5. Is this a multi-year project requiring funding from the state for more than one year? Yes No

a. How much state funding would be requested after 2021-22 over the next 5 years?

<Click to Select>

Estimate the total state funding that will be requested over the next 5 years, including the current request. Include both nonrecurring funding and any annual operating funding that will be requested when you select an answer.

b. How many additional years of state support do you expect to need for this project?

<Click to Select>

c. What is the total project cost for all years including all federal, local, state, and any other funds? Select the single answer which best describes the total project cost. If funds requested are for ongoing services or for recurring activities, select "ongoing activity".

<Click to Select>

Provide the total nonrecurring cost of the project for all years assuming the project has a beginning and a completion. Include all funds required to complete the project including federal, state, local and other funds needed. For any projects that are ongoing in nature (such as recurring administrative or operating costs) select "on-going activity – no total cost".

15. Is the project request an information technology project? Yes No **If "No" or a water project, skip to #16**

a. Will this information technology project be managed within a state agency to support state agency program goals? Yes No

b. What is the total cost (all years) to design and build the project?

This amount should total all nonrecurring costs expected over the entire project lifecycle by fiscal year, identifying all one-time costs from project initiation to implementation.

c. What are the ongoing (annual recurring) maintenance and operation costs once the project is completed?

This cost should total the annual amount necessary to sustain the project once completed, to include personnel (state FTE and contractors), application maintenance (such as annual software as a service (SaaS) licensing/usage costs, hardware lease/purchase), data center services, plant and facility costs (such as call center space or offices for support staff), and any other recurring costs.

d. Can the state agency fund the ongoing annual recurring costs within its current operating budget? Yes No

e. What are the specific business objectives or needs the IT project is intended to address?

400 maximum characters allowed *Provide a clear statement of need that describes the conditions that created, or significantly contributed to, the problem or opportunity being addressed by the project. Document the current status of the program or service and describe in detail all areas that need improvement that the project will address, i.e., current inefficiencies, problems and/or shortfalls.*

f. Based upon the identified business objectives or needs, what are the success factors that must be realized in order for the state agency to consider the proposed IT project a success?

100 maximum characters allowed *Clearly identify the results that must be achieved from the proposed solution that will prove the project was successful. Propose any quantifiable business metrics that could be used to determine project success.*
