SUMMARY ANALYSIS

School buses are required to stop as far to the right of the street as possible and display warning lights and stop signals before discharging or loading passengers. Other drivers are required to bring their vehicles to a full stop when approaching a stopped school bus displaying a stop signal, until the signal has been withdrawn.

The minimum civil penalty for failing to stop for a school bus displaying the stop signal is \$100. For a second or subsequent offense within a period of five years, the Department of Highway Safety and Motor Vehicles (DHSMV) must suspend the driver license of the driver for not less than three months and not more than six months.

The minimum civil penalty for passing a school bus on the side that children enter and exit when the school bus displays a stop signal is \$200. For a second or subsequent offense within a period of five years, DHSMV must suspend the driver license of the driver for not less than six months and not more than one year.

The bill increases the minimum civil penalty for failure to stop for a school bus from \$100 to \$200; and for a subsequent offense within five years, DHSMV must suspend the driver license of the driver for not less than six months and not more than one year.

The bill also increases the minimum civil penalty for passing a school bus on the side that children enter and exit, from \$200 to \$400; and for a subsequent offense within five years, DHSMV must suspend the driver license of the driver for not less than one year and not more than two years.

The bill will likely have an indeterminate, positive fiscal impact to state and local government revenues. See fiscal impact section for additional details.

FULL ANALYSIS

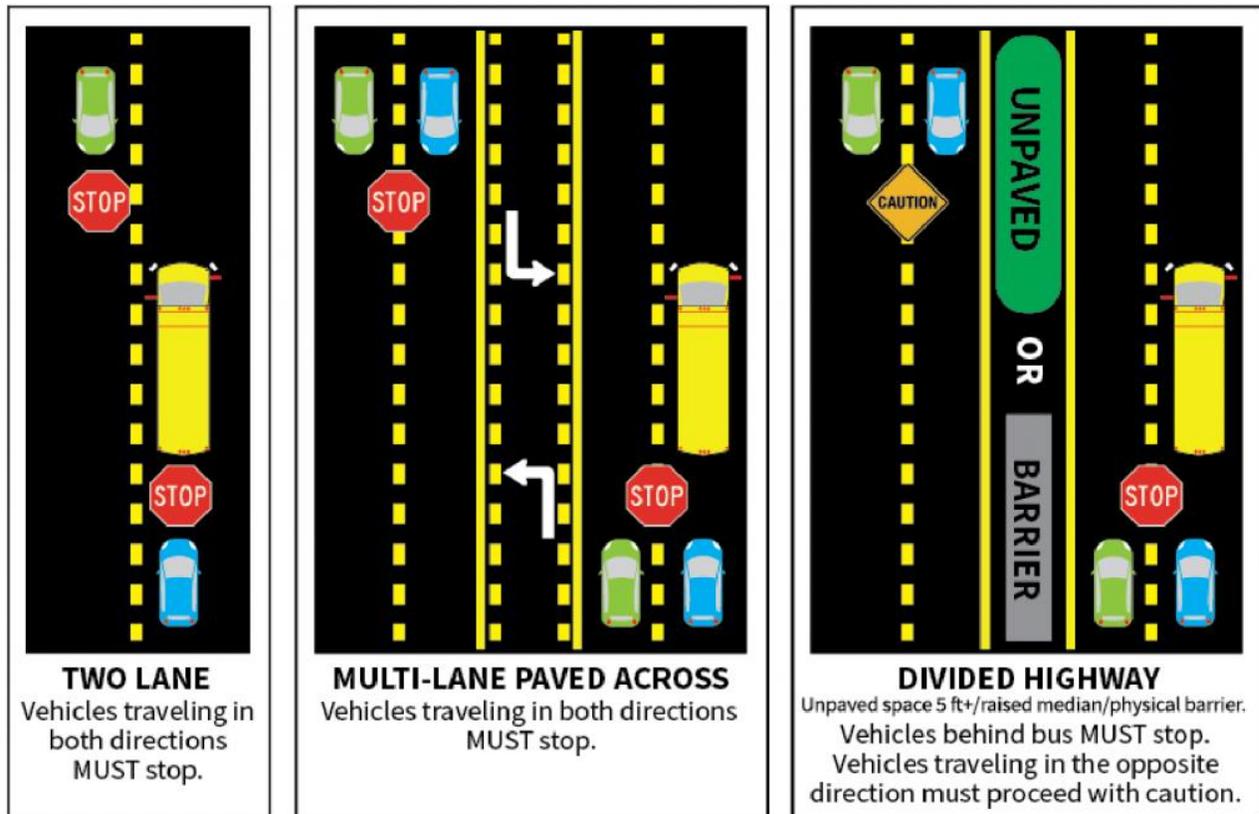

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Current Situation

School buses are required to stop as far to the right of the street as possible and display warning lights and stop signals before discharging or loading passengers.¹ When possible, school buses should not stop where visibility is obscured for a distance of 200 feet either way from the bus.²

Other drivers are required to bring their vehicles to a full stop when approaching a stopped school bus displaying a stop signal, until the signal has been withdrawn.³ However, a driver is not required to stop if the vehicle is traveling in the opposite direction of a stopped school bus upon a divided highway with an unpaved space of at least 5 feet, a raised median, or a physical barrier.⁴

A person cited for failing to stop for a school bus displaying the stop signal commits a moving violation and can pay the civil penalty of the citation, or can request a hearing to contest the citation.⁶ A driver who passes a school bus on the side that children enter and exit while the school bus displays a stop signal⁷ also commits a moving violation; however, the driver must attend a mandatory hearing at a specified time and location.⁸

⁷ Section 316.172(1)(b), F.S.

⁸ Sections 316.172(1)(b) and 318.19(3), F.S.

The minimum civil penalty for failing to stop for a school bus displaying the stop signal is \$100. For a second or subsequent offense within a period of five years, the Department of Highway Safety and Motor Vehicles (DHSMV) must suspend the driver license of the driver for not less than three months and not more than six months.⁹ Including various fees and service charges, the total fine for this violation is up to \$263, which is distributed to various funds.¹⁰

The minimum civil penalty for passing a school bus on the side that children enter and exit when the school bus displays a stop signal is \$200. For a second or subsequent offense within a period of five years, DHSMV must suspend the driver license of the driver for not less than six months and not more than one year.¹¹ Including various fees and service charges, the total fine for this violation is up to \$363, which is distributed to various funds.¹²

In addition to the above penalties, a driver who illegally passes a stopped school bus, but does not cause serious bodily injury to or death of another, will receive four points on his or her driver license record.¹³ A driver who illegally passes a stopped school bus and causes serious bodily injury to or death of another will receive six points on his or her driver license record.¹⁴

A driver who illegally passes a school bus on either side and causes serious bodily injury to or death of another person must serve 120 community service hours in a trauma center or hospital that regularly receives victims of vehicle accidents, and must participate in a victim's impact panel session, or if such panel does not exist, must attend a DHSMV-approved driver improvement course.¹⁵ In addition, the driver must pay a fine of \$1,500 and will have his or her driver license suspended by DHSMV for not less than one year.¹⁶

If the driver receives a traffic citation for illegally passing a stopped school bus and the court withholds adjudication, DHSMV will require him or her to complete a driver improvement course. If the course is not completed within 90 days of receiving a notice of the requirement to attend, the driver's license will be canceled until the improvement course is successfully completed.¹⁷

According to DHSMV data, in fiscal year 2018-2019, 3,760 traffic citations were issued for failing to stop for a school bus or passing a stopped school bus and 38 citations were issued for passing a school bus on the side children enter and exit.¹⁸

The Department of Education created a statewide survey for bus drivers to complete one day each year regarding the illegal passing of their school buses. The survey results from 2018 show that on a single day 10,937 illegal passes were made based on 9,009 school bus drivers completing the survey. Of these illegal passes, 447 were made on the right side of the bus where students generally enter and exit the vehicle, 10,018 were made on the left side, and for 472 of the passes the side was unknown.¹⁹

The National Highway Traffic Safety Administration indicates that from 2007 to 2016, 98 school-age pedestrians (18 and younger) died in school-transportation-related crashes. Sixty percent were struck

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

The bill will likely have a positive fiscal impact to local government revenues. The number of drivers who will be subjected to the additional \$100 or \$200 fine is unknown; therefore the impact is indeterminate, though likely insignificant.

2. Expenditures:

The bill does not appear to impact local government expenditures.
