring receipt of retirement benefits while continuing employment with his or her Florida Retirement System employer. The deferred monthly benefits shall accrue in the System Trust Fund on behalf of the participant, plus interest compounded monthly, for the specified period of the DROP participation, as provided in paragraph (c). Upon termination of employment, the participant shall receive the total DROP benefits and begin to receive the previously determined normal retirement benefits. Participation in the DROP does not guarantee employment for the specified period of DROP.

(b) Participation in the DROP.—

1. An eligible member may elect to participate in the DROP for a period not to exceed a maximum of 60 calendar months immediately following the date on which the member first reaches his or her normal retirement date or the date to which he or she is eligible to defer his or her election to participate as provided in subparagraph (a)2. However, a member who has reached normal retirement date prior to the effective date of the DROP shall be eligible to participate in the DROP for a period of time not to exceed 60 calendar months immediately following the effective date of the DROP, except a member of the Special Risk Class who has reached normal retirement date prior to the effective date of the DROP and whose total accrued value exceeds 75 percent of average final compensation as of his or her effective date of retirement shall be eligible to participate in the DROP for no more than 36 calendar months immediately following the effective date of the DROP.

2. Upon deciding to participate in the DROP, the member shall submit, on forms required by the division:

a. A written election to participate in the DROP;

b. An elected or a nonelected participant may run for a term of office while participating in DROP and, if elected, extend the DROP termination date accordingly, except, however, if such additional term of office exceeds the 60-month limitation established in subparagraph 1., and the officer does not resign from office within such 60-month limitation, the retirement and the participant's DROP shall be null and void as provided in sub-subparagraph (c)5.d.

c. An elected officer who is dually employed and elects to participate in DROP shall be required to satisfy the definition of termination within the 60-month limitation period as provided in subparagraph 1. for the nonelected position and may continue employment as an elected officer as provided in s. 121.053. The elected officer will be enrolled as a renewed member in the Elected Officers' Class or the Regular Class, as provided in ss. 121.053 and 121.22, on the first day of the month after termination of employment in the nonelected position and termination of DROP. Distribution of the DROP benefits shall be made as provided in paragraph (c).

d. An elected officer who is elected or appointed to an elective office is not subject to termination limitations as provided in chapter 121.

(c) On December 31, 1998, or *December 31, 2001, in the case of applicants for Program Two*, the department shall grant or deny certification as a certified capital company. If the department denies certification within the time period specified, the department shall inform the applicant of the grounds for the denial. 4. The applicant's proposed method of doing business and raising certified capital as described in its offering materials and other materials submitted to the department conforms with the requirements of this act.

(d) The department may deny certification or decertify a certified capital company if the grounds for decertification are not removed or corrected within 90 days after the notice of such grounds is received by the certified capital company. The department may deny certification or decertify a certified capital company if the certified capital company fails to maintain a net worth of at least \$500,000, or if the department determines that the applicant, or any principal or director of the certified capital company, has:

2. Made a material misrepresentation or false statement or concealed any essential or material fact from any person during the application process or with respect to information and reports required of certified capital companies under this section;

~~(e) The certified capital company shall file a copy of its certification with the office by January 31, 1999.~~

~~(e)(f)~~ Any offering material involving the sale of securities of the certified capital company shall include the following statement: "By authorizing the formation of a certified capital company, the State of Florida does not endorse the quality of management or the potential for earnings of such company and is not liable for damages or losses to a certified investor in the company. Use of the word 'certified' in an offering does not constitute a recommendation or endorsement of the investment by the State of Florida. Investments in a certified capital company prior to the time such company is certified are not eligible for premium tax credits. If applicable provisions of law are violated, the state may require forfeiture of unused premium tax credits and repayment of used premium tax credits by the certified investor."

~~(f)(g)~~ No insurance company or any affiliate of an insurance company shall, directly or indirectly, own (whether through rights, options, convertible interests, or otherwise) 15 percent or more of the equity interests of or manage or control the direction of investments of a certified capital company. This prohibition does not preclude a certified investor, insurance company, or any other party from exercising its legal rights and remedies, which may include interim management of a certified capital company, if a certified capital company is in default of its obligations under law or its contractual obligations to such certified investor, insurance company, or other party.

~~(g)(h)~~ On or before December 31 of each year, each certified capital company shall pay to the department an annual, nonrefundable renewal certification fee of \$5,000. *If a certified capital company fails to pay its renewal fee by the specified deadline, it must pay a late fee of \$5,000 in addition to the renewal fee on or by January 31 of each year in order to continue its certification in the program. ~~(h)(i)~~ The department shall administer and provide for the enforcement of certification requirements for certified capital companies as provided in this act. The department may adopt any rules necessary to carry out its duties, obligations, and powers related to certification, renewal of certification, or decertification of certified capital companies and may perform any other acts necessary for the proper administration and enforcement of such duties, obligations, and powers.

~~(i)(j)~~ Decertification of a certified capital company under this subsection does not affect the ability of certified investors in such

certified capital company from claiming future premium tax credits earned as a result of an investment in the certified capital company during the period in which it was duly certified.

(6) PREMIUM TAX CREDIT; AMOUNT; LIMITATIONS.—

(a) Any certified investor who makes an investment of certified capital shall earn a vested credit against premium tax liability equal to 100 percent of the certified capital invested by the certified investor. Certified investors shall be entitled to use no more than 10 percentage points of the vested premium tax credit *earned under a particular program, including any carryforward credits from such program* under this act, per year beginning with premium tax filings for calendar year 2000 *for credits earned under Program One and calendar year 2003 for credits earned under Program Two.* Any premium tax credits not used by certified investors in any single year may be carried forward and applied against the premium tax liabilities of such investors for subsequent calendar years. ~~The carryforward credit may be applied against subsequent premium tax filings through calendar year 2017.~~

(7) ANNUAL TAX CREDIT; MAXIMUM AMOUNT; ALLOCATION PROCESS.—

(a) The total amount of tax credits which may be allocated by the office shall not exceed \$150 million *with respect to Program One and \$50 million with respect to Program Two.* The total amount of tax credits which may be used by certified investors under this act shall not exceed \$15 million annually *with respect to credits earned under Program One and \$5 million annually with respect to credits earned under Program Two.*

(c) Each certified capital company must apply to the office for an allocation of premium tax credits for potential certified investors by March 15, 1999, *or by March 15, 2002, in the case of credits allocable under Program Two,* on a form developed by the office with the cooperation of the Department of Revenue. The form shall be accompanied by an affidavit from each potential certified investor confirming that the potential certified investor has agreed to make an investment of certified capital in a certified capital company up to a specified amount, subject only to the receipt of a premium tax credit allocation pursuant to this subsection. *No certified capital company shall submit premium tax allocation claims on behalf of certified investors that in the aggregate would exceed the total dollar amount appropriated by the Legislature for the specific program.* No allocation shall be made to the potential investors of a certified capital company *under Program Two* unless such certified capital company has filed premium tax allocation claims that would result in an allocation to the potential investors in such certified capital company of not less than \$15 million in the aggregate.

(d) On or before April 1, 1999, *or April 1, 2002, in the case of Program Two,* the office shall inform each certified capital company of its share of total premium tax credits available for allocation to each of its potential investors.

(e) If a certified capital company does not receive certified capital equaling the amount of premium tax credits allocated to a potential certified investor for which the investor filed a premium tax allocation claim within 10 business days after the investor received a notice of allocation, the certified capital company shall notify the office by overnight common carrier delivery service of the company's failure to receive the capital. That portion of the premium tax credits allocated to the certified capital company shall be forfeited. *The department may levy a fine of not more than \$50,000 on any certified investor that does not invest the full amount of certified capital allocated by the department*

to such investor in accordance with the affidavit filed on its behalf. If the office must make a pro rata allocation under paragraph (f), the office shall reallocate such available credits among the other certified capital companies on the same pro rata basis as the initial allocation.

(f) If the total amount of capital committed by all certified investors to certified capital companies in premium tax allocation claims under Program Two exceeds the aggregate cap on the amount of credits that may be awarded under Program Two, the premium tax credits that may be allowed to any one certified investor under Program Two shall be allocated using the following ratio:

$$\begin{aligned} A/B &= X/\$50,000,000 \\ A/B &= X/\$150,000,000 \end{aligned}$$

where the letter "A" represents the total amount of certified capital certified investors have agreed to invest in any one certified capital company under Program Two, the letter "B" represents the aggregate amount of certified capital that all certified investors have agreed to invest in all certified capital companies under Program Two, the letter "X" is the numerator and represents the total amount of premium tax credits and certified capital that may be allocated to a certified capital company on April 1, 2002 in calendar year 1999, and \$50 \$150 million is the denominator and represents the total amount of premium tax credits and certified capital that may be allocated to all certified investors in calendar year 2002 1999. Any such premium tax credits are not first available for utilization until annual filings are made in 2001 for calendar year 2000 in the case of Program One, and until annual filings are made in 2004 for calendar year 2003 in the case of Program Two, and the tax credits may be used at a rate not to exceed 10 percent annually per program.

(g) The maximum amount of certified capital for which premium tax allocation claims may be filed on behalf of any certified investor and its affiliates by one or more certified capital companies may not exceed \$15 million for Program One, and \$7.5 million for Program Two.

(h) To the extent that less than \$50 \$150 million in certified capital is raised in connection with the procedure set forth in paragraphs (c)-(g), the department may adopt rules to allow a subsequent allocation of the remaining premium tax credits authorized under this section.

(i) The office shall issue a certification letter for each certified investor, showing the amount invested in the certified capital company under each program. The applicable certified capital company shall attest to the validity of the certification letter.

(8) ANNUAL TAX CREDIT; CLAIM PROCESS.—

(a) On an annual basis, on or before January ~~December~~ 31, each certified capital company shall file with the department and the office, in consultation with the department, on a form prescribed by the office, for each calendar year:

1. The total dollar amount the certified capital company received from certified investors, the identity of the certified investors, and the amount received from each certified investor during the immediately preceding calendar year.

2. The total dollar amount the certified capital company invested and the amount invested in qualified businesses, together with the identity and location of those businesses and the amount invested in each qualified business during the immediately preceding calendar year.

3. For informational purposes only, the total number of permanent, full-time jobs either created or retained by the qualified business during the immediately preceding calendar year, the average wage of the jobs created or retained, the industry sectors in which the qualified businesses operate, and any additional capital invested in qualified businesses from sources other than certified capital companies.

(9) REQUIREMENT FOR 100 PERCENT INVESTMENT; STATE PARTICIPATION.—

(a) A certified capital company may make qualified distributions at any time. In order to make a distribution to its equity holders, other than a qualified distribution out of funds related to a particular

program, a certified capital company must have invested an amount cumulatively equal to 100 percent of its certified capital raised under such program in qualified investments. Payments to debt holders of a certified capital company, however, may be made without restriction with respect to repayments of principal and interest on indebtedness owed to them by a certified capital company, including indebtedness of the certified capital company on which certified investors earned premium tax credits. A debt holder that is also a certified investor or equity holder of a certified capital company may receive payments with respect to such debt without restrictions.

(b) Cumulative distributions from a certified capital company out of funds related to a particular program to its certified investors and equity holders under such program, other than qualified distributions, in excess of the certified capital company's original certified capital raised under such program and any additional capital contributions to the certified capital company with respect to such program may be audited by a nationally recognized certified public accounting firm acceptable to the department, at the expense of the certified capital company, if the department directs such audit be conducted. The audit shall determine whether aggregate cumulative distributions from the funds related to a particular program made by the certified capital company to all certified investors and equity holders under such program, other than qualified distributions, have equaled the sum of the certified capital company's original certified capital raised under such program and any additional capital contributions to the certified capital company with respect to such program. If at the time of any such distribution made by the certified capital company, such distribution taken together with all other such distributions from the funds related to such program made by the certified capital company, other than qualified distributions, exceeds in the aggregate the sum of the certified capital company's original certified capital raised under such program and any additional capital contributions to the certified capital company with respect to such program, as determined by the audit, the certified capital company shall pay to the Department of Revenue 10 percent of the portion of such distribution in excess of such amount. Payments to the Department of Revenue by a certified capital company pursuant to this paragraph shall not exceed the aggregate amount of tax credits used by all certified investors in such certified capital company for such program.

(10) DECERTIFICATION.—

(f) Decertification of a certified capital company for failure to meet all requirements for continued certification under paragraph (5)(a) with respect to the certified capital raised under a particular program may cause the recapture of premium tax credits previously claimed by such company under such program and the forfeiture of future premium tax credits to be claimed by certified investors under such program with respect to such certified capital company, as follows:

1. Decertification of a certified capital company within 3 years after its certification date with respect to a particular program shall cause the recapture of all premium tax credits earned under such program and previously claimed by such company and the forfeiture of all future premium tax credits earned under such program which are to be claimed by certified investors with respect to such company.

2. When a certified capital company meets all requirements for continued certification under subparagraph (5)(a)1. with respect to certified capital raised under a particular program and subsequently fails to meet the requirements for continued certification under the provisions of subparagraph (5)(a)2. with respect to certified capital raised under such program, those premium tax credits earned under such program which have been or will be taken by certified investors within 3 years after the certification date of the certified capital company with respect to such program shall not be subject to recapture or forfeiture; however, all premium tax credits earned under such program that have been or will be taken by certified investors after the third anniversary of the certification date of the certified capital company for such program shall be subject to recapture or forfeiture.

3. When a certified capital company meets all requirements for continued certification under subparagraphs (5)(a)1. and 2. with respect to a particular program and subsequently fails to meet the requirements

for continued certification under the subparagraph (5)(a)3. *with respect to such program*, those premium tax credits *earned under such program* which have been or will be taken by certified investors within 4 years after the certification date of the certified capital company *with respect to such program* shall not be subject to recapture or forfeiture; however, all premium tax credits *earned under such program* that have been or will be taken by certified investors after the fourth anniversary of the certification date of the certified capital company *with respect to such program* shall be subject to recapture and forfeiture.

4. If a certified capital company has met all requirements for continued certification under paragraph (5)(a) *with respect to certified capital raised under a particular program*, but such company is subsequently decertified, those premium tax credits *earned under such program* which have been or will be taken by certified investors within 5 years after the certification date of such company *with respect to such program* shall not be subject to recapture or forfeiture. Those premium tax credits *earned under such program* and to be taken subsequent to the 5th year of certification *with respect to such program* shall be subject to forfeiture only if the certified capital company is decertified within 5 years after its certification date *with respect to such program*.

5. If a certified capital company has invested an amount cumulatively equal to 100 percent of its certified capital *raised under a particular program* in qualified investments, all premium tax credits claimed or to be claimed by its certified investors *under such program* shall not be subject to recapture or forfeiture.

This service credit may be purchased by the employer on behalf of the member.

Section 7. Subsection (1), paragraph (a) of subsection (2), paragraph (e) of subsection (4), paragraph (b) of subsection (8), and paragraphs (a) and (b) of subsection (9) of section 121.4501, Florida Statutes, are amended, and paragraph (f) is added to subsection (9) of that section, to read:

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Approved provider" or "provider" means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program. *The term includes a bundled provider that offers participants a range of individually allocated or unallocated investment*

products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; guidance, advice, and allocation services directly relating to its own investment options or products, but only if the bundled provider complies with the standard of care of s. 404(a)(1)(A-B) of the Employee Retirement Income Security Act of 1974 (ERISA) and if providing such guidance, advice, or allocation services does not constitute a prohibited transaction under s. 4975(c)(1) of the Internal Revenue Code or s. 406 of ERISA, notwithstanding that such prohibited transaction provisions do not apply to the optional retirement program; a broad array of distribution options; asset allocation; and retirement counseling and education. Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, at the employee's discretion, to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move to the defined benefit program, the employee must transfer from his or her Public Employee Optional Retirement Program account and from other employee moneys as necessary, a sum representing the *present value of that employee's accumulated benefit obligation immediately following the time of such movement, determined assuming that attained service equals the sum of service in the defined benefit program and service in the Public Employee Optional Retirement Program* ~~all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.~~ *Benefit commencement occurs on the first date the employee would become eligible for unreduced benefits, using the discount rate and other relevant actuarial assumptions that were used to value the Florida Retirement System defined benefit plan liabilities in the most recent actuarial valuation. For any employee who, at the time of the second election, already maintains an accrued benefit amount in the defined benefit plan, the then-present value of such accrued benefit shall be deemed part of the required transfer amount described in this subparagraph. The division shall ensure that the transfer sum is prepared using a formula and methodology certified by an enrolled actuary.*

3. *Notwithstanding subparagraph 2., an employee who chooses to move to the defined benefit program and who became eligible to participate in the Public Employee Optional Retirement Program by reason of employment in a regularly established position with a state employer after June 1, 2002; a district school board employer after September 1, 2002; or a local employer after December 1, 2002, must transfer from his or her Public Employee Optional Retirement Program account and, from other employee moneys as necessary, a sum representing that employee's actuarial accrued liability.*

4. *Employees' ability to transfer from the Florida Retirement System defined benefit program to the Public Employee Optional Retirement Program pursuant to paragraphs (a) through (d), and the ability for current employees to have an option to later transfer back into the defined benefit program under subparagraph 2., shall be deemed a significant system amendment. Pursuant to s. 121.031(4), any such resulting*

unfunded liability arising from actual original transfers from the defined benefit program to the optional program shall be amortized within 30 plan years as a separate unfunded actuarial base independent of the reserve stabilization mechanism defined in s. 121.031(3)(f). For the first 25 years, no direct amortization payment shall be calculated for this base. During this 25-year period, such separate base shall be used to offset the impact of employees exercising their second program election under this paragraph. It is the legislative intent that the actuarial funded status of the Florida Retirement System defined benefit plan is neither beneficially nor adversely impacted by such second program elections in any significant manner, after due recognition of the separate unfunded actuarial base. Following this initial 25-year period, any remaining balance of the original separate base shall be amortized over the remaining 5 years of the required 30-year amortization period.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services *if those services cannot be competitively and contractually provided by the Division of Retirement within the Department of Management Services.* With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. *These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. This section does not prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; or periodic reporting to participants, at least quarterly, on account balances and transactions, if these services are authorized by the board as part of the contract.*

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall also select one or more *bundled providers each of whom may offer multiple investment options and related services* ~~who offer multiple investment options and related services products~~ when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. *Each approved bundled provider may offer investment options that provide participants with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, United States fixed income, United States equities, and foreign stock.* The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum *and may include a guaranteed account as well as investment products, such as individually allocated guaranteed and variable annuities, which meet the requirements of this subsection and combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime-income benefit provided by the Florida Retirement System.*

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, *and may include products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity.*

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. *This prohibition does not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain returns higher than those that could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.*

4. *Fees or charges for insurance features, such as mortality and expense-risk charges, must be reasonable relative to the benefits provided.*

(f)1. *An approved provider shall comply with all federal and state securities and insurance laws and regulations applicable to the provider, as well as the applicable rules and guidelines of the National Association of Securities Dealers which govern the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with rules of the National Association of Securities Dealers.*

2. *Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.*

3. The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider personnel, and, when appropriate, refer such complaints to the appropriate agency.

4. Approved providers may not sell or in any way distribute any customer list or participant identification information generated through their offering of products or services through the optional retirement program.

Section 8. Subsection (9) is added to section 121.0515, Florida Statutes, to read:

121.0515 Special risk membership.—

(9) *CREDIT FOR UPGRADED SERVICE.*—Any member of the Special Risk Class who has earned creditable service in another membership class of the Florida Retirement System as an emergency medical technician or paramedic, which service is within the purview of the Special Risk Class, may purchase additional retirement credit to upgrade such service to Special Risk Class service, to the extent of the percentages of the member's average final compensation provided in s. 121.091(1)(a)2. Contributions for upgrading such service to Special Risk Class credit under this subsection shall be equal to the difference in the contributions paid and the Special Risk Class contribution rate as a percentage of gross salary in effect for the period being claimed, plus interest thereon at the rate of 6.5 percent a year, compounded annually until the date of payment. This service credit may be purchased by the employer on behalf of the member.

Section 9. It is the intent of the Legislature that any additional cost attributable to the upgrade in the retirement benefits for emergency medical technicians and paramedics above the contributions paid in accordance with section 4 of this act shall be funded by recognition of the necessary amount from the excess actuarial assets of the Florida Retirement System Trust Fund.

Section 10. Paragraph (e) of subsection (3) of section 121.052, Florida Statutes, is amended to read:

121.052 Membership class of elected officers.—

(3) PARTICIPATION AND WITHDRAWAL, GENERALLY.—Effective July 1, 1990, participation in the Elected Officers' Class shall be compulsory for elected officers listed in paragraphs (2)(a)-(d) and (f) assuming office on or after said date, unless the elected officer elects membership in another class or withdraws from the Florida Retirement System as provided in paragraphs (3)(a)-(d):

(e) Effective July 1, 2001 ~~1997~~, the governing body of a municipality or special district may, by majority vote, elect to designate all its elected positions for inclusion in the Elected Officers' Class. Such election shall be made between July 1, 2001 ~~1997~~, and December 31, 2001 ~~1997~~, and shall be irrevocable. The designation of such positions shall be effective the first day of the month following receipt by the department of the ordinance or resolution passed by the governing body.

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Approved provider" or "provider" means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program. *The term includes a bundled provider that offers participants a range of individually allocated or unallocated investment products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; guidance, advice, and allocation services directly relating to its own investment options or products, but only if the bundled provider complies with the standard of care of s. 404(a)(1)(A-B) of the Employee Retirement Income Security Act of 1974 (ERISA) and if providing such guidance, advice, or allocation services does not constitute a prohibited transaction under s. 4975(c)(1) of the Internal Revenue Code or s. 406 of ERISA, notwithstanding that such prohibited transaction provisions do not apply to the optional retirement program; a broad array of distribution options; asset allocation; and retirement counseling and education.* Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, *that is, a second election, at the employee's discretion,* to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move from the *Public Employee Optional Retirement Program* to the defined benefit program, the

employee must transfer from his or her *optional program* ~~Public Employee Optional Retirement Program~~ account and from other employee moneys as necessary, a sum representing all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.

If, at the time of a member's election to transfer to the defined benefit program, the member's optional program account does not contain the total amount required to be transferred to the defined benefit program, the member must pay the remaining balance. If the member's optional program account contains more than the amount required to be transferred to the defined benefit program, such additional amount shall remain in the member's optional program account.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services, *where those services do not duplicate services provided by the Division of Retirement within the Department of Management Services.* With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. *These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. Nothing in this section shall prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions.*

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall also select one or more *bundled providers, each of whom who offer nine multiple investment options and related services products* when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. *Each approved bundled provider may offer investment options that provide participants with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, U.S. fixed income, U.S. equities, and foreign stock.* The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum, *and may include a guaranteed account as well as investment products such as individually allocated guaranteed and variable annuities, that meet the requirements of this subsection and that combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime income benefit provided by the Florida Retirement System.*

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, *and shall include products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity.*

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. *This prohibition shall not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.*

4. *Fees or charges for insurance features, such as mortality and expense risk charges, shall be reasonable relative to the benefits provided.*

(f)1. An approved provider shall comply with all applicable federal and state securities and insurance laws and regulations, as well as the applicable rules and guidelines of the National Association of Securities Dealers (NASD) governing the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with National Association of Security Dealers rules.

2. *Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.*

3. *The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider*

personnel, and, when appropriate, refer such complaints to the appropriate regulatory agency.

4. *Approved providers are prohibited from selling or in any way distributing any customer list or participant identification information generated through their offering of products or services through the optional retirement program.*

Section 8. *The appointment of the executive director of the State Board of Administration shall be subject to the approval by a majority vote of the Board of Trustees of the State Board of Administration and the Governor must vote on the prevailing side. Such appointment must be reaffirmed in the same manner by the Board of Trustees on an annual basis.*

Section 9. Section 112.18, Florida Statutes, is amended to read:

112.18 Firefighters and state law enforcement officers; special provisions relative to disability.—

(1) Any condition or impairment of health of any Florida state, municipal, county, port authority, special tax district, or fire control district firefighter or *any state law enforcement officer, correctional officer, or correctional probation officer as defined in s. 943.10(1), (2), or (3), respectively,* caused by tuberculosis, heart disease, or hypertension resulting in total or partial disability or death shall be presumed to have been accidental and to have been suffered in the line of duty unless the contrary be shown by competent evidence. However, any such firefighter or *state law enforcement officer* shall have successfully passed a physical examination upon entering into any such service as a firefighter or *state law enforcement officer, correctional officer, or correctional probation officer,* which examination failed to reveal any evidence of any such condition. Such presumption shall not apply to benefits payable under or granted in a policy of life insurance or disability insurance, unless the insurer and insured have negotiated for such additional benefits to be included in the policy contract.

(2) This section shall be construed to authorize the above governmental entities to negotiate policy contracts for life and disability insurance to include accidental death benefits or double indemnity coverage which shall include the presumption that any condition or impairment of health of any firefighter, *law enforcement officer, correctional officer, or correctional probation officer* caused by tuberculosis, heart disease, or hypertension resulting in total or partial disability or death was accidental and suffered in the line of duty, unless the contrary be shown by competent evidence.

Explanation of Vote on CS for CS for CS for SB 1202

I promised reform would be forthcoming this Session on the issues surrounding the quality of care provided our elders in this state. Committee Substitute for Senate Bill 1202 was passed by the House today. This bill, while not perfect, does deliver reforms I promised to support—and takes Florida in the right direction on these crucial issues. I voted for this bill but I still have many concerns and feel much still needs our attention. The funding provided, \$60m, pays for an increase in staffing hours but brings our nursing homes back to the Legislature for funding the next two years (to eventually reach full funding for the federally recommended staffing numbers). Funding is key to the reforms we seek. We need to address this issue at both state and federal levels. The \$60m being provided is not enough. Our Medicaid reimbursement rates are too low, leaving the state's homes competing unfairly for qualified staff. I have been outspoken in my advocacy for our nonprofit homes, and hold strong reservations regards the lack of more specific protections for these providers under the provisions of this bill. They may not benefit from much relief in their struggles to maintain liability insurance. While tort reform is included in the bill, we will simply have to wait and see if these reforms mean the return of insurance companies to Florida. I supported these measures in the belief that we must seek reasonable balance in our situation and work forward from here. I hope the outcomes are what we expect.

Explanation of Vote on HB 1811

The creation of a centralized State Technology Office (STO) is a mammoth undertaking. I voted against the original bill [HB 1811] in committee, voicing my concerns about the competitive procurement process as well as the lack of oversight. I worked with staff and Members on these issues, which have been addressed in the final bill. On the procurement issue, the bill requires the STO to go through the official rulemaking process to develop rules and specific guidelines for the procurement process. On the oversight issue, the legislation provides for several levels of oversight by both legislative appropriations committees, the Technology Review Workgroup, and the Legislative Budget Commission. I have thoroughly enjoyed my service as the lead Democrat on the House Information Technology Committee, and I am proud of the work we have done. I still have some concerns about the new STO, and will closely monitor the rulemaking process and other developments.

Explanation of Vote on CS for CS for CS for SB 1202

The Florida House took a positive step towards improving the Elder Care Crisis in Florida through the passage of Senate Bill 1202. I supported this bill with several reservations, because I knew that the Industry needed some form of immediate relief. I am concerned that the bill places for profit nursing homes and non-profit Continuing Care Retirement Communities together, without taking into account the vast differences represented by these different types of care facilities. The bill does improve staffing levels and pay, but I believe we could have done more to provide greater standards for quality of care. We should have also increased the Medicaid reimbursement, which would have allowed more increases in staffing, and improved the level of patient care. I believe that Congress needs to re-evaluate the long-term care compensation cuts that occurred in the 1997 Balanced Budget, which has contributed to the financial difficulties of our elder care homes. I look forward to working next session towards more improvements to enhance elderly care.

Thank You for the precious gift of our lives; for life in the womb and in the cradle; for life in the day care centers and in schools; for life in the homes and workplaces; for life in the slums and in the prisons; for life in hospitals and nursing homes; for life in strength and in vigor; for life in weakness and debility, we thank You. Gracious God, may our gratitude for life be demonstrated in our care, defense, and support of this precious gift in all of its manifestations. Amen.

On motion by Rep. Goodlette, Chair of the Committee on Rules, Ethics & Elections, the rules were waived and the following remarks were ordered spread upon the *Journal*.

Statement of Legislative Intent on CS for SB 1530

Amendments were placed on HB 579 which provided for the coordination of the Uniform Commercial Code Bill and CS for CS for SB 108, the structured settlement bill. On May 1, 2001, to ensure passage of the structured settlement bill, the substance of CS for CS for SB 108 was placed on CS for SB 1530.

I want the record to reflect that, notwithstanding the change in the bill number, the amendments placed on HB 579 referring to CS for CS for SB 108 are nevertheless effective since CS for CS for SB 108 and CS for SB 1530 have the same provisions.

SUMMARY OF CONFERENCE COMMITTEE ACTION

Voting Systems

Punchcards, paper ballots, mechanical lever machines and central-count voting systems will no longer be used in the state, beginning with the 2002 primary election. Any future system certified for use in the state must have a precinct-count tabulation system. The Division of Elections is required to review voting system certification standards on an ongoing basis to insure that new voting technologies are certified for use in a timely manner. The Division of Elections is required to provide for a uniform ballot design for each certified voting system in the state.

Funding is provided to the counties based on the number of precincts in the county as of the 2000 General Election. Small counties will receive \$7500 per precinct and other counties will receive \$3750 per precinct. The distribution of funds is to be made over a two-year period.

Provisional Ballots

Voters who go to the polls on election day and whose eligibility cannot be determined will be allowed to vote a provisional ballot. A provisional ballot will not be counted unless the canvassing board determines that the voter was eligible to vote in the precinct at the election.

Recounts

The same manner of recount will be done in each affected jurisdiction. For statewide elections, recounts will be conducted in every county in Florida to insure fair and equal treatment of all Florida voters. For multicounty races, all counties comprising the district of the candidacy or ballot measure will be required to recount. An automatic machine recount will be conducted if the margin of victory is 1/2 of one percent or less. An automatic manual recount will be conducted of overvotes and undervotes if the margin of victory is 1/4 of one percent or less. If the margin of victory is between 1/4 and 1/2 of one percent, an affected candidate or party is entitled to a manual recount if timely and properly requested.

The current statutory standard of voter intent is clarified for purposes of manual recounts. A vote will count if there is a "clear indication on the ballot that the voter has made a definite choice." The Department of State is charged with adopting rules for each certified voting system prescribing precisely what constitutes a "clear indication on the ballot that the voter has made a definite choice" and prescribing uniform recount procedures.

Certification Deadlines

The deadlines for county canvassing boards to certify the results of an election are modified. The deadline for the first and second primary will be 7 days following the primary. Results for the general election will be due 11 days following the election. Any returns not filed by the deadline will be ignored, except in the case of a major emergency.

Second Primary Election

For the 2002 election cycle, the second primary will be eliminated. The remaining primary will be held on the second Tuesday in September to avoid the Labor Day holiday. Various dates are revised to conform to this change for the 2002 elections.

Military and Overseas Voting

Several new sections are created to facilitate the provisions of the federal Uniformed and Overseas Citizens Absentee Voting Act. These provisions include late registration, a state write-in ballot, e-mail notification of names of candidates, and electronic transmission of absentee ballots and requests from overseas voters.

A date line is provided on the absentee ballot envelope and a presumption is created to provide that a ballot from an overseas voter was mailed on the date signed and witnessed, regardless of whether there is a postmark or whether a postmark indicates a date after the election.

The Elections Canvassing Commission is authorized to adopt emergency rules to avoid the disenfranchisement of voters during times of crises.

Absentee Ballots

The definition of absentee ballot is clarified to clearly indicate that any registered voter may vote an absentee ballot without cause. The information to be provided when requesting an absentee ballot is modified to eliminate information regarding social security numbers and the voter identification number. An absentee ballot Voter's Certificate is required to contain the signature of the voter and the signature and address of a witness 18 years of age or older.

Several sections that were not precleared by the U.S. Department of Justice or that have proven unworkable have been repealed.

Canvassing boards will be allowed to process absentee ballots through the tabulating equipment up to 4 days before the election. No results may be released until after the polls close and any person who releases results early commits a 3rd degree felony.

Pollworker Training

Minimum standards and hourly requirements are provided for the training of pollworkers. In addition, the Division of Elections is required to adopt a uniform polling place manual to guide the pollworkers on procedures to be followed on election day.

Voter Education

The Division of Elections is required to adopt minimum standards for voter education. Each county will be able to receive funds for voter education and pollworker training upon submission of a detailed description of the programs to be implemented. Reports are required to be submitted indicating the effectiveness of voter education programs in each county.

A Voter's Bill of Rights and Responsibilities is required to be posted at each polling place on election day.

Elections Canvassing Commission

The composition of the Elections Canvassing Commission is modified. The Commission will consist of the Governor and two members of the Cabinet. Any vacancy must be filled with an elected official.

Election Contests

The grounds for an election contest are modified. The current provision, which affords a circuit judge unfettered discretion in fashioning orders and the authority to order investigations to prevent or correct any alleged wrong and to provide any appropriate relief, is eliminated.

Statewide Voter Registration Database

The Department of State is required to develop a statewide voter registration database containing voter registration information from all of the counties. The Department is given the authority to contract with the Florida Association of Court Clerks to analyze, design, develop, operate, and maintain the database. A criminal penalty is provided for any supervisor of elections who willfully refuses or neglects to perform his or her duties with respect to the implementation and administration of the database.

Time Zone Study

The Division of Elections, in conjunction with the Florida State Association of Supervisors of Elections, is required to study the benefits and drawbacks of having uniform poll opening and closing times throughout the state. A report of the findings is to be provided no later than January 1, 2002.

Polling Place Procedures

A provision requiring election officials to call out a voter's name loudly enough for the pollwatchers to hear is eliminated.

Voter Registration

The procedures for handling a voter registration application which is missing information are modified. Instead of being required to fill out a new application, a potential voter will be notified to provide the missing information in writing.

Public Financing

Contributions from out of state residents will not be counted toward the threshold amounts needed to receive public financing and will not be qualifying matching contributions.

Conference Committee Amendment 1 (with title amendment)—Delete everything after the enacting clause

(7) *The Division of Elections shall review the voting systems certification standards and ensure that new technologies are available for selection by boards of county commissioners which meet the requirements for voting systems and meet user standards. In addition to the names printed on the ballot, a blank space shall be provided under each heading for an office for which a write-in candidate has qualified.* With respect to write-in candidates, if two or more candidates are seeking election to one office, only one blank space shall be provided.

(b) ~~Immediately following the name of each office on the ballot shall be printed, “Vote for One.”~~ When more than one candidate is nominated for office, the candidates for such office shall qualify and run in a group or district, and the group or district number shall be printed beneath the name of the office. *Each nominee of a political party chosen in a primary shall appear on the general election ballot in the same numbered group or district as on the primary election ballot. (b) *When two or more candidates running for the same office on a primary election ballot have the same or a similar surname, the word “incumbent” shall appear next to the incumbent’s name.*

(5) *The primary election ballot shall be arranged so that the offices of Governor and Lieutenant Governor are joined in a single voting space to allow each elector to cast a single vote for the joint candidacies for Governor and Lieutenant Governor, if applicable.*

(6) *The general election ballot shall be arranged so that the offices of President and Vice President are joined in a single voting space to allow each elector to cast a single vote for the joint candidacies for President*

and Vice President and so that the offices of Governor and Lieutenant Governor are joined in a single voting space to allow each elector to cast a single vote for the joint candidacies for Governor and Lieutenant Governor.

(7)(6) Except for justices or judges seeking retention, the names of unopposed candidates shall not appear on the general election ballot. Each unopposed candidate shall be deemed to have voted for himself or herself.

(8)(a) The Department of State shall adopt rules prescribing a uniform primary and general election ballot for each certified voting system. The rules shall incorporate the requirements set forth in this section and shall prescribe additional matters and forms that include, without limitation:

1. Clear and unambiguous ballot instructions and directions;
2. Individual race layout; and
3. Overall ballot layout.

(b) The department rules shall graphically depict a sample uniform primary and general election ballot form for each certified voting system.

~~(7) The same requirement as to the type, size, and kind of printing of official ballots in primary elections as provided in s. 101.141(5) shall govern the printing of official ballots in general elections.~~

~~(8) Should the above directions for complete preparation of the ballot be insufficient, the Department of State shall determine and prescribe any additional matter or form. Not less than 60 days prior to a general election, the Department of State shall mail to each supervisor of elections the format of the ballot to be used for the general election.~~

~~(9) The provisions of s. 101.141(7) shall be applicable in printing of said ballot.~~

The printing and delivery of ballots and cards of instruction shall, in a municipal election, be paid for by the municipality, and in all other elections by the county.

~~(2) In any county in which voting machines are used, one set of official ballots shall be provided for each machine plus a number of sets equal to 5 percent of the total number of machines; one set shall be inserted or placed in or upon each machine, and the remainder of the sets shall be retained in the custody of the supervisor, unless it shall become necessary during the election to make use of same upon or in the machines.~~

(3) *The automatic tabulating equipment shall be set to reject a ballot and provide the elector an opportunity to correct the ballot where the number of votes for an office or measure exceeds the number which the voter is entitled to cast or where the tabulating equipment reads the ballot as a ballot with no votes cast.*

(4)(3) *For rejected ballots that voters choose to cast, the automatic tabulating equipment will be set to accept the ballot and reject all votes for any office or measure when the number of votes therefor exceeds the number which the voter is entitled to cast or when the voter is not entitled to cast a vote for the office or measure.*

(5)(4) It is capable of correctly counting votes.

(7)(6) At presidential elections it permits each elector, by one operation, to vote for all presidential electors of a party or for all presidential electors of candidates for President and Vice President with no party affiliation.

(8)(7) It provides a method for write-in voting.

(9)(8) It is capable of accumulating a count of the specific number of ballots tallied for a precinct, accumulating total votes by candidate for each office, and accumulating total votes for and against each question and issue of the ballots tallied for a precinct.

Section 19. Paragraph (b) of subsection (1) of section 101.5607, Florida Statutes, is amended to read:

101.5607 Department of State to maintain voting system information; prepare software.—

(b) Within 24 hours after the completion of any logic and accuracy test conducted pursuant to s. 101.5612(4), the supervisor of elections shall send by certified mail to the Department of State a copy of the tabulation program which was used in the logic and accuracy testing.

Section 20. Paragraph (b) of subsection (2) of section 101.5608, Florida Statutes, is amended to read:

101.5608 Voting by electronic or electromechanical method; procedures.—

(2) When an electronic or electromechanical voting system utilizes a ballot card or paper ballot, the following procedures shall be followed:

(b) Any voter who spoils his or her ballot or makes an error may return the ballot to the election official and secure another ballot, except that in no case shall a voter be furnished more than three ballots. *If the vote tabulation device has rejected a ballot, the ballot shall be considered spoiled and a new ballot shall be provided to the voter unless the voter chooses to cast the rejected ballot. The election official, without examining the original ballot, shall state the possible reasons for the rejection and direct the voter to the instruction model provided at the precinct pursuant to s. 101.5611.* A spoiled ballot shall be preserved, without examination, in an envelope provided for that purpose. The stub shall be removed from the ballot and placed in an envelope.

Section 21. Section 101.5612, Florida Statutes, is amended to read:

101.5612 Testing of tabulating equipment.—

(1) *All electronic or electromechanical voting systems shall be thoroughly tested at the conclusion of maintenance and programming. Tests shall be sufficient to determine that the voting system is properly programmed, the election is correctly defined on the voting system, and all of the voting system input, output, and communication devices are working properly.*

(2)(4) On any day not more than 10 days prior to the election day, the supervisor of elections shall have the automatic tabulating equipment publicly tested to ascertain that the equipment will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given at least 48 hours prior thereto by publication once in one or more newspapers of general circulation in the county or, if there is no newspaper of general circulation in the county, by posting such notice in at least four conspicuous places in the county. The supervisor or the municipal elections official may, at the time of qualifying, give written notice of the time and location of such public the preelection test to each candidate qualifying with that office and obtain a signed receipt that such notice has been given. The Department of State shall give written notice to each statewide candidate at the time of qualifying, or immediately at the end of qualifying, that the voting equipment will be tested and advise each such candidate to contact the county supervisor of elections as to the time and location of the public preelection test pretest. The supervisor or the municipal elections official shall, at least 15 days prior to an election, send written notice by certified mail to the county party chair of each political party and to all candidates for other than statewide office whose names appear on the ballot in the county and who did not receive written notification from the supervisor or municipal elections official at the time of qualifying, stating the time and location of the public preelection test of the automatic tabulating equipment. The canvassing board shall convene, and each member of the canvassing board shall certify to the accuracy of the test. For the test, the canvassing board may designate one member to represent it. The test shall be open to representatives of the political parties, the press, and the public. Each political party may designate one person with expertise in the computer field who shall be allowed in the central counting room when all tests are being conducted and when the official votes are being counted. Such designee shall not interfere with the normal operation of the canvassing board.

(3) *For electronic or electromechanical voting systems configured to tabulate absentee ballots at a central or regional site, the public testing shall be conducted by processing a preaudited group of ballots so produced as to record a predetermined number of valid votes for each candidate and on each measure and to include one or more ballots for each office which have activated voting positions in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to reject such votes. If any error is detected, the cause therefor shall be corrected and an errorless count shall be made before the automatic tabulating equipment is approved. The test shall be repeated and errorless results achieved immediately before the start of the official count of the ballots and again after the completion of the official count.*

The programs and ballots used for testing shall be sealed and retained under the custody of the county canvassing board.

(4)(a)1. *For electronic or electromechanical voting systems configured to include electronic or electromechanical tabulation devices which are distributed to the precincts, all or a sample of the devices to be used in the election shall be publicly tested. If a sample is to be tested, the sample shall consist of a random selection of at least 5 percent or 10 of the devices, whichever is greater. The test shall be conducted by processing a group of ballots, causing the device to output results for the ballots processed, and comparing the output of results to the results expected for the ballots processed. The group of ballots shall be produced so as to record a predetermined number of valid votes for each candidate and on each measure and to include for each office one or more ballots which have activated voting positions in excess of the number allowed by law in order to test the ability of the tabulating device to reject such votes.*

2. *If any tested tabulating device is found to have an error in tabulation, it shall be deemed unsatisfactory. For each device deemed unsatisfactory, the canvassing board shall take steps to determine the cause of the error, shall attempt to identify and test other devices that could reasonably be expected to have the same error, and shall test a number of additional devices sufficient to determine that all devices are satisfactory. Upon deeming any device unsatisfactory, the canvassing board may require all devices to be tested or may declare that all devices are unsatisfactory.*

3. *If the operation or output of any tested tabulation device, such as spelling or the order of candidates on a report, is in error, such problem shall be reported to the canvassing board. The canvassing board shall then determine if the reported problem warrants its deeming the device unsatisfactory.*

(b) *At the completion of testing under this subsection, the canvassing board or its representative, the representatives of the political parties, and the candidates or their representatives who attended the test shall witness the resetting of each device that passed to a preelection state of readiness and the sealing of each device that passed in such a manner as to secure its state of readiness until the opening of the polls.*

(c) *The canvassing board or its representative shall execute a written statement setting forth the tabulation devices tested, the results of the testing, the protective counter numbers, if applicable, of each tabulation device, the number of the seal securing each tabulation device at the conclusion of testing, any problems reported to the board as a result of the testing, and whether each device tested is satisfactory or unsatisfactory.*

(d) *Any tabulating device deemed unsatisfactory shall be reprogrammed, repaired, or replaced and shall be made available for retesting. Such device must be determined by the canvassing board or its representative to be satisfactory before it may be used in any election. The canvassing board or its representative shall announce at the close of the first testing the date, place, and time that any unsatisfactory device will be retested or may, at the option of the board, notify by telephone each person who was present at the first testing as to the date, place, and time that the retesting will occur.*

(e) *Records must be kept of all preelection testing of electronic or electromechanical tabulation devices used in any election. Such records are to be present and available for inspection and reference during public preelection testing by any person in attendance during such testing. The need of the canvassing board for access to such records during the testing shall take precedence over the need of other attendees to access such records so that the work of the canvassing board will not be delayed or hindered. Records of testing must include, for each device, the name of each person who tested the device and the date, place, time, and results of each test. Records of testing shall be retained as part of the official records of the election in which any device was used.*

~~(2)—The test shall be conducted by processing a preaudited group of ballots so produced as to record a predetermined number of valid votes for each candidate and on each measure and shall include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to~~

~~reject such votes. If any error is detected, the cause therefor shall be ascertained and corrected and an errorless count shall be made before the automatic tabulating equipment is approved. The test shall be repeated immediately before the start of the official count of the ballots in the same manner as set forth above. After the completion of the count, the test shall be repeated. The programs and ballots used shall be sealed and retained under the custody of the county canvassing board.~~

Section 22. Effective September 2, 2002, subsections (1), (2), (3), and (7) of section 101.5614, Florida Statutes, as amended by this act, are amended to read:

101.5614 Canvass of returns.—

(1)(a) In precincts in which an electronic or electromechanical voting system is used, as soon as the polls are closed, the election board shall secure the voting devices against further voting. The election board shall thereafter open the ballot box in the presence of members of the public desiring to witness the proceedings and count the number of voted ballots, unused ballots, provisional ballots, and spoiled ballots to ascertain whether such number corresponds with the number of ballots issued by the supervisor. If there is a difference, this fact shall be reported in writing to the county canvassing board with the reasons therefor if known. The total number of voted ballots shall be entered on the forms provided. The proceedings of the election board at the precinct after the polls have closed shall be open to the public; however, no person except a member of the election board shall touch any ballot or ballot container or interfere with or obstruct the orderly count of the ballots.

~~(b) In lieu of opening the ballot box at the precinct, the supervisor may direct the election board to keep the ballot box sealed and deliver it to a central or regional counting location. In this case, the election board shall count the stubs removed from the ballots to determine the number of voted ballots.~~

~~(2)(a) If the ballots are to be tallied at a central location or at no more than three regional locations, the election board shall place all ballots that have been cast and the unused, void, provisional, and defective ballots in the container or containers provided for this purpose, which shall be sealed and delivered forthwith to the central or regional counting location or other designated location by two inspectors who shall not, whenever possible, be of the same political party. The election board shall certify that the ballots were placed in such container or containers and each container was sealed in its presence and under its supervision, and it shall further certify to the number of ballots of each type placed in the container or containers.~~

~~(2)(b) If ballots are to be counted at the precincts, such ballots shall be counted pursuant to rules adopted by The Department of State, which rules shall, in accordance with s. 101.015, adopt rules that provide safeguards which conform as nearly as practicable to the safeguards provided in the procedures for the counting of votes at a precinct and at a central or regional location.~~

~~(3)(a) All proceedings at the central or regional counting location or other designated location shall be under the direction of the county canvassing board and shall be open to the public, but no person except a person employed and authorized for the purpose shall touch any ballot or ballot container, any item of automatic tabulating equipment, or any return prior to its release. If the ballots are tabulated at regional locations, one member of the canvassing board or a person designated by the board to represent it shall be present at each location during the testing of the counting equipment and the tabulation of the ballots.~~

~~(3)(b) The results of If ballots are tabulated at precinct regional locations, the results of such election may be transmitted via dedicated teleprocessing lines to the main computer system for the purpose of compilation of complete returns. The security guidelines for transmission of returns by dedicated teleprocessing lines shall conform to rules adopted by the Department of State pursuant to s. 101.015.~~

(7) Absentee ballots may be counted by automatic tabulating equipment if they have been punched or marked in a manner which will enable them to be properly counted by such equipment.

Section 23. Effective September 2, 2002, section 101.58, Florida Statutes, is amended to read:

All provisional ballots shall remain sealed in their envelopes for return to the supervisor of elections.

(2)(a) The county canvassing board shall examine each provisional ballot to determine if the person voting that ballot was entitled to vote at the precinct in the election and that the person had not already cast a ballot in the election.

(b)1. If it is determined that the person was registered and entitled to vote at the precinct in the election, the canvassing board shall compare the signature on the provisional ballot envelope with the signature on the voter's registration and, if it matches, shall count the ballot.

2. If it is determined that the person voting the provisional ballot was not registered or entitled to vote at the precinct in the election, the provisional ballot shall not be counted and the ballot shall remain in the envelope containing the Provisional Ballot Voter's Certificate and the envelope marked "Rejected as Illegal."

Section 36. Subsections (2) and (3) of section 101.045, Florida Statutes, are amended to read:

101.045 Electors must be registered in precinct; provisions for residence or name change.—

(2)(a) An elector who moves from the precinct within the county in which the elector is registered may be permitted to vote in the precinct to which he or she has moved his or her legal residence, provided such elector completes an affirmation in substantially the following form:

Change of Legal Residence of Registered Voter

Under penalties for false swearing, I, . . . (Name of voter). . . , swear (or affirm) that the former address of my legal residence was . . . (Address of legal residence). . . in the municipality of . . . , in . . . County, Florida, and I was registered to vote in the . . . precinct of . . . County, Florida; that I have not voted in the precinct of my former registration in this election; that I now reside at . . . (Address of legal residence). . . in the Municipality of . . . , in . . . County, Florida, and am therefore eligible to vote in the . . . precinct of . . . County, Florida; and I further swear (or affirm) that I am otherwise legally registered and entitled to vote.

. . . (Signature of voter whose address of legal residence has changed). . .

(b) An elector whose name changes because of marriage or other legal process may be permitted to vote, provided such elector completes an affirmation in substantially the following form:

Change of Name of Registered Voter

Under penalties for false swearing, I, . . . (New name of voter). . . , swear (or affirm) that my name has been changed because of marriage or other legal process. My former name and address of legal residence appear on the registration books of precinct . . . as follows:

and I further swear (or affirm) that I am otherwise legally registered and entitled to vote.

. . . (Signature of voter whose name has changed). . .

(c) Such affirmation, when completed and presented at the precinct in which such elector is entitled to vote, and upon verification of the elector's registration, shall entitle such elector to vote as provided in this subsection. If the elector's eligibility to vote cannot be determined, he or she shall be entitled to vote a provisional ballot, subject to the requirements and procedures in s. 101.048. Upon receipt of an affirmation certifying a change in address of legal residence or name, the supervisor shall as soon as practicable make the necessary changes in the registration records of the county to indicate the change in address of legal residence or name of such elector.

(d) Instead of the affirmation contained in paragraph (a) or paragraph (b), an elector may complete a voter registration application that indicates the change of name or change of address of legal residence.

(e) A request for an absentee ballot pursuant to s. 101.62 which indicates that the elector has had a change of address of legal residence from that in the supervisor's records shall be sufficient as the notice to the supervisor of change of address of legal residence required by this section. Upon receipt of such request for an absentee ballot from an elector who has changed his or her address of legal residence, the

supervisor shall provide the elector with the proper ballot for the precinct in which the elector then has his or her legal residence.

(3) When an elector's name does not appear on the registration books of the election precinct in which the elector is registered and when the elector cannot present a valid registration identification card, the elector may have his or her name restored if the supervisor is otherwise satisfied that the elector is validly registered, that the elector's name has been erroneously omitted from the books, and that the elector is entitled to have his or her name restored. The supervisor, if he or she is satisfied as to the elector's previous registration, shall allow such person to vote and shall thereafter issue a duplicate registration identification card.

Section 37. Subsections (1), (2), (5), (6), and (8) of section 101.5614, Florida Statutes, are amended, and subsection (9) is added to said section to read:

101.5614 Canvass of returns.—

(1)(a) In precincts in which an electronic or electromechanical voting system is used, as soon as the polls are closed, the election board shall secure the voting devices against further voting. The election board shall thereafter open the ballot box in the presence of members of the public desiring to witness the proceedings and count the number of voted ballots, unused ballots, provisional ballots, and spoiled ballots to ascertain whether such number corresponds with the number of ballots issued by the supervisor. If there is a difference, this fact shall be reported in writing to the county canvassing board with the reasons therefor if known. The total number of voted ballots shall be entered on the forms provided. The proceedings of the election board at the precinct after the polls have closed shall be open to the public; however, no person except a member of the election board shall touch any ballot or ballot container or interfere with or obstruct the orderly count of the ballots.

(b) In lieu of opening the ballot box at the precinct, the supervisor may direct the election board to keep the ballot box sealed and deliver it to a central or regional counting location. In this case, the election board shall count the stubs removed from the ballots to determine the number of voted ballots.

(2)(a) If the ballots are to be tallied at a central location or at no more than three regional locations, the election board shall place all ballots that have been cast and the unused, void, provisional, and defective ballots in the container or containers provided for this purpose, which shall be sealed and delivered forthwith to the central or regional counting location or other designated location by two inspectors who shall not, whenever possible, be of the same political party. The election board shall certify that the ballots were placed in such container or containers and each container was sealed in its presence and under its supervision, and it shall further certify to the number of ballots of each type placed in the container or containers.

(b) If ballots are to be counted at the precincts, such ballots shall be counted pursuant to rules adopted by the Department of State, which rules shall provide safeguards which conform as nearly as practicable to the safeguards provided in the procedures for the counting of votes at a central location.

(5) If any ballot card of the type for which the offices and measures are not printed directly on the card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy shall be made of the damaged ballot card in the presence of witnesses and substituted for the damaged ballot. Likewise, a duplicate ballot card shall be made of a defective ballot which shall not include the invalid votes. All duplicate ballot cards shall be clearly labeled "duplicate," bear a serial number which shall be recorded on the damaged or defective ballot card, and be counted in lieu of the damaged or defective ballot. If any ballot card of the type for which offices and measures are printed directly on the card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy may be made of the damaged ballot card in the presence of witnesses and in the manner set forth above, or the valid

votes on the damaged ballot card may be manually counted at the counting center by the canvassing board, whichever procedure is best suited to the system used. If any paper ballot is damaged or defective so that it cannot be counted properly by the automatic tabulating equipment, the ballot shall be counted manually at the counting center by the canvassing board. The totals for all such ballots or ballot cards counted manually shall be added to the totals for the several precincts or election districts. No vote shall be declared invalid or void if there is a clear indication *on the ballot that the voter has made a definite choice of the intent of the voter* as determined by the canvassing board. After duplicating a ballot, the defective ballot shall be placed in an envelope provided for that purpose, and the duplicate ballot shall be tallied with the other ballots for that precinct.

(6) *If there is no clear indication on the ballot that the voter has made a definite choice for an office or ballot measure* ~~If an elector marks more names than there are persons to be elected to an office or if it is impossible to determine the elector's choice~~, the elector's ballot shall not be counted for that office or measure, but the ballot shall not be invalidated as to those names or measures which are properly marked.

(8) The return printed by the automatic tabulating equipment, to which has been added the return of write-in, absentee, and manually counted votes *and votes from provisional ballots*, shall constitute the official return of the election *upon certification by the canvassing board*. Upon completion of the count, the returns shall be open to the public. A copy of the returns may be posted at the central counting place or at the office of the supervisor of elections in lieu of the posting of returns at individual precincts.

(9) *Any supervisor of elections, deputy supervisor of elections, canvassing board member, election board member, or election employee who releases the results of any election prior to the closing of the polls on election day commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.*

Section 38. Section 101.69, Florida Statutes, is amended to read:

101.69 Voting in person; return of absentee ballot.—The provisions of this code shall not be construed to prohibit any elector from voting in person at the elector's precinct on the day of an election notwithstanding that the elector has requested an absentee ballot for that election. An elector who has received an absentee ballot, but desires to vote in person, shall return the ballot, whether voted or not, to the election board in the elector's precinct. The returned ballot shall be marked "canceled" by the board and placed with other canceled ballots. However, if the elector is unable to return the ballot, the elector may *vote a provisional ballot as provided in s. 101.048* ~~execute an affidavit stating that the absentee ballot has not been voted and the elector may then vote at the precinct.~~

Section 39. Section 102.111, Florida Statutes, is amended to read:

102.111 Elections Canvassing Commission.—

(1) ~~Immediately after certification of any election by the county canvassing board, the results shall be forwarded to the Department of State concerning the election of any federal or state officer. The Governor, the Secretary of State, and the Director of the Division of Elections shall be the Elections Canvassing Commission. The Elections Canvassing Commission shall consist of the Governor and two members of the Cabinet selected by the Governor. If a member of the Elections Canvassing Commission is unable to serve for any reason, the Governor shall appoint a remaining member of the Cabinet. If there is a further vacancy, the remaining members of the commission shall agree on another elected official to fill the vacancy. The Elections Canvassing Commission shall, as soon as the official results are compiled from all counties, certify the returns of the election and determine and declare who has been elected for each federal, state, and multi-county office. In the event that any member of the Elections Canvassing Commission is unavailable to certify the returns of any election, such member shall be replaced by a substitute member of the Cabinet as determined by the Director of the Division of Elections. If the county returns are not received by the Department of State by 5 p.m. of the seventh day~~

~~following an election, all missing counties shall be ignored, and the results shown by the returns on file shall be certified.~~

(2) The Division of Elections shall provide the staff services required by the Elections Canvassing Commission.

Section 40. Section 102.112, Florida Statutes, is amended to read:

102.112 Deadline for submission of county returns to the Department of State; ~~penalties.~~—

(4) *If the returns are not received by the department due to an emergency, as defined in s. 101.732, the Elections Canvassing Commission shall determine the deadline by which the returns must be received.*

~~(2) The department shall fine each board member \$200 for each day such returns are late, the fine to be paid only from the board member's personal funds. Such fines shall be deposited into the Election Campaign Financing Trust Fund, created by s. 106.32.~~

~~(3) Members of the county canvassing board may appeal such fines to the Florida Elections Commission, which shall adopt rules for such appeals.~~

Section 41. Present subsections (5) and (6) of section 102.141, Florida Statutes, are redesignated as subsections (7) and (8), respectively, present subsection (4) is amended and redesignated as subsection (6), subsections (2) and (3) are amended, and new subsections (4) and (5) are added to that section to read:

102.141 County canvassing board; duties.—

(2) The county canvassing board shall meet in a building accessible to the public in the county where the election occurred at a time and place to be designated by the supervisor of elections to publicly canvass the absentee electors' ballots as provided for in s. 101.68 *and provisional ballots as provided by s. 101.048*. Public notice of the time and place at which the county canvassing board shall meet to canvass the absentee electors' ballots *and provisional ballots* shall be given at least 48 hours prior thereto by publication once in one or more newspapers of general circulation in the county or, if there is no newspaper of general circulation in the county, by posting such notice in at least four conspicuous places in the county. As soon as the absentee electors' ballots *and the provisional ballots* are canvassed, the board shall proceed to publicly canvass the vote given each candidate, nominee, constitutional amendment, or other measure submitted to the electorate of the county, as shown by the returns then on file in the office of the supervisor of elections and the office of the county court judge.

(3) The canvass, except the canvass of absentee electors' returns *and the canvass of provisional ballots*, shall be made from the returns and certificates of the inspectors as signed and filed by them with the county court judge and supervisor, respectively, and the county canvassing board shall not change the number of votes cast for a candidate, nominee, constitutional amendment, or other measure submitted to the electorate of the county, respectively, in any polling place, as shown by the returns. All returns shall be made to the board on or before 2 a.m. ~~noon~~ of the day following any primary, general, special, or other election. If the returns from any precinct are missing, if there are any omissions on the returns from any precinct, or if there is an obvious error on any such returns, the canvassing board shall order a recount of the returns

from such precinct. Before canvassing such returns, the canvassing board shall examine the ~~counters on the machines or the~~ tabulation of the ballots cast in such precinct and determine whether the returns correctly reflect the votes cast. If there is a discrepancy between the returns and the ~~counters of the machines or the~~ tabulation of the ballots cast, the ~~counters of such machines or the~~ tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly.

(4) *The canvassing board shall submit unofficial returns to the Department of State for each federal, statewide, state, or multi-county office or ballot measure no later than noon on the day after any primary, general, special, or other election.*

(5) *If the county canvassing board determines that the unofficial returns may contain a counting error in which the vote tabulation system failed to count votes that were properly marked in accordance with the instructions on the ballot, the county canvassing board shall:*

(a) *Correct the error and recount the affected ballots with the vote tabulation system; or*

(b) *Request that the Department of State verify the tabulation software. When the Department of State verifies such software, the department shall compare the software used to tabulate the votes with the software filed with the department pursuant to s. 101.5607 and check the election parameters.*

(6)(4) *If the unofficial returns ~~for any office~~ reflect that a candidate for any office was defeated or eliminated by one-half of a percent or less of the votes cast for such office, that a candidate for retention to a judicial office was retained or not retained by one-half of a percent or less of the votes cast on the question of retention, or that a measure appearing on the ballot was approved or rejected by one-half of a percent or less of the votes cast on such measure, the board responsible for certifying the results of the vote on such race or measure shall order a recount of the votes cast with respect to such office or measure. A recount need not be ordered with respect to the returns for any office, however, if the candidate or candidates defeated or eliminated from contention for such office by one-half of a percent or less of the votes cast for such office request in writing that a recount not be made.*

(a) *In counties with voting systems that use ballot cards or paper ballots, each canvassing board responsible for conducting a recount shall put each ballot through the automatic tabulating equipment for each precinct in which the office or issue appeared on the ballot and determine whether the returns correctly reflect the votes cast. Immediately before the start of the recount and after completion of the count, a test of the tabulating equipment shall be conducted as provided in s. 101.5612. If the test indicates no error, the recount tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly. If an error is detected, the cause therefor shall be ascertained and corrected and the recount repeated, as necessary. The canvassing board shall immediately report the error, along with the cause of the error and the corrective measures being taken, to the Department of State. No later than 11 days after the election, the canvassing board shall file a separate incident report with the Department of State, detailing the resolution of the matter and identifying any measures that will avoid a future recurrence of the error.*

(b) *In counties with voting systems that do not use ballot cards or paper ballots, each canvassing board responsible for conducting a recount shall examine the counters on the precinct tabulators to ensure that the total of the returns on the precinct tabulators equals the overall election return ~~machines or the~~ tabulation of the ballots cast in each precinct in which the office or issue appeared on the ballot and determine whether the returns correctly reflect the votes cast. If there is a discrepancy between the overall election return ~~returns~~ and the counters of the precinct tabulators ~~machines or the~~ tabulation of the ballots cast, the counters of the precinct tabulators ~~of such machines or the~~ tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly.*

(c) *The canvassing board shall submit a second set of unofficial returns to the Department of State for each federal, statewide, state, or*

multi-county office or ballot measure no later than noon on the second day after any election in which a recount was conducted pursuant to this subsection. If the canvassing board is unable to complete the recount prescribed in this subsection by the deadline, the second set of unofficial returns submitted by the canvassing board shall be identical to the initial unofficial returns and the submission shall also include a detailed explanation of why it was unable to timely complete the recount. However, the canvassing board shall complete the recount prescribed in this subsection, along with any manual recount prescribed in s. 102.166, and certify election returns in accordance with the requirements of this chapter.

Section 42. Section 102.166, Florida Statutes, is amended to read:

102.166 ~~Manual recounts~~ ~~Protest of election returns; procedure.~~—

(2)(a) *If the second set of unofficial returns pursuant to s. 102.141 indicates that a candidate for any office was defeated or eliminated by between one-quarter and one-half of a percent of the votes cast for such office, that a candidate for retention to judicial office was retained or not retained by between one-quarter and one-half of a percent of the votes cast on the question of retention, or that a measure appearing on the ballot was approved or rejected by between one-quarter and one-half of a percent of the votes cast on such measure, any such candidate, the political party of such candidate, or any political committee that supports or opposes such ballot measure is entitled to a manual recount of the overvotes and undervotes cast in the entire geographic jurisdiction of such office or ballot measure, provided that a request for a manual recount is made by 5 p.m. on the second day after the election.*

Any such hardware or software must be capable of simultaneously counting votes. For certified voting systems, the department shall certify such hardware or software by July 1, 2002. If the department is unable to certify such hardware or software for a certified voting system by July 1, 2002, the department shall adopt rules prescribing procedures for identifying and sorting such overvotes and undervotes. The department's rules may provide for the temporary use of hardware or software whose sole function is identifying and sorting overvotes and undervotes.*

(b) *This subsection does not preclude the department from certifying hardware or software after July 1, 2002.*

(c) *Overvotes and undervotes shall be identified and sorted while recounting ballots pursuant to s. 102.141, if the hardware or software for this purpose has been certified or the department's rules so provide.*

~~(2) Such protest shall be filed with the canvassing board prior to the time the canvassing board certifies the results for the office being protested or within 5 days after midnight of the date the election is held, whichever occurs later.~~

~~(3) Before canvassing the returns of the election, the canvassing board shall:~~

~~(a) When paper ballots are used, examine the tabulation of the paper ballots cast.~~

~~(b) When voting machines are used, examine the counters on the machines of nonprinter machines or the printer pac on printer machines. If there is a discrepancy between the returns and the counters of the machines or the printer pac, the counters of such machines or the printer pac shall be presumed correct.~~

~~(c) When electronic or electromechanical equipment is used, the canvassing board shall examine precinct records and election returns. If there is a clerical error, such error shall be corrected by the county canvassing board. If there is a discrepancy which could affect the outcome of an election, the canvassing board may recount the ballots on the automatic tabulating equipment.~~

The person who requested the recount shall choose three precincts to be recounted, and, if other precincts are recounted, the county canvassing board shall select the additional precincts.~~

~~(4)(6) Any manual recount shall be open to the public.~~

~~(5)(a) A vote for a candidate or ballot measure shall be counted if there is a clear indication on the ballot that the voter has made a definite choice.~~

~~(b) The Department of State shall adopt specific rules for each certified voting system prescribing what constitutes a "clear indication on the ballot that the voter has made a definite choice." The rules may not:~~

~~1. Exclusively provide that the voter must properly mark or designate his or her choice on the ballot; or,~~

~~2. Contain a catch-all provision that fails to identify specific standards, such as "any other mark or indication clearly indicating that the voter has made a definite choice."~~

~~(6)(7) Procedures for a manual recount are as follows:~~

~~(a) The county canvassing board shall appoint as many counting teams of at least two electors as is necessary to manually recount the ballots. A counting team must have, when possible, members of at least two political parties. A candidate involved in the race shall not be a member of the counting team.~~

~~(b) If a counting team is unable to determine whether the ballot contains a clear indication that the voter has made a definite choice a voter's intent in casting a ballot, the ballot shall be presented to the county canvassing board for a determination it to determine the voter's intent.~~

~~(c) The Department of State shall adopt detailed rules prescribing additional recount procedures for each certified voting system which shall be uniform to the extent practicable. The rules shall address, at a minimum, the following areas:~~

~~3. Public observance of recounts;~~

~~4. Objections to ballot determinations;~~

~~5. Record of recount proceedings; and~~

~~6. Procedures relating to candidate and petitioner representatives.~~

~~(2) Such contestant shall file a complaint, together with the fees prescribed in chapter 28, with the clerk of the circuit court within 10 days after midnight of the date the last county canvassing board empowered to canvass the returns certifies the results of the election being contested or within 5 days after midnight of the date the last county canvassing board empowered to canvass the returns certifies the results of that particular election following a protest pursuant to s. 102.166(1), whichever occurs later.~~

~~(3) The complaint shall set forth the grounds on which the contestant intends to establish his or her right to such office or set aside the result of the election on a submitted referendum. The grounds for contesting an election under this section are:~~

~~(a) Misconduct, fraud, or corruption on the part of any election official or any member of the canvassing board sufficient to change or place in doubt the result of the election.~~

(4) The canvassing board or *Elections Canvassing Commission* election board shall be the proper party defendant, and the successful candidate shall be an indispensable party to any action brought to contest the election or nomination of a candidate.

(6) A copy of the complaint shall be served upon the defendant and any other person named therein in the same manner as in other civil cases under the laws of this state. Within 10 days after the complaint has been served, the defendant must file an answer admitting or denying the allegations on which the contestant relies or stating that the defendant has no knowledge or information concerning the allegations, which shall be deemed a denial of the allegations, and must state any other defenses, in law or fact, on which the defendant relies. If an answer is not filed within the time prescribed, the defendant may not be granted a hearing in court to assert any claim or objection that is required by this subsection to be stated in an answer.

(7) Any candidate, qualified elector, or taxpayer presenting such a contest to a circuit judge is entitled to an immediate hearing. However, the court in its discretion may limit the time to be consumed in taking testimony, with a view therein to the circumstances of the matter and to the proximity of any succeeding primary or other election.

~~(8) The circuit judge to whom the contest is presented may fashion such orders as he or she deems necessary to ensure that each allegation in the complaint is investigated, examined, or checked, to prevent or correct any alleged wrong, and to provide any relief appropriate under such circumstances.~~

Section 67. Section 106.31, Florida Statutes, is amended to read:

106.31 Legislative intent.—The Legislature finds that the costs of running an effective campaign for statewide office have reached a level which tends to discourage persons from becoming candidates and to limit the persons who run for such office to those who are independently wealthy, who are supported by political committees representing special interests which are able to generate substantial campaign contributions, or who must appeal to special interest groups for campaign contributions. The Legislature further finds that campaign contributions generated by such political committees are having a disproportionate impact vis-a-vis contributions from unaffiliated individuals, which leads to the misperception of government officials unduly influenced by those special interests to the detriment of the public interest. Furthermore, it is the intent of the Legislature that the purpose of public campaign financing is to make candidates more responsive to the voters of the State of Florida and as insulated as possible from special interest groups. The Legislature intends ss. 106.30-106.36 to alleviate these factors, dispel the misperception, and encourage qualified persons to seek statewide elective office who would not, or could not otherwise do so and to protect the effective competition by a candidate who uses public funding.

Section 68. Section 106.33, Florida Statutes, is amended to read:

106.33 Election campaign financing; eligibility.—Each candidate for the office of Governor or member of the Cabinet who desires to receive contributions from the Election Campaign Financing Trust Fund shall, upon qualifying for office, file a request for such contributions with the filing officer on forms provided by the Division of Elections. If a candidate requesting contributions from the fund desires to have such funds distributed by electronic fund transfers, the request shall include information necessary to implement that procedure. For the purposes of ss. 106.30-106.36, candidates for Governor and Lieutenant Governor on the same ticket shall be considered as a single candidate. To be eligible to receive contributions from the fund, a candidate may ~~shall~~ not be an unopposed candidate as defined in s. 106.011(15) and ~~must shall~~:

- (1) Agree to abide by the expenditure limits provided in s. 106.34.

- (2)(a) Raise contributions as follows:

1.(a) One hundred fifty thousand dollars for a candidate for Governor.

2.(b) One hundred thousand dollars for a candidate for Cabinet office.

(b) Contributions from individuals who at the time of contributing are not state residents may not be used to meet the threshold amounts in paragraph (a). For purposes of this paragraph, any person validly registered to vote in this state shall be considered a state resident.

(3) Limit loans or contributions from the candidate's personal funds to \$25,000 and contributions from national, state, and county executive committees of a political party to \$25,000 in the aggregate, which loans or contributions shall not qualify for meeting the threshold amounts in subsection (2).

(4) Submit to a postelection audit of the campaign account by the division.

Section 69. Subsection (2) of section 106.35, Florida Statutes, is amended to read:

106.35 Distribution of funds.—

(2)(a) Each candidate who has been certified to receive contributions from the Election Campaign Financing Trust Fund shall be entitled to distribution of funds as follows:

1. For qualifying matching contributions making up all or any portion of the threshold amounts specified in s. 106.33(2), distribution shall be on a two-to-one basis.

2. For all other qualifying matching contributions, distribution shall be on a one-to-one basis.

(b) Qualifying matching contributions are those of \$250 or less from an individual, made after September 1 of the calendar year prior to the election. Any contribution received from an individual who is not a state resident at the time the contribution is made shall not be considered a qualifying matching contribution. For purposes of this paragraph, any person validly registered to vote in this state shall be considered a state resident. Aggregate contributions from an individual in excess of \$250 will be matched only up to \$250. A contribution from an individual, if made by check, must be drawn on the personal bank account of the individual making the contribution, as opposed to any form of business account, regardless of whether the business account is for a corporation, partnership, sole proprietorship, trust, or other form of business arrangement. For contributions made by check from a personal joint account, the match shall only be for the individual who actually signs the check.

Section 70. Effective July 1, 2001, section 98.0977, Florida Statutes, is created to read:

The database shall contain voter registration information from each of the 67 supervisors of elections in this state, and shall be accessible through an Internet web site. If the supervisor of elections finds information that suggests that a voter is ineligible to register to vote, the supervisor of elections shall notify the voter by certified United States mail. The notification shall contain a statement as to the reason for the voter's potential ineligibility to register to vote and shall request information from the voter on forms provided by the supervisor of elections in order to make a final determination on the voter's eligibility. After reviewing the information requested by the supervisor of elections and provided by the voter, if the supervisor of elections determines that the voter is not eligible to vote under the laws of this state, the supervisor of elections shall notify the voter by certified United States mail that he or she has been found ineligible to register to vote in this state, shall state the reason for the ineligibility, and shall inform the voter that he or she will be removed from the voter registration rolls.

(4) To the maximum extent feasible, state and local government entities shall facilitate provision of information and access to data to the Florida Association of Court Clerks in order to compare information in the statewide voter registration database with available information in other computer databases, including, but not limited to, databases that contain reliable criminal records and records of deceased persons. State and local governmental agencies that provide such data shall do so without charge if the direct cost incurred by those agencies is not significant.

(5) The Division of Elections shall provide written quarterly progress reports on each phase of development of the voter registration database to the President of the Senate and the Speaker of the House of Representatives beginning July 1, 2001, and continuing until the database is fully implemented.

(6) The duties of the supervisors of elections under this section shall be considered part of their regular registration list maintenance duties under this chapter, and any supervisor of elections who willfully refuses or willfully neglects to perform his or her duties under this section shall be in violation of s. 104.051(2).

Each county shall receive an amount equal to the funding level per individual voter multiplied by the number of registered voters in the county, as certified by the Department of State for the 2000 General Election.

So the bill passed, as amended by the Conference Committee Report. The action, together with CS for SB 1118 and the Conference Committee Report thereon, was immediately certified to the Senate.

Explanation of Vote

Our constituents didn't ask us to do much. They just wanted us to "FIX IT" and nothing else. They weren't clamoring to end the Second Primary. They weren't rallying in the streets for changes to Public Financing. They just wanted to be sure that what happened in 2000 never, ever, happened again, Period!

There are some good things in this bill. The Butterfly Ballot is Gone. Punch Cards Are Gone. Military Men and Women can Vote with Confidence. Counties will receive much needed money for voting machines and the counties that upgraded voting machines prior to the 2000 general election will be reimbursed for the cost. But instead of stopping there, we had to keep going. We had to eliminate the second primary for two years, a concept that makes no sense to me. I wish we had made our supervisors of elections a non-partisan position. I wish we had not tampered with Public Campaign Financing which I believe has serious constitutional problems.

I voted for CS for SB 1118 because of the great need to repair serious flaws in our election process in Florida. However, in our effort to go beyond these serious needs, I'm afraid we will be back correcting our errors in future session.

*Rep. Doug Wiles
District 20*

Rep. Byrd moved that the House consider lists one and two and return to consideration of Messages from the Senate, which was agreed to.

In evaluating an inmate for this program, priority shall be given to inmates who have shown an indication for substance abuse. A right to substance-abuse-program services is not stated, intended, or otherwise implied by this subsection. The department may not remove an inmate once assigned to the program except for the purposes of population management, for inmate conduct that may subject the inmate to disciplinary confinement or loss of gain-time, for physical or mental health concerns, or for security or safety concerns. To support the programming component, the department shall assign a chaplain and a full-time clerical support person dedicated to each dormitory to implement and monitor the program and to strengthen volunteer participation and support. By January 1, 2004, the department shall submit an evaluation report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the faith-based dormitory program. The report must contain the findings from an extensive and scientifically sound evaluation of the program, including at least a longitudinal followup of the inmates who have successfully completed the program compared to other similar inmates who have not participated and an opinion survey of the faith-based service providers.

(4) *Effective October 1, 2001, the Department of Corrections shall assign chaplains to community correctional centers authorized pursuant to s. 945.091(1)(b). These chaplains shall strengthen volunteer participation by recruiting volunteers in the community to assist inmates in transition, and, if requested by the inmate, placement in a mentoring program or at a contracted substance-abuse-transition housing program upon the expiration of his or her sentence. When placing a released inmate in a contracted program the chaplain shall work with the institutional transition-assistance specialist in an effort to successfully place the released inmate.*

(5) *The department shall ensure that any faith component of any program authorized in this chapter is offered on a voluntary basis and, an offender's faith orientation, or lack thereof, will not be considered in determining admission to a faith-based program and that the program does not attempt to convert an offender toward a particular faith or religious preference.*

(6) *The department shall ensure that state funds are not expended for the purpose of furthering religious indoctrination, but rather, that state funds are expended for purposes of furthering the secular goals of criminal rehabilitation, the successful reintegration of offenders into the community, and the reduction of recidivism.*

Section 14. Subsection (1) of section 945.091, Florida Statutes, is amended to read:

945.091 Extension of the limits of confinement; restitution by employed inmates.—

(1) ~~The department may is authorized to adopt rules regulations~~ permitting the extension of the limits of the place of confinement of an inmate as to whom there is reasonable cause to believe that the inmate will honor his or her trust by authorizing the inmate, under prescribed conditions and following investigation and approval by the secretary, or the secretary's designee, who shall maintain a written record of such action, to leave the confines of that place unaccompanied by a custodial agent for a prescribed period of time to:

- (a) Visit, for a specified period, a specifically designated place or places:

1. For the purpose of visiting a dying relative, attending the funeral of a relative, or arranging for employment or for a suitable residence for use when released;

2. To otherwise aid in the rehabilitation of the inmate *and his or her successful transition into the community*; or

3. For another compelling reason consistent with the public interest, and return to the same or another institution or facility designated by the Department of Corrections.

(b) Work at paid employment, participate in an education or a training program, or voluntarily serve a public or nonprofit agency or *faith-based service group* in the community, while continuing as an inmate of the institution or facility in which the inmate is confined, except during the hours of his or her employment, education, training, or service and traveling thereto and therefrom.

1. An inmate may participate in paid employment only during the last 36 months of his or her confinement, unless sooner requested by the Parole Commission or the Control Release Authority.

2. *While working at paid employment and residing in the facility, an inmate may apply for placement at a contracted substance-abuse-transition housing program. The transition-assistance specialist shall inform the inmate of program availability and assess the inmate's need and suitability for transition-housing assistance. If an inmate is approved for placement, the specialist shall assist the inmate. If an inmate requests and is approved for placement in a contracted faith-based substance-abuse-transition housing program, the specialist must consult with the chaplain prior to such placement. The department shall ensure that an inmate's faith orientation, or lack thereof, will not be considered in determining admission to a faith-based program and that the program does not attempt to convert an inmate toward a particular faith or religious preference. Under no circumstances may any inmate be placed in contracted substance abuse transition housing or contracted faith-based substance abuse transition housing, until the inmate has served the entirety of his or her lawful prison sentence in accordance with s. 944.275 or other applicable law regarding percentage of sentence served.*

458.347 Physician assistants.—

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe any medication used in the supervisory physician's practice *unless* if such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician assistant may only prescribe such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician prior to any prescription being prescribed by the physician assistant.

2. The supervisory physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant.

3. The physician assistant must file with the department, before commencing to prescribe, evidence that he or she has completed a continuing medical education course of at least 3 classroom hours in prescriptive practice, conducted by an accredited program approved by the boards, which course covers the limitations, responsibilities, and privileges involved in prescribing medicinal drugs, or evidence that he or she has received education comparable to the continuing education course as part of an accredited physician assistant training program.

4. The physician assistant must file with the department, before commencing to prescribe, evidence that the physician assistant has a minimum of 3 months of clinical experience in the specialty area of the supervising physician.

7. The prescription must be written in a form that complies with chapter 499 and must contain, in addition to the supervisory physician's name, address, and telephone number, the physician assistant's prescriber number. *Unless it is a drug sample dispensed by the physician assistant*, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist

8. The physician assistant must note the prescription in the appropriate medical record, and the supervisory physician must review and sign each notation. For dispensing purposes only, the failure of the supervisory physician to comply with these requirements does not affect the validity of the prescription.

9. This paragraph does not prohibit a supervisory physician from delegating to a physician assistant the authority to order medication for a hospitalized patient of the supervisory physician.

This paragraph does not apply to facilities licensed pursuant to chapter 395.

3.2. Only the council committee shall add to, delete from, or modify the formulary. Any person who requests an addition, deletion, or modification of a medicinal drug listed on such formulary has the burden of proof to show cause why such addition, deletion, or modification should be made.

4.3. The boards shall adopt the formulary required by this paragraph, and each addition, deletion, or modification to the formulary, by rule. Notwithstanding any provision of chapter 120 to the contrary, the formulary rule shall be effective 60 days after the date it is filed with the Secretary of State. (10) *Set an examination fee that includes all costs to develop, purchase, validate, administer, and defend the examination and is an amount certain to cover all administrative costs plus the actual per-applicant cost of the examination.*

Section 6. Section 456.025, Florida Statutes, is amended to read:

456.025 Fees; receipts; disposition.—

(1) *It is the intent of the Legislature that all costs of regulating health care professions and practitioners shall be borne solely by licensees and licensure applicants. It is also the intent of the Legislature that fees should be reasonable and not serve as a barrier to licensure. Moreover, it is the intent of the Legislature that the department operate as efficiently as possible and regularly report to the Legislature additional methods to streamline operational costs. Therefore, the boards in consultation with the department, or the department if there is no board, shall, by rule, set renewal fees which:*

(a) *Shall be based on revenue projections prepared using generally accepted accounting procedures;*

(b) *Shall be adequate to cover all expenses relating to that board identified in the department's long-range policy plan, as required by s. 456.005;*

(2) *The chairpersons of the boards and councils listed in s. 20.43(3)(g) shall meet annually at division headquarters to review the long-range policy plan required by s. 456.005 and current and proposed fee schedules. The chairpersons shall make recommendations for any necessary statutory changes relating to fees and fee caps. Such recommendations shall be compiled by the Department of Health and be included in the annual report to the Legislature required by s. 456.026 as well as be included in the long-range policy plan required by s. 456.005.*

(2)(4) Each board within the jurisdiction of the department, or the department when there is no board, shall determine by rule the amount of license fees for the profession it regulates, based upon long-range

estimates prepared by the department of the revenue required to implement laws relating to the regulation of professions by the department and the board. Each board, or the department if there is no board, shall ensure that license fees are adequate to cover all anticipated costs and to maintain a reasonable cash balance, as determined by rule of the agency, with advice of the applicable board. If sufficient action is not taken by a board within 1 year after notification by the department that license fees are projected to be inadequate, the department shall set license fees on behalf of the applicable board to cover anticipated costs and to maintain the required cash balance. The department shall include recommended fee cap increases in its annual report to the Legislature. Further, it is the legislative intent that no regulated profession operate with a negative cash balance. The department may provide by rule for advancing sufficient funds to any profession operating with a negative cash balance. The advancement may be for a period not to exceed 2 consecutive years, and the regulated profession must pay interest. Interest shall be calculated at the current rate earned on investments of a trust fund used by the department to implement this chapter. Interest earned shall be allocated to the various funds in accordance with the allocation of investment earnings during the period of the advance.

(3)(2) Each board, or the department if there is no board, may charge a fee not to exceed \$25, as determined by rule, for the issuance of a wall certificate pursuant to s. 456.013(2) requested by a licensee who was licensed prior to July 1, 1998, or for the issuance of a duplicate wall certificate requested by any licensee.

(4)(3) Each board, or the department if there is no board, may, by rule, assess and collect a one-time fee from each active status licensee and each inactive status licensee in an amount necessary to eliminate a cash deficit or, if there is not a cash deficit, in an amount sufficient to maintain the financial integrity of the professions as required in this section. Not more than one such assessment may be made in any 4-year period without specific legislative authorization.

(5) *If the cash balance of the trust fund at the end of any fiscal year exceeds the total appropriation provided for the regulation of the health care professions in the prior fiscal year, the boards, in consultation with the department, may lower the license renewal fees.*

(6)(4) ~~Each board authorized to approve continuing education providers, or the department if there is no board, shall may establish, by rule, a fee not to exceed \$250 for anyone seeking approval to provide continuing education courses or programs and shall may establish by rule a biennial renewal fee not to exceed \$250 for the renewal of providership of such courses. The fees collected from continuing education providers shall be used for the purposes of reviewing course provider applications, monitoring the integrity of the courses provided, covering legal expenses incurred as a result of not granting or renewing a providership, and developing and maintaining an electronic continuing education tracking system. The department shall implement an electronic continuing education tracking system for each new biennial renewal cycle for which electronic renewals are implemented after the effective date of this act and shall integrate such system into the licensure and renewal system. All approved continuing education providers shall provide information on course attendance to the department necessary to implement the electronic tracking system. The department shall, by rule, specify the form and procedures by which the information is to be submitted. This subsection does not apply to continuing education courses or providers approved by the board under chapter 465.~~

(7)(5) All moneys collected by the department from fees or fines or from costs awarded to the agency by a court shall be paid into a trust fund used by the department to implement this chapter. The Legislature shall appropriate funds from this trust fund sufficient to carry out this chapter and the provisions of law with respect to professions regulated by the Division of Medical Quality Assurance within the department and the boards. The department may contract with public and private entities to receive and deposit revenue pursuant to this section. The department shall maintain separate accounts in the trust fund used by the department to implement this chapter for every profession within the department. To the maximum extent possible, the department shall

directly charge all expenses to the account of each regulated profession. For the purpose of this subsection, direct charge expenses include, but are not limited to, costs for investigations, examinations, and legal services. For expenses that cannot be charged directly, the department shall provide for the proportionate allocation among the accounts of expenses incurred by the department in the performance of its duties with respect to each regulated profession. The regulation by the department of professions, as defined in this chapter, shall be financed solely from revenue collected by it from fees and other charges and deposited in the Medical Quality Assurance Trust Fund, and all such revenue is hereby appropriated to the department. However, it is legislative intent that each profession shall operate within its anticipated fees. The department may not expend funds from the account of a profession to pay for the expenses incurred on behalf of another profession, except that the Board of Nursing must pay for any costs incurred in the regulation of certified nursing assistants. The department shall maintain adequate records to support its allocation of agency expenses. The department shall provide any board with reasonable access to these records upon request. *On or before October 1 of each year*, the department shall provide each board an annual report of revenue and direct and allocated expenses related to the operation of that profession. The board shall use these reports and the department's adopted long-range plan to determine the amount of license fees. A condensed version of this information, with the department's recommendations, shall be included in the annual report to the Legislature prepared under s. 456.026.

(8)(6) The department shall provide a condensed management report of budgets, finances, performance statistics, and recommendations to each board at least once a quarter. The department shall identify and include in such presentations any changes, or projected changes, made to the board's budget since the last presentation.

(9)(7) If a duplicate license is required or requested by the licensee, the board or, if there is no board, the department may charge a fee as determined by rule not to exceed \$25 before issuance of the duplicate license.

(10)(8) The department or the appropriate board shall charge a fee not to exceed \$25 for the certification of a public record. The fee shall be determined by rule of the department. The department or the appropriate board shall assess a fee for duplicating a public record as provided in s. 119.07(1)(a) and (b).

Section 7. Subsection (1) of section 457.107, Florida Statutes, is amended to read:

457.107 Renewal of licenses; continuing education.—

(1) The department shall renew a license upon receipt of the renewal application and the *required* fee set by the board by rule, not to exceed \$500.

483.807 Fees; establishment; disposition.—

(1) The board, by rule, shall establish fees to be paid for application, examination, reexamination, licensing and renewal, *registration, laboratory training program application*, reinstatement, and recordmaking and recordkeeping. The board may also establish, by rule, a delinquency fee. The board shall establish fees that are adequate to ensure the continued operation of the board and to fund the proportionate expenses incurred by the department in carrying out its licensure and other related responsibilities under this part. Fees shall be based on departmental estimates of the revenue required to implement this part and the provisions of law with respect to the regulation of clinical laboratory personnel.

Section 10. Subsections (1), (3), and (4) of section 456.011, Florida Statutes, are amended to read:

Unless otherwise provided by law, 51 percent or more of the appointed members of the board or any committee, when applicable, shall constitute a quorum. The membership of committees of the board, except as otherwise authorized pursuant to this chapter or the applicable practice act, shall be composed of currently appointed members of the board. The vote of a majority of the members of the quorum shall be necessary for any official action by the board or committee. Three consecutive unexcused absences or absences constituting 50 percent or more of the board's meetings within any 12-month period shall cause the board membership of the member in question to become void, and the position shall be considered vacant. The board, or the department when there is no board, shall, by rule, define unexcused absences.

Section 11. Subsection (2) of section 456.013, Florida Statutes, is amended to read:

456.013 Department; general licensing provisions.—

(2) Before the issuance of any license, the department ~~shall~~ *may* charge an initial license fee as determined by ~~rule of~~ the applicable board or, if no such board exists, by rule of the department. Upon receipt of the appropriate license fee, the department shall issue a license to any person certified by the appropriate board, or its designee, as having met the licensure requirements imposed by law or rule. The license shall consist of a wallet-size identification card and a wall card measuring 6½ inches by 5 inches. In addition to the two-part license, the department, at the time of initial licensure, shall issue a wall certificate suitable for conspicuous display, which shall be no smaller than 8½ inches by 14 inches. The licensee shall surrender to the department the wallet-size identification card, the wall card, and the wall certificate, if one has been issued by the department, if the licensee's license is revoked.

Section 12. Section 456.017, Florida Statutes, is amended to read:

456.017 Department of Health; examinations.—

(1)(a) The department shall provide, contract, or approve services for the development, preparation, administration, scoring, score reporting, and evaluation of all examinations, in consultation with the appropriate board. The department shall certify that examinations developed and approved by the department adequately and reliably measure an applicant's ability to practice the profession regulated by the department. After an examination developed or approved by the department has been administered, the board, or the department when there is no board, may reject any question which does not reliably measure the general areas of competency specified in the rules of the

board. The department may contract for the preparation, administration, scoring, score reporting, and evaluation of examinations, when such services are available and approved by the board.

(b) For each examination developed by the department or contracted vendor, to the extent not otherwise specified by statute, the board, or the department when there is no board, shall by rule specify the general areas of competency to be covered by each examination, the relative weight to be assigned in grading each area tested, and the score necessary to achieve a passing grade. ~~The department shall assess, and fees, where applicable, to cover the actual cost for any purchase, development, validation, and administration, and defense of required examinations.~~ This subsection does not apply to national examinations approved and administered pursuant to paragraph (c). If a practical examination is deemed to be necessary, the rules shall specify the criteria by which examiners are to be selected, the grading criteria to be used by the examiner, the relative weight to be assigned in grading each criterion, and the score necessary to achieve a passing grade. When a mandatory standardization exercise for a practical examination is required by law, the board, or the department when there is no board, may conduct such exercise. Therefore, board members, or employees of the department when there is no board, may serve as examiners at a practical examination with the consent of the board or department, as appropriate.

(c)1. The board, or the department when there is no board, ~~shall may~~ approve by rule the use of *one or more* ~~any~~ national examinations ~~examination~~ which the department has certified as meeting requirements of national examinations and generally accepted testing standards pursuant to department rules. Providers of examinations seeking certification by the department shall pay the actual costs incurred by the department in making a determination regarding the certification. The name and number of a candidate may be provided to a national contractor for the limited purpose of preparing the grade tape and information to be returned to the board or department; or, to the extent otherwise specified by rule, the candidate may apply directly to the vendor of the national examination and supply test score information to the department. The department may delegate to the board the duty to provide and administer the examination. Any national examination approved by a board, or the department when there is no board, prior to October 1, 1997, is deemed certified under this paragraph.

2. *The board, or the department when there is no board, shall approve and begin administering a national examination no later than December 31, 2001. Neither the board nor the department may administer a state-developed written examination after December 31, 2001, notwithstanding any other provision of law. The examination may be administered electronically if adequate security measures are used, as determined by rule of the department.*

3. *The board, or the department when there is no board, may administer a state-developed practical or clinical examination, as required by the applicable practice act, if all costs of development, purchase, validation, administration, review, and defense are paid by the examination candidate prior to the administration of the examination. If a national practical or clinical examination is available and certified by the department pursuant to this section, the board, or the department when there is no board, may administer the national examination.*

4. *It is the intent of the Legislature to reduce the costs associated with state examinations and to encourage the use of national examinations whenever possible.*

(d) Each board, or the department when there is no board, shall adopt rules regarding the security and monitoring of examinations. The department shall implement those rules adopted by the respective boards. In order to maintain the security of examinations, the department may employ the procedures set forth in s. 456.065 to seek fines and injunctive relief against an examinee who violates the provisions of s. 456.018 or the rules adopted pursuant to this paragraph. The department, or any agent thereof, may, for the purposes of

investigation, confiscate any written, photographic, or recording material or device in the possession of the examinee at the examination site which the department deems necessary to enforce such provisions or rules. *The scores of candidates who have taken state-developed examinations shall be provided to the candidates electronically using a candidate identification number, and the department shall post the aggregate scores on the department's website without identifying the names of the candidates.*

(e) If the professional board with jurisdiction over an examination concurs, the department may, for a fee, share with any other state's licensing authority or a national testing entity an examination or examination item bank developed by or for the department unless prohibited by a contract entered into by the department for development or purchase of the examination. The department, with the concurrence of the appropriate board, shall establish guidelines that ensure security of a shared exam and shall require that any other state's licensing authority comply with those guidelines. Those guidelines shall be approved by the appropriate professional board. All fees paid by the user shall be applied to the department's examination and development program for professions regulated by this chapter.

(f) The department may adopt rules necessary to administer this subsection.

(2) For each examination developed by the department or a contracted vendor, the board, or the department when there is no board, shall adopt rules providing for reexamination of any applicants who failed an examination developed by the department or a contracted vendor. If both a written and a practical examination are given, an applicant shall be required to retake only the portion of the examination on which the applicant failed to achieve a passing grade, if the applicant successfully passes that portion within a reasonable time, as determined by rule of the board, or the department when there is no board, of passing the other portion. Except for national examinations approved and administered pursuant to this section, the department shall provide procedures for applicants who fail an examination developed by the department or a contracted vendor to review their examination questions, answers, papers, grades, and grading key for the questions the candidate answered incorrectly or, if not feasible, the parts of the examination failed. Applicants shall bear the actual cost for the department to provide examination review pursuant to this subsection. An applicant may waive in writing the confidentiality of the applicant's examination grades. *Notwithstanding any other provision of law, only candidates who fail an examination by less than 10 percent shall be entitled to challenge the validity of the examination at hearing.*

(3) For each examination developed or administered by the department or a contracted vendor, an accurate record of each applicant's examination questions, answers, papers, grades, and grading key shall be kept for a period of not less than 2 years immediately following the examination, and such record shall thereafter be maintained or destroyed as provided in chapters 119 and 257. This subsection does not apply to national examinations approved and administered pursuant to this section.

(4) Meetings of any member of the department or of any board within the department held for the exclusive purpose of creating or reviewing licensure examination questions or proposed examination questions are exempt from the provisions of s. 286.011 and s. 24(b), Art. I of the State Constitution. Any public records, such as tape recordings, minutes, or notes, generated during or as a result of such meetings are confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution. However, these exemptions shall not affect the right of any person to review an examination as provided in subsection (2).

(5) For examinations developed by the department or a contracted vendor, each board, or the department when there is no board, may provide licensure examinations in an applicant's native language. *Notwithstanding any other provision of law*, applicants for examination or reexamination pursuant to this subsection shall bear the full cost for the department's development, preparation, *validation*, administration, grading, and evaluation of any examination in a language other than

English prior to the examination being administered. Requests for translated examinations must be on file in the board office at least 6 months prior to the scheduled examination. When determining whether it is in the public interest to allow the examination to be translated into a language other than English, the board shall consider the percentage of the population who speak the applicant's native language. Applicants must apply for translation to the applicable board at least 6 months prior to the scheduled examination.

(6) In addition to meeting any other requirements for licensure by examination or by endorsement, and notwithstanding the provisions in paragraph (1)(c), an applicant may be required by a board, or the department when there is no board, to certify competency in state laws and rules relating to the applicable practice act. *Beginning October 1, 2001, all laws and rules examinations shall be administered electronically unless the laws and rules examination is administered concurrently with another written examination for that profession or unless the electronic administration would be substantially more expensive.*

Section 13. Subsection (1) of section 456.035, Florida Statutes, is amended to read:

456.035 Address of record.—

(1) Each licensee of the department is solely responsible for notifying the department in writing of the licensee's current mailing address and place of practice, as defined by rule of the board or the department if there is no board. *Electronic notification shall be allowed by the department; however, it shall be the responsibility of the licensee to ensure that the electronic notification was received by the department.* A licensee's failure to notify the department of a change of address constitutes a violation of this section, and the licensee may be disciplined by the board or the department if there is no board.

Section 14. Subsections (2), (4), and (10) of section 456.073, Florida Statutes, are amended to read:

456.073 Disciplinary proceedings.—Disciplinary proceedings for each board shall be within the jurisdiction of the department.

(2) The department shall allocate sufficient and adequately trained staff to expeditiously and thoroughly determine legal sufficiency and investigate all legally sufficient complaints. For purposes of this section, it is the intent of the Legislature that the term "expeditiously" means that the department complete the report of its initial investigative findings and recommendations concerning the existence of probable cause within 6 months after its receipt of the complaint. The failure of the department, for disciplinary cases under its jurisdiction, to comply with the time limits of this section while investigating a complaint against a licensee constitutes harmless error in any subsequent disciplinary action unless a court finds that either the fairness of the proceeding or the correctness of the action may have been impaired by a material error in procedure or a failure to follow prescribed procedure. When its investigation is complete and legally sufficient, the department shall prepare and submit to the probable cause panel of the appropriate regulatory board the investigative report of the department. The report shall contain the investigative findings and the recommendations of the department concerning the existence of probable cause. *The department shall not recommend a letter of guidance in lieu of finding probable cause if the subject has already been issued a letter of guidance for a related offense.* At any time after legal sufficiency is found, the department may dismiss any case, or any part thereof, if the department determines that there is insufficient evidence to support the prosecution of allegations contained therein. The department shall provide a detailed report to the appropriate probable cause panel prior to dismissal of any case or part thereof, and to the subject of the complaint after dismissal of any case or part thereof, under this section. For cases dismissed prior to a finding of probable cause, such report is confidential and exempt from s. 119.07(1). The probable cause panel shall have access, upon request, to the investigative files pertaining to a case prior to dismissal of such case. If the department dismisses a case, the probable cause panel may retain independent legal counsel, employ investigators, and continue the investigation and prosecution of the case as it deems necessary.

(4) The determination as to whether probable cause exists shall be made by majority vote of a probable cause panel of the board, or by the department, as appropriate. Each regulatory board shall provide by rule that the determination of probable cause shall be made by a panel of its members or by the department. Each board may provide by rule for multiple probable cause panels composed of at least two members. Each board may provide by rule that one or more members of the panel or panels may be a former board member. The length of term or repetition of service of any such former board member on a probable cause panel may vary according to the direction of the board when authorized by board rule. Any probable cause panel must include one of the board's former or present consumer members, if one is available, is willing to serve, and is authorized to do so by the board chair. Any probable cause panel must include a present board member. Any probable cause panel must include a former or present professional board member. However, any former professional board member serving on the probable cause panel must hold an active valid license for that profession. All proceedings of the panel are exempt from s. 286.011 until 10 days after probable cause has been found to exist by the panel or until the subject of the investigation waives his or her privilege of confidentiality. The probable cause panel may make a reasonable request, and upon such request the department shall provide such additional investigative information as is necessary to the determination of probable cause. A request for additional investigative information shall be made within 15 days from the date of receipt by the probable cause panel of the investigative report of the department or the agency. The probable cause panel or the department, as may be appropriate, shall make its determination of probable cause within 30 days after receipt by it of the final investigative report of the department. The secretary may grant extensions of the 15-day and the 30-day time limits. In lieu of a finding of probable cause, the probable cause panel, or the department if there is no board, may issue a letter of guidance to the subject. If, within the 30-day time limit, as may be extended, the probable cause panel does not make a determination regarding the existence of probable cause or does not issue a letter of guidance in lieu of a finding of probable cause, the department must make a determination regarding the existence of probable cause within 10 days after the expiration of the time limit. If the probable cause panel finds that probable cause exists, it shall direct the department to file a formal complaint against the licensee. The department shall follow the directions of the probable cause panel regarding the filing of a formal complaint. If directed to do so, the department shall file a formal complaint against the subject of the investigation and prosecute that complaint pursuant to chapter 120. However, the department may decide not to prosecute the complaint if it finds that probable cause has been improvidently found by the panel. In such cases, the department shall refer the matter to the board. The board may then file a formal complaint and prosecute the complaint pursuant to chapter 120. The department shall also refer to the board any investigation or disciplinary proceeding not before the Division of Administrative Hearings pursuant to chapter 120 or otherwise completed by the department within 1 year after the filing of a complaint. The department, for disciplinary cases under its jurisdiction, must establish a uniform reporting system to quarterly refer to each board the status of any investigation or disciplinary proceeding that is not before the Division of Administrative Hearings or otherwise completed by the department within 1 year after the filing of the complaint. Annually, the department, *in consultation with the applicable probable cause panel, if there is no board, or each board* must establish a plan to expedite ~~reduce~~ or otherwise close any investigation or disciplinary proceeding that is not before the Division of Administrative Hearings or otherwise completed by the department within 1 year after the filing of the complaint. A probable cause panel or a board may retain independent legal counsel, employ investigators, and continue the investigation as it deems necessary; all costs thereof shall be paid from a trust fund used by the department to implement this chapter. All proceedings of the probable cause panel are exempt from s. 120.525.

(10) The complaint and all information obtained pursuant to the investigation by the department are confidential and exempt from s. 119.07(1) until 10 days after probable cause has been found to exist by the probable cause panel or by the department, or until the regulated

professional or subject of the investigation waives his or her privilege of confidentiality, whichever occurs first. Upon completion of the investigation *and a recommendation by the department to find probable cause*, and pursuant to a written request by the subject or the subject's attorney, the department shall provide the subject an opportunity to inspect the investigative file or, at the subject's expense, forward to the subject a copy of the investigative file. Notwithstanding s. 456.057, the subject may inspect or receive a copy of any expert witness report or patient record connected with the investigation if the subject agrees in writing to maintain the confidentiality of any information received under this subsection until 10 days after probable cause is found and to maintain the confidentiality of patient records pursuant to s. 456.057. The subject may file a written response to the information contained in the investigative file. Such response must be filed within 20 days of mailing by the department, unless an extension of time has been granted by the department. This subsection does not prohibit the department from providing such information to any law enforcement agency or to any other regulatory agency.

Section 15. Section 456.081, Florida Statutes, is amended to read:

456.081 Publication of information.—The department and the boards shall have the authority to advise licensees periodically, through the publication of a newsletter *on the department's website*, about information that the department or the board determines is of interest to the industry. Unless otherwise prohibited by law, the department and the boards shall publish a summary of final orders resulting in ~~disciplinary action fines, suspensions, or revocations~~, and any other information the department or the board determines is of interest to the public.

Section 16. Paragraphs (c) and (q) of subsection (1) of section 456.072, Florida Statutes, are amended, paragraphs (aa), (bb), and (cc) are added to said subsection, paragraphs (c), (d), and (e) of subsection (2) and subsection (4) are amended, and paragraphs (i) and (j) are added to subsection (2) of said section, to read:

456.072 Grounds for discipline; penalties; enforcement.—

(1) The following acts shall constitute grounds for which the disciplinary actions specified in subsection (2) may be taken:

(c) Being convicted or found guilty of, or entering a plea of *guilty* or *nolo contendere* to, regardless of adjudication, a crime in any jurisdiction which relates to the practice of, or the ability to practice, a licensee's profession.

(q) ~~Violating any provision of this chapter, the applicable professional practice act, a rule of the department or the board, or a lawful order of the department or the board, or failing to comply with a lawfully issued subpoena of the department.~~

(aa) *Performing or attempting to perform health care services on the wrong patient, a wrong-site procedure, a wrong procedure, or an unauthorized procedure or a procedure that is medically unnecessary or otherwise unrelated to the patient's diagnosis or medical condition. For the purposes of this paragraph, performing or attempting to perform health care services includes the preparation of the patient.*

(bb) *Leaving a foreign body in a patient, such as a sponge, clamp, forceps, surgical needle, or other paraphernalia commonly used in surgical, examination, or other diagnostic procedures. For the purposes of this paragraph, it shall be legally presumed that retention of a foreign body is not in the best interest of the patient and is not within the standard of care of the profession, regardless of the intent of the professional.*

(cc) *Violating any provision of this chapter, the applicable practice act, or any rules adopted pursuant thereto.*

(2) When the board, or the department when there is no board, finds any person guilty of the grounds set forth in subsection (1) or of any grounds set forth in the applicable practice act, including conduct constituting a substantial violation of subsection (1) or a violation of the applicable practice act which occurred prior to obtaining a license, it may enter an order imposing one or more of the following penalties:

(c) Restriction of practice or license, *including, but not limited to, restricting the licensee from practicing in certain settings, restricting the licensee to work only under designated conditions or in certain settings, restricting the licensee from performing or providing designated clinical and administrative services, restricting the licensee from practicing more than a designated number of hours, or any other restriction found to be necessary for the protection of the public health, safety, and welfare.*

(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense. *If the violation is for fraud or making a false or fraudulent representation, the board, or the department if there is no board, must impose a fine of \$10,000 per count or offense.*

(e) Issuance of a reprimand or letter of concern.

(i) *Refund of fees billed and collected from the patient or a third party on behalf of the patient.*

(j) *Requirement that the practitioner undergo remedial education.*

In determining what action is appropriate, the board, or department when there is no board, must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the practitioner. All costs associated with compliance with orders issued under this subsection are the obligation of the practitioner.

(4) In addition to any other discipline imposed *through final order, or citation, entered on or after July 1, 2001*, pursuant to this section or discipline imposed *through final order, or citation, entered on or after July 1, 2001*, for a violation of any practice act, the board, or the department when there is no board, ~~shall may~~ assess costs related to the investigation and prosecution of the case. In any case where the board or the department imposes a fine or assessment and the fine or assessment is not paid within a reasonable time, such reasonable time to be prescribed in the rules of the board, or the department when there is no board, or in the order assessing such fines or costs, the department or the Department of Legal Affairs may contract for the collection of, or bring a civil action to recover, the fine or assessment.

Section 17. Subsection (3) of section 456.079, Florida Statutes, is amended to read:

456.079 Disciplinary guidelines.—

(3) A specific finding *in the final order* of mitigating or aggravating circumstances shall allow the board to impose a penalty other than that provided for in such guidelines. If applicable, the board, or the department if there is no board, shall adopt by rule disciplinary guidelines to designate possible mitigating and aggravating circumstances and the variation and range of penalties permitted for such circumstances.

Section 18. Subsections (1) and (2) of section 457.109, Florida Statutes, are amended to read:

457.109 Disciplinary actions; grounds; action by the board.—

(1) The following acts ~~shall~~ constitute grounds for *denial of a license or disciplinary action, as specified in s. 456.072(2) which the disciplinary actions specified in subsection (2) may be taken:*

(a) Attempting to obtain, obtaining, or renewing a license to practice acupuncture by bribery, by fraudulent misrepresentations, or through an error of the department.

(b) Having a license to practice acupuncture revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, in any jurisdiction of a crime which directly relates to the practice of acupuncture or to the ability to practice acupuncture. Any plea of *nolo contendere* shall be considered a conviction for purposes of this chapter.

(e) Advertising, practicing, or attempting to practice under a name other than one's own.

(f) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department.

(h) Failing to perform any statutory or legal obligation placed upon a licensed acupuncturist.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such reports or records shall include only those which are signed in the capacity as a licensed acupuncturist.

(n) Exercising influence on the patient to exploit the patient for the financial gain of the licensee or of a third party.

(o) Being unable to practice acupuncture with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, upon a finding of the secretary or the secretary's designee that probable cause exists to believe that the licensee is unable to serve as an acupuncturist due to the reasons stated in this paragraph, the department shall have the authority to issue an order to compel the licensee to submit to a mental or physical examination by a physician designated by the department. If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or serves as an acupuncturist. The licensee against whom the petition is filed shall not be named or identified by initials in any public court record or document, and the proceedings shall be closed to the public. The department shall be entitled to the summary procedure provided in s. 51.011. An acupuncturist affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of acupuncture with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the department shall be used against an acupuncturist in any other proceeding.

(p) Gross or repeated malpractice or the failure to practice acupuncture with that level of care, skill, and treatment which is recognized by a reasonably prudent similar acupuncturist as being acceptable under similar conditions and circumstances.

(q) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that he or she is not competent to perform.

(r) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know

that such person is not qualified by training, experience, or licensure to perform them.

(s) Violating ~~any provision of this chapter, a rule of the department, or a lawful order of the board department~~ previously entered in a disciplinary hearing or failing to comply with a lawfully issued subpoena of the department.

(t) Conspiring with another to commit an act, or committing an act, which would tend to coerce, intimidate, or preclude another licensee from lawfully advertising his or her services.

(u) Fraud or deceit or gross negligence, incompetence, or misconduct in the operation of a course of study.

(v) Failing to comply with state, county, or municipal regulations or reporting requirements relating to public health and the control of contagious and infectious diseases.

(w) Failing to comply with any rule of the board relating to health and safety, including, but not limited to, the sterilization of needles and equipment and the disposal of potentially infectious materials.

(x) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

(2) *The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the acts set forth in subsection (1), it may enter an order imposing one or more of the following penalties:*

458.320 Financial responsibility.—

(6) Any deceptive, untrue, or fraudulent representation by the licensee with respect to any provision of this section shall result in permanent disqualification from any exemption to mandated financial responsibility as provided in this section and shall constitute grounds for disciplinary action ~~under as specified in s. 458.331.~~

Section 20. Subsections (1) and (2) of section 458.331, Florida Statutes, are amended to read:

458.331 Grounds for disciplinary action; action by the board and department.—

The licensing authority's acceptance of a physician's relinquishment of a license, stipulation, consent order, or other settlement, offered in response to or in anticipation of the filing of

administrative charges against the physician's license, shall be construed as action against the physician's license.

(d) False, deceptive, or misleading advertising.

Such reports or records shall include only those which are signed in the capacity as a licensed physician.

(i) Paying or receiving any commission, bonus, kickback, or rebate, or engaging in any split-fee arrangement in any form whatsoever with a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent a physician from receiving a fee for professional consultation services.

(j) Exercising influence within a patient-physician relationship for purposes of engaging a patient in sexual activity. A patient shall be presumed to be incapable of giving free, full, and informed consent to sexual activity with his or her physician.

(k) Making deceptive, untrue, or fraudulent representations in or related to the practice of medicine or employing a trick or scheme in the practice of medicine.

(n) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party, which shall include, but not be limited to, the promoting or selling of services, goods, appliances, or drugs.

(o) Promoting or advertising on any prescription form of a community pharmacy unless the form shall also state "This prescription may be filled at any pharmacy of your choice."

(p) Performing professional services which have not been duly authorized by the patient or client, or his or her legal representative, except as provided in s. 743.064, s. 766.103, or s. 768.13.

(q) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including any controlled substance, other than in the course of the physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the physician's professional practice, without regard to his or her intent.

(r) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the physician to himself or herself, except one prescribed, dispensed, or administered to the physician by another practitioner authorized to prescribe, dispense, or administer medicinal drugs.

(s) Being unable to practice medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon a finding of the secretary or the secretary's designee that probable cause exists to believe that the licensee is unable to practice medicine because of the reasons stated in this paragraph, the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the department. If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or does business. The licensee against whom the petition is filed may not be named or identified by initials in any public court records or documents, and the proceedings shall be closed to the public. The department shall be entitled to the summary procedure provided in s. 51.011. A licensee or certificateholder affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of medicine with reasonable skill and safety to patients.

(t) Gross or repeated malpractice or the failure to practice medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances. As used in this paragraph, "repeated malpractice" includes, but is not limited to, three or more claims for medical malpractice within the previous 5-year period resulting in indemnities being paid in excess of \$25,000 each to the claimant in a judgment or settlement and which incidents involved negligent conduct by the physician. As used in this paragraph, "gross malpractice" or "the failure to practice medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances," shall not be construed so as to require more than one instance, event, or act. Nothing in this paragraph shall be construed to require that a physician be incompetent to practice medicine in order to be disciplined pursuant to this paragraph.

(u) Performing any procedure or prescribing any therapy which, by the prevailing standards of medical practice in the community, would constitute experimentation on a human subject, without first obtaining full, informed, and written consent.

(v) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that he or she is not competent to perform. The board may establish by rule standards of practice and standards of care for particular practice settings, including, but not limited to, education and training, equipment and supplies, medications including anesthetics, assistance of and delegation to other personnel, transfer agreements, sterilization, records, performance of complex or multiple procedures, informed consent, and policy and procedure manuals.

(w) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

(x) Violating ~~any provision of this chapter, a rule of the board or department, or~~ a lawful order of the board or department previously entered in a disciplinary hearing or failing to comply with a lawfully issued subpoena of the department.

(y) Conspiring with another licensee or with any other person to commit an act, or committing an act, which would tend to coerce, intimidate, or preclude another licensee from lawfully advertising his or her services.

(z) Procuring, or aiding or abetting in the procuring of, an unlawful termination of pregnancy.

(aa) Presigning blank prescription forms.

(bb) Prescribing any medicinal drug appearing on Schedule II in chapter 893 by the physician for office use.

1. The treatment of narcolepsy; hyperkinesia; behavioral syndrome characterized by the developmentally inappropriate symptoms of moderate to severe distractibility, short attention span, hyperactivity, emotional lability, and impulsivity; or drug-induced brain dysfunction;

2. The differential diagnostic psychiatric evaluation of depression or the treatment of depression shown to be refractory to other therapeutic modalities; or

3. The clinical investigation of the effects of such drugs or compounds when an investigative protocol therefor is submitted to, reviewed, and approved by the board before such investigation is begun.

(dd) Failing to supervise adequately the activities of those physician assistants, paramedics, emergency medical technicians, or advanced registered nurse practitioners acting under the supervision of the physician.

(ee) Prescribing, ordering, dispensing, administering, supplying, selling, or giving growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), or other hormones for the purpose of muscle building or to enhance athletic performance. For the purposes of this subsection, the term "muscle building" does not include the treatment of injured muscle. A prescription written for the drug products listed above may be dispensed by the pharmacist with the presumption that the prescription is for legitimate medical use.

(ff) Prescribing, ordering, dispensing, administering, supplying, selling, or giving amygdalin (laetrile) to any person.

(gg) Misrepresenting or concealing a material fact at any time during any phase of a licensing or disciplinary process or procedure.

(hh) Improperly interfering with an investigation or with any disciplinary proceeding.

(ii) Failing to report to the department any licensee under this chapter or under chapter 459 who the physician or physician assistant knows has violated the grounds for disciplinary action set out in the law under which that person is licensed and who provides health care services in a facility licensed under chapter 395, or a health maintenance organization certificated under part I of chapter 641, in which the physician or physician assistant also provides services.

(jj) Being found by any court in this state to have provided corroborating written medical expert opinion attached to any statutorily required notice of claim or intent or to any statutorily required response rejecting a claim, without reasonable investigation.

(kk) Failing to report to the board, in writing, within 30 days if action as defined in paragraph (b) has been taken against one's license to practice medicine in another state, territory, or country.

(ll) Advertising or holding oneself out as a board-certified specialist, if not qualified under s. 458.3312, in violation of this chapter.

(mm) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(nn) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

(2) The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), including conduct that would constitute a substantial violation of subsection (1) which occurred prior to licensure, it may enter an order imposing one or more of the following penalties:

(a) Refusal to certify, or certification with restrictions, to the department an application for licensure, certification, or registration.

(b) Revocation or suspension of a license.

(c) Restriction of practice.

(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.

(e) Issuance of a reprimand.

(f) Placement of the physician on probation for a period of time and subject to such conditions as the board may specify, including, but not limited to, requiring the physician to submit to treatment, to attend continuing education courses, to submit to reexamination, or to work under the supervision of another physician.

(g) Issuance of a letter of concern.

(h) Corrective action.

(i) Refund of fees billed to and collected from the patient.

(j) Imposition of an administrative fine in accordance with s. 381.0261 for violations regarding patient rights.

In determining what action is appropriate, the board must first consider what sanctions are necessary to protect the public or to compensate the patient. Only after those sanctions have been imposed may the disciplining authority consider and include in the order requirements designed to rehabilitate the physician. All costs associated with compliance with orders issued under this subsection are the obligation of the physician.

Section 21. Subsection (2) of section 458.345, Florida Statutes, is amended to read:

458.345 Registration of resident physicians, interns, and fellows; list of hospital employees; prescribing of medicinal drugs; penalty.—

(2) The board shall not certify to the department for registration any applicant who is under investigation in any state or jurisdiction for an act which would constitute *grounds* the basis for imposing a disciplinary action under penalty specified in s. 458.331(2)(b) until such time as the investigation is completed, at which time the provisions of s. 458.331 shall apply.

Section 22. Paragraph (g) of subsection (7) of section 458.347, Florida Statutes, is amended to read:

458.347 Physician assistants.—

(7) PHYSICIAN ASSISTANT LICENSURE.—

(g) The Board of Medicine may impose any of the penalties authorized under ~~specified in~~ ss. 456.072 and 458.331(2) upon a physician assistant if the physician assistant or the supervising physician has been found guilty of or is being investigated for any act that constitutes a violation of this chapter or chapter 456.

459.0085 Financial responsibility.—

(6) Any deceptive, untrue, or fraudulent representation by the licensee with respect to any provision of this section shall result in permanent disqualification from any exemption to mandated financial responsibility as provided in this section and shall constitute grounds for disciplinary action ~~under as specified in s. 459.015.~~

Section 24. Subsections (1) and (2) of section 459.015, Florida Statutes, are amended to read:

459.015 Grounds for disciplinary action; action by the board and department.—

(1) The following acts shall constitute grounds for *denial of a license or disciplinary action, as specified in s. 456.072(2)* ~~which the disciplinary actions specified in subsection (2) may be taken:~~

(b) Having a license or the authority to practice osteopathic medicine revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of any jurisdiction, including its agencies or subdivisions. The licensing authority's acceptance of a physician's relinquishment of license, stipulation, consent order, or other settlement offered in response to or in anticipation of the filing of administrative charges against the physician shall be construed as action against the physician's license.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of osteopathic medicine or to the ability to practice osteopathic medicine. A plea of nolo contendere shall create a rebuttable presumption of guilt to the underlying criminal charges.

(d) False, deceptive, or misleading advertising.

(e) Failing to report to the department or the department's impaired professional consultant any person who the licensee or certificateholder knows is in violation of this chapter or of the rules of the department or the board. (i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing, or inducing another person to do so. Such reports or records shall include only those which are signed in the capacity as a licensed osteopathic physician.

(j) Paying or receiving any commission, bonus, kickback, or rebate, or engaging in any split-fee arrangement in any form whatsoever with a physician, organization, agency, person, partnership, firm, corporation, or other business entity, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent an osteopathic physician from receiving a fee for professional consultation services.

(k) Refusing to provide health care based on a patient's participation in pending or past litigation or participation in any disciplinary action

conducted pursuant to this chapter, unless such litigation or disciplinary action directly involves the osteopathic physician requested to provide services.

(t) Prescribing, dispensing, administering, supplying, selling, giving, mixing, or otherwise preparing a legend drug, including all controlled substances, other than in the course of the osteopathic physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, supplying, selling, giving, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the osteopathic physician's professional practice, without regard to his or her intent.

In enforcing this paragraph, the department shall, upon a finding of the secretary or the secretary's designee that probable cause exists to believe that the licensee is unable to practice medicine because of the reasons stated in this paragraph, have the authority to issue an order to compel a licensee to submit to a mental or physical examination by physicians designated by the

department. If the licensee refuses to comply with such order, the department's order directing such examination may be enforced by filing a petition for enforcement in the circuit court where the licensee resides or does business. The licensee against whom the petition is filed shall not be named or identified by initials in any public court records or documents, and the proceedings shall be closed to the public. The department shall be entitled to the summary procedure provided in s. 51.011. (x) Gross or repeated malpractice or the failure to practice osteopathic medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar osteopathic physician as being acceptable under similar conditions and circumstances. The board shall give great weight to the provisions of s. 766.102 when enforcing this paragraph. As used in this paragraph, "repeated malpractice" includes, but is not limited to, three or more claims for medical malpractice within the previous 5-year period resulting in indemnities being paid in excess of \$25,000 each to the claimant in a judgment or settlement and which incidents involved negligent conduct by the osteopathic physician. Nothing in this paragraph shall be construed to require that an osteopathic physician be incompetent to practice osteopathic medicine in order to be disciplined pursuant to this paragraph. A recommended order by an administrative law judge or a final order of the board finding a violation under this paragraph shall specify whether the licensee was found to have committed "gross malpractice," "repeated malpractice," or "failure to practice osteopathic medicine with that level of care, skill, and treatment which is recognized as being acceptable under similar conditions and circumstances," or any combination thereof, and any publication by the board shall so specify.

(y) Performing any procedure or prescribing any therapy which, by the prevailing standards of medical practice in the community, would constitute experimentation on human subjects, without first obtaining full, informed, and written consent.

(z) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that he or she is not competent to perform. The board may establish by rule standards of practice and standards of care for particular practice settings, including, but not limited to, education and training, equipment and supplies, medications including anesthetics, assistance of and delegation to other personnel, transfer agreements, sterilization, records, performance of complex or multiple procedures, informed consent, and policy and procedure manuals.

Section 26. Subsections (1) and (2) of section 460.413, Florida Statutes, are amended to read:

460.413 Grounds for disciplinary action; action by board or department.—

(b) Having a license to practice chiropractic medicine revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of chiropractic medicine or to the ability to practice chiropractic medicine. Any plea of nolo contendere shall be considered a conviction for purposes of this chapter.

(d) False, deceptive, or misleading advertising.

(e) Causing to be advertised, by any means whatsoever, any advertisement which does not contain an assertion or statement which would identify herself or himself as a chiropractic physician or identify such chiropractic clinic or related institution in which she or he practices or in which she or he is owner, in whole or in part, as a chiropractic institution.

(f) Advertising, practicing, or attempting to practice under a name other than one's own.

(g) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department or the board.

(h) Aiding, assisting, procuring, or advising any unlicensed person to practice chiropractic medicine contrary to this chapter or to a rule of the department or the board.

(i) Failing to perform any statutory or legal obligation placed upon a licensed chiropractic physician.

(j) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. (m) Failing to keep legibly written chiropractic medical records that identify clearly by name and credentials the licensed chiropractic physician rendering, ordering, supervising, or billing for each examination or treatment procedure and that justify the course of treatment of the patient, including, but not limited to, patient histories, examination results, test results, X rays, and diagnosis of a disease, condition, or injury. X rays need not be retained for more than 4 years.

(n) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party which shall include, but not be limited to, the promotion or sale of services, goods or appliances, or drugs.

(q) Being unable to practice chiropractic medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, upon a finding by the secretary of the department, or his or her designee, or the probable cause panel of the board that probable cause exists to believe that the licensee is unable to practice the profession because of reasons stated in this paragraph, the department shall have the authority to compel a licensee to submit to a mental or physical examination by a physician designated by the department. If the licensee refuses to comply with the department's order, the department may file a petition for enforcement in the circuit court of the circuit in which the licensee resides or does business. The department shall be entitled to the summary procedure provided in s. 51.011. The record of proceedings to obtain a compelled mental or physical examination shall not be used against a licensee in any other proceedings. A chiropractic physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of chiropractic medicine with reasonable skill and safety to patients.

(r) Gross or repeated malpractice or the failure to practice chiropractic medicine at a level of care, skill, and treatment which is recognized by a reasonably prudent chiropractic physician as being acceptable under similar conditions and circumstances. The board shall give great weight to the standards for malpractice in s. 766.102 in

interpreting this provision. A recommended order by an administrative law judge, or a final order of the board finding a violation under this section shall specify whether the licensee was found to have committed "gross malpractice," "repeated malpractice," or "failure to practice chiropractic medicine with that level of care, skill, and treatment which is recognized as being acceptable under similar conditions and circumstances" or any combination thereof, and any publication by the board shall so specify.

(x) Submitting to any third-party payor a claim for a service or treatment which was not actually provided to a patient.

(y) Failing to preserve identity of funds and property of a patient. As provided by rule of the board, money or other property entrusted to a chiropractic physician for a specific purpose, including advances for costs and expenses of examination or treatment, is to be held in trust and must be applied only to that purpose. Money and other property of patients coming into the hands of a chiropractic physician are not subject to counterclaim or setoff for chiropractic physician's fees, and a refusal to account for and deliver over such money and property upon demand shall be deemed a conversion. This is not to preclude the retention of money or other property upon which the chiropractic physician has a valid lien for services or to preclude the payment of agreed fees from the proceeds of transactions for examinations or treatments. Controversies as to the amount of the fees are not grounds for disciplinary proceedings unless the amount demanded is clearly excessive or extortionate, or the demand is fraudulent. All funds of patients paid to a chiropractic physician, other than advances for costs and expenses, shall be deposited in one or more identifiable bank accounts maintained in the state in which the chiropractic physician's office is situated, and no funds belonging to the chiropractic physician shall be deposited therein except as follows:

1. Funds reasonably sufficient to pay bank charges may be deposited therein.

2. Funds belonging in part to a patient and in part presently or potentially to the physician must be deposited therein, but the portion belonging to the physician may be withdrawn when due unless the right of the physician to receive it is disputed by the patient, in which event the disputed portion shall not be withdrawn until the dispute is finally resolved.

Every chiropractic physician shall maintain complete records of all funds, securities, and other properties of a patient coming into the possession of the physician and render appropriate accounts to the patient regarding them. In addition, every chiropractic physician shall promptly pay or deliver to the patient, as requested by the patient, the funds, securities, or other properties in the possession of the physician which the patient is entitled to receive.

(z) Offering to accept or accepting payment for services rendered by assignment from any third-party payor after offering to accept or accepting whatever the third-party payor covers as payment in full, if the effect of the offering or acceptance is to eliminate or give the impression of eliminating the need for payment by an insured of any required deductions applicable in the policy of the insured.

(aa) Failing to provide, upon request of the insured, a copy of a claim submitted to any third-party payor for service or treatment of the insured.

(bb) Advertising a fee or charge for a service or treatment which is different from the fee or charge the licensee submits to third-party payors for that service or treatment.

(ff) Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.

(2) The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), it may enter an order imposing one or more of the following penalties:

~~(a) Refusal to certify to the department an application for licensure.~~

~~(b) Revocation or suspension of a license.~~

~~(c) Restriction of practice.~~

~~(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.~~

with compliance with orders issued under this subsection are the obligation of the chiropractic physician.

Section 27. Subsections (1) and (2) of section 461.013, Florida Statutes, are amended to read:

461.013 Grounds for disciplinary action; action by the board; investigations by department.—

(1) The following acts shall constitute grounds for *denial of a license or disciplinary action, as specified in s. 456.072(2)* ~~which the disciplinary actions specified in subsection (2) may be taken:~~

(a) Attempting to obtain, obtaining, or renewing a license to practice podiatric medicine by bribery, by fraudulent misrepresentations, or through an error of the department or the board.

(b) Having a license to practice podiatric medicine revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of podiatric medicine or to the ability to practice podiatric medicine. Any plea of nolo contendere shall be considered a conviction for purposes of this chapter.

(d) False, deceptive, or misleading advertising.

(e) Advertising, practicing, or attempting to practice under a name other than one's own.

(f) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department or the board.

(g) Aiding, assisting, procuring, permitting, or advising any unlicensed person to practice podiatric medicine contrary to this chapter or to rule of the department or the board.

(h) Failing to perform any statutory or legal obligation placed upon a licensed podiatric physician.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such report or records shall include only those which are signed in the capacity of a licensed podiatric physician.

(j) Making misleading, deceptive, untrue, or fraudulent representations in the practice of podiatric medicine or employing a trick or scheme in the practice of podiatric medicine when such scheme or trick fails to conform to the generally prevailing standards of treatment in the podiatric community.

(k) Soliciting patients either personally or through an agent, unless such solicitation falls into a category of solicitations approved by rule of the board.

(l) Failing to keep written medical records justifying the course of treatment of the patient, including, but not limited to, patient histories, examination results, and test results.

(m) Exercising influence on the patient or client in such a manner as to exploit the patient or client for financial gain of the licensee or of a third party which shall include, but not be limited to, the promotion or sale of services, goods, appliances, or drugs and the promoting or advertising on any prescription form of a community pharmacy unless the form shall also state "This prescription may be filled at any pharmacy of your choice."

(n) Performing professional services which have not been duly authorized by the patient or client or her or his legal representative except as provided in ss. 743.064, 766.103, and 768.13.

(o) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including all controlled substances, other than

in the course of the podiatric physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the podiatric physician's professional practice, without regard to her or his intent.

(p) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the podiatric physician to herself or himself except those prescribed, dispensed, or administered to the podiatric physician by another practitioner authorized to prescribe, dispense, or administer them.

In enforcing this paragraph the department shall, upon probable cause, have authority to compel a podiatric physician to submit to a mental or physical examination by physicians designated by the department. Failure of a podiatric physician to submit to such examination when directed shall constitute an admission of the allegations against her or him, unless the failure was due to circumstances beyond her or his control, consequent upon which a default and final order may be entered without the taking of testimony or presentation of evidence. A podiatric physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of podiatric medicine with reasonable skill and safety to patients.

(s) Gross or repeated malpractice or the failure to practice podiatric medicine at a level of care, skill, and treatment which is recognized by a reasonably prudent podiatric physician as being acceptable under similar conditions and circumstances. As used in this paragraph, "repeated malpractice" includes, but is not limited to, three or more claims for medical malpractice within the previous 5-year period resulting in indemnities being paid in excess of \$10,000 each to the claimant in a judgment or settlement and which incidents involved negligent conduct by the podiatric physicians. As used in this paragraph, "gross malpractice" or "the failure to practice podiatric medicine with the level of care, skill, and treatment which is recognized by a reasonably prudent similar podiatric physician as being acceptable under similar conditions and circumstances" shall not be construed so as to require more than one instance, event, or act.

(t) Performing any procedure or prescribing any therapy which, by the prevailing standards of podiatric medical practice in the community, would constitute experimentation on human subjects without first obtaining full, informed, and written consent.

(u) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform.

(v) Delegating professional responsibilities to a person when the licensee delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

~~(w) Violating any provision of this chapter or chapter 456, any rule of the board or department, or a lawful order of the board or department previously entered in a disciplinary hearing or failing to comply with a lawful issued subpoena of the board or department.~~

(x) Conspiring with another licensee or with any other person to commit an act, or committing an act, which would tend to coerce,

intimidate, or preclude another licensee from lawfully advertising her or his services.

(y) Prescribing, ordering, dispensing, administering, supplying, selling, or giving growth hormones, testosterone or its analogs, human chorionic gonadotropin (HCG), or other hormones for the purpose of muscle building or to enhance athletic performance. For the purposes of this subsection, the term "muscle building" does not include the treatment of injured muscle. A prescription written for any of the drug products listed above may be dispensed by the pharmacist with the presumption that the prescription is for legitimate medical use.

(z) Fraud, deceit, or misconduct in the practice of podiatric medicine.

(aa) Failing to report to the department any licensee under chapter 458 or chapter 459 who the podiatric physician knows has violated the grounds for disciplinary action set out in the law under which that person is licensed and who provides health care services in a facility licensed under chapter 395, or a health maintenance organization certificated under part I of chapter 641, in which the podiatric physician also provides services.

(bb) Failing to comply with the requirements of ss. 381.026 and 381.0261 to provide patients with information about their patient rights and how to file a patient complaint.

(cc) *Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.*

~~(2) The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1). When the board finds any person guilty of any of the grounds set forth in subsection (1), it may enter an order imposing one or more of the following penalties:~~

~~(a) Refusal to certify to the department an application for licensure.~~

~~(b) Revocation or suspension of a license.~~

~~(d) Imposition of an administrative fine not to exceed \$10,000 for each count or separate offense.~~

Section 28. Subsections (1) and (2) of section 462.14, Florida Statutes, are amended to read:

462.14 Grounds for disciplinary action; action by the department.—

(e) Advertising, practicing, or attempting to practice under a name other than one's own.

(f) Failing to report to the department any person who the licensee knows is in violation of this chapter or of the rules of the department.

(h) Failing to perform any statutory or legal obligation placed upon a licensed naturopathic physician.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such reports or records shall include only those which are signed in the capacity as a licensed naturopathic physician.

(j) Paying or receiving any commission, bonus, kickback, or rebate, or engaging in any split-fee arrangement in any form whatsoever with a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent a naturopathic physician from receiving a fee for professional consultation services.

(k) Exercising influence within a patient-physician relationship for purposes of engaging a patient in sexual activity. A patient shall be presumed to be incapable of giving free, full, and informed consent to sexual activity with her or his physician.

(q) Prescribing, dispensing, administering, mixing, or otherwise preparing a legend drug, including any controlled substance, other than in the course of the naturopathic physician's professional practice. For the purposes of this paragraph, it shall be legally presumed that prescribing, dispensing, administering, mixing, or otherwise preparing legend drugs, including all controlled substances, inappropriately or in excessive or inappropriate quantities is not in the best interest of the patient and is not in the course of the naturopathic physician's professional practice, without regard to her or his intent.

(r) Prescribing, dispensing, or administering any medicinal drug appearing on any schedule set forth in chapter 893 by the naturopathic physician to herself or himself, except one prescribed, dispensed, or administered to the naturopathic physician by another practitioner authorized to prescribe, dispense, or administer medicinal drugs.

(s) Being unable to practice naturopathic medicine with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon probable cause, authority to compel a naturopathic physician to submit to a mental or physical examination by physicians designated by the department. The failure of a naturopathic physician to submit to such an examination when so directed shall constitute an admission of the allegations against her or him upon which a default and final order may be entered without the taking of testimony or presentation of evidence, unless the failure was due to circumstances beyond the naturopathic physician's control. A naturopathic physician affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that she or he can resume the competent practice of naturopathic medicine with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the department may be used against a naturopathic physician in any other proceeding.

(t) Gross or repeated malpractice or the failure to practice naturopathic medicine with that level of care, skill, and treatment which is recognized by a reasonably prudent similar physician as being acceptable under similar conditions and circumstances. The department shall give great weight to the provisions of s. 766.102 when enforcing this paragraph.

(u) Performing any procedure or prescribing any therapy which, by the prevailing standards of medical practice in the community, constitutes experimentation on a human subject, without first obtaining full, informed, and written consent.

(v) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that she or he is not competent to perform.

(ee) Violating any provision of this chapter or chapter 456, or any rules adopted pursuant thereto.

468.217 Denial of or refusal to renew license; suspension and revocation of license and other disciplinary measures.—

(1) *The following acts constitute grounds for denial of a license or disciplinary action, as specified in s. 456.072(2) The board may deny or refuse to renew a license, suspend or revoke a license, issue a reprimand, impose a fine, or impose probationary conditions upon a licensee, when the licensee or applicant for license has been guilty of unprofessional conduct which has endangered, or is likely to endanger, the health, welfare, or safety of the public. Such unprofessional conduct includes:*

(a) Attempting to obtain, obtaining, or renewing a license to practice occupational therapy by bribery, by fraudulent misrepresentation, or through an error of the department or the board.

(b) Having a license to practice occupational therapy revoked, suspended, or otherwise acted against, including the denial of licensure, by the licensing authority of another state, territory, or country.

(c) Being convicted or found guilty, regardless of adjudication, of a crime in any jurisdiction which directly relates to the practice of occupational therapy or to the ability to practice occupational therapy. A plea of nolo contendere shall be considered a conviction for the purposes of this part.

(d) False, deceptive, or misleading advertising.

(e) Advertising, practicing, or attempting to practice under a name other than one's own name.

(f) Failing to report to the department any person who the licensee knows is in violation of this part or of the rules of the department or of the board.

(g) Aiding, assisting, procuring, or advising any unlicensed person to practice occupational therapy contrary to this part or to a rule of the department or the board.

(h) Failing to perform any statutory or legal obligation placed upon a licensed occupational therapist or occupational therapy assistant.

(i) Making or filing a report which the licensee knows to be false, intentionally or negligently failing to file a report or record required by state or federal law, willfully impeding or obstructing such filing or inducing another person to do so. Such reports or records include only those which are signed in the capacity as a licensed occupational therapist or occupational therapy assistant.

(j) Paying or receiving any commission, bonus, kickback, or rebate to or from, or engaging in any split-fee arrangement in any form whatsoever with, a physician, organization, agency, or person, either directly or indirectly, for patients referred to providers of health care goods and services, including, but not limited to, hospitals, nursing homes, clinical laboratories, ambulatory surgical centers, or pharmacies. The provisions of this paragraph shall not be construed to prevent an occupational therapist or occupational therapy assistant from receiving a fee for professional consultation services.

(k) Exercising influence within a patient-therapist relationship for purposes of engaging a patient in sexual activity. A patient is presumed to be incapable of giving free, full, and informed consent to sexual activity with the patient's occupational therapist or occupational therapy assistant.

(l) Making deceptive, untrue, or fraudulent representations in the practice of occupational therapy or employing a trick or scheme in the practice of occupational therapy if such scheme or trick fails to conform to the generally prevailing standards of treatment in the occupational therapy community.

(m) Soliciting patients, either personally or through an agent, through the use of fraud, intimidation, undue influence, or a form of overreaching or vexatious conduct. A "solicitation" is any communication which directly or implicitly requests an immediate oral response from the recipient.

(q) Gross or repeated malpractice or the failure to practice occupational therapy with that level of care, skill, and treatment which is recognized by a reasonably prudent similar occupational therapist or occupational therapy assistant as being acceptable under similar conditions and circumstances.

(r) Performing any procedure which, by the prevailing standards of occupational therapy practice in the community, would constitute experimentation on a human subject without first obtaining full, informed, and written consent.

(s) Practicing or offering to practice beyond the scope permitted by law or accepting and performing professional responsibilities which the licensee knows or has reason to know that he or she is not competent to perform.

(t) Being unable to practice occupational therapy with reasonable skill and safety to patients by reason of illness or use of alcohol, drugs, narcotics, chemicals, or any other type of material or as a result of any mental or physical condition. In enforcing this paragraph, the department shall have, upon probable cause, authority to compel an occupational therapist or occupational therapy assistant to submit to a mental or physical examination by physicians designated by the department. The failure of an occupational therapist or occupational therapy assistant to submit to such examination when so directed constitutes an admission of the allegations against him or her, upon which a default and final order may be entered without the taking of testimony or presentation of evidence, unless the failure was due to circumstances beyond his or her control. An occupational therapist or occupational therapy assistant affected under this paragraph shall at reasonable intervals be afforded an opportunity to demonstrate that he or she can resume the competent practice of occupational therapy with reasonable skill and safety to patients. In any proceeding under this paragraph, neither the record of proceedings nor the orders entered by the board shall be used against an occupational therapist or occupational therapy assistant in any other proceeding.

(u) Delegating professional responsibilities to a person when the licensee who is delegating such responsibilities knows or has reason to know that such person is not qualified by training, experience, or licensure to perform them.

(2) *The board may enter an order denying licensure or imposing any of the penalties in s. 456.072(2) against any applicant for licensure or*

licensee who is found guilty of violating any provision of subsection (1) of this section or who is found guilty of violating any provision of s. 456.072(1).

(3)(2) The board may not reinstate the license of an occupational therapist or occupational therapy assistant, or cause a license to be issued to a person it has deemed unqualified, until such time as the board is satisfied that such person has complied with all the terms and conditions set forth in the final order and is capable of safely engaging in the practice of occupational therapy.

By the Committee on Governmental Oversight and Productivity and Senators Burt, Smith, Lawson and Mitchell—

CS for SB 2—A bill to be entitled An act relating to retirement; providing a declaration of an important state interest; providing for a one-time cost-of-living increase for certain retired members of the Florida Retirement System who have service credit earned between September 30, 1978, and January 1, 1993, in the Special Risk Class of the Florida Retirement System; providing an effective date.

—was read the first time by title. On motion by Rep. Fasano, the rules were waived and the bill was read the second time by title.

Representative(s) Cantens offered the following:

(Amendment Bar Code: 101723)

Amendment 1 (with title amendment)—On page 1, line 20, insert:

Section 1. Paragraph (b) of subsection (1) of section 121.053, Florida Statutes, is amended to read:

121.053 Participation in the Elected Officers' Class for retired members.—

(1)

(b) Any retired member of the Florida Retirement System, or any existing system as defined in s. 121.021(2), who, on or after July 1, 1990, is serving in, or is elected or appointed to, an elective office covered by the Elected Officers' Class shall be enrolled in the appropriate subclass of the Elected Officers' Class of the Florida Retirement System, and applicable contributions shall be paid into the Florida Retirement System Trust Fund as provided in s. 121.052(7). Pursuant thereto:

1. Any such retired member shall be eligible to continue to receive retirement benefits as well as compensation for the elected officer service for as long as he or she remains in an elective office covered by the Elected Officers' Class.

2. If any such member serves in an elective office covered by the Elected Officers' Class and becomes vested under that class, he or she

shall be entitled to receive an additional retirement benefit for such elected officer service.

3. Such member shall be entitled to purchase additional retirement credit in the Elected Officers' Class for any postretirement service performed in an elected position eligible for the Elected Officers' Class prior to July 1, 1990, or in the Regular Class for any postretirement service performed in any other regularly established position prior to July 1, 1991, by paying the applicable Elected Officers' Class or Regular Class employee and employer contributions for the period being claimed, plus 4 percent interest compounded annually from the first year of service claimed until July 1, 1975, and 6.5 percent interest compounded thereafter, until full payment is made to the Florida Retirement System Trust Fund. The contribution for postretirement Regular Class service between July 1, 1985, and July 1, 1991, for which the reemployed retiree contribution was paid, shall be the difference between such contribution and the total applicable contribution for the period being claimed, plus interest. The employer of such member may pay the applicable employer contribution in lieu of the member. If a member does not wish to claim credit for all of the postretirement service for which he or she is eligible, the service the member claims must be the most recent service.

4. Creditable service for which credit was received, or which remained unclaimed, at retirement may not be claimed or applied toward service credit earned following renewed membership. However, service earned in accordance with the renewed membership provisions in s. 121.122 may be used in conjunction with creditable service earned under this paragraph, provided applicable vesting requirements and other existing statutory conditions required by this chapter are met.

5. Any elected officer who is a participating member of DROP may terminate participation at any time during the 60-month DROP participation period and elect to enroll in the appropriate subclass of the Elected Officers' Class, including participating in the Senior Management Service Class, effective the first day of the following month.

Section 2. Paragraph (b) of subsection (13) of section 121.091, Florida Statutes, is amended to read:

121.091 Benefits payable under the system.—Benefits may not be paid under this section unless the member has terminated employment as provided in s. 121.021(39)(a) or begun participation in the Deferred Retirement Option Program as provided in subsection (13), and a proper application has been filed in the manner prescribed by the department. The department may cancel an application for retirement benefits when the member or beneficiary fails to timely provide the information and documents required by this chapter and the department's rules. The department shall adopt rules establishing procedures for application for retirement benefits and for the cancellation of such application when the required information or documents are not received.

(13) DEFERRED RETIREMENT OPTION PROGRAM.—In general, and subject to the provisions of this section, the Deferred Retirement Option Program, hereinafter referred to as the DROP, is a program under which an eligible member of the Florida Retirement System may elect to participate, deferring receipt of retirement benefits while continuing employment with his or her Florida Retirement System employer. The deferred monthly benefits shall accrue in the System Trust Fund on behalf of the participant, plus interest compounded monthly, for the specified period of the DROP participation, as provided in paragraph (c). Upon termination of employment, the participant shall receive the total DROP benefits and begin to receive the previously determined normal retirement benefits. Participation in the DROP does not guarantee employment for the specified period of DROP.

(b) Participation in the DROP.—

1. An eligible member may elect to participate in the DROP for a period not to exceed a maximum of 60 calendar months immediately following the date on which the member first reaches his or her normal retirement date or the date to which he or she is eligible to defer his or her election to participate as provided in subparagraph (a)2. However, a member who has reached normal retirement date prior to the effective

date of the DROP shall be eligible to participate in the DROP for a period of time not to exceed 60 calendar months immediately following the effective date of the DROP, except a member of the Special Risk Class who has reached normal retirement date prior to the effective date of the DROP and whose total accrued value exceeds 75 percent of average final compensation as of his or her effective date of retirement shall be eligible to participate in the DROP for no more than 36 calendar months immediately following the effective date of the DROP.

2. Upon deciding to participate in the DROP, the member shall submit, on forms required by the division:

a. A written election to participate in the DROP;

b. Selection of the DROP participation and termination dates, which satisfy the limitations stated in paragraph (a) and subparagraph 1. Such termination date shall be in a binding letter of resignation with the employer, establishing a deferred termination date. The member may change the termination date within the limitations of subparagraph 1., but only with the written approval of his or her employer;

c. A properly completed DROP application for service retirement as provided in this section; and

d. Any other information required by the division.

3. The DROP participant shall be a retiree under the Florida Retirement System for all purposes, except for paragraph (5)(f) and subsection (9) and ss. 112.3173, 112.363, 121.053, and 121.122. However, participation in the DROP does not alter the participant's employment status and such employee shall not be deemed retired from employment until his or her deferred resignation is effective and termination occurs as provided in s. 121.021(39).

4. Elected officers shall be eligible to participate in the DROP subject to the following:

a. An elected officer who reaches normal retirement date during a term of office may defer the election to participate in the DROP until the next succeeding term in that office. Such elected officer who exercises this option may participate in the DROP for up to 60 calendar months or a period of no longer than such succeeding term of office, whichever is less.

b. An elected or a nonelected participant may run for a term of office while participating in DROP and, if elected, extend the DROP termination date accordingly, except, however, if such additional term of office exceeds the 60-month limitation established in subparagraph 1., and the officer does not resign from office within such 60-month limitation, the retirement and the participant's DROP shall be null and void as provided in sub-subparagraph (c)5.d.

c. An elected officer who is dually employed and elects to participate in DROP shall be required to satisfy the definition of termination within the 60-month limitation period as provided in subparagraph 1. for the nonelected position and may continue employment as an elected officer as provided in s. 121.053. The elected officer will be enrolled as a renewed member in the Elected Officers' Class or the Regular Class, as provided in ss. 121.053 and 121.22, on the first day of the month after termination of employment in the nonelected position and termination of DROP. Distribution of the DROP benefits shall be made as provided in paragraph (c).

d. *An elected officer who is elected or appointed to an elective office is not subject to termination limitations as provided in chapter 121.*

And the title is amended as follows:

On page 1, line 2, after "disabilities;"

insert: amending s. 121.053, F.S.; authorizing elected officers participating in DROP to terminate participation in DROP and enroll in a subclass of the Elected Officers' Class; amending s. 121.091, F.S.; increasing the time for participation in the Deferred Retirement Option Program for members of the elected officers class of the Florida Retirement System; providing that elected officers are not subject to termination limitations;

Rep. Cantens moved the adoption of the amendment, which was adopted.

Representative(s) Fasano offered the following:

(Amendment Bar Code: 511277)

Amendment 2 (with title amendment)—On page 1, line 13, of the bill

insert:

Section 1. Subsection (1), paragraph (a) of subsection (2), paragraph (e) of subsection (4), paragraph (b) of subsection (8), and paragraphs (a) and (b) of subsection (9) of section 121.4501, Florida Statutes, are amended, and paragraph (f) is added to subsection (9) of said section, to read:

121.4501 Public Employee Optional Retirement Program.—

(1) The Trustees of the State Board of Administration shall establish an optional defined contribution retirement program for members of the Florida Retirement System under which retirement benefits will be provided for eligible employees who elect to participate in the program. The benefits to be provided for or on behalf of participants in such optional retirement program shall be provided through employee-directed investments, in accordance with s. 401(a) of the Internal Revenue Code and its related regulations. The employers shall contribute, as provided in this section and s. 121.571, to the *Public Employee Optional Retirement Program Trust Fund* toward the funding of such optional benefits.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Approved provider" or "provider" means a private sector company that is selected and approved by the state board to offer one or more investment products or services to the Public Employee Optional Retirement Program, *including a "bundled provider" that offers participants a range of individually allocated or unallocated investment products and may offer a range of administrative and customer services, which may include accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions; direct advice and guidance on its investments options; a broad array of distribution options; and asset allocation and retirement counseling and education.* Private sector companies include investment management companies, insurance companies, depositories, and mutual fund companies.

(4) PARTICIPATION; ENROLLMENT.—

(e) After the period during which an eligible employee had the choice to elect the defined benefit program or the Public Employee Optional Retirement Program, the employee shall have one opportunity, *that is, a second election, at the employee's discretion,* to choose to move from the defined benefit program to the Public Employee Optional Retirement Program or from the Public Employee Optional Retirement Program to the defined benefit program. This paragraph shall be contingent upon approval from the Internal Revenue Service for including the choice described herein within the programs offered by the Florida Retirement System.

1. If the employee chooses to move to the Public Employee Optional Retirement Program, the applicable provisions of this section shall govern the transfer.

2. If the employee chooses to move from the *Public Employee Optional Retirement Program* to the defined benefit program, the employee must transfer from his or her *optional program* ~~Public Employee Optional Retirement Program~~ account and from other employee moneys as necessary, a sum representing all contributions that would have been made to the defined benefit plan for that employee and the actual return that would have been earned on those contributions had they been invested in the defined benefit program.

If, at the time of a member's election to transfer to the defined benefit program, the member's optional program account does not contain the total amount required to be transferred to the defined benefit program, the member must pay the remaining balance. If the member's optional program account contains more than the amount required to be transferred to the defined benefit program, such additional amount shall remain in the member's optional program account.

(8) ADMINISTRATION OF PROGRAM.—

(b)1. The state board shall select and contract with one third-party administrator to provide administrative services, *where those services do not duplicate services provided by the Division of Retirement within the Department of Management Services.* With the approval of the state board, the third-party administrator may subcontract with other organizations or individuals to provide components of the administrative services. As a cost of administration, the board may compensate any such contractor for its services, in accordance with the terms of the contract, as is deemed necessary or proper by the board. The third-party administrator may not be an approved provider or be affiliated with an approved provider.

2. *These administrative services may include, but are not limited to, enrollment of eligible employees, collection of employer contributions, disbursement of such contributions to approved providers in accordance with the allocation directions of participants; services relating to consolidated billing; individual and collective recordkeeping and accounting; asset purchase, control, and safekeeping; and direct disbursement of funds to and from the third-party administrator, the division, the board, employers, participants, approved providers, and beneficiaries. Nothing in this section shall prevent or prohibit a bundled provider from providing any administrative or customer service, including accounting and administration of individual participant benefits and contributions; individual participant recordkeeping; asset purchase, control, and safekeeping; direct execution of the participant's instructions as to asset and contribution allocation; calculation of daily net asset values; direct access to participant account information; periodic reporting to participants, at least quarterly, on account balances and transactions.*

3. The state board shall select and contract with one or more organizations to provide educational services. With approval of the board, the organizations may subcontract with other organizations or individuals to provide components of the educational services. As a cost of administration, the board may compensate any such contractor for its services in accordance with the terms of the contract, as is deemed necessary or proper by the board. The education organization may not be an approved provider or be affiliated with an approved provider.

4. Educational services shall be designed by the board and department to assist employers, eligible employees, participants, and beneficiaries in order to maintain compliance with United States Department of Labor regulations under s. 404(c) of the Employee Retirement Income Security Act of 1974 and to assist employees in their choice of defined benefit or defined contribution retirement alternatives. Educational services include, but are not limited to, disseminating educational materials; providing retirement planning education; explaining the differences between the defined benefit retirement plan and the defined contribution retirement plan; and offering financial planning guidance on matters such as investment diversification, investment risks, investment costs, and asset allocation. An approved provider may also provide educational information, including retirement planning and investment allocation information concerning its products and services.

(9) INVESTMENT OPTIONS OR PRODUCTS; PERFORMANCE REVIEW.—

(a) The board shall develop policy and procedures for selecting, evaluating, and monitoring the performance of approved providers and investment products to which employees may direct retirement contributions under the program. In accordance with such policy and procedures, the board shall designate and contract for a number of investment products as determined by the board. The board shall also

select one or more bundled providers, each of whom ~~who~~ offer nine ~~multiple~~ investment options and related services ~~products~~ when such an approach is determined by the board to afford value to the participants otherwise not available through individual investment products. *Each approved bundled provider may offer investment options that provide participants with the opportunity to invest in each of the following asset classes, to be composed of individual options that represent either a single asset class or a combination thereof: money markets, U.S. fixed income, U.S. equities, and foreign stock.* The board shall review and manage all educational materials, contract terms, fee schedules, and other aspects of the approved provider relationships to ensure that no provider is unduly favored or penalized by virtue of its status within the plan.

(b) The board shall consider investment options or products it considers appropriate to give participants the opportunity to accumulate retirement benefits, subject to the following:

1. The Public Employee Optional Retirement Program must offer a diversified mix of low-cost investment products that span the risk-return spectrum, and may include a guaranteed account as well as investment products such as individually allocated guaranteed and variable annuities, that meet the requirements of this subsection and that combine the ability to accumulate investment returns with the option of receiving lifetime income consistent with the long-term retirement security of a pension plan and similar to the lifetime income benefit provided by the Florida Retirement System.

2. Investment options or products offered by the group of approved providers may include mutual funds, group annuity contracts, individual retirement annuities, interests in trusts, collective trusts, separate accounts, and other such financial instruments, and shall include products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity.

3. The board shall not contract with any provider that imposes a front-end, back-end, contingent, or deferred sales charge, or any other fee that limits or restricts the ability of participants to select any investment product available in the optional program. *This prohibition shall not apply to fees or charges that are imposed on withdrawals from products that give participants the option of committing their contributions for an extended time period in an effort to obtain higher returns than could be obtained from investment products offering full liquidity, provided that the product in question, net of all fees and charges, produces material benefits relative to other comparable products in the program offering full liquidity.*

4. *Fees or charges for insurance features, such as mortality and expense risk charges, shall be reasonable relative to the benefits provided.*

(f)1. An approved provider shall comply with all applicable federal and state securities and insurance laws and regulations, as well as the applicable rules and guidelines of the National Association of Securities Dealers (NASD) governing the ethical marketing of investment products. In furtherance of this mandate, an approved provider must agree in its contract with the board to establish and maintain a compliance education and monitoring system to supervise the activities of all personnel who directly communicate with individual participants and recommend investment products, which system is consistent with National Association of Security Dealers rules.

2. *Approved provider personnel who directly communicate with individual participants and who recommend investment products shall make an independent and unbiased determination as to whether an investment product is suitable for a particular participant.*

3. *The board shall develop procedures to receive and resolve participant complaints against a provider or approved provider personnel, and, when appropriate, refer such complaints to the appropriate regulatory agency.*

4. *Approved providers are prohibited from selling or in any way distributing any customer list or participant identification information*

generated through their offering of products or services through the optional retirement program.

Section 2. *The appointment of the executive director of the State Board of Administration shall be subject to the approval by a majority vote of the Board of Trustees of the State Board of Administration and the Governor must vote on the prevailing side. Such appointment must be reaffirmed in the same manner by the Board of Trustees on an annual basis.*

And the title is amended as follows:

On page 1, line 2, after the semicolon

insert: amending s. 121.4501, F.S.; redefining the term “approved provider”; providing requirements for the State Board of Administration in carrying out its duties under the program; providing requirements for approved providers regarding federal and state laws and regulations, and for communications with participants; providing requirements for the appointment of the executive director of the State Board of Administration;

(Amendment Bar Code: 311735)

Amendment 1 (with title amendment)—

Remove from the bill: Everything after the enacting clause

and insert in lieu thereof:

Section 1. Section 112.215, Florida Statutes, is amended to read:

112.215 Government employees; deferred compensation program.—

(1) This section shall be known and may be cited as the “Government Employees’ Deferred Compensation Plan Act.”

(2) For the purposes of this section, the term “employee” means any person, whether appointed, elected, or under contract, providing services for the state; any state agency or county or other political subdivision of the state; ~~or~~ any municipality; *or any constitutional county officer under s. 1(d), Article VIII of the State Constitution for which compensation or statutory fees are paid.*

(3) In accordance with a plan of deferred compensation which has been approved as herein provided, the state or any state agency, county, municipality, ~~or~~ other political subdivision, *or constitutional county officer* may, by contract or a collective bargaining agreement, agree with any employee to defer all or any portion of that employee’s otherwise payable compensation and, pursuant to the terms of such approved plan and in such proportions as may be designated or directed under that plan, place such deferred compensation in savings accounts or use the same to purchase fixed or variable life insurance or annuity contracts, securities, evidence of indebtedness, or such other investment products as may have been approved for the purposes of carrying out the

objectives of such plan. Such insurance, annuity, savings, or investment products shall be underwritten and offered in compliance with the applicable federal and state laws and regulations by persons who are duly authorized by applicable state and federal authorities.

(4)(a) The Treasurer, with the approval of the State Board of Administration, shall establish such plan or plans of deferred compensation for state employees, including all such investment vehicles or products incident thereto, as may be available through, or offered by, qualified companies or persons, and may approve one or more such plans for implementation by and on behalf of the state and its agencies and employees.

(b) If the Treasurer deems it advisable, he or she shall have the power, with the approval of the State Board of Administration, to create a trust or other special funds for the segregation of funds or assets resulting from compensation deferred at the request of employees of the state or its agencies and for the administration of such program.

(c) The Treasurer, with the approval of the State Board of Administration, may delegate responsibility for administration of the plan to a person the Treasurer determines to be qualified, compensate such person, and, directly or through such person or pursuant to a collective bargaining agreement, contract with a private corporation or institution to provide such services as may be part of any such plan or as may be deemed necessary or proper by the Treasurer or such person, including, but not limited to, providing consolidated billing, individual and collective recordkeeping and accountings, asset purchase, control, and safekeeping, and direct disbursement of funds to employees or other beneficiaries. The Treasurer may authorize a person, private corporation, or institution to make direct disbursement of funds under the plan to an employee or other beneficiary only upon the order of the Comptroller to the Treasurer.

(d) In accordance with such approved plan, and upon contract or agreement with an eligible employee, deferrals of compensation may be accomplished by payroll deductions made by the appropriate officer or officers of the state, with such funds being thereafter held and administered in accordance with the plan.

(5) Any county, municipality, or other political subdivision of the state may by ordinance, *and any constitutional county officer under s. 1(d), Article VIII of the State Constitution of 1968 may by contract agreement or other documentation constituting approval*, adopt and establish for itself and its employees a deferred compensation program. The ordinance shall designate an appropriate official of the county, municipality, or political subdivision to approve and administer a deferred compensation plan or otherwise provide for such approval and administration. The ordinance shall also designate a public official or body to make the determinations provided for in paragraph (6)(b). *If a constitutional county officer elects to adopt and establish for that office and its employees a deferred compensation program, the constitutional county officer shall be the appropriate official to make the determinations provided for in this subsection and in paragraph (6)(b).*

(6)(a) No deferred compensation plan of the state shall become effective until approved by the State Board of Administration and the Treasurer is satisfied by opinion from such federal agency or agencies as may be deemed necessary that the compensation deferred thereunder and/or the investment products purchased pursuant to the plan will not be included in the employee's taxable income under federal or state law until it is actually received by such employee under the terms of the plan, and that such compensation will nonetheless be deemed compensation at the time of deferral for the purposes of social security coverage, for the purposes of the state retirement system, and for any other retirement, pension, or benefit program established by law.

(b) No deferred compensation plan of a county, municipality, ~~or~~ other political subdivision, *or constitutional county officer* shall become effective until the appropriate official or body designated *under subsection (5)* ~~by ordinance~~ is satisfied by opinion from such federal agency or agencies as may be deemed necessary that the compensation deferred thereunder and/or the investment products purchased pursuant to the plan will not be included in the employee's taxable

income under federal or state law until it is actually received by such employee under the terms of the plan, and that such compensation will nonetheless be deemed compensation at the time of deferral for the purposes of social security coverage, for the purposes of the retirement system of the appropriate county, municipality, ~~or~~ political subdivision, *or constitutional county officer*, and for any other retirement, pension, or benefit program established by law.

(7) The deferred compensation programs authorized by this section, and any plan approved and adopted as herein provided, shall exist and serve in addition to any other retirement, pension, or benefit systems established by the state or its agencies, counties, municipalities, ~~or~~ other political subdivisions, *or constitutional county officers* and shall not supersede, make inoperative, or reduce any benefits provided by the Florida Retirement System or by another retirement, pension, or benefit program established by law. All records identifying individual participants in any plan under this section and their personal account activities shall be confidential and are exempt from the provisions of s. 119.07(1).

(8)(a) There is hereby created a Deferred Compensation Advisory Council composed of seven members.

(e) A majority of the members shall constitute a quorum, and action by a majority of a quorum shall be official.

(f) The council shall make a report of each meeting to the Treasurer, which shall show the names of the members present and shall include a record of its discussions, recommendations, and actions taken. The Treasurer shall keep the records of the proceedings of each meeting on file and shall make the records available to any interested person or group.

(g) Members of the council shall serve without compensation but shall be entitled to receive reimbursement for per diem and travel expenses as provided in s. 112.061.

The Treasurer shall provide the council, at least annually, a report on the status of the deferred compensation program, including, but not limited to, information on participant enrollment, amount of compensation deferred, total plan assets, product provider performance, and participant satisfaction with the program.

(9) The purchase of any insurance contract or annuity or the investment in another investment option under any plan of deferred compensation provided for in the United States Internal Revenue Code and not prohibited under the laws of this state for an employee shall impose no liability or responsibility whatsoever on the state, county, municipality, or other political subdivision, or constitutional county officer, except to show that the payments have been remitted for the purposes for which the compensation has been deferred.

(10)(a) The moneys, pensions, annuities, or other benefits accrued or accruing to any person under the provisions of any plan providing for the deferral of compensation and the accumulated contributions and the cash and securities in the funds created thereunder are hereby exempt from any state, county, or municipal tax. - a. All amounts of compensation deferred thereunder;
- b. All property and rights purchased with such amounts; and
- c. All income attributable to such amounts, property, or rights.

2. Notwithstanding the mandates of 26 U.S.C. s. 457(b)(6), all of the assets specified in subparagraph 1. shall be held in trust for the exclusive benefit of participants and their beneficiaries as mandated by 26 U.S.C. s. 457(g)(1).

If all parties to the negotiation cannot agree upon a joint deferred compensation program, the provisions of subsection (5) apply.

Section 3. Paragraph (h) of subsection (3) of section 381.004, Florida Statutes, is amended to read:

381.004 HIV testing.—

(3) HUMAN IMMUNODEFICIENCY VIRUS TESTING; INFORMED CONSENT; RESULTS; COUNSELING; CONFIDENTIALITY.—

(h) Notwithstanding the provisions of paragraph (a), informed consent is not required:

1. When testing for sexually transmissible diseases is required by state or federal law, or by rule including the following situations:

a. HIV testing pursuant to s. 796.08 of persons convicted of prostitution or of procuring another to commit prostitution.

b. *HIV testing of inmates pursuant to s. 945.355 prior to their release from prison by reason of parole, accumulation of gain-time credits, or expiration of sentence.*

c. Testing for HIV by a medical examiner in accordance with s. 406.11.

2. Those exceptions provided for blood, plasma, organs, skin, semen, or other human tissue pursuant to s. 381.0041.

3. For the performance of an HIV-related test by licensed medical personnel in bona fide medical emergencies when the test results are necessary for medical diagnostic purposes to provide appropriate emergency care or treatment to the person being tested and the patient is unable to consent, as supported by documentation in the medical record. Notification of test results in accordance with paragraph (c) is required.

4. For the performance of an HIV-related test by licensed medical personnel for medical diagnosis of acute illness where, in the opinion of the attending physician, obtaining informed consent would be detrimental to the patient, as supported by documentation in the medical record, and the test results are necessary for medical diagnostic purposes to provide appropriate care or treatment to the person being tested. Notification of test results in accordance with paragraph (c) is required if it would not be detrimental to the patient. This subparagraph does not authorize the routine testing of patients for HIV infection without informed consent.

5. When HIV testing is performed as part of an autopsy for which consent was obtained pursuant to s. 872.04.

6. For the performance of an HIV test upon a defendant pursuant to the victim's request in a prosecution for any type of sexual battery where a blood sample is taken from the defendant voluntarily, pursuant to court order for any purpose, or pursuant to the provisions of s. 775.0877, s. 951.27, or s. 960.003; however, the results of any HIV test performed shall be disclosed solely to the victim and the defendant, except as provided in ss. 775.0877, 951.27, and 960.003.

7. When an HIV test is mandated by court order.

8. For epidemiological research pursuant to s. 381.0032, for research consistent with institutional review boards created by 45 C.F.R. part 46, or for the performance of an HIV-related test for the purpose of research, if the testing is performed in a manner by which the identity of the test subject is not known and may not be retrieved by the researcher.

9. When human tissue is collected lawfully without the consent of the donor for corneal removal as authorized by s. 732.9185 or enucleation of the eyes as authorized by s. 732.919.

10. For the performance of an HIV test upon an individual who comes into contact with medical personnel in such a way that a significant exposure has occurred during the course of employment or within the scope of practice and where a blood sample is available that was taken from that individual voluntarily by medical personnel for other purposes. The term "medical personnel" includes a licensed or certified health care professional; an employee of a health care professional or health care facility; employees of a laboratory licensed under chapter 483; personnel of a blood bank or plasma center; a medical student or other student who is receiving training as a health care professional at a health care facility; and a paramedic or emergency medical technician certified by the department to perform life-support procedures under s. 401.23.

a. Prior to performance of an HIV test on a voluntarily obtained blood sample, the individual from whom the blood was obtained shall be requested to consent to the performance of the test and to the release of the results. The individual's refusal to consent and all information concerning the performance of an HIV test and any HIV test result shall be documented only in the medical personnel's record unless the individual gives written consent to entering this information on the individual's medical record.

b. Reasonable attempts to locate the individual and to obtain consent shall be made and all attempts must be documented. If the individual cannot be found, an HIV test may be conducted on the available blood sample. If the individual does not voluntarily consent to the performance of an HIV test, the individual shall be informed that an HIV test will be performed, and counseling shall be furnished as provided in this section. However, HIV testing shall be conducted only after a licensed physician documents, in the medical record of the medical personnel, that there has been a significant exposure and that, in the physician's medical judgment, the information is medically necessary to determine the course of treatment for the medical personnel.

c. Costs of any HIV test of a blood sample performed with or without the consent of the individual, as provided in this subparagraph, shall be borne by the medical personnel or the employer of the medical personnel. However, costs of testing or treatment not directly related to the initial HIV tests or costs of subsequent testing or treatment shall not be borne by the medical personnel or the employer of the medical personnel.

d. In order to utilize the provisions of this subparagraph, the medical personnel must either be tested for HIV pursuant to this section or provide the results of an HIV test taken within 6 months prior to the significant exposure if such test results are negative.

e. A person who receives the results of an HIV test pursuant to this subparagraph shall maintain the confidentiality of the information received and of the persons tested. Such confidential information is exempt from s. 119.07(1).

f. If the source of the exposure will not voluntarily submit to HIV testing and a blood sample is not available, the medical personnel or the employer of such person acting on behalf of the employee may seek a court order directing the source of the exposure to submit to HIV testing. A sworn statement by a physician licensed under chapter 458 or chapter 459 that a significant exposure has occurred and that, in the physician's medical judgment, testing is medically necessary to determine the course of treatment constitutes probable cause for the issuance of an order by the court. The results of the test shall be released to the source of the exposure and to the person who experienced the exposure.

11. For the performance of an HIV test upon an individual who comes into contact with medical personnel in such a way that a significant exposure has occurred during the course of employment or within the scope of practice of the medical personnel while the medical personnel provides emergency medical treatment to the individual; or who comes into contact with nonmedical personnel in such a way that a significant exposure has occurred while the nonmedical personnel provides emergency medical assistance during a medical emergency. For the purposes of this subparagraph, a medical emergency means an emergency medical condition outside of a hospital or health care facility that provides physician care. The test may be performed only during the course of treatment for the medical emergency.

a. An individual who is capable of providing consent shall be requested to consent to an HIV test prior to the testing. The individual's refusal to consent, and all information concerning the performance of an HIV test and its result, shall be documented only in the medical personnel's record unless the individual gives written consent to entering this information on the individual's medical record.

b. HIV testing shall be conducted only after a licensed physician documents, in the medical record of the medical personnel or nonmedical personnel, that there has been a significant exposure and that, in the physician's medical judgment, the information is medically necessary to determine the course of treatment for the medical personnel or nonmedical personnel.

c. Costs of any HIV test performed with or without the consent of the individual, as provided in this subparagraph, shall be borne by the medical personnel or the employer of the medical personnel or nonmedical personnel. However, costs of testing or treatment not directly related to the initial HIV tests or costs of subsequent testing or treatment shall not be borne by the medical personnel or the employer of the medical personnel or nonmedical personnel.

d. In order to utilize the provisions of this subparagraph, the medical personnel or nonmedical personnel shall be tested for HIV pursuant to this section or shall provide the results of an HIV test taken within 6 months prior to the significant exposure if such test results are negative.

e. A person who receives the results of an HIV test pursuant to this subparagraph shall maintain the confidentiality of the information received and of the persons tested. Such confidential information is exempt from s. 119.07(1).

f. If the source of the exposure will not voluntarily submit to HIV testing and a blood sample was not obtained during treatment for the medical emergency, the medical personnel, the employer of the medical personnel acting on behalf of the employee, or the nonmedical personnel may seek a court order directing the source of the exposure to submit to HIV testing. A sworn statement by a physician licensed under chapter 458 or chapter 459 that a significant exposure has occurred and that, in the physician's medical judgment, testing is medically necessary to determine the course of treatment constitutes probable cause for the issuance of an order by the court. The results of the test shall be released to the source of the exposure and to the person who experienced the exposure.

12. For the performance of an HIV test by the medical examiner or attending physician upon an individual who expired or could not be resuscitated while receiving emergency medical assistance or care and who was the source of a significant exposure to medical or nonmedical personnel providing such assistance or care.

a. HIV testing may be conducted only after a licensed physician documents in the medical record of the medical personnel or nonmedical personnel that there has been a significant exposure and that, in the physician's medical judgment, the information is medically necessary to determine the course of treatment for the medical personnel or nonmedical personnel.

b. Costs of any HIV test performed under this subparagraph may not be charged to the deceased or to the family of the deceased person.

c. For the provisions of this subparagraph to be applicable, the medical personnel or nonmedical personnel must be tested for HIV under this section or must provide the results of an HIV test taken within 6 months before the significant exposure if such test results are negative.

d. A person who receives the results of an HIV test pursuant to this subparagraph shall comply with paragraph (e).

13. For the performance of an HIV-related test medically indicated by licensed medical personnel for medical diagnosis of a hospitalized infant as necessary to provide appropriate care and treatment of the infant when, after a reasonable attempt, a parent cannot be contacted to provide consent. The medical records of the infant shall reflect the reason consent of the parent was not initially obtained. Test results shall be provided to the parent when the parent is located.

14. For the performance of HIV testing conducted to monitor the clinical progress of a patient previously diagnosed to be HIV positive.

15. For the performance of repeated HIV testing conducted to monitor possible conversion from a significant exposure.

Senate Amendment 1 (with title amendment)—Delete everything after the enacting clause

and insert:

Section 1. Subsection (1) of section 414.045, Florida Statutes, is amended to read:

414.045 Cash assistance program.—Cash assistance families include any families receiving cash assistance payments from the state program for temporary assistance for needy families as defined in federal law, whether such funds are from federal funds, state funds, or commingled federal and state funds. Cash assistance families may also include families receiving cash assistance through a program defined as a separate state program.

(1) For reporting purposes, families receiving cash assistance shall be grouped ~~into in~~ the following categories. The department may develop additional groupings in order to comply with federal reporting requirements, to comply with the data-reporting needs of the board of directors of Workforce Florida, Inc., or to better inform the public of program progress. ~~Program reporting data shall include, but not necessarily be limited to, the following groupings:~~

(a) Work-eligible cases.—Work-eligible cases shall include:

1. Families containing an adult or a teen head of household, as defined by federal law. These cases are generally subject to the work activity requirements provided in s. 445.024 and the time limitations on benefits provided in s. 414.105.

2. Families with a parent where the parent's needs have been removed from the case due to sanction or disqualification shall be considered work-eligible cases to the extent that such cases are considered in the calculation of federal participation rates or would be counted in such calculation in future months.

3. Families participating in transition assistance programs.

4. Families otherwise eligible for temporary cash assistance that receive diversion services, a severance payment, or participate in the relocation program.

(b) Child-only cases.—Child-only cases include cases that do not have an adult or teen head of household as defined in federal law. Such cases include:

1. ~~Child-only families with~~ Children in the care of caretaker relatives where the caretaker relatives choose to have their needs excluded in the calculation of the amount of cash assistance.

2. Families in the Relative Caregiver Program as provided in s. 39.5085.

3. To the extent permitted by federal law, individuals receiving SSI shall be excluded as household members in determining the amount of cash assistance, and such cases shall not be considered families containing an adult. Parents or caretaker relatives who are excluded from the cash assistance group due to receipt of SSI may choose to participate in work activities. An individual who volunteers to participate in work activity but whose ability to participate in work activities is limited shall be assigned to work activities consistent with such limitations. An individual who volunteers to participate in a work activity may receive child care or support services consistent with such participation.

4. Families where the only parent in a single-parent family or both parents in a two-parent family are not eligible for cash assistance due to immigration status or other ~~limitation requirements~~ of federal law. To the extent required by federal law, such cases shall not be considered families containing an adult.

5. *To the extent permitted by federal law and subject to appropriations, special needs children who have been adopted pursuant to s. 409.166 and whose adopting family qualifies as a needy family under the state program for temporary assistance for needy families.*

Notwithstanding any provision to the contrary in s. 414.075, s. 414.085, or s. 414.095, a family shall be considered a needy family if:

a. The family is determined by the department to have an income below 200 percent of the federal poverty level;

b. The family meets the requirements of s. 414.095(2) and (3) related to residence, citizenship, or eligible noncitizen status; and

c. The family provides any information that may be necessary to meet federal reporting requirements specified under Part A of Title IV of the Social Security Act.

Families described in subparagraph 1., subparagraph 2., or subparagraph 3. may receive child care assistance or other supports or services so that the children may continue to be cared for in their own homes or the homes of relatives. Such assistance or services may be funded from the temporary assistance for needy families block grant to the extent permitted under federal law and to the extent ~~funds have been provided in the General Appropriations Act permitted by~~ appropriation of funds.

Section 2. Section 409.1674, Florida Statutes, is created to read:

409.1674 It is the intent of the Legislature to improve services and local participation in community-based care initiatives by fostering community support and providing enhanced prevention and in-home services, thereby reducing the risk otherwise faced by lead agencies. There is established a community partnership matching grant program to be operated by the Department of Children and Family Services for the purpose of encouraging local participation in community-based care for child welfare. Any children's services council or other local government entity that makes a financial commitment to a community-based care lead agency is eligible for a grant upon proof that the children's services council or local government entity has provided the selected lead agency at least \$825,000 in start-up funds, from any local resources otherwise available to it. The total amount of local contribution may be matched on a two-for-one basis up to a maximum amount of \$2 million per council. Awarded matching grant funds may be used for any prevention or in-home services provided by the children's services council or other local government entity that meets temporary-assistance-for-needy-families' eligibility requirements and can be reasonably expected to reduce the number of children entering the child welfare system. Funding available for the matching grant program is subject to legislative appropriation of nonrecurring temporary-assistance-for-needy-families funds provided for the purpose. This sections expires July 1, 2002.

Section 1. *Legislative intent.*—*The purpose of the Passport to Economic Progress Act is to provide incentives and services designed to assist individuals who are recipients of temporary cash assistance or who are former recipients of temporary cash assistance generate family income levels that help foster the achievement and maintenance of economic self-sufficiency. It is the intent of the Legislature to create through this act a demonstration program for the provision of such incentives and services, with the goal of developing a model for the continued evolution and enhancement of the welfare-reform efforts of the state.*

Section 2. *Passport to Economic Progress demonstration program.*—

(1) **AUTHORIZATION.**—*Notwithstanding any law to the contrary, Workforce Florida, Inc., in conjunction with the Department of Children and Family Services and the Agency for Workforce Innovation, shall implement a Passport to Economic Progress demonstration program by November 1, 2001, consistent with the provisions of this section in Hillsborough and Manatee counties. Workforce Florida, Inc., must consult with the applicable regional workforce boards and the applicable local offices of the department which serve the demonstration areas and must encourage community input into the implementation process.*

(2) **WAIVERS.**—*If Workforce Florida, Inc., in consultation with the Department of Children and Family Services, finds that federal waivers would facilitate implementation of the demonstration program, the department shall immediately request such waivers, and Workforce Florida, Inc., shall report to the Governor, the President of the Senate, and the Speaker of the House of Representatives if any refusal of the federal government to grant such waivers prevents the implementation of the demonstration program. If Workforce Florida, Inc., finds that federal waivers to provisions of the Food Stamp Program would facilitate implementation of the demonstration program, the Department of Children and Family Services shall immediately request such waivers in accordance with section 414.175, Florida Statutes.*

(3) **INCOME DISREGARD.**—*In order to provide an additional incentive for employment, and notwithstanding the amount specified in section 414.095(12), Florida Statutes, for individuals residing in the areas designated for this demonstration program, the first \$300 plus one-half of the remainder of earned income shall be disregarded in determining eligibility for temporary cash assistance. All other conditions and requirements of section 414.095(12), Florida Statutes, shall continue to apply to such individuals.*

(5) **WAGE SUPPLEMENTATION.**—

(a) *The Legislature finds that:*

2. *Having incomes below the federal poverty level makes such individuals particularly vulnerable to reliance on public assistance despite their best efforts to achieve or maintain economic independence through employment.*

3. *It is necessary to supplement the wages of such individuals for a limited period of time in order to assist them in fulfilling the transition to economic self-sufficiency.*

(b) *Workforce Florida, Inc., in cooperation with the Department of Children and Family Services and the Agency for Workforce Innovation, shall create a transitional wage supplementation program by November 1, 2001, as a component of the Passport to Economic Progress demonstration program in the areas designated for the demonstration program. (d) *Workforce Florida, Inc., shall determine the schedule for the payment of wage supplementation under this subsection. An individual may not receive wage supplementation payments for more than a total of 12 months.*

(e) *The wage supplementation program authorized by this subsection shall be administered through the regional workforce boards and the one-stop delivery system, under policy guidelines, criteria, and applications developed by Workforce Florida, Inc., in cooperation with the Department of Children and Family Services and the Agency for Workforce Innovation. To the maximum extent possible, the regional*

workforce boards shall use electronic debit card technologies to provide wage supplementation payments under this program.

(6) **EVALUATIONS AND RECOMMENDATIONS.**—Workforce Florida, Inc., in conjunction with the Department of Children and Family Services, the Agency for Workforce Innovation, and the regional workforce boards in the areas designated for this demonstration program, shall conduct a comprehensive evaluation of the effectiveness of the demonstration program operated under this section. By January 1, 2003, Workforce Florida, Inc., shall submit a report on such evaluation to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report must include recommendations as to whether the demonstration program should be expanded to other service areas or statewide and whether the program should be revised to enhance its administration or effectiveness.

(7) **CONFLICTS.**—If there is a conflict between the implementation procedures described in this section and federal requirements and regulations, federal requirements and regulations shall control.

organizations, on an equal basis with other private organizations, to provide after-school care programs to eligible children 14 through 18 years of age. These programs shall include academic tutoring, mentoring, and other appropriate services. Similar services may be provided for eligible children 6 through 13 years of age using Temporary Assistance for Needy Families funds. A board member must disclose any such conflict in a manner that is consistent with the procedures outlined in s. 112.3143.

Section 6. *Legislative findings and intent; Digital Divide Council; powers and duties; program objectives and goals; review and assessment of program performances; annual report.*—

(1) **LEGISLATIVE FINDINGS AND INTENT.**—*The Legislature finds as follows:*

(a) *Frequent access to use of information technology and possession of the knowledge and skills required to use information technology productively is becoming increasingly more important to being competitively qualified for high-skill, high-wage employment.*

(b) *The availability of reasonable opportunities to have frequent access to use of information technology and to obtain the education and training necessary to acquire the knowledge and skills required to use information technology productively is critical to becoming competitively qualified for high-skill, high-wage employment.*

(c) *Families that are living near or below the poverty level are without adequate economic resources to have reasonable opportunities to obtain frequent access to use of information technology or the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high-skill, high-wage employment.*

(d) *The absence of such economic resources divides such families from those who have adequate economic resources to have such opportunities, places such families at risk of never realizing their*

employment and income earning potential, and prevents the state's economy from prospering to the extent possible if such families realized their employment and income earning potential.

(e) *The divide between the members of such at-risk families and those who have adequate economic resources to have reasonable opportunities to obtain access to frequent use of information technology and the education and training necessary to acquire the knowledge and skills required to become competitively qualified for high-skill, high-wage employment could be reduced, and the economy of the state could be enhanced, by designing and implementing programs that provide such opportunities to members of such at-risk families.*

It is the intent of the Legislature to provide the authority and resources reasonably necessary to facilitate design and implementation of such programs.

(2) **DIGITAL DIVIDE COUNCIL.**—*The Digital Divide Council is created in the State Technology Office. The council shall consist of:*

- (a) *The chief information officer in the State Technology Office.*
- (b) *The director of the Office of Tourism, Trade, and Economic Development in the Executive Office of the Governor.*
- (c) *The president of Workforce Florida, Inc.*
- (d) *The director of the Agency for Workforce Innovation.*
- (e) *The chair of itflorida.com, Inc.*
- (f) *The Commissioner of Education.*
- (g) *The executive director of the State Board of Community Colleges.*
- (h) *The executive director of the State Board for Career Education.*
- (i) *The chair of the Network Access Point of the Americas.*
- (j) *A representative of the information technology industry in this state appointed by the Speaker of the House of Representatives.*
- (k) *A representative of the information technology industry in this state appointed by the President of the Senate.*
- (l) *Two members of the House of Representatives, who shall be ex officio, nonvoting members of the council, appointed by the Speaker of the House of Representatives, one of whom shall be a member of the Republican caucus and the other of whom shall be a member of the Democratic caucus.*
- (m) *Two members of the Senate, who shall be ex officio, nonvoting members of the council, appointed by the President of the Senate, one of whom shall be a member of the Republican caucus and the other of whom shall be a member of the Democratic caucus.*

(3) **TERMS OF APPOINTED MEMBERS OF COUNCIL; VACANCIES; COMPENSATION OF MEMBERS.**—*The appointed members of the council shall serve an initial term of 1 year commencing July 1, 2001, and ending June 30, 2002, and successor appointees shall serve a term of 2 years, the first of which shall commence July 1, 2002, and end June 30, 2004. Successive 2-year terms shall commence and end on the same schedule in subsequent years. Any vacancy in the membership of the council resulting from resignation, incapacity, or death shall be filled within 30 days after the date the vacancy is effective. The appointed members of the council shall serve without compensation, but such appointees and the other members of the council shall be entitled to receive per diem and reimbursement for travel expenses as provided in section 112.061, Florida Statutes. Payment of such per diem and reimbursement of such travel expenses may be made from appropriations authorized to be used for such purposes.*

(4) **COUNCIL MEETINGS; ELECTION OF OFFICERS.**—*The council shall conduct its initial meeting by August 1, 2001, and shall meet thereafter at least once every 60 days. In its initial meeting, the members of the council shall elect a member to serve as chair and another to serve as vice chair, each for a term of 1 year from the date of the election. Any vacancy in the offices of chair and vice chair resulting from*

resignation, incapacity, or death shall be filled by similar election within 30 days after the date the vacancy is effective.

(5) **ADMINISTRATIVE AND TECHNICAL SUPPORT; PAYMENT OF SUPPORT COSTS.**—*The State Technology Office shall provide such administrative and technical support to the council as is reasonably necessary for the council to effectively and timely carry out its duties and responsibilities. All direct and indirect costs of providing such support and performing the other duties assigned to the State Technology Office related to design and implementation of the programs authorized by this section may be paid from appropriations authorized to be used for such purposes.*

(6) **POWERS AND DUTIES OF COUNCIL.**—*The council, through the State Technology Office, is authorized and empowered to facilitate the design and implementation of programs that are aimed at achieving the objectives and goals stated in this section. The State Technology Office shall present and demonstrate to the council the design characteristics and functional elements of each program proposed to be implemented to achieve the objectives and goals stated in this section and each such program shall be reviewed and approved by the council before being implemented. Such programs shall initially be implemented as pilot programs in a minimum of six different areas of the state to develop model programs that are likely to be successful if implemented throughout the state. The areas of the state where the pilot programs are implemented shall be selected by the council with the objectives of testing the merits of the programs in each geographic region of the state and providing equal exposure of the programs to urban and rural communities alike. Implementation of all such pilot and model programs shall be administered by and through the local workforce development boards and each such board shall coordinate and confirm the ready availability and timely delivery of all elements of such programs to ensure the highest probability of such programs achieving their intended results.*

(7) **PROGRAM OBJECTIVES AND GOALS.**—*The programs authorized by this section shall have the following objectives and goals:*

- (a) *Maximizing efficient and productive use of existing facilities, equipment, personnel, programs, and funds available from federal, state, and local government agencies and from any private person or entity.*

Section 3. Paragraph (k) is added to subsection (6) of section 163.3177, Florida Statutes, to read:

163.3177 Required and optional elements of comprehensive plan; studies and surveys.—

(6) In addition to the requirements of subsections (1)-(5), the comprehensive plan shall include the following elements:

(a) A future land use plan element designating proposed future general distribution, location, and extent of the uses of land for residential uses, commercial uses, industry, agriculture, recreation, conservation, education, public buildings and grounds, other public facilities, and other categories of the public and private uses of land. The future land use plan shall include standards to be followed in the control and distribution of population densities and building and structure intensities. The proposed distribution, location, and extent of the various categories of land use shall be shown on a land use map or map series which shall be supplemented by goals, policies, and measurable objectives. Each land use category shall be defined in terms of the types of uses included and specific standards for the density or intensity of use. The future land use plan shall be based upon surveys, studies, and data regarding the area, including the amount of land required to accommodate anticipated growth; the projected population of the area; the character of undeveloped land; the availability of public services; the need for redevelopment, including the renewal of blighted areas and the elimination of nonconforming uses which are inconsistent with the character of the community; and, in rural communities, the need for job creation, capital investment, and economic development that will strengthen and diversify the community's economy. The future land use plan may designate areas for future planned development use involving combinations of types of uses for which special regulations may be necessary to ensure development in accord with the principles and standards of the comprehensive plan and this act. In addition, for rural communities, the amount of land designated for future planned industrial use shall be based upon surveys and studies that reflect the need for job creation, capital investment, and the necessity to strengthen and diversify the local economies, and shall not be limited solely by the projected population of the rural community. The future land use plan of a county may also designate areas for possible future municipal incorporation. The land use maps or map series shall generally identify and depict historic district boundaries and shall designate historically significant properties meriting protection. The future land use element must clearly identify the land use categories in which public schools are an allowable use. When delineating the land use categories in which public schools are an allowable use, a local government shall include in the categories sufficient land proximate to residential development to meet the projected needs for schools in coordination with public school boards and may establish differing criteria for schools of different type or size. Each local government shall include lands contiguous to existing school sites, to the maximum extent possible, within the land use categories in which public schools are an allowable use. All comprehensive plans must comply with the school siting requirements of this paragraph no later than October 1, 1999. The failure by a local government to comply with these school siting requirements by October 1, 1999, will result in the prohibition of the local government's ability to amend the local comprehensive plan, except for plan amendments described in s. 163.3187(1)(b), until the school siting requirements are met. An amendment proposed by a local government for purposes of identifying the land use categories in which public schools are an allowable use is exempt from the limitation on the frequency of plan amendments contained in s. 163.3187. The future land use element shall include criteria which encourage the location of schools proximate to urban residential areas to the extent possible and shall require that the local government seek to collocate public facilities, such as parks, libraries, and community centers, with schools to the extent possible.

(b) A traffic circulation element consisting of the types, locations, and extent of existing and proposed major thoroughfares and transportation routes, including bicycle and pedestrian ways. Transportation corridors, as defined in s. 334.03, may be designated in the traffic circulation element pursuant to s. 337.273. If the transportation corridors are designated, the local government may adopt a transportation corridor management ordinance.

(c) A general sanitary sewer, solid waste, drainage, potable water, and natural groundwater aquifer recharge element correlated to principles and guidelines for future land use, indicating ways to provide

for future potable water, drainage, sanitary sewer, solid waste, and aquifer recharge protection requirements for the area. The element may be a detailed engineering plan including a topographic map depicting areas of prime groundwater recharge. The element shall describe the problems and needs and the general facilities that will be required for solution of the problems and needs. The element shall also include a topographic map depicting any areas adopted by a regional water management district as prime groundwater recharge areas for the Floridan or Biscayne aquifers, pursuant to s. 373.0395. These areas shall be given special consideration when the local government is engaged in zoning or considering future land use for said designated areas. For areas served by septic tanks, soil surveys shall be provided which indicate the suitability of soils for septic tanks.

(d) A conservation element for the conservation, use, and protection of natural resources in the area, including air, water, water recharge areas, wetlands, waterwells, estuarine marshes, soils, beaches, shores, flood plains, rivers, bays, lakes, harbors, forests, fisheries and wildlife, marine habitat, minerals, and other natural and environmental resources. Local governments shall assess their current, as well as projected, water needs and sources for a 10-year period. This information shall be submitted to the appropriate agencies. The land use map or map series contained in the future land use element shall generally identify and depict the following:

1. Existing and planned waterwells and cones of influence where applicable.
2. Beaches and shores, including estuarine systems.
3. Rivers, bays, lakes, flood plains, and harbors.
4. Wetlands.
5. Minerals and soils.

The land uses identified on such maps shall be consistent with applicable state law and rules.

(e) A recreation and open space element indicating a comprehensive system of public and private sites for recreation, including, but not limited to, natural reservations, parks and playgrounds, parkways, beaches and public access to beaches, open spaces, and other recreational facilities.

(f)1. A housing element consisting of standards, plans, and principles to be followed in:

- a. The provision of housing for all current and anticipated future residents of the jurisdiction.
- b. The elimination of substandard dwelling conditions.
- c. The structural and aesthetic improvement of existing housing.
- d. The provision of adequate sites for future housing, including housing for low-income, very low-income, and moderate-income families, mobile homes, and group home facilities and foster care facilities, with supporting infrastructure and public facilities.
- e. Provision for relocation housing and identification of historically significant and other housing for purposes of conservation, rehabilitation, or replacement.
- f. The formulation of housing implementation programs.
- g. The creation or preservation of affordable housing to minimize the need for additional local services and avoid the concentration of affordable housing units only in specific areas of the jurisdiction.

The goals, objectives, and policies of the housing element must be based on the data and analysis prepared on housing needs, including the affordable housing needs assessment. State and federal housing plans prepared on behalf of the local government must be consistent with the goals, objectives, and policies of the housing element. Local governments are encouraged to utilize job training, job creation, and economic solutions to address a portion of their affordable housing concerns.

2. To assist local governments in housing data collection and analysis and assure uniform and consistent information regarding the state's housing needs, the state land planning agency shall conduct an affordable housing needs assessment for all local jurisdictions on a schedule that coordinates the implementation of the needs assessment with the evaluation and appraisal reports required by s. 163.3191. Each local government shall utilize the data and analysis from the needs assessment as one basis for the housing element of its local comprehensive plan. The agency shall allow a local government the option to perform its own needs assessment, if it uses the methodology established by the agency by rule.

(g) For those units of local government identified in s. 380.24, a coastal management element, appropriately related to the particular requirements of paragraphs (d) and (e) and meeting the requirements of s. 163.3178(2) and (3). The coastal management element shall set forth the policies that shall guide the local government's decisions and program implementation with respect to the following objectives:

1. Maintenance, restoration, and enhancement of the overall quality of the coastal zone environment, including, but not limited to, its amenities and aesthetic values.

2. Continued existence of viable populations of all species of wildlife and marine life.

3. The orderly and balanced utilization and preservation, consistent with sound conservation principles, of all living and nonliving coastal zone resources.

4. Avoidance of irreversible and irretrievable loss of coastal zone resources.

5. Ecological planning principles and assumptions to be used in the determination of suitability and extent of permitted development.

6. Proposed management and regulatory techniques.

7. Limitation of public expenditures that subsidize development in high-hazard coastal areas.

8. Protection of human life against the effects of natural disasters.

9. The orderly development, maintenance, and use of ports identified in s. 403.021(9) to facilitate deepwater commercial navigation and other related activities.

10. Preservation, including sensitive adaptive use of historic and archaeological resources.

(h)1. An intergovernmental coordination element showing relationships and stating principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing services but not having regulatory authority over the use of land, with the comprehensive plans of adjacent municipalities, the county, adjacent counties, or the region, and with the state comprehensive plan, as the case may require and as such adopted plans or plans in preparation may exist. This element of the local comprehensive plan shall demonstrate consideration of the particular effects of the local plan, when adopted, upon the development of adjacent municipalities, the county, adjacent counties, or the region, or upon the state comprehensive plan, as the case may require.

a. The intergovernmental coordination element shall provide for procedures to identify and implement joint planning areas, especially for the purpose of annexation, municipal incorporation, and joint infrastructure service areas.

b. The intergovernmental coordination element shall provide for recognition of campus master plans prepared pursuant to s. 240.155.

c. The intergovernmental coordination element may provide for a voluntary dispute resolution process as established pursuant to s. 186.509 for bringing to closure in a timely manner intergovernmental disputes. A local government may develop and use an alternative local dispute resolution process for this purpose.

2. The intergovernmental coordination element shall further state principles and guidelines to be used in the accomplishment of coordination of the adopted comprehensive plan with the plans of school boards and other units of local government providing facilities and services but not having regulatory authority over the use of land. In addition, the intergovernmental coordination element shall describe joint processes for collaborative planning and decisionmaking on population projections and public school siting, the location and extension of public facilities subject to concurrency, and siting facilities with countywide significance, including locally unwanted land uses whose nature and identity are established in an agreement. Within 1 year of adopting their intergovernmental coordination elements, each county, all the municipalities within that county, the district school board, and any unit of local government service providers in that county shall establish by interlocal or other formal agreement executed by all affected entities, the joint processes described in this subparagraph consistent with their adopted intergovernmental coordination elements.

3. To foster coordination between special districts and local general-purpose governments as local general-purpose governments implement local comprehensive plans, each independent special district must submit a public facilities report to the appropriate local government as required by s. 189.415.

4. The state land planning agency shall establish a schedule for phased completion and transmittal of plan amendments to implement subparagraphs 1., 2., and 3. from all jurisdictions so as to accomplish their adoption by December 31, 1999. A local government may complete and transmit its plan amendments to carry out these provisions prior to the scheduled date established by the state land planning agency. The plan amendments are exempt from the provisions of s. 163.3187(1).

(i) The optional elements of the comprehensive plan in paragraphs (7)(a) and (b) are required elements for those municipalities having populations greater than 50,000, and those counties having populations greater than 75,000, as determined under s. 186.901.

7. Airports, projected airport and aviation development, and land use compatibility around airports.

8. An identification of land use densities, building intensities, and transportation management programs to promote public transportation systems in designated public transportation corridors so as to encourage population densities sufficient to support such systems.

9. May include transportation corridors, as defined in s. 334.03, intended for future transportation facilities designated pursuant to s. 337.273. If transportation corridors are designated, the local government may adopt a transportation corridor management ordinance.

(k) *An airport master plan, and any subsequent amendments to the airport master plan, prepared by a licensed publicly owned and operated*

Section 8. Paragraph (a) of subsection (1) of section 255.20, Florida Statutes, is amended to read:

255.20 Local bids and contracts for public construction works; specification of state-produced lumber.—

(1) A county, municipality, special district as defined in chapter 189, or other political subdivision of the state seeking to construct or improve a public building, structure, or other public construction works must competitively award to an appropriately licensed contractor each project that is estimated in accordance with generally accepted cost-accounting principles to have total construction project costs of more than \$200,000. For electrical work, local government must competitively award to an appropriately licensed contractor each project that is estimated in accordance with generally accepted cost-accounting principles to have a cost of more than \$50,000. As used in this section, the term "competitively award" means to award contracts based on the submission of sealed bids, proposals submitted in response to a request for qualifications, or proposals submitted for competitive negotiation. This subsection expressly allows contracts for construction management services, design/build contracts, continuation contracts based on unit prices, and any other contract arrangement with a private sector contractor permitted by any applicable municipal or county ordinance, by district resolution, or by state law. For purposes of this section, construction costs include the cost of all labor, except inmate labor, and include the cost of equipment and materials to be used in the construction of the project. Subject to the provisions of subsection (3), the county, municipality, special district, or other political subdivision may establish, by municipal or county ordinance or special district resolution, procedures for conducting the bidding process.

(a) The provisions of this subsection do not apply:

1. When the project is undertaken to replace, reconstruct, or repair an existing facility damaged or destroyed by a sudden unexpected turn of events, such as an act of God, riot, fire, flood, accident, or other urgent circumstances, and such damage or destruction creates:

- a. An immediate danger to the public health or safety;
- b. Other loss to public or private property which requires emergency government action; or
- c. An interruption of an essential governmental service.

2. When, after notice by publication in accordance with the applicable ordinance or resolution, the governmental entity does not receive any responsive bids or responses.

3. To construction, remodeling, repair, or improvement to a public electric or gas utility system when such work on the public utility system is performed by personnel of the system.

4. To construction, remodeling, repair, or improvement by a utility commission whose major contracts are to construct and operate a public electric utility system.

5. When the project is undertaken as repair or maintenance of an existing public facility.

6. When the project is undertaken exclusively as part of a public educational program.

7. When the funding source of the project will be diminished or lost because the time required to competitively award the project after the funds become available exceeds the time within which the funding source must be spent.

8. When the local government has competitively awarded a project to a private sector contractor and the contractor has abandoned the project before completion or the local government has terminated the contract.

9. When the governing board of the local government, after public notice, conducts a public meeting under s. 286.011 and finds by a majority vote of the governing board that it is in the public's best interest to perform the project using its own services, employees, and equipment. The public notice must be published at least 14 days prior to the date of the public meeting at which the governing board takes final action to apply this subparagraph. The notice must identify the project, the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to perform the project using the local government's own services, employees, and equipment. In deciding whether it is in the public's best interest for local government to perform a project using its own services, employees, and equipment, the governing board may consider the cost of the project, whether the project requires an increase in the number of government employees, an increase in capital expenditures for public facilities, equipment or other capital assets, the impact on local economic development, the impact on small and minority business owners, the impact on state and local tax revenues, whether the private sector contractors provide health insurance and other benefits equivalent to those provided by the local government, and any other factor relevant to what is in the public's best interest.

10. When the governing board of the local government determines upon consideration of specific substantive criteria and administrative procedures that it is in the best interest of the local government to award the project to an appropriately licensed private sector contractor according to procedures established by and expressly set forth in a charter, ordinance, or resolution of the local government adopted prior to July 1, 1994. The criteria and procedures must be set out in the charter, ordinance, or resolution and must be applied uniformly by the local government to avoid award of any project in an arbitrary or capricious manner. This exception shall apply when all of the following occur:

a. When the governing board of the local government, after public notice, conducts a public meeting under s. 286.011 and finds by a two-thirds vote of the governing board that it is in the public's best interest to award the project according to the criteria and procedures established by charter, ordinance, or resolution. The public notice must be published at least 14 days prior to the date of the public meeting at which the governing board takes final action to apply this subparagraph. The notice must identify the project, the estimated cost of the project, and specify that the purpose for the public meeting is to consider whether it is in the public's best interest to award the project using the criteria and procedures permitted by the preexisting ordinance.

b. In the event the project is to be awarded by any method other than a competitive selection process, the governing board must find evidence that:

(I) There is one appropriately licensed contractor who is uniquely qualified to undertake the project because that contractor is currently under contract to perform work that is affiliated with the project; or

(II) The time to competitively award the project will jeopardize the funding for the project, or will materially increase the cost of the project or will create an undue hardship on the public health, safety, or welfare.

c. In the event the project is to be awarded by any method other than a competitive selection process, the published notice must clearly specify the ordinance or resolution by which the private sector contractor will be selected and the criteria to be considered.

d. In the event the project is to be awarded by a method other than a competitive selection process, the architect or engineer of record has provided a written recommendation that the project be awarded to the private sector contractor without competitive selection; and the consideration by, and the justification of, the government body are documented, in writing, in the project file and are presented to the governing board prior to the approval required in this paragraph.

11. *To projects subject to chapter 336.*
