OTHER

1 Committee/Subcommittee hearing bill: Agriculture & Natural Resources Subcommittee
2 Representative Jenne offered the following:

   Amendment

   Remove lines 21-24 and insert:

   performed by injecting fluids at a high rate into a rock formation:

   (a) At a pressure that is at or exceeds the fracture gradient of the rock formation and that has the purpose or effect of fracturing the formation in order to increase production or recovery from an oil or gas well, such as hydraulic fracturing or acid fracturing; or

   (b) At a pressure that is below the fracture gradient of the rock formation and that has the purpose or effect of
dissolving the formation to increase production or recovery from an oil or gas well, such as matrix acidizing.

The term does not include techniques used for conventional well
